Topic 4.3.2.   Activities on cybersecurity – ENISA

Issue at stake
ENISA would like to bring to the attention of the eHealth Network a number of developments regarding cybersecurity in eHealth and to provide an update on the relevant activities of the Agency. The latter will also serve the purpose of identifying potential areas where eHealth Network members may wish to collaborate with ENISA or be included in the relevant activities.

Summary

The presentation will focus on three main areas:
 	
1. Situational analysis of cybersecurity in eHealth
 	
    a. ENISA will present the current and evolving cybersecurity landscape in the sector
 	
2. Evolving regulatory landscape for cybersecurity in digital health
 	
    a. Implementation status of the NIS Directive
 	
    b. Medical Devices Regulation Cybersecurity task force
 	
    c. Cybersecurity Act / Cybersecurity Certification Framework
 	
3. ENISA's on-going activities in digital health
 	
    a. 2019 report on procurement guidelines for Healthcare organisations
 	
    b. Cyber Europe 2020
 	
    c. 5th eHealth Security Conference organised by ENISA in Barcelona

Format of procedure in the eHealth Network meeting
The Commission co-chair introduces the agenda topic. The activities will be presented to the eHealth Network members.
