

EUROPEAN COMMISSION
DIRECTORATE-GENERAL FOR HEALTH AND FOOD SAFETY

Public Health, Cancer and Health security

Webinar
March 17th 11:00-12:45 CET

Dear colleague,

We invite you to join this webinar of the Thematic Network on HIV, TB, viral hepatitis, and STIs.

This webinar will provide evidence-based insights on stigma and discrimination faced by people living with HIV (PLHIV) and key populations; as well as lived experiences of community speakers on how stigma and discrimination affect their quality of life and their access to health services.

Speakers will discuss how political determinants, such as punitive laws and policies, hinder key populations from fully exercising their human rights and living a life free of stigma and discrimination. They will make recommendations on how to improve the current situation and outline good practices to be considered by different policymakers, healthcare providers, and organisations representing affected communities, health authorities, and funders.

The webinar will contribute to the development of a Joint Statement highlighting good and promising practices that should be scaled up in order to reach the relevant Sustainable Development Goals and other global and regional targets.

If you have any further questions, please contact sante-hpp@ec.europa.eu

Register to this webinar following [this link](#).

Once registered, you will receive the calendar invitation from Webex. Please pin it in your calendar and go back to it on the webinar day and click on “join webinar”.

This webinar will be held in English

We are looking forward to welcoming you online.

The EU Health Policy Platform team
