

#EUHPP LIVE WEBINAR

State of trans-specific healthcare in the EU: What does the Trans Health Map 2024 tell us?

6 NOVEMBER 2024, 11.00 – 12.15 CET, BRUSSELS TIME

Dear colleagues,

We invite you to join this #EUHPP Live Webinar.

Trans-specific healthcare is essential and often, life-saving healthcare for trans people. Yet, there is limited systematically collected information on the availability and accessibility of such healthcare for trans people in the EU. The Trans Health Map 2024 seeks to bridge this data gap and presents a snapshot of how different EU Member States make trans-specific healthcare available. This second edition of the Map will cover various aspects, such as key medical interventions, waiting times, how further marginalised trans people are affected and sexual and reproductive health. It will serve as a key informational and advocacy resource for trans rights organisations, healthcare providers, and healthcare policymakers alike.

In this webinar, Trans Europe and Central Asia (TGEU) and a panel of expert speakers will highlight key findings from the Trans Health Map 2024 and draw attention to the critical issues concerning the accessibility of trans-specific healthcare in EU Member States.

Register to this webinar following [this link](#).

Once registered, you will receive the calendar invitation from Webex. Please pin it in your calendar and go back to it on the webinar day.

This webinar will be held in English

If you have any further questions, please contact sante-hpp@ec.europa.eu

We are looking forward to welcoming you online.
