#### **questions scope**

##### **problem definition**

Yes

#### **which option**

No change

#### **questions smokeless**

##### **problem definition**

No

#### **comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

#### **which option**

Lifting the ban on snus

#### **questions consumer**

##### **problem definition**

No

#### **explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

#### **which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale; Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an

appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products  
problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

Yes

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products

consumption.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

Germany

**questions scope****problem definition**

Yes

**which option**

No change

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

There is no proof that the suggested measures will benefit public health. Plain packaging or bigger health warning labels would effectively reduce, or even deprive trademark owners of their right to exploit their trademarks. Whilst these measures would constrain the legal tobacco business, they would further open the door for illicit trade and criminals who will not respect these rules.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Already today the individual member states can impose fees and sanctions. The enforcement of this part of the directive should remain a responsibility of the individual state.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

The testing of ingredients should be based on scientific evidence, if these components cause additional harm for the individual health.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

There is no evidence that a display ban or vending machine ban would lead to a reduction of consumption and benefit public health. On the contrary, especially in many countries vending machines are the best controlled devices when it comes to youth protection. Therefore there is no reason to constrain the trade of a legal product; it would defy principles of the common market.

**questions scope  
problem definition**

Yes

**which option**

No change

**questions smokeless  
problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients  
problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale counterfeited and smuggled.

**recommend option**

Rozsah Směrnice může být rozšířen tak, aby pokryl i tyto výrobky, nicméně nemělo by to zahrnovat jejich automatický zákaz. Veškeré zákazy musí být založeny na vědeckých poznatcích.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Neexistují žádné důkazy, že větší varování jsou efektivnější. Není žádný důkaz, že jednotná balení zlepší fungování vnitřního trhu nebo budou mít pozitivní zdravotní dopady. Naopak, pro nelegální výrobce bude daleko jednodušší kopírovat značky a povede to k nárůstu nelegálního prodeje cigaret.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Členské státy již mají možnost zavést poplatky a sankce. Dodržování těchto pravidel by mělo být i nadále ponecháno v zodpovědnosti každého státu.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

Testování přísad by se mělo zaměřit na to, zda-li zvyšují toxicitu tabákového kouře

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Není zde jasně stanovený problém pokud jde o prodejní automaty nebo místa prodeje. Nejsou zde důkazy naznačující jak by zákazy mohly zlepšit fungování vnitřního trhu.

**which option**

No change

any banning of products always lead to more attraction and crime (p.e. alcohol-exhibition in u.s.).

**questions smokeless**  
**problem definition**  
Yes

**which option**  
Lifting the ban on snus

**questions consumer**  
**problem definition**  
No

**explanations**  
as far as I noticed, in germany and on travelling around the world, the pictures on packages never lead to less smoking, but to competition on having the most shocking or latest picture. and the pictures made the packages even more interesting for minors.

No

**explanations**  
any kind of restriction, fees, sanctions and enforcement of the directive should remain in liability of the member states.

**which option**  
Establish a common compulsory reporting format

**regulation of ingredients**  
**problem definition**  
No

**explanations**

if ingredients are tested, the focus should be on whether they increase the toxicity of smoke or not.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

it's an illusion to believe, that people would smoke less, only because the cigarettes are not visible in the shops. here we have the same situation, as in the u.s. during prohibition-era. and nobody starts smoking, because he comes into a shop and sees the cigarettes. nobody! no one ever says that is a liar. people start smoking, because of their friends and family, where people smoke and because of their own will. all my family smokes/-d, many of my friends smoke, but I never touched a cigarette. and my mom worked in a grocery store, so I saw cigarettes every day from the beginning of my memory. how comes?

**which option**

No change

**additional comments**

i think the whole trouble about cigarettes is only opportunistic behaviour of politics who want to put blame on cigarettes rather than doing good work on things they know they can't change without getting in trouble with the electors. I never heard, that a smoker caused an car-accident, but how many drunken drivers did? I never heard, that a smoker killed or harmed or raped somebody, due to his smoking, but many drinkers did and got through with it, because "I was drunk and can't remember"! how many families broke because of smoking and how many because of drinking? how many little children up to 12 years have heart-problems and overweight-problem in general because of too much candy? how many children die in front of schools or on the way to it, because of missing traffic-lights? but all these problems would cause too much trouble, trying to solve them. banning cigarettes is much easier, because much more populist. but if the interest on health would be really true, why not taking the money the states make with cigarettes (direct and indirect) and put it on an account, not touching it for 10 years? answer: because the states would be in big financial trouble, because the costs of smoking are much less than the benefits. and all the talking about the many dead smokers? sorry, but what about all the dead, killed by drunken drivers, killed because of missing traffic-lights? all this shouting and pointing the fingers on cigarettes is merely a witch-hunting à la salem than a realistic discussion of the problem. and at least: all of this regulation of everyday living from the e.u. makes the acceptance of the e.u. by the people within the member states more and more sink. another example is the regulation on light bulbs. who pays for the rebuilding of electrical systems, which do not work with led's or energy saving lamps? that causes costs, that people are not taking willingly, but have to. I know, this is another theme, but it is the same problem: over-regulation by the e.u. and lying politics.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Οι καταναλωτές είναι ήδη εδώ και πολλά χρόνια ενήμεροι για τις βλαβερές συνέπειες των τσιγάρων και δεν χρειάζονται αποκρουστικές εικόνες πάνω στα πακέτα. Η σωστή και υπεύθυνη ενημέρωση και όχι ο φόβος είναι αυτό που χρειάζεται ο υπεύθυνος καταναλωτής.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Δεδομένου ότι η επιβολή τελών και ποινών για την αναφορά των συστατικών υπάρχει ήδη σε κράτη - μέλη, δεν πιστεύουμε ότι η εφαρμογή αυτών των ρυθμίσεων της Οδηγίας θα πρέπει να είναι σε επίπεδο Ε.Ε., αλλά σε επίπεδο κρατών - μελών.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

Συμφωνούμε με την θέσπιση της ρύθμισης για τα συστατικά σε επίπεδο Ε.Ε αρκεί αυτή να βασίζεται σε έγκυρα επιστημονικά στοιχεία. Επειδή όμως στις υπόλοιπες επιλογές της ερώτησης 2 γίνεται αναφορά στη ρύθμιση των συστατικών με βάση την έννοια της "ελκυστικότητας" διατυπώνουμε την αντίθεση μα, αφού μια τέτοια έννοια δεν μπορεί να αξιολογηθεί με επιστημονικά δεδομένα.

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a positive common list of tobacco ingredients

**additional option**

No ingredients in tobacco products - only tobacco

**access to tobacco products****problem definition**

Yes

**which option**

Ban

**which one2**

Cross-border retail sales of tobacco to be banned over the Internet; Vending machines to be banned; Promotion and displays in retail stores to be banned

**additional option**

Ban of indirect advertising (image-commercials) for tobacco and nicotine-products. Ban of selling of tobacco and nicotine-products to persons under the age of 21 years. A tax of 2 Euros for every (!) cigarette smoked by persons below 21, to be determined by established statistical methods. A deposit of 1 Euro per tobacco package and 10 Cent for cigarette stubs. Introduction of a voluntary (!) electronic smokers-passport for smokers, afterwards only selling to persons with the smokers-passport by reducing the allowed buying-quantity of tobacco-products within one year down to zero. In the first month 23 cigarettes per day, then 21 and so on. The daily possession is not allowed to be higher than the daily quantity of the

allowed buying quantity. Refunding the costs for treatment of smoke-induced illness and of the loss of working hours by the tobacco industry. Ban of sale and consumption of tobacco-products in EU would be the best solution!

**questions scope****problem definition**

No

**explanations**

Ich bin gegen eine Erweiterung der Richtlinien, da die bisherige Regelung der EU völlig ausreichend ist. Es wird mit zweierlei Maß bemessen. Steuern ja -Raucher nein Das macht keinen Sinn. Entweder sollte man keine Tabakwaren mehr vertreiben und so auch keine Steuereinnahmen eintreiben, oder dem Raucher noch noch seine menschliche Würde lassen und den Nichtraucherchutz maßvoll umsetzen.

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

Die rauchlosen Erzeugnisse sind nur eine Verlagerung des Problems und ist keine dauerhafte Lösung. Es könnten noch mehr Menschen in eine neuartige orale Abhängigkeit verfallen.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Wir leben in einer Marktwirtschaft und der Wegfall der Produktmerkmale würde nicht das eigentliche Problem lösen. Ganz im Gegenteil, hier würde ein neues Monopol aufgebaut und das Produkt an sich für den Konsumenten noch interessanter gemacht.

**which option**

Improve consumer information

**which improvement**

Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package; Health warnings to be put on water pipes

**explanations**

Ich denke das bei Tabakwaren wie auch anderen Produkten die konsumiert werden jeder Erwachsene ein Recht hat sich nach seinem Geschmack frei entscheiden zu dürfen. Daher gehören die Angaben mit auf die Verpackung und da jeder eine andere Vorliebe hat sollte es auch jedem möglich sein diese auszuleben.

No

**explanations**

Seit Ihr noch zu retten? Jeder weiß das nicht alle Zusatzstoffe unbedenklich sind. Aber selbst in vielen Lebensmitteln werden jede Menge nicht ganz unbedenkliche Zutaten verwand. ( Süßstoffe, künstliche Aromen und so weiter) Tabakwaren kauft jedoch keine Familie um sie den Kindern mit zur Schule zu geben, bei vielen Fertigprodukten ist das jedoch der Fall. Tabakwaren kaufen Erwachsene. Und die wissen das sie nicht gesund sind. Erwachsene haben ein Recht sich einen Genuss zu können auf den sie Lust haben und nicht sich alles vorschreiben zu lassen

**which option**

**access to tobacco products****problem definition**

No

**explanations**

Ich finde es völlig in Ordnung das Tabakwaren nur an volljährige Personen verkauft werden dürfen. Aber ein Verbot der Präsentation wäre sehr, sehr traurig. Wie sehen denn dann unseren kleinen Buden aus? sollen sie statt dessen Schnapps und Bier präsentieren? Tabakwaren werben nicht mit rauchenden Personen sondern subtil, so das Kinder gar nicht auf den Gedanken kommen:" das möchte ich auch" Jeder weiß was alles aufgrund des Tabakkonsums passieren kann dazu braucht es keine Gruselbilder. Außerdem ist der Mensch ein Gewohnheitstier was schlechte Nachrichten angeht sie werden nach ein paar Wiederholungen einfach nicht mehr wahrgenommen. Auserdem sind alle Dinge die nicht offen verkauft werden für Heranwachsene sehr viel erstrebenswerter zu besitzen.

#### **additional comments**

The decision makers should also think about the fact, that this proposal, and the probable changes affect highly the farmers, who grow tobacco for a living. They should make up some optional support for changing the farm structure for these farmers as for example in the case of sugar beet in Hungary.

No

**explanations**

Der Nichtraucherschutz wird nicht durch die Richtlinienänderung verbessert. Die freie Wahl jedes Bürgers, zu rauchen oder es zu lassen sollte nicht durch Verordnungen gelenkt werden. Maßnahmen, die das Marketing und den Verkauf betreffen, zielen auf die falsche Zielgruppe. Kein Raucher wird deshalb aufhören und Jugendliche werden dadurch erst recht zur Zigarette greifen.

**which option**

No change

**recommend option**

Ich empfehle absolute Wahlfreiheit ab einem gewissen Alter und breite Aufklärung.

**questions smokeless**

Yes

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

No change; Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale counterfeited and smuggled.

**questions scope****problem definition**

No

**explanations**

- Eine Problemdarstellung enthält lediglich vage Einschätzungen im Hinblick auf eine mögliche Binnenmarktverzerrung oder ein mögliches Versagen bei der Sicherstellung eines hohen Gesundheitsschutzniveaus aufgrund fehlender einheitlicher Bestimmungen für die Regulierung von nikotinhaltigen oder zigarettenähnlichen Produkten in den Mitgliedstaaten. Zudem vermeidet die Kommission jede Form der Wertung in Bezug auf das Subsidiaritäts- und Verhältnismäßigkeitsprinzip. - Jede Form der Regulierung von Tabakerzeugnissen muss auf der Grundlage wissenschaftlicher Erkenntnisse sowie der zweifelsfrei gegebenen Rechtssetzungskompetenz der EU basieren. Dies gilt auch für mögliche Regulierungen oder gar Verbote für nikotinhaltige Produkte, die keinen Tabak enthalten oder zigarettenähnliche Produkte (Kräuterzigaretten). - Eine Einbeziehung von nikotinhaltigen Produkten oder zigarettenähnlichen Produkten in den Geltungsbereich der Richtlinie kann nicht allein aus der Begründung heraus erfolgen, dass diese Produkte neu sind nach der Auffassung der Kommission auch auf eine entsprechende Nachfrage in den einzelnen Märkten der EU 27 treffen. - Aus der Begründung heraus, dass diese Produkte bisher keiner wissenschaftlichen Bewertung(Unbedenklichkeitsprüfung) unterzogen wurden

**which option**

No change

**questions smokeless****problem definition**

No

### **comments**

- Der Konsum rauchloser Tabakerzeugnisse durch erwachsene und aufgeklärte Personen gefährdet weder die Gesundheit Dritter noch schränkt der Konsum dieser Produkte andere Personen in ihren Lebensgewohnheiten ein. Der Konsum dieser Produkte liegt in der Eigenverantwortung des Einzelnen. Das Bewerben und Verkaufen dieser Produkte muss daher möglich sein. - Das EU-weite Verbot von Snus (Ausnahme Schweden) stellt eine massive Entmündigung der Bürger dar. Denn die erwachsenen Verbraucher haben das Recht, auch bei Genussmitteln mit Gesundheitsrisiken die Wahl zu haben und eigenverantwortliche Entscheidungen zu treffen. - Aus der Problemdarstellung der Kommission lässt sich keine wissenschaftlich fundierte Grundlage ableiten, die ein EU-weites Verbot von Snus (Ausnahme Schweden) oder anderer Rauchloser Produkte rechtfertigen könnte. Beispielsweise vermischen wir in der Problemdarstellung wissenschaftlich fundierte Wirkungsanalyse aus Ländern, in denen Snus oder andere rauchlose Tabakerzeugnisse konsumiert werden.

### **which option**

Lifting the ban on snus

### **questions consumer**

#### **problem definition**

No

### **explanations**

- Es gibt keinen überzeugenden Beleg dafür, dass ein Warnhinweis umso wirksamer ist, je größer sein Format. - Es existiert bereits ein allgemeines Bewusstsein der Risiken des Rauchens. Ein Hinzufügen von Bildern auf den Warnhinweisen erhöht dieses Bewusstsein nicht – die Bilder wirken lediglich Überwiegend abstoßend ohne eine zusätzliche Information zu bieten. - Es wird pauschal unterstellt, dass die Einführung von Bildwarnhinweise auf das Rauchverhalten der Verbraucher einwirkt. Dafür werden allerdings keine Nachweise aus den Ländern zugeliefert, in denen Bildwarnhinweise bereits verpflichtend eingeführt wurden. - Eine Einheitspackung würde den Wesensgehalt des Markenrechts und damit auch die Interessen der Verbraucher verletzen. Eine Marke dient nämlich auch als Herkunftshinweis und ist somit ein unverzichtbares Element zur Wahrung der Entscheidungs- und Wahlfreiheit der Bürger. - Die Einführung von Einheitspackungen für Zigaretten wäre eine massive Entmündigung der Bürger. - Stichhaltige wissenschaftliche Nachweise, dass Tabakverpackungen und Produktmerkmale von Tabakerzeugnissen das Rauchverhalten von Verbrauchern beeinflussen/fördern, existieren nicht. - Über die Einführung von neutralen Verpackungen konzentriert sich der Wettbewerb verstärkt auf das Preis-Marketing. Sinkende Preise wären die Konsequenz. Dies ist in jeder Hinsicht (Jugend- und Gesundheitsschutz, Steuereinnahmen..) kontraproduktiv. - Durch die Umsetzung von neutralen Verpackungen wird Produktfälschern die Arbeit erleichtert und das Problem des Schmuggels weiter verschärft. Dies bedroht die Existenz des rein national tätigen Groß- und Einzelhandels in Deutschland. - Die Kommission selbst hat im Rahmen der Tabak-Produkt-Richtlinie die Höchstgehalte an Teer, Nikotin und Kohlenmonoxid begrenzt. Das man nun daraus den Schluss zieht, dass Verbraucher aufgrund der niedrigeren Höchstgehalte den Konsum der Produkte als weniger riskant für ihre Gesundheit einstufen könnten, ist daher absurd.

### **which option**

No change

## **questions on reporting**

### **problem definition**

No

### **explanations**

- Ob die Behörden Schwierigkeiten bei Vergleich und Analysen der Daten haben oder die Erfassung und Analyse der gemeldeten Daten über Inhaltsstoffe erhebliche Ressourcen auf Seiten der zuständigen nationalen Behörden erfordern, wie von der Kommission dargestellt, kann nicht beurteilt werden. - - Wenn dies so wäre, verwundert es sehr, dass der Anstoß in Richtung einer Vereinheitlichung und Vereinfachung nicht aus den Mitgliedstaaten selbst hervorgeht, sondern von der Kommission vorgebracht wird und dann im Zusammenhang mit einer Option, die der Wirtschaft zusätzliche dauerhafte Kosten ( jährliche Gebühr) auferlegen würde. - Die Mitgliedstaaten selbst sind gefordert, zusammen mit der Wirtschaft einen pragmatischen Weg zu diskutieren und umzusetzen. Einen notwendigen Handlungsbedarf der Kommission spiegelt die Problemdarstellung nicht wieder.

No

### **explanations**

- Die Problemdarstellung ist keine sachgerechte, an wissenschaftlichen Prüfstrategien und Standards orientierte und am Maßstab der Verhältnismäßigkeit ausgerichtete Diskussionsgrundlage. - Der Begriff attraktiv ist ein subjektives Kriterium für eine Verbot oder eine Regulierung von Zusatzstoffen und entbehrt jeglicher wissenschaftlicher Grundlage. - Die Verbreitung des Rauchens in Ländern wie Großbritannien und Irland, in denen vorwiegend Zigaretten ohne Zusatzstoffe verkauft werden( Produkte des Virginia-Typs), ist nicht geringer als die Verbreitung in Ländern, in denen vorwiegend Zigaretten mit Zusatzstoffen (American-Blend-Produkte) verkauft werden. - Wettbewerbsrechtliche Auswirkungen einer einseitigen Regulierung von Produkten mit Zusatzstoffen werden nicht thematisiert. - Die Frage nach der Wirkung auf das Preisgefüge in den EU 27 Märkten sowie Effekte auf den illegalen Handel mit Tabakerzeugnissen werden nicht thematisiert.

### **which option**

No Change

## **access to tobacco products**

### **problem definition**

No

### **explanations**

-Die Problembeschreibung trifft nicht zu. In 15 Mitgliedstaaten der EU27 dürfen Tabakwaren über Automaten abgegeben werden. Dies erfolgt i.d.R. unter strengen gesetzlichen Auflagen der nationalen Regierungen. -Der Problembeschreibung stimme ich nicht zu. Die Bereiche „Verkauf von Tabakwaren über Zigarettenautomaten“ und „ Mindestaltersgrenzen für den Bezug von Tabakwaren“ sind Themen, die eindeutig in den Zuständigkeitsbereich der Mitgliedstaaten fallen. -Die Problembeschreibung Zigarettenautomat ist überflüssig, da die

Kommission selbst bereits bei ihrem Bericht aus dem Nov.09 zur Umsetzung der Ratsempfehlung 2003/54/EC festgehalten hat. - Insgesamt ist die Umsetzung der Empfehlung zufriedenstellend. - Dies betrifft insbesondere die Verpflichtung, das Mindestalter für den Kauf von Tabakwaren zu überprüfen, sowie die Durchführung von Maßnahmen zur Beschränkung der Verwendung von Automaten durch minderjährige Personen. Ein Handlungsbedarf wird daher nicht gegeben. -Weder ein Verbot des Verkaufs aus Automaten, noch die Untersagung der Auslage bzw. Sichtbarkeit von Zigaretten in Verkaufsstellen weisen einen grenzüberschreitenden Bezug auf. Für Automaten ergibt sich das schon daraus, dass deren Einzugsgebiet auf die unmittelbare Nachbarschaft zum Automaten beschränkt ist. - Selbst wenn von Mitgliedstaat zu Mitgliedstaat unterschiedliche Anforderungen an die Gestaltung der Automaten z.B.aus Gründen des Jugendschutzes den grenzüberschreitenden Handel mit den Automaten behindern, würde ein Verbot der Automatenaufstellung dem gemeinschaftsweiten Warenhandel mit Automaten die Grundlage entziehen, diesen also beeinträchtigen. -Die EU kann nur tätig werden, wenn sie die Kompetenz dazu hat – diese Kompetenz ist in den EU- Verträgen festgelegt. Ein Verweis darauf, dass bisher weder die Frage der begrenzten Einzel- ermächtigung, der Subsidiarität oder der Verhältnismäßigkeit in Bezug auf die einzelnen Maßnahmen oder Optionen hin geprüft wurde ist inakzeptabel. Die Problembeschreibung wird daher mangels fehlender juristischer Vorwertung der Kommission nicht mitgetragen. -Dass die Existenz von Zigarettenautomaten einen Einfluss auf das Rauchverhalten Jugendlicher hat, ist wissenschaftlich nicht nachgewiesen. In Ländern mit einem Automatenverbot fällt die Quote jugendlichen Raucher zum Teil deutlich höher aus als in den Ländern mit einer Automaten- Vertriebsstruktur. Pläne der Europäischen Kommission zur Abschaffung der Automaten schränken daher die Bezugsmöglichkeiten erwachsener Verbraucher ein, dienen dem Jugendschutz jedoch in keiner Weise. -Organisierte Kriminalität wird das Vakuum füllen, das entsteht, wenn legale Verkaufsstellen verschwinden. -Die Problembeschreibung verschweigt wesentliche Sachverhalte, die für die abschließende Bewertung der Bürgern von Wichtigkeit sein können -- Beispielhaft führe ich hier eine Stellungnahme der Deutschen Bundesregierung vom 01.04.2010 im Rahmen einer kleinen Anfrage der Fraktion Bündnis90/Die Grünen im Hinblick auf ein generelles Automatenverbot an: „ Im Rahmen der Verhältnismäßigkeit sieht die Bundesregierung die bereits existierenden gesetzlichen Vorschriften und die in Vollzug dieser Vorschriften erfolgte Umsetzung der technischer Sicherung von Zigarettenautomaten durch Alterskontrolle per Geldkarte oder europäischem Führerschein als derzeit ausreichend und als die mildesten Mittel an, um das Abgabeverbot von Tabakwaren durch Automaten an Minderjährige wirksam zu regeln. -Eine Abschaffung der Automaten wird aus wettbewerbs- wie verfassungsrechtlichen Gründen als nicht durchsetzbar und darüber hinaus als unverhältnismäßig angesehen. Die Ziele des Jugend- und Gesundheitsschutzes sind durch andere, weniger einschneidende Maßnahmen wie die Altersverifikation an Automaten gleichermaßen erreichbar.

No change

**recommend option**

Keine Änderung erforderlich, denn Kaugummis sind ein anderes Produkt wie Cigaretten.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

Wissenschaftliches Beweismaterial fehlt, welches nachweist, dass Snus schädlicher sind als Cigaretten.

**questions consumer****problem definition**

No

**explanations**

Nur weil größere Warnhinweise auf den Verpackungen sind, werden Raucher nicht abgeschreckt!! Es besteht eher die Gefahr, das Kinder auf die bunten Bilder aufmerksam werden und somit früher mit dem Thema Cigaretten konfrontiert werden. Das Plain Packing hingegen führt zu einer unkontrollierbaren Flut an Schmuggelware und Plagiate, denn es werden ausführliche Test von nöten, um die Echtheit von Cigaretten und deren Verpackungen zu prüfen.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Es sollte ein einheitliches Meldeformat auf EU-Ebene geschaffen werden, wobei die Geheimnisse der einzelnen Hersteller gewahrt werden sollten.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

Jeder Mensch der raucht sollte sich im klaren sein, welcher Gefahr er sich aussetzt. Es ist nicht zu beweisen, dass die Cigaretten mit Inhaltsstoffen "gesünder" sind als regulierte.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Der Bezug von Tabakprodukte über das Internet ist nicht kontrollierbar, somit können

Jugendliche unter 18 Jahre einfacher an Cigaretten gelangen.

**questions scope****problem definition**

Yes

**which option**

No change

**recommend option**

All regulation must be consistent with the principles of individual freedom of choice, subsidiarity and proportionality set out in the EU Treaties.

**additional comments**

Overregulation can be counterproductive

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

Snus is a legal product in Sweden. In a common market, we should have all access to products which are legally available in any member state.

**questions consumer****problem definition**

No

**explanations**

Health warnings are already too big in size. As a smoker they have no impact on my consumption since I am fully aware of the sideeffects of smoking. Plain packaging would destroy legitimate brands and reduce the quality of products.

**which option**

No change

**additional comments**

I pay high enough sin taxes to the Government for my smoking habit but do not want any further interference related to the product I consume. What next ? Road accidents and drunk drivers on my wine bottles ?

**questions on reporting****problem definition**

No

**explanations**

Enforcement should remain in the hands of Member States.

**which option**

Establish a common compulsory reporting format

**additional comments**

As a smoker, if you start fiddling around with my product, I will start growing quality tobacco in my own garden and avoid paying excessive excise duties.

**regulation of ingredients****problem definition**

No

**explanations**

The ingredients tested should prove that those are harmful. But overall smoking is harmful and it can certainly not be broken down in components.

**which option**

No Change

**additional comments**

As a smoker, if you start fiddling around with my product, I will start growing quality tobacco in my own garden and avoid paying excessive excise duties.

**access to tobacco products****problem definition**

No

**explanations**

Access restriction should apply to children not to adult smokers.

**which option**

No change

**additional option**

Education rather than ban and limitations.

Alle reden davon, wie schädlich das Passiv Rauchen ist. Mit rauchfreien Produkten, wie z.B. dem SNUS könnte man dem doch super entgegenwirken, und trotzdem kämen die Konsumenten zu ihrem Nikotin. Warum ist man hier auf einmal so inkonsequent und will das nicht zulassen?

Viele Millionen EU-Bürger zu bevormunden und Genussmittel wie die Zigarette durch eine neue EU-Richtlinie zu zerstören, führt nicht nur zur Unterbindung der Autonomie und Selbstverantwortung des Einzelnen, sondern auch dazu, dass sich die EU selber schadet, weil sich die daraus resultierende Frustration der Raucher bei anderen Wahlen und Abstimmungen negativ für die EU auswirken wird. In Österreich, wo rechtspopulistische Parteien großen Zulauf haben, wird jetzt schon von diesen Parteien für die Raucher Partei ergriffen. Wenn alle Zigaretten in etwa gleich schmecken, weil Zusatzstoffe zur Geschmacksvielfalt verboten sind, wird das jede(r) RaucherIn als Eingriff in die persönliche Privatsphäre empfinden und entsprechend mit Hass auf die EU reagieren. Eine solche Reaktion ist psychologisch plausibel und logisch. Denn warum Zigaretten zerstören, wenn Kinder wegen der Feinstaub-Belastung durch Autos an Krebs erkranken und schädliche Lebensmittel wie Schmalz und Extrawurst und Chips etc. nicht als schädlich gekennzeichnet sind. Konsequenterweise muss dann die EU auch dafür sorgen, dass alle Biersorten gleich schmecken und alle Weinsorten gleich schmecken und eventuell auch alle Kravatten gleich aussehen. Andernfalls muss man annehmen, dass viele EU-Politiker ein Alkoholproblem haben.

**questions scope**  
**problem definition**  
No

**explanations**

Mündige Bürger sollten frei entscheiden können, ob sie rauchen oder nicht. Tabakwaren sind legale Produkte, konsequent wäre nur ein Konsumverbot, dies stünde allerdings in krassem Missverhältnis zur quasi Legalisierung von Mariuhana oder Ersatzdrogen wie Methadon und Alkohol. Wo fängt dies an wo hört dies auf?, die staatliche Bevormundung geht entschieden zu weit. Danach kommen Süßigkeiten, zuckerhaltige Getränke, Fast Food und übergewichtige Menschen dran etc. Unsere Politiker werden es schon richten? - Wasser predigen und Wein trinken. Pervers, kontraproduktiv, ja schizophran ist allerdings die Tatsache, dass alle EU-Staaten kräftig daran verdienen, durch Tabaksteuer und sonstige Verbrauchssteuern!!! Das gesamte angedachte Maßnahmenpaket ist also nur ein Feigenblatt der Politik, die eine absolute Konsequenz vermissen lässt (Rauchverbot!) und die Reaktion einer Prohibition in Wirklichkeit fürchtet.

**which option**  
No change

**recommend option**

Konsequent wäre nur ein totales Rauchverbot (Prohibition), also Abschaffung der Legalität aller Tabakprodukte und damit Kriminalisierung der Konsumenten und Schaffung attraktiver mafïöser Absatzkanäle krimineller Vereinigungen!

**additional comments**

Die Zeiten der repräsentativen Politik (besonders innerhalb der EU) sind vorbei, es sollte mehr Selbstbestimmung für Bürger geben, durch Volksabstimmung und Bürgerentscheide: Das wäre wahre Demokratie! Statt sich mit Nebenkriegsschauplätzen zu beschäftigen, sollte sich das EU-Parlament um die wirklich essentiellen Probleme kümmern. Gemeinsame Amtssprache innerhalb der EU, Währungsstabilitätssicherung des EURO, Harmonisierung der Sozialversicherungen und der Stundenlöhne usw.

**questions smokeless**  
**problem definition**  
No

**comments**

siehe meine vorhergehenden Kommentare. Alle Reglementierungen führen dazu, dass junge Leute es besonders reizt es zu tun.

**which option**  
No change

**additional option**

Alle Reglementierungen führen dazu, dass junge Leute es besonders reizt es zu tun.

**questions consumer  
problem definition**

No

**explanations**

Es sollte also keine weiteren Restriktionen mehr erfolgen, genug ist genug!

**which option**

No change

**additional option**

Durch Abschaffung von Packungs und Markendesigns werden künftige Produktinnovationen erschwert bzw. sogar behindert und damit Werbung und Wiedererkennung von besseren Produkten nahezu verhindert.

**questions on reporting**

**problem definition**

**access to tobacco products  
problem definition**

No

**explanations**

Mündige Bürger müssen selbstbestimmt entscheiden können, zu welchem Zeitpunkt sie welche Produkte kaufen. Auf diese Produkte muss ein freier Zugriff möglich sein. Unsinnige Einschränkungen - wie beispielsweise in den USA - sind eine unzulässige Bevormundung durch den Staat.

**questions scope****problem definition**

No

**explanations**

I don't want more regulation, I want less regulation. I am a free citizen, or at least that is what I am told. I want to make my own decisions

**which option**

No change

**recommend option**

An additional option would be to treat the citizens as adult people who want to live their lives without anyone telling them what to do. I was always a friend of a united Europe, but this whole Tobacco business makes me realize that it is not about uniting people but about controlling them.

**questions smokeless****problem definition**

No

**comments**

This is not a problem the EU should concern. Keep out.

**which option**

Lifting the ban on snus

**additional option**

Educate people about the dangers, if any.

**questions consumer****problem definition**

No

**explanations**

The EU should not be more strict about Tobacco, alcohol and drugs but more liberal!

**which option**

No change

**additional option**

Get rid of all the warning signs on packaging. The packaging is private or company matter. Educate people in schools!

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**additional options**

The consumer has a right to know what is inside the product.

**regulation of ingredients**

**problem definition**

No

**explanations**

It is okay to make declaration of ingredients compulsory, but do not interfere with the combination of the ingredients. This is not your business. The producer will look after the product and the citizen/consumer will decide whether they want to buy it or not!

**which option**

No Change

**additional option**

I don't want neither the EU nor my own local government to interfere with products for grown up people.

**access to tobacco products**

**problem definition**

No

**explanations**

The access for adult people should not be limited!

**which option**

No change

**additional option**

Concentrate on limiting the access for underaged / young people / children...

Ein mündiger Bürger der Europäischen Gemeinschaft sollte für sich selbst persönlich entscheiden dürfen, für welche Genußmittel (i.S.a.v. Tabakgenußmitteln u.a.) er sich entscheiden möchte oder nicht. Dieses Recht gebührt jedem von Geburt an als zu respektierendes Individuum einer Gemeinschaft, sei es einer demokratischen Gemeinschaft eines Landes oder dem gemeinschaftlichen Zusammenschluß mehrerer Länder im Geiste und Sinn und Zweck einer Europäischen Union! Und nicht zuletzt haben die Gremien der EU ihr Bestehen genau all diesen Individuen zu verdanken, die nicht zuletzt über ihre Wählerstimme wie auch über ihre finanziellen, gemeinschaftlichen Abgaben im Sinne der entsprechenden Beiträge der einzelnen EU-Mitgliedstaaten grundsätzlich und per se deren Bestehen erst ermöglichen und finanzieren!

**access to tobacco products  
problem definition**

No

**explanations**

Ein mündiger Bürger der Europäischen Gemeinschaft sollte für sich selbst persönlich entscheiden dürfen, für welche Genußmittel (i.S.a.v. Tabakgenußmitteln u.a.) er sich entscheiden möchte oder nicht. Dieses Recht gebührt jedem von Geburt an als zu respektierendes Individuum einer Gemeinschaft, sei es einer demokratischen Gemeinschaft

eines Landes oder dem gemeinschaftlichen Zusammenschluß mehrerer Länder im Geiste und Sinn und Zweck einer Europäischen Union! Und nicht zuletzt haben die Gremien der EU ihr Bestehen genau all diesen Individuen zu verdanken, die nicht zuletzt über ihre Wählerstimme wie auch über ihre finanziellen, gemeinschaftlichen Abgaben im Sinne der entsprechenden Beiträge der einzelnen EU-Mitgliedstaaten grundsätzlich und per se deren Bestehen erst ermöglichen und finanzieren!

**which option**

No change

**recommend option**

Directive on tobacco products should cover products containing tobacco. Electronic devices that deliver nicotine and other nicotine products should be reviewed as medicines

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

Snus is no different from other smokeless tobacco products, so all should be treated in the same way. I do not understand why snus is banned in Bulgaria, but chewing tobacco is not banned.

**questions consumer****problem definition**

Yes

**which option**

No change

**additional option**

All EU countries should have the same signs for the health.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**additional options**

All EU companies producing tobacco products will have to give the same reports

**regulation of ingredients****problem definition**

No

**explanations**

I do not understand the problem definition.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Smokers will continue looking and finding tobacco no matter if they buy on the streets contraband. Vending machines are not a problem - only should not have access to under 18 years.

**name**

Erik Lidén

**email**

jerker5@msn.com

**country**

Sweden

**age**

15

**gender**

male

**questions scope**

**problem definition**

No

**explanations**

I do not agree with it's, since its quite obvisly healthier to snus than to smoke. So if it got illegal to use snus people would go over to ciggarettts wich would result in that more people would get cancer. Statitics shows That fewer people are dying in cancer from tobacco because many of them are using snus.

**which option**

No change

**recommend option**

It would be good to allow snus in other countries to reduce deaths in cancer and also to remove the Tobacco tax rate

**questions smokeless**

**problem definition**

No

**comments**

Because snus hasnt got the cancer rate that smoke has and that results in fewer people getting cancer and if snus got banned people would go over to smoking and that would result in more people dying in cancer.

**which option**

No change

**additional option**

Allow snus in other countries to reduce the deaths of cancer and remove the snus tax rate

**questions consumer**

**problem definition**

Yes

**which option**

Improve consumer information

**which improvement**

Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package

**additional option**

Add more information to cigarettes and how large risk you get in getting cancer but leave snus alone since it doesnt got the same risks at all.

**questions on reporting****problem definition**

Yes

**which option**

No change

**regulation of ingredients****problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a positive common list of tobacco ingredients

**access to tobacco products****problem definition**

No

**explanations**

I think cigarettes should be for 18 years and up and snus for 16 and up, to get people use that it would have an huge impact on cancer deaths per year and make fewer people die in cancer.

#### **questions smokeless**

##### **problem definition**

Yes

#### **which option**

No change

#### **questions consumer**

##### **problem definition**

No

#### **explanations**

Additional labeling of products will not contribute to an increased awareness of smokers regarding the negative effects of smoking. As a common experience, the consumption of smoking, especially a possible reduction of smoking cannot be correlated to the package labeling. As a matter of fact, additional labeling would create additional efforts and costs with no direct impact on smoking habits.

#### **which option**

No change

**questions on reporting****problem definition**

Yes

**which option**

No change

**regulation of ingredients****problem definition**

Yes

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Markets serve the basic principle to supply demands. This is equally true for cigarettes. Furthermore, cigarettes directly contribute to member states income via taxes. To serve markets, products need to be accessible to consumers. Banning vending machines will not reduce the tobacco consumptions and will not reduce the possibilities for minors to get access to tobacco products. With special regard to vending machines, access restrictions in form of personal identification requirements as practiced in Germany at this point is considered fully adequate.

Dann muss mit Alkohol genauso verfahren werden! Ist genauso gesundheitsschädlich oder ist hier die Lobby zu groß??? Leben wir eigentlich noch in einer Demokratie? Ich glaube nicht! Wir wissen alle, wo das enden kann... Aber wenn die sogenannten "hohen Herren und Damen" keine Ahnung mehr von der sogenannten Basis haben, wird die Basis einbrechen und dann bricht alles... Geschichte wiederholt sich eben immer und immer wieder.

Ich finde das doof was sich die EU einfallen läßt, denn davon hängen ja auch Arbeitsplätze ab. Bitte mal überlegen wenn man sich soetwas einfallen läßt. Man soll sich lieber um undere wichtigere Dinge kümmern, z. B. das Internet was da so mit den Kindern gemacht wird. Ich sage nur die Serie "Tatort Internet". Soetwas ist viel wichtiger.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

Yes

**which option**

Improve consumer information

**which improvement**

Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful

substances in tobacco products; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package; Health warnings to be put on water pipes

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format; Introduce fees and sanctions

**regulation of ingredients**

**problem definition**

Yes

**which option**

Introducing the basic criteria on the EU level without a common list

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

Die Regulierungswut der EU geht mir zu weit!!! Mit Ihren Verboten fördern Sie nur Kriminalität und vernichten Arbeitsplätze legaler Unternehmen, die mit Sicherung von Arbeitsplätzen und Steuergeldern die EU Staaten und die Europäische Union finanzieren!!!! Seit Jahrhunderten gibt es Tabakwaren und der Genuß dieser steht jedem freien Bürger zu!!! Die bisherigen Gesetze zum Schutz der Nichtraucher sind völlig ausreichend, stellenweise schon voll überzogen. Die EU will nur regulieren und Ihren eigenen Egoismus befriedigen, als der Bevölkerung eigene Toleranz einzuräumen!!

**name**

Lena Becker

**email**

Becker-Lena@web.de

**country**

Germany

**age**

21

**gender**

female

**questions scope****problem definition**

No

**explanations**

I don't support a system in which the governments are trying to dictate to the inhabitants, what to do and what not. I think that it is each persons own decision what to consume and what not and the governments should not intervene.

**which option**

No change

**recommend option**

There is no need for the EU to intervene. Nothing has to be or should be changed, so no options are necessary.

**additional comments**

There are already more than enough regulations.

**questions smokeless****problem definition**

No

**comments**

There is no need for the government to intervene in the consumption behaviour of the citizens of the EU.

**which option**

No change

**additional option**

No need for further restrictions.

**questions consumer  
problem definition**

No

**explanations**

Again, the government should not try to change the consumption behavior. There is no need for it.

**which option**

No change

**additional option**

The sale of legal consumption products would be hindered by bureaucratic conditions.

**questions on reporting**

**problem definition**

No

**explanations**

People are able to decide on their own if they want to consume such products or not. There is no need for any kind of warnings (may it be in writing or in pictures) for the people.

**which option**

No change

**additional options**

Again, no need to change anything. The burdens/conditions are already high enough.

**regulation of ingredients**

**problem definition**

No

**explanations**

I am against intervening in the trade with free products and also there is no need to regulate ingredients as consumers are aware of the products and their components.

**which option**

No Change

**additional option**

No need to change anything at all.

**access to tobacco products**

**problem definition**

No

**explanations**

No need for the EU to intervene in any way.

**which option**

No change

**additional option**

No need for any (further) restrictions.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Zigarettenverpackungen und deren Aussehen sind meiner Meinung nach nicht ausschlaggebend für den Kauf von Zigaretten. Insofern würde eine Einheitsverpackung keinerlei Effekt auf den Konsum machen, womit dieses Vorhaben, den Konsumenten durch Vereinheitlichung der Verpackung den Kaufanreiz zu nehmen, ad absurdum geführt ist.

**questions scope**

**problem definition**

Yes

**which option**

Extend the scope of the Directive

**recommend option**

Give the owners of gastronomy businesses the option to decide what they think best for their purpose of being in business: make money, create jobs

**additional comments**

Smokers are also citizens with rights and obligations like the rest, but they, together with car drivers and drinkers of alcoholic beverages, usually bear the biggest part of the tax burden - and now seem to have less rights to live their own lives.

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

Yes

**which option**

Improve consumer information

**which improvement**

Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products

**additional option**

Why don't you leave some room for EU citizens to use their own brains for a change. Surprisingly enough, they've each got one, but with constantly issuing directives they are using less and less of it.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a negative common list of tobacco ingredients

**additional option**

Once we know exactly what's inside the tobacco we smoke, we can make up our minds if we really want it or not.

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Access to vending machines to be restricted to adults

**additional option**

Youngsters very often do not really decide on their own, but are often under peer pressure. This will effectively restrict their access to a time when they've learned to make decisions.

**questions scope****problem definition**

Yes

**which option**

Extend the scope of the Directive

**questions smokeless****problem definition**

No

**comments**

Several studies (to which I unfortunately cannot provide links within the timeframe of 90 minutes) have shown that smokeless tobacco is less harmful than smoked tobacco, and have also shown that the risk of cancer is not elevated by the use of smokeless tobacco.

**which option**

Lifting the ban on snus

**additional option**

If there should be a ban on any tobacco product then ALL forms of tobacco should be banned.

**additional comments**

The ban on snus is irrational since the contents of snus is mere tobacco. How is it possible to ban a plant when it is cut and grinded and mixed with water and salt and packed in plastic cans while at the same time allowing the same plant to be sold when cut and dried and rolled into paper cigarettes? That fact is beyond my comprehension. To me this is a trade hindrance since the same product (the tobacco itself) can be freely sold in one form but not in the other. Furthermore similar products like nose snuff and chewing tobacco are to my understanding still allowed and sold for example in Germany. The ban on snus here in Finland may also be seen as a direct attack on the swedish speaking minority since they are the most frequent users of snus in Finland. The ban on snus was an easy way to "do something" that would look like a health initiative since the majority of the Union citizens never would care, since they don't use snus anyway and the users of traditional swedish snus is a small group of people compared to the Union as a whole. Either ban ALL tobacco or take the ban off snus.

**questions consumer  
problem definition**

Yes

**which option**

Improve consumer information

**which improvement**

Picture warnings to become mandatory; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a negative common list of tobacco ingredients

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale; Access to vending machines to be restricted to adults; Tobacco display and promotion at points of sales to be restricted

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Non credo che le immagine fotografiche siano una corretta modalità di informazione ma bensì possono creare solo shock. Il pacchetto bianco o generico è lesivo dei diritti di proprietà intellettuale e del marchio: applicarlo andrebbe a generare una forte limitazione delle attività a discapito di tutti gli operatori e lavoratori del settore. Inoltre rischia di favorire il contrabbando e la contraffazione.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Lasciamo agli stati di stabilire proprie regole amministrative al riguardo.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

Avere la possibilità di scegliere tra gusti diversi è un elemento essenziale di qualsiasi scelta che un consumatore può fare. Obbligare a pubblicare gli ingredienti usati va a ledere i diritti di proprietà industriale dei produttori ed inoltre non vedo tale elemento come qualcosa che possa salvaguardare la salute dei cittadini. Tutte le sigarette fanno male al medesimo modo, che utilizzino o meno ingredienti.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Impedire la visibilità a punto vendita del prodotto o la commercializzazione tramite distributori automatici sembrano essere delle misure normative che non tengono conto delle già numerose limitazioni presenti nelle legislazioni nazionali. Ad oggi il settore del tabacco è già all'avanguardia per impedire pubblicità e vietare l'acquisto non controllato ai minori. Misure di eccessiva chiusura ledono le scelte dei consumatori e possono solo generare crisi del settore e taglio di posti di lavoro su tutta la filiera; dai produttori di tabacco alle aziende dell'indotto.

Einheitspackungen sind meiner Meinung nach quatsch, da jeder Markenbewußte Verwender seiner Marke treu bleiben wird. Die Warnhinweise konnte damals auch mit sogenannten Wrappys umhüllt werden und waren dann nicht mehr sichtbar. Letztendlich wird weitergeraucht, ob mit Design oder ohne.

**access to tobacco products**

**problem definition**

No

**explanations**

Vielleicht sollte dann auch über ein Werbeverbot für Alkohol, Fast Food und Süßwaren nachgedacht werden. Denn letztendlich sind diese Produkte doch alle schädlich für den Menschen und Alkohol macht sogar noch abhängig. Sollte ein Werbeverbot für Tabakwaren kommen, müssten diese Produkte auch aus der Kassenzone verschwinden und im Fernsehen verboten werden. Wie viele Menschen werden durch Alkohol aggressiv und gefährden dadurch andere Leute. Fettleibige Menschen sind öfters krankheitsanfällig und liegen dem Staat auf der Tasche. All diese Überlegungen sollten in Ihre Diskussionen ebenfalls mit einfließen.

**questions scope****problem definition**

Yes

**which option**

No change

**recommend option**

da wissenschaftliche Beweise fehlen braucht auch nichts verändert werden

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

einfach neue produkte ohne vorherige Prüfung dieser ist unprofessionell

**questions consumer****problem definition**

No

**explanations**

Es gibt keinen Beweis, dass große Warnhinweise besser wirken. Wahrscheinlich gibt es bei Verwendung der Bilder wieder Sammler für die schlimmsten. Weiße Packungen ohne Verwendung von Marken kommt einer intellektuellen Enteignung gleich. Fälschern wird das Leben dadurch leichter gemacht. Die Leute werden trotzdem rauchen. Die Bürger werden wie unmündige behandelt.

**which option**

No change

**additional option**

Was heute an Warnhinweisen und Restriktionen vorhanden ist, reicht völlig!

**questions on reporting****problem definition**

No

**explanations**

Mitgliedsstaaten können bereits Sanktionen verhängen - das soll den Ländern überlassen sein.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

Die Geschmäcker der Menschen sind unterschiedlich - die bloße Veränderung bzw. Verbot von Inhaltsstoffen ändert doch nichts an der Rauchgewohnheiten! Immer diese Zwangsmaßnahmen gegen den mündigen Bürger, der doch selbst entscheiden kann was er raucht!

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Jugendschutz ist notwendig! In Deutschland ist es für eine Person unter 18 Jahren nicht möglich, Zigaretten am Automat zu kaufen. Im Zweifel ist der Automat sicherer als der traditionelle Handel.

**explanations**

ich möchte frei in meiner entscheidung sein, welche produkte ich kaufe, daher möchte ich eine ansprechende äußere gestaltung nicht vermissen. der freie wettbewerb darf nicht eingeschränkt werden. welches produkt wird als nächstes auf die "abschussliste" gesetzt...? als freier, mündiger bürger möchte ich nicht ständig in allem und jedem bevormundet werden,

### **identification**

#### **affiliation**

citizen

#### **name**

Martin Schemel

#### **email**

raucherdienst-schemel@t-online.de

#### **country**

Deutschland

### **questions scope**

#### **problem definition**

No

### **explanations**

- Die Problemdarstellung enthält lediglich vage Einschätzungen im Hinblick auf einen mögliche Binnenmarktverzerrung oder ein mögliches Versagen bei der Sicherstellung eines hohen Gesundheitsschutzniveaus aufgrund fehlender einheitlicher Bestimmungen für die Regulierung von nikotinhaltigen oder zigarettenähnlichen Produkten in den Mitgliedstaaten. Zudem vermeidet die Kommission jede Form der Wertung in Bezug auf das Subsidiaritäts- und Verhältnismäßigkeitsprinzip. - Jede Form der Regulierung von "Tabakerzeugnissen" muss auf der Grundlage wissenschaftlicher Erkenntnisse sowie der zweifelsfrei gegebenen Rechtssetzungskompetenz der EU basieren. Dies gilt auch für mögliche Regulierungen oder gar Verbote für nikotinhaltige Produkte, die keinen Tabak enthalten oder zigarettenähnliche Produkte (Kräuterzigaretten). - Eine Einbeziehung von nikotinhaltigen Produkten oder zigarettenähnlichen Produkten in den Geltungsbereich der Richtlinie kann nicht allein aus der Begründung heraus erfolgen, dass diese Produkte neu sind und nach der Auffassung der Kommission auch auf eine entsprechende Nachfrage in den einzelnen Märkten der EU27 treffen.

### **which option**

No change

### **questions smokeless**

#### **problem definition**

No

### **comments**

- Der Konsum rauchloser Tabakerzeugnisse durch erwachsene und aufgeklärte Personen gefährdet weder die Gesundheit Dritter noch schränkt der Konsum dieser Produkte andere Personen in ihren Lebensgewohnheiten ein. Der Konsum dieser Produkte liegt in der Eigenverantwortung des Einzelnen. Das Bewerben und Verkaufen dieser Produkte muss daher möglich sein. - Das EU-weite Verbot von Snus (AUSNAHME Schweden) stellt eine

massive Entmündigung der Bürger dar. Denn die erwachsenen Verbraucher haben das Recht, auch bei Genussmitteln mit Gesundheitsrisiken die Wahl zu haben und eigenverantwortliche Entscheidungen zu treffen.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

- Es existiert bereits ein allgemeines Bewusstsein der Risiken des Rauchens. Ein Hinzufügen von Bildern auf den Warnhinweisen erhöht dieses Bewusstsein nicht- die Bilder wirken lediglich abstoßend ohne eine zusätzliche Information zu bieten. - Es wird pauschal unterstellt, dass die Einführung von Bildhinweisen auf das Rauchverhalten der Verbraucher einwirkt. Dafür werden allerdings keine Nachweise aus den Ländern zugeliefert, in denen Bildwarnhinweise bereits verpflichtend eingeführt wurden. Eine Einheitspackung würde den Wesensgehalt des Markenrechts und damit auch die Interessen der Verbraucher verletzen. Eine Marke dient nämlich auch als Herkunftshinweis und ist somit ein unverzichtbares Element zur Wahrung der Entscheidungs- und Wahlfreiheit der Bürger. - Die Einführung von Einheitspackungen für Zigaretten wäre eine massive Entmündigung der Bürger. - Durch die Umsetzung von neutralen Verpackungen wird Produktfälschern die Arbeit erleichtert und das Problem des Schmuggels weiter verschärft. Dies bedroht die Existenz des rein national tätigen Groß- Einzelhandel in Deutschland.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Ob die Behörden Schwierigkeiten bei Vergleich und Analyse der Daten haben oder die Erfassung und Analyse der gemeldeten Daten über Inhaltsstoffe erhebliche Ressourcen auf Seiten der zuständigen nationalen Behörden erfordern, wie von der Kommission dargestellt, kann nicht beurteilt werden. - Wenn dies so wäre, verwundert es sehr, dass der Anstoß in Richtung einer Vereinheitlichung und Vereinfachung nicht aus den Mitgliedsstaaten selbst hervorgeht, sondern von der Kommission vorgebracht wird und dann im Zusammenhang mit einer Option, die der Wirtschaft zusätzliche dauerhafte Kosten (jährliche Gebühr ) auferlegen würde.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Die Problemdarstellung ist keine sachgerechte, an wissenschaftlichen Prüfstrategien und Standards orientierte und am Maßstab der Verhältnismäßigkeit ausgerichtete Diskussionsgrundlage. Der Begriff attraktiv ist ein subjektives Kriterium für ein Verbot oder eine Regulierung von Zusatzstoffen und entbehrt jeglicher wissenschaftlicher Grundlage. Die Verbreitung des Rauchens in Ländern wie Großbritannien und Irland, in denen vorwiegend Zigaretten ohne Zusatzstoffe verkauft werden (Produkte des Virginia-Typs), ist nicht geringer als die Verbreitung in Ländern, in denen vorwiegend Zigaretten mit Zusatzstoffen (American-Blend-Produkte) verkauft werden. Wettbewerbsrechtliche Auswirkungen einer einseitigen Regulierung von Produkten werden nicht thematisiert. Die Frage nach der Wirkung auf das Preisgefüge in den EU 27 Märkten sowie Effekte auf den illegalen Handel mit Tabakerzeugnissen werden nicht thematisiert.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Die Problembeschreibung trifft nicht zu. In 15 Mitgliedstaaten der EU27 dürfen Tabakwaren über Automaten abgegeben werden. Dies erfolgt i.d.R. unter strengen gesetzlichen Auflagen der nationalen Regierung. Der Problembeschreibung stimme ich nicht zu. Die Bereiche "Verkauf" von Tabakwaren über Zigarettenautomaten und "Mindestaltersgrenzen für den Bezug von Tabakwaren" sind Themen, die eindeutig in den Zuständigkeitsbereich der Mitgliedstaaten fallen.

**which option**

No change

**additional option**

Die Problembeschreibung "Zigarettenautomat" ist überflüssig, da die Kommission selbst bereits bei ihrem Bericht zur Umsetzung der Ratsempfehlung 2003/54/EC aus November 2009 festgehalten hat: Insgesamt ist die Umsetzung der Empfehlung zufriedenstellend. Die betrifft insbesondere die VGpflichtung, das Mindestalter für den Kauf von Tabakwaren zu überprüfen sowie die Durchführung von Maßnahmen zur Beschränkung der Verwendung von Automaten durch minderjährige Personen. Weder ein Verbot des Verkaufs von Tabakwaren in Automaten, noch die Untersagung der Auslagen bzw. Sichtbarkeit von Zigaretten in Verkaufsstellen weisen einen grenzüberschreitenden Bezug auf. Für Automaten ergibt sich das schon daraus, dass deren Einzugsgebiet auf die unmittelbare Nachbarschaft zum Automaten beschränkt ist. Selbst wenn von Mitgliedstaat zu Mitgliedstaat unterschiedliche Anforderungen an die Gestaltung der Automaten - z.B. aus Gründen des Jugendschutzes - den grenzüberschreitenden Handel mit den Automaten behindern, würde ein Verbot der Automatenaufstellung dem gemeinschaftsweiten Warenhandel mit Automaten die Grundlage entziehen, diesen also beeinträchtigen und ihn nicht erleichtern. Die EU kann nur tätig werden, wenn sie die Kompetenz dazu hat - diese Kompetenz ist in den EU-Verträgen festgelegt. Ein Verweis darauf, dass bisher weder die Frage der begrenzten Einzelmächtigung, der Subsidiarität oder der Verhältnismäßigkeit in Bezug auf die einzelnen Maßnahmen oder Optionen hin geprüft wurde, ist inakzeptabel. Die Problembeschreibung wird daher mangels

fehlender juristischer Vorwertung der Kommission nicht mitgetragen.

### **additional comments**

Dass die Existenz von Zigarettenautomaten einen Einfluß auf das Rauchverhalten Jugendlicher hat, ist wissenschaftlich nicht nachgewiesen. In Ländern mit einem Automatenverbot fällt die Quote jugendlicher Raucher zum Teil deutlich höher aus als in den Ländern mit einer Automatenvertriebsstruktur. Pläne der Europäischen Kommission zur Abschaffung der Automaten schränken daher die Bezugsmöglichkeiten erwachsener Verbraucher ein, dienen dem Jugenschutz jedoch in keiner Weise. Organisierte Kriminalität wird das Vakuum füllen, das entsteht, wenn legale Verkaufs- bzw. Bezugstellen verschwinden. Die Problembeschreibung verschweigt wesentliche Sachverhalte, die für die abschließende Bewertung von Bürgerinnen und Bürgern von Wichtigkeit sein können. Beispielhaft sei hier eine Stellungnahme der Deutschen Bundesregierung vom 01.04.10 im Rahmen einer kleinen Anfrage der Fraktion Bündnis 90/ Die Grünen im Hinblick auf ein generelles Automatenverbot genannt: Im Rahmen der Verhältnismäßigkeit sieht die Bundesregierung die bereits existierenden gesetzlichen Vorschriften und die in Vollzug dieser Vorschriften erfolgte Umsetzung der technischen Sicherung von Zigarettenautomaten durch Alterskontrolle per Geldkarte oder europäischem Führerschein als derzeit ausreichend und als die mildesten Mittel an, um das Abgabeverbot von Tabakwaren durch Automaten an Minderjährige wirksam zu regeln.

Eine Änderung der Gesetzgebung würde zu einer immensen Schwarzmarkttätigkeit führen und der organisierten Kriminalität ein weiteres großes Betätigungsfeld bieten. Eins ist klar ein Raucher wird in jedem Fall nicht von der geplanten Änderung abgeschreckt!

**questions scope****problem definition**

Yes

**which option**

No change

**recommend option**

Nein, ich bin nicht einverstanden, dass die Richtlinien des Geltungsbereiches erweitert werden.

**additional comments**

Nur nach sachgerechten wissenschaftlichen Grundlagen sollten Regulierungen eingeführt/erweitert werden.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

Das Snus-Verbot ist aus wissenschaftlichen Gründen ganz und garnicht gerechtfertigt. Es sollte aufgehoben werden! Informierte Erwachsene müssen die Möglichkeit zum Kauf von Snus haben. Aufgrund wissenschaftlichem Beweismaterial ist Snus weit weniger schädlich als Zigaretten, außerdem wurde nachgewiesen, dass die Verfügbarkeit von Snus in Schweden zu einer Reduzierung des durch Tabak verursachten Schadens geführt hat.

**additional comments**

Das Snus-Verbot ist aus wissenschaftlichen Gründen ganz und garnicht gerechtfertigt. Es sollte aufgehoben werden! Informierte Erwachsene müssen die Möglichkeit zum Kauf von

Snus haben. Aufgrund wissenschaftlichem Beweismaterial ist Snus weit weniger schädlich als Zigaretten, außerdem wurde nachgewiesen, dass die Verfügbarkeit von Snus in Schweden zu einer Reduzierung des durch Tabak verursachten Schadens geführt hat.

**questions consumer**

**problem definition**

No

**explanations**

Längst existiert ein ausgeprägtes Bewusstsein der Risiken des Rauchens, das nicht erhöht werden kann durch Hinzufügen von Bildwarnhinweisen. Wissenschaftliche Untersuchungen und die Realität beweisen, dass eine Vergrößerung der Warnhinweise NICHT eine Aufgabe des Rauchens mit sich zieht - siehe Belgien, Großbritannien etc.. Es gibt keinen Beweis, dass die Größe oder gar die Platzwahl des Warnhinweises Einfluss auf die Wirksamkeit hat.

**which option**

No change

**additional option**

Ich unterstütze es nicht, dass die Zahlen vollständig entfernt werden, bin jedoch der Auffassung, dass die gegenwärtigen ISO-Zahlen durch eine Auswahl an Zahlen ergänzt werden könnten. Die Ermittlung der Zahlen könnte durch das Health-Canada-Messverfahren ermittelt werden. TNCO-Zahlen liefern tatsächliche Informationen für mich als Verbraucher und geben mir einen Hinweis auf die Geschmacksintensität. Es gibt keine Beweise, dass qualitative Informationen von Verbrauchern verstanden würden oder wirksamer wären als die bereits vorhandenen Warnhinweise.

**additional comments**

Eine Telefon-Hotline wäre denkbar.

**questions on reporting**

**problem definition**

No

**explanations**

Ich bin gegen eine Entfernung der Zahlen, sie geben mir Hinweise auf Geschmacksintensität und Stärke des Tabaks.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

Die Zusatzstoffe sind wichtig!

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Problemdarstellung beschreibt wirklich nicht das Problem! Zwar unterstütze ich Einschränkung bei Verkaufsautomaten, allerdings gibt es keinen Nachweis, dass Maßnahmen in diesem Bereich wirklich erforderlich sind

**which option**

No change

**additional option**

Nein. Problemdarstellung beschreibt kein Problem. Ein Verbot aller Verkaufsautomaten würde nicht den Handel zwischen EU-Mitgliedsstaaten erleichtern. Auch eine Förderung von Gesundheitszielen würde nicht erreicht werden. Es gibt keinen Beweis, dass ein Verbot etwas erreichen würde.

Die Einbeziehung von weiteren Produkten erfolgt offensichtlich willkürlich und nicht auf Basis wissenschaftlicher Erkenntnisse. Nur weil etwas neuartig ist, ist es nicht per se gefährlich bzw. schädlich.

#### **which option**

No change

#### **questions smokeless**

##### **problem definition**

No

#### **comments**

Rauchloser Tabak schädigt keine Mitmenschen, da hier kein Tabakrauch oder ähnliche Einflüsse auf die Mitmenschen entstehen. Zudem sind rauchlose Tabakwaren i.d.R. mit einem Abgabeverbot an Minderjährige belegt und somit nur für Erwachsene erhältlich. Der Erwachsene soll seine Konsumententscheidung frei treffen können.

#### **which option**

Lifting the ban on snus

#### **questions consumer**

##### **problem definition**

No

**explanations**

Das Wissen über die Gefahren des Rauchens sind in der gesamten EU bekannt. Die aktuellen Warnhinweise machen dies zudem ausreichend deutliche. Ausufernde Hinweise bzw. Abbildungen würden das vorhandene Wissen nicht verändern.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Die aktuellen Regelungen sind ausreichend. Geschmackliche Unterschiede müssen auch bei Tabakwaren erlaubt sein.

**which option**

No change

**regulation of ingredients****problem definition**

No

**explanations**

Auch bei Tabakwaren sollten Geschmacksunterschiede möglich sein. Außerdem scheinen die EU-Staaten sehr unterschiedliche Ansichten bei der Bewertung der verschiedenen Zusatzstoffe zu haben.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Die aktuellen Regelungen (Abgabeverbot) in Deutschland sind sehr effektiv. Zudem würden Eingriffe in die Vertriebsstrukturen nur der organisierten Kriminalität in die Hände spielen!

Bevor eine Regulierung von Tabakerzeugnissen erfolgen kann, müssen wissenschaftliche Erkenntnisse zugrunde liegen. Dies ist nicht der Fall.

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

Das Verbot von Snus stellt eine Entmündigung der Bürger dar. Jeder erwachsene Verbraucher sollte für sich selbst entscheiden können.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Es ist nicht bewiesen, dass die Größe des Warnhinweises die Wirksamkeit unterstützt. Ferner ist die Allgemeinheit sich bereits über Risiken des Rauchens im Klaren. Eine Einheitspackung wäre eine Entmündigung der Bürger, da die Packung der Zigarette die Herkunft aufzeigt. Sollte eine Einheitspackung eingeführt werden konzentriert sich der Markt nur noch auf die Preise. Diese würden fallen und somit den nationalen Einzel- und Großhandel um ihre Existenzen bringen.

die politik hat wohl keine größeren probleme als solche banalen dinge anzugehen!! wie endmündigt sollen wir noch werden ! konzentriert euch auf wichtigere probleme um die politik lobby!!

**which option**

No change

**recommend option**

jeder mensch und jeder bürger hat seine entscheidungsbefugnis wenn solch ein gesetz kommt muss man jegliche werbung in europa verbieten aber das schlimmste darüber denkt die politik nicht nach jeder mensch zerstört sich selber aber das die menscheit durch großindustrie diesen planeten zerstört das interessiert niemanden

**additional comments**

geht liebe mal an die banken und holt euch da das geld wieviel will die EU mit den irsinnigen beschlüssen noch kaputt machen rationalisiert besser mal die politiker in Brüssel weg die sind überflüssiger wie eine zigarette die kann man genießen ihr seit nur zum würgen!! aber das wird wohl nie geschehen weil die politiker in brüssel ja viel geld verdienen plus die flüge die kostenlos sind plus die wohnung plus die sekretärin alles überflüssig aber das volk wird ja nicht gefragt !! euch sollte man einsperren damit ihr mal seht in was für einem land ( Gefängnis man lebt ) was für rechte haben wir noch die DDR war Gold im gegensatz was die EU ist

**questions smokeless****problem definition**

No

**comments**

jeder mensch kann selbst entscheiden was er kauft oder auch nicht und die farben oder das verschwinden der zigaretten wird sicher niemand verbieten lassen aber der schwarzmarkt freut sich sehr vielleicht dann eine neue geschäftslücke

**which option**

No change

**questions consumer****problem definition**

Yes

**which option**

No change

**additional comments**

laßt es einfach so wie es ist und rationalisiert denn staat nicht selbst weg ihr tickt doch nicht merh richtig was für mühen das mit sich bringt komplette lladeneinrichtungen müüsen umgestalltet werden wer übernimmt diese kosten die EU

**questions scope**

**problem definition**

Yes

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

no scientific evidence concerning the risks related to smokeless products consumption

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

no scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers

**which option**

No change

**additional comments**

the knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no added value by the increase of information; negative impact on the fulfilments of sector operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

it's not possible to prove in advance the impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation, with a consequent reduction of the principle of free market and the risk of increase of counterfeited products

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale; Access to vending machines to be restricted to adults

**additional option**

sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale

**additional comments**

there is no evidence of the correlation between display ban and consumption reduction. In other countries- see Canada for example -important loss have been recorded for the tobacco retailers and an increase of illegal trade of tobacco products

---

**questions scope**

**problem definition**

No

**explanations**

Der Staat oder die EU haben sich nicht um alle Belange der Bürger zu kümmern, bzw. dürfen nicht alles reklementieren. Wie brauchen kein Gesetz, wie Tabakwaren verpackt werden müssen. Es gibt echte Probleme, mit der sich eine europäische " Regierung " beschäftigen sollte. Eine solche Regelung würde ich nur als Gängelerei betrachten. Aktionismus. Eine Kommission muss nicht überall handeln, wo sie darf. Oder kann sie nicht mehr ?

**which option**

No change

**recommend option**

Ich sehe kein Problem in den Verpackungen der Tabekwaren.

**additional comments**

Ich möchte es nicht falsch verstanden wissen. Was ist wenn nicht mehr geraucht wird ? Was wird als nächstes verboten ? Es müssen alle Menschen sterben. Einige, weil sie geraucht haben. Wenn sie nicht geraucht haben, dann sterben sie an etwas anderem. Wenn es um die Kosten geht, dann ist das nur ein Teil. Was ist mit Alkohol ? Wann werden andere " Rauschmittel " erlaubt ? Was wird als nächstes " Verboten " ?, bzw. eingeschränkt. Es wird ein Fass ohne Boden, nur damit die Kommission beschäftigt ist ? Dafür sollte sie nicht eingesetzt werden. Da ist die Kommission zu teuer für uns Bürger.

**questions smokeless**

**problem definition**

No

**comments**

Die Kommission muss sich heraushalten aus diesem Thema.

**which option**

No change

**additional option**

Die Kommission darf sich mit anderen Fragen beschäftigen. Dieses kann von keiner Kommission oder Regierung umfassend bearbeitet werden. Selbst wenn man das Rauchen verbieten würde, dann werden die Menschen weiter rauchen. Es gibt genügend Länder in den der Alkohol verboten ist und er wird trotzdem getrunken. Was meint die Kommission, welchen Einfluss sie auf die Bürger hat ? Wenn sie hier ihre Stärke zeigen will, dann verliert sie an respekt bei den betroffenen Bürgern.

**recommend option**

The scope of the Directive can be extended to cover these other products, but this should not include an automatic ban on one category of product (novel forms of oral tobacco). Any bans should be based on scientific assessments.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

There is no evidence that bigger warnings are more effective. There is no evidence that plain packaging would improve the functioning of the internal market or have any public health benefits. It would make it easier for criminals to copy legitimate brands and would lead to an increase in illegal sales of cigarettes.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Member States can already introduce fees and sanctions. Enforcement of the provisions of the Directive should remain the responsibility of the member states.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

The focus on ingredients testing should be on whether the ingredients result in increased toxicity of tobacco smoke.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

There is no clear problem stated as regards either vending machines or point of sale display. There is no evidence provided as to why bans would improve the functioning of the internal market or advance any public health objectives.

**questions scope**

**problem definition**

Yes

**which option**

Extend the scope of the Directive

**questions smokeless**

**problem definition**

Yes

**which option**

Ban on all types of smokeless tobacco products

**questions consumer**

**problem definition**

Yes

**which option**

Introduce generic or plain packaging

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**additional comments**

No ingredients in tobacco products - only tobacco.

**regulation of ingredients**

**problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a negative common list of tobacco ingredients

**additional comments**

No ingredients in tobacco products - only tobacco.

**access to tobacco products**

**problem definition**

Yes

**which option**

Ban

**which one2**

Cross-border retail sales of tobacco to be banned over the Internet; Vending machines to be banned; Promotion and displays in retail stores to be banned

**additional option**

Ban of indirect advertising (image-commercials) for tobacco and nicotine-products. Ban of

selling of tobacco and nicotine-products to persons under the age of 21 years. A tax of 2 Euros for every (!) cigarette smoked by a person below 21 years of age, to be determined by established statistical methods. A deposit of 1 Euro per tobacco package and 10 cent per cigarette stubs.

**additional comments**

Refunding the costs for treatment of smoke-induced illness and of the loss of working hours by the tobacco industry. Banning the sale and consumption of tobacco products in the EU would be the best strategy.

djstepi@aol.com

**country**

Deutschland

**age**

31

**gender**

male

**questions scope**

**problem definition**

No

**explanations**

Die Regulierung dieser Produkte sollte Ländersache bleiben, da die jeweiligen Marktgegebenheiten mit berücksichtigt werden sollen.

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

Ich bin der Meinung das alle Bürger ab dem 18 Lebensjahr für sich selbst entscheiden

können, ob Sie ein Produkt zu sich nehmen oder nicht. Es ist hierbei auch keine Gefährdung anderer gegeben, also warum lässt man nicht jeden selbst entscheiden. Es gibt sovielen Lebensmittel die auch nicht Gesund sind, diese werden ja auch nicht verboten.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Ich bin der Meinung das jeder Raucher sich bewußt ist, dass das Rauchen nicht Gesund ist. Es gibt jede Menge andere Gesundheitgefährdende Dinge (z.B. im Sport, Lebensmittel etc.) auf denen ist kein Warnhinweis oder Bild zu Abschreckung. Ich als EU-Bürger möchte nicht bevormundet werden. Auch die Idee von einer neutralen Verpackung empfinde ich als Bevormundung, wo bleibt die Freiheit?

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Dies sollte auch wieder Ländersache bleiben, eine gemeinschaftliche Erfassung wäre nur mit hohen Kosten und ohne Nutzen.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Warum benötigen wir hier wieder eine Eu Weite Regelung, ich denke jedes Land hat momentan eine ausreichende Regelung. Jegliche Art der Änderung wäre wieder mit Kosten verbunden.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Soll mir schon wieder die Freiheit genommen werden? Im Internet kann ich eigentlich alles

bestellen, warum sollten hierbei wieder Einschränkungen gemacht werden, sonst kann hier so ziemlich alles Verboten werden (den es ist viel Gesundheitsgefährdend was dort angeboten wird). Auch das Verbot von Zigarettenautomaten sehe ich als Einschränkung meiner Freiheit, mittlerweile muss ich mich ja schon am Zigarettenautomat als über 18 jähriger durch meine EC-Karte legitimieren. Deshalb besteht keine Gefährdung der Jugend sondern nur eine weitere Option mich als Eu Bürger einzuschränken und zu bevormunden.

Rauchen ist gefährlich. Ich bin trotzdem gegen eine noch weitergehende Diskriminierung. Wir erwägen doch keine Aufkleber mit Unfallopfern auf Sportwagen oder solche mit ruinierten Obdachlosen auf Luxusprodukten.

**comments**

Snus is not different from other smokeless tobacco and should therefore not be discriminated in the EU.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Legal products should be able to display their trademarks - an introduction of plain packaging would be a serious violation of trademark rights.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Die Problematik ist ausreichend definiert. Länderspezifische Vorgaben sind ausreichend. Hierzu sind die jeweiligen Marktgegebenheiten zu berücksichtigen.

**which option**

No change

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Tabakwaren werden nur an Bürger über Jahre verkauft. Diese sind mündig und sind sich durchaus im Klaren, welche Entscheidung sie treffen und welche Risiken sie gegebenenfalls eingehen. Hierzu benötigt man keinerlei zusätzliche bildhafte Darstellungen zur Abschreckung. Die Bevormundung des Bürgers wird von der Politik vorangetrieben. Diese Bevormundeten sollen aber bei Wahlen eigenständig an die Wahlurne gehen und die politischen Vertreter wählen. Diese Form von Politik ist entwürdigend und freiheitsberaubend. Es gibt tausende gesundheitsgefährdende Dinge im Sport, bei der Ernährung und in der alltäglichen Fortbewegung. Sollen überall Warntafeln mit abschreckenden Bildern aufgestellt werden oder glaubt man noch an die Eigenverantwortung eines jeden?

**which option**

No change

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**additional options**

mit dem Hintergrund eines einheitlichen Meldewesens wird der bürokratische Aufwand gemindert. Deshalb sollten keinesfalls Gebühren erhoben werden. Die Gesetzgebung macht dies erforderlich und erfordert somit auch einen Aufwand bei den Herstellern

**regulation of ingredients****problem definition**

No

**explanations**

Geschmacksstoffe gehören zum Genuss von Tabakwaren dazu oder essen sie Fleisch stets ohne Soße oder liegen im Sommer nie in der Sonne?

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Der Verkauf von Tabakwaren ist gesetzlich mit dem Mindestalter geregelt. Dieser Regelung kommen die Automatenaufsteller über die Altersprüfung am Zigarettenautomat nach. Im Handel findet diese Prüfung ebenfalls statt. Tabakwaren sind Handelswaren und deshalb sichtbar zu verkaufen. Auch die Unterscheidbarkeit und klare Zuordenbarkeit der Marken über ihr Logo muss dem Konsumenten weiter gewährt werden. Mit Ihren Vorschlägen diskriminieren Sie eine ganze Branche und alle Raucher und eine über Generationen bestehende Rauchkultur. Die Freiheit, die in einer Demokratie bestehen sollte, wird durch diese beabsichtigten Maßnahmen schwerwiegend in Frage gestellt. Der Europäische Gedanke geht durch solch eine Politik vollständig verloren. Freiheit, Selbständigkeit, Bildung und Fortschritt stehen im Mittelpunkt unseres gemeinsamen Strebens. Pisa-Studien bekunden den hohen Bildungsstand unserer Gesellschaft - dieser stellen Sie kontraproduktiv Verbote in den Weg und nehmen ihr die freie Entscheidung.

Bevor man über sowas nach denkt sollte man sich klar vor Augen halten wieviele Alkoholiker es gibt und darüber redet keiner.....Oder gibt es auch Statistiken darüber wie oft Unfälle passieren durch Zigaretten.....Wer verdient den an der Zigarette das ist der Staat die EU und jetzt sowas....Drogen sind auch verboten und wieviele Menschen nehmen Drogen???? Also was die EU vor hat ist meiner Meinung nach sinnlos und kostet uns Steuerzahler nur wieder Geld nein Danke.... Was auf der Packung ist-ist doch egal es wird trotzdem geraucht....

**questions scope****problem definition**

No

**explanations**

A full investigation into the use of electronic cigarettts is needed before further action is taken Electronic cig use has helped me improve my health , now im breathing easier and able to walk further without problems etc Banning these products is a step back in improving peoples health

**which option**

Extend the scope of the Directive

**additional comments**

having used an E-CIG for the last 6 months ive been feeling much fitter and healthier , not neede to see my doctor for the age old bronchial problems ive suffered due to smoking tobacco. Thus it makes more sense to let the nicotine liquid used in e-cigs to be kept on the open market.Allowing this will let people choose to use whatever product they wish . ive found that the majority of people using e-cigs have found they are feeling much healthier and thus not needing to burden the health service , saving major costs .

**questions smokeless****problem definition**

No

**comments**

nicotine liquid as used in e-cigs is far less harmful in comparison to smoking tobacco, should therefore NOT be included in the ban

**which option**

Lifting the ban on snus

**additional option**

Allowing free trade in nicotine liquid as used snus and ecigs throughout the EU

**additional comments**

banning the ecigs and nicotine products used in them is a breach of human rights , and would result in a black market arising for these products giving more work for the authorities to keep the products out of the EU

**questions consumer****problem definition**

No

**explanations**

the document is full of mis-information and further studies are needed to asses the affects to health from using snus as oppsed to smoking tobacco

**which option**

Improve consumer information

**which improvement**

Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products

**questions on reporting****problem definition**

No

**explanations**

see previous comments

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

as previous

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a negative common list of tobacco ingredients

**additional option**

as in food all ingredients have to be listed therefore tobacco should be treated in the same way with a full comprehensive list of all chemicals and compounds found within. Stating the possible health risks undertaken by smoking tobacco

**access to tobacco products****problem definition**

Yes

**which option**

No change

**questions scope**

**problem definition**

Yes

**which option**

Extend the scope of the Directive

**additional comments**

die "normale" zigarette reicht doch vollkommen aus. außerdem höre ich gerade zum ersten mal von all diesen sachen.

**questions smokeless**

**problem definition**

Yes

**which option**

Ban on all types of smokeless tobacco products

**questions consumer**

**problem definition**

No

**explanations**

Wozu denn bitte das ganze? so lange es zigaretten gibt, so lange gibt es auch unterschiedliche marken, mit unterschiedlichen designs. das macht die zigarettenmarke eben aus. Abgesehen davon, von sagen wir jetzt mal 1.000 Rauchern was glauben sie wie viele von denen mit dem rauchen aufhören werden, weil da abschreckende bilder drauf sind? ich meine jeder weiß doch nun was er seinem körper mit dem rauchen antut, dank der netten sprüche die ja nun schon eine ganze weile auf den packungen drauf stehen. Aber rauchen ist eben auch eine sucht. wenn man diese bilder dann sieht macht man sich im ersten moment vielleicht gedanken darüber. aber letzten endes wird in den meisten fällen dann doch die sucht siegen.

**which option**

No change

**additional comments**

mich würde es wirklich mal interessieren wer sich solche schwachsinnigen ideen einfallen lässt. ich meine jetzt mal ganz im ernst: meint ihr nicht auch dass es wichtigere dinge auf der welt gibt die verändert werden müssen?

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

Yes

**which option**

Introducing the basic criteria on the EU level without a common list

**access to tobacco products****problem definition**

No

**explanations**

ich stimme in den punkten mit dem zigarettenautomaten-verbot und mit der untersagung der präsentation von tabakwaren nicht zu.

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

Hier findet meiner Meinung nach eine Überregulierung statt. Mündige und Erwachsene Bürger wissen um die Bedeutung und die Risiken beim Rauchen. Auf jeder Packung wird dies in Landessprache abgedruckt. Wie sieht es überhaupt mit der Landessprache bei dieser Umfrage aus? Viele Mitglieder der EU sind automatisch von der Umfrage ausgegrenzt. Aber weiter zum Thema Verbraucherinformation. Plain Packungen sind ebenfalls abzulehnen da hier Kunde noch weniger informiert wird, im Gegensatz zum heutigen Standard. Zum anderen öffnet es für Fälscher, Tür und Tor, ihrem Geschäft besser nachzukommen. Eins muss klar werden, den Raucher werden diese Massnahmen nicht abschrecken, er wird für seinen Genuss Mittel und Wege finden sich diese legale Produkt zu beschaffen. Verbote, Einschränkungen bringen da kaum Erfolg, das hat in den 20- 30er Jahren in den USA die Prohibition gezeigt. Der Mensch muss überzeugt werden vom Rauchen zu lassen. Diese Aktionen sind dafür keine provaten Mittel diese Ziel zu erreichen. Es kostet viel Geld, ruft Kopfschütteln hervor und ist so überflüssig wie ein Kropf.

No change

**questions consumer**

**problem definition**

Yes

**which option**

No change

**additional comments**

Was soll eigentlich mit den tausenden Tabakfachgeschäften sein, die sehr viel Geld in die Wirtschaft gepumpt haben- jetzt sollen sie für den Verkauf Ihrer Ware durch die EU behindert werden- alle schweigen dazu!

**questions on reporting**

**problem definition**

Yes

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Tabak-u.Nikotinerzeugnisse, die nicht den EU- Rechtsvorschriften unterworfen sind, sollen weiterhin von der Gesetzgebung der Mitgliedsstaaten erfasst werden !

**which option**

No Change

**additional option**

Kein Wechsel der bisherigen selbstständigen gesetzgebung der EU-Mitgliedsstaaten!

**additional comments**

Jeder Staat muß das Tabakproblem selbst im Griff haben und beherrschen - die EU darf nicht alles beherrschen und diktieren. Die EU soll sich um Mitgliedstaaten kümmern, damit die nicht Pleite gehen- an die Arbeit! Ihr bekommt Geld dafür!!!

**questions scope****problem definition**

No

**explanations**

Meiner Meinung nach ist die Directive absolut ausreichend zum Schutz von Rauchern und Nichtrauchern.

**which option**

No change

**recommend option**

Kein Kommentar

**additional comments**

Kein Kommentar

**questions smokeless****problem definition**

No

**comments**

Da rauchfreie Tabakprodukte keine schädigenden Nebenwirkungen auf Dritte haben, das Passivrauchen also vermieden wird, sollte man doch diesen Produkten den Weg öffnen und sie im Gegenteil eher fördern. Gerade Snus, der in Schweden sehr häufig konsumiert wird, könnte das Problem des Passivrauchens und die Schädigung der Nichtraucher mindern.

**which option**

Lifting the ban on snus

**additional option**

Siehe oben

**additional comments**

Siehe oben

**questions consumer****problem definition**

No

**explanations**

Die Informationen, die auf den Packungen und den speziellen Internetseiten zum Thema Zusatzstoffe etc. gegeben werden, sind ausreichend, zumal sowieso jeder Raucher weiss, worauf er sich einlässt, wenn er zur Zigarette greift. Der Einsatz von grafischen Warnhinweisen macht in Ländern mit einer hohen Analphabetenrate vielleicht Sinn (was ich

jedoch bezweifle), Untersuchungen in Kanada und anderen Ländern hat jedoch gezeigt, dass im Gegenteil die grafischen Packungen gerade bei den jungen Rauchern noch begehrt waren. Diese Umsetzung wäre mit Sicherheit kontraproduktiv. Auch Einheitspackungen helfen hier nicht, da sich die Fälscher in China und Russland bereits jetzt erfreut die Hände reiben, denn dann wird Fälschen quasi kinderleicht.

**additional comments**

Kein Kommentar

**access to tobacco products**

**problem definition**

No

**explanations**

Ein Verkauf von Tabakprodukten unter dem Ladentisch oder aus zugesperrten Schränken heraus würde keine Änderung im Rauchverhalten bewirken, lediglich eine Wettbewerbsverzerrung, da die bestehenden großen Marken weiter geraucht würden, aber Neueinführungen keine Chance hätten und dadurch die Vielfalt für den Konsumenten stark eingeschränkt wäre.

## **Citizen submission**

### **identification**

#### **affiliation**

citizen

#### **name**

Pierre-Alain MICHEL

#### **email**

palain.michel@gmail.com

#### **country**

FRANCE

### **questions scope**

#### **problem definition**

Yes

#### **which option**

No change

### **additional comments**

This directive should include all tobacco product, including the futur one. Any decision (specialy bans) and should explained with scientific facts.

### **questions smokeless**

#### **problem definition**

Yes

#### **which option**

Lifting the ban on snus

### **additional comments**

By reading several articles it seems that snus is less armfull. You should anyway base your decision on scientific facts

### **questions consumer**

#### **problem definition**

No

### **explanations**

Their is no evidence that health warnings (messages and photos) have an impact on consumption. Their is no evidence either that a "generic" pack will have an impact on consumption. But I can imagine that "generic" packaging will help the illicit trade and conterfactors !

#### **which option**

No change

**questions on reporting  
problem definition**

No

**explanations**

Currently it is already possible to introduce fees and sanctions. This responsibility should remain at the EU country members level.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients  
problem definition**

No

**explanations**

By evaluating the ingredients, the only important concern is "does a change in the ingredient increase or decrease the toxicity of the smoke".

**which option**

No Change

**access to tobacco products  
problem definition**

No

**explanations**

The problem of the automatic distributors / Vending machines as well as the product visibility in the point of sale is not correctly stated. There is no evidence that those Bans will solve the public health issues' objectives. I also believe that it will support counterfeiters and develop the black market.

**additional comments**

Kein Kommentar

**access to tobacco products  
problem definition**

No

**explanations**

Durch einen eingeschränkten Zugang zu Tabakwaren würden diese Produkte mehr und mehr in die Illegalität abgedrängt werden und dadurch gerade für die jüngeren Raucher sehr hip und angesagt, weil "verboten". Was die Prohibition in den USA der 1920er Jahre angerichtet hat, ist historisch belegt, deshalb muss man mit Tabakprodukten keinen zweiten Präzedenzfall schaffen.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Bilder oder andere Warnungen auf Zigaretten oder anderen Tabakprodukten haben nicht den gewünschten Einfluss auf das Rauchverhalten der Konsumenten. Im Gegenteil, durch die

Wahrnehmung der Hinweise wird im Gehirn eine Region angesprochen, die nur noch mehr Lust/Verlangen nach einer Zigarette oder ähnlichem auslöst. Martin Lindstrom hat genau dies in seinem Buch "buyology" auf S. 14 und 15. beschrieben.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Mit der jetzigen Regelung erhält der Konsument genug Informationen.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Eine Zigarette wird ohne Inhaltsstoffe nicht "weniger schädlich". Für die Konsumenten, die lieber ohne Zusatzstoffe rauchen wollen, gibt es ein großes Portfolio solcher Zigaretten oder Tabake.

**which option**

No Change

**access to tobacco products**

**problem definition**

**questions scope****problem definition**

No

**explanations**

Verbraucher wissen über Gesundheitsrisiken Bescheid. Weitere Warnhinweise sind nicht nötig.

**which option**

No change

**additional comments**

Arbeitsplatzverluste drohen Weniger Steuereinnahmen und weniger Margen für Unternehmen Schwarzhandel nimmt zu

**questions smokeless****problem definition**

No

**comments**

Zusatzstoffe haben keine sucherzeugende Wirkung.

**which option**

No change

**additional comments**

Eine Einschränkung der Marken bedeutet eine Schwächung der Einzelhändler. Der illegale Markt wird zunehmen.

**questions consumer****problem definition**

No

**explanations**

Die Präsentation stellt kein Problem dar, da es sich um legale Produkte handelt. Der Zugang Jugendlicher ist so schon genug beschränkt.

**which option**

No change

**additional comments**

Verbraucher haben es schwer, ihre Marke zu finden. Neuer Hass gegen die Politik würde drohen. Sinkende Preise sind schädlich für Handel und Staat

**questions on reporting****problem definition**

No

**explanations**

Zusatzstoffe erhöhen nicht die Sucht

**which option**

No change

**additional comments**

Eine Einschränkung schwächt die Einzelhändler. Der illegale Markt wird zunehmen. Es gibt weniger Steuereinnahmen.

**regulation of ingredients****problem definition**

No

**explanations**

Zusatzstoffe machen nicht süchtig.

**which option**

No Change

**additional comments**

Durch ein Verbot verringert sich die Nachfrage, es kommt zu erheblichen Umsatzeinbußen für den gesamten Markt.

**access to tobacco products****problem definition**

No

**explanations**

Produktpräsentation ist kein Problem, da es sich um legele Produkte handelt. Jugendliche haben auch so keinen Zugang zu Tabakprodukten.

**which option**

No change

**additional comments**

Für Verbraucher wird es schwierig seine Marke ui finden. Weniger Wettbewerb gleich weniger Einnahmen für Handel und Staat. Illegaler Handel mit Zigaretten steigt.

sn23de@yahoo.de

**country**

Germany

**gender**

male

**questions scope****problem definition**

No

**explanations**

It is still a decision of my own to buy or smoke tobacco. Controlling the age of the people buying tobacco is more effective than prohibiting different brands. In the end, one big brand sells all of the tobacco, having a monopoly on the prices, the taste etc. That doesn't work with the capitalistic market which lives of different brands, prices and brand competitions.

**which option**

No change

**recommend option**

Prohibiting the vending-machines on public streets could solve the problem.

**explanations**

Meines Erachtens reichen die Warnhinweise und die Aufklärung durch die Gesundheitsorganisationen aus, um jedem Raucher ausreichend Aufklärung über sein Tun zu geben. Entscheidet er sich trotzdem für das Rauchen, so ist das seine persönliche Entscheidung und Freiheit. Ich bin sogar der Auffassung, dass ein Wegsperrern der Tabakprodukte gerade bei den "jungen" Rauchern zwischen 18 und 24 Jahren eine erhöhte Aufmerksamkeit und ein gesteigertes Verlangen nach den "verbotenen Dingen" zur Folge haben würde.

**recommend option**

Scope of Directive could be extended to cover other products, but this should not include an automatic ban on one product categorie. Any bans should be based upon scientific assessments.

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

There is no evidence and prove that bigger warnings are more effective! There is no evidence that plain packaging would improve functioning of the internal market or have any public health benefits. Criminals could easier copy and distribute legitimate brands and thus illegal sales of cigarettes would increase!

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Member states can already introduce sanctions and charges. Enforcement of the provisions of the directive should remain responsibility of the Member States.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

The focus of ingredients testing should be on whether the ingredients result in increased toxicity of tobacco smoke

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

There is no clear problem satted as regards either vending machines or point of sale display. There is no evidence provided as to why bans would improve the functioning of the internal market or advance any public health objectives.

**which option**

No change

**recommend option**

Ohne wissenschaftliche Beweise sollten keine weiteren automatischen Verbote verhängt werden.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Es gibt keinen Beweis dafür, dass größere Warnhinweise mehr bringen. Es ist auch nicht nachgewiesen, dass Plain Packaging irgendeine Wirkung auf die öffentliche Gesundheit oder einen nationalen Markt hat. Ganz im Gegenteil: der Produktfälschung und dem Schwarzmarkt wären Tür und Tor geöffnet.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

In den Mitgliedsstaaten gibt es bereits Möglichkeiten der Saktionierung. Die Durchsetzung einer solchen Richtlinie sollte in der Hand der Mitgliedsstaaten bleiben. Das ist völlig ausreichend.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

Bei den Tests der Zutaten sollte man das Hauptaugenmerk darauf legen, ob sie den Tabakrauch giftiger machen.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Es gibt keine Beweise dafür, dass das Vorhandensein von Zigarettensautomaten oder Werbung im Geschäft schadet. Also sollte es euch kein Verbot geben, denn das würde nicht zur öffentlichen Gesundheit beitragen.

**which option**

No change

**questions scope****problem definition**

No

**explanations**

Ich (Nichtraucher) bin der Überzeugung, daß die geplanten Gesetze und Verordnungen als Motiv in keiner Weise den Gesundheitsschutz haben. Wäre dem so, dann müßten Sie alle bislang legalen Drogen (auch Bier, Sekt Wein und Spirituosen) komplett verboten werden. Was die "Luftverpestung" angeht, so müßten alle PKWs einheitlich aussehen, damit nicht durch Farben oder Formen ein Fahrzeug gewählt würde, daß mehr krebserregende Abgase oder CO<sub>2</sub> an die Umwelt abgibt. Bekanntlicherweise sehen Nichtraucherlungen in Großstädten schlimmer aus als Raucherlungen auf dem Lande. Also eigentlich PKW Verbot. Europaweit. Da bislang aber weder auf Alkohol noch auf PKWs Warnhinweise versehen sind, sind aus meiner Sicht all diese Maßnahmen nichts als blanke Verordnungswut. Die Selbstbestimmung der Bürger ist eines unserer höchsten Güter. Die Informationspflicht an alle Bürger ist schon gegeben. An öffentlichen Orten wie Restaurants gibt es keinerlei Belästigung mehr. Die Bildung im Gesundheitsbereich sollte intensiviert werden. Inklusive der Gefahren durch Fast-Food, aller illegalen Drogen usw. Gerade in Schulen.

**which option**

No change

**recommend option**

s.o.

**additional comments**

entweder 100% Prohibition aller Gesundheitsgefährdenden Stoffe und Lebensmittel (auch Fast Food), d.h. Entmündigung aller Bürger oder aber wie bisher Alterskontrollen durch geschultes Personal (Automaten sind in der Tag problematisch) und deutlich mehr Aufklärung über all diese Gefahren in allen Bildungseinrichtungen.

No

**explanations**

verbraucher sind bereits hinreichend über gesundheitsrisiken aufgeklärt keine hinweise dass  
weitergehende warnhinweise deren wahrnehmung steigert

**which option**

No change

**additional comments**

einheitsverpackungen zerstören markenstrukturen und führen zu einer reinen  
preisorientierung fallende preise führen zu sinkende handelsspanne folgen a)entzug der  
kommensbasis für viele tabakumsatzabhängige unternehmen dadurch gefahr erhöhter  
stellestreichungen b)leichter zugang für jugendliche durch niedrige preise neutrale  
verpackung lassen sich leichter fälschen

**questions on reporting**

**problem definition**

No

**explanations**

zusatzstoffe erhöhen unsere erachtens weder die toxizität noch haben sie eine für sich  
genommen suchterzeugende wirkung

**which option**

No change

**additional comments**

ein verbot verringert die markenvielfalt ohne einfluss auf das konsumverhalten zu haben eine  
einschränkung der markenvielfalt bedeutet gleichzeitig eine schwächung von einzelhändlern

insbesonderen deren mit großem sortiment durch ein verbot verringert sich nicht die nachfrage diese wird dann durch den illegalen markt verdient verbunden mit schäden auf den handel und steuerminereinnahmen für den staat tabak fällt unter das lebensmittelrecht zigaretten und ihre zusatzstoffe sind also streng kontrolliert

**regulation of ingredients**

**problem definition**

No

**explanations**

behinderung des handels ohne dass es nachweislich anteil der raucher verringert oder den zugang jungdlicher zu tabakprodukten einschränken wird

**which option**

No Change

**additional comments**

sinkende werbeeinnahmen dadurch weitere finanzielle belastung illegaler zigarettenhandel finanzielle folgen für wirtschaft und staat

**access to tobacco products**

**problem definition**

No

**explanations**

produktpräsentation stellt ein problem dar es handelt sich um legale produkte

**which option**

No change

**additional comments**

es wird schwieriger für den verbraucher seine bevorzugte marke zu finden

**questions scope**

**problem definition**

Yes

**which option**

No change

**recommend option**

The scope of the directive could be extended to cover these other products, but without any automatic bans on particular product categories.

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

There is no evidence that plain packaging would decrease smoking rates, and it would make it easier for counterfeit product to be produced and sold.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Enforcement of the directive should remain the responsibility of the member states.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

The focus of ingredients testing should be on whether the ingredients result in increased toxicity of the tobacco smoke.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

There is no clear problem stated with regards to either vending machines or point of sale display. There is no evidence provided as to why bans would advance public health objectives.

**which option**

No change

In our time and age people know all about the health problems caused by smoking and it is still the choice of every single grown up person if she or he smokes. But es long as Brussels has no other things to worry about how a banana should be curved it was clear to me that sooner or later some s+#t like that will come up. What´s next going to be regulated or prohibited wine, spirits, religion, sex etc. Welcome back to the Third Reich, only in these days the capitol is no longer Berlin, it´s Brussels.

Het is te belachelijk voor woorden, dat deze 'online consultation' alleen in het Engels wordt gevoerd. De EU-commissie staat verder weg van de burgers dan ooit tevoren. Bij een thema wat dermate polariseerd en waar de EU pretendeerd alle burgers bij te betrekken is het des te belangrijker dat iedere EU burger in staat gesteld wordt zich in zijn eigen taal te laten informeren waarom het precies gaat. Mondige burgers én mondige ondernemers zijn zelf in staat voor zich te bepalen wat goed en wat slecht voor ze is. Op deze manier worden echter alle burgers die niet de Engelse taal beheersen monddood gemaakt. Is dit democratie of dictatuur?

Waarom zijn grotere waarschuwingsteksten noodzakelijk, om nog maar niet te spreken over 'pictorials'? Als moderate, volwassen en goed geïnformeerde sigarenroker, bovendien een sigarenroker die bewust ervoor kiest van sigaren te genieten op momenten wanneer het mij past en waar ik geen andere mensen stoort, ben ik nu al heel goed op de hoogte over de mogelijke gevaren. Volkomen onzin om hier nog meer actief te worden. Een verspilling van tijd en belastinggeld.

**explanations**

Ik ben van mening dat elke verkoopbeperkende maatregel ten bate is van de marktleider (vaak multinationals die niets doen voor de werkgelegenheid in Europa) en ten koste gaat van kleinere gespecialiseerde merken. Aangezien de sigarenmarkt uit vele gespecialiseerde merken bestaat, merken die al eeuwen lang in kleine familiebedrijven in Europa geproduceerd worden, zou dit alleen maar de kleine firmas treffen. Het leidt tot absolute concurrentievervalsing en vernietiging van arbeidsplaatsen die al jarenlang voor de werkgelegenheid in deze traditionele bedrijfstak vechten.

**which option**

No change

**additional comments**

Ellentmondásos a tervezet, mert már a hatáskör definiálásakor tiltásokat fogalmaz meg bizonyos termékkörre, anélkül, hogy erre vonatkozó részletekkel szolgálna - legyen szó akár a bevezetőről, akár a konzultációs anyag egyéb fejezeteiről.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional comments**

Ennek a kérdéskörnek a szabályozását tagállami hatáskörben lenne érdemes meghagyni.

**questions consumer****problem definition**

No

**explanations**

Véleményem szerint az egészségvédő feliratok méretének eltúlzása nincs arányban az elérni kívánt céllal.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Tagállami szinten a kérdéskör megoldott és a tagállamok szuverenitásának fenntartása szükséges, mivel a jelenlegi direktíva megfelelő alapot biztosít ehhez.

**which option**

No change

**regulation of ingredients****problem definition**

No

**explanations**

A tiltó jellegű szabályozásnak megfelelő tudományos alapokon kell nyugodnia, nem pedig szubjektív értékelésen. Az FCTC 9-10 cikkelyeinek vitái alapján is látszik, hogy egy nem átgondolt tiltó szabályozás dohánytermelők munkahelyeit veszélyezteti, így Magyarországon 10,000 ember megélhetését tervezi ellehetetleníteni.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

A túlzott szabályozás a feketekereskedelem kapuit nyitja tágabbra, és így a legális értékesítés csökkenésén keresztül a termelői érdekeket hátrányosan befolyásolja.

**questions scope****problem definition**

No

**explanations**

Die neuen Vorschläge gehen eindeutig zu weit, die EU greift in den freien Wettbewerb ein, vernichtet Arbeitsplätze. Es wird zu viel Zentral reguliert, wo bleibt das recht eine jeden Einzelnen, selbst zu entscheiden ob er raucht. Das ist Bevormundung der Bürger.

**questions scope****problem definition**

Yes

**which option**

No change

**additional comments**

Ellentmondásos a tervezet, mert már a hatáskör definiálásakor tiltásokat fogalmaz meg bizonyos termékkörre, anélkül, hogy erre vonatkozó részletekkel szolgálna - legyen szó akár a bevezetőről, akár a konzultációs anyag egyéb fejezeteiről.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional comments**

Ennek a kérdéskörnek a szabályozását tagállami hatáskörben lenne érdemes meghagyni. Mindezek mellett úgy gondoljuk, hogy a snüsszel kapcsolatos svéd példa alapján a füstmentes dohánytermékeket tiltás helyett inkább reklámozni kellene.

**questions consumer****problem definition**

No

**explanations**

Véleményünk szerint az egészségvédő feliratok méretének eltúlzása nincs arányban az elérni kívánt céllal.

**which option**

No change

**questions on reporting  
problem definition**

No

**explanations**

Tagállami szinten a kérdéskör megoldott és a tagállamok szuverenitásának fenntartása szükséges, mivel a jelenlegi direktíva megfelelő alapot biztosít ehhez.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

A tiltó jellegű szabályozásnak megfelelő tudományos alapokon kell nyugodnia, nem pedig szubjektív értékelésen. Az FCTC 9-10 cikkelyeinek vitái alapján is látszik, hogy egy nem átgondolt tiltó szabályozás dohánytermelők munkahelyeit veszélyezteti, így Magyarországon 10,000 ember megélhetését tervezi ellehetetleníteni.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

A túlzott szabályozás a feketekereskedelem kapuit nyitja tágabbra, és így a legális értékesítés csökkenésén keresztül a termelői érdekeket hátrányosan befolyásolja.

**questions consumer**

**problem definition**

No

**explanations**

Szerintem az egészségvédő feliratok méretének eltúlzása nincs arányban az elérni kívánt céllal. Az egyencsomagolás bevezetése egyértelműen utat nyit a feketekereskedelem növekedésének.

**questions scope****problem definition**

No

**explanations**

I am commenting only on the plain packaging proposal which I find misguided

**which option**

No change

**questions smokeless****problem definition**

Yes

**which option**

No change

**questions consumer****problem definition**

No

**explanations**

I believe this proposal is misguided. It attacks the intellectual property rights of a legal product. It confuses consumers and does not give them choice, despite being a dangerous product. It interferes with competition and the right to compete between brands. It will increase counterfeit tobacco products in the EU resulting in less tax revenues and cheaper products available to the youth.

No

**explanations**

tobacco should not be treated like an illegal drug. Illegal drugs are getting closer to tobacco and get more interesting for young people.

**which option**

No change

**additional comments**

it makes sense, that young people with an age lower than 16 don't get access to tobacco. but this age shouldn't be raised - the american example with alcohol shows, that they find ways to get it anyway - in an illegal market, where they also get harder drugs.

Weiße Einheitspackungen sind viel einfacher zu fälschen. Da gefälschte Produkte qualitativ schlechter sind, erhöht dies das Gesundheitsrisiko drastisch. Außerdem werden dadurch sicherlich nicht weniger Menschen rauchen. Allerdings beeinträchtigt es den freien Wettbewerb.

**explanations**

Ich bin ein überzeugter Europäer. Aber was mir die letzte Zeit an Gängelung durch EU-Rechtsakte untergekommen ist, schokiert mich. Es ist nichts gegen Gesundheitsschutz einzuwenden. Aber es irritiert mich, wenn z. B. Zigarrenkisten, die ich kaufen möchte und auch bezahle, durch Aufkleber vereschandelt werden. Ebenso halte ich die von der EU forsierten Nichtraucherregelungen für überzogen und einem freien Bürgersinn widersprechend.

Wie ich oben schon ausgeführt habe, wende ich mich gegen Bevormundungen, an beim Käufer des Tabakprodukts ansetzen. Denn dieser will ja gerade das Produkt kaufen. Und in diesem Falle benötige ich keine Hilfestellungen durch EU-Verordnungen, warum etwas nicht gut sein sollte. Das führt alles einfach zu weit. Das stelle ich mir nicht unter einem freien und toleranten Europa vor. Man muss US-Amerika nicht alles nachmachen.

**name**

Bernadette Pirson

**email**

gibsonpirson@aol.com

**country**

Belgium

**age**

48

**gender**

female

**questions scope****problem definition**

No

**explanations**

While I believe that the DG Sanco is doing its best in helping EU citizens with health, I feel that there are several aspects of this amendments and proposals that are misguided. I am very concerned on some of the research used to support some of the proposals. There are some major errors in the research and regardless that I am not for tobacco I feel that the DG Sanco should not be seen as totally biased and using wrong research methodologies just to try to support its own agenda. I am particularly concerned with plain packaging and the attack on intellectual property rights. It reminds me of the old communist system we used to have in Europe. It is an attack on a legal product, on marketing of brands and as such on competition. I also cannot understand how you do not realize that counterfeit producers will benefit from this. The counterfeit market will grow geometrically with this and we will have more illegal tobacco sold at a lower price to younger kids, which goes completely against your principals.

**which option**

No change

**recommend option**

I believe that more education is needed. More prevention and youth campaigns. Require all tobacco manufacturers to develop advertising campaigns approved by you to support this.

**questions smokeless**

**problem definition**

No

**comments**

Personally I believe that adults should have the opportunity to choose for themselves what legal product they can and cannot have. Smokeless tobacco is sold in other EU markets and in other countries. It is a legal product there, and even though it is dangerous, adults should be allowed to make that choice with the right health warnings on the packs.

**which option**

Lifting the ban on snus

**additional option**

Educating people on the risks of tobacco rather than mandating what needs to be done. Use advertising agencies and tobacco manufacturers to produce and fund tobacco prevention campaigns that are first approved by DG Sanco.

**questions consumer**

**problem definition**

No

**explanations**

Branding is not advertising. The research you have that deduces that less attractive packaging will reduce smoking and stop youth smokers is incredibly wrong. The EU Commission can never be seen to use research in such an incorrect way. I have applauded many of your legislation based on sound facts. Here though, and despite that I am not for the tobacco manufacturers I feel you are using wrong research methodologies to come up with your conclusions. By proposing plain packaging you are attacking the very heart of what the EU market should be. You are attacking the intellectual property rights that the EU Commission has so strongly defended. You attack the right of consumers to choose, even for a dangerous legal product like tobacco. You are encouraging counterfeit products that will be sold at a lower price and with no control over age.

**which option**

No change

**additional option**

Yes. Education is the only solution rather than antidemocratic legislation. Use the tobacco companies to fund campaigns. It has worked in other countries.

**additional comments**

Again I am outraged at how you are using your research results that are flawed. I am also outraged how you can require a legal product to lose its branding. I do not support the tobacco companies but I do believe all legal products should have the right to keep their brands and their fundamental property rights.

No

#### **comments**

Again there is no problem for the EU

#### **which option**

Lifting the ban on snus

#### **questions consumer**

##### **problem definition**

No

#### **explanations**

Pictorial warnings are completely unnecessary. Everyone with half a brain knows that

smoking is unhealthy and if he still does it, that's his decision as a free citizen.

**which option**

No change

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

Yes

**which option**

Introducing the basic criteria on the EU level without a common list

**additional comments**

Basic criteria should ONLY be not adding substances purely to increase addictiveness. Toxicity should only be a factor if substantially greater than the unavoidable toxicity of nicotine and smoking.

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional comments**

I am missing a personal statistics section in this questionnaire, so I supply something important here: No, I do not smoke or use tobacco in any way. I never did and probably never will. However as a free citizen it is my choice if I want to consume something that is not really healthy like tobacco. It is in no way a concern of the state and even less a concern of the EU. I would even be willing to pay some part of the health-care costs others cause by using tobacco. However considering the very high taxes on tobacco products I very much doubt I have to. I suspect instead they are paying more than their share of budget deficit of the state by those taxes.

kein Kommentar

**additional comments**

kein Kommentar

**questions consumer****problem definition**

No

**explanations**

Die Raucher kennen die Gefahren des Rauchens - durch die Bilder wird dieses nicht verstärkt. Da die Bilder generell "abstoßend" wirken werden von den Rauchern schnell eigene Verpackungen genutzt. Es gibt auch keinen Beleg dafür, dass die Bilder wirklich zu einer Verminderung des Rauchens führt. Einheitspackungen würden verstärkt dazu führen, dass der Raucher nur noch die Billigsten kauft und somit vielleicht noch mehr raucht. Gefälschte Produkte können dann sehr einfach produziert und in den Markt gebracht werden. Das Markenrecht wird unterlaufen und die Herkunft der Produkte ist nicht mehr ersichtlich.

Rozsah Směrnice může být rozšířen tak, aby pokryl i tyto výrobky, nicméně nemělo by to zahrnovat jejich automatický zákaz. Veškeré zákazy musí být založeny na vědeckých poznatcích.

**questions smokeless  
problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

Neexistují žádné důkazy, že větší varování jsou efektivnější. Není žádný důkaz, že jednotná balení zlepší fungování vnitřního trhu nebo budou mít pozitivní zdravotní dopady. Naopak, pro nelegální výrobce bude daleko jednodušší kopírovat značky a povede to k nárůstu nelegálního prodeje cigaret.

**which option**

No change

**questions on reporting  
problem definition**

No

**explanations**

Členské státy již mají možnost zavést poplatky a sankce. Dodržování těchto pravidel by mělo být i nadále ponecháno v zodpovědnosti každého státu.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients  
problem definition**

No

**explanations**

Testování přísad by se mělo zaměřit na to, zda-li zvyšují toxicitu tabákového kouře

**which option**

No Change

**access to tobacco products  
problem definition**

No

**explanations**

Není zde jasně stanovený problém pokud jde o prodejní automaty nebo místa prodeje. Nejsou zde důkazy naznačující jak by zakazy mohly zlepšit fungování vnitřního trhu.

**questions scope****problem definition**

Yes

**which option**

Extend the scope of the Directive

**questions smokeless****problem definition**

Yes

**which option**

Ban on all types of smokeless tobacco products

**questions consumer****problem definition**

Yes

**which option**

Improve consumer information; Introduce generic or plain packaging

**which improvement**

Picture warnings to become mandatory; Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package; Health warnings to be put on water pipes

**additional option**

The European Union should force member states to create and broadcast/print advertisements in TV, radio, and newspapers. This advertisements should explain the risks and consequences of smoking, encourage people to quit, provide information on how to quit and how to get help. Furthermore, the public image of smoking should be changed. The long-term goal should be that society views smoking (especially in public) as an unacceptable behaviour.

**additional comments**

The biggest problem with smoking is that it still it is still viewed as something positive. Adolescents start smoking, because they want to be "cool" and "grown-up". They are under massive pressure from their peers. One who does not smoke does not belong to the group.

This public image of smoking needs to be changed. The European Union should encourage and finance campaigns in primary schools, to educate children about the risks and consequences of smoking, and in particular, such campaigns should try to establish smoking as socially unacceptable behaviour.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format; Introduce fees and sanctions

**regulation of ingredients**

**problem definition**

No

**explanations**

There ist no problem, just the EU constructed one. Smoking should be a right, like drinking, driving, loving and everything else what a human being wants to do. The power of europe was the pleasure, the consumption, the search for a good life.

**which option**

Extend the scope of the Directive

**recommend option**

Cancel the whole directive and all others like that one. Extend it in the that way, that you give back the right to the member states of the EU.

**questions smokeless****problem definition**

No

**comments**

Like as I said before, there is no problem, so you don't need a definition

**additional comments**

A tervezet ellentmondásos, mert már a hatáskör definiálásakor tiltásokat fogalmaz meg bizonyos termékköre, anélkül, hogy erre vonatkozó részletekkel szolgálna, akár a bevezetőről, akár a konzultációs anyag egy fejezeteiről van szó.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional comments**

Ennek a kérdéskörnek a szabályozását tagállami hatáskörben kellene hagyni. A svéd példa alapján a füstmentes dohánytermékeket inkább reklámozni kellene a tiltás helyett.

**questions consumer  
problem definition**

No

**explanations**

Az egyen-csomagolás bevezetése utat nyit a feketekereskedelem növekedésének. Az egészségvédő feliratok méretének eltúlzása nincs arányban az elérni kívánt céllal.

**which option**

No change

**questions on reporting  
problem definition**

No

**explanations**

Tagállami szinten a kérdéskör megoldott és a tagállamok szuverenitásának fenntartása szükséges, mivel a jelenlegi direktíva megfelelő alapot biztosít ehhez.

**which option**

No change

**regulation of ingredients  
problem definition**

No

**explanations**

A tiltó jellegű szabályozásnak megfelelő tudományos alapokon kell nyugodnia, nem pedig szubjektív véleményen. Az FCTC 9-10 cikkelyeinek vitái alapján is látszik, hogy egy nem átgondolt tiltó szabályozás dohánytermelők munkahelyeit veszélyezteti, így Magyarországon 10000 ember megélhetését tervezi ellehetetleníteni.

**which option**

No Change

**access to tobacco products  
problem definition**

No

**explanations**

A túlzott szabályozás a feketekereskedelem kapuit nyitja tágabbra, és így a legális értékesítés csökkenésén keresztül a termelői érdekeket hátrányosan befolyásolja.

**questions scope****problem definition**

No

**explanations**

The EU should concentrate on other matters than invading and further limiting the freedoms and liberties of it's citizens.

**which option**

No change

**recommend option**

Let people make their own choices, as they should in a FREE nation. If I don't like the atmosphere in a company, I can choose not to work there, and so does any non-smoker if he doesn't like the freedoms a company grants it's employees.

**additional comments**

The EU is ruining it's (already poor) image among citizens by further limiting freedoms, and it thereby will also create more hostility towards itself (which will result in even more far-right-winged votes). With foolish ideas like this, the EU is annoying me to a degree where even I (as a liberal democrat) am considering to vote for a far-right or anti-EU party in EU elections.

**questions smokeless****problem definition**

No

**comments**

People can make their own choices, and don't need further limitations of their liberties!

**which option**

Lifting the ban on snus

**additional option**

Giving people the freedom of choice!

**questions consumer****problem definition**

No

**explanations**

Experiences in other countries (eg USA, Canada) have proven the ineffectiveness of "shocking images", and the increased stigmatization of smokers and tobacco has counterproductive effects on young people. The average European lived much better 20 years ago (long before anti-smoking campaigns), so we obviously have much bigger problems than people CHOOSING to smoke.

**which option**

No change

**additional option**

Consumer information directed at YOUNG people in Schools, on TV/Radio, etc., instead of giving smoking a "cool" outlaw image by introducing prohibition. PROHIBITION DOESN'T WORK!! The USA have the toughest anti-drug policy in the world, and therefore the most/biggest drug problems (with the "war on drugs" killing more people than drugs do themselves, thanks to the Mexican drug cartels which are indirectly, but massively funded by prohibition). Holland has the least drug overdoses in the EU, thanks to consumer information and "safer use" instead of "zero tolerance".

**additional comments**

Give people the freedom to choose, the industry the freedom to market and youths the best information (in schools etc.) instead of limiting liberty for everyone!

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format; Introduce fees and sanctions

**additional options**

Require publication of ingredients on company/brand websites, as well as mandatory web address on every cigarette package leading consumer to that information (along with other information such as risks of smoking, the brand, etc). For example, every package of Marlboro should display the address of Philip Morris Inc. (or every pack of JPS address of Imperial Tobacco Ltd. online, etc.) online, and the company website should be required to show warnings on health risks along with ingredient and other information (but company should have right to have background info on their business, history, brands, etc. on that address).

**regulation of ingredients**

**problem definition**

No

**explanations**

Ingredients should be published (including risks/negative effects of those), but not regulated. The limitation of cigarette strength (nicotine and tar levels) a few years ago has already had severe counterproductive effects, since it's proven to harm smokers more if they switch to "lighter" cigarettes than if they continue smoking their accustomed strength, as they automatically drag harder and inhale deeper when a cigarette is "lighter" than usual.

**which option**

No Change

**additional option**

The ban on the terms "light" or "mild" was a good idea, but everything else goes too far (and mostly is counterproductive).

**additional comments**

People are not stupid and are able to make their own choices, it's called freedom.

**access to tobacco products****problem definition**

No

**explanations**

If brands are not on display at the shop, it gives no chance to newly established brands, and therefore ends the free market/creates monopolies on long-term. If the warning language is an issue regarding internet distribution, put a "shock image" on one side of the package and an English warning on the other, and that will solve this problem.

**which option**

No change

**additional option**

Require "shock image" on one side of the package and bilingual warning (local language plus English) on the other, and introduce internet distribution as well as fair laws/amounts for bringing packages from one EU country to another (Austria for example only allows 1 package with foreign language warning even if understood by consumer, simply for protectionism against other EU countries). Start prevention programmes in schools instead of taking away people's rights.

**additional comments**

I hope the EU doesn't make the mistake of creating even more EU-haters by robbing citizens of their freedoms.

#### **questions scope**

#### **problem definition**

Yes

#### **which option**

Extend the scope of the Directive

#### **recommend option**

All tobacco products are hazardous to health – there is no safe level of usage. Therefore we recommend that the scope of the Directive includes the regulation of any new smoked tobacco products (such as low emission or nicotine-free cigarettes), while the prohibition of any novel forms of oral tobacco, including snus, should be maintained. Herbal cigarettes are also harmful because it is the combustion and inhalation of smoke that causes most of the harm from smoking. Therefore, herbal cigarettes should be included in the scope Tobacco Products Directive and be also subject to health warnings requirements. Finally, all forms of nicotine based products (that is, products containing nicotine but not tobacco product such as electronic cigarettes, nicotine gel, drinks, and sweets) are often marketed as alternatives to cigarettes and in some cases as an aid to quitting smoking. Therefore, they should only be sold as quitting aids and comply with specific safety and quality requirements under the same regulatory framework as pharmaceutical products rather than under the scope of the Tobacco Products Directive.

#### **questions smokeless**

#### **problem definition**

Yes

#### **which option**

Ban on all types of smokeless tobacco products

**additional option**

The ban on snus should definitely be maintained. This is high priority. Indeed, there is no legitimate reason to introduce a dangerous product on the market, particularly as from an internal market point of view, we have no idea how snus would be perceived or used in other countries. A small study conducted by the University of Nottingham by Professor Ann McNeil showed that, in the UK, people could not see the point of snus unless it was as a cessation aid. For internal market purposes, it really does not make sense to lift the ban. Furthermore, if the ban on snus were to be lifted, it could encourage dual use of cigarettes and smokeless tobacco and discourage total abstinence from tobacco, thus weakening any potential health gains. The only concession we would support is if the EC sanctioned the use of snus in randomised controlled trials (RCTs), i.e. provided a special license to overcome the illegality of snus for research purposes only. Indeed, it is a matter of public health interest that RCTs on snus as a cessation aid are undertaken. Cancer Research UK was considering such a trial but due to the dual difficulties of snus a) being a tobacco product and b) illegal, the trial proposal has not as yet gone to peer review. Finally, we would like to stress that there are already available effective treatments for nicotine addiction, including medicinal or 'clean' nicotine (NRT), that do not carry the risks associated with the use of snus. These should be promoted first and foremost. It is clear that public health interest can be served even more by encouraging a) greater use of these treatments and b) the development of more effective cessation aids, especially those that mimic more closely the nicotine 'hit' delivered by cigarettes. The SFP supports the ban on all types of smokeless tobacco products in principle, since there is evidence that such products are addictive and can cause cancer, as stated in the Opinion of the Scientific Committee on Emerging and Newly Identified Health Risks (SCENIHR). The SFP also recognises that the use of smokeless tobacco products has not been proved to be an effective quitting aid. Therefore the SFP supports a ban on all types of smokeless tobacco products, provided that such ban would be practical in its implementation and that the European Commission can establish that it has the legal competence to do so from an internal market perspective.

**questions consumer****problem definition**

No

**explanations**

I agree with the Commission that the current situation, whereby some Member States have made graphic warnings compulsory and others not, has led to a disparity in labelling throughout the EU. Consequently, this has an impact on the functioning of the internal market, on consumers' awareness and as a result, on their smoking behaviour.

**which option**

Improve consumer information; Introduce generic or plain packaging

**which improvement**

Picture warnings to become mandatory; Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package; Health warnings to be put on water pipes

**additional option**

Crucial importance of Graphic health warnings: Evidence clearly shows that text only warning messages are not very effective because many consumers don't bother to read them. Pictures, especially fear inducing pictures, are proven to be effective in getting consumers more engaged with the warning message. Pictures are able to immediately provoke a reaction and prompt people to read the associated text message . The need for graphic health warnings on both sides of the pack: There is also evidence that pictures on both sides of the packaging would have a greater impact than on one side only . Considering the proven weak effects of written health warnings only, it is essential that pictorial warnings are displayed on both sides of the pack. The need for LARGE pictorial health warnings (80%): Evidence clearly shows that increasing the size of warning messages (text only and combined text and picture) increases the effectiveness of the warning amongst both young and adult smokers / non smokers. Research carried out in Canada by Createc on behalf of Health Canada in 2007 showed that young and adult smokers/non smokers are sensitive to the size of health warning messages. Results showed that warning messages that cover 100% of the pack are significantly more effective across all measured effectiveness indicators compared with warning messages that cover only 50% of the pack. The importance of Rotation: Warning texts and pictures should be displayed on a rotating basis, so that each message is given equal display and can reach its target audience. The proved effectiveness of shocking health warnings & targeted messages: as specified in the Sambrook Research International report, fear inducing warnings (using strong "shocking" related to health risks (such as rotten teeth or throat cancer) and strong emotion inducing warnings (especially involving children and unborn babies) are the most effective way to educate consumers on the health risks of tobacco use and to achieve changes in attitudes and behaviour. These warnings' effectiveness is enhanced if they are used in conjunction with quit line. Generic or plain packaging: We strongly recommend the introduction of standardised/plain packaging. This should include not only the removal of all branding from the packaging but the size and shape of the packaging should also be standardised. Not only would this prevent the promotion of smoking through branding as occurs presently but it would reinforce the health warning messages. Tobacco packaging provides a direct link between consumers and manufacturers and is the main marketing channel, particularly in jurisdictions with tobacco advertising bans. Branding gives the misleading impression some cigarettes are safer than others. The tobacco industry claims that plain packaging would contravene intellectual property law. However, legal analysis concludes that this is incorrect and there are no international legal impediments to the implementation of generic packaging. Replace TNCO quantitative labelling with qualitative information on contents, emissions and quit-lines: The inclusion of machine-based tar, nicotine and carbon monoxide yields on cigarette packs promotes the mistaken belief that some cigarette brands are less harmful than others . We support the proposal to replace numerical measurements with descriptive information on the hazardous effects of tobacco constituents and emissions. We stress the importance of putting quit line numbers on the package. As underlined in the Sambrook research (p46), providing a telephone number on the pack is more effective than telling smokers to seek advice from a doctor or pharmacist. P46 Health warnings on water pipes: There is a growing body of evidence to show that water pipes are at least as hazardous, if not more so, than other forms of tobacco use. Warnings should also be included on the packaging of tobacco used in water pipes.

### **additional comments**

Under Article 5.3 of the TPD 2001, Member States only have the option to adopt pictorial warnings. As a result, some Member States have mandatory pictorial warnings and other don't, which creates a disparity in labelling throughout the EU. This situation is not consistent with the legal basis of the TPD, Article 95 (internal market). So far, all the legislation on

labelling, advertising and product regulation put forward by the Commission in the field of tobacco control, has been based on the internal market legislation (Article 26 and 114 of the TFEU). Article 26 of the TFEU establishes the internal market. Article 114 gives EU institutions the competence to regulate and set rules for the functioning of the internal market. More specifically, article 95.3 also states that when establishing rules for the functioning of the internal market in the context of health, safety, environmental protection and consumer protection, the Commission “will take as a base a high level of protection, taking account in particular of any new development based on scientific facts.” The European Court of Justice (the “ECJ”) made an extensive analysis of Article 95 EC (now Article 114) throughout the years. In *Spain v. Council*, the Court observed that “recourse to Article 100a (now Article 114) as a legal basis is possible if the aim is to prevent the emergence of future obstacles to trade resulting from multifarious development of national laws.” The TPD was adopted on the basis of Article 114 TFEU (ex Article 95). As a result, Recital 19 of the TPD states that “[t]he presentation of warning labels and yields has continued to remain variable in the different Member States. As a consequence, consumers in one Member State may be better informed as to the risks of tobacco products than in another. Such differences are unacceptable and are liable to constitute a barrier to trade and to impede the operation of the internal market in tobacco products, and should therefore be eliminated.” In the present case, Article 5.3 of the TPD and the Commission Decision on the use of colour photographs or other illustrations as health warnings (the “Commission Decision”) give Member States the option to adopt pictorial warnings in the form of colour photographs or other illustrations. Almost ten years later, four countries (the UK, Belgium, Romania and Malta) have adopted the option. More countries such as Spain and France are planning to adopt mandatory pictorial warnings. Although such measures are in compliance with the current TPD and are welcome by the tobacco control community, their adoption by some Member States necessarily creates growing discrepancies between Member States. As stated above, there is clear evidence that pictorial warnings are much more powerful than written health warnings. As a result, consumers in the UK are better informed about the risks of tobacco products than consumers in Germany (for example). This is inconsistent with the objectives of the internal market stated under Article 114.3 of the TFEU and reiterated in Recital 19 of the Directive. The disparity of laws in Member States results in the unequal information of consumers on the risks of tobacco products, and therefore, an uneven protection of health throughout the European Union, which are both contrary to the principles and objectives of the internal market. From an internal market point of view, these differences in the rules regarding pictorial warnings are likely to constitute barriers to trade and to impede the smooth operation of the internal market. These obstacles and discrepancies should accordingly be eliminated and to that end, pictorial health warnings of tobacco products should be made subject to common rules. This is why mandatory pictorial warnings are not only welcome, but necessary in order to comply with the legal grounds on which the TPD was adopted.

### **questions on reporting**

#### **problem definition**

Yes

#### **which option**

Establish a common compulsory reporting format; Introduce fees and sanctions

#### **additional options**

The current situation which allows different formats and reporting mechanisms is unsatisfactory, making it difficult for authorities to compare and analyse the data. All tobacco

manufacturers and importers should be subject to the same reporting requirements. The SFP believes that tobacco products, which are highly harmful, should be subject to an effective reporting system that allows the gathering and analysis of relevant data, including comparison as appropriate, in order to ensure high levels of consumer safety and information. The format already exists (based on the voluntary reporting format developed by the Commission in May 2007) and it would therefore be very easy to adopt this measure and to implement it.

#### **additional comments**

We welcome the introduction of yearly registration fees in order to finance the data collection on ingredients by the national authorities and their analysis work on ingredients. The payment of penalties in case of non-compliance with the requirements of delivery of data on tobacco products ingredients also seems adequate and would contribute to fund the tests conducted on these products. It is crucial that the appropriate toxicological and addictiveness tests are properly conducted. Such tests would allow policy-makers to make more informed decisions in this field, as there would be more scientific evidence. It would enhance the scientific knowledge of the dangers of tobacco products and would contribute to a high protection of health, as stated in Article 95.3 TFEU. Besides, such measures would also have an indirect impact on illicit trade, since only registered products would be allowed on the market.

#### **regulation of ingredients**

##### **problem definition**

Yes

##### **which option**

Establish a common list of tobacco ingredients

##### **which one**

Establish a positive common list of tobacco ingredients; Establish a negative common list of tobacco ingredients

##### **additional option**

We support the adoption of a positive common list of tobacco ingredients. We believe that for tobacco products are highly toxic and addictive, and that their content should therefore be closely regulated, in order to achieve high standards of health protection, as stated under article 95.3. There is a need for such a list at EU level since at the moment, consumers in the internal market are not subject to the same level of protection. Some citizens may be using substances that are banned in other member states. This constitute an obstacle to free movement of goods within the internal market since some countries may be reluctant to import cigarettes from other Member States that do not comply with the national requirements. Regulation of Flavours and Ingredients: Flavourings are an increasingly important part of tobacco industry marketing, particularly to young people. Flavourings enhance attractiveness, encourage youth initiation, and discourage cessation. The prohibition of ingredients that may be used to increase attractiveness, such as sugars and sweeteners, flavouring substances, and spices and herbs, in cigarettes and cigarette-like tobacco products should be introduced. The prohibition of ingredients that may create the impression of a health benefit (e.g. vitamins), ingredients associated with energy and vitality (e.g. caffeine), and ingredients with colouring properties (e.g. pink cigarette paper) should also be banned. Tobacco manufacturers and importers should report sales volume information by brand. This information is essential to help governments ensure that product regulation is effective. The above measures should be compliant with Articles 9 & 10 of the Framework Convention on

Tobacco Control (FCTC).

**access to tobacco products**

**problem definition**

Yes

**which option**

Ban

**which one2**

Cross-border retail sales of tobacco to be banned over the Internet; Vending machines to be banned; Promotion and displays in retail stores to be banned

**additional option**

Whilst we urge the Commission to call for a ban on the promotion of tobacco products at point of sale and a ban on vending machines, we are aware that these issues do not have cross-border effects. The legal basis for such measures at an EU level is weak. However, these measures are important for health protection and we call on the Commission to include them as non-mandatory measures as part of the product directive. The Directive should also remind national governments that they should adopt a comprehensive ban on all forms of tobacco advertising, promotion and sponsorship in accordance with Article 13 of the FCTC which calls on Parties to.

**additional comments**

Internet. The principle of preventing cross-border promotion of tobacco products in order to protect public health was enshrined in the Tobacco Advertising directive (2001/0119). It is logical, therefore, to extend that principle to the sale of tobacco products between member states via the Internet. We support the prohibition of tobacco sales via the Internet. Vending machines. The majority of member states (22 out of 27) already prohibit the sale of tobacco products from vending machines in order to deter young people accessing cigarettes from this source. We support this measure. However, as this does not have cross-border effects, we urge the Commission to make the prohibition of tobacco vending machines a non-mandatory measure as part of the product directive. Point of Sale. Similarly, there is a growing body of evidence to show that putting tobacco products out of sight in retail outlets can reduce youth smoking. To date, this measure has been adopted by Ireland, the UK and Finland. We support an EU-wide adoption of a ban on the display of tobacco products at the point of sale. As with vending machines, we urge the Commission to make the prohibition of tobacco vending machines a non-mandatory measure as part of the product directive.

Ich bin in der letzten Zeit gegen viele von der EU präsentierten Regelungen und Richtlinien, da die EU im Gegensatz zu den gewählten Vertretern keine Verantwortung für ihre Handlungen übernehmen muss. Die für diese Handlungen zuständigen Kommissare werden von den Regierungschefs ernannt und höchstens von einem halbherzig gewählten EU-Parlament bestätigt. Somit ist der Bürger fast entmündigt. Dies kann nicht das Ziel der EU sein. Die EU-Politik gegen Raucher (ich bin Nichtraucher!) wird zu zahlreichen Notfällen und Geschäftsaufgaben führen, ohne dass das Raucherproblem aus der Welt geschaffen wird (siehe Drogenkonsum).

**additional option**

Ban of indirect advertising (image-commercials) for tobacco and nicotine-products. Ban of selling of tobacco and nicotine-products to persons under the age of 21 years. A tax in a

height of 2 Euros for every (!) cigarette smoken by persons below 21, determined by established statistic methods. A deposit in heighth of 1 Euro for packagings of tobacco and 10 Cent for cigarette stubs.

### **additional comments**

Introduction of a voluntary (!) electronic smokers-passport for smokers, afterwords only selling to persons with the smokers-passport by reducing the allowed buying-quantity of tobacco-products within one year down to zero. In the first month 23 cigarettes per day, then 21 and so on. The daily possession is not allowed to be higher than the daily qanntity of the allowed buying quantity. Paying the costs of sickness and loss of working hours caused by tobacco by the tobacco-industry. Ban of sale and consumption of tobacco-products in EU would be the best solution!

no creo que el consumo del tabaco sea ahora mismo un problema que haya que solucionar de inmediato, sino que mas bien es usado para distraer la atencion de la opinion publica sobre los verdaderos problemas. Para reducir el consumo de tabaco especialmente entre los jovenes basta con subir los impuestos del tabaco y con ello incrementar su precio; que fume el que se lo pueda permitir.

It kills jobs. It kill selfdecision. Not everything has to be regulated through the EU. There is still a vivid market for a lot of people and this is economy as we learned it. We are not in communism, where everything has to be regulated by the government.

#### **which option**

No change

#### **recommend option**

Offer the people better medical PRECARE Systems and don't try to regulate everything. If someone wants to live an unhealthy life, let him do this. It is HIS or HER life!

**Citizen submission****identification****affiliation**

citizen

**name**

Tommaso Carlo di Giovanni

**email**

dgtomma@hotmail.com

**country**

Italy

**questions scope****problem definition**

Yes

**which option**

Extend the scope of the Directive

**recommend option**

I believe the scope of the directive should be extended to all products so that they are subject to the same regulation as cigarettes.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

There is no sense in banning snus. Sweden uses it and I don't see why the other country should not, if they want to. Why would something be appropriate in Sweden and not somewhere else? And why should it be banned?

**questions consumer****problem definition**

No

**explanations**

People know that smoking damages the health of smokers and non smokers who stay around

smoke. I do not believe it would be necessary to cross the thin line between informing smokers and demonizing smoke as such, depriving companies of their right to the brand and making the pack something that should be hidden or (worse) that has no distinct characteristic. Generic packaging would be against all basic ip/trademark right laws, against freedom of expression and against the consumer right to chose the brand they most like. It would be tantamount to prohibition and would create a dangerous precedent into the legal framework.

**which option**

No change

**additional option**

Facilitating research on product that could be less dangerous.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

The problem description does not take into account any evidence that prohibiting ingredients would improve public health. The measure would be tantamount to prohibition. It would simply make people smoke cigarettes without ingredients with likely no value added on public health.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

In Italy kids should not be able to buy tobacco products. A law prohibits sales to underage. If the law is correctly implemented, kids should not have access. On top of that, only adults can buy through the vending machines thanks to the control system represented by the mandatory use of id cards. Rather than banning legitimate sales channels for adults who freely chose to smoke, we should enforce better those existing measures and continue educating people. The other countries should copy Italy's example and implement serious access restriction legislations that allow adults to buy their cigarettes while keep kids away from them.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

L'information et l'éducation sont clés dans tout dispositif de lutte contre le tabagisme. Cependant, croire qu'en rendant les paquets génériques ou en apposant des mentions d'information recouvrant la quasi totalité des paquets fera réduire la consommation des produits du tabac. Ceci me paraît être une fausse bonne idée au-delà même des problèmes juridiques. Car en effet, n'autoriser une marque quelque elle soit en caractères standardisés et de toute petite taille me paraît constituer une véritable expropriation. Dès lors se pose la question de l'indemnisation au niveau européen.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

L interdiction de tous les ingredients parait pour le moins disproportionnee. Quelle industrie legale a ce jour s est vue interdire l ensemble l ensemble de ses ingredients ?

**which option**

**name**

Gordon Dieter Ingo Gretschel

**email**

gordon.gretschel@gmx.de

**country**

Germany

**age**

43

**gender**

male

**questions scope****problem definition**

No

**explanations**

Regulations by government authorities in place are sufficient to an extent, that personal freedom is already limited extraordinarily.

**which option**

No change

**recommend option**

no comment

**additional comments**

It should be a matter of personal freedom to smoke or not to smoke (sufficient information available about the threats of smoking for personal health) and economical liberty to exist as tobacco handler, as restaurant or bar owner etc. With the restrictions in place, already many clubs, bars, restaurants in Bavaria/Germany are highly likely to be closed and the owners ruined.

**questions smokeless****problem definition**

No

**comments**

Snus is not as dangerous as smoking tobacco products. Why should I not be able to get rid of the cigarette and use snus in Germany instead and legally?

**which option**

Lifting the ban on snus

**additional option**

no comment

**additional comments**

freedom for snus users could reduce the use of smoking tobacco products

**questions consumer****problem definition**

No

**explanations**

Every consumer in the free world is able to choose from different products in the market, e.g. different types of Whiskey. I would want to choose my brand of cigarettes acc. to its design and taste for reasons of self-identification. Why should I buy something, that is plain white packed and does not differ from any other smoking tobacco product? Pls keep the diversity of products offered in the market. The larger the cautionary note, the better? No, I don't care about anything but the design and taste.

**which option**

No change

**additional option**

no comment

**additional comments**

no comment

**questions on reporting  
problem definition**

No

**explanations**

No additives make the cigarette taste all the same and not the way I want it as consumer. We smokers pay a lot for taxed tobacco products and should not be blamed for the things we WANT to do. SMOKE with different tastes etc. Smoking has been a social event for thousands of years. Why should the taste of smoking be regulated by any authority?

**which option**

No change

**additional options**

no comment

**additional comments**

no comment

**regulation of ingredients  
problem definition**

No

**explanations**

Different tastes are with eating, drinking and smoking as well. They've been there for thousands of years and why should anyone tell me what I should eat, drink or smoke? This is overregulation!!!

**which option**

No Change

**additional option**

no comment

**additional comments**

no comment

**access to tobacco products  
problem definition**

No

**explanations**

If you are thirsty, you need to get water instantly by buying some. If you are hungry, you do the same. And if you require a cigarette, you should be able to buy it anywhere. There already

is regulation regarding age, on who is mandated to buy smoking tobacco products (age 18 in Germany). You do have adult status with 18, you can marry, drive a car ans as well you're old enough to decide whether you want to smoke or not !!!

**questions scope****problem definition**

No

**explanations**

Wir haben, insbesondere in der EU, ganz andere Sorgen. Dieses Vorhaben der EU stellt eine unverhältnismäßige Bevormundung der Bürger dar und ich empfinde es als eine Frechheit! Wenn unsere sogenannten Volksvertreter in den EU-Gremien in dieser Weise weiter agieren, so brauchen sie sich nicht wundern, wenn früher oder später (eher früher) die Bürger massiv gegen die EU stimmen. Es wäre sicher viel besser, unsere hoch dotierten "Volksvertreter" würden diese Energie dazu verwenden, die Millionen aufzuspüren, die jährlich in irgendwelchen Kanälen (bzw in manchen ihrer eigenen Taschen) des EU-Apparates spurlos verschwinden. Die derzeit in Österreich geltenden Regelungen betreffend des Nichtraucherschutzes sind durchaus ausreichend, die Nichtraucher und insbesondere auch die Kinder und Jugendlichen zu schützen. Sie gehen - insbesondere in Lokalen - bereits eindeutig über das vernünftige Maß hinaus. Nichtraucherwerbung ist ok, aber die Bewegung geht immer mehr in eine Hetzjagd gegen die Raucher über. Wenn die EU-Parlamentarier nicht raschest aufhören, sich über die Krümmungen von Gurken, Bananen und sonstige lächerliche Tatsachen zu sorgen, werden sie sehr bald arbeitslos sein. Ich kann mir nicht vorstellen, daß sich die EU-Bürger derart schwachsinnige Regelungen - oder auch die Versuche dazu - noch sehr lange gefallen lassen werden. Insbesondere wir Österreicher(innen) zahlen einfach zu viel Geld in diese EU ein, als daß wir uns dann von solchen (es tut mir leid, aber ich kann es einfach nicht anders oder besser ausdrücken) geistig Minderbemittelten vertreten lassen müssen; das haben wir nicht verdient. Das Volk ist sehr geduldig und verträgt auch einiges - aber eben nicht alles. ES REICHT SCHÖN LANGSAM.

**which option**

Lifting the ban on snus

**additional comments**

In my opinion the restrictions of smoking in Restaurants are overdone. As a smoker for more than 50 years I have not visited a Restaurant since smoking is not allowed there any more. At least theres should be a extra room for smokers. What is a coffe or a beer without having a smoke with it? For me unbearable. I do frrquently visit Australia which has one of the harshest anti-smoking laws in the world. Now I do not visit any Pubs or Clubs there because of smoking restrictions. Buying a packet of cigarettes there makes me feel like a criminal. What will Big Brother do next?

**questions consumer****problem definition**

Yes

**which option**

Improve consumer information

**which improvement**

Picture warnings to become mandatory; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package

**country**

italy

**questions scope****problem definition**

Yes

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

Lifting the ban on snus

**additional option**

Smokeless tobacco cause no harm to other people, only the user. Beside current ban of snus isn't same for all because only real ban is here in Finland which is only country where even ordering a snus from the internet is criminalized. Snus is mainly used in Scandinavia where Norway (non-EU), Sweden and Denmark can sell snus normally.

**explanations**

Bei diese Argumentation müssten viele andere Dinge auch verboten werden. Ich finde es unsinnig bestimmte Produkte zu verbieten und den Bürger für unmündig zu erklären. Er muss die Wahl haben sich für ein Produkt zu Entscheiden oder nicht. Wir haben in der EU genug unsinnige Gesetze und wir brauchen nicht mehr davon.

**questions scope**

**problem definition**

No

**explanations**

Tobacco and nicotine products that are not covered by the Tobacco Products Directive, or other EU legislation (food, pharmaceutical) would remain subject to different legislations in different Member States.

**which option**

No change

**recommend option**

none

**additional comments**

none

**questions smokeless****problem definition**

No

**comments**

no comments

**which option**

No change

**additional option**

The prohibition on the marketing of tobacco for oral use ("snus") remains unchanged. Other smokeless tobacco products that are perceived as marginal products can continue to be marketed in all Member States.

**questions consumer****problem definition**

No

**explanations**

Pictorial warnings remain optional in the Member States. Different labelling patterns in the Member States will continue to exist. Water pipes remain without health warnings.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

It's a legal product. The current enormously reduced marketing possibilities is beyond any business legality.

**which option**

No change

**regulation of ingredients****problem definition**

No

**explanations**

Member States continue to be free in regulating tobacco products ingredients.<sup>16</sup> Industry has to comply with different national regulations on positive and/or negative lists of ingredients

for the manufacturing of tobacco products. That is OK

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Member States remain competent to have national measures on limiting the access to tobacco products. Some marketing possibilities need to remain as this has been cut already a lot

**which option**

No change

**comments**

Ich bin der Meinung, bevor so rigeros gegen den Tabak Konsum vorgegangen wird, muss ueberprueft werden, welche Suchtmittel in unseren Lebensmitteln sind, das dem so ist, sollte bekannt sein. Und bei Lebensmitteln weiss der Verbraucher oft nicht, was er sonst noch an Inhaltsstoffen zu sich nimmt. Hier sollte eine konsequente Deklaration der Inhaltsstoffe vorgeschrieben werden, und nicht ein Fachbegriff mit einem anderen ersetzt werden, der aber am Ende genau das gleiche aussagt. Wenn auf Tabakprodukten schon der Aufkleber drauf ist: "Rauchen macht süchtig, müßte das meiner Meinung wegen der Gleichberechtigung auch auf einigen Lebensmitteln stehen! Aber generell bin ich der MEinung, daß jeder Mensch eine eigene Meinung hat und die auch vertreten darf. Bei Stuntmen besteht bei jeder ihrer Aktionen auch ein gewisses Risiko, aber da schreit keiner, Stunts müssen verboten werden, weil dann Unfälle passieren könne, wobei dann die Allgemeinheit die Kosten für die Heilung oder gegebenenfalls eine lebenslange Pflege tragen muß!

**which option**  
No change

**additional option**  
s.o.

**additional comments**

Man kann die Dinge nicht per Gesetz regeln. Das Vorbild von Erwachsenen gegenüber Jugendlichen, oder die Einsicht, daß ich meinem Körper mit zu viel rauchen, trinken, essen...

nichts Gutes tue, ist viel wichtiger. Aber das kriegt man nicht mit einem Gesetz geregelt. Im Gegenteil, dann wird rauchen u.s.w. heimlich betrieben und es entstehen vielleicht Dinge, die man nicht vorhersehen kann.

**questions consumer**

**problem definition**

No

**explanations**

Wenn die freie Meinungsäußerung schon durch einheitliche Zigarettenpackungen untergraben wird, kann ich mir vorstellen, daß in den nächsten Jahren noch andere Bereiche folgen werden.

**which option**

No change

**additional option**

Das Bewußtsein der Menschen für ein einigermaßen gesundes Leben sollte geweckt werden, und Familien sollten mehr unterstützt werden, sodaß Mütter für ihre Kinder Zeit haben und Kinder ein Gefühl der Geborgenheit haben. Dann wird rauchen, trinken und essen nicht so schnell zur Sucht!!!

**questions on reporting**

**problem definition**

No

**explanations**

Kein Kommentar

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

Warum nur bei Tabak???? In der Lebensmittelindustrie müßte das dann auch passieren. Ich finde es viel schlimmer, nicht zu wissen, mit welchen Chemikalien die Schweine gefüttert werden, von denen ich das Fleisch esse, als zu rauchen, weil ich da weiß, was auf mich zukommen kann.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Wenn reglementiert wird, wie Tabakprodukte verkauft werden dürfen, haben wir ganz schnell einen riesengroßen Schwarzmarkt, und die Kriminalität steigt!!!!

**country**

Deutschland

**questions scope****problem definition**

No

**explanations**

Die Basis von wissenschaftlichen Erkenntnissen liegt hier nicht vor. Diese sollte aber bei einer Regulierung grundsätzlich vorliegen.

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

Die Gesundheit Dritter wird durch rauchlose Tabakprodukte in keinster Weise gefährdet bzw. eingeschränkt. Erwachsene Verbraucher haben das Recht sich selbst zu entscheiden. Dies ist hier nicht gegeben und würde die Entscheidungsfreiheit der EU Bürger stark eingrenzen.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Es gibt keinen Nachweis dafür, dass die Wirkung des Warnhinweises sich nach der Größe des Aufdruckes richtet. Jeder Raucher ist sich über die Risiken des Rauchens bewußt. Neutrale Verpackungen würde eine Erleichterung von Produktfälschungen sein. Dies würde wiederum das Problem des Schmuggelns verschärfen. Über die Einführung von neutralen Verpackungen konzentriert sich der Wettbewerb verstärkt auf das Preis-Marketing, was sinkende Preise als Konsequenz hätte = kontraproduktiv und bedroht Existenzen im Bereich Groß- und Einzelhandel.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Hierzu keine Äußerung

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

In Ländern, in denen vorwiegend Zigaretten ohne Zusatzstoffe verkauft werden, ist die Verbreitung des Rauchens auch nicht geringer als in Ländern, in denen vorwiegend Zigaretten mit Zusatzstoffen verkauft werden.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Ich glaube nicht, dass die Existenz von Zigarettenautomaten einen Einfluß auf das Rauchverhalten der Jugendlichen hat. Außerdem würde die Abschaffung von Zigaretten-Automaten die Bezugsmöglichkeiten der Erwachsenen einschränken, aber dem Jugendschutz in keinsten Weise dienen. Die Entscheidung über Mindestalter zum Konsum von Tabakwaren sowie über die Erhältlichkeit über Automaten, fällt ganz klar in den Zuständigkeitsbereich der einzelnen Mitgliedsstaaten.

**additional comments**

Cigaretten sind legale Produkte, die man im Geschäft auch zeigen muß. Als Raucher möchte man das komplette Sortiment sehen und auch aus diesem aussuchen.

Yes

**which option**

Extend the scope of the Directive

**recommend option**

Everything that prevents smoking, especially for children and employees (people who cannot do anything actively against smoking in their environment)

**additional comments**

I am very happy with the recommendation of the EU. I would like to add the following: No smoking in cars, especially when children are within the car, No smoking at any place where somebody is eating, e.g. Biergarten, even if it is not in a closed building.

**questions smokeless**

**problem definition**

Yes

**which option**

Ban on all types of smokeless tobacco products

**questions consumer  
problem definition**

Yes

**which option**

No change; Improve consumer information

**which improvement**

Picture warnings to become mandatory; Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package; Health warnings to be put on water pipes

**questions on reporting**

**problem definition**

Yes

**which option**

Introduce fees and sanctions

**questions scope****problem definition**

No

**explanations**

In einer aufgeklärten Gesellschaft, wie wir es doch sind, gehe ich davon aus, dass jeder Bürger über das Risiko des Rauchens hinreichend informiert ist und es somit keinerlei weitere Warnhinweise geben muß.

**which option**

No change

**additional comments**

Die Vielzahl der Marken sollte in einer aufgeklärten Gesellschaft bestehen bleiben: Eine Marke schafft Vertrauen auch bei Genussmitteln. Manipulationen am Produkt wären ohne Marken leichter, welche Gefahren davon ausgehen kann man sehen an den Alkoholmanipulationen in der Tourismusbranche in der Türkei. Konsequenterweise müßten sie auch Alkohol neutralisieren, wie könnten sie dann noch ein Predikatswein von einem Billigprodukt unterscheiden. Im Grunde könnten sie dann überall alles rein tun, von legalen bis illegalen Zusätzen alles wäre denkbar und der Preis alleine gibt dem Verbraucher kein Vertrauen.

**questions smokeless****problem definition**

No

**comments**

Die bisherigen Kontrollen sind ausreichend, Zusatzstoffe fallen schließlich hier unter die Lebensmittelkontrolle

**which option**

No change

**questions consumer****problem definition**

No

**explanations**

Legale Produkte müssen legal verkauft werden können, der Handel wendet jetzt schon alles auf um Jugendliche den Zugang zu den Produkten unmöglich zu machen.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Anwendung von Gesetzen verbindlich für alle , sorgt für Sicherheit. Harte und extrem Hohe Strafen schrecken ab. Bitte nutzt diese Möglichkeit und redet nicht nur darüber

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Nur wenn sie nicht mit den bestehenden Gesetzen konform sind.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Produkte müssen in einer legalen Welt offen gehandelt werden können. Der Handel muß alle legalen Mittel einsetzen dürfen. Bei verstößen muß hart gehandelt werden.

**recommend option**

The scope of the Directive can be extended to cover these other products, but this should not include an automatic ban on one category of product (novel forms of oral tobacco). Any bans should be based on scientific assessments.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

není dokázáno, že větší varování bude mít za následek snížení počtu kuřáků. Navíc bude mít za následek větší růst nelegálního trhu.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

členské státy mají možnost zavést poplatky a sankce. Dodržování těchto pravidel by mělo být i nadále ponecháno v odpovědnosti každého státu.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

Testování přísad by se mělo zaměřit na to, zda-li zvyšují toxicitu tabákového kouře.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Není zde jasně stanovený problém pokud jde o prodejní automaty nebo místa prodeje. Nejsou zde důkazy naznačující jak by zákaz mohly zlepšit fungování vnitřního trhu.

Verbote sind kontraproduktiv. Ohne das Verbot von Snus würde ich gar nicht wissen, worum es sich dabei überhaupt handelt. Ich habe von der Existenz von Snus nur deshalb erfahren weil über das Verbot diskutiert wird. Ausserdem glaube ich nicht, dass der Konsum ohne Verbot zunehmen würde, da Snus genauso wie Schnupftabak u. ä. einfach nicht jedermanns Sache ist. Diese Menschen, die Snus konsumieren wollen, importieren ihn halt von irgendwo her. Gerade für Jugendliche wird er durch das Verbot noch attraktiver. (Verbotene Früchte schmecken am besten.)

**which option**  
Lifting the ban on snus

**questions consumer**  
**problem definition**

No

**explanations**

Ein erwachsener, mündiger Mensch weiß, welche Risiken der Tabakkonsum bergen kann. Und jemand der gerne raucht und sich über die eventuellen Folgen im Klaren ist lässt sich auch mit solchen Bildern nicht abschrecken. Das Rauchen unter 18 Jahren wird in Deutschland im Jugendschutzgesetz geregelt. Es wäre meiner Meinung nach um einiges sinnvoller, wenn bereits in der Grundschule an das Thema Rauchen herangeführt wird und den Kindern quasi von klein auf beigebracht wird, dass das Rauchen nicht gesund ist und welche Folgen es haben kann. Die Kinder müssen nachdem dieses Thema abgehandelt wurde wissen, dass es besser für sie ist wenn sie nicht Rauchen. Immer weitergehende Verbote halte ich für kontraproduktiv und falsch.

**which option**  
No change

**questions on reporting**  
**problem definition**

No

**explanations**

Die Zusatzstoffe müssten von den Herstellern offengelegt und zentral z.B. auf einer Webseite

für alle Marken aufgelistet werden (mit entsprechendem Gefahrenpotential). Auf den Zigarettenpäckchen müsste z.B. seitlich ein Hinweis aufgedruckt werden. (z.B. Eine Aufstellung der verwendeten Zusatzstoffe finden Sie unter [www.xyz.com](http://www.xyz.com)) Sanktionen halte ich für angemessen, wenn die Liste unvollständig ist oder falsche Angaben enthält. So kann sich der interessierte Raucher, der evtl sogar aufhören will konkret informieren und findet vllt sogar eine gewisse Unterstützung wenn er Bescheid weiß, welche Stoffe zugesetzt wurden und wie sich diese verhalten wenn sie verbrannt werden.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

Eine Offenlegung der verwendeten Zusatzstoffe halte ich für absolut ausreichend.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Wenn das von mir vorgeschlagene Prinzip der Aufklärung bereits an den Grundschulen konsequent durchgezogen wird löst sich das Problem der jugendlichen Raucher von selbst. Ausreisser gibt es immer und der Zugriff auf Tabakwaren gelingt immer irgendwie. Dann werden ältere, berechnete Personen mit dem Kauf beauftragt. Ich denke durch eine frühe Sensibilisierung bekommt man diese Problematik besser in den Griff. Verbote lösen oft auch Trotzreaktionen aus. (Jetzt erst recht, denen werd ich s zeigen)

**questions scope**

**problem definition**

No

**explanations**

1.) All problems are lacking proper scientific prove and are more based on rumors or 'talk on the grapevine' from certain parties, who have a special interest to get themselves on the front of the newspaper. It's just political lobby work - nothing else. 2.) Adult consumers are completely disregarded and treated like childes in the sense "They have no glue - we have to think for them" 3.) Instead of spending money for such useless excersises the focus should be set on solving real problems (unemployeement problems, poverty in a rich society, child

missues, ...) 4.) If any of the suggested change options to further restrict a legal industry would materialize it would only lead to one result - increase of uncontrolled smuggling activiteis (contraband's) from suspicious countries (e.g. China, Belaur, ...). These products are in fact highly dangerous, because they are completly uncontrolled and can in fact cause severe damage to consumers.

**which option**

No change

**recommend option**

No

**additional comments**

The current legislation (Options 1) have proven to work effectively and should not be further modified.

**questions smokeless**

**problem definition**

No

**which option**

Lifting the ban on snus

**additional comments**

Snus should be treated as a legal product like in other countries (e.g. Sweden, US, ..).

**questions consumer**

**problem definition**

No

**explanations**

Please see comments on first topic (Scope of Directive)

**which option**

No change

**additional comments**

As cigarettes are still legal products they should have he same rights in regards to packaging / advertising as all other legally produced products.

**questions on reporting**

**problem definition**

No

**explanations**

Ingrediens reporting on legal cigarettes is already quite extensive and does not need any further extensions.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Ingredients of cigarettes is already one of the most regulated legally produced products.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Already highly regulated from industry as well as from governmental side. No further increase of regulation required.

I don't want that the EU government to interfere more and more in themes like this. Take care about really important themes like redundancy or crime rate etc. If you think smoking is a "health problem" why don't you ban it completely? I know why, it's too much tax proceeds! This is double moral standard. In addition every adult should decide for himself whether he wants to smoke or not. I'm tired about all these regulations and requirements, leave it as it is! And don't forget: you are representatives, that should represent the opinion and "wishes" of the people, not your own in the first place! If you worry about the health of the people, why don't you want to regulate alcohol in the same way for example?

**which option**  
Lifting the ban on snus

**questions consumer**  
**problem definition**  
No

**explanations**  
il n'est pas prouvé qu'une augmentation de la taille des avertissements sanitaires soit plus efficace. le paquet générique n'est pas une solution et laisse place à la contrefaçon.

**which option**  
No change

**questions on reporting**  
**problem definition**  
No

**explanations**  
Les Etats membres peuvent déjà introduire des frais d'enregistrement et des sanctions. La mise en oeuvre de telles mesures qui seraient prévues par la directive doit rester de la responsabilité des Etats membres de l'UE.

**which option**  
Establish a common compulsory reporting format

**regulation of ingredients**  
**problem definition**  
No

**explanations**  
Le question de l'évaluation des ingrédients devrait uniquement poser le problème de l'augmentation ou non de la toxicité de la fumée du tabac.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Le problème des distributeurs automatiques et de l'affichage des produits sur le point de vente est mal posé. Il n'y a pas de preuve que ces interdictions amélioreraient le fonctionnement du marché intérieur ou répondent aux objectifs de santé publique.

All band has to be based on scientific assessment.

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

there is no evidence that bigger warnings and/or plain packaging are more effective and/or have any public health benefits. On the top, illegal sales of cigarettes will increase.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Enforcement of the provisions of the Directive should remain the responsibility of the member states, which can already introduce fees and sanctions.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

the focus of ingredients testing has to be on whether the ingredients result in increased toxicity of tobacco smoke

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

There is no clear problem stated as regards either vending machines or point of sale display

**which option**

No change

#### **recommend option**

The scope of the Directive can be extended to cover these other products, but this should not include an automatic ban on one category of product /novel forms of oral tobacco/. Any bans should be based on scientific assessments.

#### **questions smokeless**

##### **problem definition**

Yes

##### **which option**

Lifting the ban on snus

#### **questions consumer**

##### **problem definition**

No

#### **explanations**

There is no evidence that bigger warnings are more effective. There is no evidence that plain packaging would improve the functioning of the internal market or have any public health benefits. It would make it easier for criminals to copy legitimate brands and would lead to an

increase in illegal sales of cigarettes.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Member States can already introduce fees and sanctions. Enforcement of the provision of the Directive should remain the responsibility of the Member States.

**which option**

Establish a common compulsory reporting format

### **questions scope**

#### **problem definition**

No

### **explanations**

Jede Form der Regulierung von Tabakerzeugnissen muss auf der Grundlage wissenschaftlicher Erkenntnisse sowie der zweifelsfrei gegebenen Rechtssetzungskompetenz der EU basieren. Diese Produkte wurden bisher keiner wissenschaftlichen Bewertung (Unbedenklichkeitsprüfung) unterzogen.

### **which option**

No change

### **questions smokeless**

#### **problem definition**

No

### **comments**

Der Konsum rauchloser Tabakerzeugnisse durch uns erwachsene und aufgeklärte Personen gefährdet weder die Gesundheit Dritter noch schränkt der Konsum dieser Produkte andere Personen in Ihren Lebensgewohnheiten (Passivrauchen) ein. Daher sollte ein beworbener und Verkauf dieser Produkte möglich sein.

### **which option**

Lifting the ban on snus

### **questions consumer**

#### **problem definition**

No

### **explanations**

Durch die Umsetzung von neutralen Verpackungen wird Produktfälschern die Arbeit erleichtert und das Problem des Schmuggels weiter verschärft. Dies bedroht massiv die Existenz des national tätigen Groß- und Einzelhandels in Deutschland. Da wird der Bürger doch mal wieder Entmündigt bei Einführung sogenannter Einheitspackungen.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Es ist doch sehr verwunderlich dass der Anstoß in Richtung einer Vereinheitlichung und Vereinfachung nicht von den Mitgliedsstaaten selbst kommt, sondern von der Kommission und dann mit der Option die der Wirtschaft zusätzliche dauerhafte Kosten (jährliche Gebühr) auferlegen würde.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Diese Problemdarstellung ist nicht sachgerecht, da sie sich nicht an wissenschaftlichen Prüfstrategien und Standards orientiert. Und speziell am Maßstab der Verhältnismäßigkeit ausgerichtete Diskussionsgrundlage.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Es ist doch keine Problembeschreibung, dass in einer Vielzahl von Mitgliedstaaten der Vertrieb von Tabak- automaten verboten ist. Und speziell wir in Deutschland haben jetzt schon die strengsten gesetzlichen Auflagen was den Jugend- und Gesundheitsschutz betrifft. Ganz zu schweigen von der Anzahl der Arbeitsplätze die da auf dem Spiel stehen.

Ich finde, dass bei einer Gleichsetzung des Aussehens eines Tabacproduktes, der Schwarzmarkt beflügelt wird. Minderwertige Qualität kann leichter in Umlauf kommen. Außerdem bleibt die Vielfalt auf der Strecke, mehr Arbeitslose und Missbrauch wird gefördert, wie am Anfang beschrieben. Jeder hat seinen eigenen Geschmack. Was wäre, jedes Bier würde gleich schmecken. Wäre genau das selbe.

Jede Form der Regulierung von Tabakerzeugnissen muss auf der Grundlage wissenschaftlicher Erkenntnisse sowie der zweifelsfrei gegebenen Rechtssetzungskompetenz der EU basieren. Zudem vermeidet die Kommission jede Form der Wertung in Bezug auf das Subsidiaritäts- und Verhältnismäßigkeitsprinzip.

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

Das EU-weite Verbot von Snus (Ausser Schweden) stellt eine massive Entmündigung der Bürger dar. Ein erwachsener Verbraucher sollte doch das Recht haben, auch bei Genussmitteln mit Gesundheitsrisiken die Wahl zu besitzen und eigenverantwortliche Entscheidungen zu treffen.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Die Einführung von Einheitspackungen für Zigaretten wäre eine massive Entmündigung der Bürger. Durch die Umsetzung von neutralen Verpackungen wird Produktfälschern die Arbeit extrem erleichtert und das Problem des Schmuggels weiter verschärft. Dies bedroht die Existenz des rein national tätigen Groß- und Einzelhandels in Deutschland.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Die Mitgliedsstaaten sollten selbst in Zusammenarbeit mit der Wirtschaft einen pragmatischen Weg diskutieren und dann auch umsetzen. Ein notwendiger Handlungsbedarf der Kommission zum Eingriff in bestehende nationale Abläufe wird nicht ersichtlich. Muss die Kommission sich eigentlich überall einmischen???

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Der Begriff "attraktiv" ist ein sehr subjektives Kriterium für ein Verbot oder eine Regulierung von Zusatzstoffen und entbehrt jeglicher wissenschaftlicher Grundlage. In Großbritannien und Irland wird doch auch nicht weniger geraucht, obwohl dort überwiegend Zigaretten ohne Zusatzstoffe verkauft werden.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Der Problembeschreibung stimme ich absolut nicht zu. Die Bereiche wie Verkauf von Tabakwaren über Zigarettenautomaten und Mindestaltersgrenzen für den Bezug von Tabakwaren sind Themen, die eindeutig in den Zuständigkeitsbereich der Mitgliedstaaten fallen. Eine Abschaffung der Automaten wird aus wettbewerbs- wie verfassungsrechtlichen

Gründen als nicht durchsetzbar und darüber hinaus auch als unverhältnismäßig angesehen.

##### **which option**

Lifting the ban on snus

#### **questions consumer**

##### **problem definition**

No

#### **explanations**

Pilnībā neatbalstu cigarešu paciņu ieviešanu bez zīmola nosaukuma, jo tādejādi tiks veicināta nelegālo cigarešu ieviešana, jo šādas paciņas var vieglāk viltot, ka arī ievestās paciņas no citām valstīm smēķētājiem liksies daudz atraktīvākas, īpaši jaunatnes vidū. Neesmu arī pārliecināts par to, ka pārmērīgi lieli veselības brīdinājumu uzraksti uz paciņas mazinās tieksmi smēķēt, jo līdz šim līdzīgas darbības nav sevi pierādījušas.

##### **which option**

No change

**questions on reporting  
problem definition**

No

**explanations**

Uzskatu , ka šie jautājumi jāatstāj katras valsts izskatīšanā.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

Ņemot vērā, ka smēķētājs pierod pie tikai sev ierastas markas un sastāva cigaretēm, tad jebkuras krasas izmaiņas gadījumā attiecībā uz cigaretes smaržas, garšas un citām īpatnībām, smēķētājs būs spiests meklēt savu iecienīto marku ārpus savas valsts robežām, vai pieprasīt no nelegālajiem tirgotājiem.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Cigarešu izvietojanas aizliegums var veicināt nelegālo cigarešu tirdzniecību, jo pircējs neredzēs savu cigarešu marku atļautajās tirdzniecības vietās, kā arī var pamudināt tirgotāju tirgot nelegālās cigaretes, jo pircējs pirms cigarešu pirkšanas nevar pārliecināties par to izcelsmi. Tirgotājiem būs nepieciešamas papildus investīcijas piemērot esošos cigarešu standus jaunajām prasībām.

**questions scope****problem definition**

No

**explanations**

The EU Commissions plans to introduce mandatory pictorial warnings and standardized packages is an outrage! This act is a massive attack on citizens liberties and an display of arrogance. The EU Commission should have better things to do than to patronize and infantilize grown-up citizens. If the EU high Commission is so worried about our soundness it should label products like alcohol, certain pharmaceuticals and chemicals consequently. It also should label cars and petrol stations with warnings. There is another reason to be annoyed: The financial crisis has shown, that financial markets and capital flows have to be regulated. There is so much to do in that field, but nothing happens. The EU-commission produce a high number of irritating regulations for the common man, while it is creating a deregulized playground for multinational companies and the financial sector at public expense.

**explanations**

Der Zugang zu Tabakwaren wird jetzt schon genügend kontrolliert. Zum Beispiel am Automaten: Dort wird die Alterskontrolle über Personalausweise und Bankkarten geregelt. Das jemand diese aus der Hand gibt ist unwahrscheinlicher als dass ein Jugendlicher Tabakwaren unter der Hand kauft z.B. Schmuggelware. Ein erschwerter Zugang zu legalen Produkten lenkt den Kunden vielmehr zu den illegalen Stellen.

**which option**  
No change

**additional comments**

De notre point de vue, cela peut être raisonnable d'élargir le champ d'application de la directive à ces nouveaux produits. Toutefois, cela ne peut pas amener à ce que les produits précités soient interdits sans examen scientifique préalable. En raison de ce danger, nous avons décidé de choisir l'option, « no change ».

**questions smokeless**  
**problem definition**  
Yes

**which option**  
Lifting the ban on snus

**questions consumer**  
**problem definition**  
No

**explanations**

Actuellement, il manque les connaissances scientifiques qui prouveraient que des mises en gardes sanitaires plus importantes seraient plus efficaces. En outre, il n'est prouvé en aucune manière que la standardisation des paquets de cigarettes permettrait de protéger la santé. La standardisation augmenterait au contraire le danger de contrefaçons et avec cela on paverait la voie à la contrebande."

**which option**  
No change

**questions on reporting**  
**problem definition**  
No

**explanations**

Déjà avec le droit actuel, les Etats membres peuvent prévoir des taxes et d'autres sanctions. Dès ce fait, il n'existe aujourd'hui aucun motif suffisant qui permettrait à l'UE de revendiquer des compétences supplémentaires dans ce domaine. C'est pourquoi, la mise en œuvre des dispositions de la directive doit rester à l'avenir de la seule compétence des Etats membres.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

Le problème de l'enregistrement des ingrédients devrait se poser uniquement si le degré de toxicité de la fumée de tabac est augmenté par les ingrédients ou non.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Dans ce domaine, on ne rencontre aucun problème, que ce soit dans la manière de fonctionner du marché intérieur ou que se soit lié à la protection de santé. Dans ce domaine, ce qui doit avant out être respecté se sont les limites d'âge. Dans ce domaine, les Etats membres sont bien plus au fait du problème que ne l'est l'Union européenne.

**questions scope****problem definition**

No

**explanations**

Eine Regulierung sollte grundsätzlich nur auf Basis von wissenschaftlichen Erkenntnissen erfolgen. Diese liegen hier nicht vor.

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

Der Konsum rauchloser Tabakprodukte hat keinen Einfluß auf die Gesundheit Dritter und schränkt diese auch in keinster Weise ein. Ein EU weites Verbot von Snus stellt einen Eingriff in die eigenverantwortliche Entscheidungsfindung der EU Bürger dar.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Die Größe des Warnhinweises hat keinen nachweislichen Effekt auf dessen Wirksamkeit. Ferner ist die Allgemeinheit sich bereits der Risiken des Rauchens bewußt. Eine Einheitspackung schränkt die freie Marktwirtschaft innerhalb der EU ein. Über dies sorgen neutrale Verpackungen für eine Verlagerung des Wettbewerbs auf die Preisschiene. Dies führt wiederum zu sinkenden Preisen und folglich zu weniger Steuereinnahmen.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Kein Kommentar

**which option**

No change

**regulation of ingredients****problem definition**

No

**explanations**

Die Verbreitung des Rauchens in Ländern, in denen kaum Zigaretten mit Zusatzstoffen verkauft werden, ist nicht geringer als in anderen Ländern. Ferner handelt es sich bei der Attraktivität um ein subjektives Kriterium.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Die Tatsache, dass in einigen Mitgliedsstaaten der Vertrieb über Tabakautomaten verboten ist, stellt keine Problembeschreibung dar. Der Verkauf von Tabakprodukten über Automaten unterliegt hierbei strengen nationalen gesetzlichen Auflagen. Die Entscheidung über Mindestalter zum Konsum von Tabakwaren, sowie über die Erhältlichkeit von Tabakprodukten über Zigaretten-Automaten, fällt eindeutig in den Zuständigkeitsbereich der jeweiligen Mitgliedsstaaten. Der Verkauf von Tabakwaren in Automaten hat keinen grenzüberschreitenden Bezug, da sich deren Einzugsgebiet auf die unmittelbare Nachbarschaft des Automaten beschränkt. Ferner würde das Verbot von Automaten den innereuropäischen Warenhandel nicht erleichtern, sondern erschweren. Außerdem zweifle ich daran, dass die Existenz von Zigaretten-Automaten einen Einfluß auf das Rauchverhalten Jugendlicher hat.

Si interdiction il y a , elle devrait s'appuyer exclusivement sur des fondements scientifiques totalement établis

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional comments**

Des étude scientifiques claires établissent que le SNUS est moins nocif que les cigarettes

**questions consumer****problem definition**

No

**explanations**

Rien de prouvé à ce jour que l'augmentation de la taille des messages sanitaires soit liée directement à la baisse de la consommation du tabac. Par ailleurs, peut-on clairement établir scientifiquement à ce jour que le paquet générique a un effet notable sur la baisse de la consommation du tabac ? Et puis, quid de l'augmentation du commerce illicite via la contrefaçon, notamment ?

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Les États membres peuvent déjà sanctionner; Ces mesures doivent rester de la responsabilité des États membres de l'UE

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

L'évaluation des ingrédients ne devrait concerner que le problème de l'augmentation ou non de la toxicité de la fumée du tabac.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Le problème des distributeurs automatiques et de l'affichage des produits est mal posé. Il n'y a pas de preuve que ces interdictions amélioreraient le fonctionnement du marché intérieur ou mieux encore, répondent aux objectifs de santé publique.

**questions scope**

**problem definition**

Yes

**which option**

Extend the scope of the Directive

**additional comments**

Elektronische Zigaretten und andere zigarettenähnliche Produkte sind gesundheitsschädlich.  
Nikotinhaltige Produkte machen abhängig.

**questions smokeless**

**problem definition**

Yes

**which option**

Ban on all types of smokeless tobacco products

**additional comments**

Rauchlose Tabakprodukte aller Art sind gesundheitsschädlich und machen abhängig.

**questions consumer****problem definition**

Yes

**which option**

Improve consumer information; Introduce generic or plain packaging

**which improvement**

Picture warnings to become mandatory; Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package; Health warnings to be put on water pipes

**additional comments**

Standardisierte Verpackungen können in der Tabakprävention genutzt werden und nehmen der Tabakindustrie die Möglichkeit, mit der Verpackung zu werben.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format; Introduce fees and sanctions

**regulation of ingredients****problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a negative common list of tobacco ingredients

**additional comments**

Zusatzstoffe erhöhen das Suchtpotential von Tabakprodukten, sie erleichtern den Einstieg in das Rauchen. Aus Zusatzstoffen können beim Rauchen des Produkts gesundheitsschädliche Stoffe entstehen. Sämtliche Zusatzstoffe sollten grundsätzlich verboten werden.

**access to tobacco products****problem definition**

Yes

**which option**

Ban

**which one2**

Cross-border retail sales of tobacco to be banned over the Internet; Vending machines to be banned; Promotion and displays in retail stores to be banned

**additional comments**

Weder beim Internetverkauf noch beim Automatenverkauf lässt sich das Alter des Käufers mit Sicherheit kontrolliert werden. Das offenen Auslegen der Tabakprodukte am Verkaufsort ist Werbung für das Produkt und muss verboten werden.

If smoking is dangerous, then you have to maintain, that no tobacco-products can not sold in the European countries. Otherwise, tobacco-products are non-dangerous and can sold without any restriction. Good luck, to explain the first statement to the financial-ministers of the European countries.

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

There is no problem, with smokeless products, because these products only made and sold to adult persons.

**which option**

No change

**questions consumer**

**problem definition**

No

**explanations**

The consumer has to have an information about the product he wants to buy. The person is an adult, so he does not need any paternalism of any government that explains what he has to do.

**which option**

wissenschaftlicher Erkenntnisse sowie der zweifelsfrei gegebenen Rechtssetzungskompetenz der EU basieren. Dies gilt auch für mögliche Regulierungen oder gar Verbote für nikotinhaltige Produkte, die keinen Tabak enthalten oder zigarettenähnliche Produkt (Kräuterzigaretten).

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Jedem muß selber überlassen sein, wie er mit sich und seiner Gesundheit umgeht. Es gibt keinen überzeugenden Beleg dafür, dass ein Warnhinweis umso wirksamer ist, je größer sein Format. Es existiert bereits ein allgemeines Bewusstsein der Risiken des Rauchens. Ein Hinzufügen von Bildern auf den Warnhinweisen erhöht dieses Bewusstsein nicht – die Bilder wirken lediglich überwiegend abstoßend ohne eine zusätzliche Information zu bieten. Es wird pauschal unterstellt, dass die Einführung von Bildwarnhinweise auf das Rauchverhalten der Verbraucher einwirkt. Dafür werden allerdings keine Nachweise aus den Ländern zugeliefert, in denen Bildwarnhinweise bereits verpflichtend eingeführt wurden.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Die Formate und Meldemechanismen zur Vorlage von Daten zu Zusatzstoffen von Tabakerzeugnissen fallen innerhalb und zwischen den EU-Mitgliedsstaaten unterschiedlich aus. Die Behörden haben Schwierigkeiten bei Vergleich und Analyse der Daten. • Die neue TPD würde von Herstellern und Importeuren europaweit verlangen, die in ihren Produkten

verwendeten Zusatzstoffe zu melden – doch legt die geplante TPD keinerlei abgestimmtes System für die Vorlage solcher Angaben fest.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Ob die Behörden Schwierigkeiten bei Vergleich und Analyse der Daten haben oder die Erfassung und Analyse der gemeldeten Daten über Inhaltsstoffe erhebliche Ressourcen auf Seiten der zuständigen nationalen Behörden erfordern, wie von der Kommission dargestellt, kann nicht beurteilt werden. – Wenn dies so wäre, verwundert es sehr, dass der Anstoß in Richtung einer Vereinheitlichung und Vereinfachung nicht aus den Mitgliedstaaten selbst hervorgeht, sondern von der Kommission vorgebracht wird und dann im Zusammenhang mit einer Option, die der Wirtschaft zusätzliche dauerhafte Kosten (jährliche Gebühr) auferlegen würde.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

• Attraktive Stoffe werden Tabakerzeugnissen beigegeben. • Während des Verbrennungsprozesses bildet die Mehrheit der Zusatzstoffe Substanzen, die krebserzeugend, erbgutverändernd und/oder reproduktionstoxisch sind. • Für den Binnenmarkt existieren keine gemeinsamen Bedingungen, die ein einheitlich hohes Niveau an Gesundheitsschutz sicherstellen. • Einige Mitgliedsstaaten erlauben bestimmte gelistete Zusatzstoffe (Positivliste), andere haben bestimmte Zusatzstoffe verboten (Negativliste); andere haben sowohl Negativ- als auch Positivlisten. • Infolgedessen dürfen Stoffe, die in einem bestimmten Mitgliedsstaat verwendet werden können, in einem anderen nicht verwendet werden.

**which option**

No change

**recommend option**

Aus meiner Sicht kann es sinnvoll sein, den Anwendungsbereich der Richtlinien auf diese

Produkte auszudehnen. Das darf jedoch nicht dazu führen, dass bestimmte Produkte ohne entsprechende wissenschaftliche Erkenntnisse verboten werden. Aufgrund dieser Gefahr habe ich mich entschlossen, die Option 'no change' zu wählen

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Derzeit fehlt es an wissenschaftlich gesicherten Erkenntnissen, dass grössere Warnhinweise wirksam sind. Zudem ist in keiner Weise gesichert, dass Standardisierungen der Verpackungen den Gesundheitsschutz fördern. Standardisierungen erhöhen vielmehr die Gefahr von Fälschungen. Damit wird dem Schmuggel weiter Vorschub geleistet

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Bereits nach geltendem Recht können Mitgliedsstaaten Gebühren und andere Sanktionen vorsehen.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Der Fokus hinsichtlich der Bekanntgabe und Registrierung von Zusatzstoffen sollte allein darauf liegen, ob durch Zusatzstoffe die Toxizität von Tabakrauch erhöht wird oder nicht.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

In diesem Bereich besteht keinerlei Problematik, weder hinsichtlich der Funktionsweise des Binnenmarktes noch des Gesundheitsschutzes. Wichtig ist in diesem Bereich einzig, dass die bestehenden Vorschriften, vor allem der Alterslimiten, eingehalten werden. Dazu sind aber die Mitgliedstaaten besser in der Lage als die Union.

**which option**  
Lifting the ban on snus

**questions consumer**  
**problem definition**  
No

**explanations**  
Neexistují žádné důkazy, že větší varování jsou efektivnější. Není žádný důkaz, že jednotná balení zlepší fungování vnitřního trhu nebo budou mít pozitivní zdravotní dopady. Naopak, pro nelegální výrobce bude daleko jednodušší kopírovat značky a povede to k nárustu nelegálního prodeje cigaret.

**which option**  
No change

**questions on reporting**  
**problem definition**  
No

**explanations**  
Členské státy již mají možnost zavést poplatky a sankce. Dodržování těchto pravidel by mělo být i nadále ponecháno v zodpovědnosti každého státu.

**which option**  
Establish a common compulsory reporting format

**regulation of ingredients**  
**problem definition**  
No

**explanations**  
Testování přísad by se mělo zaměřit na to, zda-li zvyšují toxicitu tabákového kouře

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Není zde jasně stanovený problém pokud jde o prodejní automaty nebo místa prodeje. Nejsou zde důkazy naznačující jak by zákazy mohly zlepšit fungování vnitřního trhu.

We can decide on these things on our own, as countries and as individuals.

**which option**

No change

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Consumers are already well informed. Not a single smoker did not know about the negative effects when they started. These warnings are utterly useless. The color of the cigarette box merely decides which cigarettes a smoker will consume, not whether they will actually smoke. Colors of cigarette boxes are nothing that should have to be decided on a continental level. Dear commission members, please do some actual, useful WORK instead.

**which option**

No change

**additional option**

Abolish the obligatory warnings. Everyone knows, and regulations like these are not needed.

No

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

I don't see a problem about not seeing the warnings, they usually cover so much of the package of tobacco-products that it's harder to see something else.

**which option**

No change

**questions on reporting**

**problem definition**

Yes

**which option**

No change

**regulation of ingredients**

**problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a positive common list of tobacco ingredients

**access to tobacco products**

**problem definition**

No

**explanations**

Buying on the internet can clearly not be seen as a problem, after all it's a part of the economy and rare products aren't able to get bought anymore. Someone who buys tobacco on the internet also knows about the risks, since nobody buying there hasn't have bought a tobacco-product before or at least seen it. The buyer is not necessarily the "most stupid user imaginable". The differences between countries also make it harder to fit with every country.

Weil diese Stoffe andere Personen, die diese nicht einnehmen nicht schädigen.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Im Endeffekt gibt es im Leben immer Risiken. Die Art wie mit denen umgegangen werden soll ist vollkommen falsch. Bzgl. anderer Gefahren (z.B. Autos, etc.) wird auch nicht so aggressiv angegangen.

**which option**

Introduce generic or plain packaging

**additional comments**

Einheitspackungen sind zwar meiner Meinung nach in Ordnung, lösen aber das Problem nicht.

**questions on reporting****problem definition**

No

**explanations**

Die Konsumenten sollten sich selbst schützen und nur das einnehmen, was sie sich selbst zutrauen würden. Eine Warnung über die Inhaltsstoffe und deren Wirkung reicht vollkommen aus.

**which option**

Establish a common compulsory reporting format

**additional options**

Man sollte Richtlinien/Gesetze verabschieden, die die Altersbeschränkung von Tabakprodukten genauer definieren. Gesundheitsschädigendere Produkte sollten europaweit beispielsweise erst ab 21 verkauft werden dürfen.

**regulation of ingredients**

**problem definition**

Yes

**which option**

Introducing the basic criteria on the EU level without a common list

**access to tobacco products****problem definition**

Yes

**which option**

Ban

**which one2**

Cross-border retail sales of tobacco to be banned over the Internet; Vending machines to be banned; Promotion and displays in retail stores to be banned

**additional option**

Geschäfte, die Tabakwaren verkaufen, sollten von außen erkennbar sein (Bsp.: „T“ wie in Italien), allerdings sollten die Zigarettenpackungen nicht sichtbar sein.

#### **name**

Götz F. Wichmann

#### **email**

goetz.wichmann@web.de

#### **country**

Germany

### **questions scope**

#### **problem definition**

No

### **explanations**

there simply is NO document proving dangers of smoking to others, so there cannot be any kind of problem

### **which option**

No change

### **recommend option**

yes: take back most of the directives and laws addressing a problem that is not a problem

### **questions smokeless**

#### **problem definition**

No

### **comments**

again, there is no problem. There is no need (and no right, actually) that enables you (or others) to protect people from themselves!

### **which option**

Lifting the ban on snus

### **additional comments**

yes, take back any and all measures you and others took, which harm the right of peoples personal rights of freedom

### **questions consumer**

#### **problem definition**

No

**explanations**

today any and all information is accessible for anyone, so there just cannot be a problem, when it comes to consumer information.

**which option**

No change

**additional comments**

yes, please make European citizens politically mature again.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

products need to discern themselves and consumers should be given a choice.

**which option**

Introducing the basic criteria on the EU level without a common list

**access to tobacco products****problem definition**

No

**explanations**

access to tobacco is highly restricted in most (if not all countries of the EU), there is no need to further restrict access.

**which option**

No change

**problem definition**

No

**explanations**

Ich bin der Überzeugung das der bürokratisch Wahnsinn ei Ende haben sollte.

**which option**

No change

**additional comments**

Ich kenne Leute, die sich mit Hilfe von Nikotinkaugummi das Rauchen abgewöhnt haben .

**questions smokeless****problem definition**

Yes

**which option**

No change

**questions consumer****problem definition**

Yes

**which option**

No change

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a negative common list of tobacco ingredients

**access to tobacco products****problem definition**

No

**explanations**

Die Vereinheitlichung der Verpackung fördert Schmuggel und Fälschung eines immer noch legalen Genussmittels. Artenvielfalt ist die Richtlinie unserer Zeit und nicht Gleichmacherei.

**which option**

No change

**additional option**

Wenn Tabakwaren nur noch unter dem Tisch gehandelt werden , sind wir zurück im Zeitalter der Prohibition. Aldi, Lidl und Supermärkte hätten kein Problem damit und werden per Automat die Tabakwaren (ohne vorherige Präsentation) auf das Kassensieb werfen und weiter

daran verdienen. Kioske , Fachgeschäfte , Trinkhallen hätten demgegenüber ein Platzproblem,hohe Umbaukosten und keine Möglichkeit weiter zu existieren.

**name**

Petra Dietrich

**email**

petra.dietrich@googlemail.com

**country**

Austria

**questions scope****problem definition**

Yes

**which option**

No change

**recommend option**

The guidelines should be extended to the stated products, but before banning these products, a valuable analysis should be made, based on scientific research.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

There is no significant evidence that snugs are more harmful tha other tobacco products.

**questions consumer****problem definition**

No

**explanations**

There is no scientific evidence that larger warnings or images prohibit people from smoking. Plain packaging would foster product counterfeit and illegal tarde of porducts, which leads to less product safety for the consumer.

**which option**

No change

**additional option**

The options give here do not contribute to a better health and safety for smokers or keep potential smokers away from tobacco products.

**questions on reporting****problem definition**

No

**explanations**

First of all, a unified system would need to be developed before regulating the reporting system.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

attractivity as factor for evaluating a possible thread through ingredients is not valid or scientific. first of all a criteria list needs to be established before discussing this issue.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

There is no problem visible in this problem definition and there is no evidence that any of the options give may positively benefit the consumer of retail.

**which option**

**explanations**

Jede Form der Regulierung von "Tabakerzeugnissen" muss auf der Grundlage wissenschaftlicher Erkenntnisse sowie der zweifelsfrei gegebenen Rechtssetzungskompetenz der EU basieren. Dies gilt auch für mögliche Regulierungen oder gar Verbote für nikotinhaltige Produkte, die keinen Tabak enthalten oder zigarettenähnliche Produkt(Kräuterzigaretten). Diese Produkte sind keiner wissenschaftlichen Bewertung unterzogen worden.

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

Das EU-weite Verbot von Snus(Ausnahme Schweden) stellt eine massive Entmündigung der Bürger dar. Denn die erwachsenen Verbraucher haben das Recht, auch bei Genussmitteln mit Gesundheitsrisiken die Wahl zu haben und eigenverantwortliche Entscheidungen zu treffen.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Eine Einheitspackung würde den Wesensgehalt des Markenrechts und damit auch die Interessen der Verbraucher verletzen. Eine Marke dient nämlich auch als Herkunftshinweis und ist somit ein unverzichtbares Element zur Wahrung der Entscheidungs- und Wahlfreiheit der Bürger.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Ob die Behörden Schwierigkeiten bei Vergleich und Analyse der Daten haben oder die Erfassung und Analyse der gemeldeten Daten über Inhaltstoffe erhebliche Ressourcen auf Seiten der zuständigen Behörden erfordern, wie von der Kommission dargestellt, kann nicht beurteilt werden. Wenn dies so wäre, verwundert es sehr, dass der Anstoß in Richtung einer Vereinheitlichung und Vereinfachung nicht aus den Mitgliedstaaten selbst hervorgeht, sondern von der Kommission vorgebracht wird und dann im Zusammenhang mit einer Option, die der Wirtschaft zusätzliche dauerhafte Kosten(jährliche Gebühr) auferlegen würde.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Die Problemdarstellung ist keine sachgerechte, an wissenschaftlichen Prüfstrategien und Standards orientierte und am Maßstab der Verhältnismäßigkeit ausgerichtete

Diskussionsgrundlage. Der Begriff "attraktiv" ist ein subjektives Kriterium für ein Verbot oder eine Regulierung von Zusatzstoffen und entbehrt jeglicher wissenschaftlicher Grundlage.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Der Problembeschreibung stimme ich nicht zu. Die Bereiche "Verkauf von Tabakwaren über Zigarettensautomaten" sind Themen, die eindeutig in den Zuständigkeitsbereich der Mitgliedstaaten fallen. Die Darstellung, dass in einer Vielzahl von Mitgliedsstaaten der Vertrieb von Tabakautomaten verboten ist, ist keine Problembeschreibung. Weder ein Verbot des Verkaufs von Tabakwaren in Automaten, noch die Untersagung der Auslage bzw. Sichtbarkeit von Zigaretten in Verkaufsstellen weisen einen grenzüberschreitenden Bezug auf. Für Automaten ergibt sich das schon daraus, dass deren Einzugsgebiet auf die unmittelbare Nachbarschaft zum Automaten beschränkt ist.

**questions scope****problem definition**

Yes

**which option**

No change

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional comments**

Placing Warninglabels on Smokeless Tobacco Products should be placed in similar ways as on Smoking Tobacco and it must be ensured that no one under the legal tobacco age of the specific EU-Country is able to buy Smokeless Tobacco/Snus. Still the ban should be lifted since everyone should be free to use the tobacco products of his choice.

**questions consumer**

**problem definition**

Yes

**which option**

Improve consumer information

**which improvement**

Picture warnings to become mandatory; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

Yes

**which option**

Introducing the basic criteria on the EU level without a common list

**additional comments**

there should be an EU-wide common list of which ingredients are allowed for the use in tobacco products. Maybe there also should be a list of what ingredients are used, on each package of a tobacco product (like on Snus packs).

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

Yes

**which option**  
No change

**recommend option**  
The scope of the Directive can be extended to cover these other products, but this should not include an automatic ban on one category of product (novel forms of oral tobacco). Any bans should be based on scientific assessments.

**questions smokeless**  
**problem definition**  
Yes

**which option**  
Lifting the ban on snus

**questions consumer**  
**problem definition**  
No

**explanations**

There is no evidence that bigger warnings are more effective. There is no evidence that plain packaging would improve the functioning of the internal market or have any public health benefits. It would make it easier for criminals to copy legitimate brands and would lead to an increase in illegal sales of cigarettes.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Member States can already introduce fees and sanctions. Enforcement of the provisions of the Directive should remain the responsibility of the Member States.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

The focus of ingredients testing should be on whether the ingredients result in increased toxicity of tobacco smoke.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

There is no clear problem stated as regards either vending machines or point of sale display. There is no evidence provided as to why bans would improve the functioning of the internal market or advance any public health objectives.

**which option**

**problem definition**  
No

**comments**  
Der Konsum dieser Erzeugnisse gefährdet keine Dritten. Es liegt in der Eigenverantwortung des Einzelnen solche Produkte zu konsumieren. Das Verbot entmündigt den mündigen Bürger.

**which option**  
No change

**questions consumer**  
**problem definition**  
No

**explanations**  
Die Gefahren des Rauchens sind dem Konsumenten längst bewusst. In seiner grundrechtlich geschützten Freiheit entscheidet er sich bewusst für diese Produkte. Über die Einführung von neutralen Verpackungen konzentriert sich der Wettbewerb verstärkt auf den Preis. Dies ist im Hinblick auf Jugend- und Gesundheitsschutz nicht wünschenswert. Produktfälschern wird Nährboden gegeben.

**which option**  
No change

**questions on reporting**  
**problem definition**  
No

**explanations**  
Eine detaillierte Angabe der Inhaltsstoffe ist aufgrund des Bewusstseins der Konsumenten für die Gefahren des Rauchens überflüssig.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

In Ländern, in denen vorwiegend Zigaretten ohne Zusatzstoffe verkauft werden ist die Verbreitung von Tabakwaren nicht geringer als in Ländern, in den vorwiegend Zigaretten mit Zusatzstoffen verkauft werden.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Diese Themen gehören eindeutig in den Zuständigkeitsbereich der Mitgliedsstaaten. Tabakautomaten in Deutschland gewährleisten über Ihre Zugriffsbeschränkungen den Jugendschutz problemlos. Organisierte Kriminalität wird das Vakuum füllen, das entsteht, wenn legale Verkaufs- bzw. Beratungsstellen verschwinden.

#### **name**

D. Claveloux

#### **email**

dclaveloux@skynet.be

#### **country**

Belgium

### **questions scope**

#### **problem definition**

Yes

#### **which option**

No change

### **recommend option**

All of these products should be considered in the context of a revision of the TPD, but there should not be an automatic assumption from the outset that one category of new products should be banned. A scientific assessment should be carried out before the decision to ban a product.

### **questions smokeless**

#### **problem definition**

No

### **comments**

Snus has been proven to be less harmful than other types of tobacco products.

#### **which option**

Lifting the ban on snus

### **questions consumer**

#### **problem definition**

No

### **explanations**

There is no evidence that the measures being would reduce smoking. For example, everyone already knows that smoking is harmful - making the warnings larger would not increase awareness.

#### **which option**

No change

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**additional comments**

Fees and sanctions are an area for Member States and should not be introduced at EU level.

**regulation of ingredients  
problem definition**

No

**explanations**

There is no evidence that ingredients added to tobacco products make them more harmful. On the contrary, there is evidence that cigarettes with and without ingredients are equally harmful.

**which option**

No Change

**access to tobacco products  
problem definition**

No

**explanations**

No concrete problem has actually been identified for some of these issues. The fact that different Member States have different rules and different restrictions does not mean that action should be taken at EU level. Introducing a ban on displays at point of sale would constitute a serious barrier to trade.

**name**

Christophe Bellenot

**email**

cp\_bellenot@yahoo.com

**country**

Switzerland

**age**

42

**gender**

male

**questions scope****problem definition**

No

**explanations**

The problem is not about the size of Health Warning or making a product generic. The main issue is about keeping adults to decide what they want to do and how they want to do it. If an adult decide to smoke then he should have the freedom to choose his brand. Moreover a company selling a legal product should be able to have their brand clearly distinct from competitor. At the end of the day people will continue to smoke and pushing measure too far will only benefit one category of individuals crocks who will do illegal business of either smuggling or manufacturing illicit product without paying tax. Banning flavours will have make it difficult for some brands to exist. But more importantly there are lots and lots of people in developping countries such as Africa who depend directly or indrectly from growing Burley tobacco. So on one hand we say we want to support developping countries and give them subsidies and on the other hand we remove the food from their mouth. You hear people talking about replacing the tobacco crop by alternative, but honestly they have never been in Africa, don't understand what they are talking about. I hearded people talking about Zimbabwe saying to replace tobacco crop by magnioc. What a joke ! magnioc need direct processing after harvesting and moreover there is no market for it !!!

**which option**

Extend the scope of the Directive

**recommend option**

Limit the access to cigarettes to adult smoker. I would also appreciate if the departments of health would sometime talk more to department of industries and come down to the table to talk about such decision and their impact on the economy rather than trying to push legislation trough without measuring the consequences elsewhere on the planet. Therefore, the scope of the directive should be extended to actually measure the impact on regions beyond the EU.

**additional comments**

I'm getting tired of bureaucrats overpaid dictating the world what they should do. And actually killing businesses instead of focusing their energy more positively on building the economy and creating jobs. I am managing factories and I am very proud to tell you that I develop people and make a real difference in their life. I wish Brussels would do more of the same.

**questions smokeless  
problem definition**

No

**comments**

Let adult individuals decide for themselves

**which option**

Lifting the ban on snus

**additional option**

Give an alternative to cigarettes for people who want it.

**additional comments**

Stop the dictatorship of telling people what they should do or not.

**questions consumer  
problem definition**

No

**explanations**

Generic packaging will not solve the problem and will not make people smoke less.

**which option**

Improve consumer information

**which improvement**

Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Health warnings to be put on water pipes

**additional option**

If you give too much information to tobacco users, they won't read it ! Tar , nicotine and carbon monoxide are irrelevant information. That tell nothing to a consumer.

**additional comments**

Government should give grants to tobacco companies to develop less harmful products instead of criticising as the demand for tobacco products is there and won't disappear.

**questions on reporting  
problem definition**

No

**explanations**

All tobacco product should report ingredients including shisha, e-cigarettes, pharmaceutical

groups, etc..

**which option**

Establish a common compulsory reporting format; Introduce fees and sanctions

**additional options**

Any business who does not comply with requirements should be closed down

**regulation of ingredients**

**problem definition**

No

**explanations**

There are very specific issue for specific tobacco products, ie. shisha

**which option**

Introducing the basic criteria on the EU level without a common list

**access to tobacco products**

**problem definition**

No

**explanations**

A ban is never a solution. For youngsters it even more attractive !!!...

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Heavy fines to retailers of any type of tobacco products not respective the age verification including for shisha, e-cigarettes.

**additional comments**

Shisha is extremely popular among youngsters and the perception is that it is a safer product which is absolutely not the case.

**questions scope****problem definition**

No

**explanations**

no directives necessary

**which option**

No change

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

Yes

**which option**

Improve consumer information

**which improvement**

Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package; Health warnings to be put on water pipes

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a negative common list of tobacco ingredients

**access to tobacco products**

**problem definition**

Yes

**which option**

No change

**gender**

male

**questions scope**

**problem definition**

Yes

**which option**

Extend the scope of the Directive

**questions smokeless**

**problem definition**

Yes

**which option**

Ban on all types of smokeless tobacco products

**questions consumer**

**problem definition**

Yes

**which option**

Improve consumer information; Introduce generic or plain packaging

**which improvement**

Picture warnings to become mandatory; Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Health warnings to be put on water pipes

**additional comments**

The health warnings to be included should not consist of overly scientific figures that the public largely ignores, but should instead focus on the most dramatic consequences in plain language and illustration.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format; Introduce fees and sanctions

**regulation of ingredients****problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a positive common list of tobacco ingredients

**access to tobacco products****problem definition**

Yes

**which option**

Ban

**which one2**

Cross-border retail sales of tobacco to be banned over the Internet; Vending machines to be banned; Promotion and displays in retail stores to be banned

**additional option**

The proposed ban should only be regarded as a first step on the way to a more complete ban on the sale of tobacco products. As with so called "hard" drugs, their complete prohibition should be the final goal. Heavily addicted citizens could be administered nicotine injections by doctors in an effort to end their addiction to the drug.

**questions scope****problem definition**

Yes

**which option**

No change

**recommend option**

he scope of the Directive can be extended to cover these other products, but this should not include an automatic ban one category of product (novel forms of oral tobacco). Any bans should be based on scientific assessments.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

There is no evidence that bigger warnings are more effective. There is no evidence that plain packaging would improve the functioning of the internal market or have any public health benefits. It would make it easier for criminals to copy legitimate brands and would lead to an increase in illegal sales of cigarettes.

**which option**

No change

**questions on reporting  
problem definition**

No

**explanations**

Member States can already introduce fees and sanctions. Enforcement of the provisions of the Directive should remain the responsibility of the Member States.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

The focus of ingredients testing should be on whether the ingredients result in increased toxicity of tobacco smoke.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

There is no clear problem stated as regards either vending machines or point of sale display. There is no evidence provided as to why bans would improve the functioning of the internal market or advance any public health objectives.

**questions consumer**

**problem definition**

No

**explanations**

the warning signs are big enough with the current size they have. The message will not be more effective if the font / sign is bigger. Furthermore the illegal trade would increase extremely in my opinion, as the packages could be copied easily by criminals. As a consequence I do not think there would be any positive health effect, but an uncontrollable chance for criminals to copy cigarettes

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Control should be the responsibility of the member states, but I agree on establishing a common compulsory reporting format to make them comparable

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

The Directive could build the basic criteria. However those criteria should be related to / restricted to toxicity

**gender**

male

**questions scope****problem definition**

Yes

**which option**

No change

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional comments**

Why should be snus banned? If the consumer can make informed decision whether to buy or not buy a product, he should have the freedom to do it. I would ban only stuff like drugs that is proven to lead to criminal behaviour

**questions consumer****problem definition**

No

**explanations**

Plain packaging is a prime example how ridiculous regulation can be. I'm I supposed to choose cigarettes by some completely anonymous packs? I'm sure they will be 90% counterfeited products. Is this even possible in the democratic world? Can you just ban all the history and copyrights connected with the brands? And how about the tax collection? Do you think you will collect any taxes from those products? Who will pay for the health care then? Sorry, but I'm convinced that the public knowledge about smoking health hazards is already very profound and clearly it made some people quit smoking, but there is also lot of people who made the informed choice to continue smoking, and that's fine, it's their life. They smoke, knowing the health hazzards, I think that any further efforts to communicate smoking health hazards will not bring anything new to change this.

**which option**

No change

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**additional comments**

There should be some common reporting format, as every customer should know what she/he is buying

**regulation of ingredients**

**problem definition**

No

**explanations**

This chapter doesn't stress the importance of "scientifically proven" that the component increases health hazard. I hate to live in a world where things are randomly banned based on someone's desires.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

When there is demand, there is a supply. If people want to smoke, they will smoke, bans will only shift the ratio between legal and counterfeit products. Remember prohibition in US?

**explanations**

Ytterligare regleringar är överflödiga och riskerar att skapa nya eller förvärra befintliga problem.

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

Snus är ett bättre alternativ än cigaretter och andra former av röktobak. Om fler rökare i Europa i stället använde snus skulle det vara positivt för folkhälsan.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

"Plain packaging" underlättar för förfalskningar och smuggelvaror där det kontroll av innehållet i produkterna blir obefintlig och skatterna dessutom inte betalas. Det är orimligt att inte få använda logotyper vid försäljning av tillåtna (men reglerade) produkter.

**which option**

No change

**questions on reporting  
problem definition**

No

**explanations**

Onödigt.

**which option**

No change

**regulation of ingredients  
problem definition**

No

**explanations**

Regleringen missar målet totalt. I stället för att motverka smaker och blandningar riktade till barn (vilekt i så fall skulle kunna göras på annat sätt) träffar regleringen de vanligaste produkterna. Det är orimligt att i praktiken förbjuda en lång rad av de vanligaste varumärkena.

**which option**

No Change

**access to tobacco products  
problem definition**

No

**explanations**

Lagliga produkter måste få exponeras i butik. Att gömma undan produkterna riskerar bara att göra dem mer intressanta och spännande för exempelvis ungdomar och motverkar därmed helt syftet.

No

**explanations**

Es existiert bereits ein allgemeines Bewusstsein der Risiken des Rauchens. Ein Hinzufügen von Bildern auf den Warnhinweisen erhöht dieses Bewusstsein nicht – die Bilder wirken lediglich überwiegend abstoßend ohne eine zusätzliche Information zu bieten.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Die Mitgliedsstaaten selbst sind gefordert, zusammen mit der Wirtschaft einen pragmatischen Weg zu diskutieren und umzusetzen. Einen notwendigen Handlungsbedarf der Kommission spiegelt die Problemdarstellung nicht wider.

**which option**

No change

**regulation of ingredients****problem definition**

Yes

**which option**

Introducing the basic criteria on the EU level without a common list

**access to tobacco products****problem definition**

No

**explanations**

Der Problembeschreibung stimme ich nicht zu. Die Bereiche „Verkauf von Tabakwaren über

Zigarettenautomaten“ und „Mindestaltersgrenzen für den Bezug von Tabakwaren“ sind Themen, die eindeutig in den Zuständigkeitsbereich der Mitgliedstaaten fallen.

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**questions scope****problem definition**

No

**explanations**

Jede Form der Regulierung von Tabakerzeugnissen muss auf der Grundlage wissenschaftlicher Erkenntnisse basieren. Dies gilt auch für nikotinhaltige Produkte, die keinen Tabak enthalten oder zigarettenähnliche Produkte.

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

Aus der Darstellung der Kommission, lässt sich keine wissenschaftlich fundierte Grundlage ableiten, die ein EU weites Verbot von Snus oder anderer rauchloser Produkte rechtfertigen könnte. Es werden keine Analysen aus Ländern betrachtet, in denen solche Produkte konsumiert werden.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Es gibt keinen Beweis, daß größerer Warnhinweise wirksamer sind. Die angedachten Bilder bieten keine zusätzlichen Informationen zu den jetzigen Warnhinweisen. Die Markenrechte werden verletzt. Produktfälscher hätten mit neutralen Packungen leichtere Arbeit.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Die Formate und Meldemechanismen zur Vorlage der Daten zu Zusatzstoffen von Tabakerzeugnissen fallen innerhalb und zwischen den EU Mitgliedsstaaten unterschiedlich

aus. Es bestehen Schwierigkeiten bei Vergleich und Analyse der Daten. Die neue TPD würde von Herstellern und Importeuren europaweit verlangen, die verwendeten Zusatzstoffe zu melden, doch legt die geplante TPD keinerlei abgestimmtes System für die Vorlage solcher Angaben fest.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Der Begriff attraktiv ist ein subjektives Kriterium für ein Verbot oder eine Regulierung von Zusatzstoffen und entbehrt jeder wissenschaftlicher Grundlage.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Die Darstellung, dass in vielen Mitgliedsstaaten der Vertrieb aus Tabakautomaten verboten ist, ist keine Problembeschreibung. Die Bereiche Verkauf aus Zigarettenautomaten und die Mindestaltergrenzen sind eindeutig den Zuständigkeitsbereichen der einzelnen Mitgliedsstaaten zuzuordnen.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Jsem přesvědčen že už nyní uváděným varováním je každý kuřák dostatečně informován o eventuelním zdravotním poškození. Je na jeho svobodné vůli rozhodnout se zda bude nebo nebude kouřit. Jednotné balení přistěje ke snadnějšímu kopírování značek a nelegální výrobě a prodeji.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Členské státy EU již mají možnost zavést sankce. Dodržování těchto pravidel by mělo být i na dále ponecháno v kompetenci každého státu.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

Testování přísad by se mělo zaměřit na to, zda-li zvyšuje toxicitu tabákového kouře.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Není zde jasně stanovený problém pokud jde o prodejní automat nebo místa prodeje.

Aus meiner Sicht kann es sinnvoll sein, den Anwendungsbereich der Richtlinie auf diese Produkte auszudehnen. Das darf jedoch nicht dazu führen, dass bestimmte Produkte ohne entsprechende wissenschaftliche Erkenntnisse verboten werden. Aufgrund dieser Gefahr habe ich mich entschlossen, die Option no change zu wählen.

**additional option**

Derzeit fehlt es an wissenschaftlich gesicherten Erkenntnissen, dass grössere Warnhinweise

wirksam sind. Zudem ist in keiner Weise gesichert, dass Standardisierungen der Verpackung den Gesundheitsschutz fördern. Standardisierungen erhöhen vielmehr die Gefahr von Fälschungen. Damit wird dem Schmuggel weiter Vorschub geleistet.

**questions consumer**

**problem definition**

No

**explanations**

Bereits nach geltendem Recht können die Mitgliedsstaaten Gebühren und andere Sanktionen vorsehen. es ist keine genügende Begründung ersichtlich, weshalb die EU in diesem Bereich zusätzliche Kompetenzen in Anspruch nehmen sollte. Die Durchsetzung der Bestimmungen der Richtlinie soll daher weiterhin bei den Mitgliedstaaten verbleiben.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

In diesem Bereich besteht keinerlei Problematik, weder hinsichtlich der Funktionsweise des Binnenmarktes noch hinsichtlich des Gesundheitsschutzes. Wichtig ist in diesem Bereich einzig, dass die bestehenden Vorschriften, vor allem bezüglich der Alterslimiten, eingehalten werden Dazu sind aber die Mitgliedstaaten weit besser in der Lage als die Union.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Der Fokus hinsichtlich der Bekanntgabe und Registrierung von Zusatzstoffen sollte allein darauf liegen, ob durch Zusatzstoffe die Toxizität von Tabakrauch erhöht wird oder nicht.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

In diesem Bereich besteht keinerlei Problematik, weder hinsichtlich der Funktionsweises des Binnenmarktes noch hinsichtlich des Gesundheitsschutzes. Wichtig ist in diesem Bereich einzig dasss die bestehenden Vorschriften, vor allem bezüglich der Alterslimiten, eingehalten werden. Dazu sind aber die Mitgliedstaaten weit besser in der Lage als die Union.

**recommend option**

Um den Jugendschutz zu verbessern müssten zb. mehr Kontrollen eingesetzt werden, die den Schwarzmarkt auf deutschen Straßen eindämmen. Es ist möglich an nahezu jeder Straßenecke Zigaretten zu kaufen.

**additional comments**

Meiner Meinung nach ist es diskriminierend für jeden Raucher die Zigaretten zu "verstecken" und nur noch unter den Ladentecken zu verkaufen oder hinter Vorhängen aufzubewahren. Ebenfalls kann es nicht sein das alle Zigaretten gleich schmecken. Es gibt Gesetze für freie Meinungsäußerung und freien Willen. Ich darf aber nicht mehr aussuchen welche Zigaretten mit welchem Geschmack ich rauchen darf? Ich möchte aber ebenfalls darauf hinweisen das vielen Rauchern die Zigaretten so schmecken wie sie im Moment sind.

**questions smokeless****problem definition**

No

**comments**

Meiner Meinung nach habe ich schon relativ ausführlich beschrieben, im Punkt 1.3 und 1.4, warum das ganze so nicht sein kann.

**which option**

Lifting the ban on snus

**additional option**

Rauchloser Tabak ist rauchlos, wie der Name schon sagt. Wenns es keinen Rauch gibt kann auch keiner Gestört werden.

**questions consumer****problem definition**

No

**explanations**

Auf jeder einzelnen Schachtel steht ein riesen Warnhinweis. Es ist gerade noch genug Platz für den Namen der Firma und welche Sorte Zigaretten es sind, das reicht föllig.

**which option**

No change

**additional option**

Es steht sogar eine Hotline auf jeder Schachtel falls ich aufhören möchte zu Rauchen aber Hilfe brauche.

**questions on reporting****problem definition**

No

**explanations**

Auf jeder in Deutschland verkauften Schachtel steht drauf was in den Zigarette für gefährliche Inhaltsstoffe enthalten sind und in welchen Mengen. Das reicht in meinen Augen auch föllig.

**which option**

No change

**additional options**

Meiner Meinung nach wird mit einer zusätzlichen Gebühr für die Tabakindustrie nicht der der Nichtraucherchutz unterstützt, sondern der Staat möchte nur wieder mehr Geld einnehmen.

**additional comments**

Meiner Meinung nach wäre es eine frechheit auf die ohnehin schon sehr Stark besteuerten Zigaretten noch eine Zusatzgebühr zu legen. Das diese Zusatzgebühr an die Tabakkonzerne gerichtet ist, habe ich gelesen, aber die Tabakkonzerne "müssen" diese Zusatzgebühr ja auf die Zigarettenpreise einkalkulieren um wirtschaftlich zu bleiben.

**regulation of ingredients****problem definition**

No

**explanations**

Über die Zusatzstoffe wird auch der Geschmack reguliert und dieser ist, wie ich bereits sagte, so wie er ist, sehr gut.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Meiner Meinung nach wird dadurch ja fast das gesetz der Werbefreiheit verletzt. Und das kann nun wirklich nicht sein. Wenn man sich Zigaretten kaufen möchte zb.: an einen Automaten, muss man vorher den Personalausweis oder den Führerschein in diesen stecken. Wenn ich an einer Tankstelle oder im Supermarkt oder in einem anderen Laden Zigaretten kaufen möchte werde ich des öfteren nach meinem Personalausweis gefragt. Das funktioniert also sehr gut mit dem Jugendschutz.

Definicja przedstawiona jest zdecydowanie tendencyjnie, praktycznie bez alternatywy, pomimo że obecnie istniejąca dyrektywa jest bardzo restrykcyjna, w porównaniu np. do alkoholu.

**which option**

No change

**recommend option**

Tak. Traktować wyroby tytoniowe tak jak wyroby alkoholowe, jeśli chodzi o reklamy, opakowania, wymagane składniki wyrobu.

**additional comments**

Czy dyrektywy UE mają być antidotum na wszelkie problemy? Takie rozwiązania już funkcjonowały w dawnym ZSRR, tylko nazwa była inna - DEKRETY

**questions smokeless****problem definition**

No

**comments**

Nie, ponieważ z góry zakłada nie udowodnione tezy. Dlaczego definicje są tendencyjnie formułowane, a jedna odpowiedź dotyczy różnych produktów?

**which option**

No change

**questions consumer  
problem definition**

No

**explanations**

Nie zgadzam się z definicją problemu. Szukanie na siłę argumentów, które się nie bronią.

**which option**

**explanations**

I don't think the problem definition adequately addresses the issues that should be posed by tobacco or the need for tobacco regulation. The scope of the Directive should be about proposing effective evidence based measures that properly address the need, scope and development of regulation in the area of what is a legal product. This does not strike me as a genuine attempt to generate an intelligent debate or to solicit balanced views on the issue of regulating tobacco products.

**which option**

No change

**recommend option**

A genuine debate on what proper regulation should look like.

**additional comments**

I am very cynical about the manner in which this consultation is being directed.

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

I am concerned about the scope of the problem definition. The impact of smokeless tobacco should be weighed up against other forms of tobacco to generate a proper debate on the role of smokeless tobacco in regulating the product.

**questions consumer**

**problem definition**

Yes

**which option**

No change

**additional option**

The impact of health warnings has not been properly assessed in terms of influencing peoples behavior towards tobacco products. There must be an element of desensitisation when something is so dominating whereby people no longer see the meaning of the message - or indeed heed the message - as a result of the way in which the message is communicated.

**additional comments**

Again I am disappointed about the openness of this consultation. I feel it is more designed to establish whether people are aware of what the Commission is proposing rather than to genuinely seek views on what it should be doing in this area.

**questions on reporting**

**problem definition**

No

**explanations**

EU Member states already have powers at the sovereign state level to ensure that ingredients are identified and reported properly. The existing powers should be properly utilised before seeking to take more powers.

**which option**

Establish a common compulsory reporting format

**additional options**

A balanced public debate should be led by the Commission on the issue of ingredients and their impact on smokers.

**regulation of ingredients****problem definition**

No

**explanations**

A balanced debate needs to be led by the Commission on the impact of ingredients on toxicity and addictiveness.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

There is no evidence that these measures will achieve the desired objective. The RPC in the UK has made this point about Vending Machine bans and the evidence in the impact in the Republic of Ireland, Canada and Iceland needs to be assessed in terms of the link to the illicit market and the position of illicit products in these countries. Education must be the key, not out of sight out of mind!

**questions scope**

**problem definition**

No

**explanations**

There is no problem and its not the states business to determine the behaviour of its citizens. The people have the right to smoke as they have the right to drink and to drive a car. If smoking is that hazardous then please ban it totally. If not leave it alone. People do what they do according to their emotional disposition. It is most unjust to spoil businesses and devalue

property. This is hypocritical and absolutely unnecessary!

**which option**

No change

**recommend option**

Keep the state and particular the EU out of peoples private lives! The EU commission is going much too far with their initiatives and undermines peoples confidence in a common Europe.

**additional comments**

To oust smoking out of public is gone too far anyway. It is the duty of our political representatives to make a place for all members of society. Otherwise you might render smoking illegal which would then be a different story.

**questions smokeless**

**problem definition**

No

**comments**

please see the previous page. How far do you want to go? First smoking, then oral nicotine, then drinking, then eating too much etc. This is not your business.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Again this is not your business. Declare smoking illegal or leave it as a legal stimulant.

**which option**

No change

**questions on reporting**

**problem definition**

**age**

79

**gender**

male

**questions scope**

**problem definition**

Yes

**which option**

Extend the scope of the Directive

**questions smokeless**

**problem definition**

Yes

**which option**

Ban on all types of smokeless tobacco products

**additional comments**

Det är viktigare att skärpa reglerna för cigarettförsäljningen än att marknadsföra snus som ett hälsosamt alternativ till cigaretter. Lansering av svenskt snus i övriga EU kan medföra att fler ungdomar lockas att tobaks-debutera och snabbt bli beroende av nikotin. Påståendena att det är snuset som förklarar den relativt låga prevalensen av rökare i Sverige motsägs av att lika låga prevalenser finns i t ex Kalifornien och Kanada där bruket av snus är mycket obetydligt.

**questions consumer**

**problem definition**

Yes

**which option**

Introduce generic or plain packaging

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a negative common list of tobacco ingredients

**additional option**

Smaktillsatser som är avsedda att attrahera barn och ungdomar bör förbjudas, som har skett i USA och Kanada. Ett sådant förbud måste inkludera snuset och inte bara gälla cigaretter.

**access to tobacco products****problem definition**

Yes

**which option**

Ban

**which one2**

Cross-border retail sales of tobacco to be banned over the Internet; Vending machines to be banned; Promotion and displays in retail stores to be banned

**additional comments**

Det viktigaste är att införa dold försäljning. Rökare vet vad de ska köra för cigarettmärke redan innan de går till ett säljställe. Det brukar även tobaksindustrin framhålla när man där argumenterar emot dold försäljning, så det är uppenbart att exponeringen i butiker och på bensinstationer, etc, utvecklats för att locka barn och ungdomar att börja röka eller snusa. Argumentet att rökare skulle lockas att byta märke håller inte. I Sverige satsat British American tobacco stora summor på att förse säljstället med sk power walls för att göra exponeringen ännu mer påträngande.

Tabak und Zigaretten sind ein legales Produkt und deshalb soll es der Kunde auch sehen können. Ich als Raucher möchte sehen was ich kaufe .Viele junge Menschen haben z.B. eine Sucht auf Computerspiele (auch Gewalttätige) - werden die unter dem ladentisch verkauft ?? Von Alkohol ganz zu schweigen.....

**questions scope****problem definition**

Yes

**which option**

No change

**recommend option**

Es besteht jedoch die Gefahr, dass bestimmte Produkte ohne wissenschaftliche Prüfung verboten werden.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

Der Konsum von Snus belastet die Umwelt nicht im Gegensatz zu Passivrauchen. Der Vertrieb von Snus Produkten sollte auch in der Schweiz legal erlaubt werden.

**questions consumer****problem definition**

No

**explanations**

Ein generisches Paket ist sehr einfach zu kopieren. Dies ermöglicht ein weites Feld für Fälschungen und Schmuggel. Der Schutz der Konsumenten ist massiv gefährdet. Diese Regel verstösst im weiteren massiv gegen die Handels und Gewerbefreiheit. Die Freiheit der einzelnen Produzenten wird massiv eingeschränkt und es wird den Produzenten

verunmöglicht sich gegeneinander abzugrenzen.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Es gibt schon genügend Informationen über die Inhaltsstoffe einer Zigarette. Der Konsument gewinnt keine zusätzlichen relevanten Informationen, wenn er die genauen chemischen Zusatzstoffe einer Zigarette erfährt.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

Die gefährlichen Zusatzstoffe müssen deklariert werden. Zuviel Informationen können in diesem Zusammenhang kontraproduktiv sein ( Informations over-kill)

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Die entscheidende Problematik ist in diesem Zusammenhang der Jugendschutz. Der Jugendschutz wird mit den geltenden Vorschriften und Kontrollen gewährleistet. Weiter Einschränkungen bezüglich Präsentation und Verkauf von Tabakwaren sind nicht nötig und nicht verhältnismässig.

**which option**

No change

**which option**

No change

**recommend option**

Es kann die Gefahr entstehen, dass bestimmte Produkte ohne fundierte Erkenntnisse verboten werden.

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

Snus ist ein Tabkerzeugnis welches die Umwelt nicht Passivrauch belastet. In welcher Form Snus schädlich ist muss wissenschaftlich noch begelgt werden. Der Verkauf von Snus-Produkten sollte auch in der Schweiz legalisiert werden da der Konsum ja nicht verboten ist.

**questions consumer**

**problem definition**

No

**explanations**

Der Aufdruck und die Werbung sollte noch immer, unter Berücksichtigung der bereits existierenden "Gesetze", durch den Hersteller betimmt werden können. Wenn dies bei Zigaretten-Packungen eingeführt wird müssen gleiche "Gesetze" auch bei Cola, Alkohol usw. usw. eingeführt werden! Zudem ist die Gefahr von Fälschungen noch grösser als zum heutigen Zeitpunkt - Fälschungen = Steuerverlust, zunehmender Schmuggel usw.

**which option**

No change

**questions on reporting  
problem definition**

No

**explanations**

Auf jeder Packung wird auf die Schädlichkeit hingewiesen - seit diesem Jahr sogar mit Bilder, dies genügt noch meiner Meinung vollkommen.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

Überall kann man lesen wie gefährlich die Zigaretten sind. Ich denke, dass ich als erwachsener Raucher selbst entscheiden darf ob ich rauche oder nicht. Zu viele Verbote/Informationen bewirken, vor allem bei den jungen Leuten, gerade das Gegenteil. Aufklärung ist wichtige, Verbote sind der falsche Weg!

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Es gibt bereits bei uns viele Möglichkeiten den Verkauf zu kontrollieren - sei es durch das Personal in den Läden oder mit Jetos wenn ich meine Zigaretten an einem Automaten kaufe. Wichtig ist hierbei die gute Schulung des Personals - z.b. kein Verkauf an Minderjährige. Dies ist aber bereit in vielen Läden / Kiosken gross angeschrieben. Es braucht sicher kein zusätzliches Gesetz welches die Präsentation der Zigaretten im Laden/Kiosk verbietet! Was wären noch einem solchen Gesetz der nächste Schritt? Alkohol darf nicht mehr sichtbar verkauft werden? oder Schoggi (macht bekanntlich dick (sehr viele leiden unter Übergewicht..) usw. usw.

**questions on reporting****problem definition**

No

**explanations**

sin comentarios

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

En el mundo hay dos grandes tipos de cigarrillos, los American Blend y los Virginia. Los primeros requieren de ingredientes para su manufactura y el prohibir el uso de ingredientes implicaría por tanto su eliminación del mercado, sin tener ningún tipo de base científica sino solo criterios subjetivos de atractividad.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

En referencia a que el producto no pueda ser expuesto en los puntos de ventas, va a provocar movimientos de consumidores a grandes superficies, arruinado a los pequeños comerciantes y además, hay evidencias de que esta medida implica un aumento del comercio ilícito.

**problem definition**

No

**explanations**

I think the smokers got enough restrictions. They are not criminals just smokers, what about the drinkers, which damages the national economies. The politicians got so much problem to dissolve. Therefore they need the taxes the smokers pay. To increase the tax is not more a way to act, because smuggling is normal now a days. you have to be 18 to get cigarettes and that must be enough!!!!!!!!!!!!!!!!!!!!!!

No

**explanations**

The problem definition is confusing, incomplete and unclear

**which option**

No change

**recommend option**

-

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

-

**questions consumer****problem definition**

No

**explanations**

There is no evidence that bigger warnings, picture warnings or plain packs are more effective

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

EU member states can already introduce fees and sanctions

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

The focus of ingredients testing should be on whether the ingredients result in increased toxicity of tobacco smoke

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

There is no evidence provided as to why bans would improve the functioning of the internal market or advance any public health objectives

**which option**

No change

Yes

**which option**

No change

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Responsible advice and not fear should be the solution to the problem.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Since fines and levies already exist on member-states, I do not believe that the Directive should apply on EU top level but on member-states level.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

I agree for a Directive on ingredients on EU top level, as long as it is based on scientific facts. But I disagree on establishing 'attractiveness' (or similar) as a criterion since it cannot be

supported scientifically.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale

**questions scope  
problem definition**

Yes

**which option**

No change

**recommend option**

Le champ d'application de la directive pourrait être étendu pour couvrir ces autres produits mais ne devrait pas exclure automatiquement une catégorie de produit (nouvelle forme de tabac orale).

**additional comments**

Toute interdiction devrait s'appuyer sur des bases scientifiques

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

Nous estimons que l'interdiction du snus n'est pas justifiée et devrait être levée. D'importants éléments scientifiques montrent que le snus est beaucoup moins nocif que les cigarettes

**questions consumer**

**problem definition**

No

**explanations**

Il n'y a aucune preuve qu'une augmentation de la taille des avertissements sanitaires soit plus efficace. Il n'y a aucune preuve que le paquet générique améliore le fonctionnement du marché intérieur ou ait un impact bénéfique pour la santé publique. Cela faciliterait la tâche des criminels qui copient les paquets et entraînerait une augmentation du commerce illicite de cigarettes

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Les États membres peuvent déjà introduire des frais d'enregistrement et des sanctions. La mise en œuvre de telles mesures qui seraient prévues par la directive doit rester de la responsabilité des États membres de l'UE

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

La question de l'évaluation des ingrédients devrait uniquement poser le problème de l'augmentation ou non de la toxicité de la fumée du tabac

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Le problème des distributeurs automatiques et de l'affichage des produits sur le point de vente est mal posé. Il n'y a pas de preuve que ces interdictions amélioreraient le fonctionnement du marché intérieur ou répondent aux objectifs de santé publique

**questions scope****problem definition**

No

**explanations**

Es besteht kein Handlungsbedarf. Rauchen ist Privatsache, in welche sich die EU nicht einzumischen hat. Es ist hinreichend bekannt gemacht worden, welche Risiken mit dem Rauchen verbunden sind, die Entscheidung darüber, ob man sich dieser Risiken aussetzt, trifft der mündige Bürger selber.

**which option**

No change

**recommend option**

Ich wünsche lediglich neutrale Informationen über Teer- sowie Nikotingehalt auf den von mir bezahlten Tabakprodukten.

**questions smokeless****problem definition**

No

**comments**

Es kann jeder mündige Bürger selbst entscheiden, was er kaufen möchte.

**which option**

Lifting the ban on snus

**additional option**

Es hat sich die EU nicht in Entscheidungen mündiger Bürger über ihr Kauf- und Verbrauchsverhalten einzumischen.

**questions consumer****problem definition**

No

**explanations**

Die derzeitigen Hinweise auf den Verpackungen sind mehr als ausreichend, um eine Kaufentscheidung zu treffen. Die albernen Hinweise, wie z.B. "Rauchen kann tödlich sein", müssen wieder verschwinden. Auch Autofahren kann tödlich sein und auch hier würde ich mir einen entsprechenden Hinweis beim Autokauf verbitten.

**which option**

No change

**additional option**

Entfernen jeglicher fanatischer Meinungen von Produkten, die im Handel erhältlich sind und das Produkt künstlich verteuern.

**questions on reporting**

**problem definition**

No

**explanations**

Die derzeitigen Regelungen sind mehr als ausreichend.

**which option**

No change

**additional options**

Es ist sagenhaft, wie über den Kopf des mündigen Bürgers hinweg Regelungen geschaffen werden sollen, die kein Betroffener will, die aber zusätzlich Unmengen an Geldern verschlingen. Schluß mit dem Regulierungswahn!

**regulation of ingredients**

**problem definition**

No

**explanations**

Die derzeitigen Regelungen sind ausreichend.

**which option**

No Change

**additional option**

Die derzeitigen Regelungen sind ausreichend.

**access to tobacco products**

**problem definition**

No

**explanations**

Die Regelung Tabakwaren nur an über 18-jährige zu verkaufen, ist ausreichend. Weiterer Maßnahmen bedarf es nicht.

**which option**

No change

**additional option**

Der mündige Bürger entscheidet selber, was er wann und wo kauft. Er entscheidet selber, was er wann und wo konsumiert. Er trägt auch selber die Konsequenzen seines Handelns.

**questions scope  
problem definition**

No

**explanations**

There is no way to get new tobacco experiences if all new forms of tobacco would be forbidden.

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

Everyone who consumes tobacco products has in mind that it is dangerous. There is no need to forbid adults to do what they want to do

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Like i said before. Tobacco Consumers are Adults. With working brains. If you want to do things like that with tobacco products you first should do them with alcohol. Its discriminating to forbid any form of personalizing the Products.

No change

**questions smokeless**  
**problem definition**  
No

**comments**  
Diese Prtprodukte sind für dritte unschändlich und sollten daher der Eigenverantwortung des jeweiligen Verwenders unterliegen. Eine Regulierung über die geltenden Bestimmungen hinaus ist nicht erforderlich und sollte national erfolgen.

**which option**  
No change

**questions consumer**  
**problem definition**  
No

**explanations**  
Diese Art der geplanten Kennzeichnung kann sicher nicht die geplante Wirkung erzielen und ist daher unter Berücksichtigung des Grundsatzes der Verhältnismäßigkeit abzulehnen.

**which option**  
No change

**questions on reporting**  
**problem definition**  
No

**explanations**  
Die nationalen Regelungen hierzu reichen völlig aus. Keine Nationalregierung hat hier größeren Handlungsbedarf signalisiert.

**which option**

No change

**regulation of ingredients****problem definition**

No

**explanations**

Aufgrund der bisherigen Gesetzgebungen kann davon ausgegangen werden, dass die Inhaltstoffe ausreichend sicher überwacht und reguliert sind. Regionale Besonderheiten müssen berücksichtigt bleiben. Eine "Einheitszigarette" löst keinerlei Probleme sondern wäre nur reine Schikane.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Insbesondere die gesetzlichen Regelungen betreffend des Zigarettenautomaten gewährleisten einen optimalen Schutz am POS, da hier zweifelsfreie Alterskriterien auf amtlichen Dokumenten zu Legitimation herangezogen werden.

Yes

**which option**

No change

**regulation of ingredients  
problem definition**

Yes

**which option**

No Change

**access to tobacco products  
problem definition**

No

**explanations**

In my opinion we should leave everything as it is, otherwise we must also care about people who consume fast food or convenience food... and other things damaging health...

**explanations**

no comment - ich finde, dass es dringend andere Probleme gibt, um die sich gekümmert werden muß. Wir sind alles mündige Bürger und es ist in meinen Augen wichtiger sich um hungernde und kranke Menschen (besonders in den 3. Ländern zu kümmern) und um Gewalt an Frauen (auch in europäischen Staaten), als um das Rauchen.

**explanations**

Ich finde die derzeitige Regulierung deutlich überzogen und anmaßend. Ein mündiger Bürger sollte frei entscheiden dürfen welche Produkte mit welchen Inhalten und Dosierungen er zu sich nehmen möchte.

**which option**

No change

**recommend option**

Abschaffung dieser Regulierung

**additional comments**

Die Einmischung der EU in die Privatsphäre ist eine Zumutung

**questions smokeless**

**problem definition**

No

**comments**

Die Definition ist völlig überzogen

**which option**

No change

**additional option**

Derzeitige Regulierung ist schon zu viel.

**questions consumer****problem definition**

No

**explanations**

Definition ist bevormundend und anmaßend

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Völlig überzogen und anmaßend

**which option**

No change

**regulation of ingredients****problem definition**

No

**questions scope****problem definition**

No

**explanations**

Die Eingriffe der EU in das Genußverhalten der Bürger verletzen die individuelle Freiheit wie auch das Subsidiaritätsprinzip.

**which option**

No change

**recommend option**

Nein. Ich sehe keinen Anlaß für die EU, die Freiheitsrechte der Bürger - nicht nur was den Tabakkonsum betrifft - weiter einzuschränken.

**additional comments**

Ein Problem sehe ich allerdings darin, daß ich Englisch verstehen muß und einen Internetzugang haben muß, um an dieser Befragung teilzunehmen. Sind denn Bürger, die nur ihre Muttersprache verstehen und nicht Online sind, ausgeschlossen?

**questions smokeless****problem definition**

No

**comments**

Auch hier bin ich der Ansicht, daß die EU nicht in die Lebensgewohnheiten ihrer Bürger einzugreifen hat.

**which option**

No change

**additional option**

Das "Problem" ist in Wahrheit die Regulierungswut der EU.

**additional comments**

Ich wünsche keine Reglementierungen seitens der EU, was Tabakkonsum betrifft.

**questions consumer****problem definition**

No

**explanations**

Die EU befaßt sich hier mit Dingen, die sie nichts angehen.

**which option**

No change

**additional option**

Tabak ist - wie Alkohol - ein legales Genußmittel. Prohibitive Maßnahmen der EU lehne ich ab.

**additional comments**

Wiederum möchte ich darauf hinweisen, daß eine Bürgerbefragung in der jeweiligen Landessprache zu erfolgen hat.

**questions on reporting****problem definition**

No

**explanations**

Es ist jedermanns eigene Sache, ob er raucht oder nicht. Erziehungsdiktatorische Warnungen halte ich für unbotmäßig.

**which option**

No change

**additional options**

Ich sehe keine Notwendigkeit, legale Produkte durch die Hintertür zu illegalisieren. Wir leben in einer freien Gesellschaft. Oder nicht?

**additional comments**

Alle Vorschriften, die in die Gestaltungsfreiheit der Verpackungen von Tabakprodukten eingreifen, sollen zurückgenommen werden.

**regulation of ingredients****problem definition**

No

**explanations**

Tabak ist ein legales Produkt. Eingriffe der EU in die Freiheit des Handels und Konsums lehne ich ab.

**which option**

No Change

**additional option**

Das Problem ist nicht der Tabak, sondern die Regulierungs- und Erziehungswut der EU.

**additional comments**

Und noch einmal: Eine solche Befragung hat nicht in einer Fremdsprache zu erfolgen!

**access to tobacco products****problem definition**

No

**explanations**

Tabak ist ein legales Produkt. Die EU hat hier nicht einzugreifen.

**which option**

No change

**additional option**

Ich empfehle dringend, daß die EU ihre diktatorische und diskriminierende Regulierungspolitik endlich zurückschraubt.

**additional comments**

Gern weise ich auch noch einmal darauf hin, daß Englisch nicht meine Muttersprache ist.

**explanations**

its not ok to "hide" cigarettes... , that dont safe children safing children can be provided by semaniars in"hauptschulen, gymnasien", i had a seminar to be provided from addiction with 19, thats to late that needs to be earlier and standard !

**which option**

No change

**recommend option**

seminars in schools, clarification as standard !

**additional comments**

i smoke , i know its bad ... but i know where to buy cigarettes and if i dont see them it wont help cigarettes are drugs... you need to forbidd them or let it be.. logos and marketing are necessary to save the companies, seelling cigarettes are important fees ? thats probably the reason why they are not forbidden ?! additives are not the bad, nicotin is the bad one ... are cigarretes without nicotin possible ? greets

**questions smokeless****problem definition**

Zigaretten sind ein legales Produkt. Konsumenten von Zigaretten werden bereits erheblich eingeschränkt. Ich lehne jede Regulierung des Genussverhaltens von Menschen ab. Die EU greift bereits zu weit in den Privatbereich der Bürger ein und das hat mit einem freien Europa nichts mehr zu tun.

**which option**

No change

**recommend option**

Es ist wohl einzigartig, daß durch immer weitere Auflagen und Beschränkungen versucht wird, den Verkauf eines legales Genussmittels immer weiter zu erschweren bzw. zu verhindern.

**additional comments**

Die EU sollte sich um die wirklichen Probleme in Europa und der Welt kümmern. Ich unterstütze keine EU, die ihre Bürger zu unmündigen Menschen erziehen will.

**questions smokeless**

**problem definition**

No

**comments**

Mündige Bürger entscheiden für sich selbst.

**which option**

No change

**additional option**

Genug ist genug. Weitere Einschränkungen der persönlichen Entscheidung sind nicht akzeptabel.

**questions consumer  
problem definition**

No

**explanations**

Ich lehne jeden Eingriff durch die EU ab, da Tabak ein legales Produkt ist.

**which option**

No change

**additional option**

Es gibt keinen Handlungsbedarf.

**additional comments**

jede weitere Einschränkung ist abzulehnen. Genug ist genug.

**questions on reporting**

**problem definition**

No

**explanations**

Tabak ist ein legales Produkt, weitere Einschränkungen sind abzulehnen.

**which option**

No change

**regulation of ingredients**

**problem definition**

**questions scope****problem definition**

No

**explanations**

The harm to a whole industry would be devastating, criminalising smokers would be a total waste of tax money and cost taxpayers even MORE, there has been enough discrimination for people who do smoke, and I think it infringes on my rights as a free citizen. As a person who smokes cigarettes, I have been ok with restrictions so far, but the proposal goes beyond the pale and is just absurd and disgusts me. Making personal compromises is one thing. Being quasi-outlawed disgusts me.

**which option**

No change

**recommend option**

In my view, there IS no problem

**additional comments**

Don't any of you have anything BETTER to do, other than try to ruin an entire industry, and people's livelihoods?
