

BPR Article 65(3) reporting

1. General information

1.1. Member State

For which Member State* are you reporting?

(*In this survey "Member State" refers to EU Member States, Iceland, Liechtenstein, Norway and Switzerland)

- Austria
- Belgium
- Bulgaria
- Croatia
- Cyprus
- Czech Republic
- Denmark
- Estonia
- Finland
- France
- Germany
- Greece
- Hungary
- Iceland
- Ireland
- Italy
- Latvia
- Liechtenstein
- Lithuania
- Luxembourg
- Malta
- Netherlands
- Norway
- Poland
- Portugal
- Romania
- Slovakia
- Slovenia
- Spain
- Sweden
- Switzerland
- United Kingdom

1.2. Contact details of the person responsible for reporting

Name	Organisation	Email address	Telephone number(s)
[REDACTED]	Federal Ministry for Climate Action, Environment, Energy, Mobility, Innovation and Technology	[REDACTED]	[REDACTED]

1.3. Information on the Competent Authority (CA)

1.3.1. Competent Authorities involved in the implementation of the BPR

How many CAs are responsible for the implementation of the BPR in your Member State? Please do not include enforcement authorities here, as they are specifically covered in section 4.

1 - Federal Ministry for Climate Action, Environment, Energy, Mobility, Innovation and Technology (BMK) in cooperation with Environment Agency Austria

1.3.2. Details of the Competent Authorities involved in the BPR implementation

	BPR competent authority involved	Website
Advice to applicants/helpdesks on active substances	BMK / Environment Agency Austria	www.biozide.at
Advice to applicants/helpdesks on biocidal products	BMK / Environment Agency Austria	www.biozide.at

Advice to applicants/helpdesks on treated articles	BMK / Environment Agency Austria	www.biozide.at
Assessment of active substances	BMK / Environment Agency Austria	www.biozide.at
Assessment and authorisation of biocidal products	BMK / Environment Agency Austria	www.biozide.at
Other (e.g. authority in charge of setting up the whole organisational framework for the BPR implementation, of adopting national legislation)	BMK	www.bmk.at

1.3.3. Other bodies involved in the implementation of the BPR

	Authority/organisation involved	Website
Poison centre	Vergiftungsinformationszentrale (VIZ)	https://goeg.at/Vergiftungsinformation
Animal poison centre		
Other		

2. Relevant national measures and Member State specific measures

2.1. Transitional period (Art. 89 BPR)

Do you have specific national measures or legislation for making available on the market of biocidal products during the transitional period?

- Yes
 No

2.2. Applicable fees

Do you have specific national measures or legislation regarding fees for BPR procedures?

- Yes
 No

Please specify below the national regulation(s) and indicate the corresponding link to the relevant website with the requested information. If available in English please include the link to the English version

Biozidproduktegesetz-Gebührentarifverordnung 2014, Bundesgesetzblatt II Nr. 291/2014 <https://www.bmlrt.gv.at/umwelt/chemikalien/Biozide/gebuehrentarifV.html>

2.2.1. Fee amounts

Please provide information on the applicable fees for the procedures listed in the table below

	Fee amount
Evaluation of an active substance for approval	250.000 €
Evaluation of an active substance for Annex I inclusion	74 000 - 160.000 €
Authorisation of a biocidal product (BP)	45 000 €
Authorisation of a BP family	90 000 €
Mutual recognition of an authorisation of a BP	7.700 €
Mutual recognition of an authorisation of a BP family	15.400 €
Union authorisation of a BP	60 000 €
Union authorisation of a BP family	120.000 €
Annual fee	500 - 1.000 €
Other (please specify)	https://www.bmlrt.gv.at/umwelt/chemikalien/Biozide/gebuehrentarifV.html

2.3. Measures in favour of small and medium enterprises (SMEs)

Do you have specific national measures or legislation favouring SMEs?

- Yes
 No

Please specify below the national regulation(s) and refer to the corresponding link of the relevant website with the requested information. If available in English please include the link to the English version

Biozidproduktegesetz-Gebührentarifverordnung 2014, Bundesgesetzblatt II Nr. 291/2014 <https://www.bmlrt.gv.at/umwelt/chemikalien/Biozide/gebuehrentarifV.html>

2.4. Non-compliance and penalties

Do you have specific national measures or legislation concerning non-compliance and penalties applicable for infringements on the implementation of the BPR?

- Yes

Provisional authorisations granted for products containing new active substances (Article 55(2))	0	0	0	0	0	0	0	0	0
--	---	---	---	---	---	---	---	---	---

3.1.2.b. Mutual recognitions - concerned MS

	2013	2014	2015	2016	2017	2018	2019	Total number
Derogations (Article 37)	0	0	0	0	0	0	0	0

3.1.2.c. Authorisations of products containing active substances meeting exclusion criteria (Article 5.2)

	2013	2014	2015	2016	2017	2018	2019	Total number
Total number of applications assessed	0	0	0	0	0	35	16	51
Number of products authorised (conditions met for all or some of the uses)	0	0	0	0	0	35	16	51
Number of products not authorised (conditions not met for any of the uses)	0	0	0	0	0	0	0	0

3.1.2.d. Comparative assessments (Article 23)

	2013	2014	2015	2016	2017	2018	2019	Total number
Total number of applications evaluated	0	0	0	0	0	Comp. ass. for all PT14 conducted by commission	4	4
Number of applications evaluated resulting in a granted authorisation without restrictions	0	0	0	0	0	35	20	55
Number of applications evaluated resulting in restrictions (Article 23(3))	0	0	0	0	0	0	0	0
Number of applications evaluated resulting in restrictions (Article 23(3))								

3.2. Other BPR procedures for biocidal products

The BPR contains specific procedures that allow the making available of the market of products without an authorisation. Please indicate the related information in the tables below.

3.2.a. Derogations pursuant to Article 55(1)

	2013	2014	2015	2016	2017	2018	2019	Total number
Number of requests received	0	0	0	0	0	0	2	2
Permits granted	0	0	0	0	0	0	0	0
Permits not granted	0	0	0	0	0	0	2	2

3.2.b. Research and development (Article 56)

	2013	2014	2015	2016	2017	2018	2019	Total number
Number of notifications received	0	0	0	0	0	1	0	1
Number of prohibitions	0	0	0	0	0	1	0	1

3.3. Number of biocidal products made available on the Member State market authorised under the transitional measures (Article 89)

Please provide the information available, per main group of product-types, on biocidal products made available on the market authorised under transitional measures

	2013	2014	2015	2016	2017	2018	2018	Total number
Main group 1 Disinfectants (PT1 - PT5)	n.a.	n.a.	n.a.	n.a.	n.a.	n.a.	n.a.	n.a.
Main group 2 Preservatives (PT6 - PT13)	n.a.	n.a.	n.a.	n.a.	n.a.	n.a.	n.a.	n.a.
Main group 3 Pest control (PT14 - PT20)	n.a.	n.a.	n.a.	n.a.	n.a.	n.a.	n.a.	n.a.
Main group 4 Other biocidal products (PT21 - PT22)	n.a.	n.a.	n.a.	n.a.	n.a.	n.a.	n.a.	n.a.

4. Information on enforcement activities

4.1. BPR enforcement strategy

Has an overall strategy been implemented in the Member State for the enforcement of the BPR?

- Yes
 No

Please describe it and, if it is publicly available, provide the corresponding link. If available in English please include the link to the English version

The implementation of BPR is enforced by the Federal Ministry of Climate Action, Environment, Energy, Mobility, Innovation and Technology (BMK) in close co-operation with the offices of the regional Governments (Bundesländer).

The controls for the implementation of the BPR as well as the CLP and REACH Regulations are conducted by the Biocides and Chemicals Inspectors of the Bundesländer. Coordination meetings between the BMK and Bundesländer take place on a regular basis, twice a year as a minimum, where the enforcement of the BPR, CLP and REACH Regulations is coordinated. In addition, special enforcement campaigns are carried out for certain main groups of biocidal products on a yearly basis, for example wood preservatives, disinfectants, rodenticides, etc. The reports of these target programs are published after finalisation.

All inspectors are obliged to deliver an annual report on their activities. In the reports the inspectors have to provide detailed information on controls, numbers and types of controls, results, in particular non-compliance incidents on follow-up actions in case of non-compliance. The summary of the reports of the inspectors form the basis of this part of the report.

4.2. Control system in the Member States and results of official controls

Please give a brief overview of the way official controls are carried out in your Member State, with special emphasis on the following processes:

- making available on the market of biocidal products;
- use of biocidal products;
- placing on the market of treated articles

Control schedules for the making available on the market and use of biocidal products are designed by the biocides inspectors of the Bundesländer. The Control schedules also cover treated articles.

The companies to be monitored are selected by the inspectors in cooperation with the BMK; the inspection plans are designed during the coordination meetings as the general Austrian biocides chemical inspection plan. The market participants for controls are selected on the basis of a risk-based approach which ensures that the most important manufacturers, importers, wholesalers and distributors are checked systematically. In addition, controls are carried out randomly, in particular for retailers and users. In order to increase the statistical significance of the samples, an attempt is made to include, as far as possible, all sectors involved in the trade of biocidal products. In particular, manufacturers of disinfectants, protective agents, paints and varnishes, building materials dealers, hardware stores, retailers and warehouses are checked, as well as the supply chain. This approach is used in order to control as many market participants as possible.

In selected cases, samples are taken and sent to the Federal Environment Agency to determine the chemical composition, in particular the content of active substances. The intervals between the controls are determined by the Bundesländer. Companies which have been found in non-compliance in the past are being increasingly examined.

4.3. Enforcement authorities involved in official controls

Please provide the denomination of the enforcement authorities involved in official controls. If applicable, please also provide the links to the relevant websites

	BPR enforcement authority(ies) involved	Website
Controls on placing and making biocidal products available on the market	Amt der Burgenländischen Landesregierung, Amt der Kärntner Landesregierung, Amt der Niederösterreichischen Landesregierung, Amt der Oberösterreichischen Landesregierung, Amt der Salzburger Landesregierung, Amt der Steiermärkischen Landesregierung, Amt der Tiroler Landesregierung, Amt der Vorarlberger Landesregierung, Amt der Wiener Landesregierung	https://www.burgenland.at/ https://www.ktn.gv.at/ https://www.noel.gv.at/noe/index.html https://www.land-oberoesterreich.gv.at/ https://www.salzburg.gv.at/ https://www.verwaltung.steiermark.at/ https://www.tirol.gv.at/ https://vorarlberg.at/web/land-vorarlberg/ https://www.wien.gv.at/
Controls on placing on the market of treated articles	Amt der Burgenländischen Landesregierung, Amt der Kärntner Landesregierung, Amt der Niederösterreichischen Landesregierung, Amt der Oberösterreichischen Landesregierung, Amt der Salzburger Landesregierung, Amt der Steiermärkischen Landesregierung, Amt der Tiroler Landesregierung, Amt der Vorarlberger Landesregierung, Amt der Wiener Landesregierung	https://www.burgenland.at/ https://www.ktn.gv.at/ https://www.noel.gv.at/noe/index.html https://www.land-oberoesterreich.gv.at/ https://www.salzburg.gv.at/ https://www.verwaltung.steiermark.at/ https://www.tirol.gv.at/ https://vorarlberg.at/web/land-vorarlberg/ https://www.wien.gv.at/

4.3.1. Complaints

Have there been complaints (information about suspected infringements of the BPR rules) received by enforcement authorities in relation to the implementation of the BPR?

	2013	2014	2015	2016	2017	2018	2019	Total number
Number of complaints	4	27	23	36	20	25	33	168

4.4. Controls addressing different parts of the supply chain

The reporting Member State is requested to provide information on the official controls on the implementation of the BPR that have been performed since the entry into force of the Regulation.

Please provide below the information available on the official controls performed with a focus on the following information, where available: number of controls performed, resources used, outcome of controls (in terms of number and type of non-compliances)

4.4.1. Official controls on compliance with BPR rules for making available on the market of biocidal products

- (Total number of) controls on biocidal products made available on the market / (Number of) illegal products made available and points of non-compliance

2438 / 270

In general the controls consist of several parts:

control on the active substance status (Art. 19, 25 or 89 BPR), control on packaging, classification and labelling (Art. 69), control on the safety data sheet (Art. 70), and control on advertisement (Art. 72). The other obligations (use, Art. 68, Art. 95) are checked if applicable, depending on the status of the Company - manufacturer, supply chain or user.

If detailed figures are available please provide them in the table below

Controls on biocidal products - Total number of controls per year and non-compliances (NC) identified

	Total 2013	NC 2013	Total 2014	NC 2014	Total 2015	NC 2015	Total 2016	NC 2016	Total 2017	NC 2017	Total 2018	NC 2018	Total 2019	NC 2019

5. Poisoning incidents

5.1. Poisonings involving biocidal products, severity of the impact

Please provide below an overview of the information reported since the entry into operation of BPR on poisoning incidents involving biocidal products, indicating the active substances and product-types most frequently involved and those involved in incidents resulting in severe health impairments or death (fatal or near fatal incidents)

Only one near fatal incident was recorded, the product contained peracetic Acid.

If detailed figures are available please provide them in the table below

Number of poisoning incidents related to biocidal products per year by poisoning severity

	2013 Fatal/near fatal	2013 Other	2014 Fatal/near fatal	2014 Other	2015 Fatal/near fatal	2015 Other	2016 Fatal/near fatal	2016 Other	2017 Fatal/near fatal	2017 Other	2018 Fatal/near fatal	2018 Other	2019 Fatal/near fatal	2019 Other
MG 1 Disinfectants	0	19	1	21	0	22	0	45	0	55	0	item 9	0	item 9
MG 2 Preservatives	0	1	0	2	0	3	0	2	0	3	0		0	
MG 3 Pest control	0	1	0	1	0	1	0	3	0	2	0		0	

MG 4 Other biocidal products	0	0	0	0	0	0	0	0	0	0	0	0	0	0
------------------------------	---	---	---	---	---	---	---	---	---	---	---	---	---	---

6. Helpdesk functioning

Please fill in the following table the information regarding the number of enquiries that Helpdesks receive per year.

Note: if your system does not differentiate the queries according to their topic (active substances, biocidal products, treated articles) please indicate the total number of queries per year in the last row.

	2013	2014	2015	2016	2017	2018	2019
Number of enquiries on active substances	11	24	18	10	13	5	18
Number of enquiries on biocidal products	88	184	170	128	179	211	252
Number of enquiries on treated articles	0	2	3	0	0	0	1
Total number of enquiries per year	99	210	191	138	192	216	271

6.1. Advice to small and medium-sized enterprises (SMEs)

Following Article 81(2) of the BPR, competent authorities have to provide advice to the applicants and in particular to SMEs.

Does your Member State provide specific advice to SMEs?

- Yes
 No

Please indicate how the advice is customized for the needs of SMEs and refer to the corresponding links of the relevant websites for information

The specific advice is given by the Helpdesk and in presubmission meetings. SMEs are also allowed to pay their fees in up to five installments provided that the total amount exceeds 50.000 €

7. Sustainable use measures

In accordance with Article 18 of the BPR, a Commission Report on the sustainable use of biocidal products was submitted to the European Parliament and the Council in 2016, compiling the information provided by Member States. Please find below some questions that are requested in order to follow-up on this report.

7.1. Availability of Best Practices Documents in the Member States

Are Best Practices Documents used or developed for reducing the use of biocidal products to a minimum or for using biocides with less impact on human health and the environment?

- Yes
 No

7.2. Availability of certifications or training schemes for professional users

Are certification procedures or training schemes in place (organised by e.g. eCAs, public authorities, sector organisations) for professional users of biocidal products?

- Yes
 No
 Not anymore

7.3. Information to the public

Have measures been taken to provide the public with appropriate information about benefits and risks associated with biocidal products and ways of minimising their use? (Article 17(5) of the BPR)

- Yes
 No

Please specify which kind of information is available in your Member State (e.g. information campaigns, regulatory measures) and include the corresponding links of the relevant websites with information.

	Type of measure	Year	Details
1	Disinfectants Network	2016	Information Network for experts and Stakeholders https://www.biozide.at/ms/biozide/home/biozide_desnet/index.html
2	WIDES database	2013	https://www.wien.gv.at/umweltschutz/oekokauf/desinfektionsmittel/
3			
4			

7.4. Measures to address the risk related to the use of biocidal products

Have measures been taken to address the risks related to the use of biocidal products in specific areas such as schools, workplaces, kindergartens or public spaces?

- Yes
- No

Please specify which kind of information is available in your Member State (e.g. information campaigns, regulatory measures) and refer to the corresponding links of the relevant websites with information.

	Type of measure	Year	Area covered	Details
1	Creosote strategy	2018	Wood preservatives with AS creosote	https://www.biozide.at/ms/biozide/de/biozidprodukte/kreosot/index.html
2	Rodentizide strategy	2018	Rodentizides	https://www.bmlrt.gv.at/umwelt/chemikalien/Biozide/Vorschriften_Rodentizide.html
3	Information on permanent baiting	2018	Rodentizides	https://www.biozide.at/ms/biozide/de/biozidprodukte/permanent/index.html
4	WIDES database	2013	Disinfectants	https://www.wien.gv.at/umweltschutz/oekokauf/desinfektionsmittel/

8. Nanomaterials

Please provide information regarding the use of nanomaterials in biocidal products (Articles 19 and 69 of the BPR), per main group of product-types

MG 1 Disinfectants

	Product name	Nanomaterial	Brief explanations	Safety measures (Yes/No)	Year
1	nil				
2					
3					
4					

MG 2 Preservatives

	Product name	Nanomaterial	Brief explanations	Safety measures (Yes/No)	Year
1	nil				
2					
3					
4					

MG 3 Pest control

	Product name	Nanomaterial	Brief explanations	Safety measures (Yes/No)	Year
1	nil				
2					
3					
4					

MG 4 Other biocidal products

	Product name	Nanomaterial	Brief explanations	Safety measures (Yes/No)	Year
1	nil				
2					
3					
4					

9. Any other comment

Additional information on item 5 (poisoning incidents): data for 2018 and 2019 are currently finalised. For 2018 the Minimum number of incidents is 11, further 63 cases are currently investigated. The number of incidents in 2019 was in a similar range. In both years, there was no fatal or nearly fatal incident. We will provide the final data as soon as possible.
