Table of Contents for 2018 edition

- 1) Thematic chapter on Mental Health (assessing the burden of mental health and policies for mental health promotion) (*new*)
- 2) Thematic chapter on Wasteful Spending in Health Systems (focussing on hospital and pharmaceutical spending) (*new*)
- 3) Health status
- 4) Determinants of health
- 5) Health expenditure
- 6) Effectiveness: Quality (*new indicator on patient experience*)
- 7) Accessibility (*new indicators on depth of health care coverage and financial burden of out-of-pocket spending*)
- 8) Resilience (*new indicators on ehealth utilisation and public health surveillance*)

Data sources and country coverage

- Will continue to draw mainly on two joint data collections between OECD, Eurostat and WHO:
 - Joint Health Accounts Questionnaire
 - Joint Questionnaire on Non-Monetary Health Care Statistics
- Will also draw on many other sources:
 - EU-SILC
 - DG CNECT surveys on ehealth
 - ECDC data on communicable diseases and healthcare infections
 - EMCDDA data on illegal drug use and alcohol use among children
 - European Quality of Life survey
 - OECD data collection on Health Care Quality Indicators
- Covering up to 36 countries (28 EU countries + 5 EU candidate countries + 3 EFTA countries)

Next steps for preparation of *Health at a Glance: Europe 2018*

- Before end of July (probably by 20 July):
 - Draft sent for comments to EGHI experts (and OECD Health Committee delegates and national data focal points for the two joint questionnaires)
 - Comments expected a month later (e.g. by 20 August)
- November (probably second half of November):
 - Release of the publication
 - Press conference in Brussels, etc.
