

Dear Sir/Madam,

Regarding attached Directive, we think it will limit Chinese APIs access into EU, and increase Chinese APIs manufacturers' cost. It's unfair to Chinese APIs manufacturers.

We paid a lot of money to get and update our CEPs, and paid a lot of money to get GMP Certificate. However, they'll be useless in front of this Directive.

We are requiring SFDA to discuss with European authority about this Directive to protect Chinese APIs manufacturers' interest.

Sincerely yours,

Ma Chunyan
