**questions scope**

**problem definition**

Yes

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope****problem definition**

Yes

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope**  
**problem definition**  
Yes

**which option**  
No change

**questions smokeless**  
**problem definition**  
No

**comments**  
No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**  
Lifting the ban on snus

**questions consumer**  
**problem definition**  
No

**explanations**  
No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**  
No change

**additional comments**  
The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**  
**problem definition**  
Yes

**which option**  
Establish a common compulsory reporting format

**regulation of ingredients**  
**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope**

**problem definition**

Yes

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

Italy

**age**

25

**gender**

male

**questions scope****problem definition**

Yes

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope**

**problem definition**

Yes

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products  
problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products

consumption.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**name**

Rade Jakic, Pachica - Polska Sp. z o.o. 02-591 Warszawa, str. S. Batorego 17 ap. 129

**email**

rade.jakic@pachica.pl

**country**

Poland

**age**

53

**gender**

male

**questions scope****problem definition**

No

**explanations**

The existing regulations concerning the tobacco industry are sufficient. A supplementary control might cause a lot of new emerging problems. An illegal production of cigarettes will

begin and the danger will occur that cigarettes produced in non-EU countries within the existing regulations will be exported to the EU-market. These products will have a lot of customers because smokers are already used to its looks. Instead of educating people, especially the youth, and advancing the quality of the products the new regulation will not have the desired impact. Only the form of the distribution will be changed, not the attitude of the smokers.

**which option**

No change

**recommend option**

Education of the people through media and school is the key to solving these problems.

**questions smokeless**

**problem definition**

No

**comments**

These products should not be included in this directive. Regulation would not be founded on scientific findings. Our company will not be targeted by this product category but we believe any of these regulations can only be justified by hard facts.

**which option**

No change

**questions consumer**

**problem definition**

No

**explanations**

The standardization of the products does not have any effects. This will only open the door to new brands with a similar name but with an inferior quality. Moreover, there will be a lot of problems concerning the distribution of the products within the new boundaries. The customers might not notice that they received the product they did not want to buy until the moment they wish to consume it.

**which option**

No change

**additional comments**

The existing health warnings on the packages are sufficient. The directives are leading to a wrong goal. They do not support the interests of the consumer. The product is only being standardized. The limitation of the pieces of information regarding the product does not have any positive effect. The reduction of the printing design on and inside the package increases the possibilities of counterfeiting the products but will not turn the consumer against the product. It will rather enable the fact of giving the consumer a product which he did not want to buy.

**questions on reporting**

**problem definition**

No

**explanations**

Registration is fully included in REACH and reporting on the internet is already available. Deeper details are not helpful as they are only partly understandable to consumers.

**which option**

No change

**additional options**

Current reporting is already comprehensive. More detailed levels would not bring any benefit to consumers. But it will disclose trade secrets. These trade secrets are intellectual with a high value. Publishing these secrets would be a violation of proprietorship.

**regulation of ingredients**

**problem definition**

No

**explanations**

Ingredients are widely controlled since years. Manufacturers implemented rules that are followed strictly and additional regulation would not bring any benefit in preventing consumers from harm. Any reduction of the possibility to reduce the range of printing design on and inside the pack would ease and increase counterfeiting, reduce consumer information and finally would endanger a big amount of employments without bringing any benefit.

**which option**

No Change

**additional option**

A negative list is more effective than positive lists. Positive lists prevent innovation. Even without any regulation product liability for manufacturers remains. This matter on its own will prevent any tobacco manufacturer from using harmful substances.

**additional comments**

Limitations in ingredients might affect innovation. As well it might risk a substantial number of employments without bringing any benefit to the consumer

**access to tobacco products**

**problem definition**

Yes

**which option**

No change

**additional comments**

1. In Poland the production of cigarettes is regulated by law. It is very good that selling cigarettes to underaged people is forbidden and that the cigarettes may not be sold by piece without buying the whole package. The illicit trade of cigarettes should be fought against and I believe that the new regulations will exactly have the opposite effect.

**gender**

male

**questions scope**

**problem definition**

Yes

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale; Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**comments**  
No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**  
Lifting the ban on snus

**questions consumer**  
**problem definition**  
No

**explanations**  
No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**  
No change

**additional comments**  
The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**  
**problem definition**  
Yes

**which option**  
Establish a common compulsory reporting format

**regulation of ingredients**  
**problem definition**  
No

**explanations**  
It is not possible to prove in advance which is the possible impact of an ingredient in terms of

toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**gender**

male

**questions scope**

**problem definition**

Yes

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale; Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope****problem definition**

Yes

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent

proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope**

**problem definition**

Yes

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free

market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;

Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope****problem definition**

Yes

**which option**

No change

**recommend option**

Der Geltungsbereich der Richtlinie sollte durchaus die angegebenen Produkte beinhalten. Ohne zuvorige wissenschaftliche Überprüfung der Produkte in Hinsicht auf ihre Schädlichkeit für den menschlichen Körper sollte jedoch kein Verbot ausgesprochen werden.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Es gibt unseres Erachtens keine wissenschaftlichen Beweise dafür, dass größere Warnhinweise oder Bilder besser dazu geeignet sind, potenzielle Raucher vom Rauchen abzuhalten bzw. Raucher davon zu überzeugen, mit dem Rauchen aufzuhören. Auch bei Plain Packaging gibt es bis dato keine Beweise dafür, dass sie eine Auswirkung der Gesundheit der Bevölkerung haben. Plain Packaging würde vielmehr Fälschungen und den illegalen Handel mit Tabakprodukten forcieren, weil die Fälschungssicherheit der Produkte nicht gewährleistet werden kann.

**which option**

No change

**additional option**

Zur besseren Kennzeichnung der Inhaltsstoffe könnte man z.B. Zahlen verwenden, die mit Hilfe eines anderen Messverfahrens (zB Health-Canada-Messverfahren) ermittelt wurden. Dadurch würden die Verbraucher präzisere Informationen über die Messwerte bekommen.

**questions on reporting****problem definition**

No

**explanations**

Die Rechtsdurchsetzung ist Angelegenheit der Mitgliedsstaaten und nicht der EU. Auch wenn die EU dieses Prinzip einführt, würden die Beträge für Gebühren und Sanktionen zwischen den Mitgliedsstaaten unterschiedlich ausfallen. Dies deshalb, da es in die Kompetenz des jeweiligen Staates fällt. Eine Verbesserung des Funktionierens des Binnenmarktes ist somit auf diese Weise nicht ersichtlich.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

Der Fokus bei der Evaluierung von Zusatzstoffen sollte ganz grundsätzlich darauf ausgerichtet sein, ob deren Einsatz die toxische Wirkung des Zigarettenrauches erhöht. Es sollte daher nicht von der Attraktivität der Stoffe ausgegangen werden, da diese nahezu ausschließlich auf subjektiven Kriterien fußen.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Die hier dargestellte Problemstellung zielt nicht auf gesundheitspolitische Probleme im Zusammenhang mit Tabakkonsum und die Verfügbarkeit der Produkte ab. Weiters werden keinerlei Beweise für die Annahme angeboten, dass derartige Verbote den Binnenmarkt stärken oder aber zu einer Reduktion des Tabakkonsums führen würden.

**which option**

No change

**additional option**

Internetkäufe könnten zB durch Altersbegrenzungen eingeschränkt werden.

**questions scope****problem definition**

No

**explanations**

Schwarzmarkt und Handel werden gefördert. Der Binnenmarkt wird verzerrt. Die unternehmerische Freiheit wird eingeschränkt.

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

Verbot von Snus schränkt die Persönlichkeitsrechte ein. Konsum von rauchlosen Produkten wirkt sich nicht auf dritte Personen aus.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Einheitspackungen beschränken das freie Markenrecht. Die Risiken des Rauchens sind bereits allgemein bekannt. Neutrale Packungen fördern den Schmuggel, führen zu Preiskrieg und bedrohen die Existenz des Groß- und Einzelhandel. Warnhinweise auf Packungen werden werden durch die Darstellung und Größe nicht wirksamer.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Kein Kommentar.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Das Rauchen in Großbritannien ist nicht weniger verbreitet, als in Deutschland. Der illegale Handel, bzw. Schmuggel würde nur noch verstärkt werden.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

In 15 Mitgliedstaaten der EU werden und dürfen Tabakwaren über Automaten verkauft werden. Dies wird in Deutschland durch strenge gesetzliche Auflagen reguliert. Dieses Thema gehört in den Zuständigkeitsbereich des jeweiligen Mitgliedsstaat. Das verbot von Automaten verändert nicht den grenzüberschreitenden Bezug von Tabakwaren.

**additional comments**

No comments

**questions consumer  
problem definition**

No

**explanations**

People will buy tobacco products regardless of the size of the warning. The impact of tobacco is commonly known, bigger fonts on the boxes will not change anything.

**questions scope**

**problem definition**

Yes

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope****problem definition**

Yes

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging

because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

female

**questions scope**

**problem definition**

Yes

**which option**

No change

**questions smokeless  
problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients  
problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope****problem definition**

Yes

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**gender**

male

**questions scope**

**problem definition**

Yes

**which option**

No change

**questions smokeless  
problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients  
problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;

Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

Yes

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale; Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope****problem definition**

Yes

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

Age verification of buyers and other legal conditions to be set for cross-border retail sale; Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the

profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope**

**problem definition**

Yes

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products

consumption.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**regulation of ingredients****problem definition**

No

**explanations**

Durch Zusatzstoffe werden Zigaretten nicht attraktiver. Zigaretten ohne Zusatzstoffe geben dem illegalen Handel auftrieb.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

In 15 von 27 Mitgliedsstaaten sind Zigarettensautomaten erlaubt und das sollte so bleiben. Der Verkauf über Automaten erfolgt unter strengen gesetzlichen Auflagen, z.B. Ausweisleser in Deutschland. Zigarettensautomaten fallen in den Zuständigkeitsbereich der einzelnen Staaten. Der Verkauf über Automaten erfolgt lokal und weist keinen grenzüberschreitenden Bezug auf. Zigarettensautomaten haben meiner Meinung nach keinen Einfluss auf das Rauchverhalten Jugendlicher.

No change

**questions smokeless****problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products  
problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**which option**  
Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;

Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

Durch Zusatzstoffe werden Zigaretten nicht attraktiver. Zigaretten ohne Zusatzstoffe geben dem illegalen Handel auftrieb.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

In 15 von 27 Mitgliedsstaaten sind Zigarettenautomaten erlaubt und das sollte so bleiben. Der Verkauf über Automaten erfolgt unter strengen gesetzlichen Auflagen, z.B. Ausweisleser in

Deutschland. Zigarettenautomaten fallen in den Zuständigkeitsbereich der einzelnen Staaten. Der Verkauf über Automaten erfolgt lokal und weist keinen grenzüberschreitenden Bezug auf. Zigarettenautomaten haben meiner Meinung nach keinen Einfluss auf das Rauchverhalten Jugendlicher.

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

Introducing the basic criteria on the EU level without a common list

**access to tobacco products**

**problem definition**

Yes

**which option**

Ban

**which one2**

Cross-border retail sales of tobacco to be banned over the Internet; Vending machines to be banned; Promotion and displays in retail stores to be banned

**questions scope**

**problem definition**

Yes

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

In my view neither bigger warnings nor picture warnings or plain packs are required in case of cigars. Cigar smokers are adults, enjoying a cigar on an occasional basis

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

EU member states can already introduce fees and sanctions.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

The focus of ingredients testing should be on whether the ingredients result in increased toxicity of tobacco smoke.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

In my view a display ban would effectively mean the end of most small (cigar) brands.

Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope**  
**problem definition**  
Yes

**which option**  
No change

**questions smokeless**  
**problem definition**  
No

**comments**  
No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**  
Lifting the ban on snus

**questions consumer**  
**problem definition**  
No

**explanations**  
No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**  
No change

**additional comments**  
The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**  
**problem definition**  
Yes

**which option**  
Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;

Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**which option**

Lifting the ban on snus

**additional option**

Der Umfang der Richtlinie kann auch auf andere Produkte erweitert. Dies sollte jedoch nicht zu einem automatischen Verbot auf eine Kategorie von Tabak oder neuer Tabakprodukte führen. Jedes Verbot muss auf wissenschaftlichen Erkenntnissen und gesicherten Ergebnissen beruhen.

**questions consumer****problem definition**

No

**explanations**

Es gibt keine Beweise, dass größere Warnhinweise wirksamer sind als die bestehenden. Es gibt keine Beweise, dass schlichte Verpackungen den öffentlichen Gesundheitsschutz verbessern. Im Gegenteil die Tabakwirtschaft wird kriminalisiert. Es ist dann für Fälscher noch einfacher Verpackungen nachzumachen und führt eher zu einem Anstieg von Verkäufen illegal hergestellter Zigaretten.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Mitgliedsstaaten können Gebühren und Sanktionen einführen. Die Durchsetzung solcher Vorkehrungen sollte jedoch den Mitgliedsstaaten überlassen bleiben.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

Es sind bisher keine Tabakzustandstoffe für sich genommen als suchterzeugend identifiziert worden. Für die Bewertung von Zusatzstoffen sind keine grundsätzlichen Kriterien identifiziert worden.

**additional comments**

The scope of the Directive can be extended but should not ban anything if not based on evidence.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option****additional comments**

SCENIHR did not conclude that snus is less harmful in many aspects? Why keep the current prohibition?

**questions consumer****problem definition**

No

**explanations**

No evidence that larger health warnings will decrease smoking prevalence. This does not make sense: First the proposal is to enlarge health warnings to make them more visible, afterwards the proposal is to hide packs under the counter to make them less visible!. Plain packaging will make the life easier to counterfeiters, will bring low prices, increasing consumption in youth and facilitate illegitimate copies.

**which option**

No change

**additional comments**

When the brand that I am used to smoke is not available I choose another one with the same TNCO yields. If this information is not available how can I choose another brand with a similar taste and strength? Pictorial health warnings are ridiculous! Foetus smoking in side the placenta! Who believes in this?! I am fully aware about the risks of smoking and I will stop smoking when I decide to. I don't need additional health warnings or things like that.

**questions on reporting****problem definition**

No

**explanations**

This should be a competence from each Member-State. Defining fees and sanctions at EU level? Who will be the reference member state? German or Bulgaria?

**which option**

Establish a common compulsory reporting format

**additional comments**

European Directive already exists. Any Reporting format should protect trade secrets.

**regulation of ingredients****problem definition**

No

**explanations**

Ban on ingredients only makes sense if cigarettes become more toxic. The only objective criteria to regulate ingredients is the scientific evidence that its use increase product toxicity.

**which option**

No Change

**additional comments**

The ingredients that must be forbideen are chocolates and fruits that make the cigarretes packs look like sweets boxes.

**access to tobacco products****problem definition**

No

**explanations**

There is no evidence about the health benefits brought by the prohibition at point of sale. What is the problem with vending machines?

**which option**

No change

**additional comments**

A prohibition of tobacco products display at point of sale will make easier the selling out of illegitimate cigarettes. How can I know if a certain store sells the brand that I'm used to smoke?

**questions scope**

**problem definition**

No

**explanations**

I do not think that health can or should be protected through member state or EU legislation. Protecting one's health must come as a personal and conscious decision from oneself.

**which option**

No change

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

I do not agree there is a problem. The EU should not try to optimize the health of its citizens like a farmer trying to optimize the health of his cows. A citizen buying a pack of cigarettes concerns only the citizen, the cigarette shop and the cigarette producer. The EU should not interfere in this.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

I do not see the problem, as I do not believe member states should be required to test cigarette products.

**questions scope****problem definition**

Yes

**which option**

Extend the scope of the Directive

**recommend option**

There is still advertisement in cinemas. I would suggest forbidding any advertisement for those products.

**additional comments**

Using public services I feel harassed because of being forced to breathe smoke at bus stations or underground entrances. I wish to have a future completely without smoke. And furthermore I wish there will be a future for all our children (including yours) without contact to those products.

**questions smokeless****problem definition**

Yes

**which option**

Ban on all types of smokeless tobacco products

**questions consumer****problem definition**

Yes

**which option**

Improve consumer information; Introduce generic or plain packaging

**which improvement**

Picture warnings to become mandatory; Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package; Health warnings to be put on water pipes

**additional comments**

Nowadays many children That I know are using water pipes because they think it is completely harmless. How it is possible that products like this can be allowed while others which could be healthy additives are forbidden (I refer to the sweet substance "stevia" for example) ? It seems that smoking is allowed by means of habit.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format; Introduce fees and sanctions

**additional comments**

There are already laws that forbid smoking on train stations. Because no one controls and no one pays fines many people just ignore these rules. It is not enough to just have laws for fees and sanctions. There must be an instance that controls local places where smoking is forbidden.

**regulation of ingredients**

Entendo que deve ser produzida legislação para enquadrar os outros produtos. No entanto por enquadramento não se deve entender o impedir esses produtos. Quaisquer decisões devem ser sustentadas por evidências científicas. Notar que alguns desses produtos parecem até representar menos riscos.

**additional comments**

Existem muitos produtos que apresentam riscos para os utilizadores ou os outros (e.g. tabaco, álcool, açúcar, carros quando não conduzidos de forma responsável etc). Entendo que foram dados passos no sentido de proteger os não fumadores que já salvaguardam os seus direitos. Dito isto considero que sem menosprezo dos direitos dos não fumadores se deve também respeitar o direito daqueles que querem fumar de terem espaços e momentos para o fazer.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

É um produto com menos externalidades que os cigarros logo não compreendo porquê ser banido! Deve ser regulado como os cigarros.

**questions consumer****problem definition**

No

**explanations**

Existe muita informação disponível. A Regulamentação actual já prevê informação para os consumidores. Maços genéricos não têm nada a ver com fumar mais ou menos, apenas servem para diminuir a transparência e a concorrência. E servem também para entrarem marcas de menos qualidade e de baixo preço.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

A informação que existe actualmente permite ao consumidor comparar os produtos em termos do tipo de cigarro. Retirar essa informação prejudica o fumador. A ideia de ter um número verde para onde se pusesse telefonar pode ser interessante.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

A questão dos ingredientes deverá estar relacionada com questões objectivas de adição ou de toxicidade, não com opiniões ou com o objectivo de se utilizar um tipo de tabaco em detrimento de outro.

**which option**

No Change

**additional option**

Os Estados devem ter acesso aos ingredientes (sob sigilo) e devem ser feitos testes para evitar aumentos de toxicidade devido aos ingredientes

**access to tobacco products****problem definition**

No

**explanations**

Não faz sentido esconder os maços. Esconder os maços só favorece o contrabando. Faz sentido regular o acesso que em Portugal já foi conseguido com os bloqueios das máquinas de cigarros. Se pensarmos tem mais visibilidade um menor a tirar um maço de uma máquina do que ir ao balcão onde lhe podem passar um maço disfarçadamente!

**which option**

No change

**recommend option**

The scope of the Directive could be extended to cover these other products, but this should not include an automatic ban on one category of product (novel forms of oral tobacco). Any bans should be based on scientific assessments.

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

There is no evidence that bigger warnings are more effective. There is no evidence that plain packaging would improve the functioning of the internal market or have any benefits to public health. On the contrary, it would make it easier for criminals to copy legitimate brands and would lead to an increase in illegal sales of tobacco products.

**which option**

No change

**questions on reporting  
problem definition**

No

**explanations**

Member states can already introduce fees and sanctions. Enforcement of the provisions of the Directive should remain the responsibility of the member states.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients  
problem definition**

No

**explanations**

The focus of ingredient testing should be on whether the use of ingredients result in increased toxicity of tobacco smoke.

**which option**

No Change

**access to tobacco products  
problem definition**

No

**explanations**

No clear problem is stated what concerns either vending machines or point of sale display. No evidence has been provided as to why bans would improve the functioning of the internal market or advance any public health objectives.

Jeder ist sich den Risiken des Rauchens bewusst, eine zusätzliche Bedruckung verändert nicht die Sucht, sondern wirkt lediglich abstoßend. Eine Investition in Beratungsstellen und/oder Suchtaufklärung wäre hier wesentlich sinnvoller. Es wird ausschließlich die Hässlichkeit der Verpackung verstärkt, was den Kunden zu alternativen Schachteln führt und somit nicht mit der Behebung des Suchtproblems einhergeht. Auch neutrale Packungen verhindern nur den Wettbewerb, ebenso der Einheitsgeschmack. Die Staaten sind Profiteure Nummer Eins von den Steuereinnahmen, ebenso werden durch die fallenden Preise die Einzelhändler geschwächt. Insgesamt ist es nur eine Demonstration, was die EU mit den Bürger vorhat: komplette Bevormundung und Entmündigung. Letztendlich obliegt es der Entscheidungsfreiheit eines jeden Zigaretten zu konsumieren, sofern er alt genug dazu ist.

Es wird ausschließlich die Hässlichkeit der Verpackung verstärkt, was den Kunden zu alternativen Schachteln führt und somit nicht mit der Behebung des Suchtproblems einhergeht. Auch neutrale Packungen verhindern nur den Wettbewerb, ebenso der Einheitsgeschmack. Die Staaten sind Profiteure Nummer Eins von den Steuereinnahmen, ebenso werden durch die fallenden Preise die Einzelhändler geschwächt. Insgesamt ist es nur eine Demonstration, was die EU mit den Bürger vorhat: komplette Bevormundung und Entmündigung. Letztendlich obliegt es der Entscheidungsfreiheit eines jeden Zigaretten zu konsumieren, sofern er alt genug dazu ist.

**which option**

**access to tobacco products****problem definition**

No

**explanations**

Jeder ist sich den Risiken des Rauchens bewusst, eine zusätzliche Bedruckung verändert nicht die Sucht, sondern wirkt lediglich abstoßend. Eine Investition in Beratungsstellen und/oder Suchtaufklärung wäre hier wesentlich sinnvoller. **questions scope****problem definition**

Yes

**which option**

Extend the scope of the Directive

**questions smokeless****problem definition**

Yes

**which option**

No change

**questions consumer****problem definition**

Yes

**which option**

Improve consumer information; Introduce generic or plain packaging

**which improvement**

Picture warnings to become mandatory; Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package; Health warnings to be put on water pipes

**additional option**

Nachfrage nach Tabakprodukten wird hauptsächlich durch Abgucken (von Eltern und Freunden) oder Gruppendruck erzeugt. Warnhinweise helfen zwar, aber wirklich sinnvoll ist nur ein Rauchverbot in der Öffentlichkeit, damit das Abgucken eingeschränkt wird. Also

komplettes Rauchverbot allen öffentlichen Räumen, auch in Bars, Diskotheken und den Außentischen von Restaurants etc.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format; Introduce fees and sanctions

**additional options**

Was für Lebensmittel und Pharmazeutika gilt, sollte erst recht für Gift gelten, das Leute dem Körper zuführen. Bitte lassen Sie sich nicht auf die Lobbyarbeit der Tabakverbände ein. Es ist wichtiger Leben zu retten, als Arbeitsplätze!

**regulation of ingredients**

**problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a positive common list of tobacco ingredients; Establish a negative common list of tobacco ingredients

**additional option**

Wenn die Giftigkeit von Nikotin und Zusatzstoffen bewertet und bewiesen ist, dann ist das auch die Grundlage für die Notwendigkeit, Nichtraucher vor dem unfreiwilligen Einatmen der giftigen Substanzen zu schützen: ein Rauchverbot in der Öffentlichkeit ist angezeigt!

**access to tobacco products**

**problem definition**

Yes

**which option**

Ban

**which one2**

Cross-border retail sales of tobacco to be banned over the Internet; Vending machines to be banned; Promotion and displays in retail stores to be banned

**additional option**

Noch wichtiger ist es, das Rauchen aus "geselligen" Orten wie Restaurants, Kneipen, Bars, Diskotheken, Cafes, auch im Außenbereich zu verbannen. Wenn es weniger Gelegenheit gibt, gibt es auch weniger Nachfrage.

**questions scope****problem definition**

Yes

**which option**

No change

**additional comments**

Extend the scope of the Directive but don't ban anything if not based on evidence Including other products under the scope of the Directive seems to be wise, but why the new products should be forbidden upfront, if they can even be less nocive Good to extend the scope of the Directive; Bad the preconceived opinion to ban without scientific evidence

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional comments**

It doesn't make sense to persist with the ban SCENIHR didn't conclude that snus is less harmful in many aspects? Why keep the current prohibition? Why ban other oral tobacco products allegedly less harmful? Is it not enough to remain in the some mistake that it is the ban on snus?

**questions consumer****problem definition**

No

**explanations**

There is no evidence that larger health warnings will reduce smoking prevalence. Generic packaging will facilitate illicit trade Is there any indication that smokers might overlook current health warnings? Plain packaging will make the life easier to counterfeiters This is non sense: First you propose to enlarge health warnings to make them more visible and than you propose to hide packs under the counter to make them less visible?!. White packs will bring low prices, increasing consumption in youth and facilitate illegitimate copies

**which option**

No change

**additional comments**

When the brand that I am used to smoke is not available I choose another one with the same TNCO yields. If this information is not available how can I choose another brand with a similar taste and strength? Pictorial health warnings are ridiculous! Foetus smoking in side the placenta! Who believes in this?! I am fully aware about the risks of smoking and I will stop smoking when I decide to. I don't need additional health warnings or things like that.

**questions on reporting****problem definition**

No

**explanations**

This should be a competence from each Member-State. Defining fees and santions at Eu level? Who ill be the reference member state? German or bulgary? Subsidiarity principles should prevail in these matters.

**which option**

Establish a common compulsory reporting format

**additional comments**

Any reporting format should protect trade secrets

**regulation of ingredients****problem definition**

No

**explanations**

Ban on ingredients only makes sense if cigarettes become more toxic Ingredients that are responsible for increasing toxicity should be banned based on scientific evidence only The only objective criteria to regulate ingredients is the scientific evidence that its use increase product toxicity

**which option**

No Change

**additional comments**

Ingredients regulation must be grounded in scientific evidence of their role in cigarettes manufacturing. Attractiveness and additiviness are very subjective concepts and should not be the basis for regulation

**access to tobacco products****problem definition**

No

**explanations**

How can the access to tobacco products influence the internal market functioning? There is no evidence about the health benefits brought by the prohibition at point of sale What is the influence of tobacco products access on the free circulation of goods? What is the problem with vending machines? Definition only says that they are banned. I would like to know why. What is the problem in UK? Why they banned products display at point of sale? Is not dangerous? How can I know what I am buying?

**which option**

No change

**additional comments**

If the product isn't visible at point of sale how can I choose a different brand if the one that I'm used to smoke isn't available? How can I know if a certain store sells the brand that I'm used to smoke? This is ridiculous, last week I saw that in UK cigarettes illicit trade have reached to 30%. A prohibition of tobacco products display at point of sale will make easier the selling out of illegitimate cigarettes

**questions scope**

**problem definition**

Yes

**which option**

No change

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

Non concordo che "l'evidenza mostra che, se adeguatamente dimensionate e ben collocate, le avvertenze illustrate costituiscono una misura efficace per informare il pubblico in merito ai pericoli del fumo" e che "maggiore è la dimensione dell'avvertenza illustrata, maggiore ne è l'efficacia". Talvolta le immagini illustrate introdotte in alcuni paesi per sostituire le avvertenze sanitarie scritte, più che informare il consumatore sembrano essere state introdotte per suscitare stupore e shock. Non sembra questa la strada migliore per proteggere la salute dei consumatori, che già sono molto consapevoli dei pericoli e della dannosità delle sigarette. Sono anche totalmente contrari all'introduzione del cosiddetto "pacchetto generico", che rischia di favorire il business delle organizzazioni criminali e di danneggiare le aziende serie che tradizionalmente forniscono solo società manifatturiere di altrettanta serietà ed operanti solo sul mercato legale, che si vedrebbero gravemente danneggiate per la distruzione del valore dei marchi. Tra l'altro il "plain packaging" spingerebbe ad una concorrenza basata sul prezzo e non sulla qualità, così danneggiando il tabacco europeo che della qualità superiore ha l'unica arma possibile, ora che i sostegni diretti ai produttori, per compensarne i costi più alti, sono stati smantellati.

**which option**

No change

**questions on reporting  
problem definition**

No

**explanations**

Sono d'accordo sulla creazione di un formato comune di reporting ma non concordo con la creazione di un nuovo livello di imposizione fiscale che andrebbe a sovrapporsi a quello dello stato membro, creando confusione e andando contro i principi di uniformità dell'Unione.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

Sono in totale disaccordo con l'ipotesi di vietare l'impiego di ingredienti nella produzione di sigarette. Questa ipotesi finirebbe per avere serie conseguenze per le produzioni di "Burley", in Italia e in tutta Europa. Questa qualità di tabacco, utilizzata principalmente per il cosiddetto "American blend", rispetto ad altre varietà di tabacco, necessita di un certo numero di ingredienti in fase di lavorazione. D'altra parte, come chiarito anche dall'OMS e dallo SCENIHR non esiste alcuna prova scientifica del fatto che le sigarette realizzate senza ingredienti (come quelle che utilizzano la varietà di tabacco "Virginia") siano meno dannose di quelle che necessitano di ingredienti. Questa, pertanto, appare una chiara discriminazione, che avrebbe il solo effetto di pregiudicare significativamente gli oltre 60.000 addetti alla

coltivazione di tabacco in Italia e circa 400.000 in tutta Europa.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Le enunciazioni del documento di consultazione, in realtà non definiscono il problema, ma fotografano unicamente il quadro normativo di riferimento, seppure in modo parziale. Sono infatti elencati nel documento solo i paesi in cui esistono misure estreme per regolamentare l'accesso ai prodotti: paesi, ad esempio, in cui i distributori automatici sono vietati o dove è vietata l'esposizione dei prodotti nei punti vendita. Ritengo che non si debba arrivare tanto lontano per ottenere gli obiettivi prefissati di salvaguardia dei minori. Il sistema italiano di monopolio e di controlli sull'accesso, se applicato con determinazione e con le giuste risorse a disposizione degli organismi di controllo, costituisce un'ottima soluzione per limitare l'accesso dei minori al tabacco.

Germany

**age**

33

**gender**

male

**questions scope****problem definition**

Yes

**which option**

Extend the scope of the Directive

**additional comments**

The focus needs to be on the nicotine, since it is the addiction part that seems to be the driving factor in these products. Most tobacco addicts would stop smoking or at least respect the

quality of breathing air of others more easily if it weren't for the nicotine.

**questions smokeless**

**problem definition**

Yes

**which option**

No change

**additional comments**

I would prefer to have smokeless tobacco products as a recommendable migration path for quitting smokers. Priority should lie on banning smoke, as it harms and harasses non-consumers.

**questions consumer**

**problem definition**

Yes

**which option**

Improve consumer information; Introduce generic or plain packaging

**which improvement**

Picture warnings to become mandatory; Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package; Health warnings to be put on water pipes

**additional comments**

Everything is helpful that makes it clear that smoking is dangerous drug abuse.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format; Introduce fees and sanctions

**regulation of ingredients**

**problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a positive common list of tobacco ingredients

**additional comments**

A negative list would probably lead to the companies finding other, even more dangerous ingredients, therefore a short positive list is most suitable for the problem.

**access to tobacco products**

**problem definition**

Yes

**which option**

Ban

**which one2**

Cross-border retail sales of tobacco to be banned over the Internet; Vending machines to be banned; Promotion and displays in retail stores to be banned

**questions scope**

**problem definition**

No

**explanations**

Ich möchte mich auch weiterhin über innovative Produkte informieren lassen. Ich bin alt genug um selbst zu entscheiden, ob ich diese Produkte genießen möchte oder nicht. Bitte nehmen sie mir als Bürger nicht diese Entscheidungsfreiheit!

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

Bitte überlassen Sie mir als Bürger die Entscheidungsfreiheit, ob ich Tabakprodukte genießen möchte oder nicht. Als mündiger Bürger kann ich gut auf mich selber achten.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Ich bin gegen die "Einheitspackungen"! Bitte überlassen Sie es uns, den Bürgern zu entscheiden welche Produkte wir genießen wollen. Auch die sogenannten "Schockbilder" haben nichts auf den Packungen zu suchen! Wir sind mündige Bürger und können selber entscheiden, ob wir Rauchen möchten oder nicht. Daran ändern auch diese unsinnigen Einheitspackungen nichts. Ich weiß sehr wohl, dass Tabakgenuß nicht Gesundheitsfördernd ist. Aber Tabak ist ein Genußmittel und dieses möchte ich gerne genießen!

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Völlig unnötig und kostet nur Geld!!!!!!!!!!

**which option**

No change

**regulation of ingredients****problem definition**

No

**explanations**

Warum muss immer alles gleich schmecken? Bitte überlassen sie die Zusammensetzung der Produkte unbedingt den Herstellern! Wir Bürger sind alle unterschiedlich und haben alle einen anderen Geschmack! Von daher ist es auch richtig und wichtig, dass es die unterschiedlichsten Tabakmischungen + Zusatzstoffe gibt. Sie möchten doch auch nicht unbedingt meine Pullover tragen, oder????

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Ich als mündiger Bürger möchte auch weiterhin von der Industrie auf neue Produkte hingewiesen werden! Es ist auch keine "Verführung". Jeder von uns ist alt genug und muss nicht von Ihnen bevormundet werden. Jeder von uns kann und muss selbst entscheiden dürfen ob und welche Tabakprodukte er konsumiert. Freie Wahl, für freie Bürger!!!! Bitte kümmern Sie sich endlich um die wirklich wichtigen Probleme in der EU (Staatsverschuldungen, Bildung, etc.) und lassen Sie uns mündige Bürger mit solchen Bevormundungen endlich in Ruhe!!!

**recommend option**

Porque é que o alargamento do âmbito da Directiva tem de implicar à partida a proibição de novos produtos que até podem ser menos nocivos

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

Qual é a razão de proibir outros produtos de tabaco de uso oral alegadamente menos nocivos?  
Não basta já persistir no erro com o Snus?

**questions consumer****problem definition**

No

**explanations**

Não existe evidência de que avisos de saúde maiores ou maços genéricos reduzam a prevalência de fumadores. Estes últimos facilitam o comércio ilícito.

**which option**

No change

**additional option**

Quando não encontro a marca que fumo escolho outra com os mesmos teores de condensado, nicotina e monóxido de carbono. Se proibirem estes valores não sei o que escolher.

**questions on reporting****problem definition**

No

**explanations**

Sanções devem permanecer sob responsabilidade dos Estados-Membros; Princípio da subsidiariedade deve reger esta questão!

**which option**

Establish a common compulsory reporting format

**additional options**

Já existe uma directriz Europeia para isto.

**regulation of ingredients****problem definition**

No

**explanations**

O único critério objectivo é saber se o uso dos ingredientes aumenta a nocividade do produto

**which option**

No Change

**additional option**

Os ingredientes que devem ser proibidos são os sabores a frutas e a chocolate, cujos maços parecem caixas de rebuçados

**access to tobacco products****problem definition**

No

**explanations**

Não existe qualquer evidência de que a proibição da exposição do produto no ponto de venda tenham qualquer ganho em termos de saúde pública

**which option**

No change

**additional option**

Não faz sentido esconder os maços de tabaco. O fruto proibido é o mais apetecido Com as máquinas de venda não há cigarros fiados.

**questions scope**  
**problem definition**  
No

**explanations**  
By far not enough. Smoking should be banned to a large extent; limiting the ingredients of tobacco or printing disgusting pictures on the packages will not deter any smoker.

**which option**  
Extend the scope of the Directive

**recommend option**  
Ban smoking at the workplace, in schools and universities, in hospitals, restaurants of all kinds, on the premises of public offices of all kinds,

**additional comments**  
You will probably not have the guts to proceed farther than your lame Directive.

**questions smokeless**  
**problem definition**  
Yes

**which option**  
Ban on all types of smokeless tobacco products

**questions consumer**  
**problem definition**  
Yes

**which option**  
Improve consumer information

**which improvement**  
Picture warnings to become mandatory; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package; Health warnings to be put on water pipes

Yes

**which option**  
No change

**questions smokeless**  
**problem definition**  
Yes

**which option**  
Lifting the ban on snus

**questions consumer**  
**problem definition**  
No

**explanations**  
There are already enough warnings. Every adults knows that is is unhealthy to smoke. It is also unhealthy to drink alcohol, eat certain products, ...

**which option**  
No change

**questions on reporting**  
**problem definition**  
No

**explanations**  
The member states can already determine taxes and measurements

**which option**  
Establish a common compulsory reporting format

**regulation of ingredients**  
**problem definition**  
No

**explanations**  
Flavour tests should be used to determine if they really increase the toxic effect of the smoke.

**which option**  
No Change

**access to tobacco products**

**problem definition**

No

**explanations**

It is against free market regulations and will only lead to a survival of the biggest (only the well known brands as Philipp Morris will survive). Which means, that the biggest multinationals again win. This has got nothing to do with measurements against smoking!

**questions scope****problem definition**

No

**explanations**

Where is the problem definition???? The directive must embrace and regulate all products and

derivative of tobacco in the sense that it must prohibit or restrict all combustion like uses (cigarettes) and facilitate all derivative or paliative uses (nicotine patches, electronic cigarettes, ...).

**which option**

Extend the scope of the Directive

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

Eviter a tout prix la consommation de produits du tabac par les non-fumeurs. Faciliter au maximum l'abandon de l'habitude de fumer, même si cela doit passer par l'usage du tabac ou de la nicotine dans des produits 'sans combustion' plutôt que 'sans fumée' (smokeless)

**questions consumer**

**problem definition**

Yes

**which option**

Improve consumer information

**which improvement**

Health warnings to be put on water pipes

**additional option**

On devrait ajouter des informations aussi sur les quelques 2000 produits toxiques présents/ajoutés par les cigarettiers dans les cigarettes et dans la fumée.

**questions on reporting**

**problem definition**

Yes

**which option**

Introduce fees and sanctions

**additional options**

Tous les composants présents dans les cigarettes doivent être rendus publics...

**regulation of ingredients**

**problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a positive common list of tobacco ingredients; Establish a negative common list of tobacco ingredients

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access; Ban

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale; Access to vending machines to be restricted to adults; Tobacco display and promotion at points of sales to be restricted

**which one2**

Cross-border retail sales of tobacco to be banned over the Internet; Vending machines to be banned; Promotion and displays in retail stores to be banned

**questions scope**

**problem definition**

No

**explanations**

If we fight all the symptoms, we're never going to win. There should be a change in a culture and education. Only a fully informed and free citizen is able to make a decision, but living by restrictions and regulations is not what i believe to be democracy.

**which option**

No change

**recommend option**

Mehr Aufklärung und Bildung für die Jugend.

**additional comments**

Verkaufen Sie nicht die Freiheit im Namen der Gesundheit

**questions smokeless**

**problem definition**

No

**comments**

Ich glaube nicht, dass es sich hier um ein Problem höchster Priorität handelt. Es gibt andere Sektoren auf denen Handlungsbedarf besteht. Wie gesagt Aufklärung und zwar nicht auf der Packung sondern in den Familien und Schulen.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Rauchfreien Tabakwaren konnte kein erhöhtes Krebsrisiko nachgewiesen werden. Und es schädigt nicht die Umgebung, sie sind wie Alkohol auch der Entscheidung des Einzelnen unterworfen.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Die Packung ist der falsche Ort um Aufklärung zu betreiben

**which option**

No change

**regulation of ingredients****problem definition**

No

**explanations**

es gibt bisher schon eine Regulierung und die sollte ausreichen

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

No change

**additional option**

Ich sage nur ein Wort "Fachhandel"!

**name**

Tom Vogt

**email**

tom.vogt@hansenet.com

**country**

Germany

**age**

37

**gender**

male

**questions scope****problem definition**

Yes

**which option**

Extend the scope of the Directive

**recommend option**

A focus on the active ingredients instead of the delivery method would improve the handling of the actual problem and reduce the ease of circumventing the directive through the creation of new products. A second aspect should be the impact on the immediate environment, as smoking does impact nearby other persons while drinking or eating the same substances does not. From these two factors, a matrix can be built.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

Damaging one's own health is an option adult people should have, as long as they impact no one else. However, a study should find out whether these products lower or raise the amount of smoking a user does. If due to stronger addiction the amount of smoking goes up, stronger regulation would be preferable.

**questions consumer****problem definition**

Yes

**which option**

Improve consumer information; Introduce generic or plain packaging

**which improvement**

Picture warnings to become mandatory; Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Health warnings to be put on water pipes

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format; Introduce fees and sanctions

**access to tobacco products**  
**problem definition**  
No

**explanations**  
Jeder freie Bürger muß selbst entscheiden können, ob er rauchen möchte oder nicht. Wenn den Rauchern der zugang zuTabakwaren erschwert wird, dann muß zwangsläufig der Zugang zu weiteren gesundheitsgefährdenden Produkten erschwert werden. Dabei steht an erster Stelle Alkohol, aber auch ungesunde Lebensmittel, Fahrzeuge, es müssen gefährliche Fahrgeschäfte auf Rummelplätzen verschwinden etc.

Yes

**which option**

Extend the scope of the Directive

**recommend option**

OUTLAW consumption, manufacture or usage of NICOTINE. Allow only cigarettes WITHOUT any nicotine whatsoever!!! Create anti-smoking police. Pass laws that declare ALL bus and train-stops anywhere in the E.U. a smoke-free zone. Make NON-consensual exposure of tobacco smoke a crime punishable by jail-time, regardless of whether such exposure occurs on the outside or inside a closed environment (on the inside). That means any time someone is involuntarily exposed to cigarette smoke, they can press charges and that smoker will be arrested.

**additional comments**

Zur besseren Kennzeichnung der Inhaltsstoffe könnte man z.B. Zahlen verwenden, die mit Hilfe eines anderen Messverfahrens ermittelt wurden. Dadurch würden die Verbraucher präzise Informationen bekommen

**questions on reporting**  
**problem definition**  
No

**explanations**  
xx

**which option**  
No change

**regulation of ingredients**  
**problem definition**  
No

**explanations**

Der Fokus bei der Evaluierung von Zusatzstoffen sollte ganz grundsätzlich darauf ausgerichtet sein, ob deren Einsatz die toxische Wirkung des Zigarettenrauchens erhöht. Es sollte daher nicht von der Attraktivität der Stoffe ausgegangen werden, da diese nahezu ausschließlich auf subjektiven Kriterien fußen.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**which option**

No change

**additional option**

Internetkäufe könnten durch eine Altersbegrenzung eingeschränkt werden.

Yes

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

Meiner Meinung nach braucht es weder grössere Warnings noch Fotos oder weisse Packungen für Cigars. Wir sind alle erwachsene Bürger und wissen über die Gefahren des Rauchens, doch wollen wir bei der richtigen Gelegenheit unsere Cigars geniessen.

**which option**

No change

**questions on reporting  
problem definition**

No

**explanations**

Die einzelnen EU Mitgliedsstaaten können bereits heute entsprechende Gebühren und Massnahmen erlassen

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

Der Fokus bezüglich Flavors-Tests sollte darauf ausgerichtet sein, festzustellen ob die Flavors wirklich zu einer Erhöhung der toxischen Wirkung beim Tabakrauch führen

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Meiner Meinung nach führt ein totales Verbot dazu, dass die Vielfalt an verschiedenen marken verschwindet. Das wäre schade.

giulia.gioffreda@hotmail.it

**country**

italia

**age**

28

**gender**

female

**questions scope**

**problem definition**

No

**explanations**

La definizione è scorretta, vaga e poco chiara. Non si capisce come nel panorama della differenziazione dei prodotti del tabacco possano essere ricomprese le bevande alla nicotina o le sigarette alle erbe che non hanno nulla a che vedere con il tabacco!

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

La definizione non accenna ad alcuna base scientifica in grado di sostenere la nocività di tali prodotti. Lo studio dello SCENIHR, richiamato dalla definizione, si riferisce agli Stati Uniti e lo stesso SCENIHR ha raccomandato di non estendere tali studi per analogia a diversi paesi, in quanto le abitudini dei consumatori possono variare sensibilmente da paese a paese.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

La definizione fornisce una visuale scorretta del problema. L'informazione del consumatore non può infatti focalizzarsi unicamente sul pacchetto delle sigarette. Ritengo che limitare l'uso del pacchetto sia gravemente lesivo dei principi di proprietà intellettuale e libera concorrenza. Inoltre, il pacchetto non è strumento di pubblicità ma di differenziazione tra un prodotto e l'altro.

**which option**

No change

**additional comments**

La Commissione e i governi dovrebbero attivarsi con campagne di sensibilizzazione da diffondere attraverso tutti i canali a disposizione dei decisori: giornali, riviste, televisione. La definizione del problema fa pensare che l'intento vero e proprio delle opzioni proposte non risieda nella tutela della salute, ma in un attacco ingiustificatamente aggressivo alle industrie del settore.

**questions on reporting**

**problem definition**

No

**explanations**

La definizione non fornisce un quadro veritiero delle attività finora poste in atto in quest'ambito.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

Non sussiste alcuna prova scientifica che dimostri, anche lontanamente, la nocività degli ingredienti. La definizione si basa su criteri soggettivi come l'attrattività che non possono fungere da base per l'elaborazione di una politica di interesse pubblico.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Ancora una volta la definizione è poco chiara e scorretta.

**which option**

No change

**questions scope**

**problem definition**

Yes

**which option**

No change

**recommend option**

-could be useful to extend scope of the Directive to these products -but the products should not be prohibited without scientific tests this is the reason why I said "no changes"

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

- there is no scientific evidence that larger warnings are more effective - or me there is no reason why standardization of the packages will bring public health benefits - for my opinion it will increase the risk of forgery and encourage smuggling

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

- current laws provide the Member States with the opportunity to charge fees and other penalties - no reason why EU should gain additional powers in this area -it should remain with Member States

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

it should be focused on whether ingredients increase the toxicity of tobacco smoke or not

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

- there is no problem, neither in the functioning of the internal market or in terms of health - most important factor here is that the existing legislation, especially regarding the age limits are adhered to - the Member States are in far better position to guarantee this

**which option**

No change

Yes

**which option**

Extend the scope of the Directive

**questions smokeless****problem definition**

Yes

**which option**

No change

**questions consumer****problem definition**

Yes

**which option**

Improve consumer information

**which improvement**

Picture warnings to become mandatory; Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Health warnings to be put on water pipes

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format; Introduce fees and sanctions

**regulation of ingredients****problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a positive common list of tobacco ingredients; Establish a negative common list of tobacco ingredients

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access; Ban

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale; Access to vending machines to be restricted to adults; Tobacco display and promotion at points of sales to be restricted

**which one2**

Cross-border retail sales of tobacco to be banned over the Internet; Vending machines to be banned; Promotion and displays in retail stores to be banned

**additional option**

As long as smoking in public is tolerated, the proposed solutions can only fractionally help to protect from the toxic and annoying passive smoke. More extensive restrictions of smoking in public and in presence of children may be more effective than restriction of access to tobacco products.

**questions scope****problem definition**

Yes

**which option**

No change

**recommend option**

This problem is not so important. As long as a product definition includes the hint that a particular product contains nicotine or other addictive substances, I am not forced to buy it. And I definitively will not voluntarily buy or use such kind of products.

**additional comments**

Why reasonable products like snus are banned? Why novel forms of tobacco are to be banned although they do not emit any kind of second hand smoke or third hand smoke? This does not make sense! I would prefer that addicted people use snus rather than they impair the life and health of non-addicted people like me with their second and third hand smoke!

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

No.

**additional comments**

As long as a product actually does not emit any kind of smoke to the environment during normal use, it should be legal! It is not realistic to FORBID dumb people to become addicted to anything. But, it should be realistic to force addicted people to respect the life and health of other, non-addicted people.

**questions consumer**

**problem definition**

Yes

**which option**

Improve consumer information; Introduce generic or plain packaging

**which improvement**

Picture warnings to become mandatory; Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package; Health warnings to be put on water pipes

**additional option**

No.

**additional comments**

No.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format; Introduce fees and sanctions

**additional options**

No.

**additional comments**

No.

**regulation of ingredients**

**problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a positive common list of tobacco ingredients; Establish a negative common list of tobacco ingredients

**additional option**

No.

**additional comments**

No.

**access to tobacco products**

**problem definition**

Yes

**which option**

Ban

**which one2**

Cross-border retail sales of tobacco to be banned over the Internet; Vending machines to be banned; Promotion and displays in retail stores to be banned

**additional option**

I vote for controlled or free supply and access of smokeless drugs like snus (depending on how harmful these drugs are for the addicted consumers and for their social environment). If and when drugs emit poisonous smoke to the environment (and cigarettes, cigars, pipes, water pipes and so on do exactly this), their supply and access should be made as difficult as possible. I think that if smokeless drugs like snus would be much better available than cigarettes, it would be much easier to get a public smoking ban in the whole EU.

**additional comments**

Please, keep the main objective in your mind: The most important problem to be solved is the second hand and the third hand smoke non-addicted, health-conscious people are daily faced with. In case of doubt, a smoking ban in public should be more important than the regulation of access and supply of any kind of addictive drugs.

additional substances to tobacco should be listed COMPLETELY - which means: not only the  
appetizers (licorice, cocoa, cherry, vanilla, cumarine, ...), which is a nice marketing-  
instrument for all who profit from tobacco-sale in add, but especially the ADDICTION-  
enhancers (included resorption-enhancers)

**additional comments**

Step by step we have to reach the aim of (nearly) complete prohibition of tobacco (esp.  
cigarettes) ... Thank You for Your efforts !!!

**questions smokeless**

**problem definition**

Yes

**which option**

No change

**additional option**

Smoke is contamination for all individuals to take part in the environment - in opposite to all other kinds of consumption! That's why the banning of smoke is the most important thing! (Also the tobacco-smoke is the REAL pest of mankind.)

**questions consumer  
problem definition**

Yes

**which option**

Improve consumer information; Introduce generic or plain packaging

**which improvement**

Picture warnings to become mandatory; Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package; Health warnings to be put on water pipes

**additional option**

may be useful but I afraid, not really effective ENOUGH

**questions on reporting

No

**explanations**

Es gibt keine wissenschaftlich fundierten Belege, dass Warnhinweise, ob in Schrift oder Bild, Auswirkungen auf das Rauchverhalten haben. Ich bezweifel auch, dass eine Vergrößerung derselbigen, eine andere Wirkung hat. Ich lehne Einheitspackungen ab, denn Zigarettenpackungen sind ein legales Produkt, ein Markenprodukt. Facing sind wesentliche Bestandteile von Marketing und Wettbewerb, einem der Garanten der sozialen Marktwirtschaft.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Hier sehe ich die Mitgliedsstaaten in der Pflicht, mit der Industrie umsetzbare und wirtschaftlich sinnvolle Wege zu beschließen. Ein Mandat für die Kommission sehe ich bei dieser Thematik nicht.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

ich sehe in der Formulierung attraktive Zusatzstoffe ein willkürlich und subjektive Definition. Die gesamte Problemdarstellung hat für mich einen zu tiefst unwissenschaftlichen Charakter.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Das der Verkauf von Zigaretten über Automat in einigen EU-Staaten verboten ist, rechtfertigt nicht das generelle Verbot von Automaten. Die Thematik Automatenverkauf und Mindestalter ist generell im Zuständigkeitsbereich der Mitgliedsstaaten anzusiedeln. Die EU-Kommission versucht bei dieser Thematik zu wiederholten Maße Ihre aus den Verträgen klar geregelten Kompetenzen durch eine Hintertür auszuweiten.

rozbitek1 @yahoo.es

**country**  
Spain

**gender**  
male

**questions scope**  
**problem definition**  
Yes

**which option**  
Extend the scope of the Directive

**recommend option**  
Basically, banning tobacco smoking (in all forms, cigarettes, pipes, etc) at public places (including streets and parks) and allowing smokeless nicotine products will solve the passive smokers' problem, who would be free of the unpleasant smoke and won't be at risk of diseases related to the nicotine.

**additional comments**  
Although the passive smokers' problem would be solved by allowing smokeless nicotine and banning tobacco smoking in public places (strongly diminishing the number of people at risk of diseases related to the nicotine) it can only be a measure to be taken temporarily, to "save" us non-smokers but gradually and eventually all sorts of nicotine consumption should be banned and only allowed for certain kinds of therapy.

**questions smokeless**  
**problem definition**  
Yes

**which option**  
Lifting the ban on snus

**additional option**  
By lifting the ban on any smokeless tobacco products I mean a temporary action. Eventually no tobacco products should be allowed.

**questions consumer**  
**problem definition**  
Yes

**which option**  
Improve consumer information

**which improvement**  
Picture warnings to become mandatory; Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package; Health warnings to be put on water pipes

**explanations**

Es ist schon gut so wie es jetzt ist,ich bin Pfeifenraucher und durch ein Verbot von Zusatzstoffen z.B.Vanilla,Chrerry usw. würde es diese sehr Traditionelle Art des Tabak rauchens nicht mehr in der Art geben.Ich Frage mich was soll das bringen ich habe noch nie ein Kind mit einer Pfeife gesehen aber schon oft mit Zigaretten und das waren auch keine mit irgend einem Zusatzgeschmack sondern ganz normale.

verstehe die Frage schlecht besser wäre es in Deutsch

**questions on reporting**

**problem definition**

No

**explanations**

In Zigarretten kann ichs so gerade noch verstehen wenn da Stoffe reingemischt werden die den Geschmack hauptsächlich für Jugendliche die mit dem Rauchen anfangen wollen angenehmer macht. Aber bei Pfeifentabak ist es unnötig da erstens so gut wie niemals ein Jugendlicher eine Pfeife anpacken würde und zweitens das Rauchen an sich schon schädlich genug ist da macht ein Vanille-Aroma z.B. das auch nicht mehr schlimmer.

**which option**

No change

**additional options**

verstehe die Frage schlecht besser wäre es in Deutsch

**additional comments**

verstehe die Frage schlecht besser wäre es in Deutsch

**regulation of ingredients**

**problem definition**

No

**explanations**

Zusatzstoffe die extrem giftig sind da kann ichs ja verstehen aber ich denke nicht das ein Vanille-Aroma z.B. im Pfeifentabak das rauchen einer Pfeife gefährlicher machen wird.

**which option**

No Change

**additional option**

verstehe die Frage schlecht besser wäre es in Deutsch

lvr@gmx.de

**country**

Germany

**questions scope****problem definition**

No

**explanations**

Restriction do not prevent smoking.

**which option**

No change

**recommend option**

Strict age restrictions must be defined in order to a effective and easy control by the vendors.  
Just restrictions in right as per today seems not sufficient.

**questions smokeless****problem definition**

No

**comments**

no Availability restrictions, this will lead even to more consumption as the bought qty at PoS will not increase, whilst home-stored qty will expand.

**which option**

No change

**questions consumer****problem definition**

Yes

**which option**

Improve consumer information

**which improvement**

Picture warnings to become mandatory; Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package; Health warnings to be put on water pipes

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is key to have personal rights to determine which product is risky or less risky. EU regulations on this will probably too restrictive in order to keep product identity. But: parfums are not welcome in tobaccos !

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a positive common list of tobacco ingredients

**access to tobacco products**

**problem definition**

No

**explanations**

Age restrictions: yes please Access limitations: no! keep products available in shops and supermarkets as well at oil stations

**which option**

No change

**additional option**

Age restrictions in a easy manner to be performed at Point of sale

**which option**

No change

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Non concordo che "l'evidenza mostra che, se adeguatamente dimensionate e ben collocate, le avvertenze illustrate costituiscono una misura efficace per informare il pubblico in merito ai pericoli del fumo" e che "maggiore è la dimensione dell'avvertenza illustrata, maggiore ne è l'efficacia". Talvolta le immagini illustrate introdotte in alcuni paesi per sostituire le avvertenze sanitarie scritte, più che informare il consumatore sembrano essere state introdotte per suscitare stupore e shock. Non sembra questa la strada migliore per proteggere la salute dei consumatori, che già sono molto consapevoli dei pericoli e della dannosità delle sigarette. Sono anche totalmente contrari all'introduzione del cosiddetto "pacchetto generico", che rischia di favorire il business delle organizzazioni criminali e di danneggiare le aziende serie che tradizionalmente forniscono solo società manifatturiere di altrettanta serietà ed operanti solo sul mercato legale, che si vedrebbero gravemente danneggiate per la distruzione del valore dei marchi. Tra l'altro il "plain packaging" spingerebbe ad una concorrenza basata sul prezzo e non sulla qualità, così danneggiando il tabacco europeo che della qualità superiore ha l'unica arma possibile, ora che i sostegni diretti ai produttori, per compensarne i costi più alti, sono stati smantellati.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Sono d'accordo sulla creazione di un formato comune di reporting ma non concordo con la creazione di un nuovo livello di imposizione fiscale che andrebbe a sovrapporsi a quello dello stato membro, creando confusione e andando contro i principi di uniformità dell'Unione.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

Sono in totale disaccordo con l'ipotesi di vietare l'impiego di ingredienti nella produzione di sigarette. Questa ipotesi finirebbe per avere serie conseguenze per le produzioni di "Burley", in Italia e in tutta Europa. Questa qualità di tabacco, utilizzata principalmente per il cosiddetto "American blend", rispetto ad altre varietà di tabacco, necessita di un certo numero di ingredienti in fase di lavorazione. D'altra parte, come chiarito anche dall'OMS e dallo SCENIHR non esiste alcuna prova scientifica del fatto che le sigarette realizzate senza ingredienti (come quelle che utilizzano la varietà di tabacco "Virginia") siano meno dannose di quelle che necessitano di ingredienti. Questa, pertanto, appare una chiara discriminazione, che avrebbe il solo effetto di pregiudicare significativamente gli oltre 60.000 addetti alla coltivazione di tabacco in Italia e circa 400.000 in tutta Europa.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Le enunciazioni del documento di consultazione, in realtà non definiscono il problema, ma fotografano unicamente il quadro normativo di riferimento, seppure in modo parziale. Sono infatti elencati nel documento solo i paesi in cui esistono misure estreme per regolamentare l'accesso ai prodotti: paesi, ad esempio, in cui i distributori automatici sono vietati o dove è vietata l'esposizione dei prodotti nei punti vendita. Ritengo che non si debba arrivare tanto lontano per ottenere gli obiettivi prefissati di salvaguardia dei minori. Il sistema italiano di monopolio e di controlli sull'accesso, se applicato con determinazione e con le giuste risorse a disposizione degli organismi di controllo, costituisce un'ottima soluzione per limitare l'accesso dei minori al tabacco.

male

**questions scope**

**problem definition**

Yes

**which option**

No change

**questions smokeless**

**problem definition**

Yes

**which option**

No change

**questions consumer  
problem definition**

No

**explanations**

The consumer information out there is completely sufficient to address the problem of increasing numbers of smokers. As a matter of fact, the consumer information on smoking is already at a point where people chose to ignore the problem, simply because of the excess of information. Therefore, increasing the "disgust factor" of tobacco products is merely another pointless attempt at grasping the root of the problem - one that still does not go near the actual root.

**which option**

No change

**additional option**

No.

**additional comments**

"Disgusting" or generic packaging would interfere with the basic form of a free market. There can be no free market without some form of product recognition - which can only work by keeping distinguishing features. Hey, Idea: Maybe introduce DIFFERENT "disgust" pictures for each brand so that consumers can identify them by the KIND of cancer? :D

**questions on reporting  
problem definition**

No

**explanations**

There is sufficient ingredient definition already. Unfortunately, it is as simple as that.

**which option**

No change

**regulation of ingredients**

**problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a negative common list of tobacco ingredients

**access to tobacco products**

**problem definition**

No

**explanations**

Tobacco is subject to trade on this earth, just like any other legal substance. If tobacco is to remain legal at all, there should be easy options of access for the citizenship.

**which option**

No change

Die Angaben zu TNCO sollten auf den Rückseiten erhalten bleiben, genauso wie die Verbraucherschutzhinweise zu Tabakprodukten. Sie sollen dem Verbraucher den Grad der Schädlichkeit des Tabakproduktes sichtbar kenntlich machen. Die Vorderseite sollte von Verbraucherschutzhinweisen frei sein.

**additional comments**

Ich spreche mich für eine detaillierte Informationspflicht über TNCO-Angaben auf der Verpackungsrückseite aus. Eine einheitliche EU-Verordnung zum Tabakgenuss ab 18 Jahren halte ich für sinnvoll. Die Abgabe von Tabakprodukten an Minderjährige sollte mit dreistelligen Bußgeldern bestraft werden.

**name**

Jan Pauli

**email**

jpauli@gmx.net

**country**

Germany

**age**

30

**gender**

male

**questions scope****problem definition**

No

**explanations**

Durch teure Werbemaßnahmen weiß jeder, daß rauchen tödlich sein kann. Daher ist es absolut unnötig noch weitere Erschwernisse für die Tabakindustrie durchzusetzen. Als Raucher ist es mir außerdem egal, welche Warnhinweise auf der Zigarettenpackung stehen.

**which option**

No change

**recommend option**

Vielleicht wäre Ignoranz eine ganz gute Option. Man sollte sich mehr um die wichtigen Probleme, wie Arbeitslosigkeit oder gar Weltfrieden kümmern, als Raucher zu schikanieren!

**additional comments**

Nur Unverständnis gegenüber einem so nutzlosen Kreuzzug (achso! alle Kreuzzüge sind ja nutzlos und unsinnig)

**questions smokeless****problem definition**

Yes

**which option**

No change

**additional option**

Rauchlose Tabakgüter sollten den gleichen Restriktionen wie Zigaretten unterliegen.

**questions consumer****problem definition**

Yes

**which option**

No change

**additional option**

Bilder auf Zigaretenschachteln, welche vom Tabak geschädigte Personen / Organe darstellen sollten verboten werden. Denken Sie doch mal an die Verkäufer in Tabakwarenläden!

**questions on reporting****problem definition**

No

**explanations**

Man ist sich doch bereits darüber einig, daß Zigaretten schädlich / tödlich sind. Warum muß man dann noch eine Kontrolle der Inhaltsstoffe einführen? Bei Produkten für Kinder oder bei an sich gesundheitlich unbedenklichen Produkten, sollte eine Kennzeichnungspflicht bestehen aber bei Zigaretten? Wozu?

**which option**

No change

**regulation of ingredients****problem definition**

No

**explanations**

Warum sollte man den "schleichenden Tod" noch schleicher machen, indem man nun noch vorschreibt, daß bestimmte Inhaltsstoffe nicht mehr verwendet werden dürfen. Wer reinen Tabak rauchen will, der kann eine der vielen fast schon Bio-Marken kaufen und noch langsamer daran krepieren!

**which option**

No Change

**access to tobacco products****problem definition**

**additional comments**

Jeder EU-Bürger sollte grundsätzlich selbst entscheiden können was er konsumiert! Ob Alkohol, Tabak oder Lebensmittel, der Staat und die EU sollten nicht in die Marktwirtschaft eingreifen. Wer Zigaretten kauft tut dies aus eigenen Beweggründen. Diese Gründe werden auch durch Weisspackungen, Warmaufkleber oder Bilder von schwarzen Lungen etc nicht geändert. Tabakwaren dienen dem Staat vor allem als Steuereinnahmequelle. Der Markt wird immer stärker reguliert, Nichtraucherinitiativen ausgeweitet (was ich übrigens begrüße sofern die Teilnahme ohne Druck von aussen erfolgt). Folge: Der Anteil der Raucher sinkt. Damit die Steuereinnahmen nicht allzu rapide absinken werden die einfach erhöht. Das ist für mich der falsche Weg. Jeder Mündige Bürger hat das Recht selber zu entscheiden was er tun möchte oder eben nicht. Jeder Raucher wird bedrängt. Er muss im Winter draussen in der Kälte rauchen weil es in Gaststätten ein Rauchverbot gibt. Gleichzeitig beschweren sich die Anwohner darüber, dass die nun zwangsweise vor der Tür stehenden Gäste Lärm verursachen. Preise und Abgaben werden laufend erhöht, Rechte beschnitten und dann möchte der Staat auch noch auf kommunaler Ebene verdienen. Die Zahl der Aschenbecher in den Innenstädten sinkt, Mitarbeiter des Ordnungsamtes kontrollieren uniformiert und zivil. Folge: Selbst Raucher die ihre Kippe ordentlich ausdrücken werden verwarnt oder abkassiert weil sie aufgrund des Mangels an Aschern notgedrungen normale Mülleiner, Zäune oder Laternenpfähle nutzen (müssen) um die Glut auszudrücken. Lieber Staat, Liebe EU, hört auf damit! Man kann nicht das ganze Leben regeln. Und ich halte es auch für grundlegend falsch die Entscheidungsfreiheit der Bürger zu eliminieren. Wem man zutraut Politiker zu wählen, dem kann man doch auch zutrauen selbst entscheiden zu können was er seinem Körper antut. Dies gilt für Zigaretten ebenso wie z.B. für Lebensmittelampeln. Investiert lieber Geld da wo es sinnvoll ist - in die Bildung!

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Jeder erwachsene Bürger ist sich der sogenannten Gefahren des Rauchens bewusst. Auf den Packungen sind die Gefahren unübersehbar niedergeschrieben. Ich denke, die Tabakprodukte bedürfen keine grösseren Warnings und Abbildungen oder gar irgendwelche weisse Packungen. Es sollte gewährt sein, eine Zigarillos geniessen zu dürfen.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Die EU-Staaten sind jetzt schon in der Lage entsprechende Gebühren und Massnahmen zu erlassen.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

Der Fokus bezüglich Flavors-Tests sollte darauf ausgerichtet sein, festzustellen ob die Flavors wirklich zu einer Erhöhung der toxischen Wirkung beim Tabakrauch führen

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Ein totales Verbot führt zum Verschwinden vieler Marken. Das wäre nicht gut. Ich finde das überhaupt etwas weithergeholt und geht zuweit - ja bald erniedrigend für uns Bürger!

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Pictorial warnings do not work, noone really takes care about pictures on the pack. See an example of Belgium - smoking incidence even increased. Generic packaging - it will only make it easier to make false cigarettes or state budget will loose income, because smokers will choose illegal products that look as they looked before.

**explanations**

Mit dem Argument "Gesundheit" dürfen nicht ständig immer mehr Freiheiten geopfert werden. Nur weil VIELE denken, dass Rauchen gefährlich ist, muss man es nicht ALLEN verbieten oder unnötig erschweren. Es gehört zu den WICHTIGSTEN Freiheiten, große Entscheidungen SELBST treffen zu können. Dabei hat sich der Staat rauszuhalten!

**which option**

No change

**additional comments**

Europa muss Zurückhaltung lernen. Das gilt für die Gehaltserhöhungen der Beamten und für die Regelung der Beamten. Nicht VIELE Gesetzte sind gut, GUTE Gesetzte sind gut!

**questions scope****problem definition**

No

**explanations**

Wenn man Versucht den Menschen das Rauchen zu verbieten bzw. zu erschweren dann ermöglicht das dem Schwarzmarkt neue Wege und erleichtert es Produktfälschungen auf den Markt zu bringen. Und weiterhin finde ich das Alkohol schädlicher ist als Tabak.

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

warum sollen immer die Raucher leiden, da es nur Erwachsenen gestattet ist zu Rauschen sollen diese auch selbst entscheiden können!!!!

Yes

**which option**

No change

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Plain packaging is useless and against economic manufacturers' right to present sometimes their very valuable trademarks. I think it's against the law. Regulations should be wise and not too excessive, otherwise they are becoming pointless. Generic packaging will be so easy to counterfeit.

**which option**

No change

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients  
problem definition**

No

**explanations**

Ingredients are not "advertising" tool, the vast majority of them have to be used just to facilitate the production process. It has nothing to do with attracting the consumers. Would you get yourself a cat just because you liked a cat you just saw?

**which option**

No Change

**access to tobacco products  
problem definition**

No

**explanations**

Point of sale display ban does not cause that people quit smoking. There are not any proves for that, even in the countries with such law the smoking incidence did not fall because of such regulation.

#### **questions scope**

##### **problem definition**

No

#### **explanations**

The key to problems with cigarettes is education. Providing children with the knowledge to decide what is healthy for them, to say NO and to decide what risks they can afford with later in their life is cheaper than regulating things with EU-directives. With a profound knowledge of the consumer the free market will regulate itself. The proposed option will not be as effective as caring for proper education. Meanwhile education has the side-effects of having qualified workers, parents, citizens, while "inventing" more and more EU-directives will create bureaucracy and will cost jobs in a more rapid and more expensive way for society than caring for the ability to choose wise!

### **explanations**

Erwachsene Bürger entscheiden, ob sie ein Produkt kaufen wollen oder nicht. Die Risiken sind inzwischen sattsam bekannt. Ich halte es für bevormundend und unstatthaft, einem

Bürger den Kauf eines Artikels durch abstoßende Aufdrucke verleiden zu wollen. Er hat sich schließlich zu diesem Kauf entschieden. Warnhinweise, wie sie derzeit existieren, sind das Äußerste. Darüber hinausgehende Maßnahmen sind nur der Versuch, den freien Willen des Bürgers zu brechen und sind somit ein äußerst undemokratisches Druckmittel.

**questions scope**

**problem definition**

No

**explanations**

Es wurde bereits genug unternommen die Menschen in ihrer freien Entscheidung einzuschränken. Die Risiken sich nicht nach den Ratschlägen zu richten sind hinlänglich und jedem bekannt, ein aufzwingen ist nicht erforderlich. Desweiteren machen es Verbote nur für die Jugend interessanter. Und dem Verbraucher wird sogar noch erschwert "sein" Produkt zu erwerben. Das öffnet nicht nur illegalen Quellen Tür und Tor sondern zerstört auch noch große Industriezweige die nebenbei den Staaten Geld und Arbeitsplätze bringen.

**questions scope****problem definition**

No

**explanations**

Sollten Raucher Tabakerzeugnisse unter Lebensmittel- oder Medikamentenbestimmungen fallen so wäre eine zusätzliche Bestimmung nicht erforderlich sollten alle Inhaltsangaben und Inhalte nach den bestehenden Gesetzen und Vorschriften aufgelistet sein.

**which option**

No change

**recommend option**

Die bestehenden Warnungen bzw. Packungsbeschriftungen genügen voll und ganz. Da die Abgabe von Tabakwaren auf das Alter von 18 Jahren in den meisten EU Ländern heraufgesetzt ist, ist jeder der sich diese Produkte käuflich erwirbt selber für seine Taten und auch seine Gesundheit verantwortlich und dies jedes mal aufs neue beweisen zu müssen

**additional comments**

Die im Moment erhobene Tabaksteuer ist zu hoch und auch wenn sie als Abschreckung vor dem Kauf dienen sollte so erfüllt sie diesen Zweck in keinster Weise da diejenigen die sich mit Tabakwaren versorgen dies dann entweder legal oder, um die gestiegenen Kosten zu umgehen, illegal tun. Fotos mit Warnungen auf den Packungen wären auch allerhöchstens schlechte Form da es ohne weiteres möglich ist die Zigarettensets in diesem Fall z.B. in ein Etui umzufüllen.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

Die Inhaltsstoffe sollten kontrolliert und auch ausgewiesen werden.

Die Einschränkung des Tabakwarenmarketing sowie die Unterbindung eines produktgerechten Marketings müssten meiner Meinung dann auf alle gesundheitsgefährdeten Produkte ausgeweitet werden; darunter fallen bspw.: - Alkoholhaltige Produkte (also auch Pralinen, etc...) - Kartoffelchips (diese können unter Umständen Krebs auslösen; sie sind weiterhin ein Gefahrenträger, was die zunehmenden Adipositas-Fälle der europ. Gesellschaft betrifft) - Cola, Limo, etc... - Bratwurst, Pommies, Schnitzel und weitere stark fetthaltige Fleischprodukte usw...

1. To much control is stupifying a free opinion. 2. No explanation is equal to no understanding, which wouldn't cause any useful reason for non smoking except unconsciousness about risks. 3. Stealing away any kind of choice causes mindless decisions and a really to strong state. The discrimination of smokers should stop soon, as I wouldn't justify a nonsmoker for his choice.

**explanations**

Non concordo che "l'evidenza mostra che, se adeguatamente dimensionate e ben collocate, le avvertenze illustrate costituiscono una misura efficace per informare il pubblico in merito ai pericoli del fumo" e che "maggiore è la dimensione dell'avvertenza illustrata, maggiore ne è

l'efficacia". Talvolta le immagini illustrate introdotte in alcuni paesi per sostituire le avvertenze sanitarie scritte, più che informare il consumatore sembrano essere state introdotte per suscitare stupore e shock. Non sembra questa la strada migliore per proteggere la salute dei consumatori, che già sono molto consapevoli dei pericoli e della dannosità delle sigarette. Sono anche totalmente contrari all'introduzione del cosiddetto "pacchetto generico", che rischia di favorire il business delle organizzazioni criminali e di danneggiare le aziende serie che tradizionalmente forniscono solo società manifatturiere di altrettanta serietà ed operanti solo sul mercato legale, che si vedrebbero gravemente danneggiate per la distruzione del valore dei marchi. Tra l'altro il "plain packaging" spingerebbe ad una concorrenza basata sul prezzo e non sulla qualità, così danneggiando il tabacco europeo che della qualità superiore ha l'unica arma possibile, ora che i sostegni diretti ai produttori, per compensarne i costi più alti, sono stati smantellati.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Sono d'accordo sulla creazione di un formato comune di reporting ma non concordo con la creazione di un nuovo livello di imposizione fiscale che andrebbe a sovrapporsi a quello dello stato membro, creando confusione e andando contro i principi di uniformità dell'Unione.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

Sono in totale disaccordo con l'ipotesi di vietare l'impiego di ingredienti nella produzione di sigarette. Questa ipotesi finirebbe per avere serie conseguenze per le produzioni di "Burley", in Italia e in tutta Europa. Questa qualità di tabacco, utilizzata principalmente per il cosiddetto "American blend", rispetto ad altre varietà di tabacco, necessita di un certo numero di ingredienti in fase di lavorazione. D'altra parte, come chiarito anche dall'OMS e dallo SCENIHR non esiste alcuna prova scientifica del fatto che le sigarette realizzate senza ingredienti (come quelle che utilizzano la varietà di tabacco "Virginia") siano meno dannose di quelle che necessitano di ingredienti. Questa, pertanto, appare una chiara discriminazione, che avrebbe il solo effetto di pregiudicare significativamente gli oltre 60.000 addetti alla coltivazione di tabacco in Italia e circa 400.000 in tutta Europa.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Le enunciazioni del documento di consultazione, in realtà non definiscono il problema, ma fotografano unicamente il quadro normativo di riferimento, seppure in modo parziale. Sono infatti elencati nel documento solo i paesi in cui esistono misure estreme per regolamentare l'accesso ai prodotti: paesi, ad esempio, in cui i distributori automatici sono vietati o dove è vietata l'esposizione dei prodotti nei punti vendita. Ritengo che non si debba arrivare tanto lontano per ottenere gli obiettivi prefissati di salvaguardia dei minori. Il sistema italiano di monopolio e di controlli sull'accesso, se applicato con determinazione e con le giuste risorse a disposizione degli organismi di controllo, costituisce un'ottima soluzione per limitare l'accesso dei minori al tabacco.

Extend the scope of the Directive

**questions smokeless**

**problem definition**

No

**comments**

Smokeless tobacco products have been existing for a long time, e.g. chewing tobacco. I do not agree that EU have to forbid any possibly harmful product. Often, it is a matter of degree whether a product is harmful or not. If you would forbid any possibly harmful product, then all the sweets in supermarket shelves should be banned.

**which option**

No change

**questions consumer  
problem definition**

No

**explanations**

Everybody who is not insane knows that excessive smoking is harmful. This knowledge does not have to be supported by special package design. I enjoy smoking a cigar, no more than once a week. This is relaxing. I would not smoke many cigarettes all day long. So, please let the choice to me.

**which option**

No change

**questions on reporting  
problem definition**

No

**explanations**

Current information on ingredients is sufficient. As I said before. It is common sense that excessive smoking is harmful. I do not need "big brother" to understand. Just good education in school is sufficient.

**which option**

No change

**regulation of ingredients  
problem definition**

No

**explanations**

It is sufficient to regulate ingredients on a national level.

**which option**

No Change

**access to tobacco products  
problem definition**

No

**explanations**

I think the current state is sufficient.

**which option**

No change

**additional option**

I think, tobacco products should be sold to adults only, and only personally in shops. Therefore, I would support the ban of cigarette vending machines. Sale via the Internet is okay, as it is for alcohol (wine, beer, brandy). Internet sale should require age identification.

**questions scope****problem definition**

Yes

**which option**

Extend the scope of the Directive

**additional comments**

Tous les produits du tabac sont toxiques à la santé et il n'existe pas de seuil de risque. Le champ d'application de la directive doit dès lors concerner l'ensemble de ces produits et veiller à ce qu'en l'état, de nouvelles formes de produits tels que le snus ou autres tabacs non fumés ne soient pas introduits sur le marché, susceptibles d'accroître encore la consommation.

Il est à noter que les produits de la nicotine utilisés dans une optique thérapeutique font actuellement, et de manière légitime, l'objet de réglementations sanitaires extrêmement strictes. En revanche la réglementation et l'information imposées à l'égard des produits du tabac demeurent comparativement inversement proportionnelles à la toxicité de ces produits. Dans cette perspective, il incombe de renforcer considérablement le contrôle sur la composition de ces produits ainsi que l'information sur le caractère toxique, addictif et nuisible sur le plan sanitaire mais aussi économique, social et environnemental des produits du tabac.

**questions smokeless**

**problem definition**

Yes

**which option**

No change

**additional option**

L'interdiction concernant le snus doit être en l'état maintenue. Il s'agit d'une priorité essentielle. L'introduction d'un nouveau produit comme le snus aujourd'hui risque d'induire une augmentation de la consommation de tabac par l'accroissement de l'offre et dissuader des fumeurs d'arrêter complètement de consommer des produits du tabac. En effet, les conditions d'introduction du snus dans une optique de réduction de risques, à la fois pour l'individu et pour la société, ne sont pas réunies. En l'absence de consensus au sein de la communauté de santé publique et d'études expérimentales réalisées à son initiative, dans différents Etats membres de l'Union Européenne, en vue de déterminer si le snus pourrait s'inscrire dans une optique de protocole de prise en charge de fumeurs qui ne parviennent pas à arrêter de fumer ou qui ne veulent pas à l'instant T, la demande de snus aujourd'hui, dans l'hypothèse d'une levée de son interdiction, serait uniquement développée à l'initiative des opérations de marketing des fabricants de tabac. En revanche, il serait nécessaire que la communauté scientifique et de santé se saisisse sereinement de cette problématique de la réduction de risques. Des études prospectives devraient être réalisées visant à la possible introduction du snus dans la seule optique de réduction de risques pour des fumeurs qui ne parviennent pas à arrêter de fumer des cigarettes et avec une absence de toute promotion de ces produits au niveau de l'initiation. Une telle démarche s'inscrit dans un contrôle nécessaire de l'ensemble des produits du tabac et de la nicotine, dans le cadre d'une agence européenne de réglementation, réunissant des représentants des autorités sanitaires, des scientifiques, des représentants de la société civile impliqués dans le contrôle du tabac et le sevrage tabagique. Cela devrait exclure très clairement toute représentation des fabricants de tabac dont les intérêts ont été démontrés comme inconciliables avec ceux de la santé publique. Cette disposition serait une application des engagements pris par la Commission Européenne et la quasi-totalité des Etats membres, qui ont ratifié la Convention Cadre de l'OMS pour la Lutte Anti-tabac, notamment son article 5.3.

**questions consumer**

**problem definition**

No

**explanations**

La définition du problème pourrait être améliorée. Nous partageons l'analyse de la Commission selon laquelle la situation actuelle induit des différences majeures entre les Etats

Membres selon qu'ils ont adopté ou pas l'apposition d'avertissements graphiques sur les emballages des produits du tabac. Cette différence signifie une distorsion de qualité d'information en direction des consommateurs et citoyens européens, les avertissements graphiques ayant également une vertu préventive majeure. Par ailleurs, les dispositions de la directive sont sensiblement en deçà aujourd'hui des recommandations internationales fondées sur les évidences scientifiques qui préconisent une surface beaucoup plus importante dédiée aux avertissements sanitaires. (Lignes directrices de l'article 11 de la CCLAT). Ces dispositions ont été adoptées, notamment par la Commission Européenne et la quasi-totalité des Etats Membres en novembre 2008. Les Etats membres qui souhaitent apposer des avertissements sanitaires comme la France à partir de 2011 ont été contraints de limiter la surface pour ces avertissements graphiques en raison du caractère obsolète de la directive. Il est indispensable que la directive soit donc modifiée pour se mettre en conformité avec les prescriptions adoptées dans le cadre de la CCLAT. Nous partageons également l'analyse que l'utilisation des packagings des produits du tabac en tant que supports publicitaires n'est pas couverte par la présente directive relative aux produits. Il apparaît bien cependant que les produits du tabac et leur conditionnement sont inextricablement liés et conçus pour attirer les consommateurs, notamment les jeunes. En France, les différents fabricants de tabac sont condamnés définitivement chaque année par les Tribunaux pour violation des législations en vigueur et l'on a constaté au cours de cette dernière décennie une envolée de l'utilisation d'arômes et de parfums associées à des packagings évocateurs visant à faire oublier la dangerosité des produits et à assimiler les produits du tabac à des confiseries, parfums, accessoires ... (Rapports annuels du CNCT, Comité National Contre le Tabagisme, à la Direction Générale de la Santé – France 2008 - 2009) Dans cette perspective, il importe d'envisager de manière concomitante l'obligation d'apposer des avertissements graphiques et l'instauration de paquets neutres standardisés (ou paquets génériques). Non fumeurs comme fumeurs sont favorables à l'instauration de packagings susceptibles de leur donner des informations sur les ingrédients et sur les risques. Dans cette perspective, ils soutiennent tout particulièrement l'instauration de paquets neutres standardisés : 68 % des 18 ans et plus se déclarent favorables en France à l'introduction de ces paquets . Cette proportion croît de manière encore plus massive (87, dont 59% de très favorables ) lorsqu'il apparaît qu'une telle disposition est susceptible de dissuader les jeunes de commencer à fumer (Source: Enquête LH2 réalisée pour le CNCT dans le cadre d'un projet financé par l'Institut National du Cancer . Sondage réalisé du 17 au 29 novembre 2008, auprès d'un échantillon représentatif de la population de 18 ans et plus, selon la méthode des quotas, au regard des critères de sexe, d'âge, de profession du chef de ménage, après stratification par région et par catégorie d'agglomération). Par ailleurs, des études scientifiques ont montré l'efficacité des paquets neutres standardisés pour dénormaliser le tabac, inciter à ne pas commencer à fumer et à arrêter (Moodie C, Hastings GB, Ford A. (2009), A brief review of plain packaging research for tobacco products. Report prepared for UK Department of Health).

#### **which option**

Improve consumer information; Introduce generic or plain packaging

#### **which improvement**

Picture warnings to become mandatory; Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package; Health warnings to be put on water pipes

#### **additional option**

L'industrie a développé au fil des décennies toute une imagerie glamour, ludique, rebelle, et séduisante autour du packaging de son produit. Afin de casser ce marketing et de montrer aux consommateurs la réelle dangerosité du tabac, il faut apposer sur les paquets des produits du tabac des avertissements graphiques illustrant les dégâts causés par le tabagisme actif et passif. Ces images sont plus efficaces que de simples mots (du type « fumer tue »). Plus d'une trentaine d'études ont montré que cette disposition contribue à réduire la consommation et à dénormaliser les produits du tabac. Elle : - améliore le niveau de connaissance sur les méfaits; - a un impact sur l'envie d'arrêter de fumer; - motive les non fumeurs et ex fumeurs à le rester ; - dissuade les jeunes d'entrer dans le tabagisme ; - renforce la lisibilité, visibilité et compréhension des messages sanitaires, en particulier sur les populations défavorisées ; - réduit significativement l'attractivité du paquet de cigarettes (et donc incite moins les jeunes à commencer à fumer). Sur un plan pratique et pour optimiser leur efficacité, les avertissements visuels doivent être: • segmentés : c'est-à-dire qu'ils doivent présenter des informations de natures diverses pour toucher l'ensemble des populations cibles ; fumeurs, non fumeurs, hommes, femmes, jeunes, adultes, etc. Ainsi différents messages doivent être présentés : information sur les risques sur la santé, sur les coûts financiers, sur la dégradation physique, les méfaits esthétiques, les aides à l'arrêt, etc. • apposés sur le devant et le derrière du paquet , • en haut du paquet , • les plus grands possibles (80% de la surface comme en Uruguay) , • avec des images en couleur , • alternés et renouvelés régulièrement (un changement au minimum tous les deux ans) , • associés à des fiches d'information sur les aides à l'arrêt du tabac (qui peuvent être glissés à l'intérieur du paquet de cigarettes comme au Canada) afin de rassurer les fumeurs sur leur capacité à arrêter de fumer. Instauration de paquets neutres standardisés ou paquets génériques : Nous soutenons fortement l'introduction de paquets neutres standardisés pour l'ensemble des produits du tabac par la suppression de toute référence à l'univers publicitaire de la marque et l'apposition du nom de celle-ci de manière générique. La définition d'une taille et d'une forme standardisée du paquet est également requise. L'objectif est de supprimer les packagings comme supports publicitaires mais également de parvenir à une meilleure mise en exergue des avertissements apposés sur les conditionnements et enfin de mettre un terme aux pratiques actuelles de détournement des dispositions de la directive en vigueur qui interdit l'apposition de descriptifs mensongers tels que douce, légères ... et qui sont remplacées par les cigarettiers par des codes couleurs. Remplacer les informations quantitatives relatives aux goudrons, nicotine et monoxyde de carbone par des informations qualitatives sur les ingrédients, les teneurs et apposer un numéro de téléphone pour les lignes téléphoniques d'aide à l'arrêt. Les rendements indiqués sur les packagings sont ceux définis par des machines à fumer et ne sont pas fidèles de la manière de fumer des fumeurs. Les données quantitatives n'apportent aucune information aux consommateurs, elles sont même susceptibles de les induire en erreur en leur laissant croire que certaines cigarettes sont moins dangereuses que d'autres. La France a banni l'utilisation des descriptifs tels que légers. Pourtant une étude révèle que près d'un Français sur 2 croit prendre moins de risque pour sa santé avec des cigarettes moins « chargée » en nicotine. Le dispositif d'information qualitative sur les ingrédients en substitution des données quantitatives était très apprécié de même que l'instauration d'un dispositif complémentaire d'information notamment au travers de l'insertion de vignette à l'intérieur des paquets.

### **additional comments**

Les options 2 et 3 doivent être menées conjointement : - 2.a) rendre obligatoire l'apposition des avertissements graphiques dans tous les Etats Membres, sur de larges surfaces, sur les deux côtés principaux et en haut des packagings, - 2.b) supprimer les informations quantitatives sur les ingrédients (du type : nicotine :7mg, goudron : 0.6, etc.) qui induisent les consommateurs en erreur - 2.c) adopter un dispositif d'informations qualitatives sur les

substances toxiques des produits du tabac (du type : « les goudrons sont composés de substances chimiques qui provoquent le cancer ») mais également des informations susceptibles d'aider les fumeurs à arrêter et dissuader les non fumeurs de commencer ou de rechuter, en utilisant également l'intérieur du packaging - 2 d) apposer également des avertissements sanitaires sur l'ensemble des produits du tabac y compris des produits à narghilé Mais également en adoptant d'emblée l'option 3) d'instauration de paquets neutres standardisés (génériques) pour l'ensemble des produits du tabac.

### **questions on reporting**

#### **problem definition**

Yes

#### **which option**

Establish a common compulsory reporting format

#### **additional comments**

La situation actuelle qui se caractérise par l'existence de plusieurs formats et des mécanismes de notification différents induit des difficultés majeures pour les autorités publiques en vue d'analyser et de comparer ces données. Elle est préjudiciable au bon fonctionnement du marché intérieur et elle va à l'encontre de la nécessaire transparence requise dans le cadre des articles 9 et 10 du traité de la CCLAT pour communiquer et définir une réglementation des produits du tabac particulièrement toxiques mais aujourd'hui très peu réglementés. Tous les fabricants et importateurs doivent être soumis aux mêmes exigences de notification. Compte tenu du caractère extrêmement toxique des produits du tabac, ces derniers devraient être soumis à une obligation de diffusion des données les plus complètes possibles, en vue d'accroître la connaissance scientifique sur ces produits dans une optique sanitaire et de réduction de la consommation et en vue également de permettre des comparaisons. Cette démarche s'inscrit ainsi également dans une optique de lutte contre le commerce illicite des produits du tabac au travers d'un contrôle de l'offre. Un tel format de notification existe déjà, développé par la Commission en mai 2007, et devrait donc être généralisé. Cette généralisation apparaît en effet aisée et peu coûteuse à mettre en œuvre. L'introduction de droits annuels d'enregistrements afin de financer la collecte des données sur les ingrédients par les autorités nationales ainsi que le travail d'analyse de ces ingrédients est une bonne disposition. Il importe que la valeur du montant soit déterminé et révisé de telle manière que ce travail n'induisse pas de prélèvement sur les budgets de financements du contrôle du tabac qui sont par ailleurs, très limités et sont indispensables pour mettre en œuvre d'autres politiques publiques de réduction de la consommation de tabac.

### **regulation of ingredients**

#### **problem definition**

Yes

#### **which option**

Establish a common list of tobacco ingredients

#### **additional comments**

Nous soutenons l'adoption d'une liste positive d'ingrédient du tabac . Compte tenu de la haute toxicité de ces produits et de leur caractère addictif, la composition de ceux-ci devrait être étroitement réglementée. Une telle liste positive est nécessaire au niveau européen car selon les Etats Membres, les informations transmises aux consommateurs peuvent différer

sensiblement ce qui constitue un dysfonctionnement du marché intérieur et l'instauration de discrimination entre les différents consommateurs et citoyens de l'Union Européenne. Certains sont ainsi exposés à certaines substances tandis que d'autres en sont préservés ... Nous soutenons l'interdiction de l'utilisation de tout arôme et de tout élément susceptible d'accroître l'attractivité du produit. L'utilisation des arômes n'est pas une nouveauté ainsi que l'attestent les documents internes de l'industrie du tabac. Le fabricant RJ Reynolds (JTI) indiquait ainsi en 1972 dans une note à propos de l'utilisation des arômes que «Le goût des fraises connaît une forte acceptabilité parmi le marché des jeunes » L'élément nouveau dans nombre de marchés, et notamment celui de la France, est le développement exponentiel de l'utilisation des arômes au cours de ces dernières décennies. Une étude réalisée par le Comité National Contre le Tabagisme - CNCT en France met en exergue la progression de l'utilisation des arômes en 10 ans entre 1998 et 2008 avec aujourd'hui un recours dorénavant généralisé à l'ensemble des produits du tabac. 11 parfums étaient utilisés en 1998 v/ près de 50 ans 2008, le nombre de produits par marque est passé de 28 à près de 300 pendant la même période. L'évolution des catégories d'arômes reflètent également les cibles visées par les fabricants à savoir : 1. les enfants et adolescents au travers de l'adjonction d'arômes de fruits, souvent acidulés : fraise, mangue, myrtille, raisin, pêche, fruit de la passion, cerise, fruits exotiques, fruits rouges, banane, pastèque, orange, poire, citron, pomme, ... Ou encore d'arômes traditionnels pour les produits de confiserie : caramel, chocolat, vanille, miel, choco-mint, bubble gum, café, réglisse, nougat, ... On constate également que le prix de ces produits aromatisés conçus comme des paquets enfants - paquets bonbons est adapté pour les petits budgets car ces paquets sont moins chers que les produits « classiques ». 2. les femmes sont également ciblées avec le recours à des parfums et des épices tels que le jasmin, le lilas, la rose, l'anis, la cannelle, le clou de girofle, ...) 3. Enfin, une autre catégorie renvoie à un public mixte au travers de l'utilisation d'alcools, en particulier Cognac, Pina Colada, Champagne, Bourbon, Martini, Gin, Kir, .... S'agissant des arômes les plus acidulés, les objectifs poursuivis par les fabricants de tabac sont de masquer l'âcreté du produit pour les plus jeunes, de proposer ainsi un produit d'initiation permettant de capter l'intérêt des enfants et de les faire évoluer vers d'autres produits de la gamme au fur et à mesure qu'ils grandissent. Globalement l'utilisation de ces arômes conduit à une banalisation et à une altération de la perception des produits du tabac comme des produits dangereux. L'acte de fumer est assimilé à un simple geste de gourmandise ou encore à un accessoire de type parfum pour les produits aux arômes de fleurs ... alors que ces produits sont tout aussi dangereux que les autres. Par ailleurs, le produit en tant que tel est de plus en plus conçu de manière attractive via notamment l'utilisation de papier de couleur ou de papier à cigarettes illustrées par de grands designers. (ex paquets Vogue jour, Vogue Nuit ou Pink Elephant ...)

#### **access to tobacco products**

##### **problem definition**

Yes

##### **which option**

Ban

##### **which one2**

Cross-border retail sales of tobacco to be banned over the Internet; Vending machines to be banned; Promotion and displays in retail stores to be banned

##### **additional option**

Nous demandons à la Commission l'instauration d'une interdiction de toute publicité et

promotion sur le lieu de vente conformément aux engagements pris à Durban, lors de la 3ème Conférence des Parties à la CCLAT en novembre 2008.

### **additional comments**

Internet. La France prévoit un dispositif d'interdiction d'achat des produits du tabac sur internet ou à distance "Les débitants ne peuvent vendre du tabac qu'aux clients présents dans l'enceinte du débit. Il leur est interdit de vendre du tabac par correspondance ou par réseaux informatiques". En l'absence d'harmonisation des législations, en particulier au niveau des différents Etats Membres de l'Union Européenne, cette disposition protectrice trouve néanmoins son efficacité réduite. Un observatoire Internet réalisé par le CNCT pour le Ministère de la Santé en 2007-2008 soulignait notamment la nécessité de généraliser ce principe avec les dispositions de contrôle et de sanctions associés vis-à-vis des sites sources mais également des fournisseurs de contenus pouvant être poursuivis pour complicité. En limitant les possibilités d'accès aux produits, on restreint non seulement l'offre et également la demande, et par ailleurs, on est davantage en mesure de contrôler cette offre et de lutter contre toute forme de commerce illicite des produits du tabac. Distributeurs automatiques : La France interdit de tels distributeurs automatiques préservant notamment les plus jeunes de l'accessibilité à ces produits. Point de vente : En France, les produits du tabac sont vendus dans les débits de tabac et il existe une exception au principe d'interdiction de toute publicité dans ces lieux, cette exception est cependant strictement encadrée et était initialement justifiée par un souci d'information en direction des consommateurs. Ainsi la publicité : - ne doit pas être visible de l'extérieur du débit ; - doit être exclusivement sous la forme d'une affichette d'un format maximal de 60 x 80 cm ; - cette affichette ne peut comporter d'autres mentions que la dénomination du produit, sa composition, ses caractéristiques et conditions de vente, à l'exception du prix, le nom et l'adresse du fabricant et, le cas échéant, du distributeur ; - cette affichette ne doit avoir aucune autre représentation graphique ou photographique que celle du produit, de son emballage et de l'emblème de la marque ; - l'affichette doit également comporter un avertissement sanitaire, lui-même apposé selon des règles de taille, emplacement, formulation, bien précises. Une évaluation de cette réglementation en France vient d'être rendue publique et met en exergue que plus de 80 % des débits de tabac violent la réglementation en vigueur. Sur l'ensemble des PLV recensées, 88 % des publicités étaient illicites sur la forme (format affichette non respecté) ou sur le contenu (présence d'un slogan publicitaire, mention du prix, visuel autre que le produit du tabac etc..). De plus, il apparaît que ces supports sont conçus pour faire oublier la nature dangereuse du tabac en utilisant les codes publicitaires d'autres produits inoffensifs (bonbons, musique, jeux, produits high-tech...) souvent consommés par les jeunes. L'exception conçue à des fins d'information se trouve totalement détournée et a conduit les fabricants à développer toute une désinformation et une promotion de leurs produits. Cette évaluation met clairement en exergue la nécessité d'interdire strictement toute publicité sur le lieu de vente y compris au niveau de l'étal en raison de la permanence des détournements et des violations qui sont systématiquement faits dans le cas d'exception.

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a negative common list of tobacco ingredients

**access to tobacco products****problem definition**

No

**explanations**

The EU is a free trading area, why should be tobacco in it an exclusion? If you're allowed to own or buy/sell tobacco in both countrys (EU member states), then shouldn't be any further kind of restrictions.

**which option**

No change

**additional option**

Reduce the actual limitation. They are not in common with the free trading issue.

**questions scope****problem definition**

No

**explanations**

There is no evidence to confirm that generic packaging reduces the consumption of tobacco products, nor that it has a more positive effect on consumers' health. The smoker has the right to be able to easily differentiate the brand of product they prefer to consume, and has the right to obtain information on the packaging on the product he/she chooses to consume. With generic packaging, consumers have much more difficulty in identifying and rejecting counterfeit tobacco products. Generic packaging makes the processing of counterfeit and fake products much easier. one can predict the negative consequences for human health, inherent lack of hygienic and sanitary control of production processes of counterfeit tobacco products, with the likely unmeasurable increase of harmfulness to human health at the time of its consumption

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

the only sales that are executed through vending machines are controlled by "Human Subjects", therefore the problem lies in human decisions of buying and selling the tobacco product and not the mechanical act of sale itself. The purchase of tobacco by minors should be penalized, by punishing and holding accountable the parents and guardians of underage children who allow them to purchase tobacco products. The assignment of tobacco products to minors by adults (friends) should be penalized. Tobacco use (tobacco smoking) by minors should also be prohibited and penalized. The vending machines are "part of the solution" and not "part of the problem" because they constitute an important tool in combating the sale of counterfeit tobacco products since the offender risks a lot more to be discovered by authorities when selling counterfeit tobacco in their vending machines. There is no evidence that the inhibition of exposure of products in commercial spaces diminishes the consumption of tobacco. Furthermore the ban on display of products is an inhibitor of "freedom of choice" by consumers and promotes confusion between the legal product and the illegal product

Ich sehe kein ungelöstes Problem. Kinder haben Eltern, Geschäfte Verkäufer, Kinder- und

Jugendschutzbestimmungen sind hinreichend.

**which option**

No change

**additional comments**

was soll man dazu sagen? Der Trend geht schon lange weg von einer freiheitlichen hin zu einer paternalistischen Gesellschaft. Das gefällt mir nicht. Nebenbei, es gäbe wichtigere Dinge zu regulieren. Aber Minderheiten ein- und auszugrenzen ist halt immer schon beliebt gewesen.

**questions smokeless**

**problem definition**

No

**comments**

Sagte ich das nicht schon?

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Die Information ist völlig hinreichend, es gibt kein Problem. Es geht um die freie Willensentscheidung.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Meiner Meinung nach ist eine EU-übergreifende Regelung überflüssig. Kann Angelegenheit der jeweiligen Mitgliedsstaaten bleiben.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Muss nicht in der EU einheitlich gehandhabt werden, soll Sache der einzelnen Mitgliedsstaaten bleiben.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Der freie Wettbewerb der Mitgliedsstaaten ist doch gerade der Sinn und Zweck der EU!  
Wenn Regelungen durch Interneteinkauf untergraben werden, dann bedeutet das doch, dass für einige Menschen die Regelung im Nachbarland offenbar besser ist. Was ist schlimm daran? Vielleicht lassen sich einige nationale rigide Regelungen nicht wirksam durchsetzen. Dann ist das eben so und hat doch auch was zu bedeuten!

No change

**recommend option**  
Since we are adult people, we know what we do. Leave the cigar smokers alone

**additional comments**  
As you may know. Prohibition does not work. In history, The Prohibition strengthened the organized crime ans so on and on.

**which option**

No change

**questions on reporting  
problem definition**

No

**explanations**

Einheitlichens einfaches Meldeformat, dass auf Grund seiner Ausgestaltung kleine Importeure nicht benachteiligt. Ziel muss es sein Klarheit über die Inhaltsstoffe zu erhalten ohne hierdurch versteckte Behinderungen des Importes zu manifestieren.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients  
problem definition**

No

**explanations**

Grundsätzlich sollten keine künstlichen Stoffe zugegeben werden. Da aber eine Meldepflicht die Zusatzstoffe öffentlich machen würde ist eine einheitliche positiv oder negativliste entbehrlich. Der Verbraucher kann sich informieren und entscheiden. Die Stoffe können öffentlich und auf wissenschaftlicher Basis bewertet werden.

**which option**

No Change

**access to tobacco products  
problem definition**

No

**explanations**

Einzig ein Altersnachweis des Käufers wäre eine sinnvolle Ergänzung für den grenzüberschreitenden Internethandel.

**which option**

No change

I am a mature citizen of a free country. It is my personal decision and my personal responsibility to enjoy tobacco products. The diversity of unregulated tobacco products is indispensable for my right of self-fulfilment.

**questions scope****problem definition**

No

**explanations**

I think it's important that the tobacco manufacturers can present themselves individually, and so I am against unit packages. I like the colorful wall behind the vendors, because it is on each other sorts and it looks so different in every single store

**which option**

No change

**questions smokeless**

**problem definition**

Yes

**which option**

No change

**questions consumer  
problem definition**

No

**explanations**

See under I. But the pictures of disease could be printed on the backsides of each package, so that the colorful walls in the stores won't suffer under the rules

**which option**

No change; Improve consumer information

**which improvement**

Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Health warnings to be put on water pipes

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**explanations**

It is too early to initiate any legislation for the electronic cigarettes. Probably a different legislation will be required irrelevant to the one that covers the tobacco products

**which option**

No change

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

It is still a legal commercial product that we can not impose all member states to implement pictorial warnings. The existing warning message is enough.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

The trade mark is a right of the companies no matter if the product is cigarettes. It is a legal product and we must respect the market rules

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

The existing reference is enough. What about Coca Cola?

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Is a common legal product. Any limitation to the access could also drive to negative results, fake products and uncontrollable trade

Ja: Rauchverbote sollten endlich (EU-weit) durchgesetzt werden. Ich empfinde es als Riesenschweinerei, dass in Nordrhein-Westfalen in Deutschland in jeder Gaststätte, Diskothek und auch in vielen Restaurants und sogar Eisdielen geraucht wird. Ich kann nirgends tanzen gehen, ohne am nächsten Tag die Bronchien verschleimt zu haben. Raucherclubs gehören ausnahmslos verboten. Das Rauchen muss in jeder - auch noch so kleinen - Gaststätte verboten werden. Wenn nirgendwo geraucht wird, gibt es auch keinen Konkurrenzdruck zwischen den Wirten und niemand ist benachteiligt!

#### **additional comments**

Ja: Rauchverbote sollten endlich (EU-weit) durchgesetzt werden. Die Verteufelung eines Zweiges der Genusswarenindustrie ist meiner Meinung nach Idiotisch, man könnte genau so darüber Diskutieren Süßigkeiten in Einheitspackungen zu verkaufen. Denn Süßigkeiten können Übergewicht hervorrufen was wiederum zu Herz und Kreislauferkrankungen führen kann. Das gleiche Beispiel könnte man mit dutzenden anderen Produkten machen! Dann könnten wir in einer wundervollen Gesellschaft aus Einheitspackungen und Warnhinweisen leben. Als mündiger Bürger mochte ich nicht auf diese weise Diskriminiert werden. Wenn ich in gemütlicher Runde bin möchte ich auch in zukunft eine gute Zigarre aus einer ansprechenden Verpackung genießen können, ohne das ich darauf das Bild eines Kehlkopfamputierten sehen muß. Ich finde Aufklärungskampanien für die Öffentlichkeit besser, besonders für gefährdete Zielgruppen. Wenn jeder über die Risiken aufgeklärt ist kann er am besten eine Entscheidung für sich treffen. Denn noch kann

jeder selbst für sich entscheiden. Wenn dieser irrsinn auch auf andere gebiete übertragen würde, könnte man eines Tages an den Punkt kommen wo wir dies nicht mehr können den dann schreiben uns das EU Vorschriften vor. Ich möchte jedenfalls in einem Freien Europa leben und nicht von Verordnungen und Richtlinien abgewürgt werden.

**Citizen submission**

**identification  
affiliation**  
citizen

**name**  
David Ritter

**email**  
eiswolf7@web.de

**country**  
Federal Republic of Germany

**questions scope  
problem definition**  
No

**explanations**

The current kind of declaration on tobacco products is enough. Every citizen has an own head for thinking what the eyes read. Additionally it counts to general knowledge, that smoke (of cigarettes or fire) is harmful for people. The next point is, that an extremely "unattractive-making" of dangerous goods is really feasible. Fireworks for example are much more dangerous than cigarettes, but there are no pictures of blown up hands. Either a danger is prohibited for the safe of all or not and the people have to decide for themselves.

**which option**

Extend the scope of the Directive

**recommend option**

A stronger regulation of access to tobacco products (especially people under 18 years) and a accordingly serious control of this regulation.

**questions smokeless****problem definition**

No

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

Yes

**which option**

Improve consumer information

**which improvement**

Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package; Health warnings to be put on water pipes

**additional option**

The current declaration of possible danger when consuming, like in Germany is enough. But have to be the same information type and -level in all Member States. As I said, the people have everyone an own head for thinking about their doing/not doing.

**additional comments**

A prohibition of colors and brands on tobacco products is a contradiction to a free market. So if a product is not prohibited, the manufacturer can advertise its products like they think (surely, it has to be law compliant).

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**additional comments**

A common compulsory reporting format established is absolutely necessary for a free europe-wide market. Every other solution is useless.

**regulation of ingredients****problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a positive common list of tobacco ingredients

**additional comments**

A negative common list is useless, because new ingredients will be created or "discovered" (the experience shows, it is every time the same procedure). A list of allowed ingredients is explicit.

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale; Access to vending machines to be restricted to adults; Tobacco display and promotion at points of sales to be restricted

**additional option**

I agree with a ban of advertisement of tobacco products in public (for example magazines, cinemas, sports)

## **Citizen submission**

### **identification**

#### **affiliation**

citizen

#### **name**

Prof. Dr. Gerd Stottmeister

#### **email**

stottmeister@akademiederwirtschaft.de

#### **country**

Germany

#### **age**

50

#### **gender**

male

#### **questions scope**

##### **problem definition**

No

#### **explanations**

Die Direktive geht vollkommen an der Realität vorbei: Entweder wird das Rauchen vollumfänglich - immer und überall - verboten ... oder aber die legalen Produkte werden den Regeln der Marktwirtschaft unterworfen. Jugend- und Nichtraucherschutz lassen sich auch ohne diese Direktive auf viel einfachere Wege regeln.

#### **which option**

Extend the scope of the Directive

#### **recommend option**

s.o.

#### **questions smokeless**

##### **problem definition**

Yes

#### **which option**

No change

#### **questions consumer**

##### **problem definition**

No

#### **explanations**

Die Optionen sind schon einseitig: Legale Produkte müssen auch alle Möglichkeiten des Brandings nutzen können. Somit trifft die Angabe "no change" nicht den Kern: Meine Forderung ist, die derzeitigen Warnhinweise auf sachliche Informationen zu reduzieren.

**which option**

No change

**additional option**

s.o.; die "Optionen" sind bereits einseitig gewählt; eine weitere Option muss lauten: "Die Warnhinweise verringern oder entfernen."

**additional comments**

Die Warnhinweise haben lediglich diskriminierenden Charakter, sind aber wenig informativ.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

Yes

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Jugendschutz wird z.B. in Deutschland schon flächendeckend über alle Verkaufskanäle praktiziert. Eine weitergehende Regelung ist nicht erforderlich. Eine Einschränkung der Produktpräsentation am Point of Sale ist nicht nur für die Konsumenten diskriminierend, für den Wettbewerb schädlich, sondern auch im Hinblick auf die - vorgeschobenen - Ziele völlig wirkungslos, wie viele wissenschaftliche Untersuchungen belegen.

**questions scope****problem definition**

Yes

**which option**

No change

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Non concordo che "l'evidenza mostra che, se adeguatamente dimensionate e ben collocate, le avvertenze illustrate costituiscono una misura efficace per informare il pubblico in merito ai pericoli del fumo" e che "maggiore è la dimensione dell'avvertenza illustrata, maggiore ne è l'efficacia". Talvolta le immagini illustrate introdotte in alcuni paesi per sostituire le avvertenze sanitarie scritte, più che informare il consumatore sembrano essere state introdotte per suscitare stupore e shock. Non sembra questa la strada migliore per proteggere la salute dei consumatori, che già sono molto consapevoli dei pericoli e della dannosità delle sigarette. Sono anche totalmente contrari all'introduzione del cosiddetto "pacchetto generico", che rischia di favorire il business delle organizzazioni criminali e di danneggiare le aziende serie che tradizionalmente forniscono solo società manifatturiere di altrettanta serietà ed operanti solo sul mercato legale, che si vedrebbero gravemente danneggiate per la distruzione del

valore dei marchi. Tra l'altro il "plain packaging" spingerebbe ad una concorrenza basata sul prezzo e non sulla qualità, così danneggiando il tabacco europeo che della qualità superiore ha l'unica arma possibile, ora che i sostegni diretti ai produttori, per compensarne i costi più alti, sono stati smantellati.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Sono d'accordo sulla creazione di un formato comune di reporting ma non concordo con la creazione di un nuovo livello di imposizione fiscale che andrebbe a sovrapporsi a quello dello stato membro, creando confusione e andando contro i principi di uniformità dell'Unione.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

Sono in totale disaccordo con l'ipotesi di vietare l'impiego di ingredienti nella produzione di sigarette. Questa ipotesi finirebbe per avere serie conseguenze per le produzioni di "Burley", in Italia e in tutta Europa. Questa qualità di tabacco, utilizzata principalmente per il cosiddetto "American blend", rispetto ad altre varietà di tabacco, necessita di un certo numero di ingredienti in fase di lavorazione. D'altra parte, come chiarito anche dall'OMS e dallo SCENIHR non esiste alcuna prova scientifica del fatto che le sigarette realizzate senza ingredienti (come quelle che utilizzano la varietà di tabacco "Virginia") siano meno dannose di quelle che necessitano di ingredienti. Questa, pertanto, appare una chiara discriminazione, che avrebbe il solo effetto di pregiudicare significativamente gli oltre 60.000 addetti alla coltivazione di tabacco in Italia e circa 400.000 in tutta Europa.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Le enunciazioni del documento di consultazione, in realtà non definiscono il problema, ma fotografano unicamente il quadro normativo di riferimento, seppure in modo parziale. Sono infatti elencati nel documento solo i paesi in cui esistono misure estreme per regolamentare l'accesso ai prodotti: paesi, ad esempio, in cui i distributori automatici sono vietati o dove è vietata l'esposizione dei prodotti nei punti vendita. Ritengo che non si debba arrivare tanto lontano per ottenere gli obiettivi prefissati di salvaguardia dei minori. Il sistema italiano di

monopolio e di controlli sull'accesso, se applicato con determinazione e con le giuste risorse a disposizione degli organismi di controllo, costituisce un'ottima soluzione per limitare l'accesso dei minori al tabacco.

**questions scope**

**problem definition**

No

**explanations**

Elektronische Zigaretten u. dgl. mag es geben, sie tauchen de facto aber nirgends auf. Sie stellen keine ernstzunehmende Alternative dar; eine EU-einheitliche Regelung ist daher überflüssig.

**which option**

No change

**recommend option**

Warnhinweise sowie Bilder stellen keine effektive Abschreckung dar. "Abusus non tollit usum": Wer gerne abends seine Zigarre / Zigarette raucht, ohne dabei süchtig zu sein, sollte nicht diskriminiert werden, nur weil der Abusus zu Gesundheitsrisiken führt. Gerechtigkeit gebietet, Gleiches gleich und Ungleiches ungleich zu behandeln. Solange es keine Warnhinweise auf Alkoholflaschen, fetthaltigen Produkten etc. pp. gibt, sollten diese auch nicht auf Tabakwaren angebracht werden.

**additional comments**

s.o.

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Wer regelmäßig Zigarettenpackungen kauft, nimmt Warnhinweise etc. darauf nicht mehr zur Kenntnis. Oft werden auch Etais gebraucht. Wer eine Packung gekauft hat, raucht sie auch. Warnhinweise sind an dieser Stelle daher überflüssig.

**which option**

No change

**additional comments**

Senkung der Tabaksteuer, um nicht den Eindruck zu erwecken, Rauchen würde die Sicherheit erhöhen.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**additional comments**

Vergleichbarkeit fördert den freien Handel und ist daher vorzuziehen.

**regulation of ingredients****problem definition**

Yes

**which option**

No Change

**additional comments**

Freiheit erfordert Vielfalt. Rgelementierung würde Einschränkung bedeuten. Würde Menthol verboten, führte dies zur Kombination von Pfefferminzdragees mit Zigaretten - dem Gesundheitsschutz wäre nicht geholfen...

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional comments**

Frierer Handel ist ein Grundprinzip des Binnenmarkts, das nicht eingeschränkt werden darf.  
Eine Begrenzung auf Erwachsene ist allerdings sinnvoll.

germany

**age**

58

**gender**

female

**questions scope**

**problem definition**

No

**explanations**

in my opinion, there`s no demand for new products, named ENDS in Germany.

**which option**

No change

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

Yes

**which option**

No change

**additional option**

because generic or plain packaging will not prevent a consumer from smoking cigarettes and pictures of cancer patients will not frighten smokers.

**questions on reporting**

**problem definition**

Yes

**which option**

No change

**regulation of ingredients**

**problem definition**

Yes

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Cigarettes are not available for people under 18 years. There are already some obstacles to get cigarettes at cigarette-machines, like authorisation with credit card.

**which option**

No change

marcogroh@aol.com

**country**

Germany

**age**

38

**gender**

male

**questions scope****problem definition**

Yes

**which option**

Extend the scope of the Directive

**recommend option**

Ein Verbot von neuartigen Formen ist keine Lösung, s. Erfolg der USA bei der Bekämpfung von Alkohol (Prohibition). Entsprechende Aufklärung und Warnhinweise bei neuartigen Formen sollten ausreichend sein.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

ggf. wg. "Diese Produkte können auch eine Hilfe beim Aufhören sein." Einführung einer Rezeptpflicht (ähnlich wie bei Methadon)

**questions consumer**

**problem definition**

No

**explanations**

Die Warnhinweise sind bereits jetzt sehr deutlich. Auch in Gesprächen mit anderen Personen sind sie ein Thema und Scherzartikel, die "Spaßpackungen" mit veränderten Warnhinweisen darstellen, zeigen, dass die Warnhinweise allgemein sehr präsent sind. Eine Verschärfung in dieser Richtung birgt keine Fortschritte. Im Gegenteil. Durch eine Verschärfung werden unterschiedlichen Branchen (z.B. der Marketingindustrie) eine wesentliche Auftragsgrundlage entzogen.

**which option**

No change

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a negative common list of tobacco ingredients

**additional option**

Eine Positiv-Liste schränkt grundsätzlich immer den Fortschritt ein. Allerdings muss bei einer Negativ-Liste berücksichtigt werden, dass der neue Stoff i.d.R. erst auf dem Markt ist, bis die Liste aktualisiert werden kann. Entsprechend bietet sich eine Kombination an: 1) Eine Negativliste 2) Eine Positiv-Liste, der bereits getesteten Stoffe. Möchte ein Unternehmen einen neuen Stoff einführen, so ist dieser anzukündigen/anzumelden und anschließend zu testen. Wird er nicht binnen 6 Monate auf die Negativ-Liste aufgenommen, erscheint er automatisch auf der Positiv-Liste.

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Verbote sind grundsätzlich keine Lösung sondern erhöhen die Neugier und den Reiz.

**questions scope****problem definition**

No

**explanations**

Aucune étude ne prouve l'efficacité des paquets neutres. Aucune étude ne prouve l'efficacité des photos chocs, ni même de plus grands avertissements sanitaires sur les paquets. La mise en place de paquets neutres risque d'entraîner une guerre des prix du tabac (puisque cela restera le seul moyen pour les fabricants de se différencier). La mise en place de photos chocs sur les 2 faces des paquets ou de paquets génériques va pousser les consommateurs français à aller s'approvisionner sur les marchés parallèles du tabac (achats à l'étranger ou de contrebande, ou sur internet. De telles mesures risquent de déstabiliser et pénaliser économiquement le réseau des 28 000 buralistes français organisés dans un réseau réglementé et sous tutelle de l'Etat.

**which option**

No change

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Cela risque d'entraîner une standardisation de la production avec comme conséquence une diminution de l'offre au fumeur adulte et responsable, et le risque de voire apparaître une

augmentation des produits du tabac contrefaits

**which option**

No change

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format; Introduce fees and sanctions

**additional comments**

Il n'y a pas de corrélation prouvée entre la disparition des linéaires tabac et la lutte contre le tabagisme. La France dispose d'un réseau de 28 000 buralistes, préposés de l'administration responsables et professionnels, seuls habilités à vendre du tabac. Ce réseau est fortement réglementé par l'Etat ce qui permet déjà de contrôler efficacement l'accès au produit tabac

**regulation of ingredients**

**problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a negative common list of tobacco ingredients

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access; Ban

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale

**which one2**

Cross-border retail sales of tobacco to be banned over the Internet; Vending machines to be banned

**additional comments**

Il n'y a pas de corrélation prouvée entre la disparition des linéaires tabac et la lutte contre le tabagisme. La France dispose d'un réseau de 28 000 buralistes, préposés de l'administration responsables et professionnels, seuls habilités à vendre du tabac. Ce réseau est fortement réglementé par l'Etat ce qui permet déjà de contrôler efficacement l'accès au produit tabac

##### **which option**

Ban on all types of smokeless tobacco products

#### **questions consumer**

##### **problem definition**

Yes

##### **which option**

Introduce generic or plain packaging

#### **additional option**

Jede Packung von Tabak- und tabakähnlichen Produkten soll einen Beipackzettel enthalten müssen, der analog zu den Beipackzetteln für Medikamente über alle Risiken und Nebenwirkungen für den Konsumenten wie auch für die Umgebung (Passivraucher) informiert. Auch Schäden für die Umwelt durch den Tabakanbau, Abholzen von Wäldern, wegen Brennholzbedarfs zum Trocknen sollten darin aufgeführt werden müssen. Internetseiten der Hersteller sollen auf der Einstiegsseite einen auffälligen und mit

"Warnhinweise" beschrifteten Link zu einer Seite/Datei enthalten, wo der Beipackzettel angeschaut bzw. heruntergeladen werden kann.

**questions on reporting**

yvonne timp

**email**

yvonne.timp@web.de

**country**

deutschland

**age**

34

**gender**

female

**questions scope****problem definition**

No

**explanations**

das problem wird nicht durch bunte verpackungen ausgelöst - also auch nicht durch einfarbige beseitigt durch änderung der zusatzstoffe findet nur ein umgewöhnungsprozeß statt - und kein abgewöhnungsprozeß

**which option**

No change

**additional comments**

wer rauchen will, wird das immer tun, egal, wie die verpackung aussieht oder ob alle tabakwaren gleich schmecken

**questions smokeless****problem definition**

No

**comments**

das so genannte problem ist meines erachtens vorgeschoben, da die regierung zu viel an der tabaksteuer verdient, als daß es ernsthaft um das vermeidenwollen des rauchens geht an den so genannten elektrozigaretten will der staat doch einfach nur sein stück kuchen abhaben und ärgert sich, daß er geschickt "hintergangen" wurde

**which option**

No change

**questions consumer****problem definition**

No

**explanations**

elektrozigaretten sind produkte, an denen der statt noch nicht verdient, was ihn ärgert - das ist eine billige milchmädchenrechnung und nicht das vermeiden oder regeln des tabakkonsums

**which option**

No change

**additional option**

es sollte sicherlich eine richtlinie oder regelung geben, die den inhalt des rauchlosen zigarettenkonsum vorschreibt, da schnell mißbrauch damit getrieben werden kann

**questions on reporting**

**problem definition**

No

**explanations**

die fragestellung an sich ist doch albern - kein raucher läßt sich von neutralen verpackungen beeinflussen und kein noch-nicht-raucher vom rauchen abschrecken

**which option**

No change

**additional comments**

in der ddr gab es nur wenige sorten zigaretten, deren packungen alle nicht schön aussahen - wieviele hat das vom rauchen abgehalten????!!!

**regulation of ingredients**

**problem definition**

Yes

**which option**

Introducing the basic criteria on the EU level without a common list

**additional comments**

um schlimmeres zu vermeiden, ist es meiner meinung nach sinnvoll, solche inhaltsangaben zu definieren, damit man als raucher auch wenigstens weiß, wie genau man sich womit schädigt

**access to tobacco products**

**problem definition**

No

**explanations**

die inhaltsangabe auf packungen reicht aus - den rest muß jeder volljährige raucher für sich selbst entscheiden

**which option**

No change

---

#### **which improvement**

Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format; Introduce fees and sanctions

**additional options**

Kosten für harmonisierte Untersuchungen und Kosten für die Validierung der toxikologischen Daten müssen von der Tabakindustrie allein getragen und dürfen nicht der Allgemeinheit belastet werden. Insbesondere Verfälschung der Daten, Verzögerung oder Verschleierung der behördlich angeforderten Informationen sollten sanktioniert werden.

**regulation of ingredients****problem definition**

Yes

**which option**

Introducing the basic criteria on the EU level without a common list

**additional option**

Wie misst man die Attraktivität von Zusatzstoffen und ab welcher Stufe (?) der Attraktivität (?) sollte ein Zusatzstoff verboten oder erlaubt werden? Eine gemeinsame Liste, die ohne weitere Hürden auch allen Verbrauchern zur Verfügung stehen muss, sollte genügen.

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Völliges Verbot des grenzüberschreitenden Verkaufs von Tabakerzeugnissen ist nicht sinnvoll.

**additional comments**

Ich bin liberaler Nichtraucher, fühle mich durch Raucher in meiner direkten Umgebung gestört und bin für Aufklärung und gegen Überregulierung.
