Thursday 8/10/2020 at 17:00

Points for discussion

1. State of play and outlook

Background documents: ECDC's latest risk assessment report and the [15 July Commission Communication on COVID-19 preparedness](#).

- How much should we worry?
- What else can/should we do at EU level?
- What messages should come from EU level?

2. Vaccination strategy for Europe

Background document: 'Blueprint for an EU vaccination plan for COVID-19', as discussed by and agreed with Member States in the Health Security Committee before the summer.

The blueprint provides a framework for a COVID-19 vaccination plan, outlining steps and actions around several key factors that should be considered for the preparation of national or regional vaccination plans. This blueprint will now form the basis for a European Commission proposal for a Council recommendation.

- Do you have any comments on the blueprint?
- What are the key criteria to be considered when preparing a recommendation for Member States?
