

# #EUHPP LIVE WEBINAR

## 2024 Thematic Networks

### How Can Cancer Genome Research Be Improved by NLP Methodologies: Insights and Innovations

27 September 2024, 11.00–12.00 CEST, Brussels time

Dear colleague,

We invite you to join this #EUHPP Live Webinar.

This webinar highlights the significance of profiling cancer genomes and emphasizes the potential gains of employing AI and NLP in various stages of cancer research, including personalized medicine, understanding tumor biology, assessing prognosis, and monitoring disease progression.

NLPCGen  
Natural Language Processing  
For Cancer Genomics

It will feature discussions from a multidisciplinary perspective on how NLP methods can help identify the roles of uncharacterized genes, address the factors, issues, and challenges involved, and focus on how this research can be improved.

**Register for this webinar following [this link](#).**

Once registered, you will receive the calendar invitation from Webex. Please pin it in your calendar and go back to it on the webinar day.

This webinar will be held in English

If you have any further questions, please contact [sante-hpp@ec.europa.eu](mailto:sante-hpp@ec.europa.eu)

We are looking forward to welcoming you online.
