LESSONS LEARNT?

RE-BUILDING HEALTH SYSTEMS?

Basic but rtechnically sound....

A clinic with local triage caring for 30.000 people in a suburb of Monrovia

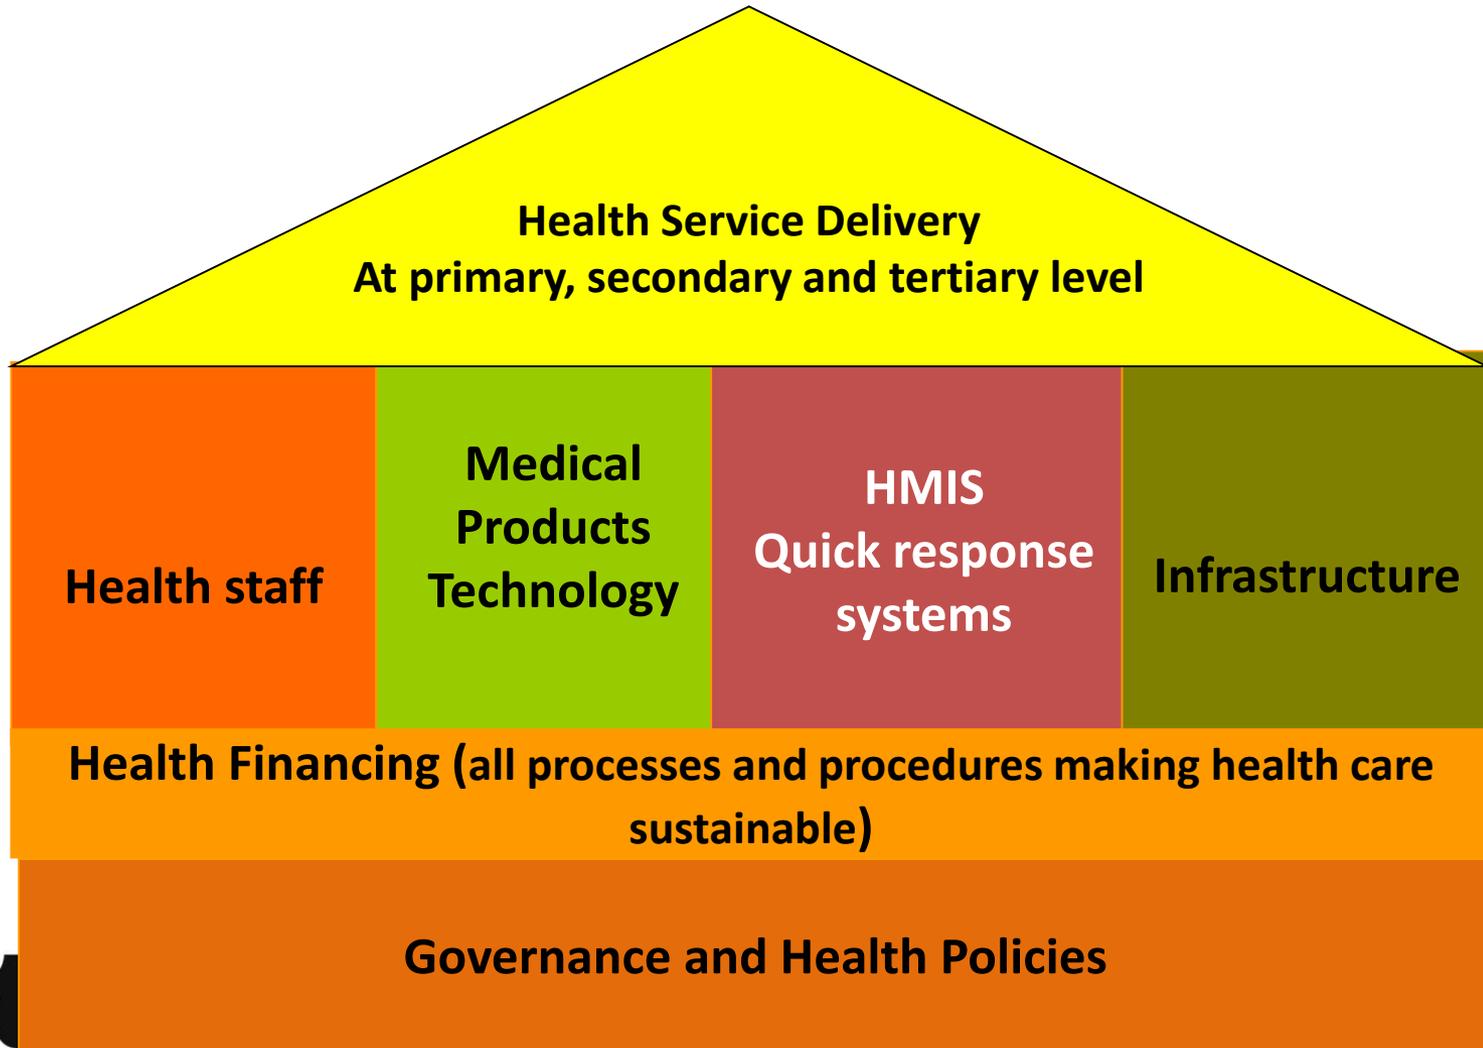

Regaining Trust in communities

1978 Alma Ata Declaration Primary Health Care

Point 5. PHC is essential HC based on

- Practical, scientifically sound and socially acceptable methods that are
- **Universally accessible** to individuals and families in the **community through their full participation** and at a **cost** that the community and country can **afford to maintain** at every stage of their development in a spirit of self reliance and **self determination** and forms a part of the countries **health system...**

Health System

Hand Washing...

- „We have no gloves or running water, how shall we implement IPC?“

Level of Triage

What level of triage is needed in the post Ebola period?

No triage or IPC

Basic screening
temp and
handwashing

washing,
thermometer

Maximum
protection: Full
screening and
referral centre:

Level of screening
Triage, hand
sprayers,
explicit
centre
attached
and doing

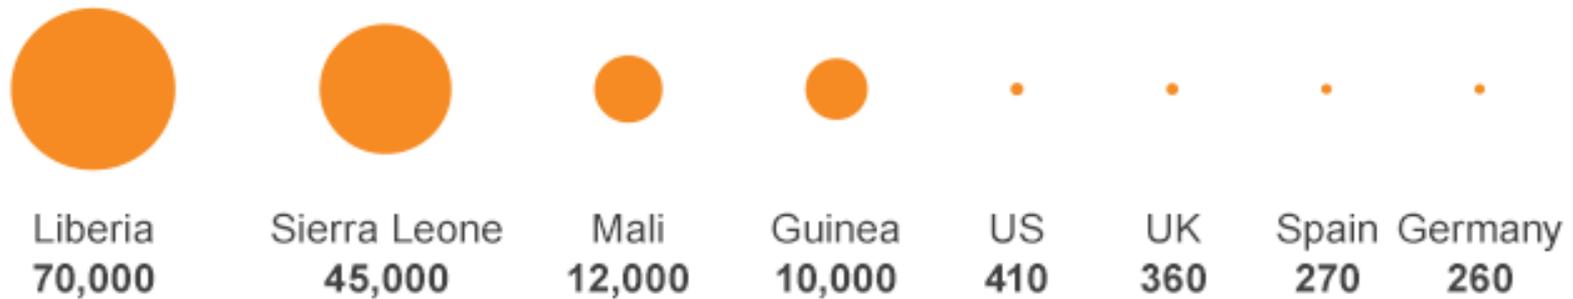

Functional System at all levels

The core of the system: Health Workers!

Number of people for every doctor

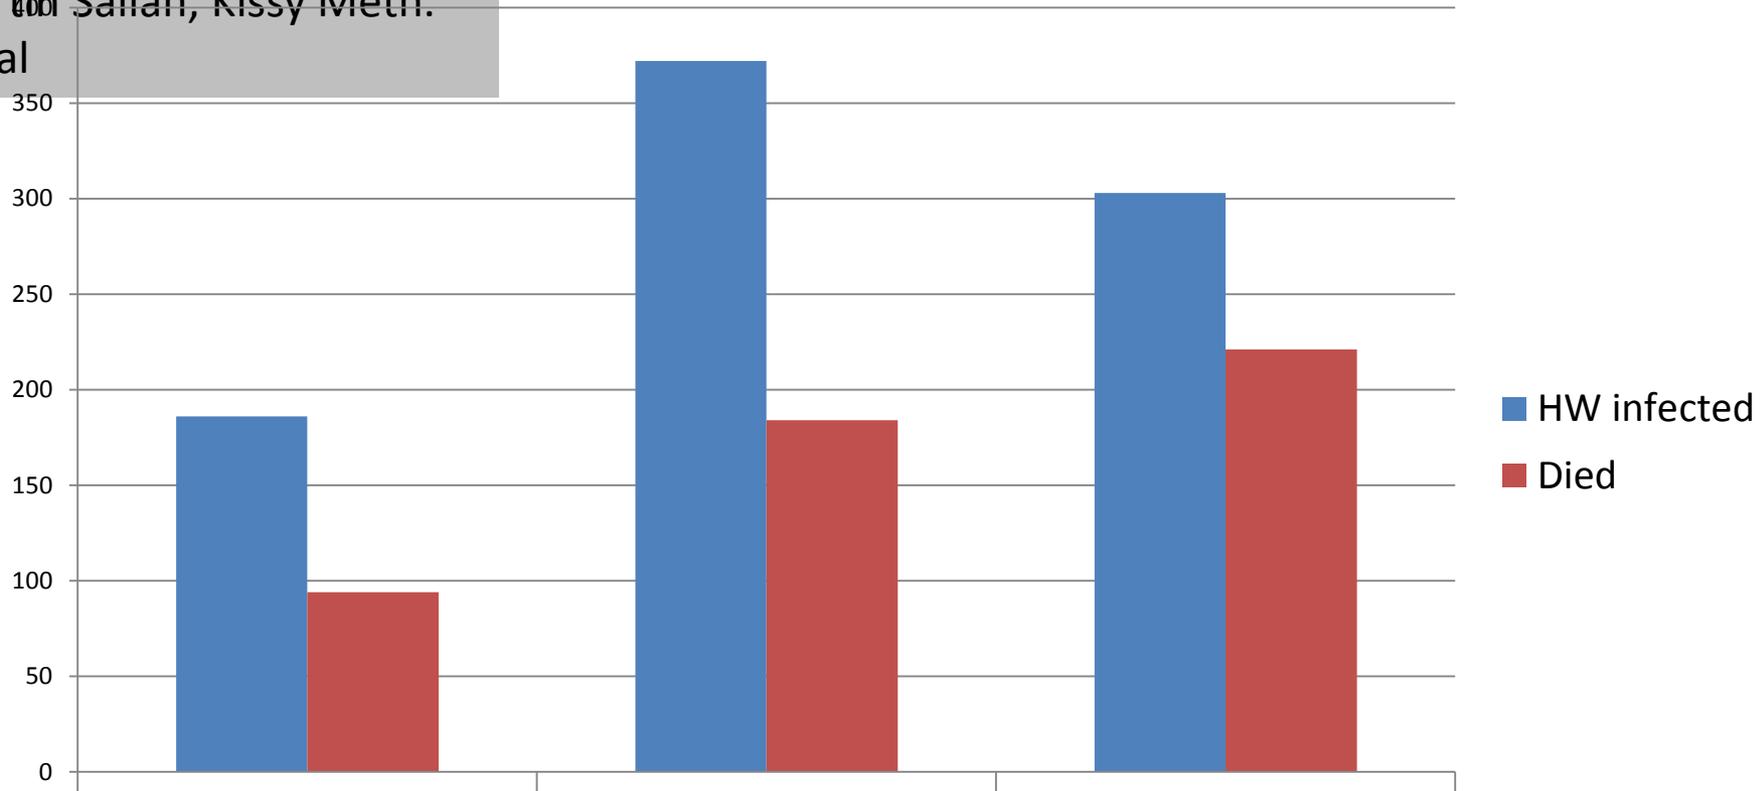

Source: World Bank

Health Workers affected

Dr Martin Saliah, Kissy Meth. Hospital

Guinea

Liberia

Sierra Leone

„Training and Triage has taken away 85% of our fear“

„with the rest fear we need to work...“

Developing human resources...

People – the greatest asset

SUSTAINING HEALTH SERVICES?

Will we learn from the Ebola Crisis?

- Yes we must...
- Building sustainable and resilient health systems
- Not for people but with people
- Including all players and stakeholders and the Ebola survivors

**MERCI BEAUCOUP
THANK YOU**
