**Subject:** VB: External study on the availability of medicinal products for human use

Dear Colleagues,

We acknowledge the receipt of the above report on the External Study on the availability of medicinal products for human use. We have no specific comments or suggestions for corrections to it. For your information, Sweden has not implemented article 126a of directive 2001/83/EC and we have therefore no comments to make on the list of products.

On behalf of Medical Products Agency

Christer Backman, senior expert  
EU coordinator  
External Relations and Innovation Support
