## TASK SHIFTING IN PRACTICE – TASHI INITIATIVES FOR OVERCOMING HEALTH WORKFORCE CHALLENGES

### Presentation of the TaSHI pilots

Wednesday 24 November 2021, 13.00 – 14.00 CET, Brussels time

Dear colleague,

We invite you to join the first webinar of the **TaSHI** - *Empowering EU health policies on Task SHifting* - project. At this event, TaSHI presents the common framework, aims and methods planned for the TaSHI pilots.

We will introduce you the scope of the pilots at various settings, the health workforce teams and professions covered in the pilots, and the expectations of their implementation in the different countries.

Results of the TaSHI project on the good practices of pilot sites will provide novel solutions, synthesized evidence, tools and methods tested for overcoming and mitigating some health workforce challenges and barriers with the benefit of task shifting.
