BPR Article 65(3) reporting

1. General information

1.1. Member State

For w	nich Memeber State* are you reporting?
(*In this	survey "Member State" refers to EU Member States, Iceland, Liechtenstein, Norway and Switzerland)
_	Austria
	Belgium
	Bulgaria
_	Croatia
	Cyprus
	Czech Republic
0	Denmark
0	Estonia
0	Finland
0	France
0	Germany
0	Greece
0	Hungary
0	Iceland
0	Ireland
0	Italy
0	Latvia
0	Liechtenstein
0	Lithuania
0	Luxembourg
0	Malta
0	Netherlands
0	Norway
0	Poland
0	Portugal
0	Romania
0	Slovakia
0	Slovenia
0	Spain
0	Sweden
0	Switzerland
0	United Kingdom

1.2. Contact details of the person responsible for reporting

Name	Organisation	Email address	Telephone number(s)
	Office of Environment		

1.3. Information on the Competent Authority (CA)

1.3.1. Competent Authorities involved in the implementation of the BPR

How many CAs are responsible for the implementation of the BPR in your Member State? Please do not include enforcement authorities here, as they are specifically covered in section 4.

The Office of Environment of Liechtenstein and the Swiss Competent Authorities are responsible for the implementation of the BPR (cf. the following explanation in the answer 1.3.1).

Based on the Biocidal Products Agreement between Liechtenstein and Switzerland, which entered into force on 4 November 2015 with the Agreement LGBL 2015 No. 264 (https://www.gesetze.li/konso/pdf/2015264000?version=1), on the behalf of the Government of the Principality of Liechtenstein, the Swiss Chemicals Notification Authority in cooperation with the competent assessment bodies of the Federal Office for the Environment (FOEN), the Federal Office of Public Health (FOPH) and the Federal Office for Agriculture (FOAG), of the Federal Office of Food Safety and Veterinary Affairs (FOSV) and the State Secretariat for Economic Affairs (SECO) validates and evaluates, with the aim of placing on the market and of the use of biocidal products and active substances: (a) the applications for the authorisation of biocidal products received by the Office of Environment of Liechtenstein; (b) the applications for the evaluation of biocidal products or active substances accepted by the Office of Environment of Liechtenstein. The applications are validated and evaluated in accordance with the provisions valid under the EEA Agreement and in particular according to the chemicals legislation. Therefore the numbers reported in the sections 3, 4.4.1 and 8 are the same for Liechtenstein and Sw itzerland. These numbers are only reported in the Swiss BPR Art. 65(3) reporting survey. The same applies to the section 5 becaus e Liechtenstein relied during the reporting period on the Swiss Poison Center and the numbers relative to Liechtenstein are included in those reported in the Swiss survey. Furthermore in the sections 1.3, 2 and 7.2 it is referred to the Swiss BPR Article 65 (3) reporting survey since the national procedures and fees in Liechtenstein are the same as in Switzerland.

1.3.2. Details of the Competent Autorities involved in the BPR implementation

	BPR competent	
	authority involved	Website
Advice to applicants/helpdesks on active substances	Office of Environment (AU) and Swiss Authorities	AU: https://www.llv.li/inhalt/11636/amtsstellen/biozide AS: https://www.anmeldestelle.admin.ch/chem/de/home/themen/pflicht-hersteller/zulassung-biozidprodukte.html

Poison centre	cf. Swiss BPR Article 65(3) Reporting	cf. Swiss BPR Article 65(3) Reporting
Animal poison centre	cf. Swiss BPR Article 65(3) Reporting	cf. Swiss BPR Article 65(3) Reporting
Other		

2. Relevant national measures and Member State specific measures

2.1. Transitional period (Art. 89 BPR)

Do you have specific national measures or legislation for making available on the market of biocidal products during the transitional period?

Yes

O No

Please specify below the national regulation(s) and/or requirement(s) during the transitional period or refer to the corresponding link of the relevant website with the requested information. If available in English please include the link to the English version.

Please also indicate whether such regulation(s) and/or requirement(s) changed during the reporting period.

cf. Swiss BPR Article 65(3) Reporting

2.2. Applicable fees

Do you have specific national measures or legislation regarding fees for BPR procedures?

Yes

O No

Please specify below the national regulation(s) and indicate the corresponding link to the relevant website with the requested information. If available in English please include the link to the English version

c.f. Swiss BPR Article 65(3) Reporting

2.2.1. Fee amounts

Please provide information on the applicable fees for the procedures listed in the table below

	Fee amount
Evaluation of an active substance for approval	cf. Swiss BPR Article 65(3) Reporting
Evaluation of an active substance for Annex I inclusion	cf. Swiss BPR Article 65(3) Reporting
Authorisation of a biocidal product (BP)	cf. Swiss BPR Article 65(3) Reporting
Authorisation of a BP family	cf. Swiss BPR Article 65(3) Reporting
Mutual recognition of an authorisation of a BP	cf. Swiss BPR Article 65(3) Reporting
Mutual recognition of an authorisation of a BP family	cf. Swiss BPR Article 65(3) Reporting
Union authorisation of a BP	cf. Swiss BPR Article 65(3) Reporting
Union authorisation of a BP family	cf. Swiss BPR Article 65(3) Reporting
Annual fee	cf. Swiss BPR Article 65(3) Reporting
Other (please specify)	

2.3. Measures in favour of small and medium enterprises (SMEs)

Do you have specific national measures or legislation favouring SMEs?

- O Yes
- No

2.4. Non-compliance and penalties

Do you have specific national measures or legislation concerning non-compliance and penalties applicable for infringements on the implementation of the BPR?

- Yes
- O No

Please specify below the national regulation(s) and refer to the corresponding link to the relevant website with the requested information. If available in English please include the link to the English version

Gesetz vom 22. März 1995 über die Verkehrsfähigkeit von Waren (https://www.gesetze.li/konso/pdf/1995094000?version=7)

2.5. Imported treated articles

Do you have specific national measures or legislation that regulates whether imported treated articles contain only approved active substances?

- O Yes
- No

3. Placing and making available on the market of biocidal products

3.1. Authorisation procedures

3.1.1. Authorisations

Please indicate in the tables below the figures related to the various procedures since the entry into application of the BPR (1st September 2013)

3.1.1.a. National authorisations

	2013	2014	2015	2016	2017	2018	2019	Total number
Authorisations granted on the basis of Article 19(5)	cf. Swiss BPR Article 65(3) Reporting							
Provisional authorisations granted for products containing new active substances (Article 55(2))	cf. Swiss BPR Article 65(3) Reporting							

3.1.1.b. Mutual recognitions - concerned Member State

2013	2014	2015	2016	2017	2018	2019	Total number

4. Information on enforcement activities

4.1. BPR enforcement strategy

Has an overall strategy been implemented in the Member State for the enforcement of the BPR?

- Yes
- O No

Please describe it and, if it is publicly available, provide the corresponding link. If available in English please include the link to the English version

Liechtenstein implements the enforcement strategy of the Forum BPR Subgroup.

4.2. Control system in the Member States and results of official controls

Please give a brief overview of the way official controls are carried out in your Member State, with special emphasis on the following processes:

- making available on the market of biocidal products;
- use of biocidal products;
- placing on the market of treated articles

During the reporting period Liechtenstein participated to the enforcement projects concerning biocidal products and treated artic les organised by the Forum BPR Subgroup and the Swiss FOPH. Periodical controls and random checks of such products available on the market were also carried out.

4.3. Enforcement authorities involved in official controls

Please provide the denomination of the enforcement authorities involved in official controls. If applicable, please also provide the links to the relevant websites

	BPR enforcement authority(ies) involved	Website
Controls on placing and making biocidal products available on the market	Office of Environment of Liechtenstein	https://www.llv.li/inhalt/11636/amtsstellen/biozide
Controls on placing on the market of treated articles	Office of Environment of Liechtenstein	https://www.llv.li/inhalt/11636/amtsstellen/biozide

4.3.1. Complaints

Have there been complaints (information about suspected infringements of the BPR rules) received by enforcement authorities in relation to the implementation of the BPR?

	2013	2014	2015	2016	2017	2018	2019	Total number	
Number of complaints	0	0	1 (related to 6 products)	0	0	0	2 (related to 4 products in total)	3 (related to 10 products in total)	

4.4. Controls addressing different parts of the supply chain

The reporting Member State is requested to provide information on the official controls on the implementation of the BPR that have been performed since the entry into force of the Regulation.

Please provide below the information available on the official controls performed with a focus on the following information, where available: number of controls performed, resources used, outcome of controls (in terms of number and type of non-compliances)

4.4.1. Official controls on compliance with BPR rules for making available on the market of biocidal products

• (Total number of) controls on biocidal products made available on the market / (Number of) illegal products made available and points of non-compliance

cf. Swiss BPR Article 65(3) Reporting

If detailed figures are available please provide them in the table below

Controls on biocidal products - Total number of controls per year and non-compliances (NC) identified

5. Poisoning incidents

5.1. Poisonings involving biocidal products, severity of the impact

Please provide below an overview of the information reported since the entry into operation of BPR on poisoning incidents involving biocidal products, indicating the active substances and product-types most frequently involved and those involved in incidents resulting in severe health impairments or death (fatal or near fatal incidents)

cf. Swiss BPR Article 65(3) Reporting

If detailed figures are available please provide them in the table below

Number of poisoning incidents related to biocidal products per year by poisoning severity

	2013 Fatal/near fatal	2013 Other	2014 Fatal/near fatal	2014 Other	2015 Fatal/near fatal	2015 Other	2016 Fatal/near fatal	2016 Other	2017 Fatal/near fatal	2017 Other	2018 Fatal/near fatal	2018 Other	2019 Fatal/near fatal	2019 Other

6. Helpdesk functioning

Please fill in in the following table the information regarding the number of enquiries that Helpdesks receive per year.

Note: if your system does not differentiate the queries according to their topic (active substances, biocidal products, treated articles) please indicate the total number of queries per year in the last row.

	2013	2014	2015	2016	2017	2018	2019
Number of enquiries on active substances	n/a						
Number of enquiries on biocidal products	n/a	1	n/a	n/a	n/a	n/a	n/a
Number of enquiries on treated articles	n/a						
Total number of enquiries per year	1	2	1	3	16	18	20

6.1. Advice to small and medium-sized enterprises (SMEs)

Does your Member State provide specific advice to SMEs?

7.1. Availability of Best Practices Documents in the Member States

YesNo

report.

7. Sustainable use measures

Following Article 81(2) of the BPR, competent authorities have to provide advice to the applicants and in particular to SMEs.

In accordance with Article 18 of the BPR, a Commission Report on the sustainable use of biocidal products was submitted to the European Parliament and the Council in 2016, compiling the information provided by Member States. Please find below some questions that are requested in order to follow-up on this

relevant websites with information.
