- **Watch the recording until 10 March**, available under this [link](#). Use this password to watch it: @HPP\_webinar2022

Description of this webinar:

Political and legal issues linked to financing the development of pharmaceuticals all along their life-cycle.

This third webinar considered political and legal issues linked to financing the development of pharmaceuticals with the underlying goal of discussing options to make access to affordable medicines a reality in the European Union.

It should thus explore potential solutions all along the life-cycle of pharmaceuticals such as EU health budget, research funding, market incentives, cost transparency, health technology assessment, pharmaceutical's prices or joint procurements agreements/joint purchasing.
