

European Commission

# EU4Health programme for a healthier and safer Union

#EUBudget #EU4Health

EU4Health is an ambitious and dedicated funding programme for 2021-2027 that will ensure a high level of human health protection and pave the way to the Health Union. Its activities are in keeping with the One Health approach bringing together human and animal health and the environment.

EU4Health will invest **€5.3 billion** with the following main objectives:

## Improve and foster health in the Union

Actions on disease prevention, health promotion and for addressing health determinants

Supporting global commitments and health initiatives

## Protect people in the Union from serious cross-border threats to health

Strengthening the capability of the Union for prevention, preparedness and response to cross-border health threats

Supporting actions complementing national stockpiling on essential crisis relevant products

Training a reserve of medical, healthcare and support staff

# Make medicines available and affordable

Encouraging sustainable production, supply chains and innovation in the Union and supporting the prudent and efficient use of medicinal products

# Strengthen health systems, their resilience and resource efficiency

Improving health data and promote the uptake of digital tools and services and the digital transformation of healthcare systems

Promoting the implementation of best practices and data sharing

Improving access to quality, patient-centered, outcome-based healthcare and related care services

Supporting integrated work among national health systems
