

Quality of life - actions

- Collect and analyse data on today's unmet needs of cancer patients and survivors
- Set up of the European Cancer Patient Digital Centre
- Develop early predictors for quality of life
- Design monitoring programmes for survivors of childhood cancer

European Cancer Patient Digital Centre – concept

European Cancer Patient Digital Centre

National portal to access and exchange data

Information and support for cancer patients, survivors and their families on:

Prevention, diagnosis, treatment guidelines, treatment side-effects, access to cross-border health care, psychosocial and legal support

Data collection on patient-reported outcomes (PRO) on and data and ability to share these data - via a smart card - with

Family and relatives, Health professionals, Researchers

Access for patient and survivors to his/her own clinical data and ability to share these data - via a smart card - with:

Family and relatives, Health professionals, Researchers

Empowering patients in co-decision on their care, including participation in

research - enable them to enforce their rights, increase confidence in sharing their data for cancer research, innovation and policy development

European Cancer Patient Digital Centre – synergies

European Health Data Space

2030 Digital Compass: the European way for the Digital Decade

European Data Strategy

MyHealth@EU – eHealth Digital Service Infrastructure

European Cancer Patient Digital Centre

National portal to access and exchange data

Information and support for cancer patients, survivors and their families

Data collection on patientreported outcomes (PRO) on and data and ability to share these data - via a smart card Access for patient and survivors to own clinical data and ability to share

Empowering patients in codecision on their care, including participation in research Better Life for Cancer Patients Initiative - Cancer Survivor Smart Card

Project PanCareSurPass

National initiatives

EU and national Cancer Registries

European Cancer Patient Digital Centre – next steps

- Preparation of procurement action
- Proposed coordination and support action under 2nd amendment to Horizon Europe work programme for missions 2021-2022
- Discussions with members of eHealth Network

European Cancer Patient Digital Centre - points for feedback

- (i) provide feedback about the proposed ECPDC and similar national initiatives;
- (ii) consider the proposal to create a new thematic group on ECPDC and;
- (iii) indicate how they can support such an initiative.
