

Joint proposal from some members on future Think Tank meetings

**Paolo Guglielmetti
Health Threats Unit
DG Health and Consumers
European Commission**

- **Joint proposal submitted by: Denmark, France, Germany, Norway, Sweden, Switzerland, and UK**
- **Focusing on: thematic and logistical issues**

Thematic suggestions (1)

- **Focus each meeting on one specific theme (i.e. MSM, migrants sex workers, testing, treatment, prevention)**
- **All presentations focusing on this single theme**
- **Themes could be derived from priorities of HIV Action Plan and key issues identified by Member States (including Presidencies)**
- **Less time to be devoted to agency updates (written information instead)**

Thematic suggestions (2)

- **One meeting per year could be organised in the country holding the EU Presidency, or another Member State**
- **A field visit could be included, i.e. to a community based testing facility, refugee centre etc., to improve exchange with civil society organisations**

Logistical issues

- **Early announcement of meeting dates (one year in advance)**
- **Powerpoint presentations to be available as print out at meetings**
- **Short to the point presentations**
- **Presentations to be made online asap**
- **Meeting minutes to be available soon after meeting (one month)**
- **Starting meetings earlier**
