

## **NOTE TO THE HEALTH INFORMATION COMMITTEE**

### **Subject: Health information committee website**

As part of the update of the SANCO website, the page for the Health Information Committee has been updated and is available at [http://ec.europa.eu/health/strategy/implementation/hic/index\\_en.htm](http://ec.europa.eu/health/strategy/implementation/hic/index_en.htm). As agreed, this includes the agenda and minutes of previous meetings.

We propose to also put onto this site the meeting documents for each meeting, both in order to assist delegates in preparing for and reviewing meetings, and in order to ensure transparency of the work in this area. This would also avoid large email circulations in advance of the meeting; we would simply circulate the agenda, and notify delegates when new documents were added to the website. Of course, if there are any documents that are confidential and that should not be publicly available, these can be circulated by email as currently, but this has not been the case so far for this group.

Are delegates content for us to make meeting documents available through the website on this basis?

**Action for the Committee:**

	For agreement
