

#EUHPP LIVE WEBINAR

Shared-decision making in Geriatric Oncology

16 OCTOBER 2023, 14.00 - 15.30 CEST, BRUSSELS TIME

Dear colleague,

We invite you to join this #EUHPP Live Webinar co-organised with ACF and SIOG.

Health literacy, patient empowerment, shared decision-making (SDM) and patient empowerment are major buzzwords today. For the Anticancer Fund (ACF) and the International Society of Geriatric Oncology (SIOG), however, these represent the cornerstones of a successful, efficient and effective patient-centred healthcare. All patients have the right to receive accurate information about their cancer, their different treatment options and the potential side effects.

The Anticancer Fund (ACF) and International Society of Geriatric Oncology (SIOG) are therefore pleased to announce their first collaborative event in 2023. We will be hosting an interactive webinar on shared-decision making (SDM) and patient empowerment within the geriatric population. We'll talk about the importance and unique characteristics of SDM and challenge all healthcare professionals (HCP) working with elderly cancer patients and their relatives to actively engage them. The team of the My Cancer Navigator information service will illustrate the value and benefit of reliable information when it comes to taking real steps in bettering cancer care.

Register to this webinar following [this link](#).

Once registered, you will receive the calendar invitation from Webex. Please pin it in your calendar and go back to it on the webinar day.

This webinar will be held in English

If you have any further questions, please contact sante-hpp@ec.europa.eu

We are looking forward to welcoming you online.
