**Workshop**  
Integrated Nutrition Cancer Care

An indispensable part of multidisciplinary patient-centred cancer care and how to achieve it.

Wednesday 9 March 2021, 11.00 – 12.30 CET, Brussels time

Dear colleague,

We invite you to join this workshop, in which we will be presenting the preliminary Joint White Paper we are producing on how to integrate nutrition as part of European and national guidelines and policies for high-quality cancer care, by having science and policy go hand in hand.

All network participants are encouraged to help shape and develop a set of principles to use as a foundation for follow up actions, by joining this very last Thematic Network workshop, going through the ongoing White Paper and discussing which key points are missing.
