

# Mid-term evaluation of the Third Health Programme (2014-2020)

Fields marked with \* are mandatory.

## INTRODUCTION

---

The EU ensures that human health is protected as part of all its policies, and to work with its Member States to improve public health, prevent human illness and eliminate sources of danger to physical and mental health. However, the EU Member States have the primary responsibility for formulating and implementing health policy and delivering healthcare services. The EU's competence only extends to supporting, coordinating or supplementing actions of the Member States.

One of the main ways in which the EU supports, coordinates and supplements actions by the Member States is the third programme for the Union's action in the field of health (2014-2020) (hereinafter: "3HP"). The 3HP provides financial support for actions to address a number of important health-related challenges facing European citizens, governments and health systems. The 3HP supports action across the EU from public authorities, research and health institutions, NGOs, international organisations and – in certain cases – private companies. The total budget for the seven years of its duration is €449.4 million. The 3HP addresses major health challenges facing MS from risk factors (such as use of tobacco and harmful use of alcohol) to chronic and rare diseases, responding to cross border health threats (e.g. Ebola and Zika viruses) as well as ensuring innovation in public health to name just a few areas. For more information on the 3HP, please visit the websites of [DG SANTE](#) or [CHAFEA](#).

This consultation is an opportunity for any interested parties to express their views and opinions on the 3HP. It is a part of the ongoing mid-term evaluation of the 3HP. The consultation covers:

- The objectives and priorities of the 3HP, and the extent to which these are appropriate and in line with health needs in the EU
- The way the 3HP is implemented, and the extent to which this is effective and efficient
- The overall added value and usefulness of the 3HP

The results of the public consultation will be used together with other evidence to inform the mid-term evaluation of the 3HP. The European Commission will publish a Staff Working Document, including a summary of the results of the consultation, in the second half of 2017.

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	Don't know
*The cooperation is essential and should be maintained	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
*The 3HP should be expanded to include other health areas	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
*In practice, the 3HP's results (at least at this mid-term stage) are not visible and the cooperation should be abandoned	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>

**\* 1.8. In your opinion, what do you consider to be the main way(s) in which the 3HP is contributing (or could contribute) to addressing health-related challenges?**

- Supporting regional civil society initiatives regarding new innovative ways of tackling joint health related challenges that otherwise would not be supported at national level;
- Coordinating regional cross-border actions, policies and programmes in health
- Bringing different regional health stakeholders, especially, civil society together
- Funding for cross-border projects, especially for civil society organisations

### 1.9. What are the main aspects (if any) that need to be changed or improved in your opinion?

- Maintain and increase the funding for civil society regional projects
- The development of an integrated EU policy framework on HIV, TB and Hepatitis C with regional and sub-regional strategies to better address cross-border health threats and meet the objectives of the 3rd Health Programme
- For the projects that support cross-border collaboration, geographical area could be extended to cover neighboring countries, especially those in the Eastern Partnership countries, as they're bearing the highest burden of infectious diseases, posing a direct threat to the management of cross border infections. 3HP should promote shared learning between EU and neighboring countries.
- The 3HP should also adapt to a changing political environment where, external development aid for health programmes in Eastern Europe and Central Asia have and are being seriously cut, to address that challenge at political level.
- The 3HP should also build stronger synergies and coherence with other policies of the EU, such as the development and research policies of the EU.

## II. THE 3HP OBJECTIVES AND PRIORITIES

---

The 3HP aims to address a number of important health-related challenges facing EU citizens, governments and health systems. To do this, it pursues a series of objectives and thematic priorities, please see the [factsheet](#) about the 3HP for more information.

**2.1. Do you think the EU should provide funding for actions in order to...?**

**2.2. To what extent do you agree with the following statements about the 3HP?**

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	Don't know

<p>*The 3HP's objectives and priorities are clear and easy to understand</p>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<p>*The 3HP's objectives and priorities are in line with the main health needs in Europe and are appropriate for addressing the key issues and challenges</p>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<p>*The objectives and priorities of the 3HP are consistent with health policy objectives in my country</p>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
<p>*The more explicit consideration of economic resources and constraints in the objectives of the 3HP (compared with its predecessors) is appropriate</p>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<p>*The objectives and priorities of the 3HP are consistent with wider EU policy objectives, including the Europe 2020 strategy</p>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

<p><b>*Overall, the way the 3HP's objectives and priorities have been defined facilitates more focused action than under its predecessors</b></p>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
---	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	----------------------------------

**2.3. If you have any concerns about the relevance and coherence of the 3HP and its objectives, please briefly summarise them here.**

We welcome the fact that HIV/AIDS, Tuberculosis and Hepatitis C are listed as a thematic priority for the 3rd Health Programme, as these three diseases represent major public health threat in Europe. However, there is not a comprehensive policy framework and strategy in place to effectively address these diseases. The EU needs to adopt as a matter of urgency a comprehensive Policy Framework addressing HIV/AIDS, Tuberculosis and Hepatitis C in the EU and in its immediate neighboring countries, such as the Eastern Partnership countries, if it aims to achieve the objectives of the Health for Growth Programmes 2014–2020. Especially in light of important external donor's withdrawal of support to most of those disease specific programmes in many countries in Eastern Europe and Central Asia and specific EU countries, including Romania and Bulgaria.

**2.4. The 3HP contains 23 thematic priorities, gathered under four specific objectives:**

1. Promote health, prevent diseases, and foster supportive environments for healthy lifestyles
2. Protect citizens from serious cross-border health threats
3. Contribute to innovative, efficient and sustainable health systems
4. Facilitate access to better and safer healthcare for EU citizens

**Please select up to five priorities that you consider to be the most important, and up to five that you consider to be not relevant.**

### III. IMPLEMENTATION

---

The 3HP has a total budget of €449.4 million (2014-2020), which is used to support:

- Cooperation projects at EU level (via [project grants](#))
- [Actions](#) jointly undertaken by Member State health authorities
- The functioning of non-governmental bodies (via [operating grants](#))
- Cooperation with international organisations (via direct grants)
- Studies and other service contracts to cover specific needs related to the support of EU health policies

The 3HP is implemented on the basis of Annual Work Programmes developed by the European Commission in consultation with representatives of the countries that participate in the 3HP (via the Programme Committee). An executive agency ([CHAFEA](#)) is responsible for implementing the Programme; its tasks include issuing calls and evaluating proposals, disbursing payments, monitoring actions and disseminating the results. National Focal Points in Member States promote opportunities arising through the Programme. An infographic showing the different roles can be found [here](#).

**3.1. To what extent do you agree with the following statements about the implementation of the 3HP?**

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	Don't know
--	----------------	-------	----------------------------	----------	-------------------	------------

<p>*The types of funding mechanisms used by the 3HP are appropriate to achieve the objectives of the programme</p>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<p>*The prioritised actions in the Annual Work Programme permit the optimal involvement of health actors and stakeholders' groups by making appropriate use of the different funding mechanisms</p>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<p>*The 3HP includes appropriate measures to involve all Member States, including those with lower incomes</p>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<p>*The more explicit consideration of economic resources and constraints in the objectives of the 3HP (compared with its predecessors) is appropriate</p>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<p>*The level of financial support that the 3HP offers is appropriate to address its objectives</p>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>

**3.2. If you have any (additional) concerns about the 3HP and the way in which it is implemented, please briefly summarise them here and provide us with an indication of which area(s) they correspond to (tick all that apply):**

- Eligibility / funding arrangements
- Application process
- Administrative burden
- Dissemination of results
- Other (please specify)

**3.3 To what extent do you agree with the following statement about the level of awareness of the 3HP?**

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	Don't know
*The results of actions funded by the 3HP are sufficiently disseminated and promoted to those who might be able to make use of them	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

**3.4. Do you have other specific views that could not be expressed in the context of your replies to the above questions?**

Administrative burden for CHAFEA project management could be streamlined: first of all, if project has been approved for 3 year period, application process for annual funding should be simplified (a lot of repetitive information has been requested, focus should remain on activity plan rather than background, objectives - as they are already described well in the initial proposal); second, amendment process could be less arduous in terms of time need and technicalities of SyGMA system. The changes in annual activity plan are inevitable, especially, if working in advocacy field. Thirdly, the differences between projects should be taken into account - project focused on advocacy and awareness raising will have different reference points when it comes to monitoring and evaluation than academic cross-border research.
