# Europe's Beating Cancer Plan

## Diagnosis and treatment

### Start date – end date

01/06/2022 – 30/11/2023

### Countries

Austria, Belgium, Cyprus, Estonia,  
France, Germany, Ireland,  
Italy, Lithuania, Luxembourg,  
Netherlands, Poland, Portugal,  
Romania, Slovenia, Spain

### Overall budget

EUR 2 663 840

### EU contribution under EU4Health programme

EUR 2 131 072

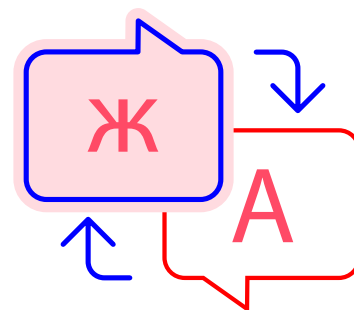

## INTERACT-EUROPE – Innovative collaboration for Inter-specialty cancer training across Europe

**The Beating Cancer Plan provides a brilliant opportunity, by cooperative action, to raise standards, share expertise, facilitate research and reduce inequalities in cancer care.**

The INTERACT-EUROPE programme is pioneering an **innovative approach to inter-specialty cancer care training** that can be applied to any cancer centre in any EU country.

This will nurture new levels of high-performance, with a multi-disciplinary team working in cancer care for all EU countries, providing the best outcome for patients.

Leading international and European oncology professional organisations have developed a curriculum for an inter-specialty training programme across oncology surgery, medical oncology, radiation oncology and cancer nursing. INTERACT-EUROPE is testing the use of automatic translation technology to broaden the programme's accessibility.

The EU-wide, inter-specialty curriculum and education programme developed in the project:

- Can be utilised in every cancer care system;

- Promote new levels of understanding between the different professions involved in cancer care;

- Nurture better team work for the best patient outcomes;

- Test the use of automatic translation technology to extend its scope in oncology education.
