4. Information on enforcement activities

4.1. BPR enforcement strategy

Has an overall strategy been implemented in the Member State for the enforcement of the BPR?

- Yes
 No

4.2. Control system in the Member States and results of official controls

Please give a brief overview of the way official controls are carried out in your Member State, with special emphasis on the following processes:

- making available on the market of biocidal products;
- use of biocidal products;
- placing on the market of treated articles

Control system (institutional framework) is set by The Decision No 686 of 24 July 2013 of the Government of the Republic of Lithuania on Implementation of Regulation (EU) No 528/2012 of the European Parliament and of the Council of 22 May 2012 concerning the making available on the market and use of biocidal products <https://www.e-tar.lt/portal/lt/legalAct/TAR.58B15DCB1CF8/asr> .

Environmental Protection Department under the Ministry of Environment controls all chemical substances and mixtures including biocidal products with respect to safety data sheets, classification, labeling, packaging and storage.

State Labor Inspectorate of the Republic of Lithuania is a state control institution functioning under the Ministry of Social Security and Labor for the prevention of violations of standard acts regulating occupational safety and health, as well as the prevention of accidents at work and occupational diseases in enterprises, by controlling the compliance with these standard acts; furthermore, checks whether employers are safely organizing the production and use of biocidal products; whether the biocidal products are used according to the conditions of authorisation for the protection of the safety and health of workers.

State Food and Veterinary Service supervises whether biocidal products that are used are legal; whether biocidal products are used in accordance with the conditions laid down in authorization certificates or permissions; whether manufacturers of biocidal products keep the relevant documents relating to the manufacturing process in paper and electronic form relevant to the quality and safety of the biocidal product placed on the market and keep samples of the production batch; make proposals for the application of provisional measures to biocidal products under the safeguard clause.

Lithuanian State Consumers Rights Protection Authority performs controls if biocidal products placed on the market are authorized, classified, packed and labelled according to BPR; if active substances in treated articles and labelling of treated articles meets the requirements of BPR; checks if authorisation holders keep relevant documents about biocidal products that were placed on the market; checks if manufacturers keep relevant documents and samples of manufactured biocidal products; checks if advertisement of biocidal products meets BPR requirements.

National Public Health Centre under the Ministry of Health performs controls if professionally used biocidal products are authorized, labelled, have safety data sheets according to BPR requirements and if they are used according to authorisation conditions.

Lithuanian Customs carries out supervision whether biocidal products imported from third countries are legalized in accordance with the requirements of legal acts.

5. Poisoning incidents

5.1. Poisonings involving biocidal products, severity of the impact

Please provide below an overview of the information reported since the entry into operation of BPR on poisoning incidents involving biocidal products, indicating the active substances and product-types most frequently involved and those involved in incidents resulting in severe health impairments or death (fatal or near fatal incidents)

Number of consultations provided by Poison Information Unit (Bureau) of State Medicines Control Agency under the Ministry of Health concerning poisoning by biocidal products.

6.1. Advice to small and medium-sized enterprises (SMEs)

Following Article 81(2) of the BPR, competent authorities have to provide advice to the applicants and in particular to SMEs.

Does your Member State provide specific advice to SMEs?

- Yes
 No

7. Sustainable use measures

In accordance with Article 18 of the BPR, a Commission Report on the sustainable use of biocidal products was submitted to the European Parliament and the Council in 2016, compiling the information provided by Member States. Please find below some questions that are requested in order to follow-up on this report.

7.1. Availability of Best Practices Documents in the Member States

Are Best Practices Documents used or developed for reducing the use of biocidal products to a minimum or for using biocides with less impact on human health and the environment?

- Yes
 No

Please specify which kind of documentation is available in your Member State

| Type of document | Name of document | Product-type(s) covered | Year of document |

7.2. Availability of certifications or training schemes for professional users

Are certification procedures or training schemes in place (organised by e.g. eCAs, public authorities, sector organisations) for professional users of biocidal products?

- Yes
 No
 Not anymore

Please specify which kind of biocidal products or applications are covered by those schemes and include the corresponding links of the relevant websites with information

| | Biocidal products or applications covered | Name of the certification or training scheme | Year |
|---|--|---|------|
| 1 | Use of biocidal products of Main Groups 1, 3 and 4 in different professional/commercial activities are included into training and certification schemes. | Order No V-69 of 2 February 2008 of Minister of Health of Republic of Lithuania https://e-seimas.lrs.lt/portal/legalAct/lt/TAD/TAIS.314041/asr | 2008 |

7.3. Information to the public

Have measures been taken to provide the public with appropriate information about benefits and risks associated with biocidal products and ways of minimising their use? (Article 17(5) of the BPR)

- Yes
 No

Please specify which kind of information is available in your Member State (e.g. information campaigns, regulatory measures) and include the corresponding links of the relevant websites with information.
