

Meeting of the Commission's advisory panel on COVID-19 - agenda

Thursday 9/07/2020 at 18:00

Points for discussion

1. EU Communication on short-term EU health preparedness for COVID-19 outbreaks

- Are there any missing elements in the current draft?
- What do you consider the most essential measure to prepare for possible future outbreaks?
- Are there any challenges that continue to be present since the start of the pandemic (e.g. specific knowledge gaps)?
- What should be the most appropriate communication approach (taking into account the experience of first wave, lockdowns, summer, economic considerations, etc) towards Member States and the general public?
