Slovakia - More stringent blood donor testing requirements 2015 Mapping exercise

Colour key	
	Minimum requirements as set out in the 2004/33/EC Directive
	More stringent testing - legally binding on national level
	More stringent testing - recommended on national level
	Not legally binding and not recommended on national level

Test								
	Test/ technique	Legally binding	Recommendation on national level	Recommending authority/ service/ association	Type of blood donation (blood for transfection or plasma for fractionantion)	Circumstances for application/ donor profile	Regional differences	Further comments
Basic testing								
Blood group testing		YES	YES	Ministry of Health	both	all donations	NO	
	RhD typing	YES	YES	Ministry of Health	whole blood/ blood components for transfusion	all donations	NO	specific requirement for weak RhD testing, molecular testing of RHD neg. donors is not yet introduced in SR
	Other, please specify (Kell etc.)	YES	YES	Ministry of Health Regulation on GMP of transfusion medicaments 158/2015	whole blood/ blood components for transfusion	first and second donation	NO	Kell, Rh CcEe
HLA testing								
Disease testing								
VIRAL								
HIV 1 and HIV 2	Anti-HIV 1	YES	YES	Ministry of Health Regulation on GMP of transfusion medicaments 158/2015	both	all donations	NO	
	Anti-HIV 2	YES	YES	Ministry of Health Regulation on GMP of transfusion medicaments 158/2015	both	all donations		
	HIV 1p24	YES	YES	Ministry of Health Regulation on GMP of transfusion medicaments 158/2015	both	all donations		
	HIV NAT pool or ID HIV NAT ID Other technique							
Hepatitis B	HBs Ag	YES	YES	Ministry of Health Regulation on GMP of transfusion medicaments 158/2015	both	all donations	NO	
	Anti-HBc	YES	YES	Ministry of Health Regulation on GMP of transfusion medicaments 158/2015	both	all donations		
	Anti - HBs HBV NAT pool or ID HBV NAT ID Other technique							
Hepatitis C	Anti-HCV	YES	YES	Ministry of Health Regulation on GMP of transfusion medicaments 158/2015	both	all donations	NO	
	HCV NAT pool or ID HCV NAT ID Other technique							
Hepatitis E								
HTLV-1 HTLV-2								
Ebola Virus								
Chikungunya virus								
Cytomegalovirus West Nile Virus	WNV/ technique not specified WNV NAT pool or ID							
	specified	YES	YES	Ministry of Health Regulation on GMP of transfusion medicaments 158/2015	both	donors travel history	NO	regulation in preparation to accept the test for donor selection, but in reality the test is not yet
	specified WNV NAT pool or ID	YES	YES		both		NO	to accept the test for donor selection, but in
West Nile Virus	specified WNV NAT pool or ID	YES	YES		both		NO	to accept the test for donor selection, but in reality the test is not yet introduced and is not yet planed to be introduced in
West Nile Virus Dengue Virus	specified WNV NAT pool or ID WNV NAT ID*	YES	YES		both		NO	to accept the test for donor selection, but in reality the test is not yet introduced and is not yet planed to be introduced in
Dengue Virus Epstein-Barr virus Human Parvovirus B19	specified WNV NAT pool or ID WNV NAT ID*	YES	YES		both		NO	to accept the test for donor selection, but in reality the test is not yet introduced and is not yet planed to be introduced in
Dengue Virus Epstein-Barr virus Human Parvovirus B19 Herpes simplex	specified WNV NAT pool or ID WNV NAT ID* Other technique			transfusion medicaments 158/2015		history		to accept the test for donor selection, but in reality the test is not yet introduced and is not yet planed to be introduced in near future
Dengue Virus Epstein-Barr virus Human Parvovirus B19	specified WNV NAT pool or ID WNV NAT ID* Other technique	YES	YES		both		NO NO	to accept the test for donor selection, but in reality the test is not yet introduced and is not yet planed to be introduced in
Dengue Virus Dengue Virus Epstein-Barr virus Human Parvovirus B19 Herpes simplex Nonspecific viral infection Other pathogen,	specified WNV NAT pool or ID WNV NAT ID* Other technique			transfusion medicaments 158/2015 Ministry of Health Regulation on GMP of		history		to accept the test for donor selection, but in reality the test is not yet introduced and is not yet planed to be introduced in near future we plan to stop ALT testing once the NAT testing is
Dengue Virus Epstein-Barr virus Human Parvovirus B19 Nonspecific viral infection	specified WNV NAT pool or ID WNV NAT ID* Other technique			transfusion medicaments 158/2015 Ministry of Health Regulation on GMP of		history		to accept the test for donor selection, but in reality the test is not yet introduced and is not yet planed to be introduced in near future we plan to stop ALT testing once the NAT testing is
Dengue Virus Dengue Virus Epstein-Barr virus Human Parvovirus B19 Herpes simplex Nonspecific viral infection Other pathogen,	specified WNV NAT pool or ID WNV NAT ID* Other technique ALT Technique not specified Microscopy Plasmadium sp . Ab			transfusion medicaments 158/2015 Ministry of Health Regulation on GMP of		history		to accept the test for donor selection, but in reality the test is not yet introduced and is not yet planed to be introduced in near future we plan to stop ALT testing once the NAT testing is implemented donors with history of malaria and residents from malaria endemic countries are not accepted for
Dengue Virus Epstein-Barr virus Human Parvovirus B19 Herpes simplex Nonspecific viral infection Other pathogen, PARASTTIC	specified WNV NAT pool or ID WNV NAT ID* Other technique ALT Technique not specified Microscopy Plasmodium sp. Ab Plasmodium sp. Ag Plasmodium sp. Ag Plasmodium sp. Ag Plasmodium sp. NaT Plasmodium sp. NaT			transfusion medicaments 158/2015 Ministry of Health Regulation on GMP of		history		to accept the test for donor selection, but in reality the test is not yet introduced and is not yet planed to be introduced in near future we plan to stop ALT testing once the NAT testing is implemented donors with history of malaria and residents from malaria endemic countries
Dengue Virus Epstein-Barr virus Human Parvovirus B19 Herpes simplex Nonspecific viral infection Other pathogen, PARASTTIC	specified WNV NAT pool or ID WNV NAT ID* Other technique ALT Serum Neopterin Technique not specified Microscopy Plasmodium sp. Ab, Plasmodium sp. Ag, Plasmodium sp. Ag - rapid test			transfusion medicaments 158/2015 Ministry of Health Regulation on GMP of		history		to accept the test for donor selection, but in reality the test is not yet introduced and is not yet planed to be introduced in near future we plan to stop ALT testing once the NAT testing is implemented donors with history of malaria and residents from malaria endemic countries are not accepted for donation in SR, malaria testing is not yet introduced in Slovak
Dengue Virus Epstein-Barr virus Human Parvovirus B19 Herpes simplex Nonspecific viral infection Other pathogen, PARASITIC Malaria	specified WNV NAT pool or ID WNV NAT ID* Other technique ALT Technique not specified Microscopy Plasmodium sp. Ab Plasmodium sp. Ag rapid test Plasmodium sp. NAT pool or ID Plasmodium sp. NAT pol or ID Plasmodium sp. NAT			transfusion medicaments 158/2015 Ministry of Health Regulation on GMP of		history		to accept the test for donor selection, but in reality the test is not yet introduced and is not yet planed to be introduced in near future we plan to stop ALT testing once the NAT testing is implemented donors with history of malaria and residents from malaria endemic countries are not accepted for donation in SR, malaria testing is not yet introduced in Slovak
Dengue Virus Epstein-Barr virus Human Parvovirus B19 Herpes simplex Nonspecific viral infection Other pathogen, PARASTIC Malaria	specified WNV NAT pool or ID WNV NAT ID* Other technique ALT Technique not specified Microscopy Plasmodium sp. Ab Plasmodium sp. Ag rapid test Plasmodium sp. NAT pool or ID Plasmodium sp. NAT pol or ID Plasmodium sp. NAT			transfusion medicaments 158/2015 Ministry of Health Regulation on GMP of		history		to accept the test for donor selection, but in reality the test is not yet introduced and is not yet planed to be introduced in near future we plan to stop ALT testing once the NAT testing is implemented donors with history of malaria and residents from malaria endemic countries are not accepted for donation in SR, malaria testing is not yet introduced in Slovak
Dengue Virus Epstein-Barr virus Human Parvovirus B19 Herpes simplex Nonspecific viral infection Other pathogen, PARASITIC Malaria Trypanosomiasis Babesiosis Leishmaniasis	specified WNV NAT pool or ID WNV NAT ID* Other technique ALT Technique not specified Microscopy Plasmodium sp. Ab Plasmodium sp. Ag rapid test Plasmodium sp. NAT pool or ID Plasmodium sp. NAT pol or ID Plasmodium sp. NAT			transfusion medicaments 158/2015 Ministry of Health Regulation on GMP of		history		to accept the test for donor selection, but in reality the test is not yet introduced and is not yet planed to be introduced in near future we plan to stop ALT testing once the NAT testing is implemented donors with history of malaria and residents from malaria endemic countries are not accepted for donation in SR, malaria testing is not yet introduced in Slovak

Slovakia - More stringent blood donor testing requirements 2015 Mapping exercise

Test	Test/ technique	Legally binding	association	(blood for transfection or		Regional differences	Further comments
pallidum (Syphilis)	Microscopy						
	Anti Tpallidum	YES	Ministry of Health Regulation on GMP of transfusion medicaments 158/2015	both	all donations	NO	
	T. pallidum NAT pool						,
	T. pallidum NAT ID						
	Culture Other technique						
Neisseria	Other technique						
Brucellosis							
Tuberculosis							
Q-fever							
Other pathogen.							
FUNGI							
specify pathogen							

^{*} For West Nile Virus NAT ID, see 2004/33/EC as amended by 2014/110/EU with a deadline for transposition into national law of December 31, 2015
