

## No. of EU Countries Represented per ERN

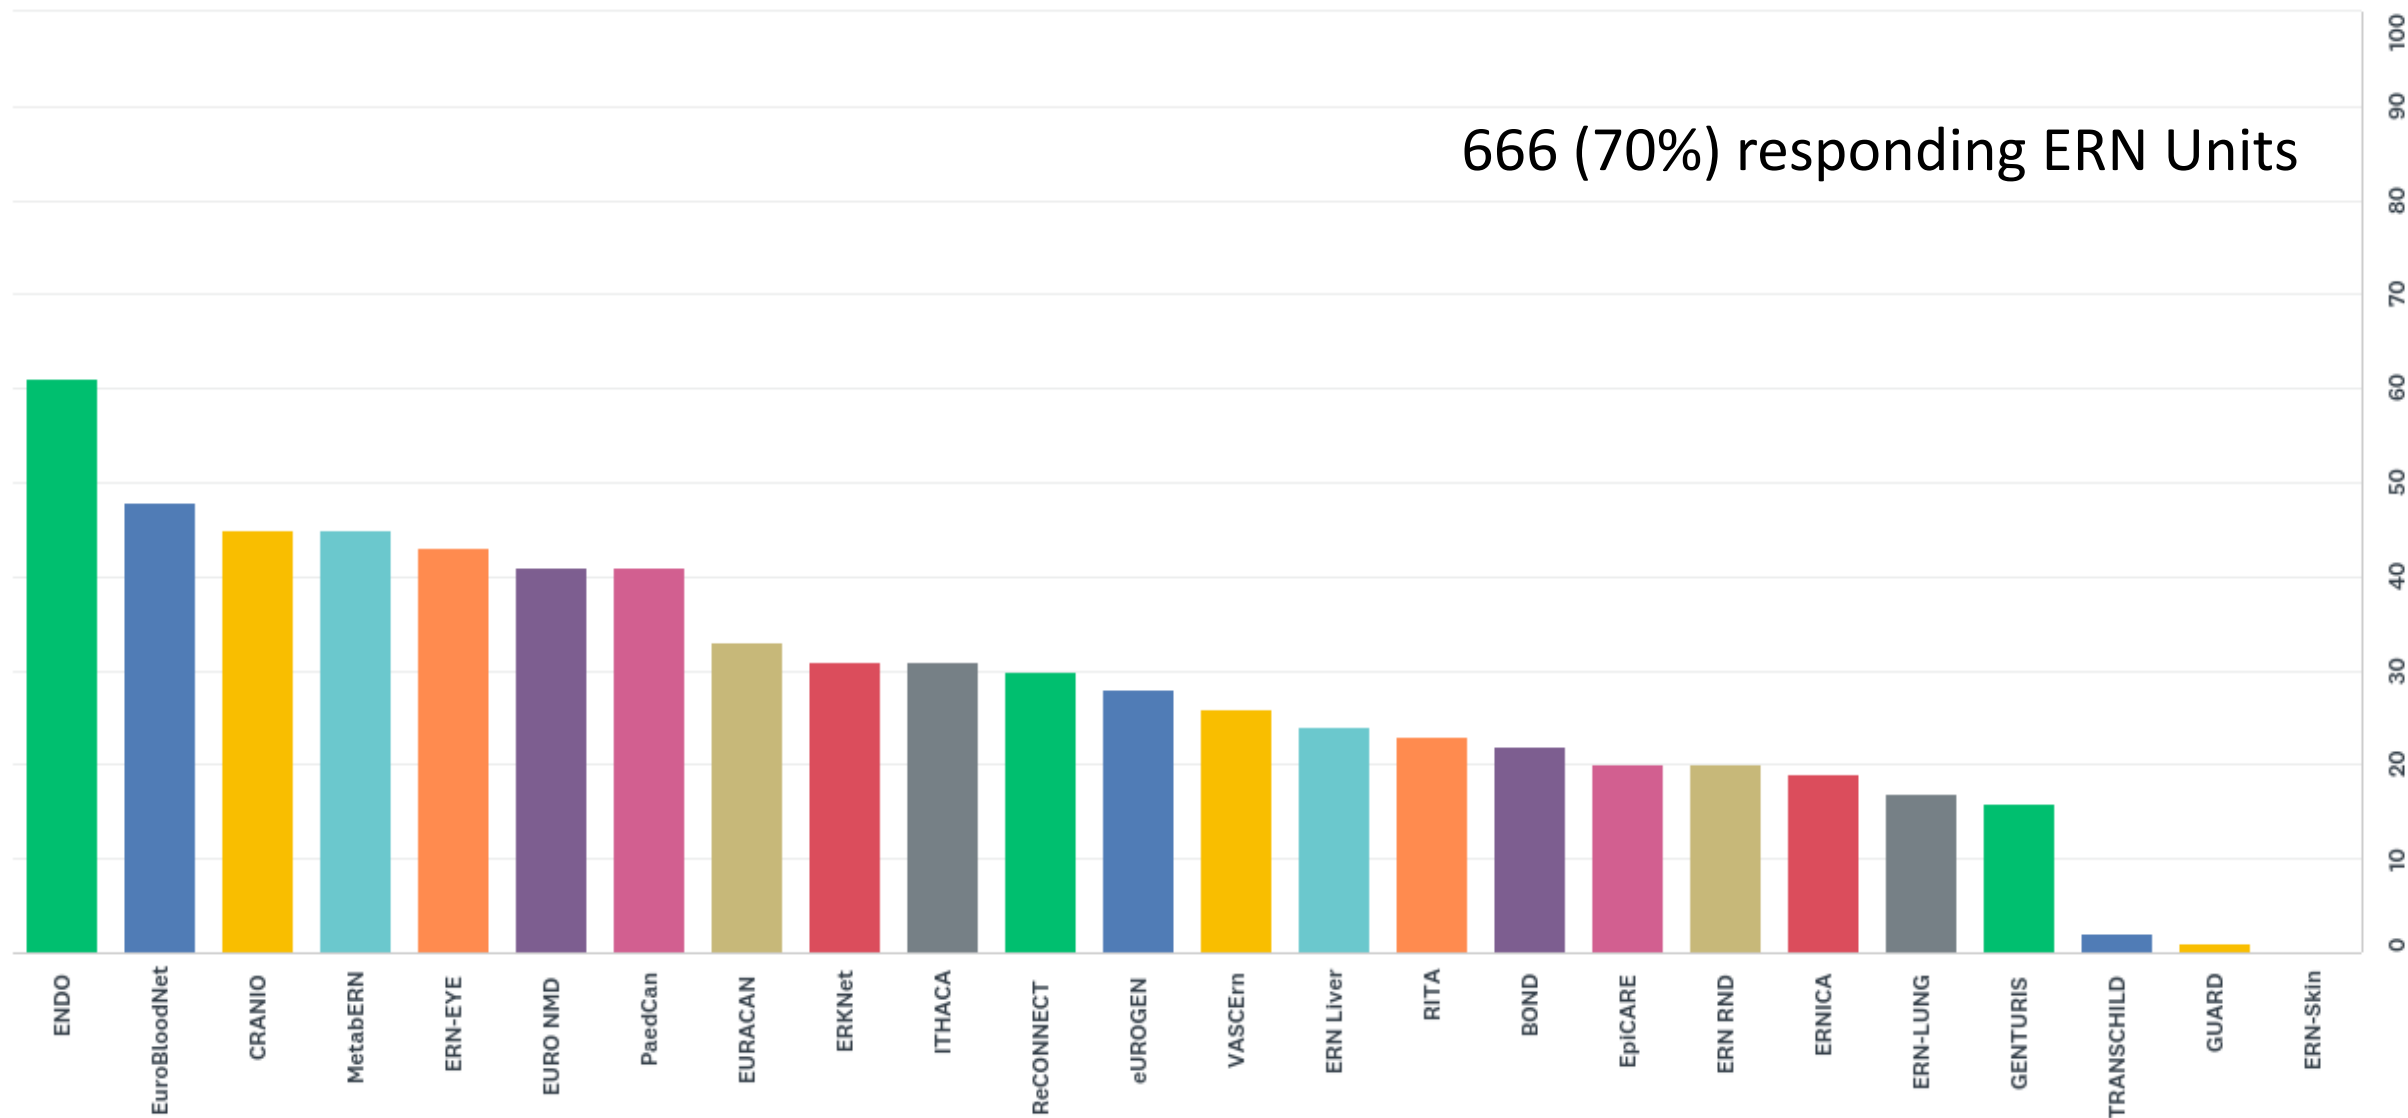

## Estimated % EU\* Population without Current ERN Coverage assuming demand = 1 center/ERN per 10 mio population

\*EU28+Norway

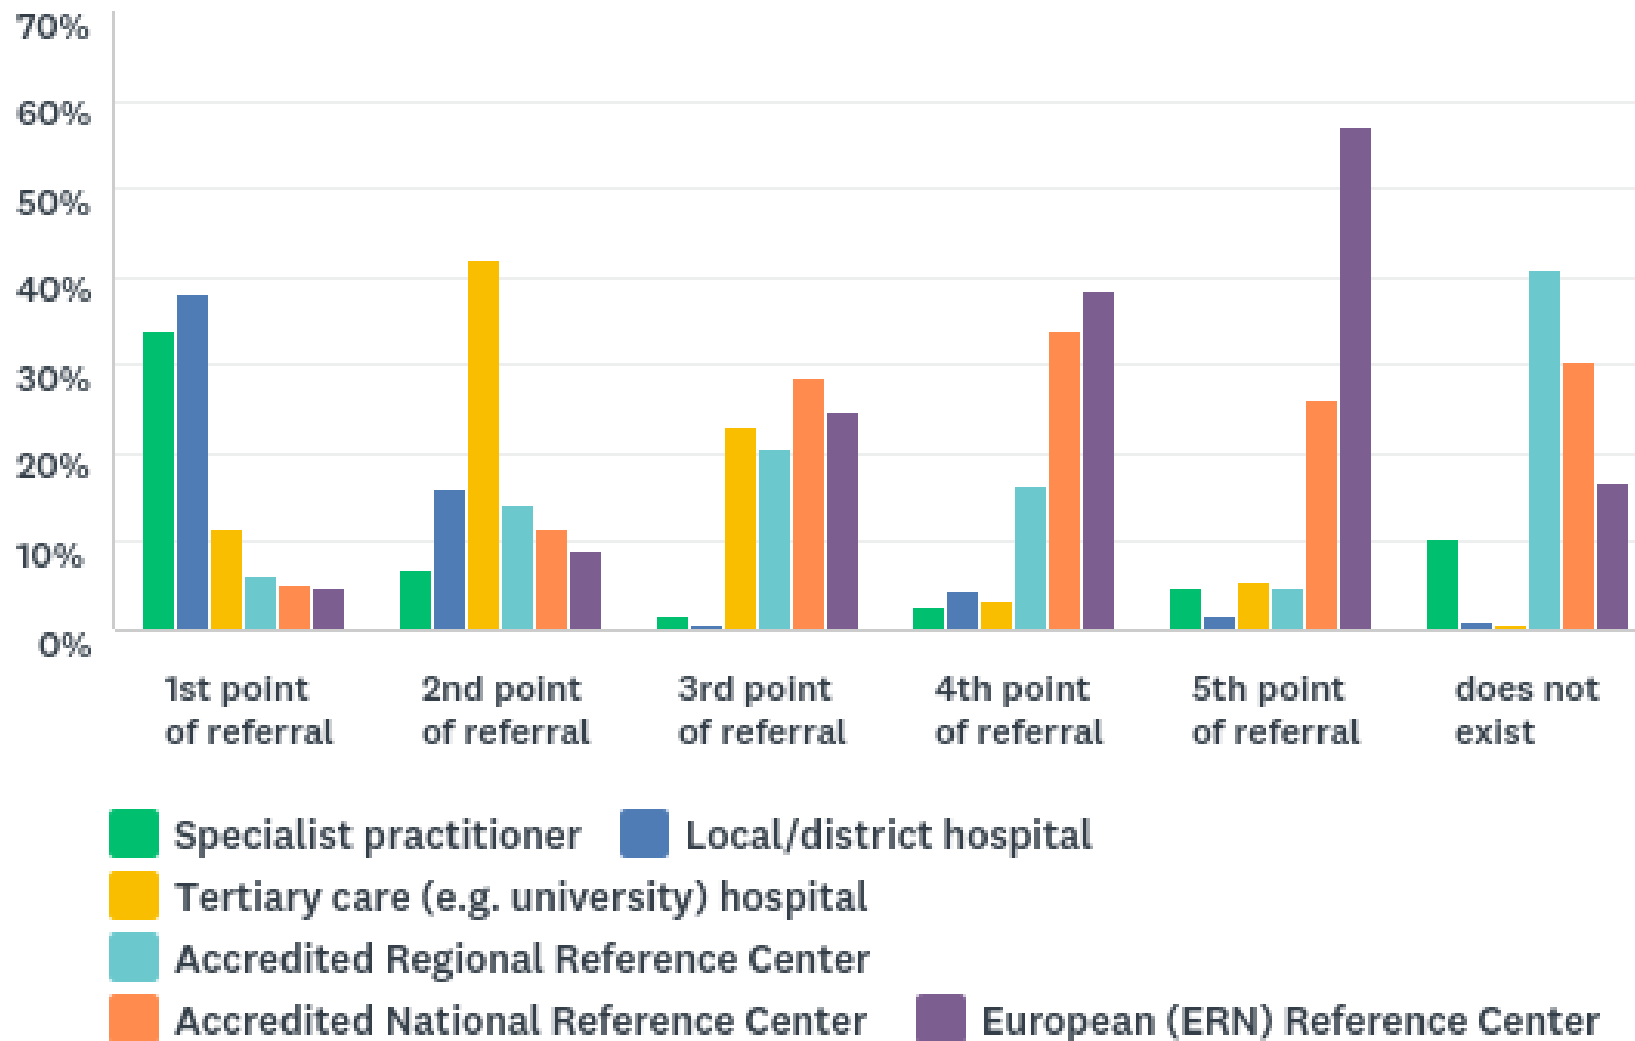

# Which ERN Are You Participating In?

Let's assume a patient develops signs and symptoms of one of the rare diseases covered by your ERN.

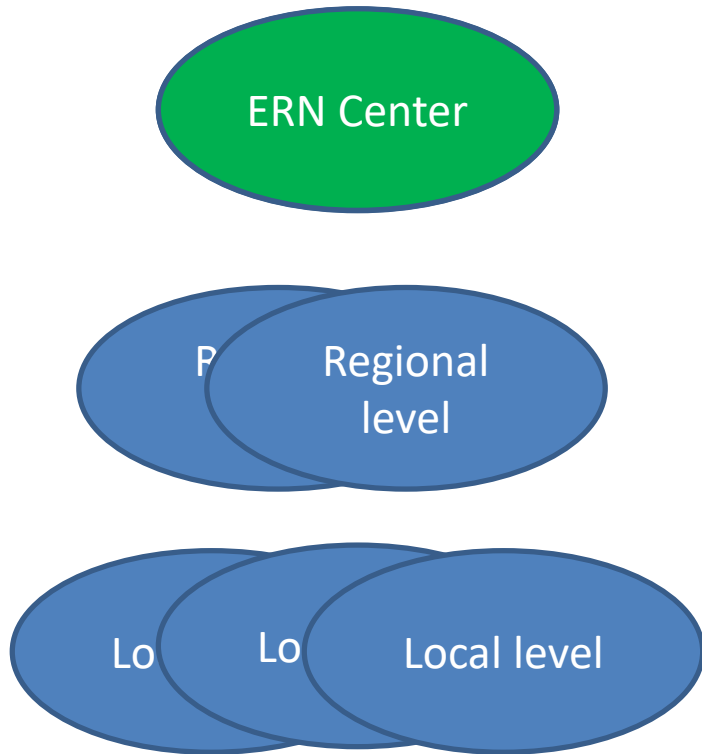

The patient lives in a rural area not in immediate vicinity to an ERN center.

# Where would this patient be referred to for diagnosis and treatment?

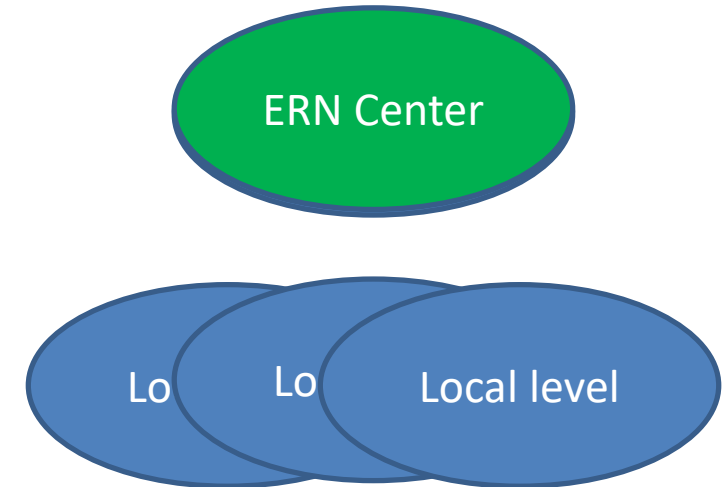

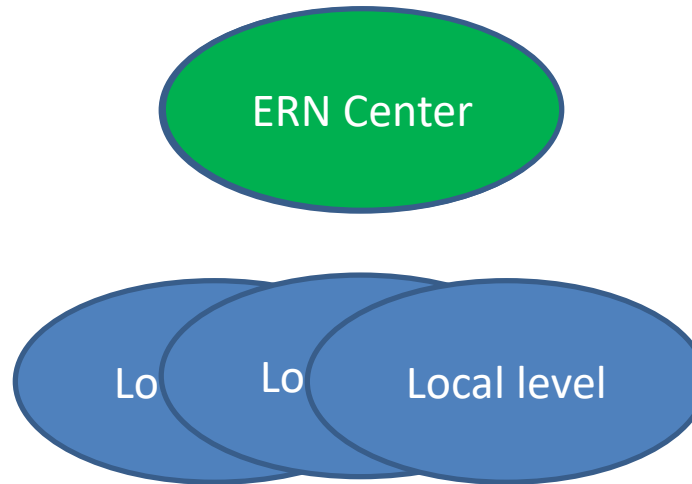

# ERN Integration in National Health Care Systems

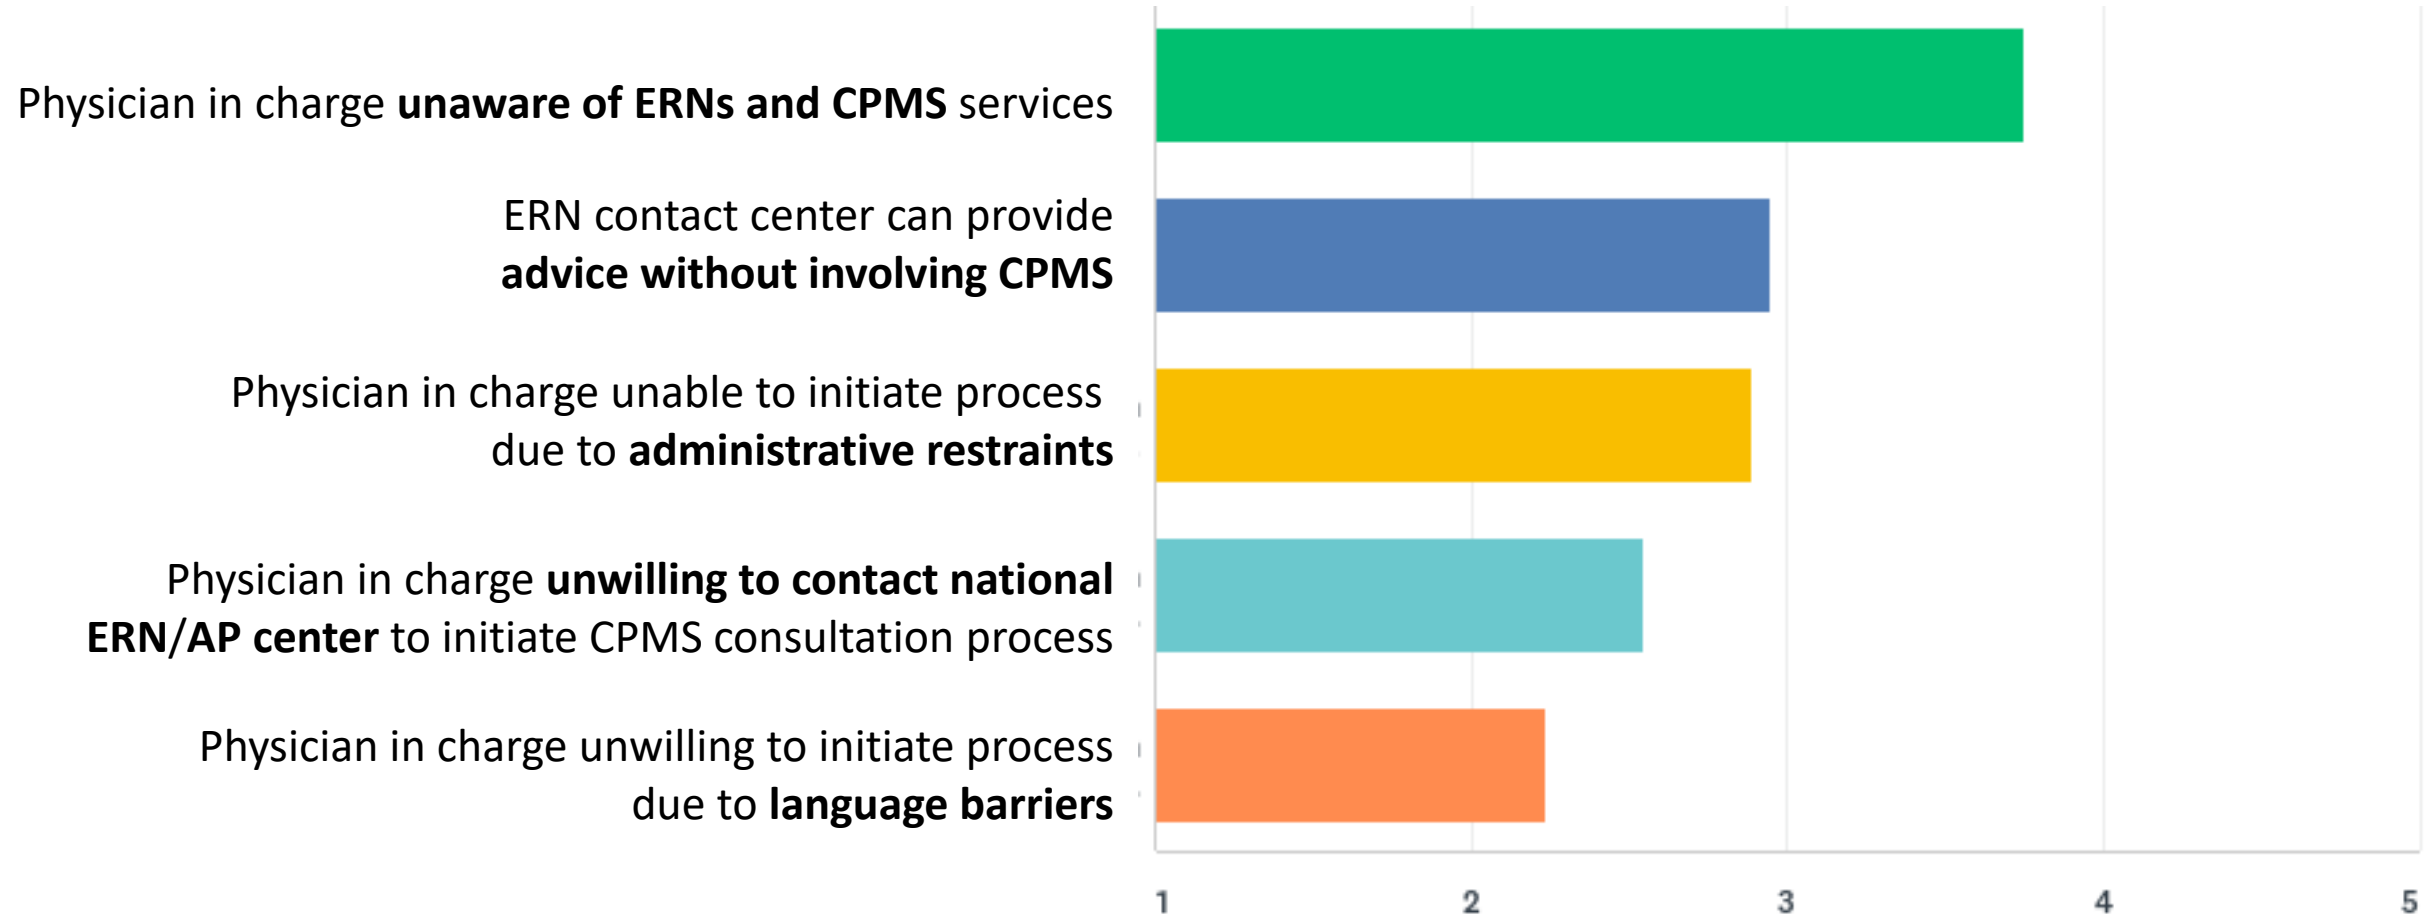

Centralized

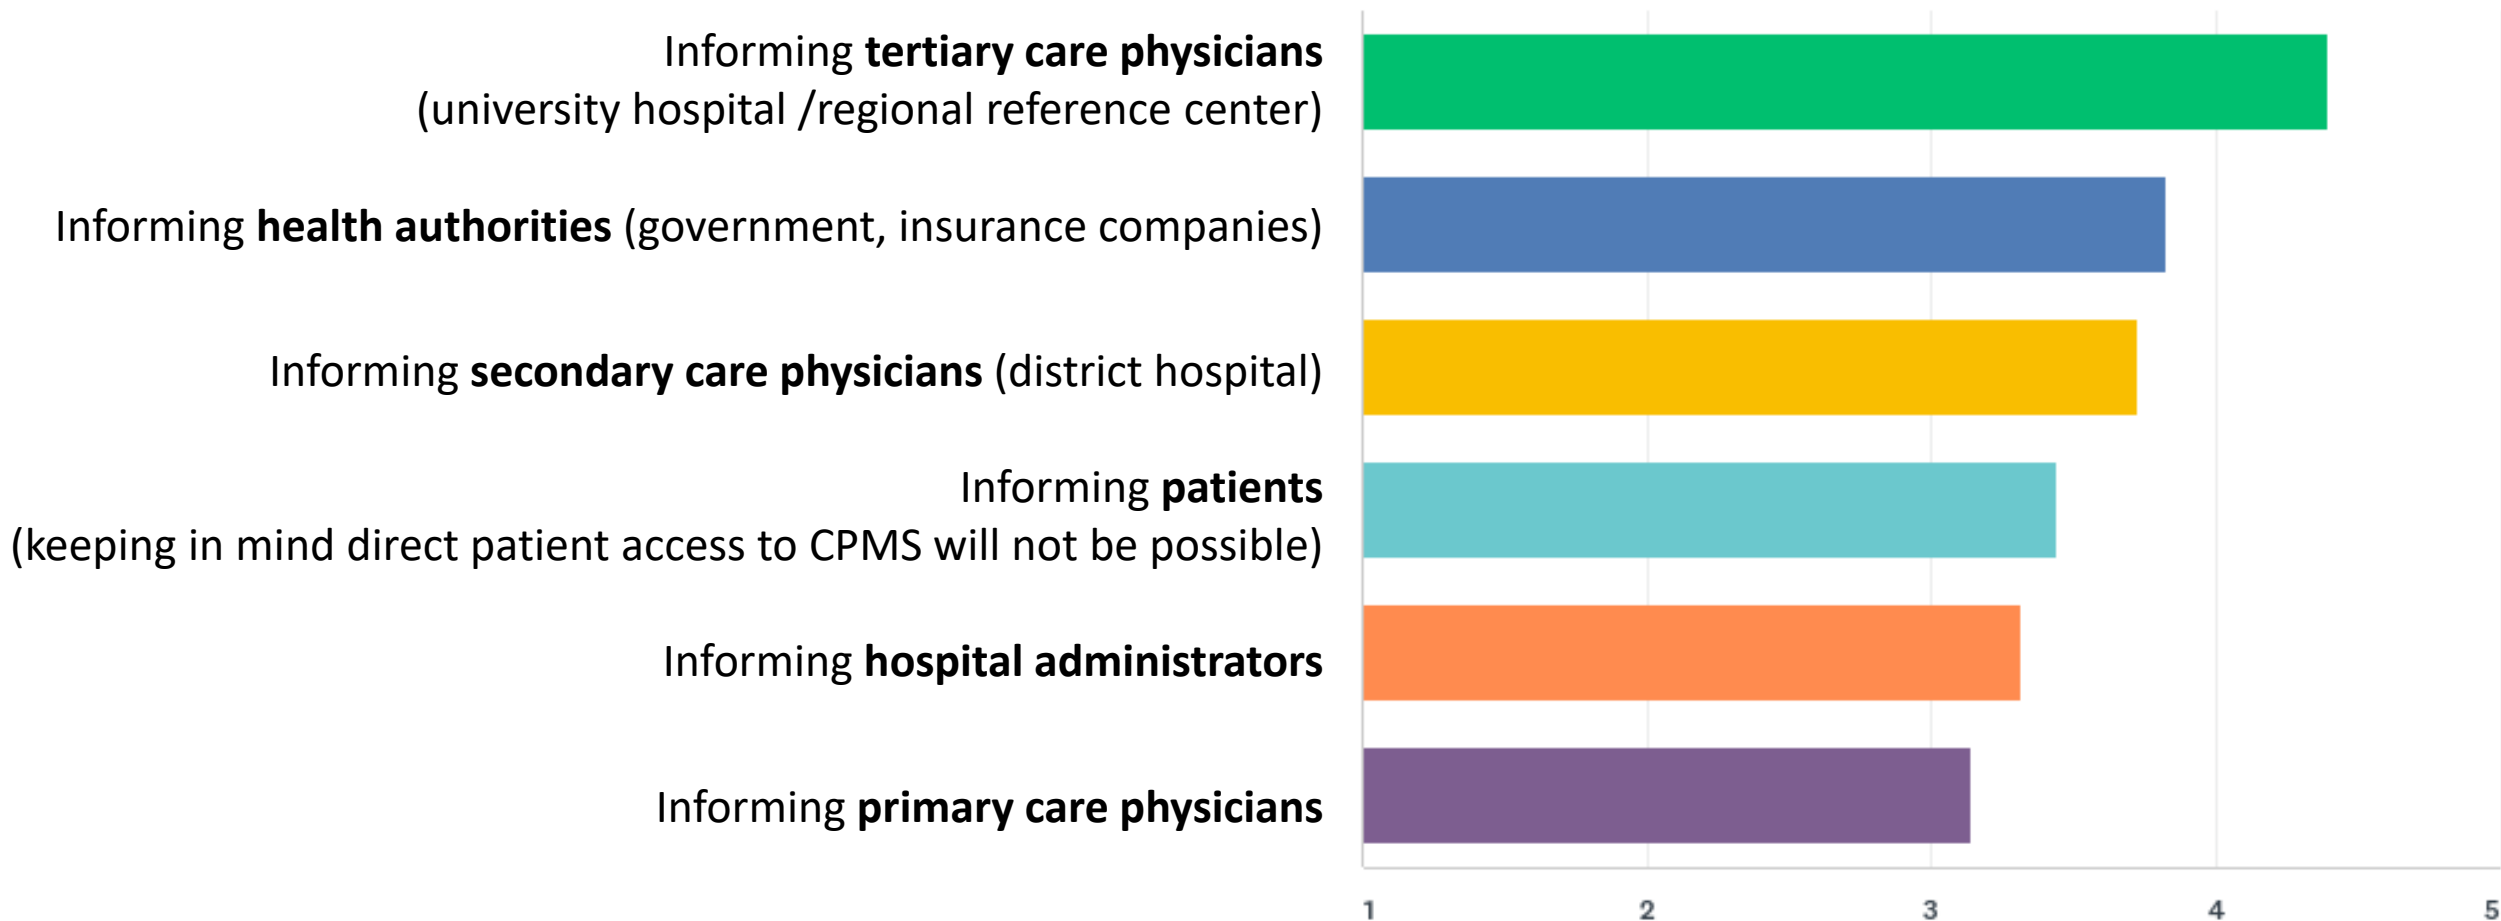

De-centralized

# What barriers might prevent the patient's case from being uploaded and discussed via the CPMS?

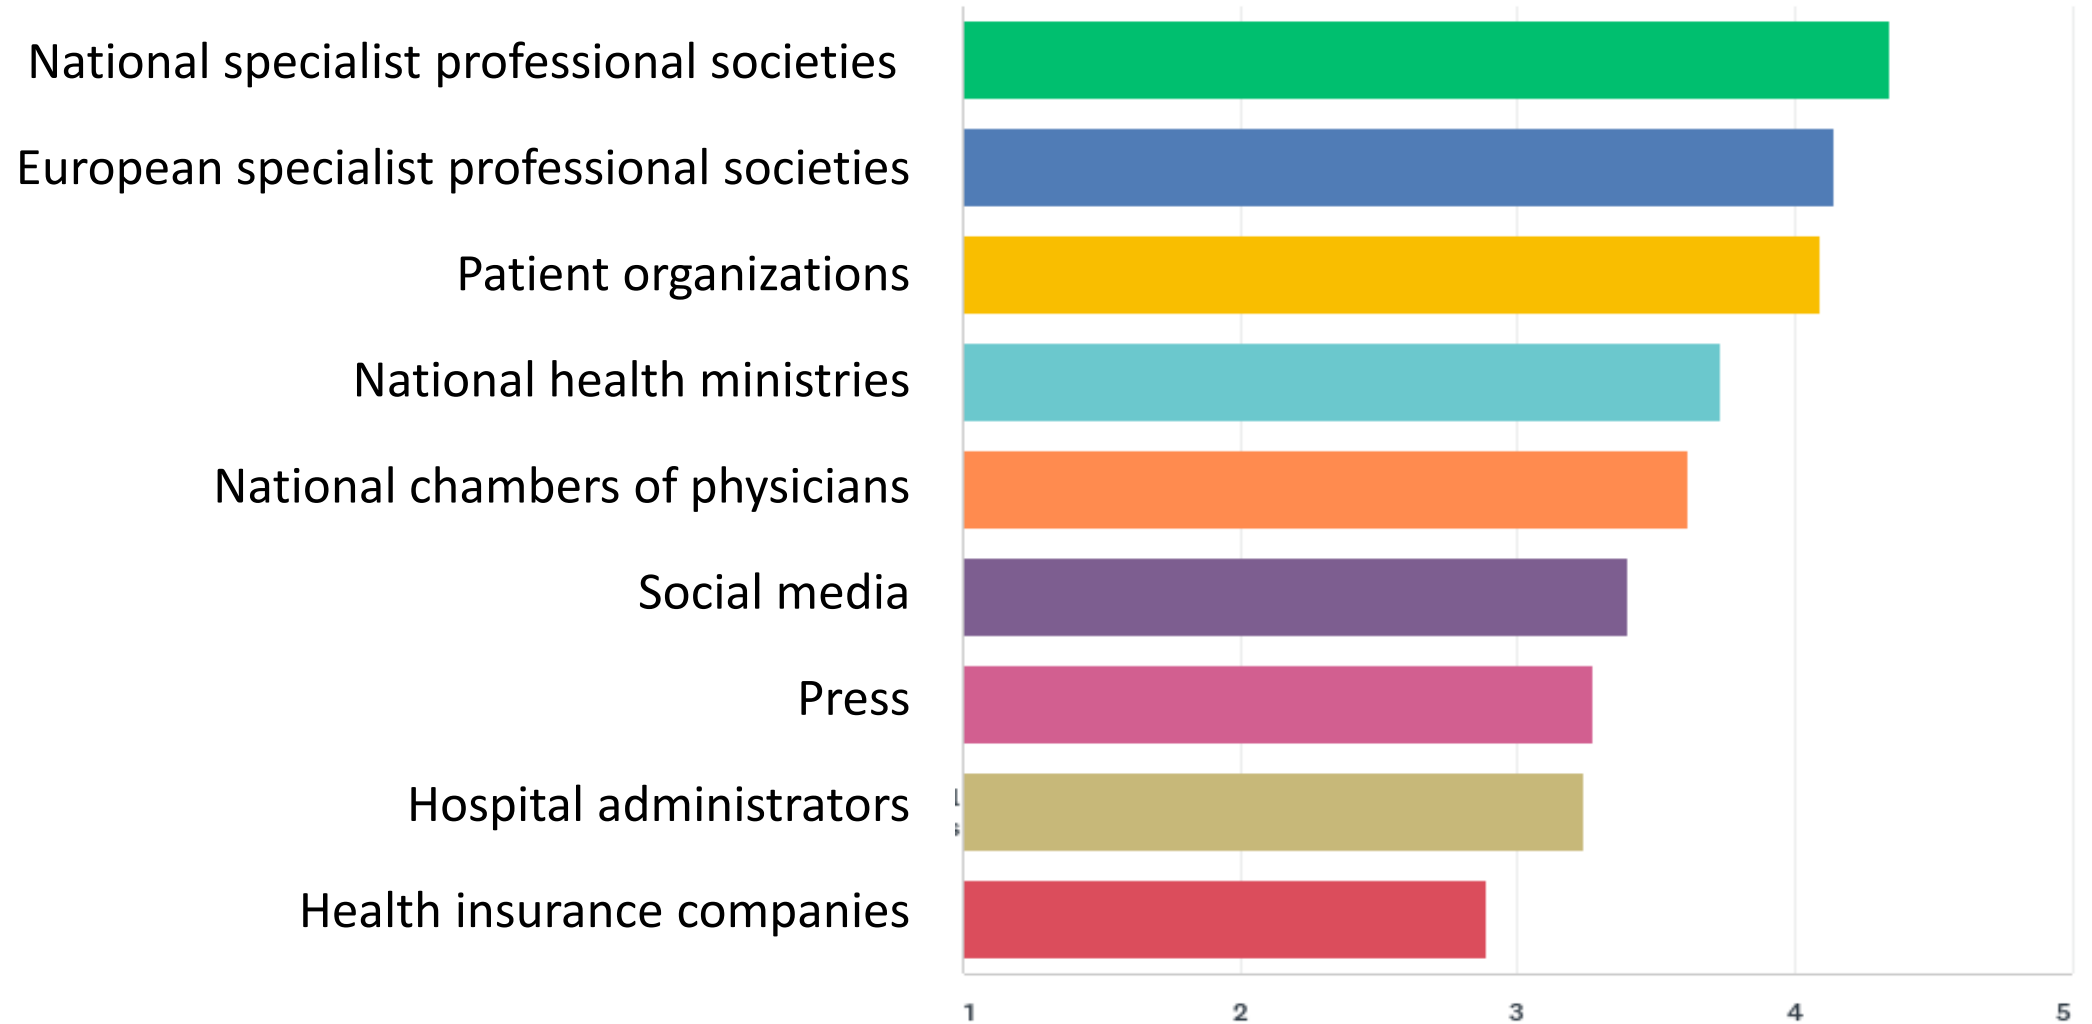

In your opinion, how relevant would each of the following measures be to maximize the utilization of ERN services (CPMS consultation in particular)?

In your opinion, how efficient would the following information channels be to increase awareness of the ERNs' services (CPMS in particular)?

# How to integrate ERNs in national health care systems

## **Formal:**

Revision of National Action Plans

## **Informal:**

Raising awareness by information:

National professional societies, physician chambers...

Patient advocacy

Cari Soci/Socie,

la rete **ERKNET** mette gratuitamente a disposizione il **CPMS (Clinical Patient Management System)**.

Il CPMS è un servizio gratuito messo a disposizione dei medici per porre diagnosi e individuare il trattamento per malattie rare. I Nefrologi pediatri e dell'adulto possono utilizzare il CPMS per confrontarsi attivamente e condividere i casi dei loro pazienti. [Link](#) potete trovare la brochure informativa che illustra le funzionalità e le attività dell'ERKNET nonché tutte le attività dell'ERKNET.

L'ERKNet è la rete europea di riferimento per la Nefrologia pediatrica e dell'adulto in tutta Europa. L'ERKNet coinvolge 12 Paesi europei e fornisce assistenza sanitaria. L'Italia è ben rappresentata in ambito dell'ERKNet. Per informazioni sui servizi e i fronti quali l'aggiornamento e l'educazione specialistica, visitate il sito [www.erknet.org](http://www.erknet.org).

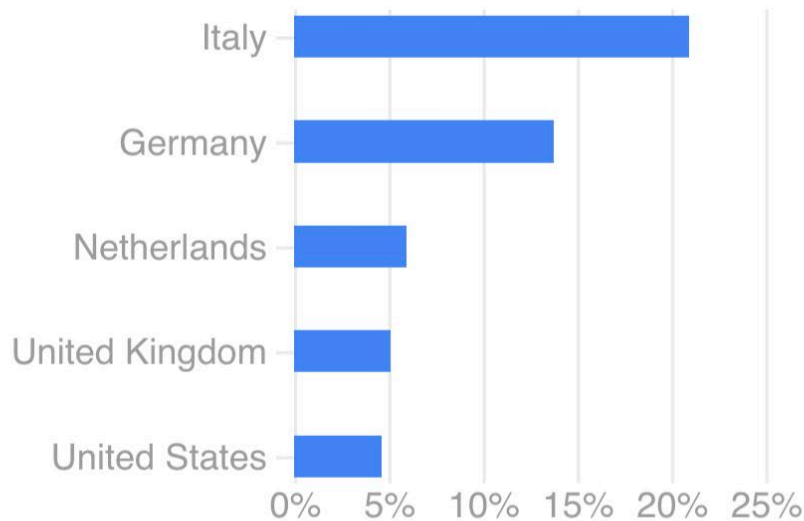

Per ulteriori necessità è possibile rivolgersi a:
