UPDATE ON OECD WORK

Gaetan Lafortune, OECD Health Division
Expert Group on Health Information, 6 December 2016
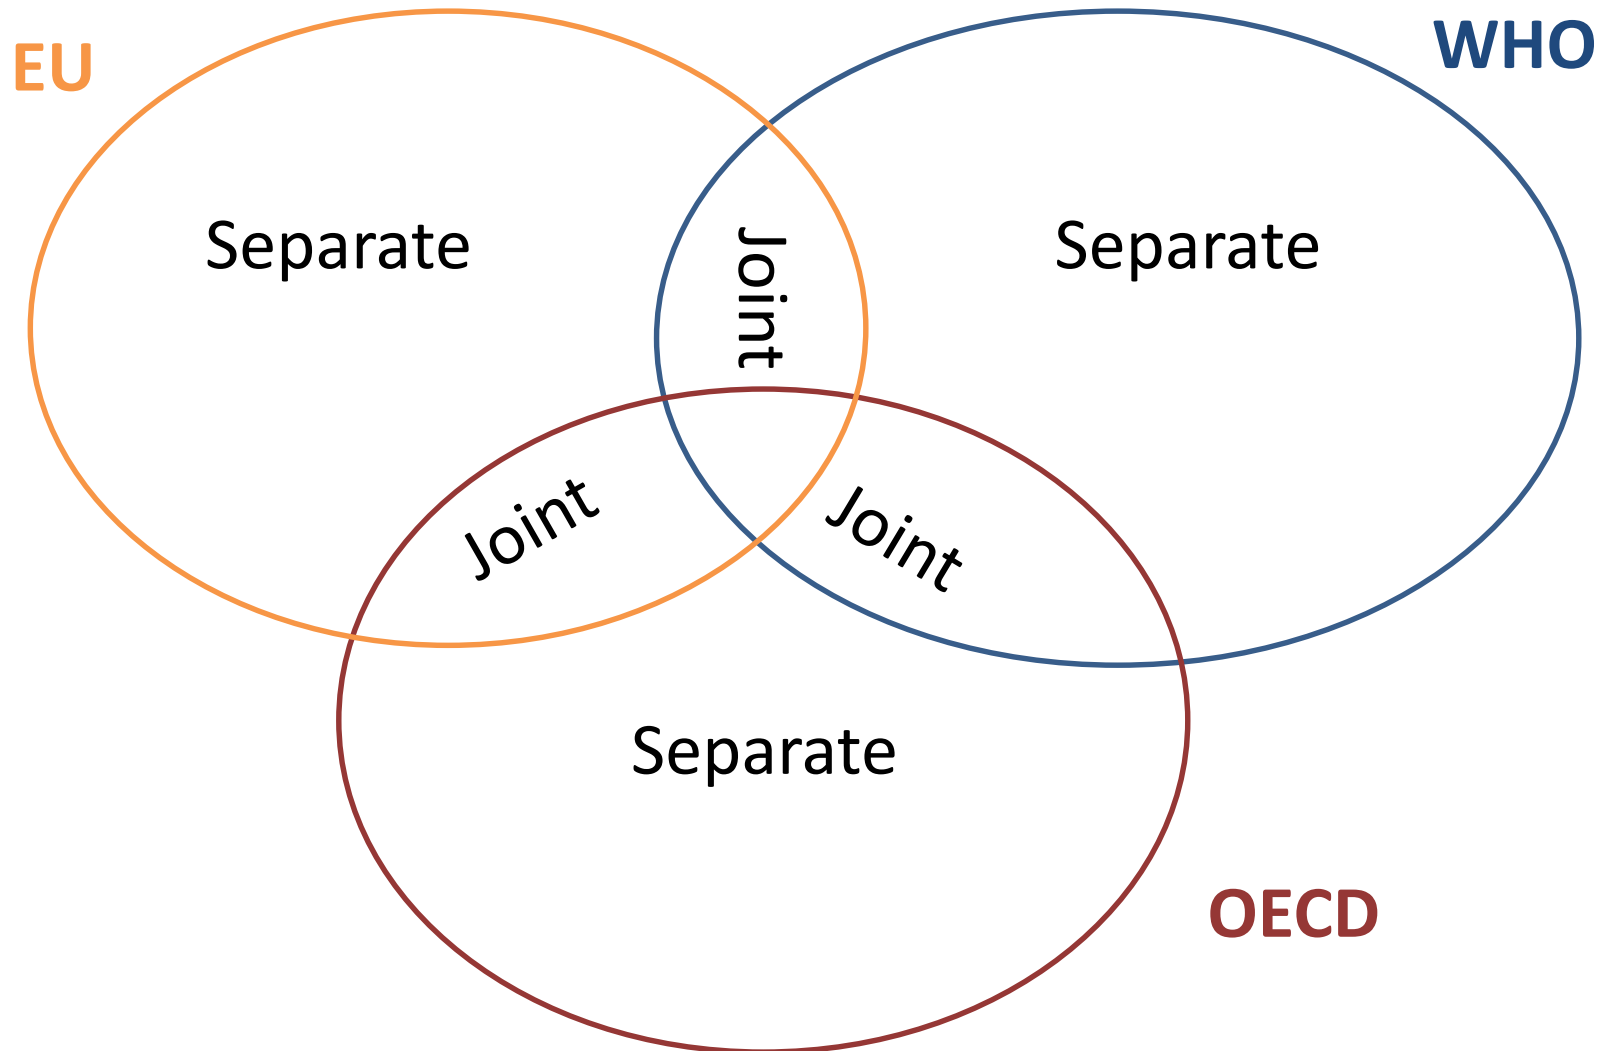

OECD
BETTER POLICIES FOR BETTER LIVES

OECD Programme of Work

1) OECD health database and *Health at a Glance (*in cooperation with EC for European edition)

2) Quality of care and patient safety (in cooperation with EC)

3) Efficiency and value for money in health systems (in cooperation with EC)

4) Access to care and inequalities in health status

5) Health workforce (in cooperation with EC and WHO)

6) Economics of prevention

7) Ageing and long-term care (in cooperation with EC)

➢ OECD Health Ministerial Meeting and Policy Forum (16-17 January 2017)

Separate and Joint Work of OECD with the EU and WHO

EU

WHO

Separate

Joint

Separate

Joint

Joint

Separate

OECD

Two joint data collections with Eurostat and WHO (Headquarters and Euro)

1) <u>Expenditure</u>: Joint Health Accounts Questionnaire:
   - ➢ Started in 2005 (based on SHA 2000)
   - ➢ 2016: Full transition to new JHAQ (based on SHA 2011)

2) <u>Non-expenditure</u>: Joint Questionnaire on Non-Monetary Health Care Statistics:
   - ➢ Started in 2010: Health employment and education, and physical and technical resources
   - ➢ Extended in 2013 (Health care activities) and 2015 (Health workforce migration)

Aims of joint data collections

- Reduce data collection burden on countries

- Promote consistent use of international standard classifications (e.g., SHA, ICD, ISCO)

- Improve consistency of data reported by international organisations

Annual process for joint data collections

1) One questionnaire sent to designated focal point(s) in each country (December)

2) One data submission by national focal point(s) to the three international organisations (end February for non-expenditure, end March for expenditure)

3) Data validation shared by the three international organisations (March/May)

4) One final set of data agreed by the three international organisations (June)

5) Three organisations disseminate final dataset in their own databases (Summer)
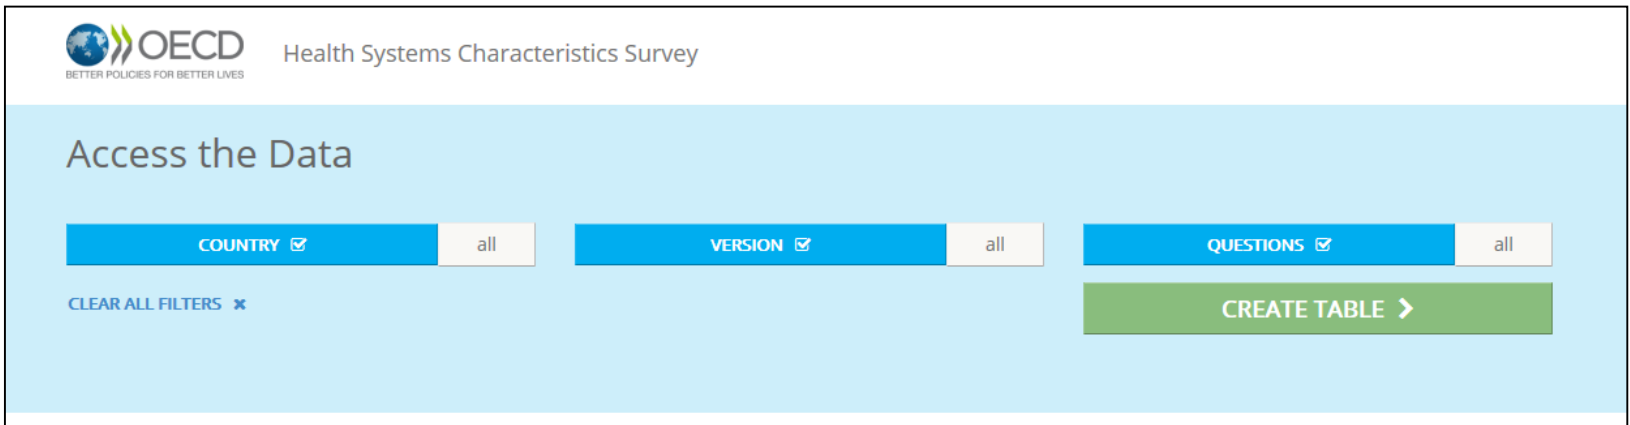

OTHER OECD WORK

Health Care Quality Indicators

- Preparation for <u>2017 HCQI data collection</u>:

  - Including pilot data collection on dementia and hospital performance indicators

- Focus on <u>Patient Safety</u>:

  - Paper on Economics of Patient Safety for Global Ministerial Summit on Patient Safety hosted by Germany, March 2017

  - Support from EC to explore member state experiences and policy use of OECD patient safety indicators

  - Explore expansion of existing indicators, including patient reported incidents and prescribing safety

Health Systems Characteristics Survey Results from 2016 survey

- **Qualitative information** on health financing and coverage, health care provision, governance and resource allocation have been collected for 31 countries

- **Responses to the 2012 and 2016 surveys** available in a database on a dedicated webpage: http://qdd.oecd.org/subject.aspx?Subject=hsc

Improving health system efficiency

- **Analysing health system efficiency at three levels:**
    - System-wide level
    - Sectoral level (hospital, primary care, pharmaceutical)
    - Disease-specific level

- **Measuring efficiency through both:**
    - output-based measures (e.g., volume of activities in relation to inputs)
    - outcomes-based measures (e.g., cost-effectiveness)

- **Expected deliverable:**
    - Scoping paper on health system efficiency measurement (by end of 2016)
    - Complement work on identifying waste in health systems

➢ Work in collaboration with EC

Work on long-term care

Social protection

- Measures financial protection against the cost of LTC
- Phase 2 started in July 2016 and runs for 3 years aims to <u>increase country coverage</u> from 15 countries of phase 1
- Developing a model to simulate a wider range of scenarios and deliver more advanced analysis

Dementia

- Pilot collection of indicators of the quality of dementia care planned for early 2017
- HCQI Expert Group will review results in May
- Report to be published late 2017

LTC workforce

- New 2-year project starts in the first half of 2017
- To explore how countries can develop a LTC workforce to meet the needs of future populations
- Supported by EC

OECD MINISTERIAL MEETING AND POLICY FORUM

Draft Agenda Ministerial Meeting
Tuesday, 17 January 2017

➢ <u>Chair</u>: Jeremy Hunt, Secretary of State for Health, UK

➢ 30 other Ministers have confirmed their participation

Releasing Health System Resources for Better Value Care: Tackling Ineffective Health Spending and Waste

(Note: New OECD publication to be released on 10 January 2017)

Tackling High-Cost Treatments and Personalised Medicine

Reforming Health Professionals' Roles

Governing Big Data in Health Care

Expected outcomes and mandates from OECD Ministerial meeting

- Making the most of <u>health data</u> for improving people's health and health system performance

  o Endorsement of OECD Council Recommendation on health data governance (if adopted on 30 November)

- Future <u>OECD work</u> (in cooperation with EC and others)

  o Enhance people focus (develop patient-reported experience and outcomes measures – PREMs and PROMs)

  o Make health system more knowledge based

  o Modernise delivery models

Draft Agenda Policy Forum
Monday, 16 January 2017

Welcoming remarks by OECD Secretary-General, Mr. Angel Gurría

Step into the future: realising the goal of person-centred care
Don Berwick, Olivia Wigzell , Petra Wilson , Nicole Denjoy

Caring for people with complex needs
Robin Osborn , Cecilia Rodriguez , Toyin Ajayi , Samir Sinha , Isabelle Durand-Zaleski

Measuring what matters: Outcomes and patient experiences as a catalyst for change?
Michael Porter , Ran Balicer, Diana Delnoij, Felicia Knaul , Christopher Murray

A conversation with Health Ministers
A small group of Health Ministers will discuss what policies decision-makers can and should implement to make health systems more person-centred.

➢ **People interested in participating in this Forum should contact:**
