Rauchlose Tabakerzeugnisse gefährden nicht die Gesundheit Dritter. Ein Verbot von Snus entmündigt die EU-Bürger.

Ich denke, dass ein Warnhinweis wirksamer ist, wenn er größer ist. Ausserdem besteht bereits ein Bewusstsein für die Risiken des Rauchens, ein Bildwarnhinweis ist überflüssig.

Einheitspackungen greifen in das freie Markenrecht ein. Einheitspackungen führen zu einer Preisspirale, dadurch werden Groß- und Einzelhändler und damit mein Arbeitsplatz gefährdet.

Durch Zusatzstoffe werden Zigaretten nicht attraktiver. Zigaretten ohne Zusatzstoffe geben dem illegalen Handel auftrieb.

In 15 von 27 Mitgliedsstaaten sind Zigarettenautomaten erlaubt und das sollte so bleiben. Der Verkauf über Automaten erfolgt unter strengen gesetzlichen Auflagen, z.B. Ausweisleser in Deutschland. Zigarettenautomaten fallen in den Zuständigkeitsbereich der einzelnen Staaten. Der Verkauf über Automaten erfolgt lokal und weist keinen grenzüberschreitenden Bezug auf. Zigarettenautomaten haben meiner Meinung nach keinen Einfluss auf das Rauchverhalten Jugendlicher.

Rauchlose Tabakerzeugnisse gefährden nicht die Gesundheit Dritter. Ein Verbot von Snus entmündigt die EU-Bürger.

explanations

Ich denke, dass ein Warnhinweis wirksamer ist, wenn er größer ist. Ausserdem besteht bereits ein Bewusstsein für die Risiken des Rauchens, ein Bildwarnhinweis ist überflüssig. Einheitspackungen greifen in das freie Markenrecht ein. Einheitspackungen führen zu einer Preisspirale, dadurch werden Groß- und Einzelhändler und damit mein Arbeitsplatz gefährdet.

Durch Zusatzstoffe werden Zigaretten nicht attraktiver. Zigaretten ohne Zusatzstoffe geben dem illegalen Handel auftrieb.

access to tobacco products**problem definition**

No

explanations

In 15 von 27 Mitgliedsstaaten sind Zigarettenautomaten erlaubt und das sollte so bleiben. Der Verkauf über Automaten erfolgt unter strengen gesetzlichen Auflagen, z.B. Ausweisleser in Deutschland. Zigarettenautomaten fallen in den Zuständigkeitsbereich der einzelnen Staaten. Der Verkauf über Automaten erfolgt lokal und weist keinen grenzüberschreitenden Bezug auf. Zigarettenautomaten haben meiner Meinung nach keinen Einfluss auf das Rauchverhalten Jugendlicher.

Rauchlose Tabakerzeugnisse gefährden nicht die Gesundheit Dritter. Ein Verbot von Snus entmündigt die EU-Bürger.

Ich denke, dass ein Warnhinweis wirksamer ist, wenn er größer ist. Ausserdem besteht bereits ein Bewusstsein für die Risiken des Rauchens, ein Bildwarnhinweis ist überflüssig.

Einheitspackungen greifen in das freie Markenrecht ein. Einheitspackungen führen zu einer Preisspirale, dadurch werden Groß- und Einzelhändler und damit mein Arbeitsplatz gefährdet.

In 15 von 27 Mitgliedsstaaten sind Zigarettenautomaten erlaubt und das sollte so bleiben. Der Verkauf über Automaten erfolgt unter strengen gesetzlichen Auflagen, z.B. Ausweisleser in Deutschland. Zigarettenautomaten fallen in den Zuständigkeitsbereich der einzelnen Staaten. Der Verkauf über Automaten erfolgt lokal und weist keinen grenzüberschreitenden Bezug auf. Zigarettenautomaten haben meiner Meinung nach keinen Einfluss auf das Rauchverhalten Jugendlicher.

questions scope

problem definition

No

explanations

No, I disagree with the problem definition. The problem definition provided by the

Consultation document is vague, confused and inaccurate. There is no analysis within the Consultation document of Union competence to adopt the proposed options and no discussion of the internal market issues that would be required in order for the Union to proceed on the proposed option. Furthermore, the problem definition does not contain any evidence to demonstrate the justification for the various options provided in this section

which option

No change

questions smokeless

problem definition

No

comments

No, the problem definition is not acceptable as drafted. It is vague, confused and unclear. Statements in the problem definition address all smokeless tobacco products without making any differentiation between the various types of products in this category. By ignoring this variety, the Consultation creates confusion rather than providing clarity to allow for objective policy choices.

which option

No change

questions consumer

problem definition

No

explanations

No. There is no credible or scientific evidence which demonstrates this is a necessary step. This problem definition tries to cover too many options at once. Packaging provides consumers who wish to purchase products with information about the product they have chosen. Tobacco packaging has never been identified as a reason why children start to smoke or why adult smokers continue to choose to smoke. Plain packaging would lead to an increase in counterfeit products and illicit trade. It will have a negative impact on competition. Plain packaging expropriates the brand owners of valuable intellectual property. Pictorial health warnings make no additional contribution to the public awareness of the risks.

which option

No change

questions on reporting

problem definition

No

explanations

No. All EU Member States need to agree to and adopt the common reporting format for ingredient reporting in a fully harmonized way. Introducing fees and sanctions is clearly outside the Commission's competence. With regard to this option, the Commission has also failed to analyse the impact of registration fees on the functioning of the Internal Market as the level of fees would vary between Member States and would impede its functioning. Also,

registration fees would likely lead to a further increase of Anti-Illicit Trade.

regulation of ingredients

problem definition

No

explanations

No, I do No, I do not agree with the problem definition. The concept “attractiveness” is an unsound base for regulation. Ingredients give brands distinctive styles -> competition.

Ingredients also apply to substances in the non-tobacco materials needed to eg. filter, paper adhesive etc. There is no evidence that ingredients enhance or in themselves are addictive. not agree with the problem definition. which option

No Change

access to tobacco products

problem definition

No

explanations

No. The problem definition is vague and incomplete. The display of tobacco products at PoS is important to the proper operation of a market economy in the sale of legal tobacco products. It informs the consumer of the products available, their characteristics, their price and the pack sizes available. Particularly in situations where other channels of communication may be restricted, consumers must be able to identify easily, quickly and effectively the existence and availability of tobacco products and to distinguish between them. Product display ban could exacerbate the illicit trade in contraband and counterfeit products. Consumers would not be able to distinguish legally traded and illicit products. Vending: vending machines in Belgium are strictly controlled to prevent sales to children. It is therefore unnecessary and disproportionate to prohibit tobacco vending.

questions scope**problem definition**

No

explanations

No, I disagree with the problem definition. The problem definition provided by the Consultation document is vague, confused and inaccurate. There is no analysis within the Consultation document of Union competence to adopt the proposed options and no discussion of the internal market issues that would be required in order for the Union to proceed on the proposed option. Furthermore, the problem definition does not contain any evidence to demonstrate the justification for the various options provided in this section

questions smokeless**problem definition**

No

comments

No, the problem definition is not acceptable as drafted. It is vague, confused and unclear. Statements in the problem definition address all smokeless tobacco products without making any differentiation between the various types of products in this category. By ignoring this variety, the Consultation creates confusion rather than providing clarity to allow for objective policy choices.

which option

Lifting the ban on snus

additional option

NO

additional comments

Snus is legally sold in a number of countries worldwide and we believe there is no justification for a ban on snus within the EU.

questions consumer

problem definition

No

explanations

No. There is no credible or scientific evidence which demonstrates this is a necessary step. This problem definition tries to cover too many options at once. Packaging provides consumers who wish to purchase products with information about the product they have chosen. Tobacco packaging has never been identified as a reason why children start to smoke or why adult smokers continue to choose to smoke. Plain packaging would lead to an increase in counterfeit products and illicit trade. It will have a negative impact on competition. Plain packaging expropriates the brand owners of valuable intellectual property. Pictorial health warnings make no additional contribution to the public awareness of the risks.

additional option

additional comments

NO

questions on reporting

problem definition

No

explanations

No. All EU Member States need to agree to and adopt the common reporting format for ingredient reporting in a fully harmonized way. Introducing fees and sanctions is clearly outside the Commission's competence. With regard to this option, the Commission has also

failed to analyse the impact of registration fees on the functioning of the Internal Market as the level of fees would vary between Member States and would impede its functioning. Also, registration fees would likely lead to a further increase of Anti-Illicit Trade.

which option

Establish a common compulsory reporting format

additional options

NO

additional comments

NO

regulation of ingredients

problem definition

No

explanations

No, I do not agree with the problem definition. The concept “attractiveness” is an unsound base for regulation. Ingredients give brands distinctive styles -> competition. Ingredients also apply to substances in the non-tobacco materials needed to eg. filter, paper adhesive etc. There is no evidence that ingredients enhance or in themselves are addictive. The problem definition incorrectly defines the use of ingredients and claims without foundation that the majority form carcinogens, mutagens and/or toxic for reproduction. In the case of, for example, mentholated cigarettes have been available for several decades yet there is no credible scientific evidence to suggest that their use is associated with increased smoking incidence, increased consumption, change in smoking behavior or reduced quitting rates compared to other cigarettes. Furthermore, there is no evidence that smokers of mentholated cigarettes inhale more deeply.

which option

No Change

additional option

No, but a common list of authorised ingredients could be generated using both sound and scientific principles and criteria.

additional comments

NO

access to tobacco products

problem definition

No

explanations

No. The problem definition is vague and incomplete. The display of tobacco products at PoS is important to the proper operation of a market economy in the sale of legal tobacco products. It informs the consumer of the products available, their characteristics, their price and the pack sizes available. Particularly in situations where other channels of communication may be restricted, consumers must be able to identify easily, quickly and effectively the existence and

availability of tobacco products and to distinguish between them. Product display ban could exacerbate the illicit trade in contraband and counterfeit products. Consumers would not be able to distinguish legally traded and illicit products. Vending: vending machines in Belgium are strictly controlled to prevent sales to children. It is therefore unnecessary and disproportionate to prohibit tobacco vending.

Rauchlose Tabakerzeugnisse gefährden nicht die Gesundheit Dritter. Ein Verbot von Snus entmündigt die EU-Bürger.

Ich denke, dass ein Warnhinweis wirksamer ist, wenn er größer ist. Ausserdem besteht bereits ein Bewusstsein für die Risiken des Rauchens, ein Bildwarnhinweis ist überflüssig.

Einheitspackungen greifen in das freie Markenrecht ein. Einheitspackungen führen zu einer Preisspirale, dadurch werden Groß- und Einzelhändler und damit mein Arbeitsplatz gefährdet.

Durch Zusatzstoffe werden Zigaretten nicht attraktiver. Zigaretten ohne Zusatzstoffe geben dem illegalen Handel auftrieb.

explanations

In 15 von 27 Mitgliedsstaaten sind Zigarettenautomaten erlaubt und das sollte so bleiben. Der Verkauf über Automaten erfolgt unter strengen gesetzlichen Auflagen, z.B. Ausweisleser in Deutschland. Zigarettenautomaten fallen in den Zuständigkeitsbereich der einzelnen Staaten. Der Verkauf über Automaten erfolgt lokal und weist keinen grenzüberschreitenden Bezug auf. Zigarettenautomaten haben meiner Meinung nach keinen Einfluss auf das Rauchverhalten Jugendlicher.

questions scope
problem definition

No

explanations

No, I disagree with the problem definition. The problem definition provided by the Consultation document is vague, confused and inaccurate. There is no analysis within the Consultation document of Union competence to adopt the proposed options and no discussion of the internal market issues that would be required in order for the Union to proceed on the proposed option. Furthermore, the problem definition does not contain any evidence to demonstrate the justification for the various options provided in this section

which option

No change

recommend option

no

additional comments

no

questions smokeless

problem definition

No

comments

No, the problem definition is not acceptable as drafted. It is vague, confused and unclear. Statements in the problem definition address all smokeless tobacco products without making any differentiation between the various types of products in this category. By ignoring this variety, the Consultation creates confusion rather than providing clarity to allow for objective policy choices.

which option

Lifting the ban on snus

additional option

no

additional comments

Snus is legally sold in a number of countries worldwide and we believe there is no justification for a ban on snus within the EU.

questions consumer

problem definition

No

explanations

No. There is no credible or scientific evidence which demonstrates this is a necessary step. This problem definition tries to cover too many options at once. Packaging provides consumers who wish to purchase products with information about the product they have

chosen. Tobacco packaging has never been identified as a reason why children start to smoke or why adult smokers continue to choose to smoke. Plain packaging would lead to an increase in counterfeit products and illicit trade. It will have a negative impact on competition. Plain packaging expropriates the brand owners of valuable intellectual property. Pictorial health warnings make no additional contribution to the public awareness of the risks.

which option

No change

additional option

additional comments

no

questions on reporting

problem definition

No

explanations

No. All EU Member States need to agree to and adopt the common reporting format for ingredient reporting in a fully harmonized way. Introducing fees and sanctions is clearly outside the Commission's competence. With regard to this option, the Commission has also failed to analyse the impact of registration fees on the functioning of the Internal Market as the level of fees would vary between Member States and would impede its functioning. Also, registration fees would likely lead to a further increase of Anti-Illicit Trade.

which option

No change; Establish a common compulsory reporting format

additional options

no

additional comments

no

regulation of ingredients

problem definition

No

explanations

No, I do not agree with the problem definition. The concept "attractiveness" is an unsound base for regulation. Ingredients give brands distinctive styles -> competition. Ingredients also apply to substances in the non-tobacco materials needed to eg. filter, paper adhesive etc. There is no evidence that ingredients enhance or in themselves are addictive. The problem definition incorrectly defines the use of ingredients and claims without foundation that the majority form carcinogens, mutagens and/or toxic for reproduction. In the case of, for example, mentholated cigarettes have been available for several decades yet there is no credible scientific evidence to suggest that their use is associated with increased smoking incidence, increased consumption, change in smoking behavior or reduced quitting rates

compared to other cigarettes. Furthermore, there is no evidence that smokers of mentholated cigarettes inhale more deeply

which option

No Change

additional option

No, but a common list of authorised ingredients could be generated using both sound and scientific principles and criteria.

additional comments

no

access to tobacco products

problem definition

No

explanations

No. The problem definition is vague and incomplete. The display of tobacco products at PoS is important to the proper operation of a market economy in the sale of legal tobacco products. It informs the consumer of the products available, their characteristics, their price and the pack sizes available. Particularly in situations where other channels of communication may be restricted, consumers must be able to identify easily, quickly and effectively the existence and availability of tobacco products and to distinguish between them. Product display ban could exacerbate the illicit trade in contraband and counterfeit products. Consumers would not be able to distinguish legally traded and illicit products. Vending: vending machines in Belgium are strictly controlled to prevent sales to children. It is therefore unnecessary and disproportionate to prohibit tobacco vending.

Eine Regulierung muss immer auf der Grundlage wissenschaftlicher Erkenntnisse erfolgen und nicht auf Basis vager Einschätzungen. Nur weil Produkte neu sind, müssen sie nicht reguliert werden.

Rauchlose Tabakerzeugnisse gefährden nicht die Gesundheit Dritter. Ein Verbot von Snus entmündigt die EU-Bürger.

which option

Lifting the ban on snus

questions consumer

problem definition

No

explanations

Ich denke nicht, dass ein Warnhinweis wirksamer ist, wenn er größer ist. Ausserdem besteht bereits ein Bewusstsein für die Risiken des Rauchens, ein Bildwarnhinweis ist überflüssig. Einheitspackungen greifen in das freie Markenrecht ein. Einheitspackungen führen zu einer Preisspirale, dadurch werden Groß- und Einzelhändler und damit mein Arbeitsplatz gefährdet.

No

explanations

In 15 von 27 Mitgliedsstaaten sind Zigarettenautomaten erlaubt und das sollte so bleiben. Der Verkauf über Automaten erfolgt unter strengen gesetzlichen Auflagen, z.B. Ausweisleser in Deutschland. Zigarettenautomaten fallen in den Zuständigkeitsbereich der einzelnen Staaten. Der Verkauf über Automaten erfolgt lokal und weist keinen grenzüberschreitenden Bezug auf. Zigarettenautomaten haben meiner Meinung nach keinen Einfluss das Rauchverhalten Jugendlicher.

questions scope**problem definition**

No

explanations

Let's don't be hypocrite. People will continue smoking regardless of the display bans, or scaring pictures on packaging. Let's protect other people from smoke, keep on taxing the product to produce resources for the health care.

which option

No change

recommend option

Legalize marihuana to make available a healthier and more passive-smokers friendly alternative.

questions smokeless**problem definition**

No

comments

Snus is even better because it doesn't annoy people in the direct environment.

which option

Lifting the ban on snus

questions consumer**problem definition**

No

explanations

Currently, the solutions are more to destroy the esthetics of the packaging than to inform customers. Let's put inserts in the packages with a more complete information and leave alone the outside of the package.

which option

Improve consumer information

which improvement

Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package

questions on reporting**problem definition**

Yes

which option

Establish a common compulsory reporting format

additional options

Without any doubts the ingredients should be reported, but I don't agree at all with the ban on flavours and similar ingredients. There is no such a restriction on alcohol so why place it on tobacco?

regulation of ingredients**problem definition**

No

explanations

As mentioned before I am against the restrictions on flavours. Smoking is not a sin. It's like blaming the sexual activity and asking people to make love in one position only.

which option

No Change

access to tobacco products**problem definition**

No

explanations

No restriction regardless the age. Let teenagers try it they will drop it after some time. I have many friends that did so. Under 18 will always find a way to smoke and after they turn 18 they will feel like having the full permission.

which option

No change

additional option

None of the above. No restrictions regardless of the age.

Tubakatarbimise leviku vähendamiseks Eestis rakendada värvilisi pilthoiatusi sigaretipakenditel. Kasutada selleks suuri pindu ja vajadusel kombineerida verbaalsete hoiatustega. On kindlasti mõjuv.

Eriti oluline keelustada alaealistel (lastel ja noorukitel) omada ja kasutada suitsuvabu tubakatooteid. Tõhustada kontrolli tollis, et snusi ei toodaks täiskasvanute poolt sisse rohkem, kui ainult oma tarvis.

Oluline on, et piirata keelatud tubakatoodetega kauplemine internetis. Samuti tuleb keelustada tubakatoodete müük toidukauplustes ja selverite kettides. Tubakatooteid võivad müüa ainult eri kauplused, millede arv ja lahtioleku aeg on piiratud ja mis asuvad eraldi teistest ning on raskemini kättesaadavad. Oluline on piirata tubakatarvitamist (snus ja sigaretid) koolinoorte seas. Muniipitsaalpolitseil tegevust juures! Kooliõpilased räägivad, et tubakasaaduste kättesaamine pole neile probleem. Ka hind ei heiduta - vanematelt saadud taskuraha on just vastavuses sigareti või huuletubaka hinnaga. Tuleb rohkem kujundada ühiskonna arvamust ja hoiakuid, mis on vastuseisus tubakatarvitamisega. Lubamatu on ka rasedate naiste suitsetamine. Kahjuks on sellel tõusev trend Eestis. Üheskoos - kõik ametkonnad ja tegelased - jõuame rohkem. Otsustav roll on tubakakontrollis tervishoiutöötajatel. Kuid ainult koostöös teiste valdkondade esindajatega.

Der Geltungsbereich der Richtlinie sollte durchaus die angegebenen Produkte beinhalten. Ohne zuvorige wissenschaftliche Überprüfung der Produkte in Hinsicht auf ihre Schädlichkeit für den menschlichen Körper sollte jedoch kein Verbot ausgesprochen werden.

Es gibt unseres Erachtens keine wissenschaftlichen Beweise dafür, dass grössere Warnhinweise oder Bilder besser dazu geeignet sind, potenzielle Raucher vom Rauchen abzuhalten bzw. Raucher davon zu überzeugen, mit dem Rauchen aufzuhören. Auch bei Plain Packing gibt es bis dato keine Beweise dafür, dass sie eine Auswirkung der Gesundheit der Bevölkerung haben. Plain Packing würde vielmehr Fälschungen und den illegalen Handel mit Tabakprodukten forcieren, weil die Fälschungssicherheit der Produkte nicht gewährleistet werden kann.

Die Rechtsdurchsetzung ist Angelegenheit der Mitgliedstaaten und nicht der EU. Auch wenn die EU dieses Prinzip einführt, würden die Beiträge für Gebühren und Sanktionen zwischen den Mitgliedsstaaten unterschiedlich ausfallen. Dies deshalb, da es in der Kompetenz des jeweiligen Staates fällt. Eine Verbesserung des Funktionierens des Binnenmarktes ist somit auf diese Weise nicht ersichtlich.

Der Fokus bei der Evaluierung von Zusatzstoffen sollte ganz grundsätzlich darauf ausgerichtet sein, ob deren Einsatz die toxische Wirkung des Zigarettenrauches erhöht. Es sollte daher nicht von der Attraktivität der Stoffe ausgegangen werden, da diese nahezu ausschließlich auf subjektiven Kriterien basieren.

Die hier dargestellte Problemstellung zielt nicht auf gesundheitspolitische Probleme im Zusammenhang mit Tabakkonsum und die Verfügbarkeit der Produkte ab. Weiters werden keinerlei Beweise für die Annahme angeboten, dass derartige Verbote den Binnenmarkt stärken oder aber zu einer Reduktion des Tabakkonsums führen würden.

explanations

Too vague. Where is the problem with ENDS or herbal cigarettes?

which option

No change

recommend option

EU or MS to define which existing regulation shall apply to ENDS.

questions smokeless**problem definition**

No

comments

Scientific evidence not sufficient to prove health risks associated with snus consumption.

which option

Lifting the ban on snus

questions consumer**problem definition**

No

explanations

There is no convincing evidence that (pictorial) health warnings reduce incidence of smoking. Attractiveness of packaging is an accepted marketing tool for all legal consumer products in the free world (even pharmaceuticals and toxic crop agents). Plain packaging would boost counterfeit of products.

which option

No change

questions on reporting**problem definition**

Yes

which option

Establish a common compulsory reporting format

regulation of ingredients**problem definition**

No

explanations

There's no proof for any of the claimed effects of ingredients (see SCENIHR report). Taste enhancement is an accepted tool for all legal food and drink product even if the product is associated with health risks (beer, wine, spirits, sweets, sugar containing soft drinks etc.).

Non concordo che "l'evidenza mostra che, se adeguatamente dimensionate e ben collocate, le avvertenze illustrate costituiscono una misura efficace per informare il pubblico in merito ai pericoli del fumo" e che "maggiore è la dimensione dell'avvertenza illustrata, maggiore ne è l'efficacia". Talvolta le immagini illustrate introdotte in alcuni paesi per sostituire le avvertenze sanitarie scritte, più che informare il consumatore sembrano essere state introdotte per suscitare stupore e shock. Non sembra questa la strada migliore per proteggere la salute dei consumatori, che già sono molto consapevoli dei pericoli e della dannosità delle sigarette. Sono anche totalmente contrari all'introduzione del cosiddetto "pacchetto generico", che rischia di favorire il business delle organizzazioni criminali e di danneggiare le aziende serie che tradizionalmente forniscono solo società manifatturiere di altrettanta serietà ed operanti solo sul mercato legale, che si vedrebbero gravemente danneggiate per la distruzione del valore dei marchi. Tra l'altro il "plain packaging" spingerebbe ad una concorrenza basata sul prezzo e non sulla qualità, così danneggiando il tabacco europeo che della qualità superiore ha l'unica arma possibile, ora che i sostegni diretti ai produttori, per compensarne i costi più alti, sono stati smantellati.

Sono d'accordo sulla creazione di un formato comune di reporting ma non concordo con la creazione di un nuovo livello di imposizione fiscale che andrebbe a sovrapporsi a quello dello

stato membro, creando confusione e andando contro i principi di uniformità dell'Unione.

Sono in totale disaccordo con l'ipotesi di vietare l'impiego di ingredienti nella produzione di sigarette. Questa ipotesi finirebbe per avere serie conseguenze per le produzioni di "Burley", in Italia e in tutta Europa. Questa qualità di tabacco, utilizzata principalmente per il cosiddetto "American blend", rispetto ad altre varietà di tabacco, necessita di un certo numero di ingredienti in fase di lavorazione. D'altra parte, come chiarito anche dall'OMS e dallo SCENIHR non esiste alcuna prova scientifica del fatto che le sigarette realizzate senza ingredienti (come quelle che utilizzano la varietà di tabacco "Virginia") siano meno dannose di quelle che necessitano di ingredienti. Questa, pertanto, appare una chiara discriminazione, che avrebbe il solo effetto di pregiudicare significativamente gli oltre 60.000 addetti alla coltivazione di tabacco in Italia e circa 400.000 in tutta Europa.

explanations

Le enunciazioni del documento di consultazione, in realtà non definiscono il problema, ma fotografano unicamente il quadro normativo di riferimento, seppure in modo parziale. Sono infatti elencati nel documento solo i paesi in cui esistono misure estreme per regolamentare l'accesso ai prodotti: paesi, ad esempio, in cui i distributori automatici sono vietati o dove è vietata l'esposizione dei prodotti nei punti vendita. Ritengo che non si debba arrivare tanto lontano per ottenere gli obiettivi prefissati di salvaguardia dei minori. Il sistema italiano di monopolio e di controlli sull'accesso, se applicato con determinazione e con le giuste risorse a disposizione degli organismi di controllo, costituisce un'ottima soluzione per limitare l'accesso dei minori al tabacco.

In my view regulating each aspect of life is mainly limiting freedom. Even today's existing legislation in many cases is going too far and in many cases not really securing non-smokers. This is also visible in other areas (e.g. alcohol). On top of that justifications of introduction of such restrictions are doubtful. Cost of medical care for smokers (both active and passive) is proven to be much smaller than the income in VAT and excise taxes in EU and any other country.

which option

No change

questions smokeless

problem definition

No

comments

Eating not well, pollution, too long sun baths and many other factors can cause cancer and banning everything is not reasonable. Governments can't just ban everything. Living in such a restricted world is not my choice.

which option

No change

questions consumer**problem definition**

No

explanations

Smoking problem (as well as many other risky aspects of life) in my view are mainly educational problems. What does an adult with his own life is in most of cases his own problem.

which option

No change

additional option

Put more attention on educational campaign for children and youth. Analyse options for mandatory health insurances for smokers (and other risk takers). If somebody is overweighted should pay bigger insurance.

questions on reporting**problem definition**

No

explanations

Leave it up to member states. There is enough administration overhead in EU anyway. EU should focus on making EU competitive to other countries in the world (USA, Asian countries) instead of regulating and administering internal life of its citizens.

which option

No change

regulation of ingredients**problem definition**

No

explanations

Comment similar to previous ones. Wrong focus and directions of EU.

which option

No Change

access to tobacco products**problem definition**

Yes

which option

Controlled supply and access

which supply and access

Age verification of buyers and other legal conditions to be set for cross-border retail sale;

Access to vending machines to be restricted to adults

additional option

Again I believe that education of children and youth would address the problem much more effectively although I believe that some restrictions can be applied without completely banning the sales channels.

Lifting the ban on snus

additional comments

Snus ist m. E. eine gute Alternative zum Rauchen, da es rauchfrei funktioniert und damit Passivrauchen ausgeschlossen ist. Es findet keine gesundheitliche Beeinträchtigung der Mitmenschen statt. Dieses Produkt sollte in Deutschland legal verfügbar sein.

additional comments

So eine Maßnahme würde Fälschern in die Hände spielen, d.h. Nachahmungen wären viel einfacher. Damit würden auch illegale Einfuhren steigen. Dieses führt zu Steuerausfällen in Mrd. EURO. Außerdem ist bei illegalen Einfuhren nicht sichergestellt, daß die gesetzlichen Produkt-Vorschriften eingehalten werden. Damit steigt sogar das Gesundheitsrisiko der Menschen, die sich auf diese Weise mit Zigaretten versorgen würden (in Deutschland sind dieses z.Zt. immerhin schon mehr als 20% !)

Diese ist eine Entmündigung des Kunden. Ich möchte das Sortiment sehen, wie es bei jedem anderen legalen Produkt auch möglich ist. Außerdem liegt hier m.E. eine Verletzung von Markenrechten und damit Eigentumsrechten vor, von der Verletzung der Kommunikationsfreiheit garnicht zu reden.

Na produktach zawierających nikotynę (w tym snus, guma do żucia) powinna być jasna informacja o zdrowotnych skutkach palenia. Produkty takie powinny być dostępne tylko dla pełnoletnich osób i im należy pozostawić decyzję czy chcą ich używać czy nie.

**questions consumer
problem definition**

Yes

which option

No change; Improve consumer information

which improvement

Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package

additional comments

Pomysł umieszczania "obrazkowych" ostrzeżeń zdrowotnych nie podoba mi się. Nie chcę być narażona w sklepie czy kiosku na tego typu widoki. Uważam, że obraki ostrzegawcze na paczkach nie pomogą - jedyne co może zadziałać to praca u podstaw - czyli informacje w szkole, spotkania z lekarzami, itd. Jednakowe paczki dla wszystkich papierosów - to może też jednakowe butelki na wódkę, jednakowe białe plastikowe (niezawierające substancji rakotwórczych) pudełka na jogurty (w których jest tyle chemii, że nie powinny być reklamowane jako zdrowe, szczególnie dla dzieci).

questions on reporting

problem definition

Yes

which option

No change; Establish a common compulsory reporting format

additional options

common reporting format - tak, ale należy szybko reagować na zmiany i dostosowywać format raportu nowości na rynku (przykład e-papierosa reklamowanego wszędzie jako ZDROWY, a czy ktoś go badał, czy Ministerstwo Zdrowia wydało stosowne potwierdzenie o "zdrowym" e-papierosie)

additional comments

Czy zadając pytanie "Czy zgadzam się z definicją problemu" (dotyczy wszystkich sekcji) nie uważacie Państwo, że powinniście podać tę definicję w ankiecie?

regulation of ingredients

problem definition

Yes

which option

No Change

additional option

waham się pomiędzy "no change" a "basic list" - wszystkie składniki powinny być raportowane w celu wyeliminowania substancji np. takich jak w dopalaczach.

access to tobacco products

problem definition

Yes

which option

No change

additional comments

Jeśli konsument będzie miał rzetelną informację o produkcie i produkt jest legalny to nie powinien mieć problemu z jego kupnem.

Rauchlose Tabakerzeugnisse gefährden nicht die Gesundheit Dritter. Ein Verbot von Snus entmündigt die EU-Bürger.

questions consumer**problem definition**

No

explanations

Ich denke nicht, dass ein Warnhinweis wirksamer ist, wenn er größer ist. Ausserdem besteht bereits ein Bewusstsein für die Risiken des Rauchens, ein Bildwarnhinweis ist überflüssig. Einheitspackungen greifen in das freie Markenrecht ein. Einheitspackungen führen zu einer Preisspirale, dadurch werden Groß- und Einzelhändler und damit auch mein Arbeitsplatz gefährdet.

In 15 von 27 Mitgliedsstaaten sind Zigarettenautomaten erlaubt und das sollte auch so bleiben. Der Verkauf über Automaten erfolgt unter strengen gesetzlichen Auflagen, z.B. Ausweislesern in Deutschland. Zigarettenautomaten fallen in den Zuständigkeitsbereich der einzelnen Staaten. Der Verkauf über Automaten erfolgt lokal und weist keinen grenzüberschreitenden Bezug auf. Zigarettenautomaten haben meiner Meinung nach keinen Einfluss auf das Rauchverhalten Jugendlicher.

Eine Regulierung muss immer auf der Grundlage wissenschaftlicher Erkenntnisse erfolgen und nicht auf Basis vager Einschätzungen. Nur weil Produkte neu sind, müssen sie nicht reguliert werden.

Rauchlose Tabakerzeugnisse gefährden nicht die Gesundheit Dritter. Ein Verbot von Snus entmündigt die EU-Bürger.

No

explanations

Ich denke nicht, dass ein Warnhinweis wirksamer ist, wenn größer ist. Ausserdem besteht ein Bewusstsein für die Risiken des Rauchens, ein Bildwarnhinweis ist überflüssig.

Einheitspackungen greifen in das freie Markenrecht ein. Einheitspackungen führen zu einer Preisspirale, dadurch werden Groß- und Einzelhandel und damit mein Arbeitsplatz gefährdet.

Durch Zusatzstoffe werden Zigaretten nicht attraktiver. Zigaretten ohne Zusatzstoffe geben dem illegalen Handel Antrieb.

problem definition

No

explanations

In 15 von 27 Mitgliedsstaaten sind Zigaretten erlaubt und das sollte so bleiben. Der Verkauf über Automaten erfolgt unter strengen gesetzlichen Auflagen, z.B. Ausweisleser in Deutschland. Zigarettenautomaten fallen in den Zuständigkeitsbereich der einzelnen Staaten. Der Verkauf über Automaten erfolgt lokal und weist keinen grenzüberschreitenden Bezug auf. Zigarettenautomaten haben meiner Meinung nach keinen Einfluss auf das Rauchverhalten Jugendlicher.

Rauchlose Tabakerzeugnisse gefährden nicht die Gesundheit Dritter. Ein Verbot von Snus entmündigt die EU-Bürger.

Lifting the ban on snus

questions consumer

No

explanations

Ich denke nicht, dass ein Warnhinweis wirksamer ist, wenn er größer ist. Ausserdem besteht bereits ein Bewusstsein für die Risiken des Rauchens., ein Bildhinweis ist überflüssig. Einheitspackungen greifen in das freie Markenrecht ein. Einheitspackungen führen zu einer Preisspirale, dadurch werden Groß- und Einzelhändler und damit mein Arbeitsplatz gefährdet.

Durch Zusatzstoffe werden Zigaretten nicht attraktiver. Zigaretten ohne Zusatzstoffe geben dem illegalen Handel auftrieb.

No

explanations

In 15 von 27 Mitgliedsstaaten sind Zigarettenautomaten erlaubt und das sollte so bleibe. Der Verkauf über Automaten erfolgt unter strengen gesetzlichen Auflagen, z.B. Ausweisleser in Deutschland. Zigarettenautomaten fallen in den Zuständigkeitsbereich der einzelnen Staaten. Der Verkauf über Automaten erfolgt lokal und weist keinen grenzüberschreitenden Bezug auf. Zigarettenautomaten haben meiner Meinung nach keinen Einfluss auf das Raucherverhalten Jugendlicher.

I think that every body can decide by them self if he want to smoke or not. I think if you are a smoker you buy the tabaco also if the packing looks not very good. With this rule it is like the prohibition in USA with the alcohol and the handling will be go in a unlegal situation.

Ich denke nicht, dass ein Warnhinweis wirksamer ist, wenn größer ist. Ausserdem besteht bereits ein Bewusstsein für die Risiken des Rauchens, ein Bildhinweis ist überflüssig. Einheitspackungen greifen in das freie Markenrecht ein. Einheitspackungen führen zu einer Preisspirale, dadurch werden Groß- und Einzelhändler und damit mein Arbeitsplatz gefährdet.

In 15 von 27 Mitgliedsstaaten sind Zigarettenautomaten erlaubt und das sollte so bleiben. Der Verkauf über Automaten erfolgt unter strengen gesetzlichen Auflagen, z.B. Ausweislesern in Deutschland. Der Verkauf über Automaten erfolgt lokal und weist keinen grenzüberschreitenden Bezug auf. Zigarettenautomaten haben meiner Meinung nach keinen Einfluss auf das Rauchverhalten Jugendlicher.

There is no connection between shape, colour etc. of cigarette package and need to buy by the customer. If some people want to buy cigarettes, they will buy no matter if white or coloured package. By analogy - if you want to put cigarette into any white package, why no to put all FMCG product into similar-looking white package? It's a liitle freaky idea.

Plain packaging and no flavour/sauce in tobaccos (the same taste of smoked cigarette with no diifference to variety of marks) is a violation of the rights of a customer to choose what he wants to buy and to do with his life.

Rauchlose Tabakerzeugnisse gefährden die Gesundheit Dritter. Ein Verbot von Snus entmündigt die EU-Bürger.

Ich denke nicht, dass ein Warnhinweis wirksamer ist, wenn er größer ist. Ausserdem besteht bereits ein Bewusstsein für die Risiken des Rauchens, ein Bildwarnhinweis ist überflüssig. Einheitspackungen greifen in das freie Markenrecht ein. Einheitspackungen führen zu einer Preisspirale, dadurch werden Groß- und Einzelhändler und damit mein Arbeitsplatz gefährdet.

Durch Zusatzstoffe werden Zigaretten nicht attraktiver. Zigaretten ohne Zusatzstoffe geben dem illegalen Handel auftrieb.

In 15 von 27 Mitgliedsstaaten sind Zigarettensautomaten erlaubt und das sollte so bleiben. Der Verkauf über Automaten erfolgt unter strengen gesetzlichen Auflagen, z.B. Ausweisleser in Deutschland. Zigarettensautomaten fallen in den Zuständigkeitsbereich der einzelnen Staaten. Der Verkauf über den Automaten erfolgt lokal und weist keinen grenzüberschreitenden Bezug auf. Zigarettensautomaten haben meiner Meinung nach keinen Einfluss auf das Rauchverhalten Jugendlicher.

There is no scientific proof that warnings or pictures of diseases prevent people from smoking or convince smokers to stop or smoke less. There is also no proof that plain packaging has a positive impact on people's health. But it would support the trade with counterfeit products and illegal trade.

which option

Evaluating the additives the focus should be generally on the fact if these additives increase the toxic impact of tobacco smoke or not. It should not be judged how appealing an additive is, as this is subjektiv.

Rauchlose Tabakerzeugnisse gefährden nicht die Gesundheit Dritter. Ein Verbot von Snus entmündigt die Eu- Bürger.

Ich denke, dass ein Warnhinweis wirksamer ist, wenn größer ist. Ausserdem besteht bereits ein Bewusstsein für die Risiken des Rauchens, ein Bildhinweis ist überflüssig.
Einheitspackungen greifen in das freie Marktrecht ein. Einheitspackungen führen zu einer Preisspirale, dadurch werden Groß- und Einzelhändler und damit mein Arbeitsplatz gefährdet.

In 15 von 27 Mitgliedsstaaten sind Zigarettensautomaten erlaubt und das sollte so bleiben. Der Verkauf über Automaten erfolgt unter strengen gesetzlichen Auflagen, z.B. Ausweislesern in Deutschland. Zigarettensautomaten fallen in den Zuständigkeitbereich der einzelnen Staaten. Der Verkauf über Automaten erfolgt lokal und weist keinen grenzüberschreitenden Bezug auf. Zigarettensautomaten haben meiner Meinung nach keinen Einfluss auf das Rauchverhalten Jugendlicher.

The problem definition is incorrect, vague and unclear. The consultation does not identify a problem in any of the areas it mentions in this section.

which option
No change

questions smokeless
problem definition
No

comments
It is vague and the consultation document has failed to define a problem in this area.

which option
Lifting the ban on snus

questions consumer
problem definition
No

explanations
No, I disagree with the problem definition. It is based on a series of assumptions and assertions that are wrong.

which option
No change

questions on reporting
problem definition
No

explanations
No, I disagree with the problem definition. It is vague and incomplete.

which option
Establish a common compulsory reporting format

regulation of ingredients

problem definition

No

explanations

No, I disagree with the problem definition. Manufacturers do not add ingredients to attract non-smokers or influence existing smokers away from quitting.

which option

No Change

access to tobacco products**problem definition**

No

explanations

No, I disagree with the problem definition. It is vague and incomplete. The Consultation document does not identify a problem in any of the areas mentioned in this section

Rauchlose Tabakerzeugnisse gefährden nicht die Gesundheit Dritter. Ein Verbot von Snus entmündigt die EU-Bürger.

Ich denke nicht ,dass ein Warnhinweis wirksamer ist, wenn er größer ist. Ausserdem besteht bereits ein Bewusstsein für die Risiken des Rauchens, ein Bildwarnhinweis ist überflüssig. Einheitspackungen greifen in das freie Marktrecht ein. Einheitspackungen führen zu einer Preisspirale, dadurch werden Groß- und Einzelhändler und damit mein Arbeitsplatz gefährdet.

In 15 von 27 Mitgliedsstaaten sind Zigaretten erlaubt und das sollte so bleiben. Der Verkauf über Automaten erfolgt unter strengen gesetzlichen Auflagen, z.B. Ausweisleser in Deutschland. Zigarettenautomaten fallen in den Zuständigkeitsbereich der einzelnen Staaten. Der Verkauf über Automaten erfolgt lokal und weist keinen grenzüberschreitenden Bezug auf. Zigarettenautomaten haben meiner Meinung nach keinen Einfluss auf das Rauchverhalten Jugendlicher.

questions scope**problem definition**

No

explanations

The problem definition is incorrect, vague and unclear. The consultation does not identify a problem in any of the areas it mentions in this section.

which option

No change

**questions smokeless
problem definition**

No

comments

It is vague and the consultation document has failed to define a problem in this area

which option

Lifting the ban on snus

**questions consumer
problem definition**

No

explanations

No, I disagree with the problem definition. It is based on a series of assumptions and assertions that are wrong

which option

No change

**questions on reporting
problem definition**

No

explanations

No, I disagree with the problem definition. It is vague and incomplete

which option

Establish a common compulsory reporting format

**regulation of ingredients
problem definition**

No

explanations

No, I disagree with the problem definition. Manufacturers do not add ingredients to attract non-smokers or influence existing smokers away from quitting.

which option

No Change

**access to tobacco products
problem definition**

No

explanations

No, I disagree with the problem definition. It is vague and incomplete. The Consultation document does not identify a problem in any of the areas mentioned in this section.

It is vague and the consultation document has failed to define a problem in this area.

which option

Lifting the ban on snus

questions consumer**problem definition**

No

explanations

No, I disagree with the problem definition. It is based on a series of assumptions and assertions that are wrong.

which option

No change

additional option

Option 1, no change.

**questions on reporting
problem definition**

No

explanations

No, I disagree with the problem definition. It is vague and incomplete.

which option

Establish a common compulsory reporting format

additional options

I support Option 2 using the EMTOC (Electronic Monitoring Tobacco Control) solution for a common reporting format.

regulation of ingredients

problem definition

No

explanations

No, I disagree with the problem definition. Manufacturers do not add ingredients to attract non-smokers or influence existing smokers away from quitting.

which option

No Change

additional option

In my view, since no problem has been identified Option 1, no change is the correct response.

access to tobacco products

problem definition

No

explanations

No, I disagree with the problem definition. It is vague and incomplete. The Consultation document does not identify a problem in any of the areas mentioned in this section.

which option

No change

additional option

Because no problems have been properly identified Option 1, no change.
