

13TH eHEALTH NETWORK 15 MAY 2018, BRUSSELS, BELGIUM
COVER NOTE BY eHEALTH NETWORK SECRETARIAT

Agenda point 3: Patient access to electronic their health data

Issue at stake

JAsEHN has drafted two documents that concerns Patient Access to health data. In its 12th meeting, the eHealth Network was informed about the result of an analysis done on the EU state of play on Patient Access (D7.5.1). Following this report, the JAsEHN has prepared a set of recommendations provided in the recommendation paper on patient access to electronic health record information (D7.5.2) with the purpose to advance national policies to achieve progress in providing patients access to electronic health record information.

Summary

Recommendation Paper on patient access to electronic health record information (D7.5.2)

This paper is prepared as a follow-up of deliverable D7.5.1 *Report on the EU state-of-play on Patient Access to eHealth Data* which was presented for information at the 12th eHealth Network meeting on 28 November 2017. Based on the results of D7.5.1, D7.5.2 was elaborated and presented as draft-recommendations to the eHealth Network at the 12th meeting. Based on feedback provided by the eHealth Network, the document had been finalized by JAsEHN accordingly.

Format of procedure in the eHN

The Member State co-chair opens the topic and will then give the floor to the eHealth Network to give their comments and view concerning the recommendations.

The Member State co-chair then summarizes the discussion and will invite the eHealth Network to adopt the recommendations.

The eHealth Network is requested to adopt the recommendations.
