

EUROPEAN COMMISSION
DIRECTORATE-GENERAL FOR HEALTH AND FOOD SAFETY

Public health, Cancer and Health Security

2nd Live Webinar of the Thematic Network
**Navigating Health Inequalities in the
EU through Artificial Intelligence**

Monday 27 March, 16.00 – 17.00 CET, Brussels time

Dear colleague,

We invite you to join this webinar.

As part of our Joint Statement's cross-sectoral approach, this webinar presents a unique stakeholders' roundtable discussion that intends to amplify the voices of key population groups and their respective experiences with healthcare in the EU.

A dialogue of this nature contributes to understanding the impact and influence of health inequalities as part of intersectional, lived experiences; and allows us to formulate measured specificity on the use of AI-driven technologies in capacity building, resource pooling, knowledge transfer and exchange, and meaningful engagement with communities that we hope for health AI to serve.

Beyond our Joint Statement's synergies with the existing EU AI regulatory framework, this cross-sectoral approach vis-à-vis the lens of fundamental rights will add richness in reflecting on the wider regulatory conviviality with policy dimensions and recommendations.

This webinar is meant to be interactive, therefore we kindly invite you to navigate through the [EU HEALTH POLICY PLATFORM](#) (registration required), check the Thematic Network on "Navigating Health Inequalities in the EU through Artificial Intelligence" led by Brunel Centre for AI and Health Action International initial proposals and raise your questions at this webinar.

This webinar will be held in English.

Register to this 2nd webinar of the Thematic Network "Navigating Health Inequalities in the EU through Artificial Intelligence" following [this link](#).

Once registered, you will receive the link to join the webinar. Please pin it in your calendar. On the webinar day, please open the calendar invitation and click on "join webinar".

If you have any further questions, please contact sante-hpp@ec.europa.eu

We are looking forward to welcoming you online.
