

Proposals of the of group Hospital Managers

22 november 2018

Eve Parier

Director of Hôpital St Louis and Lariboisière, Paris, coordinating ERN EuroBloodNet

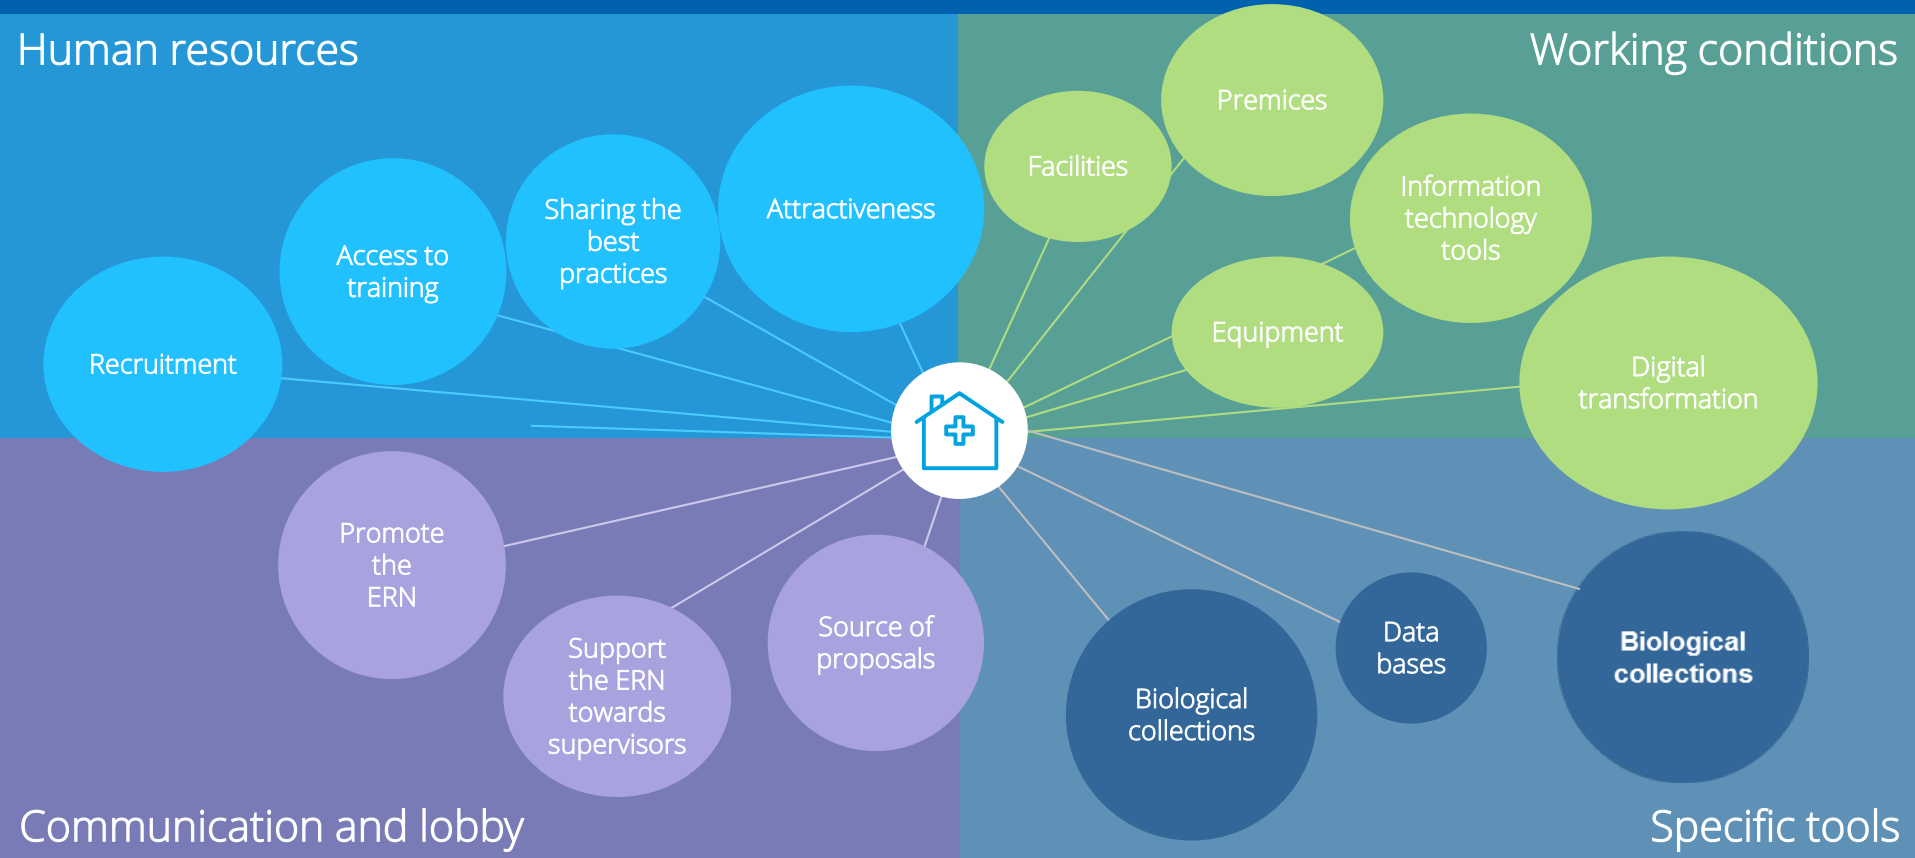

European
Reference
Network

for rare or low prevalence
complex diseases

Network
Hematological
Diseases (ERN EuroBloodNet)

- ❑ How do hospital managers see their role ?
- ❑ Issue of data management
- ❑ Issue of cross border réimbursement
- ❑ How can hospital managers increase their support ?

How hospital managers see their role and how can they support ERN ?

A durable economic constraint

- ❑ Share best practices on different items (list proposed by Carlos Milli)
 - Funds acceptance, resources utilization, project management
 - Clinical informations including data management, intégratino of clinical data, ...
 - Administrative process including cost of services and reimbursement, HR mobility,

- ❑ Be a force of proposals to increase support to ERN

- ❑ Many difficulties due to data protection legislation and their transation on national level
- ❑ Priorities :
 - ❑ Common framework for registries
 - ❑ 2nd phase : link between data and biological samples

- ❑ Actual legislation and no project to go further
- ❑ Priorities :
 - ❑ Fund expertise
 - ❑ Try to developp some conventions between countries

Learn from other experiences :

- ✓ Experience feedback between all European hospitals
- ✓ Sharing the best practices and the good ideas

Proposal of a structured hospital managers group :

- ✓ Define our goals
- ✓ Meeting on may 2019 in Paris
