

# Integration Project

## Les Jardins de la Méditerranée – Imagine84

As part of the workshop / integration project , Les Jardins de la Méditerranée -Imagine 84 recovers food (intended to be discarded for calibration problem for example) at all production levels of the chain, from producers to central purchasing departments.

These products are then sorted, packaged and shipped throughout France through major national food aid movements (Food Banks, French Red Cross, Relief Populaire, Restos du Coeur, ...)

The main objectives of the site include:

- 1- Fighting against food waste
- 2- Improving the diet of disadvantaged people with increased consumption of fresh fruits and vegetables
- 3- Promoting the professional integration of people far from employment

### **Outcomes/Results:**

As part of the workshop / integration project , Les Jardins de la Méditerranée - Imagine 84 recovers food (intended to be discarded for calibration problem for example) at all production levels of the chain, from producers to central purchasing departments.

These products are then sorted, packaged and shipped throughout France through major national food aid movements (Food Banks, French Red Cross, Relief Populaire, Restos du Coeur, ...)

The main objectives of the site include:

- 1- Fighting against food waste
- 2- Improving the diet of disadvantaged people with increased consumption of fresh fruits and vegetables
- 3- Promoting the professional integration of people far from employment

### **Sorting and packaging workshop:**

1500 Tonnes (or 30 tonnes / week) of products were donated by companies in the fruit and vegetable chain
