Live questionnaire on 2 December

What is most important to you about the Cancer Inequalities Registry?

Better standardized and comparable data 76%

How would you like to contribute to the Registry?

Discuss new data needs 84%

How do you see the role of this group? This group should...

...guide the work on the Registry beyond the initial stages 72%

... provide strategic guidance 64%

... propose thematic focus areas 60%

The group should...

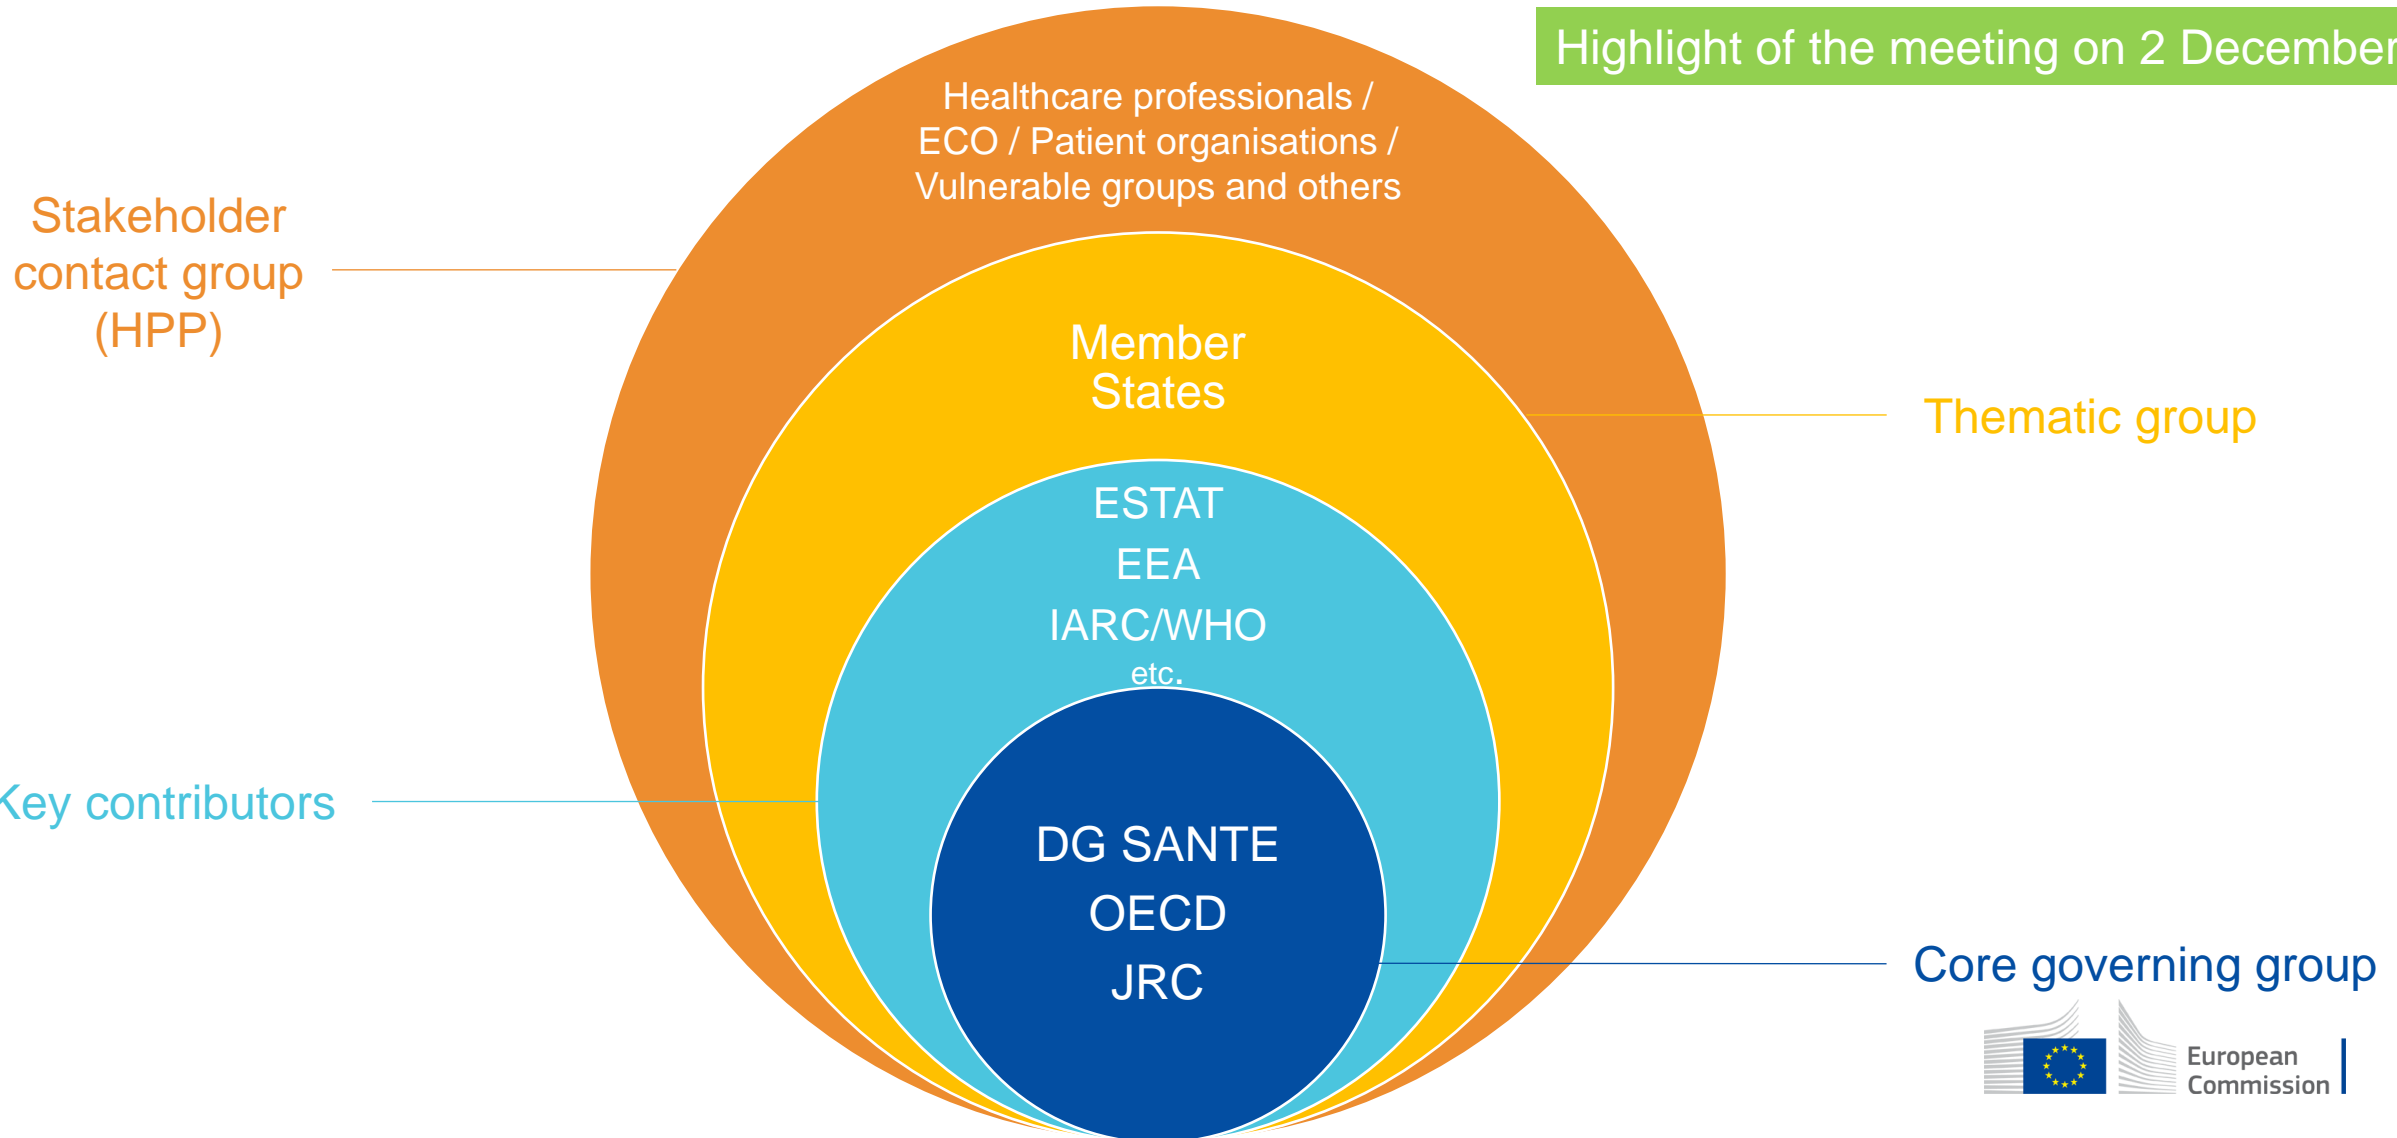

...meet 3 times per year 74%

... have at least one strategic meeting per year 100%

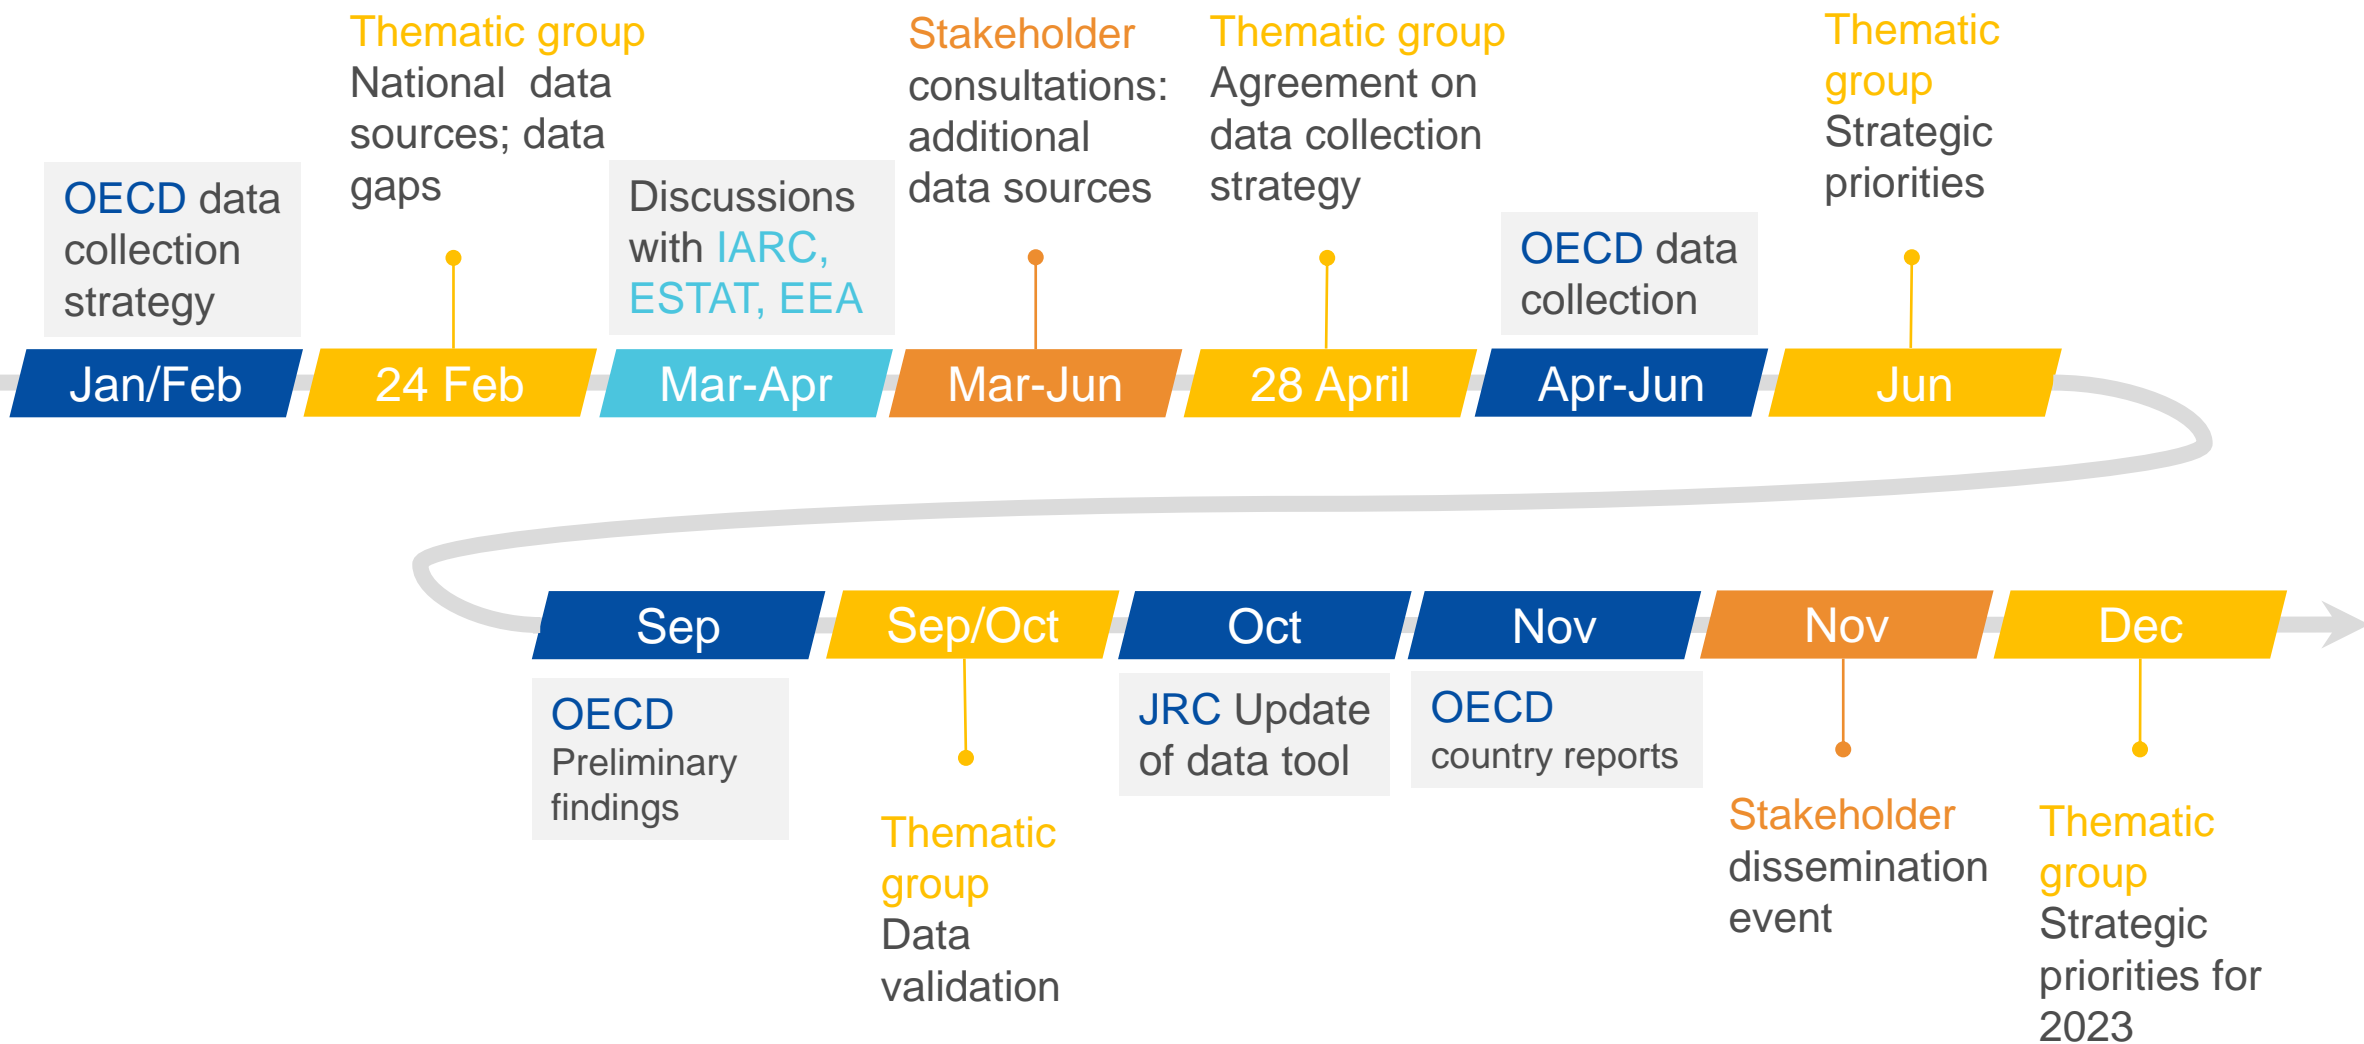

... be part of the data validation 86%

Governance of the Cancer Inequalities Registry

Highlight of the meeting on 2 December

Indicative roadmap 2022

Sneak Preview

The screenshot displays the website for the European Cancer Inequalities Registry. At the top, there is the European Commission logo and the slogan "Live, work, travel in the EU". The main header features the title "European Cancer Inequalities Registry" and a descriptive paragraph: "The European Cancer Inequalities Registry is a flagship initiative of Europe's Beating Cancer Plan. It provides sound and reliable data on cancer prevention and care to identify trends, disparities and inequalities between Member States and regions". Below this is a navigation menu with "Home", "Data tool", "Policy context", "Framework", and "Governance". The "Data tool" is selected, leading to a page titled "Data tool - Explore indicators". This page includes instructions on how to explore inequalities and a note that only country-level inequalities are currently available. Two dropdown menus are present: "Inequality dimensions" set to "Inequalities between countries" and "Europe's Beating Cancer Plan pillars" set to "All cancers mortality". The main content area is titled "All cancers mortality" and includes a sub-heading "Death rate of malignant neoplasms (2018)". Below this is a choropleth map of Europe showing death rates per 100,000 inhabitants. A legend on the left explains the shading, with lighter shades indicating better performance. The legend categories are:

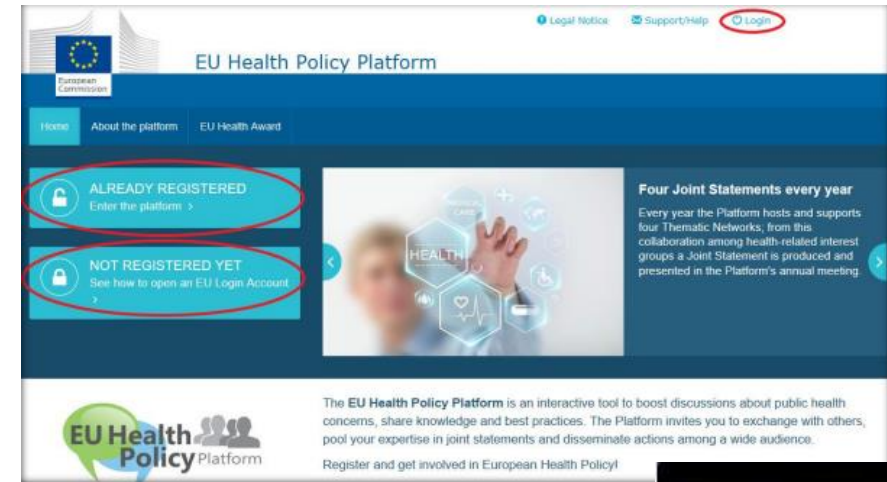

- ≥ 293.9 to 335.6 (darkest orange)
- ≥ 272.7 to 293.8 (dark orange)
- ≥ 241.7 to 272.6 (EU27*: 260.4) (medium orange)
- ≥ 229.8 to 241.6 (light orange)
- ≥ 204.6 to 229.7 (lightest orange)
- Data not available (grey)

Test version
of the data
tool
