 - **Developing and implementing EU health legislation and evidence-based decision making;**
 - **Integrated work among MS health systems**

Strategic orientations

Crisis preparedness

Disease prevention

Health systems and healthcare workforce

Digital

Cancer

Possible main priorities

- Crisis preparedness and management of cross-border health threats:
Surveillance, preparedness and response; HERA (the EU BARDA) and the HERA Incubator; COVID-19 vaccines and new variants and public trust in immunisation; AMR; medicines shortages & security of supply
- Health promotion and disease prevention
implementing Europe's Beating Cancer Plan; prevention of non-communicable diseases and related risk factors; tobacco control; mental health; transfer of best practices; health information
- Strengthening health systems and improve their resilience and resource efficiency:
innovative care models; resilience testing methodology; planning & forecasting health workforce; ERNs
- Digital transformation of healthcare and health systems: *EHDS; health data*
- Strengthening the implementation of the health legislation: *blood, tissue and cells, organs; medical device Regulation; in-vitro diagnostic; tobacco control and the pharmaceutical legislation*

CRISIS PREPAREDNESS

- *Based on the COVID-19 experience, how national surveillance systems could be enhanced?*
- *How to improve confidence from the public on existing health measures to prevent and control the spread of coronavirus?*

DISEASE PREVENTION INCLUDING CANCER

- *What kind of collaboration models can generate more transfer of knowledge and good practices, and more implementation on the ground?*
- *How can we most effectively support the raising of standards for all citizens, for prevention, diagnosis, treatment and care, namely in the area of cancer?*

HEALTH SYSTEMS

- *How to test the health system's resilience, how to strengthen primary care, the skills of the healthcare workforce and a better integration of the ERNs into national system?*
- *How to develop medical devices and medicinal products taking into account patients' needs?*

DIGITAL

- *What can be done to improve the quality of Health data and the cross-border flow of Health data?*
- *How can we most effectively empower citizens to take charge of their health through digital health?*

EUR 5.1 billion (2018 prices)

EUR 316 million in 2021, rising to over EUR 900 million in 2027

Spending parameters for overall spending during the upcoming 7-year period:

- Minimum of 20% for health promotion and disease prevention;
- Maximum of 12.5% for procurement to complement national stockpiling of essential crisis relevant products;
- Maximum of 12.5% for supporting global commitments and international health initiatives;
- Maximum of 8% for administrative expenses
