

NOTE TO HEALTH INFORMATION COMMITTEE

Subject: ECHIM comprehensive list

As agreed during one of the previous Health Information Committee meetings, attached is the ECHIM comprehensive list (updated until 2008) of projects which are relevant for ECHI/European public health monitoring. EHCHIM hopes that this list can serve as a useful tool for the Health Information Committee to keep track of relevant health information developments within the Commission. It will be published on www.healthindicators.eu in April.

Annex: ECHIM comprehensive list

Action for the Committee:

X	For information
	For comments
	For agreement
