

BPR Article 65(3) reporting

1. General information

1.1. Member State

For which Member State* are you reporting?

(*In this survey "Member State" refers to EU Member States, Iceland, Liechtenstein, Norway and Switzerland)

- Austria
- Belgium
- Bulgaria
- Croatia
- Cyprus
- Czech Republic
- Denmark
- Estonia
- Finland
- France
- Germany
- Greece
- Hungary
- Iceland
- Ireland
- Italy
- Latvia
- Liechtenstein
- Lithuania
- Luxembourg
- Malta
- Netherlands
- Norway
- Poland
- Portugal
- Romania
- Slovakia
- Slovenia
- Spain
- Sweden
- Switzerland
- United Kingdom

1.2. Contact details of the person responsible for reporting

Name	Organisation	Email address	Telephone number(s)
	The Health and Safety Executive (HSE)		

1.3. Information on the Competent Authority (CA)

1.3.1. Competent Authorities involved in the implementation of the BPR

How many CAs are responsible for the implementation of the BPR in your Member State? Please do not include enforcement authorities here, as they are specifically covered in section 4.

One - The Health and Safety Executive (HSE)

1.3.2. Details of the Competent Authorities involved in the BPR implementation

	BPR competent authority involved	Website
Advice to applicants/helpdesks on active substances	HSE	https://www.hse.gov.uk/biocides/
Advice to applicants/helpdesks on biocidal products	HSE	https://www.hse.gov.uk/biocides/
Advice to applicants/helpdesks on treated articles	HSE	https://www.hse.gov.uk/biocides/
Assessment of active substances	HSE	https://www.hse.gov.uk/biocides/
Assessment and authorisation of biocidal products	HSE	https://www.hse.gov.uk/biocides/
Other (e.g. authority in charge of setting up the whole organisational framework for the BPR implementation, of adopting national legislation)	HSE	https://www.hse.gov.uk/biocides/

1.3.3. Other bodies involved in the implementation of the BPR

	Authority/organisation involved	Website
Poison centre	The National Poisons Information Service	http://www.npis.org/
Animal poison centre		
Other		

2. Relevant national measures and Member State specific measures

2.1. Transitional period (Art. 89 BPR)

Do you have specific national measures or legislation for making available on the market of biocidal products during the transitional period?

- Yes
 No

Please specify below the national regulation(s) and/or requirement(s) during the transitional period or refer to the corresponding link of the relevant website with the requested information. If available in English please include the link to the English version.

Please also indicate whether such regulation(s) and/or requirement(s) changed during the reporting period.

The Control of Pesticides Regulations (COPR) - no changes during reporting period.
<https://www.hse.gov.uk/biocides/copr/index.htm>
<https://www.hse.gov.uk/biocides/copr/approvals.htm>
<https://www.hse.gov.uk/biocides/copr/copr.htm>
<https://www.hse.gov.uk/biocides/copr/application.htm>

2.2. Applicable fees

Do you have specific national measures or legislation regarding fees for BPR procedures?

- Yes
 No

Please specify below the national regulation(s) and indicate the corresponding link to the relevant website with the requested information. If available in English please include the link to the English version

The Health and Safety and Nuclear (Fees) Regulations 2016
<http://www.legislation.gov.uk/ukxi/2016/253/contents>
<https://www.hse.gov.uk/biocides/eu-bpr/fees.htm>
<https://www.hse.gov.uk/biocides/eu-bpr/example-fees.htm>

2.2.1. Fee amounts

Please provide information on the applicable fees for the procedures listed in the table below

	Fee amount
Evaluation of an active substance for approval	£465 per person per day worked
Evaluation of an active substance for Annex I inclusion	£465 per person per day worked
Authorisation of a biocidal product (BP)	£409 per person per day worked
Authorisation of a BP family	£409 per person per day worked
Mutual recognition of an authorisation of a BP	£409 per person per day worked
Mutual recognition of an authorisation of a BP family	£409 per person per day worked
Union authorisation of a BP	£409 per person per day worked
Union authorisation of a BP family	£409 per person per day worked
Annual fee	None
Other (please specify)	Evaluation of an active substance for renewal: £465 per person per day worked Meetings with applicants: £465 per person per day worked Simplified authorisation of a BP: £409 per person per day worked Renewal of an authorisation: £409 per person per day worked Changes to an authorisation: £409 per person per day worked Parallel trade permit: £409 per person per day worked Article 55(1) derogation: £409 per person per day worked

2.3. Measures in favour of small and medium enterprises (SMEs)

Authorisations granted on the basis of Article 19(5)	0	0	0	0	0	139	3	142
Provisional authorisations granted for products containing new active substances (Article 55(2))	0	0	0	0	0	0	0	0

3.1.2.b. Mutual recognitions - concerned MS

	2013	2014	2015	2016	2017	2018	2019	Total number
Derogations (Article 37)	Information not available	Information not available	Information not available	Information not available	Information not available	Information not available	Information not available	Information not available

3.1.2.c. Authorisations of products containing active substances meeting exclusion criteria (Article 5.2)

	2013	2014	2015	2016	2017	2018	2019	Total number
Total number of applications assessed	0	0	0	0	0	139	3	142
Number of products authorised (conditions met for all or some of the uses)	0	0	0	0	0	139	3	142
Number of products not authorised (conditions not met for any of the uses)	0	0	0	0	0	0	0	0

3.1.2.d. Comparative assessments (Article 23)

	2013	2014	2015	2016	2017	2018	2019	Total number
Total number of applications evaluated	0	0	0	0	0	139	3	142
Number of applications evaluated resulting in a granted authorisation without restrictions	0	0	0	0	0	139	3	142
Number of applications evaluated resulting in restrictions (Article 23(3))	0	0	0	0	0	0	0	0
Number of applications evaluated resulting in restrictions (Article 23(3))	0	0	0	0	0	0	0	0

3.2. Other BPR procedures for biocidal products

The BPR contains specific procedures that allow the making available of the market of products without an authorisation. Please indicate the related information in the tables below.

3.2.a. Derogations pursuant to Article 55(1)

	2013	2014	2015	2016	2017	2018	2019	Total number
Number of requests received	0	0	0	0	0	0	2	2
Permits granted	0	0	0	0	0	0	1	1
Permits not granted	0	0	0	0	0	0	0	0

3.2.b. Research and development (Article 56)

	2013	2014	2015	2016	2017	2018	2019	Total number
Number of notifications received	4	10	15	10	20	19	12	90
Number of prohibitions	0	0	0	0	0	3	0	3

3.3. Number of biocidal products made available on the Member State market authorised under the transitional measures (Article 89)

Please provide the information available, per main group of product-types, on biocidal products made available on the market authorised under transitional measures

	2013	2014	2015	2016	2017	2018	2018	Total number
Main group 1 Disinfectants (PT1 - PT5)	14	33	23	25	27	42	32	196
Main group 2 Preservatives (PT6 - PT13)	4	21	49	76	14	12	14	190
Main group 3 Pest control (PT14 - PT20)	44	70	94	102	56	58	76	490
Main group 4 Other biocidal products (PT21 - PT22)	2	15	15	15	59	6	0	112

4. Information on enforcement activities

4.1. BPR enforcement strategy

Has an overall strategy been implemented in the Member State for the enforcement of the BPR?

- Yes
 No

Please describe it and, if it is publicly available, provide the corresponding link. If available in English please include the link to the English version

In the UK BPR is enforced by a number of authorities as described on our website - <https://www.hse.gov.uk/biocides/enforcement.htm>. We operate in a proportionate and pragmatic way in line with HSE's Enforcement Policy Statement and Enforcement Management Model - <https://www.hse.gov.uk/enforce/>

The strategy is designed to ensure that high standards of compliance with Biocides are achieved and maintained, but in ways which minimise the burden of verifying compliance for both businesses and for public authorities. The overall strategy is to create and operate enforcement processes that make best use of the skills of enforcing authorities' staff to secure compliance, using two principal approaches: (i) the provision of education, advice and help to dutyholders, and the promotion of Biocides, as increased awareness and understanding will lead to increased levels of compliance; and (ii) the use of a range of interventions (both proactive and reactive), backed up by formal enforcement where necessary. The principal focus of interventions should be on those provisions which are most important to enforce in order to make Biocides work effectively (such provisions are listed in the Strategy document). The term "enforcement" is used in a broad sense and encompasses a number of different interventions aimed at securing compliance.

The UK operates an intelligence led, risk based approach effectively targets risks arising from failures to comply with the duties imposed by Biocides. Interventions are planned and delivered according to published procedures and standards for the conduct of investigation and enforcement actions.

The UK has laid down rules on penalties applicable to infringements of Biocides and provided for appropriate measures to ensure that they are implemented in line with HSE enforcement policy: ensuring that duty holders take action to deal immediately with serious risks; promoting and achieving sustained compliance with the law; and ensure that duty

holders who breach their legal requirements are held to account This is informed by published principles which apply both to enforcement in particular cases and to the health and safety enforcing authorities' management of enforcement activities as a whole. Proportionality - relating enforcement action to the risks.

Targeted - primarily on those whose activities give rise to the most serious risks or where the hazards are least well controlled; and that action is focused on the duty holders who are responsible for the risk and who are best placed to control it.

Consistency of approach - taking a similar approach in similar circumstances to achieve similar ends.

Transparency - helping duty holders to understand what is expected of them and what they should expect from the enforcing authorities. It also means making clear to duty holders not only what they have to do, but where this is relevant, what they don't. That means distinguishing between statutory requirements and advice or guidance about what is desirable but not compulsory.

Accountable - enforcing authorities have policies and standards (such as the enforcement principles above) against which they can be judged, and an effective and easily accessible mechanism for dealing with issues and handling complaints.

4.2. Control system in the Member States and results of official controls

Please give a brief overview of the way official controls are carried out in your Member State, with special emphasis on the following processes:

- making available on the market of biocidal products;
- use of biocidal products;
- placing on the market of treated articles

Broadly, with respect to making available, there are 2 main Enforcing authorities for Biocides in the UK, HSE who deal with the wholesale of Biocidal Products and Local Authorities who deal with retail. Treated Articles are enforcement in this way also. Office of Rail and Road (on roads and railways) have limited powers.

With respect to use the split between HSE and Local Authorities is as per the Enforcing Authority Regs - <https://www.hse.gov.uk/foi/internalops/og/og-00073-appendix1.htm>

4.3. Enforcement authorities involved in official controls

Please provide the denomination of the enforcement authorities involved in official controls. If applicable, please also provide the links to the relevant websites

	BPR enforcement authority(ies) involved	Website
Controls on placing and making biocidal products available on the market	HSE Local Authorities Office of Rail and Road	https://www.hse.gov.uk/ https://www.gov.uk/find-local-council https://orr.gov.uk/
Controls on placing on the market of treated articles	HSE Local Authorities Office of Rail and Road	https://www.hse.gov.uk/ https://www.gov.uk/find-local-council https://orr.gov.uk/

4.3.1. Complaints

Have there been complaints (information about suspected infringements of the BPR rules) received by enforcement authorities in relation to the implementation of the BPR?

	2013	2014	2015	2016	2017	2018	2019	Total number
Number of complaints	0	78	47	78	47	59	71	380

4.4. Controls addressing different parts of the supply chain

The reporting Member State is requested to provide information on the official controls on the implementation of the BPR that have been performed since the entry into force of the Regulation.

Please provide below the information available on the official controls performed with a focus on the following information, where available: number of controls performed, resources used, outcome of controls (in terms of number and type of non-compliances)

4.4.1. Official controls on compliance with BPR rules for making available on the market of biocidal products

- (Total number of) controls on biocidal products made available on the market / (Number of) illegal products made available and points of non-compliance

MG 4 Other biocidal products	Information not available	Information not available	Information not available	Information not available	Information not available	Information not available	Information not available	Information not available	Information not available	Information not available	Information not available	Information not available	Information not available	Information not available
-------------------------------------	---------------------------	---------------------------	---------------------------	---------------------------	---------------------------	---------------------------	---------------------------	---------------------------	---------------------------	---------------------------	---------------------------	---------------------------	---------------------------	---------------------------

4.4.3. Official controls on manufacturers

- **Controls regarding the availability of the appropriate documentation in relation to the manufacturing process**, as indicated in article 65 (2) of the BPR

We have not undertaken any investigations of this duty in the reporting period.

If detailed figures are available please provide them in the table below

Controls regarding the availability of the appropriate documentation related to the manufacturing process - Total number of controls per year and non-compliances (NC) identified

	Total 2013	NC 2013	Total 2014	NC 2014	Total 2015	NC 2015	Total 2016	NC 2016	Total 2017	NC 2017	Total 2018	NC 2018	Total 2019	NC 2019
MG 1 Disinfectants	0	0	0	0	0	0	0	0	0	0	0	0	0	0
MG 2 Preservatives	0	0	0	0	0	0	0	0	0	0	0	0	0	0
MG 3 Pest control	0	0	0	0	0	0	0	0	0	0	0	0	0	0
MG 4 Other biocidal products	0	0	0	0	0	0	0	0	0	0	0	0	0	0

4.4.4. Official controls on end-users and residues

- **Controls regarding the use of the biocidal products according to the terms and conditions of the authorisation**, as stipulated in article 17(5) of the BPR

We have not investigated this duty in the reporting period.

If detailed figures are available please provide them in the table below

Controls regarding the use of the biocidal products according to the terms and conditions of the authorisation - Total number of controls per year and non-compliances (NC) identified

	Total 2013	NC 2013	Total 2014	NC 2014	Total 2015	NC 2015	Total 2016	NC 2016	Total 2017	NC 2017	Total 2018	NC 2018	Total 2019	NC 2019

PT 21	0	0	0	0	0	0	0	0	0	0	0	0	0	0

4.4.5. Official controls on treated articles

- **Controls concerning the active substance(s) present in the treated articles** (articles 58(2) and 94 of the BPR)

In the years 2013-2019 we considered 5 cases of illegal Treated Articles placed on the market, all were non-compliant. We do not keep figures broken down into main groups, so the totals are below.

2013 number	- 0	NC's	- 0
2014 number	- 1	NC's	- 1
2015 number	- 0	NC's	- 0
2016 number	- 1	NC's	- 1
2017 number	- 0	NC's	- 0
2018 number	- 1	NC's	- 1
2019 number	- 2	NC's	- 2

If detailed figures are available please provide them in the table below

Controls concerning the active substance(s) present in the treated articles - Total number of controls per year and non-compliances (NC) identified

	Total 2013	NC 2013	Total 2014	NC 2014	Total 2015	NC 2015	Total 2016	NC 2016	Total 2017	NC 2017	Total 2018	NC 2018	Br

5. Poisoning incidents

5.1. Poisonings involving biocidal products, severity of the impact

Please provide below an overview of the information reported since the entry into operation of BPR on poisoning incidents involving biocidal products, indicating the active substances and product-types most frequently involved and those involved in incidents resulting in severe health impairments or death (fatal or near fatal incidents)

Since the entry into operation of the BPR, and up to the end of 2018 (2019 figures are currently unavailable), incidents involving the following product-types and active substances have been reported:

- PT2 (7 incidents in total) - Hydrochloric acid.
- PT8 (2 incidents in total) - IPBC & Propiconazole (product concerned contained both active substances).
- PT14 (24 incidents in total) - Brodifacoum, Bromadiolone, Coumatetralyl, Difenacoum and Difethialone.
- PT18 (13 incidents in total) - Deltamethrin, Fipronil and Spinosad.
- PT19 (36 incidents in total) - DEET

No instances of human fatality were recorded in the period, although incidents which could have resulted in severe health impairments were reported. The majority of fatal/near fatal incidents recorded during the period related to pets. The numbers of fatal/near fatal incidents per year (and the corresponding PTs and active substances) are as follows:

- 2013 - Three fatal/near fatal incidents:
2 PT14 incidents (both Difethialone) - 1 involving a human, 1 involving a dog.
1 PT19 incidents (DEET) - involved a human.
- 2014 - Four fatal/near fatal incidents:
3 PT14 incidents (2 Difethialone, 1 Difenacoum) - all involve dogs.
1 PT19 incidents (DEET) - involved a human.
- 2015 - Four fatal/near fatal incidents:
4 PT14 incidents (1 Difethialone, 3 Difenacoum) - 3 involving dogs, 1 involving a rabbit.
- 2016 - Seven fatal/near fatal incidents:
2 PT8 incidents (products contained both IPBC and Propiconazole) - both involved fish ponds.
4 PT14 incidents (all Difenacoum) - 3 involving dogs, 1 involving a cat.
1 PT19 incident (DEET) - involved a human.
- 2017 - Ten fatal/near fatal incidents:
2 PT2 incidents (both Hydrochloric acid) - both involving humans
5 PT14 incidents (1 Brodifacoum, 1 Difenacoum, 1 Brodifacoum, 2 Coumatetralyl) - 4 involving dogs, 1 involving voles (Coumatetralyl)
4 PT14 incidents (all Difenacoum) - 3 involving dogs, 1 involving a cat.
1 PT19 incident (DEET) - involved a human.
- 2018 - One fatal/near fatal incident:
1 PT18 incident (Deltamethrin) - involved a cat.

If detailed figures are available please provide them in the table below

Number of poisoning incidents related to biocidal products per year by poisoning severity

	2013 Fatal/near fatal	2013 Other	2014 Fatal/near fatal	2014 Other	2015 Fatal/near fatal	2015 Other	2016 Fatal/near fatal	2016 Other	2017 Fatal/near fatal	2017 Other	2018 Fatal/near fatal	2018 Other	2019 Fatal/near fatal	2019 Other
MG 1 Disinfectants	0	0	0	0	0	4	0	0	2	1	0	0	Figures not available	Figures not available

MG 4 Other biocidal products	0	0	0	0	0	0	0	0	0	0	0	2	Figures not available	Figures not available

6. Helpdesk functioning

Please fill in the following table the information regarding the number of enquiries that Helpdesks receive per year.

Note: if your system does not differentiate the queries according to their topic (active substances, biocidal products, treated articles) please indicate the total number of queries per year in the last row.

	2013	2014	2015	2016	2017	2018	2019
Number of enquiries on active substances	Data no longer available	Data no longer available	Breakdown not available	Breakdown not available	97	104	104
Number of enquiries on biocidal products	Data no longer available	Data no longer available	Breakdown not available	Breakdown not available	285	320	259

Number of enquiries on treated articles	Data no longer available	Data no longer available	Breakdown not available	Breakdown not available	28	14	15
Total number of enquiries per year	Data no longer available	Data no longer available	1306	1053	1028	948	933

6.1. Advice to small and medium-sized enterprises (SMEs)

Following Article 81(2) of the BPR, competent authorities have to provide advice to the applicants and in particular to SMEs.

Does your Member State provide specific advice to SMEs?

- Yes
 No

Please indicate how the advice is customized for the needs of SMEs and refer to the corresponding links of the relevant websites for information

Advice provided via the helpdesk is tailored to each enquirer.
Information and advice provided via the website is written to address a broad range of enquirers, including SMEs.

7. Sustainable use measures

In accordance with Article 18 of the BPR, a Commission Report on the sustainable use of biocidal products was submitted to the European Parliament and the Council in 2016, compiling the information provided by Member States. Please find below some questions that are requested in order to follow-up on this report.

7.1. Availability of Best Practices Documents in the Member States

Are Best Practices Documents used or developed for reducing the use of biocidal products to a minimum or for using biocides with less impact on human health and the environment?

- Yes
 No

Please specify which kind of documentation is available in your Member State

	Type of document	Name of document	Product-type(s) covered	Year of document
1	Best Practice and Guidance for Rodent Control and the Safe Use of Rodenticides	CRRU UK CODE OF BEST PRACTICE	PT14	2015
2	Best practice guidance for the supply and use of metal phosphide products	RAMPS UK CODE OF GOOD PRACTICE	PT14, PT18, PT20	Updated 2018
3				

7.2. Availability of certifications or training schemes for professional users

Are certification procedures or training schemes in place (organised by e.g. eCAs, public authorities, sector organisations) for professional users of biocidal products?

- Yes
 No
 Not anymore

Please specify which kind of biocidal products or applications are covered by those schemes and include the corresponding links of the relevant websites with information

	Biocidal products or applications covered	Name of the certification or training scheme	Year
1	Rodenticides	Various certifications and schemes accredited by CRRU UK https://www.thinkwildlife.org/training-certification/	
2	Metal phosphide products	Various certifications and schemes accredited by RAMPS UK https://www.ramps-uk.org/training/	
3			

7.3. Information to the public

Have measures been taken to provide the public with appropriate information about benefits and risks associated with biocidal products and ways of minimising their use? (Article 17(5) of the BPR)

- Yes
 No

Please specify which kind of information is available in your Member State (e.g. information campaigns, regulatory measures) and include the corresponding links of the relevant websites with information.

	Type of measure	Year	Details
1	Guidance available on HSE website	Current guidance was published in 2015	https://www.hse.gov.uk/biocides/using.htm
2			

3			
4			

7.4. Measures to address the risk related to the use of biocidal products

Have measures been taken to address the risks related to the use of biocidal products in specific areas such as schools, workplaces, kindergartens or public spaces?

- Yes
- No

Please specify which kind of information is available in your Member State (e.g. information campaigns, regulatory measures) and refer to the corresponding links of the relevant websites with information.

	Type of measure	Year	Area covered	Details
1	Rodenticide Stewardship Scheme	2015	Use of rodenticides outdoors	https://www.thinkwildlife.org/stewardship-regime/
2

4				

8. Nanomaterials

Please provide information regarding the use of nanomaterials in biocidal products (Articles 19 and 69 of the BPR), per main group of product-types

MG 1 Disinfectants

	Product name	Nanomaterial	Brief explanations	Safety measures (Yes/No)	Year
1	N/A	N/A	N/A	N/A	N/A
2					
3					
4					

MG 2 Preservatives

	Product name	Nanomaterial	Brief explanations	Safety measures (Yes/No)	Year
1	N/A	N/A	N/A	N/A	N/A
2					
3					
4					

MG 3 Pest control

	Product name	Nanomaterial	Brief explanations	Safety measures (Yes/No)	Year
1	N/A	N/A	N/A	N/A	N/A
2					
3					
4					

MG 4 Other biocidal products

	Product name	Nanomaterial	Brief explanations	Safety measures (Yes/No)	Year
1	N/A	N/A	N/A	N/A	N/A
2					
3					
4
