## **1. Introduction**

The European Commission is committed to protect your personal data and to respect your privacy. The Commission collects and further processes personal data pursuant to [Regulation \(EU\) 2018/1725](#) of the European Parliament and of the Council on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data.

This privacy statement explains the reason for the processing of your personal data in the context of the online event “EU-US Event on Long COVID” on 13 December 2022, organised by the European Commission. It explains the way we collect, handle and ensure protection of all personal data provided, how that information is used and what rights you have in relation to your personal data. It also specifies the contact details of the responsible Data Controller with whom you may exercise your rights, the Data Protection Officer and the European Data Protection Supervisor.

The information in relation to the processing of personal data linked to meetings and events, organised by *DG for Health and Food Safety* of the European Commission, is presented below.

## **2. Why and how do we process your personal data?**

Purpose of the processing operation: DG for Health and Food Safety of the European Commission collects and further processes your personal data to provide you with information about the specific meeting or event (before, during and after) and to process your application for participation in that meeting or event.

Your personal data will not be used for any automated decision-making including profiling.

Audio-visual recording at the event or meeting of the speakers, organisers and participants, as well as photographs of the speakers and panoramic photographs of participants and organisers will be taken and published in the context of the event or meeting at a site or place indicated in the specific privacy statement linked to the meeting or event.

The audience or non-speaker participants are not photographed individually or in groups. They may however appear on panoramic photographs of the whole event/audience.

Participants that do not wish to be part of the above web-streaming and recording/publishing activities have the possibility to object to processing. They must inform the conference organisers by email ([info@euhealthsupport.eu](mailto:info@euhealthsupport.eu)) before the day of the conference to receive guidance.

## **3. On what legal ground(s) do we process your personal data?**

The processing operations on personal data, linked to the organisation, management, follow-up and promotion of the meeting or event (including web-streaming, photos, audio-visual recording) are necessary for the management and functioning of the Commission, as mandated by the Treaties. Those provisions are in particular, Article 11 of the Treaty on European Union and Article 15 of the Treaty on the Functioning of the European Union.

Consequently, those processing operations are lawful under Article 5(1)(a) of Regulation (EU) 2018/1725 (processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the Union institution or body).

For meetings with external participants (which are not comitology or expert (group) meetings nor other working meetings of Commission staff with the staff of other EU institutions and bodies and Member States), the controller should obtain consent for the processing operations indicated below.

Your consent is required for the following actions:

- the processing of your personal data for inviting you to future events the data controller may organise;

If you opt-in, you are giving us your explicit consent under Article 5(1)(d) of Regulation (EU) 2018/1725 to process your personal data for those specific purposes. You can give your consent via a clear affirmative act by ticking the box(es) on the online registration form.

Your consent for these services can be withdrawn at any time: for withdrawing consent that you have provided in order to benefit from other services, please contact the controller of the meeting/event/webinar at [SANTE-LUX-MEETINGS-EVENTS@ec.europa.eu](mailto:SANTE-LUX-MEETINGS-EVENTS@ec.europa.eu).

The following personal data may be processed in the context of the meeting or event:

- contact details (function/title, first name, last name, name of organisation, city, country, e-mail address, telephone number);

#### **5. How long do we keep your personal data?**

The Data Controller only keeps your personal data for the time necessary to fulfil the purpose of collection or further processing.

For each of the categories of personal data that may be processed, please find below the retention details and the reference to the relevant record of processing:

- Personal data related to the organisation and management of the meeting or event (this includes the information given during the registration, before, during or after the event) will be kept for **five years** after the meeting or event.

- Selected service providers for organisational purposes (such as caterers, travel agents or event management organisations) are contractually bound to process personal data on behalf of and in line with the instructions of the data controller, keep confidential any data they process and protect it from unauthorised access, use and retention.

## 6. How do we protect and safeguard your personal data?

All personal data in electronic format (e-mails, documents, databases, uploaded batches of data, etc.) are stored either on the servers of the European Commission, of its contractor described below, or of the WebEx database as conferencing tool authorised by the Commission. All processing operations are carried out pursuant to [Commission Decision \(EU, Euratom\) 2017/46](#) of 10 January 2017 on the security of communication and information systems in the European Commission.

In order to protect your personal data, the Commission has put in place a number of technical and organisational measures. Technical measures include appropriate actions to address online security, risk of data loss, alteration of data or unauthorised access, taking into consideration the risk presented by the processing and the nature of the personal data being processed. Organisational measures include restricting access to the personal data solely to authorised persons with a legitimate need to know for the purposes of this processing operation.

The Commission's processors (contractors) are bound by a specific contractual clause for any processing operations of your personal data on behalf of the Commission. The processors have to put in place appropriate technical and organisational measures to ensure the level of security, required by the Commission.

## 7. Who has access to your personal data and to whom is it disclosed?

Access to your personal data is provided to the Commission staff responsible for carrying out this processing operation and to other authorised Commission staff according to the "need to know" principle. Such staff abide by statutory, and when required, additional confidentiality agreements.

If the publication of any personal data is foreseen, the privacy statement of the specific meeting or event will explain the extent of the personal data published and the legal basis for it (e.g. consent).

Where necessary, we may also share your information with the following service provider for the purposes of organising the event:

- the EUHealthSupport consortium, led by Nivel (Netherlands institute of health services research), which acts under Specific Contract No 2020 71 08 based on framework Contract No Chafea/2018/Health/03.

These explain each company’s policy of personal data collection and further processing, their use of data, users' rights and the ways in which users can protect their privacy when using those services.

The use of a third party IT tool does not in any way imply that the European Commission endorses them or their privacy policies. In the event that one or more third party IT tools are occasionally unavailable, we accept no responsibility for lack of service due to their downtime.
