Es ging doch bisher alles, warum sollte man etwas ändern! Das einzige das dadurch erreichen wird ist, dass die ganzen kleinen Leuten mit nem Kiosk und damit nicht mehr Geld als nem Arbeitslosen in Deutschland, bald auch in den Reihen der Arbeitslosen zu finden sind. Die Argumente von irgendwelchen Gesundheitsfritzen sind auch nicht Aussage kräftig, weil wer gesund leben will, der soll das tun, aber doch niemand das aufzwingen, der es eben nicht will, damit würde man ja die eine Person als mehrwertig, als die andere sehen und das grenzt bei weiten nicht an Meinungsfreiheit, sondern an Diktatur einer eigentlichen kleineren Bevölkerungsgruppe. Nicht rechtens!!!!!!!!!!!!

Yes

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Man liekās absurdi, ka grib aizliegt attēlot produkta nosaukumu uz paša produkta. Tad jau labāk pasludinām smēķēšanu par pretlikumīgu un veicinām nelegālo tirdzniecību. Zinot cik liels ir kontrabandas īpatsvars un zinot arī, ka tie turpinās no citām valstīm ievest normālas, krāsainas paciņas, kas būs daudz pievilcīgākas smēķētājam

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Šo vajadzētu atstāt katras valsts ziņā

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

Cilvēki ir izvēlējušies sev atbilstošu produktu un krasas pārmaiņas veicinās to, ka viņi savu iemīļoto produktu meklēs ārpus valsts robežām! Bet ar laiku arī pieradīs pie jaunā produkta, bet smēķēšana jau nemazināsies.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Kā var aizliegt izlikt redzamā vietā legāli tirgojamu produktu? Man tas liekās absurds!!!

**which option**

No change

Yes

**which option**

Extend the scope of the Directive

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**additional comments**

Stop discrimination of a product (snus) which, compared to cigarettes, is very harmless.

**questions consumer**

**problem definition**

Yes

**which option**

Improve consumer information

**which improvement**

Picture warnings to become mandatory; Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Health warnings to be put on water pipes

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a positive common list of tobacco ingredients

**additional comments**

It will be rather difficult for tobacco manufacturers to prove that something in cigarettes is harmless. Maybe that is all to the good !

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Tobacco display and promotion at points of sales to be restricted

Der Aufwand welcher gegen die Rauerschaft betrieben wird, steht in keinem Verhältniss zu den anderen, in meiner Sicht, wichtigeren Problembereichen wie Alkoholkonsum (keine besonderen Steuern oder einschränkungen außer einer lockeren Altersbegrenzung), SPIELSUCHT vor allem in Spielhallen und AUTOMATEN! Hier KEINE Altersbegrenzung und keine Kontrollen!!! Illegale Wettbüros! Das sind Themen die im Vordergrund stehen sollten und nicht die bereits außreichend eingeschränkten Raucher!

**explanations**

Die Problemdarstellung enthält lediglich vage Einschätzungen im Hinblick auf eine mögliche Binnenmarktverzerrung oder ein mögliches Versagen bei der Sicherstellung eines hohen Gesundheitsschutzniveaus aufgrund fehlender einheitlicher Bestimmungen für die Regulierung von nikotinhaltigen oder zigarettenähnlichen Produkten in den Mitgliedsstaaten. Zudem vermeidet die Kommission jede Form der Wertung in Bezug auf das Subsidiaritäts- und Verhältnismäßigkeitsprinzip. Jede Form der Regulierung von Tabakerzeugnissen muß auf der Grundlage wissenschaftlicher Erkenntnisse sowie der zweifelsfrei gegebenen Rechtssetzungskompetenz der EU basieren. Dies gilt auch für mögliche Regulierungen oder gar Verbote für nikotinhaltige Produkte, die keinen Tabak enthalten oder zigarettenähnliche Produkte (Kräuterzigaretten). Eine Einbeziehung von nikotinhaltigen- oder zigarettenähnlichen Produkten in den Geltungsbereich der Richtlinie kann nicht alleine aus der Begründung heraus erfolgen, dass diese Produkte neu sind und nach der Auffassung der Kommission auch auf eine entsprechende Nachfrage in einzelnen Märkten der EU27 treffen, oder aus der Begründung heraus, dass diese Produkte bisher keiner wissenschaftlichen Bewertung unterzogen wurden.

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

Der Konsum rauchloser Tabakerzeugnisse durch erwachsene und aufgeklärte Personen gefährdet weder die Gesundheit Dritter, noch schränkt der Konsum dieser Produkte andere Personen in ihren Lebensgewohnheiten ein. Der Konsum dieser Produkte liegt in der Eigenverantwortung des Einzelnen. Das Bewerben und Verkaufen dieser Produkte muß daher möglich sein. Das EU-weite Verbot von Snus (Ausnahme Schweden) stellt eine massive Entmündigung der Bürger dar. Denn die erwachsenen Verbraucher haben das Recht, auch bei Genussmitteln mit Gesundheitsrisiken die Wahl zu haben, und eigenverantwortliche Entscheidungen zu treffen. Aus der Problemdarstellung der Kommission läßt sich keine wissenschaftliche fundierte Grundlage ableiten, die ein EU-weites Verbot von Snus (Ausnahme Schweden) oder anderer rauchloser Produkte rechtfertigen könnte. Bsp. vermissen

wir in der Problemdarstellung wissenschaftlich fundierte Wirkungsanalysen aus Ländern, in denen Snus oder andere rauchlose Tabakerzeugnisse konsumiert werden.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Es gibt keinen überzeugenden Beleg dafür, dass ein Warnhinweis unso wirksamer ist, je größer sein Format. Es existiert bereits ein allgemeines Bewusstsein der Risiken des Rauchens. Ein Hinzufügen von Bildern auf den Warnhinweisen erhöht dieses Bewusstsein nicht- die Bilder wirken lediglich überwiegend abstoßend, und bieten somit keine zusätzliche Information. Es wird pauschal unterstellt, dass die Einführung von Bildwarnhinweisen auf das Rauchverhalten der Verbraucher einwirkt. Dafür werden allerdings keine Nachweise aus den Ländern zugeliefert, in denen Bildwarnhinweise bereits verpflichtend eingeführt wurden. Eine Einheitspackung würde den Wesensgehalt des Markenrechts und damit die Interessen der Verbraucher verletzen. Eine Marke dient auch als Herkunftshinweis, und ist somit ein unverzichtbares Element zur Wahrung der Entscheidungs- und Wahlfreiheit der Bürger. Die Einführung der Einheitspackung für Zigaretten wäre eine massive Entmündigung der Bürger. Wissenschaftliche Nachweise, dass Tabakverpackungen das Rauchverhalten beeinflussen, oder fördern- existieren nicht. Bei Einführung von neutralen Verpackungen konzentriert sich der Wettbewerb verstärkt auf Preis-Marketing. Sinkende Preise wären die Konsequenz. Dies ist in jeder Hinsicht ( Jugend- und Gesundheitsschutz, Steuereinnahmen) kontraproduktiv und bedroht die Existenz des rein national tätigen Groß- und Einzelhandels in Deutschland. Durch die Umsetzung von neutralen Verpackungen wird Produktfälschern die Arbeit erleichtert, und das Problem Schmuggel weiter verschärft. Dies bedroht die Existenz des rein national tätigen Groß- und Einzelhandels in Deutschland.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Ob die Behörden Schwierigkeiten bei Vergleich und Analyse der Daten haben, oder die Erfassung und Analyse der gemeldeten Daten über Inhaltsstoffe erhebliche Ressourcen auf Seiten der zuständigen nationalen Behörden erfordern, wie von der Kommission dargestellt, kann nicht beurteilt werden. Wenn dies so wäre, verwundert es sehr, dass der Anstoß in Richtung einer Vereinheitlichung und Vereinfachung nicht aus den Mitgliedsstaaten selbst hervorgeht, sondern von der Kommission vorgebracht wird, und dann im Zusammenhang mit einer Option, die der Wirtschaft zusätzliche dauerhafte Kosten (jährliche Gebühr) auferlegen würde. Die Mitgliedsstaaten selbst sind gefordert, zusammen mit der Wirtschaft einen pragmatischen Weg zu diskutieren und umzusetzen. Ein notwendiger Handlungsbedarf oder gar ein Mandat der Kommission zum Eingriff in bestehende nationale Abläufe wird nicht ersichtlich.

**which option**

No change

**regulation of ingredients****problem definition**

No

**explanations**

Die Problemdarstellung ist keine sachgerechte, an wissenschaftlichen Prüfstrategien und Standards orientierte und am Maßstab der Verhältnismäßigkeit ausgerichtete Diskussionsgrundlage. Der Begriff attraktiv ist ein subjektives Kriterium für ein Verbot oder eine Regulierung von Zusatzstoffen und entbehrt jeglicher wissenschaftlicher Grundlage. Die Verbreitung des Rauchens in Ländern wie Großbritannien und Irland, in denen vorwiegend Zigaretten ohne Zusatzstoffe verkauft werden (Tabak vom Virginia Typ), ist nicht geringer als die Verbreitung in Ländern, in denen vorwiegend Zigaretten mit Zusatzstoffen (American Blend Produkte) verkauft werden. Wettbewerbsrechtliche Auswirkungen einer einseitigen Regulierung von Produkten mit Zusatzstoffen werden nicht thematisiert. Die Frage nach der Wirkung auf das Preisgefüge in den EU27 Märkten sowie Effekte auf den illegalen Handel mit Tabakerzeugnissen werden nicht thematisiert.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Die Problemdarstellung ist keine sachgerechte, an wissenschaftlichen Prüfstrategien und Standards orientierte und am Maßstab der Verhältnismäßigkeit ausgerichtete Diskussionsgrundlage. Die Darstellung, dass in einer Vielzahl von Mitgliedsstaaten der Vertrieb von Tabakautomaten verboten ist, ist keine Problembeschreibung. Die Problembeschreibung trifft nicht zu. In 15 Mitgliedstaaten der EU27 dürfen Tabakwaren über Automaten abgegeben werden. Dies erfolgt i. d. R. unter strengen gesetzlichen Auflagen der nationalen Regierung. Der Problembeschreibung stimme ich nicht zu!!!! Die Bereiche "Verkauf von Tabakwaren über Zigarettenautomaten" und Mindestaltersgrenzen für den Bezug von Tabakwaren sind Themen, die eindeutig in den Zuständigkeitsbereich der Mitgliedsstaaten fallen. Die Problembeschreibung Zigarettenautomat ist überflüssig, da die Kommission selbst bereits bei ihrem Bericht zur Umsetzung der Rastempfehlung 2003/54/EC aus November 2009 festgehalten hat. Insgesamt ist die Umsetzung der Empfehlung zufriedenstellend. Dies betrifft insbesondere die Verpflichtung, das Mindestalter für den Kauf von Tabakwaren zu überprüfen, sowie die Durchführung von Maßnahmen zur Beschränkung der Verwendung von Automaten durch minderjährige Personen. Weder ein Verbot des Verkaufs von Tabakwaren in Automaten, noch die Untersagung der Auslage bzw. Sichtbarkeit von Zigaretten in Verkaufsstellenweisen einen grenzüberschreitenden Bezug auf. Für Automaten ergibt sich das schon daraus, dass deren Einzugsgebiet auf die unmittelbare Nachbarschaft zum Automaten beschränkt ist. Selbst wenn von Mitgliedsstaat zu Mitgliedsstaat unterschiedliche Anforderungen an die Gestaltung der Automaten z. B. aus Gründen des Jugendschutzes- den grenzüberschreitenden Handel mit den Automaten

behindern, würde ein Verbot der Automatenaufstellung gemeinschaftsweiten Warenhandel mit Automaten die Grundlage entziehen, diesen als beeinträchtigen und ihn nicht erleichtern. Die EU kann nur tätig werden, wenn sie die Kompetenz dazu hat, diese Kompetenz ist in den EU Verträgen festgelegt. Die Problembeschreibung wird daher mangels fehlender juristischer Vorwertung der Kommission nicht mitgetragen. Dass die Existenz von Zigarettenautomaten einen Einfluß auf das Rauchverhalten Jugendlicher hat, ist wissenschaftlich nicht nachgewiesen. In Ländern mit einem Automatenverbot fällt die Quote jugendlicher Raucher zum Teil deutlich höher aus als in den Ländern mit einer Automatenvertriebsstruktur. Pläne der EU Kommission zur Abschaffung der Automaten schränken daher die Bezugsmöglichkeiten erwachsener Verbraucher ein, dienen dem Jugendschutz jedoch in keiner Weise. Organisierte Kriminalität wird das Vakuum füllen, das entsteht, wenn legale Verkaufs- bzw. Bezugsstellen verschwinden. Stellungnahme der Bundesregierung vom 01.04.2010: Im Rahmen der Verhältnismäßigkeit sieht die Bundesregierung die bereits existierenden gesetzlichen Vorschriften und die in Vollzug dieser Vorschriften erfolgte Umsetzung der technischen Sicherung von Zigarettenautomaten durch Alterskontrolle per Geldkarte oder EU Führerschein als derzeit ausreichend und als die mildesten Mittel an, um das Abgabeverbot von Tabakwaren aus Automaten an Minderjährige wirksam zu regeln. Eine Abschaffung der Automaten wird aus wettbewerbs- wie verfassungsrechtlichen Gründen als nicht durchsetzbar und darüber hinaus auch als unverhältnismäßig angesehen. Die Ziele des Jugend- und Gesundheitsschutzes sind durch andere, weniger einschneidende Maßnahmen (wie etwa die Altersverifikation an Automaten) gleichermaßen erreichbar.

No

**explanations**

It's not to understand, that a shop what sells with this product should agree to this new idea. We are free and would like to decide if we buy cigarettes or not.

**which option**

No change

**recommend option**

No, I would say, there are a lot of other topics, more important.

**additional comments**

Yes! I'm from Austria and would suggest, that the EU makes a better work in next future. It's only a blame to realize what's going on in this matter.

**questions smokeless**

**problem definition**

No

**comments**

I just provided what I think about all!

**which option**

No change

**additional option**

No..., never!

**additional comments**

I did it!

**questions consumer**

**problem definition**

No

**explanations**

I think, this is not the part what you have really to do. Work better!

**which option**

No change

**additional comments**

Yes, we are not willing to make all what you prefer that we should do. We prefer to be free.

**questions on reporting**

**problem definition**

No

**explanations**

I just provided what I think about all.

**which option**

No change

**additional comments**

You have to be concantred to other topics and not only to make such poor things.

**regulation of ingredients**

**problem definition**

No

**explanations**

We are not willing to accept all what you are offering, because we would like to act as a free people can do. It's our right to decide and not yours.

**which option**

No Change

**additional option**

No.

**additional comments**

No.

**access to tobacco products**

**problem definition**

No

**explanations**

I did it!

**which option**

No change

**additional option**

Yes, to see the right problems, would really help.

**additional comments**

Yes, we would like to decide about smoking or not without EU controlling. It's only a controlling, what you make and nothing other.

**questions consumer****problem definition**

No

**explanations**

I'm a non-smoker but I do believe in self-regulating markets and a freedom of choice in legally available products.

**which option**

No change

**additional comments**

The EU should make a difference between tobacco-products of heavy use (& mis-use) like cigarettes and tobacco products which are being bought just for occasional pleasure. Cigars & pipe-tobaccos are not being used by heavy-smokers and are one of the oldest culture-products in the world. Please divide between cigarettes and cigars/pipe-tobaccos.

Ich fühle mich in meiner Freiheit eingeschränkt!

**which option**  
No change

**additional comments**  
Ich bin gegen ein Verbot von elektronischen Zigaretten: Elektronische Zigaretten sind Produkte, die eine echte Alternative für Raucher bieten, die Gewohnheit des Rauchens ohne die erheblichen und gut dokumentierten Risiken des Rauchens von Tabakwaren zu befriedigen. Diese Produkte sind seit über sieben Jahren weithin verfügbar und es wurden keine ernsthaften schädlichen Auswirkungen berichtet. Sie werden von angesehenen internationalen Experten als mindestens 99% sicherer als das Rauchen von Tabak angesehen. Viele Millionen Raucher auf der ganzen Welt haben sich vom Rauchen von Tabakwaren überwiegend oder ganz auf die Verwendung elektronischer Zigaretten umgestellt.

**questions scope****problem definition**

No

**explanations**

I can do my decisions on my own. I do not need any authority to do this for me.

**which option**

Extend the scope of the Directive

**recommend option**

Waive the entire Directive.

**additional comments**

Finish all really important issue first. If the problems with the Banks and the Debts are solved return to this issue again.

**questions smokeless****problem definition**

No

**comments**

You will not solve the issue with a unique packing.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

The problem is not the packing. The problem is not even inside. The Problem is on the education level of the people.

**which option**

No change

**additional comments**

Just customer information is not enough. Most of the smokers know that it is unhealthy. Educate specially the lower society people.

**questions on reporting****problem definition**

Yes

**which option**

No change

**additional options**

The GDR (German Democratic Republic) introduced drastic sanctions. Even Death penalty and go to your map and look. Fees and sanctions will end up to criminalize normal people.

**regulation of ingredients****problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**gender**

male

**questions scope**

**problem definition**

No

**explanations**

Every adult citizen knows that smoking is not healthy. Additional limitations on tobacco produce massive cost and will in the mid term be ineffective. Tobacco is a legal product delivering massive income to the government. Since we are facing well educated citizens in Europe we should leave the decision to them not limiting tobacco trade or consumption any further.

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

Smokeless tobacco products bring the big advantage of not disturbing others. For those who like to consume tobacco in a smokeless environment these products should be available in every European country.

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

Consumers are well informed. Today's health warnings are more than sufficient to address the risk of smoking.

**which option**

No change

**questions on reporting  
problem definition**

No

**explanations**

Too much information is not improving the decision taking of adult smokers. The information that smoking causes cancer is more than enough. What else do smokers need to know to decide whether to smoke or not? Additional information always bears the risk of making one cigarette appear less dangerous than another one.

**which option**

No change

**regulation of ingredients  
problem definition**

No

**explanations**

If certain ingredients are proven to be especially dangerous or harmful they should be forbidden on a common basis within the EU.

**which option**

Introducing the basic criteria on the EU level without a common list

**access to tobacco products  
problem definition**

No

**explanations**

Legal products should be purchasable for adults without constraints. If possible, regulation should assure that within the EU only compliant products are purchasable, e.g. it should not be possible to buy tobacco products without healthwarning or unknown ingredients.

**gender**

male

**questions scope****problem definition**

No

**explanations**

Die staatlichen Eingriffe in die Persönlichkeitsrechte der Verbraucher haben schon eine Dimension erreicht, die von den Bürgern als starke Gängelung und sinnfreier Aktionismus

von Bürokraten und Politikerseelen empfunden werden. Nur um die eigene politische Existenz zu rechtfertigen wird ohne staatsmännische Übersicht und ohne Berücksichtigung seriöser wissenschaftlicher Untersuchungen den extremen Ansichten von Minderheiten und einseitig informierender Lobbyvereinigungen z.B. der WHO der Vorzug gewährt. Dieses Vorgehen stößt beim Bürger auf auf Unverständnis, Wut und Politikverdrossenheit und bereitet den Boden für extremistische bis umstürzlerische Kräfte. "Es wird zunehmend nach einer starken Persönlichkeit gerufen, die die Staatsgängelung und die politischen Bürokraten hinwegfegt" Möge uns so eine Situation erspart bleiben. An Regelungen mangelt es uns nicht und ein weniger an staatlicher Bevormundung stände uns allen gut zu Gesicht. Die Politik muss aufhören die Bürger als minderbemittelte Idioten zu behandeln und Entscheidungen für diese treffen zu wollen. Das sind überzogene Eingriffe in die Persönlichkeitsrechte. Die Gefahren des Rauchens sind bekannt und die bestehenden Regelungen reichen völlig aus.

**which option**

No change

**additional comments**

Das "Problem" existiert in der vorliegenden Form nur in den Köpfen von regelwütigen Politikern, die nur Ihre politische Existenz rechtfertigen wollen und die Einflüsterungen von unwissenschaftlichen Extremisten aufgreifen.

**explanations**

Raucher wissen selbst, dass es nicht gesund ist zu rauchen. Das Leben an sich ist mitunter ungesund. Der Staat hat nicht das Recht die Entscheidungsfreiheit der Bürger durch Bevormundung abzuschaffen. Seine Aufgabe muß sich auf Information und bestenfalls Überzeugung beschränken.

**which option**

Extend the scope of the Directive

**recommend option**

Der Staat muß sich auf Information und bestenfalls Überzeugung beschränken.

**additional comments**

Der Gastgewerbebetrieb soll selbst entscheiden ob er ein Raucher- oder Nichtraucherbetrieb sein will. Das Gesundheitsproblem für die Angestellten ist nicht stichhaltig. Ersten weiß der Bedienstete wo er sich um eine Anstellung bewirbt, ist also nicht gezwungen in einem Raucherlokal zu arbeiten und zweitens gibt es wesentlich gesundheitsschädlichere bzw. gefährlichere Arbeitsplätze welche man aber deshalb ebenfalls nicht abschaffen kann. Die derzeitige Raucherkampagne erinnert an den Beginn der Kritik an Juden zu Beginn des 20.

Jahrhunderts. Kräftig unterstützt von sogenannten Intellektuellen (auch Ärzten). Die Nationalsozialisten vollendeten dann auf ihre Art was andere begannen. In 20 oder 30 Jahren stehen dann vielleicht die Raucher an der Wand.

**explanations**  
Es muss für mündige Bürger auch die Freiheit der Auswahl und der eigenen Entscheidung geben. wie die Pressefreiheit, auch in anderen Wirtschaftsbereichen, auch bei Tabakwaren. Beim Einzel/Grosshandel sowie den Herstellern würde dieser Beschluss viele tausende Existenzen und Arbeitsplätze kosten. Desweiteren würde dieser Beschluss, den sowieso schon großen Schwarzmarkt (Steuerhinterziehung) deutlich erhöhen. Die EU sollte sich lieber mehr um den Verkauf und Konsum von Alkohol gedanken machen.

Jeder Erwachsene Mensch muss entscheiden dürfen ob er raucht, und w a s er raucht. Rauchen schadet, doch das muss jeder für sich selbst entscheiden. Ich schädige damit mir selbst - nicht anderen. Es darf nicht sein, dass tabakwaren - wie Schmuggelware oder indizierte Presse unter dem Ladentisch zu haben ist. Wir leben in Deutschland - da darf so etwas nicht sein !!! Warum hat die Alkohol Industrie eine so große Lobby, dass in der Branche keine Reglements passieren. Alkohol steht überall in "Kinderaughöhe" mit lustigen Motiven !!! Alkohol verändert ganz eindeutig das Bewusstsein - und wer Alkohol trinkt kann Dritte deutlich gefährden !!! Und Zigaretten sollen unter den Ladentisch ?????????? Da stimmt etwas nicht " Wenn diese Maßnahme durchgesetzt wird - wird es ein Sterben der kleinen privatgeführten Einzelhändler geben und der Zigarettenindustrie, Groß-/Einzelhandel eine unglaubliche Menge an Arbeitslosen geben. Ist das der richtige Weg ?  
NEIN

**explanations**

Bei Eu Bürger handelt es sich um mündige Individuen. Die Gefahren die von Tabakprodukten ausgehen sind hinreichend bekannt. Das was hier geplant ist ist der erste Schritt zur Tabakprohibition, mit Schutz hat das nichts mehr zu tun. Diese Restriktionen führen nicht zu mehr Schutz, sondern zu Schmuggel, dunklen Absatzkanälen und Kriminialität.

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

Wir verbinden mit der Eu einen umfassenden Binnemarkt. Es ist nicht einzusehen, warum irgendwelche Produkte, die in Teilen der EU erlaubt sind anderswo verboten werden sollen. Wie können wir sicher sein, dass nicht nächste Woche irgend ein anderer Kommissar aufwacht und gerne was anderes verboten haben möchte...nur weil es ihm persönlich nicht gefällt o.ä. Der Staat möge sich bitte weitestgehend aus wirtschaftlichen Belangen raushalten und die den Markt regulieren lassen.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Es ist nicht belegbar, dass weitere Warnhinweise oder sog. Ekelbilder irgend einen Effekt auf den Verbraucher hat. Nochmal: Die Gefahren sind hinreichend bekannt, die EU Bürger sind keine Idioten. Wer in der Lage ist sich durch dieses -völlig verbraucherunfreundliche- Formular zu quälen, ist sich auch definitiv über die Gefahren des Rauchens im Klaren. Marken und Markenrecht haben einen ideologischen und finanziellen Wert. Ein Eingriff hier, beispielsweise durch plainpackages, würden den Wert einer Marke dramatisch mindern. Daher handelt es sich um eine eklatante Verletzung des Schutzes des Eigentums !! Derartige Eingriffe kenne ich bislang nur aus Russland (Beispiel Jukos). Letztlich handelt es sich um eine legale Marke eines legalen Produktes, wenn die Eu hier eingreift, verliere ich zweifelsohne mein komplettes Vertrauen in die europäische Gesetzmäßigkeiten!!! Jedwede Änderungen erhöhen die Attraktivität für Schmuggelprodukte aus dem außergemeinschaftlichen Ausland und stellen damit eine weitaus höhere Gesundheitsgefährdung dar, da es hier keinerlei Kontrollen gibt.

**which option**

No change

**additional comments**

Kümmert Euch mal lieber um die völlig bescheuerten Landwirtschaftssubventionen, die jedes Jahr Hunderttausende Menschen in Afrika verhungern läßt, anstatt irgendwelche unsinnigen Verordnungen in die Welt zu setzen.

**questions on reporting****problem definition**

No

**explanations**

Dies kann in den jeweiligen Mitgliedsstaaten auf nationaler Ebene erörtert werden. Meines Wissens gibt es bislang keine vergleichbaren Meldungen noch ein funktionierendes System dafür. Für mich einmal mehr der klassische Fall einer unsinnigen Bürokratisierung ohne erkennbaren Nutzen. Vielmehr handelt es sich um eine Maßnahme, die die Produktion eines legalen Produkts in alle denkbaren Richtungen behindern soll. Mehr nicht.

**which option**

No change

**additional comments**

Würde man mit derselben Argumentation bei anderen Produkten, die ebenfalls gesundheitsschädlich auswirken können (z.b. Arzneimittel) ebenso verfahren?

**regulation of ingredients**

**problem definition**

No

**explanations**

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Auch hier gilt das Prinzip des Binnenmarktes. Die EU möchte bitte den Freihandel fördern und nicht irgendwelche Beschränkungen einführen, deren Nutzen nicht belegt werden kann. Hier wird mit einer Vielzahl von Arbeitsplätzen gespielt..... Auch hier stellt sich die Frage welche Produkte zukünftig in ähnlicher Weise beschränkt werden sollen. Der Jugendschutz für den Verkauf von Tabakprodukten ist in Deutschland hinreichend gewährleistet. Sowohl im Freiverkauf als auch bei Zigarettenautomaten. Jede überzogene Änderung führt unweigerlich zu illegalem nicht kontrollierbarem Handel. Nochmal: es handelt sich um ein legale Produkt. Mit welcher Begründung soll hier die Präsentation eingeschränkt werden?

**which option**

No change

**additional comments**

Ich schreibe jetzt hier nicht weiter, was ich von den bürokratischen Betonköpfen und deren merkwürdigen Ideen im Detail halte.

**questions scope****problem definition**

Yes

**which option**

No change

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Consumers are already aware of the harmful effects of cigarettes and do not need repulsive pictures on the packages. The correct and responsible information and not fear is what is needed for consumers for taking responsible decisions. Also, in assessing the extent of establishing 'overall package (plain packaging) on tobacco products will harm trade, industry, government revenue and will increase the illegal trade. The competition between tobacco

companies will be solely on price, so that cigarettes are becoming cheaper and therefore more accessible to smokers, especially the young ones. So there is no benefit to public health.

**which option**

No change

**questions on reporting  
problem definition**

No

**explanations**

Since the imposition of fees and penalties for reporting the components already exist in countries - members the applying of such rules of the Directive should be at EU level but at national level - State. However, the introduction of a common type of ingredients at the EU level will be really important and helpful.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients  
problem definition**

No

**explanations**

The introduction of ingredient regulation at EU level, provided that it is based on sound scientific evidence is a measure of crucial importance. However, because the other options of this question refer to the arrangement of components based on the concept of "attractiveness" , they can not be evaluated with scientific data and thus are not reliable at all.

**which option**

No Change

**access to tobacco products  
problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

Petra Nacke

**email**

petra.nacke@t-online.de

**country**

Deutschland

**age**

48

**gender**

female

**questions scope****problem definition**

No

**explanations**

Die EU überschreitet hiermit ihre Befugnisse.

**which option**

No change

**recommend option**

Die EU-Gremien sollten dringend verkleinert werden. Offensichtlich entsteht durch Überpersonalisierung eine Regulierungswut, die viel zu sehr in die Freiheitsrechte und die Privatsphäre der Bürger und Bürgerinnen eingreift. Damit muss endlich Schluss sein.

**additional comments**

Bereits bestehende Regulierungen hinsichtlich des Genusses von Tabakerzeugnissen sollen rückgängig gemacht werden.

**questions smokeless****problem definition**

No

**comments**

Auch mit der Regulierung von rauchfreien Tabakprodukten greift die EU-Bürokratie in die Privatsphäre der Bürger ein, was absolut unzulässig ist.

**which option**

No change

**additional option**

Legal zu erwerbende Tabakprodukte, egal in welcher Form auch immer, sollten auch frei zu erwerben sein.

**questions consumer**

**problem definition**

No

**explanations**

Ich will keinerlei Eingriffe von Seiten der EU, wenn es um mein persönliches Konsumverhalten geht. Ich bin kein Kind und will auch nicht als solches behandelt werden!

**which option**

No change

**additional option**

Die ästhetische Verschandelung von Konsumgütern ist bereits im Status Quo (übergroße Warnhinweise) unerträglich. Eine weitere Steigerung (durch Ekelbilder) genau wie eine Komplettreduktion (durch Einheitspackungen) ist absolut unzumutbar. Hier wird ein legales Produkt wie der Tabak stigmatisiert und geradezu kriminalisiert, obwohl die Tabaksteuer Unsummen in die Kassen der Mitgliedstaaten schwemmt.

**additional comments**

Regulierung der EU Bürokratie von Seiten der Bürger:

**questions on reporting****problem definition**

No

**explanations**

Schon jetzt besteht eine Deklarierungspflicht über die Inhaltsstoffe auf Lebensmitteln - die kein normaler Mensch versteht. Auf Zigarettenpackungen ist sie ebenso unsinnig und trägt zur Verschandelung der Verpackung bei. Und noch einmal: die Eingriffe der EU in den freien Markt sind unzulässig!

**which option**

No change

**additional options**

Sanktionen und Strafmaßnahmen von Seiten der EU auf diesem Gebiet des sind nicht nur anmaßend sondern rundheraus eine Unverschämtheit.

**additional comments**

Ich komme mir allmählich vor wie zu Zeiten der Inquisition. Mit diesem permanenten Rückschreiten in mittelalterliche Zustände muss endlich Schluss sein.

**regulation of ingredients****problem definition**

No

**explanations**

Der freie Markt darf nicht durch EU-Regulierungswut und WHO-Diktatur beschnitten werden.

**which option**

No Change

**additional option**

Die EU soll sich aus diesen Dingen generell raushalten.

**access to tobacco products**

**problem definition**

No

**explanations**

Tabak ist ein legales Produkt. Die EU versucht systematisch, es zu kriminalisieren. Das ist nicht hinzunehmen.

**which option**

No change

**additional option**

Wohin wird das führen? Soll ich meine Zigaretten demnächst nächtens und heimlich in Spezialgeschäften kaufen? Ich werde durch die EU quasi zu einer Verbrecherin gemacht, die sich schämen soll, wenn sie ein Päckchen Zigaretten kauft. Die unverschämten Steuereinnahmen werden aber gerne genommen. Nein, danke!

**additional comments**

Meine EU-kritische Haltung wird durch diesen erneuten Vorstoß in Richtung Stigmatisierung von Tabakwaren und damit von Tabakkonsumenten noch kritischer. Es wird Zeit, dass sich auch die EU Politiker einmal wieder vor Augen führen, dass sie Diener des Volkes sind und nicht dessen Gouvernanten.

**name**

Hartmann, Dirk

**email**

cigo-apolda@t-online.de

**country**

Deutschland

**questions scope****problem definition**

No

**explanations**

Rauchen und Tabak gehören seit mehreren 100 Jahren zu den Genußmitteln der Europäer. Da es sich um ein legales Produkt handelt, sehe ich keinen Grund hier so drastisch zu reglementieren. Schließlich hat jeder erwachsene Mensch die Wahlmöglichkeit ein Genußmittel zu konsumieren oder nicht. Für Alkohol gilt das doch auch. Jeder kann - aber muß nicht. Einerseits will man den Tabakkonsum verteufeln - aber wehe die Steuereinnahmen würden weg brechen. Und die machen schließlich einen nicht unerheblichen Teil der Einnahmen der EU-Länder aus. Diese Politik ist fadenscheinig und zweizünftig. Die bestehenden Reglementierungen sind ausreichend und der Jugendschutz wird von der

Industrie und dem Handel (was zumindest die Fachhändler betrifft) umgesetzt.

**which option**

No change

**additional comments**

Europa hat andere Sorgen die für die Zukunft der Nationalstaaten von Bedeutung sind, als sich mit dieser Regulierungswut hier auszutoben, die nicht unerhebliche Mengen an Existenzen und Arbeitsplätzen gefährden würde.

**questions smokeless**

**problem definition**

No

**comments**

jeder Mensch ist für sich und seine Gesundheit selbst verantwortlich und muß weiterhin über sich selbst entscheiden können. Die gesundheitlichen Gefahren der Tabakprodukte sind ALLEN Menschen hinlänglich bekannt.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

die aktuellen Informationen und Warnhinweise sind ausreichend. Durch die Einführung der großen Warnhinweise auf Vorder- und Rückseite hat sich auch das Rauchverhalten in der Gesellschaft nicht geändert, was sicher erhofft worden ist. Nur die Packungen sehen sinnlos häßlicher aus, was aber letztlich den Konsumenten in seinem Konsum nicht irritiert hat.

womit soll es weitergehen, mit Wein und Bier, mit ungesundem Essen, mit Schweinefleisch (in vorausseilendem Gehorsam gegenüber den Moslems), mit Rindfleisch (wg. der Hindus), mit jedem Fleisch (wg. der Veganer) mit Sex (wg. der Zöllibatäre) - dürfen wir noch atmen? Das ist bei der z.B. in München herrschenden Luftverschmutzung auch ungesund. Warum sollen Kellner nicht mehr in Raucherräumen servieren dürfen, Polizisten sollen aber auf Kreuzungen den Verkehr regeln? Wissen Sie, wovon Sie reden?

**questions scope**

**problem definition**

No

**explanations**

Ich bin der Meinung, dass die EU bereits jetzt viel zu viele Kompetenzen zugesprochen bekommen hat und dass die einzelnen EU-Staaten nicht mehr genügend eigene Regierungskompetenz haben. Als EU-Bürger fühle ich mich von der EU in Brüssel und Luxemburg total diskriminiert und gegängelt ! Als freier Bürger in einem freien Land kann ich mich somit hier nicht mehr fühlen, da ich nicht mehr meine eigenen Entscheidungen treffen darf. Die EU hat bereits genug oder schon viel zu viel geregelt ! Die Regelungen der bestehenden Tabakrichtlinien sind völlig ausreichend !!!

**which option**

No change

**recommend option**

Jeder Verbraucher muß selber entscheiden dürfen und darf sich nicht einer Über-Regelung der EU unterwerfen !!!!!!!

**additional comments**

Nein, zu diesem Unsinn kann ich nichts mehr weiter sagen, zu diesem absoluten Blödsinn fällt mir nichts mehr Sinnvolles ein, bitte konzentrieren Sie sich auf WICHTIGERES IN DER EU !!! (z.B. der Terrorbekämpfung)

**questions smokeless  
problem definition**

No

**comments**

Einfache Warnhinweise auf der Verpackung reichen völlig aus, jedem Bürger ist doch auch jetzt schon klar, daß das Produkt schaden kann, er darf und muß sich aber doch wohl immer noch selbst entscheiden, was er konsumiert, dafür brauchen wir keinen Vormund seitens der EU !!!!!

**which option**

No change

**additional option**

kein Kommentar, ist oben bereits von mir erläutert worden, bitte lesen Sie !

**additional comments**

kein Kommentar, ist oben bereits von mir erläutert worden, bitte lesen Sie !

**questions consumer  
problem definition**

No

**explanations**

Jedem ist das Risiko des Genusses solcher Genußmittel hinreichend bekannt. Außerdem ist es völlig geschmacklos, solche Bilder von Kehlkopfkrebs, Raucherbeinen und Raucherlungen abzubilden, denken Sie eigentlich auch mal an die abgebildeten Personen und Ihre Würde !? Bei allem Respekt, aber diese Bilder sind einfach nur pervers und völlig geschmacklos ! Sie sollten sich sehr schämen, über ein solches Vorhaben überhaupt nachzudenken ! Wird dann demnächst auf jeder Süßwarenverpackung ein Kind mit faulen Zähnen dargestellt ? Oder muß Rindfleisch demnächst mit der Abbildung eines Wahnsinnigen gekennzeichnet werden ? Wohin wollen Sie denn noch mit Ihrer Bevormundung ?

**which option**

No change

**additional option**

Welches Problem denn ??? Wir sind erwachsene und mündige Bürger und sind bereits genügend informiert. Eltern und Erzieher sind für die Kinder und Jugendlichen verantwortlich, das muß nicht die EU erledigen !!!!!

**additional comments**

kein Kommentar, siehe oben

**questions on reporting****problem definition**

No

**explanations**

Jeder EU Staat muß diese Regelung selber bestimmen können. Da die einzelnen EU-Staaten alle zu unterschiedlich sind, sei es von ihrer Mentalität der Menschen, oder auch einfach nur geografisch, kann es niemals sein, dass innerhalb der EU alles komplett vereinheitlicht wird !

**which option**

No change

**additional comments**

Jedes Gesundheitsministerium eines EU-Staates muß und darf weiterhin seine eigenen Richtlinien festlegen ! Staatliche Eigenverantwortung ist hier gefragt !

**access to tobacco products****problem definition**

No

**explanations**

Es ist sehr amüsan, daß Sie den Verkauf über das Internet verbieten wollen, weil dort Warnhinweise nicht in der Amtssprache des Mitgliedsstaates abgedruckt sind, aber bei Ihrer Befragung bieten Sie den Fragebogen ausschließlich in englischer Sprache an, ich sehe das als Hürde, um möglichst viele Menschen von der demokratischen Befragung abzuhalten ! In Deutschland haben wir bereits eine wirksame Altersbeschränkung auf Tabakwaren und Alkohol, jeder Händler muß sich bekanntlich den Ausweis eines Konsumenten, der jünger als 30 Jahre aussieht, zeigen lassen. An Zigarettenautomaten muß man sich bereits heute mit dem Personalausweis oder einem gültigen EU-Führerschein legitimieren. Das ist doch völlig ausreichend. So kann man am Einfachsten in allen EU Mitgliedsstaaten verfahren, ohne

wieder und wieder große bürokratische Hürden einzurichten.

**which option**

No change

**additional option**

In Deutschland haben wir bereits eine wirksame Altersbeschränkung auf Tabakwaren und Alkohol, jeder Händler muß sich bekanntlich den Ausweis eines Konsumenten, der jünger als 30 Jahre aussieht, zeigen lassen. An Zigarettensautomaten muß man sich bereits heute mit dem Personalausweis oder einem gültigen EU-Führerschein legitimieren. Das ist doch völlig ausreichend. So kann man am Einfachsten in allen EU Mitgliedsstaaten verfahren, ohne wieder und wieder große bürokratische Hürden einzurichten.

**additional comments**

In der EU haben wir bisher eine sehr große Sortenvielfalt. Produkte fast jeder Art und fast jeden Geschmacks dürfen gekauft werden. An der Entwicklung und an der Werbung sind tausende menschen beteiligt, tausende menschen, die damit ihren Lebensunterhalt verdienen ! Ganze Existenzen sind daran gebunden. Es macht großen Spaß und Freude, in Europa zu leben und zu reisen, gerade wegen der Unterschiedlichkeit der verschiedenen Staaten und der darin lebenden Menschen ! Sie wollen immer alle Menschen vor allen möglichen Gefahren schützen. Wer schützt uns denn eigentlich vor der immer stärkeren Bevormundung und der Regelungswut der EU ? Wer schützt uns vor Gleichmacherei ? Wer schützt uns davor, dass Menschen ihre eigene Identität verlieren, weil ihnen das selbständige Denken abgewöhnt wurde ? Können wir in zukunft Ihrer Meinung nach nicht mehr selber entscheiden was wir wo und wie und in welchem Geschmack kaufen können ? Sollen wir uns in Zukunft nicht mehr an der Vielfältigkeit der Werbung erfreuen dürfen ? Wollen Sie mündige und frei denkende und frei entscheidende demokratische EU-Bürger ? Oder was entspricht dem neuen Denken der EU ?

**questions scope**

**problem definition**

Yes

**which option**

No change

**additional comments**

Ellentmondásos a tervezet, mivel tiltásokat fogalmaz meg bizonyos termékkörre, anélkül, hogy erre vonatkozó részletekkel szolgálna.

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**additional comments**

Ezen kérdéskör szabályozását tagállami hatáskörben lenne érdemes meghagyni. Az a véleményem, hogy a füstmentes dohánytermékeket nem tiltani, hanem reklámozni kellene.

**questions consumer**

**problem definition**

No

**explanations**

Az egészségvédő feliratok mérete el van túlozva, és nem érik el vele a kívánt célt. Az egyencsomagolás pedig szerintem nem megoldás, hiszen ezzel a feketekereskedelemnek nagyobb utat engednénk.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Ez a kérdéskör szerintem tagállami szinten megoldott és a tagállamok önállósága nélkülözhetetlen, amihez a jelenlegi direktíva megfelelő alapot biztosít.

**which option**

No change

**regulation of ingredients****problem definition**

No

**explanations**

A tiltó jellegű szabályozásnak megfelelő alapokon kell nyugodnia, nem pedig szubjektív értékelésen. Egy nem átgondolt tiltó szabályozás a dohánytermelők megélhetését tervezi ellehetetleníteni.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

A túlzott szabályozás csak a feketekereskedelemnek nyit nagyobb utat, és a termelők érdekeit pedig hátrányosan befolyásolja.

No change

**recommend option**

Any decision taken should be based on scientific elements.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

Scientific elements show that Snus is less harmful than cigarette.

**questions consumer****problem definition**

No

**explanations**

Increasing health warning size do not bring additional impact. Plain packaging introduction would encourage criminals to intensify their activities both in terms of counterfeit and contrebanded.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Should be under EU states responsibility.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

Should only address the question of toxicity of cigarette's smoke.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

No proof that such measure help acheiving public health objectives.

**which option**

No change

**questions scope****problem definition**

No

**explanations**

The tobacco-market is too much regulated. More regulation means more black-market. I don't see a problem with the non regulation of electronic cigarettes, nicotine drinks... These are niche products to me. If you want to prohibit smoking, you have to tell this in a clear manner.

**which option**

No change

**recommend option**

Reduce the tobacco tax to avoid the black market.

**questions smokeless****problem definition**

No

**comments**

This is an item in just one country of the EC. Let Swedish citizens consume snus. It is quite popular there. But in the EC I don't see that Snus is a problem. Snus smells bad. So it is a niche item.

**which option**

No change

**questions consumer****problem definition**

No

**explanations**

If you believe, that cigarettes, small-cigars, cigars are dangerous you have to prohibit them. This would be a honest solution. You operate only the symptoms.

**which option**

No change

**additional option**

If smoking is dangerous prohibit smoking. If not let the people smoke.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a negative common list of tobacco ingredients

**access to tobacco products**

**problem definition**

Yes

**which option**

No change

**additional option**

I do not think that the EC can control the cross-border retail sales by internet. A regulation is ineffective. If you think that smoking is dangerous prohibit smoking. Else let the people smoke. You operate the symptoms with this regulation.

**explanations**

Die Jugend muss durch Aufklärung vom Rauchen abgehalten werden. Ein Gesetz zum Schutz der Jugend im Bezug auf Tabakkonsum besteht in Deutschland bereits, jedoch ist es das Papier nicht Wert, auf dem es steht. So ist es Jugendlichen unter 18 Jahren, lt. JuSchG nicht gestattet, Tabakwaren zu erwerben und zu konsumieren, und schon gar nicht in der

öffentlichkeit. Eine Verfolgung in Form einer Ordnungsstrafe und Vernichtung der Tabakwaren durch Ordnungskräfte ( Polizei, Ordnungsamt ) ist nicht vorgesehen. Da, finde ich besteht dringender Handlungsbedarf.

**which option**

No change

**recommend option**

Konsumenten über 18 Jahren lassen sich von Ekelaufdrucken nicht abhalten eine Zigarette zu kaufen. Möglicherweise wird die schaltel umgefüllt. Auch vergrößerte Aufdrucke hinsichtlich Schadstoffe zeigen keine Wirkung sondern sind möglicherweise hilfreich bei Markenwechsel ( gleiche Werte- gleicher Geschmack) Der Preis ist bei 80% aller Konsumenten das größte Entscheidungskriterium.

**additional comments**

- keine Zigaretten ohne Filter - Einheitsgröße 20 Zigaretten - keine Zigarettenautomaten - verkauf nur aus autorisierten Verkaufsstellen

**additional comments**

A tervezet ellentmondásos, mivel tiltásokat fogalmaz meg már a hatáskör megfogalmazásakor is bizonyos termékkörre, és nem szolgál erre vonatkozó részletekkel.

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**additional comments**

Ezen kérdéskör szabályozását tagállami hatáskörben lenne érdemes meghagyni. Az a véleményem, hogy a füstmentes dohánytermékeket tiltás helyett reklámozni kellene a snüsszel kapcsolatos svéd példa alapján.

**questions consumer**

**problem definition**

No

**explanations**

Az a meglátásom, hogy az egészségvédő feliratok mérete túlságosan nagy, és az elérni kívánt céllal nincs arányban. Véleményem szerint az egyencsomagolás bevezetése nem jó megoldás, hiszen ezzel a feketekereskedelem növekedésének nyitnak utat.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Ezen kérdéskör tagállami szinten megoldott és a tagállamok önállóságának fenntartása elengedhetetlen, és ehhez a jelenlegi direktíva megfelelő alapot biztosít.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

A tiltó jellegű szabályozásnak megfelelő alapokon kell nyugodnia, nem pedig elfogultságon. Egy nem átgondolt tiltó jellegű szabályozás dohánytermelők munkahelyeit veszélyezteti, így az országban 10 000 ember megélhetése kerülhet veszélybe.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

A túlzott szabályozás a termelői érdekeket hátrányosan befolyásolja, hiszen nagyobb teret enged a feketekereskedelemnek, ami által a legális értékesítés csökkenne.

**explanations**

Nach meiner Meinung ist die bisherige Regelung mehr als ausreichend. Eine weitere Verschärfung dieser Richtlinie käme für mich als Verbraucher einer Bevormundung gleich. Ich, als mündiger EU-Bürger habe doch wohl ein Recht auf meine eigene Konsumententscheidung !

**which option**

Yes

**which option**  
No change

**questions consumer  
problem definition**  
No

**explanations**  
Meiner Auffassung nach sind die Warnhinweise genügend und mehr als deutlich. Ein Aufdrucken von diesen "Horrorbildern", wäre, wenn in häuslicher Gemeinschaft solche Packungen offen auf z.B. Tisch o. Schreibtisch liegen würde und von Kleinkindern gesehen werden können, für Kinder mehr als schockierend und unverantwortlich !

**which option**  
No change

**recommend option**  
Inform people better at younger ages, school, parents or other sources could help increase the knowledge about the dangers of tobacco and nicotine use.

**additional comments**  
If a ban on "snus" would come, why not ban the biggest killer of them all, cigarettes as well? I see no point in just removing one thing that may hurt people and let the 'big killer' stay legal. If anyone could give me a good answer other than "too many people smoke, it will cause an uproar amongst the people" that would be swell.

**questions smokeless**  
**problem definition**  
No

**comments**  
Most people do know about the dangers of smoking and among them there are many who use cigarettes in a daily basis. If you randomly ask people in the EU, in different countries, how many out of a 1000 would not know that smoking can cause (among other things) cancer? It might be true that people think more about the consequences if the warning signs are bigger. If that is true, make them bigger and with pictures.

**which option**  
Lifting the ban on snus

**additional comments**  
Don't ban "snus".

**questions consumer**  
**problem definition**  
Yes

**which option**  
Improve consumer information

**which improvement**  
Picture warnings to become mandatory; Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package

**age**

**questions scope**  
**problem definition**

Yes

**which option**

Extend the scope of the Directive

**questions smokeless**  
**problem definition**

Yes

**which option**

No change

**additional comments**

My main problem with tobacco is that non-smokers are affected by the smoke. As long as smoke-free versions of tobacco use does not cause negative health effects for non-users the ban could in my opinion be partially lifted -- with warnings about health effects etc, of course.

**questions consumer**  
**problem definition**

Yes

**which option**

Improve consumer information; Introduce generic or plain packaging

**which improvement**

Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package; Health warnings to be put on water pipes

**additional option**

Mandatory number of cigarettes per package (e.g. 20 or 25), so that the price per cigarette can be seen more easily and price changes would not be made by lowering the number of cigarettes per box.

**additional comments**

Do the same for any form of smoking products - cigarettes, cigars, ...

**questions on reporting**  
**problem definition**

Yes

**which option**

Establish a common compulsory reporting format; Introduce fees and sanctions

**regulation of ingredients**

**problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a positive common list of tobacco ingredients

**additional option**

make the "positive list" empty, except for tobacco (and maybe water for moistening)

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access; Ban

**which supply and access**

Tobacco display and promotion at points of sales to be restricted

**which one2**

Cross-border retail sales of tobacco to be banned over the Internet; Vending machines to be banned

43

##### **gender**

male

##### **questions scope**

##### **problem definition**

Yes

##### **which option**

No change

##### **recommend option**

In my opinion, current regulations on the sale of cigarettes are enough (age restriction, ID check). Maybe raising the legal age from 18 to 21 could help young people to not start smoking at all.

##### **additional comments**

see above

##### **questions smokeless**

##### **problem definition**

Yes

##### **which option**

Ban on all types of smokeless tobacco products

##### **additional option**

As it is unclear whether smokeless tobacco products are actually more harmful to the active

smoker than regular tobacco products, smokeless tobacco products should only be allowed if there is scientific evidence that they do not harm a person's health more than regular tobacco.

**additional comments**

see above

**questions consumer  
problem definition**

Yes

**which option**

Improve consumer information

**which improvement**

Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package

**additional option**

Like in food, manufacturers should be obliged to inform customers about all non-tobacco (chemical or otherwise) substances used in their products.

**additional comments**

see above

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**additional options**

-

**additional comments**

-

**regulation of ingredients**

**problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a positive common list of tobacco ingredients

**additional option**

**additional comments**

-

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

As said before, I would positively agree with the legal age to be raised from 18 to 21 to restrict access for young people to tobacco products and maybe make them not start smoking at all. For adults, however, there should be no restrictions.

haukestaats@gmail.com

**country**

Germany

**age**

33

**gender**

male

**questions scope**

**problem definition**

Yes

**which option**

No change

**recommend option**

Extension of the Directive would be okay if there were no integrated ban on all forms of new

tobacco products for oral consumption

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**additional comments**

Bans in general should be based on profound scientific proof. In addition, due to the fact that snus is a smokeless product, it does not harm any non-smokers.

**questions consumer**

**problem definition**

No

**explanations**

If there were such a correlation between size of health warnings and amount of smokers there should have been a significant decline in the past when size was enlarged in Germany. Existing graphic health warnings in other countries have not been proven to be effective on keeping someone from smoking. Designing the packs of a legal product should be the legitimate right of every vendor in a competing market to provide a clear distinction of the products for adult consumers via package design.

**which option**

Improve consumer information

**which improvement**

Health warnings to be put on water pipes

**additional comments**

"Smoking kills" says it all. A written health warning is sufficient.

**questions on reporting**

**problem definition**

No

**explanations**

Members of the EU already have the opportunity to impose sanctions and fees on their duty to enforce them.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

The problem is not a lack of equality in legislation among the member states. The only criteria on this issue should be the toxicity of the ingredients during the smoking process.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Why would the EU know better than the member states themselves? There are effective ways to limit access to adult smokers. This topic is a clear example why there is such a thing called subsidiarity within the EU.

**which option**

No change

**additional comments**

There is no room for display bans on legal products in a free market environment.

**questions scope**

**problem definition**

No

**explanations**

it seems like noone sees any problem with stuff who isnt good for you from the bigger countrys like wine, alcohol and beer

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

like all stuff you use you choose that. the same with alcohol.

**which option**

Lifting the ban on snus

**additional option**

since this crappy union says that products should be able to handled free within the union that should be the case for snus to. otherwise it shouldn't be any problem if some countrys choose to have big taxes on wine, beer and alcohol or forbid it to (since alcohol is the one thing people get most addicted to)

**questions consumer  
problem definition**

No

**explanations**

asit always is in the union stuff from smaller countrys get forbidden and the products from bigger ones are free.

**which option**

Improve consumer information

**which improvement**

Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Health warnings to be put on water pipes

**additional option**

bigger punishments to stores who sells to kids, or people who buy and then sells to kids. cause this is for grown-ups

**questions on reporting  
problem definition**

Yes

**which option**

No change

**regulation of ingredients**

**problem definition**

Yes

**which option**

No Change

**additional option**

i dont think people on the EU level understands this. (Except the scandinavian countrys). if you don't wanan understand you won't understand

**access to tobacco products**

**problem definition**

No

**explanations**

if you wanna buy you buy anyway even if they aren't on display

**which option**

No change

No

**explanations**

Die EU sollte bestehende nationale Besonderheiten respektieren und hier allein die Zeit sanft arbeiten lassen .

**which option**

No change

**recommend option**

Gängelung der Bürger, so kommt das an , ist immer kontraproduktiv

**additional comments**

Aufklärung, ordentliche Deklaration sind notwendig und ausreichend,

**questions smokeless**

**problem definition**

No

**comments**

Trifft immer wieder den Punkt der Toleranz und Aufklärung

**which option**

Lifting the ban on snus

**additional option**

Eine Unmenge von Schadstoffen , sind Bestandteil der Umwelt, Essen, Auto, Arbeit,Alkohol .Wenn Dritte nicht geschädigt werden , hat der Bürger hier das Recht selbst zu entscheiden , also Information, Aufklärung

**additional comments**

Als deutscher Staatsbürger sind für mich nationale Gegebenheiten anderer Länder heilig . Ich mag absolut keinen Stierkampf , verbieten ?

**questions consumer**

**problem definition**

No

**explanations**

Wieder, andere Länder, andere Sitten

**which option**

Improve consumer information

**which improvement**

Picture warnings to become mandatory

**additional option**

Warnen , aufklären ist immer richtig und auch notwendig , das deutlich. Allerdings ein Raucher interessiert all das nicht . Rauchen ist wie krieg , oder denkt man der EU ein Soldat ginge nach Afghanistan , so ihm der Sarg sicher ist ?

**additional comments**

Forschung und Produktion bei der Industrie stärker und nachhaltiger kontrollieren (vor Ort )

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**additional options**

Kapitalismus muss immer kontrolliert werden, kein Zweifel .

**additional comments**

Auch hier überprüfte Forschung , die gegebenenfalls erzwungen

**regulation of ingredients**

**problem definition**

Yes

**which option**

No Change

**additional option**

Jedes Land nach seiner Tradition.

**additional comments**

Ist ein klar definierter Nachweis , wissenschaftlich belegt , dann raus mit dem Zeug . Das müssen die Länder gemeinsam tragen !

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale

**additional option**

Den Zugang zu Tabakwaren an Minderjährige erschweren, ist immer richtig , Erwachsene sollten nicht wegsehen , wenn Kinder rauchen .

I believe that it is wrong to discriminate Swedish Snus from the EU Market and believe that you should lift the ban on snus.

**which option**

No change

**questions consumer****problem definition**

No

**explanations**

I believe that legal products should have the right to display their trademarks and therefore that the suggested plain packaging is wrong.

**which option**

No change

**questions on reporting  
problem definition**

No

**explanations**

No comment

**which option**

No change

**regulation of ingredients  
problem definition**

No

**explanations**

Ingredients that are used in tobacco dont make the product more dangerous and therefo there should be no legislataion against using non-harmful ingredients.

**which option**

No Change

**access to tobacco products  
problem definition**

No

**explanations**

As tobacco is legal product i belive that it should be legal to display as with all other products. I also se that a display ban on tobacco would be devestating for smaller retailers and lead to increased illicit trade.

Ich finde es wird genug geregelt und der mündige Bürger genug in seiner Freiheit beschränkt durch Verbote und Richtlinien. Ich persönlich habe nie geraucht und werde es nie, weil es stinkt, und zu viel GELD kostet und gesundheitsschädlich ist. Aber wenn jemand über 18 Jahren meint, er müsse rauchen, so soll er dies tun. Und er soll sein LEGALES Suchtmittel auch so bekommen wie jetzt. Mit den Einschränkungen dieser Richtlinie wird der Raucher

behandelt, als sei er ein Verbrecher. Dem ist aber nicht so! Die EU regelt nicht, dass Pestizide in Tomaten die ich im Laden kaufen kann, verboten sind. Antibiotika im Fleisch muss ich hinnehmen, weil es nicht verboten ist. Genmanipuliertes Futter für die Tiere, deren Fleisch auf meinem Teller landet, ist erlaubt. Pestizide und giftige Farben und Lacke finden wir im Spielzeug unserer Kinder. Und beim Tabak, wo ich entscheiden, ob ich ihn kaufe, oder ab ich rauche, da will die EU regulieren?? Wegen des Gesundheitsschutzes?? Ich muss Tomaten und anderes Gemüse essen, um mich gesund zu ernähren, um Eiweiß zu mir zu nehmen muss ich auch mal ein Stück Fleisch essen, und spielen sollte jedes Kind können, ohne dass man Angst haben muss, es sei ein gesundheitsschädlicher Stoff im Spielzeug! Die EU sollte sich um wichtigere Dinge kümmern, zB um die Ampel auf Lebensmitteln, damit man gleich erkennt, ob etwas gesund ist, oder nicht. An den Folgen von ungesunder Ernährung leidet jedes Land der EU, nicht nur das unsere.

Yes

**which option**

Extend the scope of the Directive

**recommend option**

More and better information of the effect of wet tobacco (snus), and also see to the difference from and scientific point of view, between wet tobacco and cigarettes/pipe/cigars,

**additional comments**

Today there are products sold with nicotine in order to make people stop smoking, these products are available on stores, drugstores as well on gasstation. In Drugstores there are nicotine products that are very similar to Wet tobacco, but now sold for the purpose of "stop smoking", from the point of "citizens health" it's better that people use wet tobacco than smoking, and it's also one of the most effective ways for people who want to stop smoking. The question is, is wet tobacco worse than "medical products" both containing nicotine, it seems that it's not the nicotine that is the question here

Ich bin nicht einverstanden, mit den Plänen der EU-Kommission. Sie sprechen hier von den "Problemen", ich sehe das nicht so. Gewisse Leute in Ihrem Parlament haben ein Problem mit dem Rauchen. Die Nichtraucherlobby ist bei Ihnen stark vertreten. Ich möchte dazu folgendes anmerken: Siehe "Lexikon der populären Irrtümer" von Walter Krämer, Götz Trenkler ISBN N 3-492-22446-6 "Raucher sterben früher, aber nicht nur, weil sie rauchen. Raucher begehen auch häufiger Selbstmord als Nichtraucher, sie werden häufiger ermordet, auch häufiger von Autos überfahren. Nach Meinung von Psychologen gibt es so etwas wie eine "

Raucherpersönlichkeit", die in vielfacher Hinsicht gefährlicher als andere leben, sie würden auch ohne Tabak früher sterben. Diesen Anteil an verlorenen Lebensjahren muß man also herausrechnen, wenn man wissen will, wieviel Jahre uns der Tabak als solcher kostet " Rauchen hat auch positive Begleiterscheinungen, verhindert Parkinson und Alzheimer, Gehirnzellen sterben später ab, als ohne Nikotin. Ich finde, so einfach, wie die EU Kommission sich das macht und Tabak bis aufs Blut verteufelt, dient nur dazu, von wirklichen Problemen abzulenken ! Ich bin ein mündiger Bürger und brauche keine weiteren Reglementierungen seitens der EU, unser deutsches, bestehendes Recht ist völlig ausreichend !

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

Ob jemand raucht, Snus benutzt, elektronische Zigaretten konsumiert oder auf Kräutermischungen umsteigt, muß jedem Menschen selbst überlassen bleiben ! Wie weit soll das alles noch gehen ? Jetzt geht es um Snus, demnächst sind die " Dickmacher" dran, vielleicht finden Sie auch noch Toilettenpapier, das süchtig macht ! Alles mittlerweile mehr als lächerlich ! Ein klares Nein zu Ihren Plänen !

**which option**

No change

**additional option**

Die bestehenden Regelungen sind ausreichend, nicht noch mehr Reglementierungen aus Brüssel !!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

**questions consumer**

**problem definition**

No

**explanations**

Unsere Gesetze sind ausreichend. Ich möchte mein Produkt frei wählen können, nach Geschmack und Preis. Für mich ist auch ein gewisses Design wichtig. Ich bezahle dafür und kann wohl erwarten, dass ich nicht mit Horrorbildern auf der Zigaretenschachtel rumlaufen muss. Dann kann ich mir bald ein großes " R " wie Raucher auf eine Armbinde drucken. Ich fühle mich schon verfolgt genug ! Es reicht nun wirklich !!!!

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Das ist nun schon wieder Geldmacherei, mit Lizenzen usw. Wieviel Bürokratie brauchen wir denn eigentlich noch ??

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Ich benötige keine Liste der Zusatzstoffe. Es gibt mittlerweile schon reichlich zusatzstoff-freie Zigaretten und die werden sich sowieso durchsetzen. Sie sind scheinbar garnicht auf dem neuesten Stand !

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**which option**

No change

**additional comments**

Tausende Arbeitsplätze stehen in Deutschland auf dem Spiel, in der Industrie und im Handel . Milliarden von Steuereinnahmen würden ausbleiben, wenn Sie das Rauchen weiter reglementieren ! Das wäre ein Dolchstoß für unsere Wirtschaft ! Wäre es nicht sinnvoller, mal die illegal, teilweise in Rußland in unterirdischen Fabriken unter katastrophalen hygienischen Bedingungen, hergestellten und von mafiaähnlichen Organisationen vertriebenen, Zigaretten wie " Jing Ling " zu bekämpfen ? Wenn der Raucher sich hier in Deutschland seine Zigaretten nicht mehr leisten kann, nur unter erschwerten Bedingungen ( Automatenverbot, Einheitsverpackung, keine Beratung mehr, bebilderte Warnhinweise etc ) Zigaretten kaufen kann, dann wird er ausweichen, eben auf solche illegalen Produkte ! Diese sind viel schädlicher ! Dank der EU wird das bald eintreten !

**additional option**

am Automaten gibt es eine Altersbegrenzung, sofern das in anderen Ländern nicht so ist, ist das deutsche Beispiel nachahmenswert im Geschäft gibt es eine Alterskontrolle - völlig ausreichend Schmuggelzigaretten oder Fälschungen werden "unter dem Ladentisch" oder an heimlichen Absatzstellen angeboten. Legale Produkte stehen im Regal. Dabei ist die beste Kontrolle möglich. Gäbe es da keinen Unterschied mehr, wer sollte da überhaupt noch ein Geschäft bemühen. Aktuelle Studien beziffern den Anteil an Schmuggelzigaretten jetzt schon auf mehr als 50% im Raum Dresden. Da fehlt jegliche Kontrolle von Inhalt oder Herkunft.

**questions scope**

**problem definition**

No

**explanations**

I don't see a problem, thus cannot agree with the definition.

**which option**

No change

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

The markings are clearly visible on all cigarette packs. If the problem is different methods in different countries, this would be a problem; the percentage of warnings space taken is not a problem.

**which option**

No change

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

Yes

**which option**

Introducing the basic criteria on the EU level without a common list

**access to tobacco products****problem definition**

Yes

**which option**

No change

**additional comments**

Country-specific regulations are unnecessary bureaucracy. A common solution would be better, but there is no need for more regulation on almost anything in the EU (except banks, but that's another topic).

Yes

**which option**  
Extend the scope of the Directive

**recommend option**  
Take away the ban of oral tobacco. It is a fact that the use of "snus" is much less dangerous than smoking cigarettes. In my country, Sweden, many ex-smokers have quit smoking thanks to snus, that is a much "better" habit. There is simply no reason for banning the use of oral tobacco in the other member states.

**additional comments**  
Legalize snus!

Weil wir Menschen sind und Grundrechte haben!!! Wir sind keine Kleinkinder und müssen nicht vorgeschrieben kriegen, was, wie, wann und wo wir zu rauchen haben und wo nicht. Es ist eine Frechheit wie die EU uns vorschreiben möchte was wir zu tun haben und uns doch selber die entscheidung überlassen soll ob ich rauchen möchte oder nicht. jeder erwachsene mensch weiss dass das rauchen ungesund ist. McDonalds und andere Fastfood produkte sind auch ungesunde Sachen und das wird nicht verboten.

**explanations**

It doesn't make sense at all. No smoker will stop buying cigarettes because you can't see the brand anymore. And nobody will be prevented from starting by this.

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

Even for a smoker are snus an alternative to minimize the risk of getting nicotine. In addition there's no possibility to harm other people by passive smoking.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Everybody knows that smoking is harmful. It's simply not necessary to extend the warnings by eliminating the brand.

**which option**

No change

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It's good to be informed about the ingredients - it's not good to permit them since the customer should decide on its own.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

It won't help people to stop smoking but just to make their life harder.

**which option**

No change

Swedish snus is not a problem. It's a part of the solution of harm reduction! And it's also discriminating to not allow the sales of snus which is a tobacco product that is less harmful

then approved tobacco products. Swedish Snus should be allowed in all countries in the EU.

**which option**

No change

**recommend option**

Allow sales of Snus in all of EU. Because it's less harmful than cigarettes, chewing tobacco and practically all other forms of use of tobacco!

**additional comments**

Allow sales of Snus in all of EU. Because it's less harmful than cigarettes, chewing tobacco and practically all other forms of use of tobacco!

**questions smokeless**

**problem definition**

No

**comments**

There is no proof that Swedish snus can cause cancer! All research points to that Swedish snus probably does not cause cancer, but other oral tobacco does.

### **questions scope**

#### **problem definition**

No

### **explanations**

Ich möchte nicht in einem Staat leben, der mir vorschreibt, was ich zu konsumieren habe. Dabei finde ich es unmöglich, den Wettbewerb derart zu verzerren, so dass Packungen "anonymisiert" werden sollen. Ebenso möchte ich als freier EU Bürger, FREI wählen können, was ich konsumiere, ohne das die EU mir meint vorschreiben zu müssen, was wie auszusehen hat, um es für mich attraktiv/unattraktiv erscheinen zu lassen.

### **which option**

No change

### **additional comments**

This questionnaire is too difficult. For me as a business psychologist, it is easy to answer any kinds of questionnaire. But in this specific case, it seems to me, that the EU wants the citizens NOT to actively participate! In my opinion, this is a very unfair and hardly accessible towards those who would be affected.

### **questions smokeless**

Eine Problemdarstellung, die nicht auf wissenschaftlichen Erkenntnissen beruht und im Konjunktiv formuliert ist, ist keine Problemdarstellung. Darüber hinaus sehe ich keine Zuständigkeit der EU.

### **which option**

No change

### **questions smokeless**

#### **problem definition**

No

### **comments**

Der Konsum von rauchlosen Tabakwaren gefährdet nachweislich nicht die Gesundheit Dritter. Demzufolge liegt es in der Eigenverantwortung eines mündigen Erwachsenen solche Produkte zu konsumieren. Ein Problem ist daraus nicht abzuleiten.

### **which option**

Lifting the ban on snus

### **questions consumer**

#### **problem definition**

No

### **explanations**

Der Problemdarstellung entbehrt jeglicher wissenschaftlicher Grundlage.

### **which option**

No change

**questions on reporting  
problem definition**

No

**explanations**

Es wird unterstellt, dass die Behörden in den Mitgliedsstaaten Probleme bei Vergleich und Analyse der Daten haben. Warum kommt dann der Anstoß zum Handeln nicht von den Mitgliedsstaaten selbst, sondern von der EU? Und selbst wenn es so wäre, denke ich, dass die Mitgliedsstaaten diese probleme alleine lösen können.

**which option**

No change

### **explanations**

this is really cutting my rights for a legal product

### **which option**

No change

### **recommend option**

There is no problem. Things have been regulated and don't need overregulation

### **questions smokeless**

#### **problem definition**

No

### **comments**

Nobody has killed anybody while smoking a cigarette. Alcohol is a bigger problem: People lose their jobs because of alcohol, people get killed or kill others while drunk driving a car. Fatty and sugary foods are problematic too. Where is the heavy regulation here?

### **which option**

No change

### **questions consumer**

#### **problem definition**

No

### **explanations**

Tobacco is a legal product and is regulated already a lot.

### **which option**

No change

**questions on reporting  
problem definition**

No

**explanations**

nothing added

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Ingredients are good and are legally save.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Controlled supply is already in place

**which option**

No change

**additional comments**

This whole EU Directive is a joke. if anything of this is really put into reality you will have more smuggling, counterfies, and will criminalise everything. You will not stop people from smoking. It is part of our culture and is already banned in a way so that non-smokers are safe.

Freedom of choice for adults.

**additional comments**

Freedom of Choice for adult people. Freedom for one person ends, where the freedom of

other persons is concerned. It is the trend within the EU, to violate this simple rule and try to limit freedom of choice even when other persons rights are not touched. This must end.

I dont think regulations should be made by the union

**which option**  
No change

**questions smokeless**  
**problem definition**  
No

**which option**  
Lifting the ban on snus

**additional option**  
I think that people have the right to use cigarets and snus if they want to. I dont like cigarets and the smoke but it does not give me or anyone else the right to tell people how to live their lifes. If Snus was leagle less people would have to suffer from the cigarett smoke and that would be a good thing.

**questions consumer**  
**problem definition**  
No

**explanations**  
Still not an issue for the EU

**which option**  
No change

**additional option**  
Since it's private company that sell products they should be able to packet them in any way they want. I think that it would hurt the new entreses for companies if the packages did not have brands and the EU would give monopsony power to firms.

**questions on reporting**  
**problem definition**  
No

**explanations**  
No opinion on reporting and registration of ingredients

**which option**

No change

**additional options**

No opinion on reporting and registration of ingredients, already know its bad but think people know it and can make their own decisions

**regulation of ingredients**

**problem definition**

No

**explanations**

Not an issue for EU

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

It is not a problem and if someone want to sell them then they should be allowed to

**which option**

No change

**additional option**

EU was not created to regulate things like this

**questions scope****problem definition**

Yes

**which option**

No change

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional comments**

Erfarenheten i Sverige synes visa att snus snarare ersätter ett tidigare cigarettbruk än att att snusbruk leder till att man går över till cigaretter. De uppgifter som i vart fall publicerats i Sverige indikerar också att skadorna av snus är mindre än vid motsvarande konsumtion av röktobak. Slutligen verkar det också vara en svårförklarlig skillnad mellan att man tillåter andra former av tobak som inte röks (t ex luktsnus och tuggtobak) men inte svenskt snus.

Förklaringen verkar snarast vara att i tidigare EU-länder användes traditionellt inte snus men väl andra tobaksprodukter. Det som var tillåtet i de "gamla" länderna förblev tillåtet, men "tillkommande" produkt förbjöds, detta oavsett effekt.

**questions consumer**

**problem definition**

Yes

**which option**

Improve consumer information

**which improvement**

Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Health warnings to be put on water pipes

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format; Introduce fees and sanctions

**regulation of ingredients**

**problem definition**

Yes

**which option**

Introducing the basic criteria on the EU level without a common list

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale; Access to vending machines to be restricted to adults

**additional comments**

Det finns redan ett stort problem med olaglig försäljning av narkotika och dopningsmedel övedr gränserna i EU. Trots allt bör nog tobaksprodukter då anses som ett jämförelsevis mindre problem. De ökade kostnaderna för övervakning och rättsskipning kommer då att minska resurserna för bekämpning av de svårare problemen. Resurskrävande förbud bör därför undvikas.

Extend the scope of the Directive

**recommend option**

There are four keys to fight smoking. - Advertising ban for tobacco products. In Germany you still see tobacco ads in movies and on every advertising column and poster on the street. - strict smoking ban in pubs, restaurants and night clubs. - Money fines for smokers which do not follow the smoking bans. In Bavaria there is a strict smoking ban. But as there are no money fines for smokers, so many of them still smoke. This makes going out without passive smoking nearly impossible. I personally work for private parties where the organiser rents a night club and then allows smoking. It does not matter if there are any children under 18. I want to work without the force to breathe toxic air. - Ban for cigarette automates.

**additional comments**

There will probably be much feedback on this topic as the website <http://www.entscheiden-sie-selbst.de/meinung.html> is directing to this questionnaire. [entscheiden-sie-selbst.de](http://www.entscheiden-sie-selbst.de) is linked in Facebook groups of organisations which are against smoking bans.

the consumer might be able to make better desisions on his own, when he knows more about the contents in cigarettes. So a list with contents in each pack, maybe as an insert could be a good way. Information but no more restrictions is the catchword. Most of us are major citizens.

#### **additional comments**

I like to make as many decisions on my own as possible. I love the idea of the EU but i dont want to be contolled in all sectors of my live. After all i dont want to live in a country without cigarettes, alcohol, mc donalds, cars, extrensports, and so on, because these things are potentially deadly, this kind of decisions should be in the resposebility of each individual. The politics have the duty to inform the people about the risks, witch is in case of cigarettes almost done. No smoker will think that smoking is riskfree. Non smokers has to be protected, again this is almost done by the politics in the EU. So please dont overact in one area, there are a lot of work to do in other sectors. I found an area of improvement, AtomarPower plants. Hence they are wasting our environment for billions of years no man shold use a technology like this.

**explanations**

I support option nr.2 Lifting the ban on SNUS. I believe that all tobacco and non medical nicotine products should be treated with same restrictions. Free sales to citizens over 18 yo. Smokeless tobacco has not been proven to be more dangerous than regular tobacco therefore the ban should be lifted. Smokeless tobacco like snus does not harm lungs and has not been proven to cause cancer.

**which option**

Extend the scope of the Directive

Absent any scientific analysis, no product category should be banned.

**which option**

No change

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Legal basis for the tobacco directive is the "internal market", and there is no proof that any of these measures are helping the internal market. Furthermore, the so-called evidence is not scientific. The only foreseeable result is further increasing the illicit trade with tobacco products.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Subsidiarity check should be applied: the current TPD allows the Member States to regulate this area

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

The focus of ingredient testing/regulation should be on whether the ingredients result in increased toxicity of tobacco smoke constituents.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

it is unclear where the internal market dimension is with points of sale or vending machines.

**recommend option**

The scope of the Directive can be extended to cover these other products, but this should not include an automatic ban on one category of product ( novel forms of oral tobacco ). Any bans should be based on scientific assessments.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

There is no evidence that bigger warnings are more effective. There is no evidence that plain packaging would improve the functioning of the internal market or have any public health benefits. It would make it easier for criminals to copy legitimate brands and would lead to an increase in illegal sales of cigarettes.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Member States can already introduce fees and sanctions. Enforcement of the provisions of the Directive should remain the responsibility of the member States.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

The focus of ingredients testing should be on whether the ingredients result in increased toxicity of tobacco smoke.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

There is no clear problem stated as regards either vending machines or point of sale display. There is no evidence provided as to why bans would improve the functioning of the internal market or advance any public health objectives.

**additional comments**

Es mag nicht bewiesen sein, dass diese Produkte es erleichtern mit dem Rauchen aufzuhoeren. Daher sollte der Grundsatz "im Zweifel fuer den Angeklagten gelten". Natuerlich sind auch diese Produkte gesundheitsgefuehrlich. Aber viele solcher Produkte sind um ein vielfaches weniger Schaedlich als zum Beispiel Zigaretten.

**questions consumer**

**problem definition**

No

**explanations**

Es gibt derzeit keine verlaesslichen Studien, dass graphische Warnhinweise den Konsum von Zigaretten verringern. Es gibt jedoch Berichte aus Laendern die bereits graphische Warnhinweise nutzen, dass keine Reduktion des Konsums festgestellt werden konnte. Aehnliches wuerde meiner Meinung nach bei Einheitspackungen passieren.

**which option**

No change

**additional comments**

Mir ist es unverstaendlich warum es immer noch ausschliesslich Tabakprodukte sind, die derart "geachtet" werden. Ich selbst bin Nichtraucher und verfolge gesundheitsrelevante Studien seit Jahren aus "neutralem" Blickwinkel. Seit geraumer Zeit faellt mir auf, dass immer mehr Studien veroeffentlicht werden, die Alkohol als die gefaehrlichste Droge identifizieren, weil Alkoholismus sich auch erheblich auf das persoenliche Umfeld auswirkt. Seit Jahren vermisse ich regulative Massnahmen die den Alkoholkonsum einschraenken. ich kann mich an keine Debatte zur Branntweinsteuererhoehung erinnern oder zur Einfuehrung von Warnhinweisen auf Alkoholflaschen. Die in den vergangen Jahren durchgefuehrten regulativen Massnahmen bei Tabakprodukten waren meiner Meinung nach sinnvoll und richtig. Aufgrund dieser Erfahrungen sollten diese Massnahmen nun auch auf Alkohol ausgedehnt werden! Als ich ein Kind war, wollte ich unbedingt diese Schokoladenpralinen mit den tollen roten Kirschen probieren, die ich immer in der Fernsehwerbung sah. Meine Eltern hatten mir erkluert, dass diese nur fuer Erwachsene bestimmt seien, weil diese Schnaps enthalten, was ich nicht verstehen wollte weil die Kirschen in der Fernsehwerbung (die auch nachmittags schon zu sehen war) immer so lecker aussahen. Also kaufte ich mir heimlich eine Packung dieser Pralinen im Supermarkt (ohne Probleme bekam ich diese im Alter von etwa 10 Jahren). Nur meine aeltere Schwester konnte mich noch am Verzehr hindern. Wenn ich mir ansehe wie einfach es noch heute fuer Jugendliche ist, an Alkohol zu kommen, und wie billig Alkohol im Vergelich zu Zigaretten ist, finde ich der Fokus sollte auf diese Probleme gesetzt werden, da die derzeitigen Massnahmen im Tabakbereich bereits einen ausreichenden Kompromiss zwischen persoenlicher Entscheidungsfreiheit, Informationspflicht und sinnvoller Regulierung darstellen.

**questions on reporting****problem definition**

**additional comments**

Zum Internethandel: Die EU wollte den gemeinsamen Binnenmarkt. Dann muessen jetzt auch die Konsequenzen aus einem gemeinsamen Binnenmarkt getragen werden. Alternativ sollte einfach eine EU-weit einheitliche Verbrauchsteuer festgesetzt werden. Dass das politisch aufgrund der erforderlichen Zustimmung aller Mitgliedsstaaten nicht durchfuehrbar ist, da fuer

kann der Verbraucher nichts. Wenn also die Politik nicht in der Lage ist, ordentliche! Massnahmen zu ergreifen, kann es nicht sein dass dies der Verbraucher ausbaden muss. Automaten: Die Alterskontrollen an den Automaten sind effizient genug, ein Verbot entbehrt daher jeglicher Grundlage. Display ban: Wie bereits unter Punkt 3 erlaeutert, sind die derzeitigen regulativen Massnahmen voellig ausreichend. Ein Display ban wuerde meiner Meinung nach den Konsum nicht einschraenken und in die persoenliche Entscheidungsfreiheit zu sehr eingreifen. Einem erwachsenen Menschen muss es gestattet bleiben, selbst zu entscheiden ob er ein Produkt und welches Produkt er konsumieren moechte oder nicht. Ein Display Ban wuerde dieses Grundrecht verbieten, da es nicht mehr moeglich ist, sich ueber das bestehende Angebot zu informieren.

Snus is a way to drastically lowe problems with tobak use in the EU, if all that smoke instead used snus we would save fortunes in medical costs. It's not candy, but its better then ciggarets.

#### **which option**

Extend the scope of the Directive

#### **additional comments**

I addmitt that snus is not candy, and it should not be marketed as a good thing for non tobacco users, but for ciggaret smokers snus is a easy way to stop smoking and reducing their risk to get diseses from the use. Of course in the best of worlds this would not be a problem becaus no one would smoke or use snus, but now people smoke and we pay a lot to deal with their

desises and if they would go over to snus we would save a shitload of money in medical care that could be used to so many better things.

Why single out Swedish snuff as forbidden. Either tobacco products are allowed or they are not. It's simple for a French or a Italian to accept a restriction when it doesn't concern them. Lets see how they would react if all tobacco products would be forbidden Let snuff free or forbidd all tobacco products

**which option**

Extend the scope of the Directive

**recommend option**

Remove snuff from the Directive

**questions smokeless****problem definition**

No

**comments**

Why single out snuff. It's easy for a French or an Italian to accept a restriction that doesn't affect them. Let's see what's gonna happen if all tobacco products were restricted. Let snuff be free from restrictions

**questions scope****problem definition**

No

**explanations**

Snuset är mindre skadligt (90%) än cigaretter. Många svenskar har med framgång slutat röka och börjat snusa vilket minskar sjukdomsriskerna, och sjukvårdskostnaden, avsevärt. Detta är ett bra led i viljan att få en mindre sjuk population inom EU. Idag finns många andra komplement till cigaretter på marknaden som är mycket mindre hälsosamt för vår hälsa än snuset. Exempel på det är indisk Gutkha, asiatisk Paan och sudanesisk Toombak som finns i de flesta europeiska länder. Övervikt är ett annat tillstånd som ofta uppstår när man slutar röka. Det kan också i sin tur leda till ökade sjukvårdskostnader. Snuset som ersättning till cigaretter kan reducera risken för en ökad vikt. Snuset borde vara fritt att marknadsföra inom hela EU.

**which option**

**explanations**

The "snus" witch is a well documented product, used by almost 1000 000 citizen in Sweden should have the same status as smoked tobacco. The health problems around the snus are

compare to cigaretts, non! If only 1 % of all EU citizen quit smoking and start using snus, it will save thousands of lives and save a large ammount of mony in health care. Of course, all tobacco should be banned but in the meanwhile give the people a chanse to quit smoking and save life and money.

**which option**

Snus is a very good way to stop smoking. I myself travel and work all over the EU. When staying for an extended time I sometimes do not have enough Snus with me. Therefore the ban of Snus will make me smoke ciggarettis wich is much more harmfull. Therefore I think it is natural that Snus must be available in the EU, with harmonised varning labels and be taxed in the same way as the much more dangerous cigarettes.

**which option**

Extend the scope of the Directive

**recommend option**

To give Snus the same status in EU as cigarettes.

as before, I don't see the requirement for more regulations

**which option**

Lifting the ban on snus

**additional comments**

Smoking - and using smokeless tobacco products should be allowed for adults. May "the governments" please acknowledge that there is inconsistency in their argumentation: Finance-Ministers are 'loving' Tobacco-products (but are not allowed to speak out loud). Ministers of Health are arguing for more strict rules/regulations, even bans - and some are smoking a Cigar after dinner at official meetings.....

**questions consumer****problem definition**

No

**explanations**

There are sufficient regulations in place already

**questions on reporting  
problem definition**

No

**explanations**

Smoking is known to be not healthy, as driving a car, drinking alcohol, etc. Buit adults (should be) able to make theier balanced judgement. Ingredients are made public in tobacco more intesivley than in other (especially !) Foods-business.

**which option**

Lifting the ban on snus

**additional option**

Nej

**additional comments**

EU tog bort cancern varningen på snus år 2001 och så sent som år 2008 konstaterade EU:s expertkommitté att snus är minst 90 procent mindre skadligt än cigaretter och inte ger några av de livshotande rökrelaterade sjukdomarna behäftade med rökning. Dessutom finns det redan i dag andra rökfria tobaksprodukter, inte sällan mer skadliga än det svenska snuset, i dagens Europa. Det rör sig exempelvis om indisk Gutkha, asiatisk Paan och sudanesisk Toombak som finns i de flesta europeiska städer bland minoritetsgrupper med starka traditioner. Fullt lagligt. Helt oreglerat. Diskrimineringen av den svenska snustraditionen är en principiellt viktig fråga. Exportförbudet tillkom på vetenskapligt skakiga grunder och dess försvarare bör vara medvetna om att de utmanar grundidén med EU; gränslös handel med tillåtna varor.

Jag har snusat i 40 år och tack vara snuset så började jag inte att röka när jag var ung. Ingen av mina kompisar började röka utan vi snusade alla men dom har slutat snusa nu och det är bara jag som fortfarande snusar och har aldrig haft några fysiska problem med det.

**additional comments**

Jag är osäker på om jag väljer rätt i Extend the scope men som jag förstår så betyder No change att lagen skall vara som den är i dag och det vill jag inte. Snus skall tillåtas i alla eu-länder för att minska den skadliga rökningen.

**which option**

No change

**recommend option**

An automatic ban on one category of products should not be included.

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

No assured arguments are given that bigger warnings on packs reduce smoking. Also plain packaging is no argument for health benefits. Criminals can copy legitimate brands much more easy and this causes really risks for health, because consumers cannot be sure, where the products are produced and which ingrediences are used. The problem of illegal sales and also smuggle will increase and the states loose a lot of tax income. States have no effective controll for smuggle and brand piraterie.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Memer states can already introduce santiones and fees. The responsibility of the Directive should be handled of Member Stes.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

The production of cigarettes are under legal conditions and controlled and the ingredients are published.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

There are no arguments why bans have an impact to public health objectives. There is no clear problem stated for the use of point of sale material or vending machines.

**questions scope**  
**problem definition**  
No

**explanations**  
The proposal include a ban on oral tobac - The Swedish snus would fall into this category, but nothing is mentioned about this type of product within the definition

**which option**  
Extend the scope of the Directive

**recommend option**  
Exclude snus from this proposal - there is no third party (passive smoking) effect from a user using this product. The individual freedom should allow an adult person to make up their own decision weather they want to use products such as Swedish snus (snuff) that only would affect the individual user.

**additional comments**  
Swedish snus should not be bundled and compared with smoked nicotine products. As such EU should keep their hands off the idea of imposing a general ban on Swedish snus.

**questions smokeless**  
**problem definition**  
No

**comments**  
The problem definition does not make any attempt to do a fair assessment of the use of Swedish snus (snuff). Snus should NOT be compared with smoked products.

**which option**  
Lifting the ban on snus

**additional option**  
Even though snus is a nicotine based product it does not involve third parties to be affected by someone using it.

**additional comments**  
Do NOT attempt to impose a snus ban in EU

**questions consumer**

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Da heut zu tage jeder wissen sollte, das rauchen schädlich ist, sollte auch jeder wissen ob er eine Schachtel kauft oder nicht. Egal ob man die Schachtel im Laden sieht oder nicht, ein Raucher kauft sich seine Zigaretten sowieso. Deshalb sollen sie auch nicht unterm Ladentisch verkauft werden. Denn daurch würden viele ihr Geschäft verlieren und würden ihre exzistens verlieren. Zigarettenautomaten können auch beibehalten werden, da man dort nur ab 18 Jahren auch seine Zigaretten bekommt.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

Yes

**which option**

Improve consumer information

**which improvement**

Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products

**additional comments**

Since written warnings have had no effect at all on smoking habits and overall tobacco usage, current regulations should be taken back.

**questions on reporting**

**problem definition**

Yes

**which option**

No change

**additional comments**

We all know that there are nasty things in our tobacco - just as in our food. But we cannot be bothered because we simply do not have the time!!! Some care a bit more, others less. Additional reporting will definitely not help. It will only mean taht we sacrifice more and more time to be informed about ingerdients we do not understand. Eventually it will wear off any interested in what ist healthy or unhealthy and to what degree.

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

Regulations are not common for all EU countries and never will be, so no need to change.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

It wouldn't have an effect for underagers.

**which option**

No change

**questions scope**

**problem definition**

No

**explanations**

Die Tabakprodukttrichtlinie ist bereits in der alten Form eine überflüssige Überregulierung.

Würden Sie mir in diesem Formular die Möglichkeit geben, wirksam für ihre ersatzlose Abschaffung zu plädieren, täte ich das. Da es nicht möglich ist, sind meine nachfolgenden Antworten als hilfswesen nächstmöglichen Ersatz für die von mir eigentlich gewünschte Lösung zu verstehen.

**which option**

No change

**additional comments**

Allerdings. Es ist eine unglaubliche, dummdreiste Heuchelei, dieses für die Mehrzahl der Bewohner der meisten EU-Staaten in der vorliegenden Form kaum verständliche Formular zu verwenden und das dann auch noch als Möglichkeit der Bürgerbeteiligung zu verkaufen. Auch die Nicht-Muttersprachler im Englischen haben einen Anspruch darauf, sich zu beteiligen, und ohne eine Übersetzung ist das kaum möglich. Es bleibt der Verdacht, dass in Wirklichkeit nur eine Beteiligung von Organisationen gewünscht war, weil Sie bei denen größtenteils sicher sein können, daß sie in der Mehrzahl Ihrem Neo-Prohibitionismus wohlwollend gegenüberstehen. Als Bürger fühle ich mich durch Ihre Vorgehensweise einfach für dumm verkauft.

**questions smokeless**

**problem definition**

No

**comments**

Es besteht bei rauchlosen Tabakprodukten keinerlei Notwendigkeit der EU, Handlungskompetenzen an sich zu reißen. Schon die bisherigen sind zum Ärgernis geworden.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Es ist eine bodenlose Unverschämtheit, die Einführung sogenannter Schock- oder Ekelbilder als "Verbraucherinformation" zu verniedlichen. Sie dienen keineswegs der Verbraucherinformation. Durch den Anblick dieser Bilder soll bei den Umstehenden des Rauchers Ekel und Abscheu erzeugt werden, folglich dienen sie als Instrument einer Stigmatisierung. Diese Absicht ist im höchsten Grad unmoralisch und durch nichts zu entschuldigen, und sie alleine ist schon ausreichend, um Ihnen jeden Anspruch auf Loyalität rauchender Bürger abzusprechen. Ich erwarte als Bürgerin ein Mindestmaß an Respekt von Ihnen, das ich zwar schon seit geraumer Zeit von seiten der EU nicht mehr zu erkennen vermag, aber das schlägt ja wohl dem Fass den Boden aus. Was kommt denn dann eigentlich als Nächstes? Müssen alle Raucher sich Buttons mit Raucherlungen anheften? Allmählich würde ich der EU auch das zutrauen.

**which option**

No change

**additional option**

Abschaffung auch der bisherigen albernem Spruchweisheiten über die ach so schrecklichen Folgen des Rauchens.

**questions on reporting****problem definition**

No

**explanations**

Es besteht überhaupt kein Grund für eine Einmischung der EU in dieser Frage.

**which option**

No change

**regulation of ingredients****problem definition**

No

**explanations**

Es besteht überhaupt kein Grund für eine EU-weite Regelung.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Es besteht überhaupt kein Grund für eine EU-weite Regelung.

**questions scope****problem definition**

No

**explanations**

Was müssen das für Spinner sein, deren Pulli zunächst stinkt (wofür wissenschaftlich nachweisbar 11 Verbindungen (Acetophenon, Benzaldehyd, Naphthalin und 8 verschiedenen substiierte Phenolverbindungen genügen), die dann 1400 Verbindungen im Rauch identifizieren, die einerseits als Passivrauch 3301 Passivrauchtote verursachen sollen von denen kein einziger nachweisbar ist, andererseits eine hohe Anzahl dieser Verbindungen in wesentlich höheren Konzentrationen nicht in Autoabgasen, Dämpfen beim Tanken, im Rauch von Hausheizungen und Grillfeuern, in Dieselruß und dem Rauch antiker Lokomotiven etc. etc. nicht betrachten. Wie wissenschaftlich ungebildet muss man für einen solchen Quatsch sein?

**which option**

No change

**recommend option**

Radioaktive Stoffe wie Radon und Polonium in der Umwelt reduzieren, da dies für Raucher und Nichtraucher gefährlicher ist.

**questions smokeless****problem definition**

No

**comments**

Nikotin ist Nikotin. Ob in einer Zigarette, im Kautabak oder in Nicorette, die Eigenschaften ändern sich nicht durch die Lobbyarbeit der pharmazeutischen Industrie. Hier geht es doch nur um Verbotswahn einiger Gesundheitsfanatiker und um Geldmacherei durch pharmazeutische Unternehmen.

**which option**

No change

**additional option**

Lernt aus der Prohibition!

**questions consumer  
problem definition**

No

**explanations**

Über radioaktive Inhaltsstoffe wird nicht informiert. Der Effekt jedes Atemzuges in radonbelasteten Räumen bleibt unberücksichtigt. Das ist Schalatanerie, die auf Diskriminierung und Ausgrenzung von Rauchern aus ist.

**which option**

No change

**additional option**

Mehr Investition in Bildung, vor allem in naturwissenschaftliche Bildung, insbesondere Chemie. Chemievollausbildung auch verpflichtend für Pharmazeuten und Ärzte.

**questions on reporting  
problem definition**

No

**explanations**

Prinzipiell haben Zusatzstoffe in einem Naturprodukt wie Tabak nichts zu suchen. Hier wird eine pseudowissenschaftlicher Bürokratie aufgebaut, die wesentlich größere Einflussgrößen (Feinstaub, Asbest, Radon) auf die Volksgesundheit venachlässigt.

**which option**

No change

**additional options**

Nicht die Vergleichbarkeit der Meldungen ist entscheidend, sondern dass der Verbraucher ein reines Produkt in reiner Umgebung genießen kann.

**regulation of ingredients  
problem definition**

No

**explanations**

Attraktivität lässt sich wissenschaftlich nicht definieren. Wer hat sich solchen Schwachsinn ausgedacht?

**which option**

No Change

**additional option**

Sorgt für poloniumunbelasteten Tabak!

**access to tobacco products  
problem definition**

No

**explanations**

Schämt Euch dafür, dass mein nicht rauchender Sohn seinem rauchenden Großvater nicht einmal ein Schachtel Zigaretten zum Geburtstag schenken kann. Soweit haben es die Antirauchfanatiker schon getrieben. Pfui Teufel, seit Ihr von allen guten Geistern verlassen? Welchen volkswirtschaftlichen Schaden mit der Zugangsbegrenzung erzeugt wird zeigt sich am Anstieg der selbstgefertigten Zigaretten und des Schmuggels.

**which option**

No change

**additional option**

Zurücknahme der Verbote und Beschränkungen.

**explanations**

Warum Einheitspackungen? Glauben sie wirklich, dass in einer weißen Packung mit Schriftzug Marlboro oder Memphis weniger geraucht wird?? Können sie sich vorstellen Weißwein aus einer rosaroten Flaschen zu trinken?? Es gibt Dinge die kann man nicht abschaffen. Es ist bereits genug geschehen zum Schutz von Bürgern, aber wenn ich auch zu Hause einmal nicht mehr Rauchen, Trinken und Sex haben darf, wer glauben sie, werden die EU dann noch für zurechnungsfähig halten?

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Wissen sie nicht was in einer Zigarre drinnen ist? Tabak aus Tabakblätter. Welche Zusatzstoffe wollen sie denn noch herausfinden? Es gibt Dinge die sind so wie sie sind.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Wollen sie nur noch Naturtabak in den Blends der Zigaretten tun, dann können sie nur noch eine Marke rauchen, aber geraucht wird trotzdem. Ich denke, dass diese Regulierungswut auch in die falsche Richtung gehen kann. Denken sie nur daran, dass die Schwarzmärkte besser gehen würden und da auch mehr Fälschungen schlechter für die Gesundheit wären.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Die Kontrolle an wen Tabak abgegeben wird, muß erweitert werden. OK, aber die Tabakprodukte unter dem Ladentisch zu verkaufen führt wieder hin zum Schwarzmarkt.

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**questions scope****problem definition**

Yes

**which option**

Extend the scope of the Directive

**recommend option**

in my country, a lot of young people start their smoking career with shisha-smoking (in English: hubble-bubble or hookah). Although the number of young smokers is decreasing, more and more teens start smoking shisha, which is less dangerous than cigarettes, but may again lead to an increasing number of smokers in future.

**questions smokeless****problem definition**

Yes

**which option**

Ban on all types of smokeless tobacco products

**additional option**

there is no reason for legalize any new drugs based on nicotine. Not even when they are less harmful than nocotine! Cause there's no evidence, that the option to choose between cigarettes and e.g. snus leads to a decreasing number of smokers. But there's a danger, that a new drug is becomming very popular among young people, as soon as it's legalized.

**questions consumer  
problem definition**

Yes

**which option**

Improve consumer information; Introduce generic or plain packaging

**which improvement**

Picture warnings to become mandatory; Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products; Health warnings to be put on water pipes

**additional option**

not too much different pictures. Young people may find it cool, collecting new pictures on the packages!

**questions on reporting

**recommend option**

Extending the scope of the directive would be accomplished with public consultation and consultation of the relevant organizations that have been formed by people using Electronic cigarettes. This extension would have to be realistic and reflect the true nature of the products as low risk recreational smoking products, that have a real reduced risk profile, and not demonized by Junk Sciences. Being a medical doctor and a researcher of Nicotine and Electronic cigarettes, and someone who has managed to achieve a modicum of good health when switching to Electronic cigarettes after 35 years of smoking, I feel that this has been the only ray of hope for inveterate smokers in the last 50 years, and I am very dissatisfied at the blatant attempts to deprive me from a safe health protective measure.

**additional comments**

Science and protection of health, like raising children, is a two way measure. Children know when you are respecting them and will respect you back. If the opinions of government are sincere and reflect true science, they will be respected by the people. Case in point if you say tobacco smoking is harmful, I doubt that there is a smoker who would disagree. They might disagree with the protective measures but they will not disagree with the root message. Most of the electronic smoking community have one desire and that is to protect their health, what they are getting back as a message by regulators and organizations is blind ignorance of the truth and disregard for science and clinical data. It has created a very vociferous and well informed group of people who are defending their right to healthy alternatives. Please take this into consideration. Please respect the facts and obvious science. Thank you .

**questions smokeless****problem definition**

No

**comments**

The main problem is with ignitable tobacco, and Hydrocarbon combustion. Without ignition 90% of tobacco risks are minimized and risk on others is eliminated. There is no way society is getting rid of Nicotine. There are extensive studies showing the relative (relative to combustibles) safety of smokeless tobacco. Smokeless products of any kind should be encouraged not maligned. There are some very well written papers on the association of nicotine with the human condition (check Royal College of Physicians website Tobacco control section) . most users are self medicating due to miscellaneous chemical abnormalities in dopamine secretion and Dopamine receptors. Assuming that any war on nicotine is going to fruitful is at best hopefully unrealistic. The realistic avenue is harm reduction through alternative means of delivery.

**which option**

Lifting the ban on snus

**additional option**

Nicotine like caffeine has become a way of life, recent studies show a similar harm profile. Actually, most recent information shows a positive health profile. It Aids concentration increases IQ 15%, antidepressant, reduces Alzheimer, reduces Parkinsonism and reduces senile dementia. mainly Dopamine and acetylcholine related effects. Bring Nicotine

into the mainstream, provide as many safe alternative methods of consumption as possible. gradually lead the population away from the association between Nicotine and tobacco. The problem is combustible Tobacco Hydrocarbons. Disassociate them

**additional comments**

Please review my comments for scientific accuracy, I have researched these subject extensively. Please review Tobacco Harm Reduction Yearbook 2010, it has excellent and very well consulted options. It is available online for free, type Tobacco Harm Reduction Yearbook 2010 into google.

**questions consumer  
problem definition**

Yes

**which option**

Improve consumer information

**which improvement**

Picture warnings to become mandatory; Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package; Health warnings to be put on water pipes

**additional option**

information on alternative means of acquiring Nicotine included with the package would help considerably. I have a study on the cruelty of asking long term nicotine addicts to stop the addiction. From a smokers perspective, it is difficult and the rates of relapse make the whole effort a joke. Alternative means of helping would go a long way to success of your drive.

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

Yes

**which option**

Introducing the basic criteria on the EU level without a common list

**additional option**

I have doubts regarding the overall effect this will have on tobacco related morbidity and mortality.

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Again I do not think these measures will dissuade any motivated buyers. Drugs are not readily displayed anywhere and the user base and relative ability to find the products and paraphernalia has not decreased.

Als Bürger möchte ich entscheiden, was ich rauche, dazu ist eine große Auswahl vonnöten. Es gibt ja auch nicht nur ein Auto.

**additional comments**

Diese Bilder und Warnhinweise sind meines erachtens ungerechtfertigt, solange nicht alles, was meine Gesundheit beeinflussen könnte, bzw. was nachweislich die Gesundheit beeinträchtigt solche Markierungen tragen muss. Dazu gehören auch Alkohol und jedes Auto, da es auch zu viele Verkehrstote gibt. Wenn es solche Warnhinweise und Bilder geben muss, dann muss das EU Mitglied selber darüber entscheiden.

**questions scope  
problem definition**

No

**explanations**

Jeder Raucher weiss, wie gesundheitsgefährdend das Rauchen sein kann. Ich sage mit Absicht "sein kann", denn es gibt genug Raucher die Ihr Leben lang ohne gesundheitliche Probleme bekommen zu haben, geraucht haben. Viel schlimmer finde ich, dass in Lebensmittel, vermeintlich gesunde Lebensmittel, Zusatzstoffe beigemischt werden, die hier rein gar nichts zu suchen haben! Es wäre schön, wenn die EU hier zu eine Kennzeichnungspflicht verabschiedet, besser noch ein Verbot ausspricht! Dass das Rauchen gesundheitsschädlich ist, weiss jeder, dass Lebensmittel wie z.B. Cornflakes Gift enthalten weiss niemand. Des weiteren wird kein Raucher aufgrund Ihrer derzeitigen Vorschläge das Rauchen lassen, oder nicht anfangen. Jugendliche bewegen sich in Cliques, da haben einige Erfahrungen und bieten Zigaretten anderen an, man ist dann "in" und macht mit. Da kann ein Werbeverbot gar nichts machen. Da schrecken auch Fotos nicht ab und Einheitsverpackungen werden den Konsum auch nicht reduzieren.

**which option**

No change

**additional comments**

Denken Sie bitte auch an Arbeitsplätze die mit Ihrer Änderung verloren gehen! Es ist nicht nur die Tabakindustrie, sondern auch viele kleine Unternehmen, Kioske und Tabakfachgeschäfte, Vertriebe, Zulieferer, und und und. Die Arbeitslosigkeit zu finanzieren sollte Ihnen schon allein eines groessten Gegenargumente genug sein, Ihre Änderungen nicht durchzubringen. Wollen Sie eine erneute Wirtschaftskrise bei den Deutschen erzeugen? Das haben wir gerade hinter uns und können es uns nicht noch einmal leisten beziehungsweise durchstehen!

**questions smokeless****problem definition**

No

**which option**

No change

**questions consumer****problem definition**

No

**explanations**

Eine Änderung der Verpackung als Plainpackaging ist unmöglich. Wie sollen Händler selbst bitte Ihre Ware finden?

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Keine Änderung - es verbessert sich nichts, wenn sie noch mehr auf die Zigarettenschachteln schreiben. Die Menschen "überlesen" es irgendwann sowieso.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

In Deutschland wird genug kontrolliert, was die Inhalte in Tabak oder Zigaretten angeht. Denken Sie bitte insgesamt an die Verbreitung von Schmuggelware durch Ihre Neuerungen und zudem, was für gesundheitsschädliche Tabake sie damit ins Land holen!  
Kontrproduktiver geht es nicht mehr!

Snus är mindre hälsofarligt än cigaretter och borde vara lagligt i hela Europa. Det är fel att sätta upp hinder mot en specifik industri.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Lagliga varor borde kunna visa sina varumärken. Det finns helle ringet som tyder på att detta skulle ge någon effekt på rökning.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Ingen kommentar.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Ingredienser som inte gör tobaken mer farlig borde inte förbjudas - det finns inget som tyder på att de tillsatser som finns i tobak i Europa gör tobak mer skadligt. Därmed är jag emot ett förbud av ingredienser.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Det är orimligt att butiker inte ska kunna exponera lagliga varor på ett lagligt sätt. Jag är därför emot ett exponeringsförbud på tobak.

Es ist eine außerordentliche Diskreminierung von Rauchern. Weltweit werden Milliarden Geschäfte mit dieser Zielgruppe gemacht. Es gibt wirklich ernsthaftere Probleme auf unserem Planeten, bzw. in der EU, worüber man sich Gedanken machen sollte, diese sind wesentlich gefährlicher und ungesünder für die Bevölkerung. Warum geht man nicht ernsthaft mit diesen Problematiken um?

**additional comments**

Schon vergessen? Alles was man den Menschen verbieten möchte wird umso interessanter. Den Schmugglern wird Tür und Tor geöffnet werden. Was also soll das Theater? Müssen wir Europäern alles den Amerikanern nachmachen? Wir sind doch intelligenter als diese? Warum also alles nachäffen??? Schon mal was biblisches gehört? Wenn Gott uns den freien Willen gegeben hat, warum erdreistet sich dann eine Gruppe von uns bezahlten Beamten, darüber

hinweg zu sehen, und Verbote zu diktieren??

Do you think that changing the packs would change anything? Do you think that pictures of people who died of smoking would change anything? I've been to hongkong recently and they have pictures on their packs but you don't look at them... This whole consultation will cost us millions of euros!! YOU people need the taxes paid with each pack !!! SO start thinking!!!

**questions scope****problem definition**

No

**explanations**

Ein propylaktisches, generelles und vor allem ungeprüftes Verbot hebt das Gebot der Verhältnismäßigkeit aus. Zum sind die vorgenommenen Einschätzungen vage und fußen auf wissenschaftlich inkonsistenten Annahmen.

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

Im Gegensatz zu der wissenschaftlich ohnehin recht angreifbaren Passivrauchargumentation kann hier erst recht keine Gefährdung Dritter herbei argumentiert werden. Somit sollte mündigen Bürgern die Entscheidung überlassen bleiben, verantwortungsbewusst den Genuss derartiger Tabakprodukte zu vollziehen. Die Bedeutung dieser Produkte ist ohnehin stark regional ausgeprägt und verlangt - wenn überhaupt - regionale Regelungen.

**which option**

No change

**questions consumer****problem definition**

No

**explanations**

Der Nachweis der Wirksamkeit derartiger Maßnahmen ist nicht erbracht, bzw. setzt deren Umsetzung in keinem Verhältnis zu den erzielbaren Erfolgen. Dieser Eingriff würde sehr wahrscheinlich (wenn überhaupt) die marginalen positiven Effekten unverhältnismäßig gegenüber den negativen Effekten erscheinen lassen. Vgl. Preiskampf zwischen den Herstellern vs. Jugendschutz, Steuereinnahmen; Erleichterung von Markenpiraterie bzw. bessere Bedingungen für Verbreitung illegal produzierter Substitute. usw.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Kein Handlungsbedarf für Kommission. Nationale Regelungen scheinen auszureichen, sonst hätte die Initiative von jeweiligen Nationalregierungen ausgehen müssen.

**which option**

No change

**regulation of ingredients****problem definition**

No

**explanations**

Die Problemstellung ist zu allgemein gehalten und wirkt sehr subjektiv. Was bedeutet "attraktiv" ? Nationale Vorlieben können hiermit nur noch bedingt berücksichtigt werden. Die bisherigen Regelungen reichen völlig aus. Eine Verbesserung ist nicht erkennbar.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Die Problemstellung bzgl. der Zigarettenautomaten ist national bereits geregelt. Zugangskontrollen finden bereits heute statt und sind überdies (aufgrund technischer Lösungen) am wirkungsvollsten. Entweder gilt ein liberalisierter Binnenmarkt oder nicht.

Permante Beschränkungen würden die Sinnhaftigkeit der Institution EU fortschreitend untergraben. Kurzfristig würden die Gremien sich eine sicherlich benötigte Daseinsberechtigung verschaffen, langfristig aber ihre Legitimation aushöhlen.

Wir haben schon heute große Probleme mit dem illegalen Zigarettenhandel ( Vietnamesen ). Dieser hat schon Mafia ähnliche Strukturen und konnte bis heute weder durch den Zoll noch der Polizei unterbunden werden !! Eine Behinderung des offiziellen Verkaufs von Tabakprodukten führt nicht nur zu immensen Einbußen von Steuern und es folgen dahin auch Massenschliessungen von Zigarettengeschäften, sowie ein Ansteigen der Arbeitslosen. Auch wird der illegale Zigarettenhandel sprunghaft in die Höhe schnellen. Insgesamt würde also der Zigarettenkonsum nicht sinken. Die Entscheider in der EU sollten sich die Dokumentation über die Prohibition in den USA anschauen ( wird zur Zeit im TV auf Phönix ausgestrahlt ) bevor sie voreilig etwas entschliessen !!!!!

Yes

**which option**

No change

**recommend option**

Product categories should not be made illegal without proper study.

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**additional comments**

Could potentially minimize second-hand smoking.

**questions consumer**

**problem definition**

No

**explanations**

I believe current health warnings are good and clearly visible - no need to further enlarge these. Plain packaging would make smuggling of fake products too easy - meaning loss in tax revenue.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

It is not the task of EU (but of the Danish State) to sanction companies operating in Denmark. A common format would be fine as long as it does not contribute to additional administration costs.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not the role of the EU (or the Danish State for that matter) to dictate taste. Ingredients should only be regulated if they are proven to make cigarettes more harmful.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

I believe adult smokers should have the possibility of choosing and seeing the products available.

**which option**

No change

**additional option**

EU should provide guidelines and recommendations to ensure Member State enforcement of age-limit laws. The EU should support information campaigns to prevent minors from being able to buy tobacco and clearly state the harmful effects of smoking.

---

**recommend option**

Es sollte keine Regulierung von neuartigen Produkten geben

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

Das Snus Verbot ist in meinen Augen in keinster Weise gerechtfertigt und sollte aufgehoben werden. Warum gibt es das Verbot überhaupt ?

**questions consumer**

**problem definition**

No

**explanations**

- Die Bürger der EU wissen bereits, dass Rauchen nicht gesund ist und zu Krankheiten führen kann. Daher sind Bildwarnhinweise nicht notwendig, im Gegenteil, Sammlerleidenschaft wird geweckt. - TNCO Zahlen sind wichtig und informieren den Verbraucher über die Intensität, könnten aber durch genauere Zahlen/Werte ersetzt werden. - Gesundheitswarnhinweise auf Wasserpfeifen sind nutzlos, denn es kommt darauf an welche Art von Tabak konsumiert wird. Daher sollten die Gesundheitswarnhinweise eher auf den Wasserpfeifentabak stehen. - Plain Packing führt in meinen Augen zu rein gar nichts. Im Gegenteil, Kriminelle können viel einfacher ihre Fälschungen herstellen. Es findet u.a. ein signifikanter Eingriff in die Markenrechte der Hersteller statt. Desweiteren werden die Verbraucher deshalb nicht weniger rauchen oder gar ganz aufhören. Die jetzigen Warnhinweise sind vollkommen ausreichend. Der Verbraucher wird ja regelrecht endmündigt, unglaublich !

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

- Ich meine, wir sollten ein auf EU -Ebene eingerichtetes Meldeformat einführen, unter Berücksichtigung der Geschäftsgeheimnisse der Hersteller. - Die EU - Staaten könnten schon jetzt Registrierungsgebühren zur Erfassung und Analyse der Herstellerdaten erheben, wie z.B. Belgien. Die Erhebung/Durchsetzung ist m.e. Angelegenheit der einzelnen EU - Staaten.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

- Grundsätzliche Kriterien für die Bewertung von Zusatzstoffen sind nicht festgelegt ! - Attraktivität empfindet jeder Verbraucher für ein Konsumprodukt anders und ist somit subjektiv ! - Es gibt nach wie vor keinen wissenschaftlichen Beweis dafür, dass

Tabakzusatzstoffe für sich selbstgenommen suchterzeugend sind und auch nicht erhöhen. Daher sollten Zusatzstoffe weiterhin erlaubt sein, denn es gibt keine Anahltspunkte auf mögliche Gesundheitsauswirkungen.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

- Ich bin für eine Einschränkung des Grenzüberschreitenden Internetverkaufs von Tabakerzeugnissen, wie zum Beispiel die Altersbegrenzung. - Die Darstellung von Ihnen beschreibt in der Tat nicht das Problem bei Verkaufsautomaten. Ich unterstütze nur zum Teil die Einschränkung. Es gibt überhaupt keinen Beweis, das ein Verbot von Verkaufsautomaten den Verbrauch reduzieren würde oder gar den Gesundheitszielen entspricht. - Ich bin absolut gegen ein "Verbot der Präsentation von Tabakwaren". Ein Verbot wird mitnichten zu einer Reduzierung des Konsum führen oder gar den Anteil an Rauchern verringern. Den Handel mit Tabakprodukten würde es eher erschweren als erleichtern, würde viel Zeitaufwendiger werden; ganz zu schweigen von dem Platzproblem ! Umsatzprobleme der kleinen Einzelhändler wären vorprogrammiert

**explanations**

Die Problemdarstellung enthält lediglich vage Einschätzungen im Hinblick auf eine mögliche Binnenmarktverzerrung oder ein mögliches Versagen bei der Sicherstellung eines hohen Gesundheitsschutzniveaus aufgrund fehlender einheitlicher Bestimmungen für die Regulierung von nikotinhaltigen oder zigarettenähnlichen Produkten in den Mitgliedstaaten. Zudem vermeidet die Kommission jede Form der Wertung in Bezug auf das Subsidiaritäts- und Verhältnismäßigkeitsprinzip. Jede Form der Regulierung von „Tabakerzeugnissen“ muss auf der Grundlage wissenschaftlicher Erkenntnisse sowie der zweifelsfrei gegebenen Rechtssetzungskompetenz der EU basieren. Dies gilt auch für mögliche Regulierungen oder gar Verbote für nikotinhaltige Produkte, die keinen Tabak enthalten oder zigarettenähnliche Produkt (Kräuterzigaretten). Eine Einbeziehung von nikotinhaltigen Produkten oder zigarettenähnlichen Produkten in den Geltungsbereich der Richtlinie kann nicht allein aus der Begründung heraus erfolgen, dass diese Produkte neu sind und nach der Auffassung der Kommission auch auf eine entsprechende Nachfrage in den einzelnen Märkten der EU27 treffen. ... oder aus der Begründung heraus, dass diese Produkte bisher keiner wissenschaftlichen Bewertung (Unbedenklichkeitsprüfung) unterzogen wurden.

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

Der Konsum rauchloser Tabakerzeugnisse durch erwachsene und aufgeklärte Personen gefährdet weder die Gesundheit Dritter noch schränkt der Konsum dieser Produkte andere Personen in ihren Lebensgewohnheiten ein. Der Konsum dieser Produkte liegt in der Eigenverantwortung des Einzelnen. Das Bewerben und Verkaufen dieser Produkte muss

daher möglich sein. Das EU-weite Verbot von Snus (Ausnahme Schweden) stellt eine massive Entmündigung der Bürger dar. Denn die erwachsenen Verbraucher haben das Recht, auch bei Genussmitteln mit Gesundheitsrisiken die Wahl zu haben und eigenverantwortliche Entscheidungen zu treffen. Aus der Problemdarstellung der Kommission lässt sich keine wissenschaftlich fundierte Grundlage ableiten, die ein EU-weites Verbot von Snus (Ausnahme Schweden) oder anderer rauchloser Produkte rechtfertigen könnte. Beispielsweise vermissen wir in der Problemdarstellung wissenschaftlich fundierte Wirkungsanalyse aus Ländern, in denen Snus oder andere rauchlose Tabakerzeugnisse konsumiert werden.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Es gibt keinen überzeugenden Beleg dafür, dass ein Warnhinweis umso wirksamer ist, je größer sein Format. Es existiert bereits ein allgemeines Bewusstsein der Risiken des Rauchens. Ein Hinzufügen von Bildern auf den Warnhinweisen erhöht dieses Bewusstsein nicht – die Bilder wirken lediglich überwiegend abstoßend ohne eine zusätzliche Information zu bieten. Es wird pauschal unterstellt, dass die Einführung von Bildwarnhinweise auf das Rauchverhalten der Verbraucher einwirkt. Dafür werden allerdings keine Nachweise aus den Ländern zugeliefert, in denen Bildwarnhinweise bereits verpflichtend eingeführt wurden. Die Kommission selbst hat im Rahmen der Tabak-Produkt-Richtlinie die Höchstgehalte an Teer, Nikotin und Kohlenmonoxid begrenzt. Das man nun daraus den Schluss zieht, dass Verbraucher aufgrund der niedrigeren Höchstgehalte den Konsum der Produkte als weniger riskant für ihre Gesundheit einstufen könnten, ist daher absurd.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Ob die Behörden Schwierigkeiten bei Vergleich und Analyse der Daten haben oder die Erfassung und Analyse der gemeldeten Daten über Inhaltsstoffe erhebliche Ressourcen auf Seiten der zuständigen nationalen Behörden erfordern, wie von der Kommission dargestellt, kann nicht beurteilt werden. – Wenn dies so wäre, verwundert es sehr, dass der Anstoß in Richtung einer Vereinheitlichung und Vereinfachung nicht aus den Mitgliedstaaten selbst hervorgeht, sondern von der Kommission vorgebracht wird und dann im Zusammenhang mit einer Option, die der Wirtschaft zusätzliche dauerhafte Kosten (jährliche Gebühr) auferlegen würde. Die Mitgliedstaaten selbst sind gefordert, zusammen mit der Wirtschaft einen pragmatischen Weg zu diskutieren und umzusetzen. Einen notwendigen Handlungsbedarf der Kommission spiegelt die Problemdarstellung nicht wider.

**which option**

No change

## **regulation of ingredients**

### **problem definition**

No

### **explanations**

Die Problemdarstellung ist keine sachgerechte, an wissenschaftlichen Prüfstrategien und Standards orientierte und am Maßstab der Verhältnismäßigkeit ausgerichtete Diskussionsgrundlage. Der Begriff „attraktiv“ ist ein subjektives Kriterium für ein Verbot oder eine Regulierung von Zusatzstoffen und entbehrt jeglicher wissenschaftlicher Grundlage. Die Verbreitung des Rauchens in Ländern wie Großbritannien und Irland, in denen vorwiegend Zigaretten ohne Zusatzstoffe verkauft werden (Produkte des Virginia-Typs), ist nicht geringer als die Verbreitung in Ländern, in denen vorwiegend Zigaretten mit Zusatzstoffen (American-Blend-Produkte) verkauft werden. Wettbewerbsrechtlichen Auswirkungen einer einseitigen Regulierung von Produkten mit Zusatzstoffen werden nicht thematisiert. Die Frage nach der Wirkung auf das Preisgefüge in den EU 27 Märkten sowie Effekte auf den illegalen Handel mit Tabakerzeugnissen werden nicht thematisiert.

### **which option**

No Change

## **access to tobacco products**

### **problem definition**

No

### **explanations**

Die Problemdarstellung ist keine sachgerechte, an wissenschaftlichen Prüfstrategien und Standards orientierte und am Maßstab der Verhältnismäßigkeit ausgerichtete Diskussionsgrundlage. Die Darstellung, dass in einer Vielzahl von Mitgliedstaaten der Vertrieb von Tabakautomaten verboten ist, ist keine Problembeschreibung. Die Problembeschreibung trifft nicht zu. In 15 Mitgliedstaaten der EU 27 dürfen Tabakwaren über Automaten abgegeben werden. Dies erfolgt i.d.R. unter strengen gesetzlichen Auflagen der nationalen Regierungen. Der Problembeschreibung stimme ich nicht zu. Die Bereiche „Verkauf von Tabakwaren über Zigarettenautomaten“ und „Mindestaltersgrenzen für den Bezug von Tabakwaren“ sind Themen, die eindeutig in den Zuständigkeitsbereich der Mitgliedstaaten fallen. Die Problembeschreibung „Zigarettenautomat“ Kommission selbst bereits bei ihrem Bericht aus dem Jahre 2003 zur Umsetzung der Ratsempfehlung 2003/54/EC festgehalten hat: – Insgesamt ist die Umsetzung der Empfehlung zufriedenstellend. – Dies betrifft insbesondere die Verpflichtung, das Mindestalter für den Kauf von Tabakwaren zu überprüfen sowie die Durchführung von Maßnahmen zur Beschränkung der Verwendung von Automaten durch minderjährige Personen. Ein Handlungsbedarf wird daher nicht gegeben. Weder ein Verbot des Verkaufs von Tabakwaren in Automaten, noch die Untersagung der Auslage bzw. Sichtbarkeit von Zigaretten in Verkaufsstellen weisen einen grenzüberschreitenden Bezug auf. Für Automaten ergibt sich das schon daraus, dass deren Einzugsgebiet auf die unmittelbare Nachbarschaft zum Automaten beschränkt ist. Selbst wenn von Mitgliedstaat zu Mitgliedstaat unterschiedliche Anforderungen an die Gestaltung der Automaten z.B. aus Gründen des Jugendschutzes den grenzüberschreitenden Handel mit den Automaten behindern, würde ein Verbot der Automatenaufstellung dem gemeinschaftsweiten Warenhandel mit Automaten die Grundlage entziehen, diesen also beeinträchtigen und ihn nicht erleichtern. Die EU kann nur tätig

werden, wenn sie die Kompetenz dazu hat – diese Kompetenz ist in den EU-Verträgen festgelegt. Ein Verweis darauf, dass bisher weder die Frage der begrenzten Einzelermächtigung, der Subsidiarität oder der Verhältnismäßigkeit in Bezug auf die einzelnen Maßnahmen oder Optionen hin geprüft wurde ist inakzeptabel. Die Problembeschreibung wird daher mangels fehlender juristischer Vorwertung der Kommission nicht mitgetragen. Dass die Existenz von Zigarettenautomaten einen Einfluss auf das Rauchverhalten Jugendlicher hat, ist wissenschaftlich nicht nachgewiesen. In Ländern mit einem Automatenverbot fällt die Quote jugendlicher Raucher zum Teil deutlich höher aus als in den Ländern mit einer Automatenvertriebsstruktur. Pläne der Europäischen Kommission zur Abschaffung der Automaten schränken daher die Bezugsmöglichkeiten erwachsener Verbraucher ein, dienen dem Jugendschutz jedoch in keiner Weise.“ Organisierte Kriminalität wird das Vakuum füllen, das entsteht, wenn legale Verkaufs- bzw. Bezugsstellen verschwinden. Die Problembeschreibung verschweigt wesentliche Sachverhalte, die für die abschließende Bewertung von Bürgerinnen und Bürgern von Wichtigkeit sein können – Beispielhaft führe ich hier eine Stellungnahme der Deutschen Bundesregierung vom 01.04.2010 im Rahmen einer Kleinen Anfrage der Fraktion Bündnis 90/Die Grünen im Hinblick auf ein generelles Automatenverbot an: „Im Rahmen der Verhältnismäßigkeit sieht die Bundesregierung die bereits existierenden gesetzlichen Vorschriften und die in Vollzug dieser Vorschriften erfolgte Umsetzung der technischen Sicherung von Zigarettenautomaten durch Alterskontrolle per Geldkarte oder europäischem Führerschein als derzeit ausreichend und als die mildesten Mittel an, um das Abgabeverbot von Tabakwaren durch Automaten an Minderjährige wirksam zu regeln.“

its done so much, but everyone has to decide on its own! i can't be the intention of the eu to make smoking to something illegal and thats how it seems if have to ask cigarettes. its forbidden to call them "ligths" or "medium" - ok. its forbidden to smoke in restaurants, bars etc - very good. but this is jsut one step to far. smoking is not the only problem for our health, whats about alcohol? you can advertise every where you want, you can buy it every where you want and its not heathly as well i think.

Die Problemdarstellung enthält lediglich vage Einschätzungen im Hinblick auf eine mögliche Binnenmarktverzerrung oder ein mögliches Versagen bei der Sicherstellung eines hohen Gesundheitsschutzniveaus aufgrund fehlender einheitlicher Bestimmungen für die Regulierung von nikotinhaltenen oder zigarettenähnlichen Produkten in den Mitgliedstaaten. Zudem vermeidet die Kommission jede Form der Wertung in Bezug auf das Subsidiaritäts- und Verhältnismäßigkeitsprinzip. Jede Form der Regulierung von „Tabakerzeugnissen“ muss auf der Grundlage wissenschaftlicher Erkenntnisse sowie der zweifelsfrei gegebenen Rechtssetzungskompetenz der EU basieren. Dies gilt auch für mögliche Regulierungen oder gar Verbote für nikotinhaltige Produkte, die keinen Tabak enthalten oder zigarettenähnliche Produkt (Kräuterzigaretten).

**which option**

No change

**questions consumer****problem definition**

Yes

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Die Mitgliedstaaten selbst sind gefordert, zusammen mit der Wirtschaft einen pragmatischen Weg zu diskutieren und umzusetzen. Einen notwendigen Handlungsbedarf der Kommission spiegelt die Problemdarstellung nicht wider.

**which option**

No change

**regulation of ingredients****problem definition**

No

**explanations**

Die Problemdarstellung ist keine sachgerechte, an wissenschaftlichen Prüfstrategien und Standards orientierte und am Maßstab der Verhältnismäßigkeit ausgerichtete Diskussionsgrundlage.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Die Problemdarstellung ist keine sachgerechte, an wissenschaftlichen Prüfstrategien und Standards orientierte und am Maßstab der Verhältnismäßigkeit ausgerichtete Diskussionsgrundlage. Die Darstellung, dass in einer Vielzahl von Mitgliedstaaten der Vertrieb von Tabakautomaten verboten ist, ist keine Problembeschreibung. Die Problembeschreibung trifft nicht zu. In 15 Mitgliedstaaten der EU 27 dürfen Tabakwaren über Automaten abgegeben werden. Dies erfolgt i.d.R. unter strengen gesetzlichen Auflagen der nationalen Regierungen. Der Problembeschreibung stimme ich nicht zu. Die Bereiche „Verkauf von Tabakwaren über Zigarettenautomaten“ und „Mindestaltersgrenzen für den Bezug von Tabakwaren“ sind Themen, die eindeutig in den Zuständigkeitsbereich der Mitgliedstaaten fallen.

**explanations**

That's enough. What about alcohol, sweets and, above all, gambling? There really are more important issues to which one should take care!. Smoking is already linked with very tough rules and restrictions.

**which option**

No change

**recommend option**

Adults can decide for themselves what they want to or not. You should now keep out of time and take care of more important issues and allow the people their freedom of choice.

**additional comments**

I am for Freedom of speech and freedom of choice and that adult people should decide themselves to do what they want to do and it is entitled to any governing body and has the right to intervene. Reconnaissance is good and right, but then is good. It should also be taken care of even other addictions. Alcohol, candy, gambling destroys people who are threats to society and are never to debate ...

**recommend option**

Aufklärung ist vorhanden und Empfehlungen der WHO blind zu folgen halte ich für keine Lösung. Die Bürger der EU sind nicht dumm, und ein solcher Eingriff in nationale Märkte sehe ich letztendlich als Bevormundung des Endverbrauchers. Gerade in der breiten Basis der Bevölkerung hat die EU nicht so viele Befürworter wie sie vielleicht annehmen, eine Bevormundung führt gerade bei erwachsenen Menschen normalerweise zu Ablehnung. Prävention in Schulen ist, zumindest in Deutschland, vorhanden und erst einmal sollten in allen EU Ländern die bestehenden Gesetze durchgeführt und genutzt werden bevor Ihr mit etwas Neuen kommt.

**additional comments**

No Comment

**questions smokeless****problem definition**

No

**comments**

Laut einer Studie der, man sollte es nicht glauben, WHO ist erwiesen das es keinen Zusammenhang zwischen Schnupftabak und Krebs gibt. Auch haben viele Menschen den Snuff gerade deshalb lieber weil sie ihn als Ersatz zum Tabak bzw der Zigarette konsumieren. Dieser Vorschlag Ihrerseits klingt eher nach einem Vorschlag der Pharmaindustrie bzw Hersteller von Nikotinersatzprodukten..... hüstel hüstel ich sag mal BAYER...

**which option**

No change

**questions consumer****problem definition**

No

**explanations**

EU Bürger wissen um die Schädlichkeit und das Kinder nicht rauchen sollten ist bekannt. Eine Durchsetzung der Länder innerhalb der bestehenden Gesetze halte ich für sinnvoller als den Vorschlag ihrerseits.

Ein Beipackzettel beinhaltet nur höhere Kosten und wird sowieso weggeworfen. Ihr glaubt doch nicht wirklich das so etwas von leuten wahrgenommen wird und sie vom Rauchen abhält. Manchmal habe ich das Gefühl ihr wisst noch nicht mal wie ihr selber in der Mehrheit mit Beipackzetteln bei Medikamenten oder Inhaltslisten auf Produkten umgeht.... Seid mal ehrlich... der Großteil ist

**which option**

No change

**regulation of ingredients  
problem definition**

No

**explanations**

Solange Tabak enthalten ist, ist die Schädlichkeit der anderen Inhaltsstoffe gesundheitlich zu vernachlässigen und auch Chemisch lässt sich keine Erhöhung bzw Minderung der Schädlichkeit feststellen. Nur zur Information, ich habe in Berlin im Labor einer Pfeifentabakfabrik gearbeitet und habe mich mit mit einem Freund von mir, der Lebensmittelchemiker in der Forschung in Dublin ist, darüber schon öfter unterhalten. Suchterregende zusätzliche Stoffe wie Cumarin sollten allerdings erstmal in Produkten in der ganzen EU untersagt sein wie es in Deutschland, aber nicht in allen EU Ländern der Fall ist.

**explanations**

ich bin alt genug um mir bei allem vorschritten machen lassen müssen; wir sind in einer zeit aufgewachsen um mit dem alter von 18 / 19 Jahren selbständig zu werden und selbständig entscheidungen zu treffen. unsere existenzen hängen teilweise bis sehr an diesen grundauffassungen von erziehung!

**explanations**

Der Regulierungswahn der EU und der einzelnen Länder ist mir seit langem ein Dorn im Auge. Dies ist unnötig und unangebracht.

**which option**

No change

**questions smokeless**

**problem definition**

Yes

**which option**

No change

**questions consumer**

**problem definition**

No

**explanations**

Hier werden bestimmte Dinge leider vermischt, die getrennt behandelt werden sollten. Ich möchte nicht auf eine schöne Zigarrenkiste verzichten, die allein mir schon Lust auf den Genuss der Zigarre macht. Außerdem sollte man sich überlegen wie viele Arbeitsplätze hier gefährdet sind. Ein absolutes "No go".

**which option**

No change

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**additional comments**

Dies macht jedoch nur Sinn wenn es ein einheitliches, abgestimmtes Format ist.

**regulation of ingredients**

**problem definition**

Yes

**which option**

Introducing the basic criteria on the EU level without a common list

**access to tobacco products****problem definition**

No

**explanations**

Die Vorschläge gehen hier zu weit. Die Produktpräsentation und Werbung am Verkaufsort darf z. B. in Zigarren Lounges nicht eingeschränkt werden. Auch ein Automatenverbot für Zigaretten geht deutlich zu weit.

**which option**

bei der Option 1 sehe ich kein Problem

**additional comments**

Da ich im Genuss kein Problem sehe, wäre ich Ihnen sehr verbunden, wenn sie globale Probleme richtig angehen würde!

**questions consumer****problem definition**

No

**explanations**

sehe ich kein Problem, jeder Bürger kann für sich selbst entscheiden.

**which option**

No change

**additional option**

There is no problem

**additional comments**

Wahlmöglichkeit ist eine Option, sprechen sie nicht jedem die Fähigkeit ab für sich Entscheidungen zu fällen.

**questions on reporting****problem definition**

No

**explanations**

Falls Sie darauf aus sind, jeden Raucher als Trottel darzustellen, dann haben sie ein Problem.

**which option**

No change

**additional options**

ich sehe in Option 1 kein Problem im Genuss

**additional comments**

Es gibt so viele neue Energielieferanten, so dass Atomkraftwerke nicht nötig wären. Das ist ein Problem, dass sie in meinem Auftrag als "wählender" Bürger der EU angehen müssten!!!

**regulation of ingredients****problem definition**

No

**explanations**

In Österreich ist das sehr gut geregelt

**which option**

No Change

**additional option**

Option 1

**additional comments**

Wichtig ist den Bürgern ihre Urteilsfähigkeit und Wahlmöglichkeiten nicht abzusprechen

**access to tobacco products****problem definition**

No

**explanations**

Im Grunde ist es nur eine Frage des Preises und wie einfach es ist einen Tabak zu bekommen

**which option**

No change

**additional option**

Option 1

**additional comments**

Natürlich sind ständige Preiserhöhungen, die nur die jeweiligen Regierungen unterstützen, keine langfristige Lösung um legalen Einkauf zu fördern. wird mir das im Geschäft erschwert, so versucht der konsument es auf anderen Weg. Komme ich als mündiger Erwachsener zu meinem Tabak erz., dann brauche ich keine Alternative zu suchen!

**questions scope****problem definition**

No

**explanations**

Die Problemdarstellung enthält lediglich vage Einschätzungen im Hinblick auf eine mögliche Binnenmarktverzerrung oder ein mögliches Versagen bei der Sicherstellung eines hohen Gesundheitsschutzniveaus aufgrund fehlender einheitlicher Bestimmungen für die Regulierung von nikotinhaltigen oder zigarettenähnlichen Produkten in den Mitgliedstaaten. Zudem vermeidet die Kommission jede Form der Wertung in Bezug auf das Subsidiaritäts- und Verhältnismäßigkeitsprinzip. Jede Form der Regulierung von „Tabakerzeugnissen“ muss auf der Grundlage wissenschaftlicher Erkenntnisse sowie der zweifelsfrei gegebenen Rechtssetzungskompetenz der EU basieren. Dies gilt auch für mögliche Regulierungen oder gar Verbote für nikotinhaltige Produkte, die keinen Tabak enthalten oder zigarettenähnliche Produkt (Kräuterzigaretten). Eine Einbeziehung von nikotinhaltigen Produkten oder zigarettenähnlichen Produkten in den Geltungsbereich der Richtlinie kann nicht allein aus der Begründung heraus erfolgen, dass diese Produkte neu sind und nach der Auffassung der Kommission auch auf eine entsprechende Nachfrage in den einzelnen Märkten der EU27 treffen. Außerdem sind diese Produkte bisher keiner wissenschaftlichen Bewertung (Unbedenklichkeitsprüfung) unterzogen wurden.

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

Der Konsum rauchloser Tabakerzeugnisse durch erwachsene und aufgeklärte Personen gefährdet weder die Gesundheit Dritter noch schränkt der Konsum dieser Produkte andere Personen in ihren Lebensgewohnheiten ein. Der Konsum dieser Produkte liegt in der Eigenverantwortung des Einzelnen. Das Bewerben und Verkaufen dieser Produkte muss daher möglich sein. Das EU-weite Verbot von Snus (Ausnahme Schweden) stellt eine massive Entmündigung der Bürger dar. Denn die erwachsenen Verbraucher haben das Recht, auch bei Genussmitteln mit Gesundheitsrisiken die Wahl zu haben und eigenverantwortliche Entscheidungen zu treffen. Aus der Problemdarstellung der Kommission lässt sich keine wissenschaftlich fundierte Grundlage ableiten, die ein EU-weites Verbot von Snus (Ausnahme Schweden) oder anderer rauchloser Produkte rechtfertigen könnte. Beispielsweise vermissen wir in der Problemdarstellung wissenschaftlich fundierte Wirkungsanalyse aus Ländern, in denen Snus oder andere rauchlose Tabakerzeugnisse konsumiert werden.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

Es gibt keinen überzeugenden Beleg dafür, dass ein Warnhinweis umso wirksamer ist, je größer sein Format. Es existiert bereits ein allgemeines Bewusstsein der Risiken des Rauchens. Ein Hinzufügen von Bildern auf den Warnhinweisen erhöht dieses Bewusstsein nicht – die Bilder wirken lediglich überwiegend abstoßend ohne eine zusätzliche Information zu bieten. Es wird pauschal unterstellt, dass die Einführung von Bildwarnhinweise auf das Rauchverhalten der Verbraucher einwirkt. Dafür werden allerdings keine Nachweise aus den Ländern zugeliefert, in denen Bildwarnhinweise bereits verpflichtend eingeführt wurden. Die Kommission selbst hat im Rahmen der Tabak-Produkt-Richtlinie die Höchstgehalte an Teer, Nikotin und Kohlenmonoxid begrenzt. Das man nun daraus den Schluss zieht, dass Verbraucher aufgrund der niedrigeren Höchstgehalte den Konsum der Produkte als weniger riskant für ihre Gesundheit einstufen könnten, ist daher absurd.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Ob die Behörden Schwierigkeiten bei Vergleich und Analysen der Daten haben oder die Erfassung und Analyse der gemeldeten Daten über Inhaltsstoffe erhebliche Ressourcen auf Seiten der zuständigen nationalen Behörden erfordern, wie von der Kommission dargestellt, kann nicht beurteilt werden. Wenn dies so wäre, verwundert es sehr, dass der Anstoß in Richtung einer Vereinheitlichung und Vereinfachung nicht aus den Mitgliedstaaten selbst hervorgeht, sondern von der Kommission vorgebracht wird und dann im Zusammenhang mit einer Option, die der Wirtschaft zusätzliche dauerhafte Kosten (jährliche Gebühr) auferlegen würde. Die Mitgliedstaaten selbst sind gefordert, zusammen mit der Wirtschaft einen pragmatischen Weg zu diskutieren und umzusetzen. Einen notwendigen Handlungsbedarf der Kommission spiegelt die Problemdarstellung nicht wider.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Die Problemdarstellung ist keine sachgerechte, an wissenschaftlichen Prüfstrategien und Standards orientierte und am Maßstab der Verhältnismäßigkeit ausgerichtete Diskussionsgrundlage. Der Begriff „attraktiv“ ist ein subjektives Kriterium für ein Verbot oder eine Regulierung von Zusatzstoffen und entbehrt jeglicher wissenschaftlicher Grundlage. Die Verbreitung des Rauchens in Ländern wie Großbritannien und Irland, in denen vorwiegend Zigaretten ohne Zusatzstoffe verkauft werden (Produkte des Virginia-Typs), ist nicht geringer als die Verbreitung in Ländern, in denen vorwiegend Zigaretten mit Zusatzstoffen (American-Blend-Produkte) verkauft werden. Wettbewerbsrechtlichen Auswirkungen einer einseitigen Regulierung von Produkten mit Zusatzstoffen werden nicht thematisiert. Die Frage nach der Wirkung auf das Preisgefüge in den EU 27 Märkten sowie Effekte auf den illegalen Handel mit Tabakerzeugnissen werden nicht thematisiert.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Die Problemdarstellung ist keine sachgerechte, an wissenschaftlichen Prüfstrategien und Standards orientierte und am Maßstab der Verhältnismäßigkeit ausgerichtete Diskussionsgrundlage. Die Darstellung, dass in einer Vielzahl von Mitgliedstaaten der Vertrieb von Tabakautomaten verboten ist, ist keine Problembeschreibung. Die Problembeschreibung trifft nicht zu. In 15 Mitgliedstaaten der EU 27 dürfen Tabakwaren über Automaten abgegeben werden. Dies erfolgt i.d.R. unter strengen gesetzlichen Auflagen der nationalen Regierungen. Der Problembeschreibung stimme ich nicht zu. Die Bereiche „Verkauf von Tabakwaren über Zigarettenautomaten“ und „Mindestaltersgrenzen für den Bezug von Tabakwaren“ sind Themen, die eindeutig in den Zuständigkeitsbereich der Mitgliedstaaten fallen. Die Problembeschreibung „Zigarettenautomat“ Kommission selbst bereits bei ihrem Bericht aus dem Jahr 2009 zur Umsetzung der

Ratsempfehlung 2003/54/EC festgehalten hat: Insgesamt ist die Umsetzung der Empfehlung zufriedenstellend. Dies betrifft insbesondere die Verpflichtung, das Mindestalter für den Kauf von Tabakwaren zu überprüfen sowie die Durchführung von Maßnahmen zur Beschränkung der Verwendung von Automaten durch minderjährige Personen. Ein Handlungsbedarf wird daher nicht gegeben. Weder ein Verbot des Verkaufs von Tabakwaren in Automaten, noch die Untersagung der Auslage bzw. Sichtbarkeit von Zigaretten in Verkaufsstellen weisen einen grenzüberschreitenden Bezug auf. Für Automaten ergibt sich das schon daraus, dass deren Einzugsgebiet auf die unmittelbare Nachbarschaft zum Automaten beschränkt ist. Selbst wenn von Mitgliedstaat zu Mitgliedstaat unterschiedliche Anforderungen an die Gestaltung der Automaten z.B. aus Gründen des Jugendschutzes den grenzüberschreitenden Handel mit den Automaten behindern, würde ein Verbot der Automatenaufstellung dem gemeinschaftsweiten Warenhandel mit Automaten die Grundlage entziehen, diesen also beeinträchtigen und ihn nicht erleichtern. Die EU kann nur tätig werden, wenn sie die Kompetenz dazu hat – diese Kompetenz ist in den EU-Verträgen festgelegt. Ein Verweis darauf, dass bisher weder die Frage der begrenzten Einzelermächtigung, der Subsidiarität oder der Verhältnismäßigkeit in Bezug auf die einzelnen Maßnahmen oder Optionen hin geprüft wurde ist inakzeptabel. Die Problembeschreibung wird daher mangels fehlender juristischer Vorwertung der Kommission nicht mitgetragen. Dass die Existenz von Zigarettenautomaten einen Einfluss auf das Rauchverhalten Jugendlicher hat, ist wissenschaftlich nicht nachgewiesen. In Ländern mit einem Automatenverbot fällt die Quote jugendlicher Raucher zum Teil deutlich höher aus als in den Ländern mit einer Automatenvertriebsstruktur. Pläne der Europäischen Kommission zur Abschaffung der Automaten schränken daher die Bezugsmöglichkeiten erwachsener Verbraucher ein, dienen dem Jugendschutz jedoch in keiner Weise.“ Organisierte Kriminalität wird das Vakuum füllen, das entsteht, wenn legale Verkaufs- bzw. Bezugsstellen verschwinden. Die Problembeschreibung verschweigt wesentliche Sachverhalte, die für die abschließende Bewertung von Bürgerinnen und Bürgern von Wichtigkeit sein können Beispielhaft führe ich hier eine Stellungnahme der Deutschen Bundesregierung vom 01.04.2010 im Rahmen einer Kleinen Anfrage der Fraktion Bündnis 90/Die Grünen im Hinblick auf ein generelles Automatenverbot an: „Im Rahmen der Verhältnismäßigkeit sieht die Bundesregierung die bereits existierenden gesetzlichen Vorschriften und die in Vollzug dieser Vorschriften erfolgte Umsetzung der technischen Sicherung von Zigarettenautomaten durch Alterskontrolle per Geldkarte oder europäischem Führerschein als derzeit ausreichend und als die mildesten Mittel an, um das Abgabeverbot von Tabakwaren durch Automaten an Minderjährige wirksam zu regeln.“

In demokratischen Gesellschaften sollten die Bürger über tun und lassen (sofern Gesetzeskonform) selber entscheiden dürfen. Eine "Einheitspackung" sowie "Einheitszigarette" schränken mich in meiner freien Wahl doch erheblich ein! Zigaretten sind "legale" Drogen, also darf hier der Individualismus nicht verloren gehen! Wir sprechen ja auch nicht über eine "Einheitsflasche" beim Alkohol! Wenn ich mal einen Abend lang zu viel geraucht habe, brauche ich in keine Ausnüchterungszelle etc.... habe ich mal zu viel getrunken, oder bin gar Abhängig vom Alkohol, dann werden mir Therapien ermöglicht usw usw usw. Einem Raucher wird keine Entwöhnung gezahlt! Also möchte ich auch selber entscheiden!

**explanations**

Es gab solange keine Probleme mit dem rauchen, bis die Idioten von der EU 90% der gehirnmasse wegoperiert bekamen. Sie wollen doch nur eine Existenzberechtigung haben - sie sind völlig überflüssig - lassen die uns Bürger doch endlich mal in Ruhe selber entscheiden was wir wollen - inwieweit wollen sie uns weiter bevormunden? Wir sind mündige Bürger und können selber entscheiden!

**which option**

No change

**recommend option**

JA, bitte schafft die EU-Idioten ab! Sie handeln zudem gegen das Grundgesetz der Deutschen und das sieht gleichbehandlung vor. Diese ist nicht mehr gegeben. Mag das Bundesverfassungsgericht entscheiden - denn, sie bedrohen die Existenz von Millionen von Geschäftsleuten, nehmen vielen Mitbürgern jeglichen Spaß am leben - aber sie können dieses hier ja garnicht lesen da sie zuwenig aktive Gehirnzellen haben!

No change

**additional comments**

Ellentmondásos a tervezet, mert már a hatáskör definiálásakor tiltásokat fogalmaz meg bizonyos termékkörre anélkül, hogy erre vonatkozó részletekkel szolgálna - legyen szó akár a bevezetőről, akár a konzultációs anyag egyéb fejezeteiről.

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**additional comments**

Ennek a kérdéskörnek a szabályozását tagállami hatáskörben lenne érdemes meghagyni. A füst mentes dohány termékeket (snüss) tiltás helyett inkább reklámozni kellene.

**questions consumer**

**problem definition**

No

**explanations**

Véleményem szerint az egészségvédő feliratok méretének eltúlzása nincs arányban az elérni kívánt céllal. Az egyen csomagolás bevezetése egyértelműen utat nyit a feketekereskedelem növekedésének.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Tagállami szinten a kérdés kör megoldott, és a tagállamok szuverenitásának fenntartása szükséges.

**which option**

No change

**regulation of ingredients****problem definition**

No

**explanations**

a tiltó jellegű szabályozásnak megfelelő tudományos alapokon kell nyugodnia, nem pedig szubjektív értékelésen. Az FCTC 9-10 cikkelyeinek vitái alapján is látszik, hogy egy nem átgondolt tiltó szabályozás dohánytermelők munkahelyeit veszélyezteti így Magyarországon 10000 ember megélhetését veszélyezteti.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

A túlzott szabályozás a feketekereskedelmet növeli és így a legális értékesítés csökkenésén keresztül a termelői érdekeket hátrányosan befolyásolja.

Rauchen wurde sowieso schon an allen öffentlichen Orten, Clubs, Cafes, Bars, Restaurants usw. verboten, im Prinzip darf ich nur noch Zuhause rauchen oder vor der Tür. Ich finde, damit wurde bereits genug in die Freiheit der Menschen eingegriffen. Ich kann in keinsten Weise nachvollziehen, warum jetzt auch noch ein Einheitsbrei in Sachen Geschmack, Verpackung usw. gekocht werden soll. Gegen die Bilder auf den Schächten, wie z. B. in der Schweiz ist meiner Meinung nach nichts einzuwenden. Warum aber alle Zigarettenautomaten abgeschafft werden sollen, ist unklar. Da man sich ja sowieso mit dem Ausweis/EC-Karte am Automaten identifizieren muss, dass man volljährig ist.

**explanations**

Schokolade macht dick. Entwirft man deshalb ein Gesetz, das den Herstellern vorschreibt, dass alle die gleiche Verpackung nehmen? Nein. Weil wir in einem Land leben, in dem Werbefreiheit gilt. Und aus diesem Grund, ist es nicht in Ordnung, Tabakkonzernen, die Verpackung vor zu schreiben.

**which option**

No change

**recommend option**

I don't know why you want to ban all forms of oral tobacco, which is less harmful than cigarettes.

**additional comments**

You should have rules on e-cigs and other stuff, but don't just ban stuff that is less harmful.

**questions smokeless****problem definition**

No

**comments**

Snus is not harmful - or not as harmful as cigs. You seem to say it is very harmful and that's not true.

**which option**

Lifting the ban on snus

**additional option**

Less harmful alternatives to cigs should be available to everyone and not just some people - like Swedes. You need to let all alternative products to be available for sales.

**questions consumer****problem definition**

No

**explanations**

Some of the stuff you want to get rid of =- like numbers - give info. And other things don't give info. The way you put the question is just wrong. And how would it help to have nothing on the pack - how can I make a choice then? There are differences between different cigarettes and I need to find this out somehow - like from information on the pack. Even if you take this away from me, I will not stop smoking - I will just keep trying different "generic" packs until I find one I like. This is just a stupid idea.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Everybody knows the tobacco is what is harmful - who cares about the ingredients they add? The tobacco will kill you anyway.

**which option**

No change

**regulation of ingredients****problem definition**

No

**explanations**

Again, it's the tobacco that is bad for you. I don't get how adding other ingredients can make it worse. Some cigs have no ingredients and they taste awful - British cigarettes. But are they better for you? No.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

I don't actually see any problem here. There are already huge restrictions - you know where you can buy cigs and you go there - you don't go there to look at displays but to buy what you already smoke.

Die Maßnahmen sind ungeeignet, um das Ziel zu erreichen.

**which option**  
No change

**recommend option**  
Die Regelungskompetenz der EU geht bereits viel zu weit, die überstaatliche Einmischung in Grundrechte der Bürger sollte beschnitten statt ausgedehnt werden!

**additional comments**  
Grundsätzlich besteht in dem Feld kein Handlungsbedarf. Das Recht auf freie Entfaltung der Persönlichkeit umfasst auch das Recht auf Selbstschädigung und unvernünftiges Verhalten. Das kann auch nicht deswegen eingeschränkt werden, weil die Kosten von der Allgemeinheit zu tragen sind - das sind sie bei z.B. Sportverletzungen (in Deutschland Kosten von ca. 5 Mrd./Jahr) auch und trotzdem gilt Sport als gesund und niemand käme auf die Idee, ihn zu verbieten.

**questions smokeless**  
**problem definition**  
No

**comments**  
Von den Produkten geht keine Gefahr aus.

**which option**  
Lifting the ban on snus

**additional option**  
Welches Problem???

**additional comments**  
Wie auf der vorigen Seite: Die EU sollte nur das regeln, was wirklich nötig ist und dabei möglichst wenig in die Grundrechte der Bürger eingreifen.

**questions consumer**  
**problem definition**  
No

**explanations**  
Kein Problem, kein Regelungsbedarf. Außerdem halte ich die Maßnahme für geschmacklos und wirkungslos.

**which option**

No change

**additional option**

Es gibt kein Problem.

**additional comments**

Wie auf der vorigen Seite: Die EU sollte nur das regeln, was wirklich nötig ist und dabei möglichst wenig in die Grundrechte der Bürger eingreifen.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**additional options**

Keine weiteren Maßnahmen nötig.

**additional comments**

Wie auf der vorigen Seite: Die EU sollte nur das regeln, was wirklich nötig ist und dabei möglichst wenig in die Grundrechte der Bürger eingreifen.

**regulation of ingredients****problem definition**

Yes

**which option**

No Change

**additional option**

Kein Kommentar.

**additional comments**

Wie auf der vorigen Seite: Die EU sollte nur das regeln, was wirklich nötig ist und dabei möglichst wenig in die Grundrechte der Bürger eingreifen.

**access to tobacco products****problem definition**

No

**explanations**

Es besteht kein Handlungsbedarf. Zigaretten sind legale Produkte, eine Zugangsbeschränkung ist nur lästig für den Verbraucher, aber letztlich wirkungslos.

**which option**

No change

**additional option**

Kein Kommentar.

**additional comments**

Wie auf der vorigen Seite: Die EU sollte nur das regeln, was wirklich nötig ist und dabei möglichst wenig in die Grundrechte der Bürger eingreifen.

ts wrong to place citizens under disability. Adults are self responsible for the own health. It the own decicion. Im tired that the governments want control more and more parts of our own private live!

**which option**

No change

**recommend option**

Would be better to Inform the Citizens about the risks. With Information on TV, Spots. Make sure that childs learn about drug risks (not only tobbaoco) in kindergardens and school. Prohibitions are not the right way.

No. Let the people be free. We, as citizens, do NOT want another socialist, marxist, communist, nationalsocialist or other form of dictatorship in Europe. And the EU ist on its way to cut away our freedom and to become yet another bureaucratic monster dictatorship. It is nothing about health and health costs, ist just about having something to do for those thousands of public workers who are overpaid and not useful for any kind of real work.

#### **explanations**

Ich will keine Einheitsverpackungen. Diese vorgeschlagene Regelung ist in meinen Augen der Vorbote der Gleichmacherei auch für andere evtl. gesundheitsgefährdende Produkte oder aller der EU nicht genehmen Produkte und gleicht einer Beformung. Die EU-Kommissare sollten ihre Kraft den wirklich wichtigen Dingen widmen, nämlich Armutsbekämpfung, Klimaschutz, soziale Gerechtigkeit, Terrorabwehr usw. usw.

**questions scope**

**problem definition**

No

**explanations**

The principles of subsidiarity is not being sufficiently recognised. Any regulation must be based on a.) competency for such regulation - which in this case is doubtful and b.) scientific evidence that regulation is beneficial (in this case to public health), which in many cases is doubtful as well.

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

Consumption of smokeless tobacco products by adults does not have any potential to be harmful to the health of others. EU commission does not present scientific evidence to support benefit of ban on smoke free tobacco products.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

There is no proof that health warnings work the better, the bigger they are. There is no additional information contained in pictorials. Awareness of possible negative health impact of smoking among citizens 100% under present conditions.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

If national authorities had difficulties in analysing, registering and comparing data, it would be their initiative. Since it is not, one must assume that national authorities judge the problem to be under control. Hence the matter should remain in national authorities' hand - principle of subsidiarity.

**which option**

No change

**regulation of ingredients****problem definition**

No

**explanations**

Problem definition is not based on scientific evidence. 'Attractiveness' is a very subjective criterion and not a scientifically objective.

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Cross-border sales possibly undermine national regulation initiatives. Some member states have banned internet sales of tobacco products, others have different regulations. Point on vending machines is obsolete: commission stated in Nov 2009 that there is no need for action (report on eu concil recommendation 2003/54/EC).

Es ist eine Frechheit diese Formulare nur in englisch bereit zu stellen. Noch besteht Europa aus einzelnen Ländern und nicht jeder ist des englischen mächtig. Da Politiker für die Menschen ihrer Länder da sind und nicht umgekehrt sollte es wohl möglich sein die Formulare in der jeweiligen Muttersprache vor zuhalten.

**explanations**  
Es ist nicht in Ordnung, die Vielfalt der Tabakprodukte in der Werbung, bzw. Verpackungsdarstellung, hier insbesondere auch der Zigarren und des Pfeifentabaks, mittels einer Einheitsverpackung zu beschneiden, bzw. einzuschränken. Ich halte es für ein Stück Ausdruckskultur, welches völlig unnötig per Gesetz beschnitten werden soll. Hier ist jeder Verbraucher selbst in der Lage zu beurteilen. Ich wehre mich entschieden gegen eine Bevormundung durch die Behörden. Im Zweifelsfalle wird es alternative Wege geben das zu umgehen!

**name**

Thomas Kramm

**email**

werbung-sam@bannispost.de

**country**

Deutschland

**questions scope****problem definition**

No

**explanations**

Es darf keine Einheitspackungen oder Präsentationsverbote geben. Der Bürger muss frei entscheiden können, ob er raucht oder nicht. Für viele gehört auch die Marke mit seinem Packungslayout zu einer grundlegenden Entscheidung. Das Rauchen sehr gesundheitsschädlich ist wissen auch die Raucher. Sie zahlen dafür einen hohen Preis bei den Zigaretten und auch bei den Krankenkassen. Mit der Tabaksteuer tragen Sie sehr für das Allgemeinwohl bei.

**which option**

No change

**recommend option**

Eine Ausweitung der bestehenden Richtlinien darf nicht stattfinden.

**questions smokeless****problem definition**

Yes

**which option**

No change

**additional option**

Es gibt bestimmte Erzeugnisse, die es nicht geben muss. Hier könnte man sicherlich Produkte wie snus verbieten. Auch andere Tabak- und Rauchwaren sollten auf die gesundheitlichen Probleme des Rauchens hinweisen. Hier wäre eine Ausweitung der Richtlinie angebracht. Grundsätzlich sollten die Inhaltsstoffe eines Produktes ausschlaggebend sein für seine Beurteilung.

**questions consumer****problem definition**

No

**explanations**

Die Informationen auf der Verpackung sollten alle Inhaltsstoffe sowie Herkunft des Tabaks enthalten. Der Warnhinweis "Rauchen gefährdet Ihre Gesundheit" sollte wegfallen. Die Raucher wissen selbst, das Rauchen gesundheitsschädlich ist. Abstoßende Bilder darf es nicht geben.

**which option**

No change

**additional option**

Verstärkt sollte man über die Gefahren des Rauchens in den Schulen berichten. Vorsorge ist immer noch am Besten. Auch Informationsabende für Eltern gehören dazu.

**questions on reporting****problem definition**

Yes

**which option**

No change

**additional options**

Die Informationen dürfen allerdings nicht einen großen Teil der Packung einnehmen.

**regulation of ingredients****problem definition**

Yes

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Der Zugang zu Tabakwaren ist heute schon sehr schwer. Eine weitere Erschwerung ist absolut unnötig. In einem Fachgeschäft möchte ich ein Produkt auswählen dürfen. Hierzu muss ich es auch sehen. Ein verstecken der Ware ist totaler Quatsch.

There is as much a problem with smoking as there was with jews, communists and moslems.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

There is as much a problem with smoking/tobacco as there has been with jews in the past and with moslems in the present. A certain minority doesn't like another minority, and with the help of a certain industry (in this case the pharma industry) convinces the majority that there is a big problem with that minority, and the more that minority is persecuted, the more the majority thinks that minority is a problem.

**additional comments**

Stop trying to transform 1/4 of the population in criminals. If you want to get popular among the majority, keep doing what you're doing. If you want to fight for more health in the EU, fight cars and planes.

**additional comments**

Active smoking is a personal option. It is good for the nerves but bad for the lungs. Chili is good agens "bad" bacteria in the boddy but bad becaus it destroys own cells too. Same for milk, sugar - you name it. Concerning passiv smoking: thare is no duality helthy-unhelthy, thare is only a duality 'very unhelthy vs little unhelthy'. Compare the relativ risk for passiv smoking and sitting (for colorectal cancer), for milk (lung cancer), and eeven with activ smoking and you'l see: the risk for passiv smoking is hardly statisticly significant, thus cant be considerd 'very unhelthy'. And the association of a consumption behavior with a certan deseese doesnt meen the loss of a single our of life expectancy - wy hasnt thare been a single studdy about the loss of life expectancy for passiv smoking? I'm quite sure: either such a studdy was made and nothing statisticly significant came out, so they hid the studdy, or they'v never done such a studdy becaus that is wat they feerd. If a person travels from 'Europe to Thailand, she's alone responsible for the transformation of 500 liters of kerosene in air poison. Only an obsesd antismoker would say that the 5 or 10 cigarettes smoked by a smoker in that flite (in the times ware smoking was stil alowd in flites) is worse than the burning of 500 liters of kerosene. Wy isnt the EU fitting areplanes? And cars? Just becaus it wouldnt be poppular as fitting smokers? I'v talkd to quite a few doctors so far. They either hav no idea of studdys about passiv smoking (except for saying "everybody knows it!") or thay give you links to studies that prove some unhelthiness of passive smoking. If you give relative risk numbers for other products and show them how small the numbers for passive smoking is, no answer comes except maybe "rubbish!".

mb11@online.de

**country**  
Deutschland

**age**  
39

**gender**

male

**questions scope****problem definition**

No

**explanations**

Ich sehe keine Problematik. Die Produkte sind legal und werden von Erwachsenen konsumiert. Dieser Konsum ist freiwillig und jeder hat die Freiheit sich über die Dinge, die er konsumiert zu informieren.

**which option**

No change

**recommend option**

Es müssen Informationen zu einem Produkt verfügbar sein, damit jeder in der Lage ist, sich dafür oder dagegen zu entscheiden. Aufklärung hlate ich für wichtig - keine Verbote.

**additional comments**

Aufklärung statt Bevormundung

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

Über ein solches Produkt muß die Bevölkerung aufgeklärt werden. Ein Verbot führt zu keiner Lösung. Ich bin für eine Freigabe, wie auch der Kautabak freigegeben ist. Eine detaillierte Produktbeschreibung mit den Vor.und Nachteilen halte ich aus dem Aspekt der Gesundheit und Entscheidungsfeiheit heraus für unabdingbar.

**questions consumer****problem definition**

No

**explanations**

Ich kann mir nicht vorstellen, dass Warnhinweise (egal wie groß und bunt) der Aufklärung über ein Produkt dienen. Es ist gut, dass es einen Warnhinweis gibt, jedoch ist es nachweislich so, dass in Ländern mit grafischen Warnhinweisen der Konsum in keiner Weise eingeschränkt wurde. Ich halte diese Vorgehensweise für nutzlos. Es macht vielmehr Sinn, Flyer in die Verpackung einzufügen in der detailliert über das Produkt und die Risiken geschrieben wird. Mit bunten Bildern erreicht man kein verantwortungsvolleres Umgehen mit einem risikoreichen Produkt.

**which option**

No change

**additional option**

Aufklärung in Wort und Schrift als Flyer in der Verpackungen sind nachhaltiger und detaillierter als Schreckensbilder, die eigentlich keinen interessieren.

**questions on reporting****problem definition**

No

**explanations**

Ich fühle mich als Konsument ausreichend über die Inhaltsstoffe informiert. Ich kann auf der Internetseite eines jeden Herstellers die Zusatzstoffe ansehen.

**which option**

No change

**additional options**

Jeder Hersteller sollte verpflichtet sein Inhaltsstoffe zu veröffentlichen. Die Art der Zusammensetzung sollte nicht öffentlich gemacht werden. Dies würde Fälschern eine minderwertige Kopie des Produktes zu erstellen undenkbar einfach machen.

**regulation of ingredients****problem definition**

No

**explanations**

Ich mag als Konsument die Vielfalt und möchte diese nicht durch Regulierungen eingeschränkt haben. Eine Aufklärung über die Inhaltsstoffe halte ich für wichtig, damit ich dann entscheiden kann, ob ich dieses Produkt möchte oder nicht.

**which option**

No Change

**additional option**

Mehr Informationen über den einzelnen Inhaltsstoff halte ich für wichtig. Die Entscheidung sollte nicht bei der EU, sondern beim Konsumenten liegen ein Produkt zu konsumieren.

**access to tobacco products****problem definition**

No

**explanations**

Es gibt bereits geltende Regelungen, die alles besagen, was für den gesundheitspolitischen Prozess sinnvoll ist. Es gilt nur diese bestehende Regelungen besser durchzusetzen. Es gibt die Auflagen für den Handel eine Altersverifizierung durchzuführen und ebenso wird diese im Automaten gewährleistet. Ich sehe keine Verbesserung der Situation mit schärferen Reglementierungen.

**which option**

No change

**questions scope**

**problem definition**

No

**explanations**

Eine Bevormundung der Tabakkonsumenten, wie in der letzten Zeit vorangetrieben, verstößt in größerem Umfang gegen die Grundsätze der Gleichbehandlung und freien Entscheidung. Es wird derzeit mit unlauteren Mitteln versucht, schon fast eine Art Verfolgung und Unterdrückung von Tabakkonsumenten voranzutreiben. Dagegen werden viel gefährlichere Drogen, wie zum Beispiel Alkohol, weiter verharmlost und teilweise sogar gefördert.

**which option**

No change

**recommend option**

Der Nichtraucherschutz bzw. die derzeitigen Warnungen vor den Gefahren des Rauchens reichen vollkommen aus.

Axel Lehmann

#### **email**

al@axel-lehmann.com

#### **country**

Deutschland

#### **age**

35

#### **gender**

male

### **questions scope**

#### **problem definition**

No

### **explanations**

Die Diskussion geht komplett am Problembereich vorbei. Gesundheitspolitisch sinnvoll wäre die Eindämmung von unkontrollierter Schmuggelware. Zudem werden Genussraucher durch die aktuellen politischen Entscheidungen dazu gedrängt, sich immer weniger über die Produkte zu informieren und immer billiger zu konsumieren. Umso hochwertiger die Tabakwaren sind, um so weniger werden gesundheitsgefährdende Aromastoffe und minderwertige Rohstoffe dem Endprodukt beigemischt. Es sind diese politischen Entscheidungen, die für Raucher tödlich werden. Der aufgeklärte Bürger wird sich auch in Zukunft nicht von der Politik gängeln lassen und Auswege finden - mit unbekanntem Ausgang.

### **which option**

No change

### **recommend option**

Eindämmung nicht kontrollierter Schmuggelware auf die europäischen Binnenmärkte. Mehr Informationsmöglichkeiten (Literatur, Beratung in Tabakgeschäften, Presse, Online) für Bürger, sowohl über einzelne Tabakprodukte als auch über die Möglichkeiten, mit dem Rauchen aufzuhören. Verringerung der Steuerbelastung um Steuerflucht in unkontrollierte Bereiche zu vermeiden. Auf keinen Fall Plain Packing, da der Raucher dann nicht mehr zwischen Original und Fälschung unterscheiden kann. Keine bildlichen Warnhinweise, da der Raucher sich über die Gefahren des Tabakkonsums bewusst ist. Bildliche Warnhinweise würden nur durch Nutzung von Zigarettenetuisß, Aufklebern und Überziehkartons umgangen

oder gerade von Jugendlichen als "Sammelbilder" genutzt; wie dies auch schon bei den derzeitigen Warnhinweisen der Fall war. Kein Raucher nimmt diese Warnhinweise ernst.

#### **additional comments**

Die vorgeschlagenen Änderungen werden gesundheitspolitisch zum Fiasko werden. Diese Politik ist tödlich. Tabakwarenhändler, die den Kunden beraten können, werden sich nicht mehr am Markt halten können. In der Industrie werden Arbeitsplätze verloren gehen. Im Ergebnis werden diese Änderungen folgendes bewirken: - Wegbrechen von Steuereinnahmen - Zunahme von Schmuggel. - Unkontrollierte Gesundheitsfolgen. - Verlust von Arbeitsplätzen in der Industrie und im Handel. - Begünstigung von alternativen Genuss- und Suchtprodukten (Alkohol, weiche Drogen, Arznei)

#### **questions smokeless**

##### **problem definition**

No

##### **comments**

kulturelle Unterschiede und auch unterschiedliche Bräuche sollten in der EU bestehen bleiben dürfen. Es kann nicht sein, dass alle Bürger in der EU gleich gemacht werden sollen. Es gibt genügend Studien, die Snus auch positive Eigenschaften anerkennen.

##### **which option**

Lifting the ban on snus

#### **questions consumer**

##### **problem definition**

No

##### **explanations**

Genussraucher interessieren sich nicht für die Warnhinweise. Auch jüngste Umfragen bestätigen, dass bildliche Warnhinweise für den Verbraucher völlig uninteressant sind. Die Diskussion geht an der Realität gänzlich vorbei.

##### **which option**

No change

##### **additional option**

Verringerung der Steuerbelastung. Bessere Beratung in Tabakfachgeschäften. Stärkung der additivfreien Zigaretten und Feinschnittsorten. Begrenzung der Billigprodukte, die mangelhafte Rohstoffe verwenden. Förderung von Genussrauchen - statt Suchtverhalten.

#### **questions on reporting**

##### **problem definition**

Yes

##### **which option**

No change

##### **additional options**

Diese Meldemechanismen überfordern insbesondere die kleinen Hersteller von hochwertigen

Genussprodukten. Viele Hersteller von Zigarren und Pfeifentabak werden diese Auflagen finanziell und technisch nicht erbringen können. Folge wäre eine Marktkonzentration, und eine Zunahme, genau der Produkte, die eigentlich nicht gewünscht ist. Der Zigarren und Pfeifenmarkt würde noch stärker zurück gehen, die Zigaretten- und Feinschnittindustrie würde hierdurch gewinnen. Letztendlich würden Genussraucher zu Suchtrauchern.

#### **additional comments**

Es wäre am sinnvollsten, wenn sich die EU mal mit einfachen Tabakhändlern unterhalten würde, damit sie mal einen Bezug zum wirklichen Leben erhalten. Alle hier gemachten Vorschläge sind nicht durchdacht und werden in der Praxis genau ins Gegenteil umschlagen. Holen Sie sich Hilfe von Experten.

#### **regulation of ingredients**

##### **problem definition**

No

##### **explanations**

Eine Änderung würde Konzentrationsprozessen in der Industrie zugute kommen. Dann gibt es in der EU demnächst nur noch Marlboro, Camel, JPS und noch fünf weitere Marken. Gerade im Bereich der Genussprodukte Zigarre, Zigarillo und Pfeife würde dies zu vernichtenden Ergebnissen führen.

##### **which option**

No Change

#### **access to tobacco products**

##### **problem definition**

No

##### **explanations**

Die Ansätze erfassen die Problemsituation nicht und sind kontraproduktiv.

##### **which option**

No change

#### **additional option**

Die derzeitigen Regelungen sind vollkommen ausreichend. Eine weitere Beschränkung würde nur dem Vertrieb von Tabakprodukten aus grauen Kanälen und den Zulauf von Tabakwaren ausserhalb der EU begünstigen. Die Folgen der Prohibition sind bekannt. Hier werden ähnliche Fehler begangen und der Bogen überspannt. Es wird gegenteiliges erreicht werden, um so mehr reguliert wird. Den Kunden würde die Möglichkeit genommen, sich im Geschäft oder im Internet über die Produkte zu informieren. Zigarettenautomaten besitzen bereits die Altersüberprüfung.

**questions scope**

**problem definition**

No

**explanations**

I do not agree fully with the scope of the problem definition and also with the leading questions.

**which option**

No change

**recommend option**

The scope of the Directive should not be extended but the measures have to be changed to be effective.

**additional comments**

Stichhaltige wissenschaftliche Nachweise für die Wirksamkeit von Plain Packaging bestehen nicht. Verschiedene Länder haben eine Einführung von Plain Packaging erwogen, es dann aber wegen fehlender wissenschaftlicher Nachweise wieder verworfen, zum Beispiel Kanada und Litauen. Plain Packaging bedeutet eine illegale staatliche Enteignung von Markenrechten. Eine Umsetzung in deutsches Recht würde gegen einige verfassungsrechtlich gewährleisteten Grundrechte verstoßen - darunter Artikel 14 GG (Eigentumsgarantie), Artikel 12 GG (Berufsfreiheit) und Artikel 5 GG (Meinungsäußerungsfreiheit). Plain packaging verstößt außerdem gegen Artikel 34 AEUV (Warenverkehrsfreiheit). Zudem würde bei Plain Packaging, durch das Fehlen anderer Möglichkeiten zur Unterscheidung, zunehmend der Wettbewerb über den Preis laufen. Wenn Tabakprodukte billiger werden, steigt der Konsum. Der Jugend- und Gesundheitsschutz wird so unterlaufen. Darüber hinaus wird es Plain Packaging der organisierten Kriminalität viel einfacher machen, Packungen zu imitieren und so dem illegalen Handel Tür und Tor öffnen. Beispiele für plain Packaging finden sich in der Praxis zum Beispiel beim Drogenverkauf auf der Strasse. Dem Tabakkonsum würde somit ein illegales Image gegeben, das - siehe Auswirkungen der Alkoholprohibition in USA - zu Kriminalität verleitet und den Konsum tendenziell sogar anheben könnte.

**questions smokeless****problem definition**

Yes

**which option**

No change

**additional option**

Ein grundsätzliches Verbot von smokeless tobacco products ist wissenschaftlich nicht fundiert und daher nach derzeitigem Wissensstand nicht gerechtfertigt. Es lässt sich ua nachweisen, dass suchtgefährdete Personen in der Regel nach einem Entzug ihr Suchtverhalten weiter fortsetzen und durch andere Suchtmittel ersetzen.

**questions consumer****problem definition**

No

**explanations**

Die vorgeschlagenen Größen für die Warnhinweise wären gleichbedeutend mit Plain Packaging (s. unten). Den Herstellern bliebe kein Platz mehr für ihre Logos bzw. für die

Kommunikation mit dem Verbraucher. Es gibt keinen überzeugenden Beleg dafür, dass ein Warnhinweis umso wirksamer ist, je größer sein Format ist oder je näher er sich an der Packungsoberseite befindet. Zudem existiert bereits ein allgemeines Bewusstsein der Risiken des Rauchens. Ein Hinzufügen von Bildern auf den Warnhinweisen erhöht dieses Bewusstsein nicht – die Bilder wirken lediglich überwiegend abstoßend ohne eine zusätzliche Information zu bieten. In Großbritannien haben zwei Jahre nach Einführung der Bildwarnhinweise die Versuche, mit dem Rauchen aufzuhören, signifikant abgenommen. Laut Eurobarometer versuchten dort im Jahre 2009, verglichen mit 2006, 14 Prozent weniger Raucher das Rauchen aufzugeben. Ähnliche Beobachtungen konnten in Belgien gemacht werden. Dort nahm die Verbreitung des Rauchens nach Einführung von Bildwarnhinweisen sogar zu.

**which option**

No change

**additional option**

Die Warnhinweise führen bei vielen Konsumenten zu Protesthaltung und sind daher kontraproduktiv. Wenn der Tabakkonsum wirklich derart volkswirtschaftlich schädlich ist, dann sollten die Staaten die extrem hohen Tabaksteuern zweckgebunden für Aufklärungsarbeit (zB in Schulen, Medien etc.) verwenden. Dies erscheint gesundheitspolitisch wesentlich effektiver als später allfällige Krankheitskosten zu tragen. Die Warnhinweise sollten auf normales, gut lesbares Ausmaß reduziert werden.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**additional options**

Zigaretten mit und ohne Zusatzstoffe sind gleichermaßen schädlich für die Gesundheit. Raucher sollten nicht in die Irre geführt werden durch derartige diskriminierende Regulierungsvorschläge. trotzdem bin ich dafür, Zusatzstoffe anzuführen. es sollte jedem persönlich möglich sein, bestimmte Stoffe identifizieren zu können und in persönlicher Entscheidung zu meiden.

**regulation of ingredients**

**problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a negative common list of tobacco ingredients

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;

Access to vending machines to be restricted to adults

**additional option**

Ein Werbe- und Präsentationsverbot für bzw. von Tabakwaren würde den Binnenmarkt nicht verbessern und es fehlen stichhaltige wissenschaftliche Nachweise für die Wirksamkeit. Daher fehlt der EU Kommission die Grundlage, um eine dermaßen unverhältnismäßige und diskriminierende Maßnahme in die Tabak-Produkt-Richtlinie aufzunehmen. Nach einer Studie des Institute of Economic Affairs hat das Verbot der Produktpräsentation in Kanada nicht zu einem Rückgang des Konsums geführt. Stattdessen hat der Verkauf illegal gehandelter Produkte zugenommen. Und auch dieses Verbot verstieße gegen elementare Rechtsgrundsätze: Gegen Artikel 34 AEUV (Warenverkehrsfreiheit) sowie gegen die verfassungsrechtlich gewährleisteten Grundrechte nach Artikel 12 (Berufsfreiheit) und Artikel 5 (Meinungsäußerungsfreiheit) des Grundgesetzes. Ein Präsentationsverbot wird den innergemeinschaftlichen Handel nicht fördern, sondern behindern. Das wiederum widerspricht der grundlegenden Zielsetzung der Tabakprodukt-Richtlinie. Selbst der RAND-Report räumt ein, dass ein solches Verbot „erhebliche wirtschaftliche Auswirkungen auf den Einzelhandel haben würde“. Der BTWE geht derzeit von 100.000 betroffenen Verkaufsstellen aus, wovon 7.500 in der Existenz bedroht wären und damit 20.000 Arbeitsplätze gefährdet. Überdies würde auch das Präsentationsverbot den illegalen Handel fördern: Entfernt man Tabakerzeugnisse völlig aus dem Blickfeld, wird es für Konsumenten schwierig, den Unterschied zwischen Originalprodukten und geschmuggelter beziehungsweise gefälschter Ware festzustellen. Darüber hinaus wird der Tabakkonsum in die Ecke der Kriminalität gedrängt (siehe Anmerkungen zu Plain Packaging: Gibt es in der Praxis bei Strassenhandel von Drogen. Ist auch aus Zeiten der Alkohol-Prohibition in USA bekannt.). Solange der Konsum von der EU nicht explizit verboten ist, sollte die informierende Werbung nicht verboten werden.

white boxes for cigarettes is ok. but NOT for cigars!

**additional comments**  
it is ridiculous to think that unique boxings and packages for cigars especially (not for cigarettes...) would help in any form to prevent smoking related cancers or anything else. Packages of cigars especially are very unique and belong to the enjoyment of cigar smoking. Kids don't smoke cigars. Adults can decide themselves what to buy, smoke or do else. Stop regulating my life!! It's my own decision, not yours!

**access to tobacco products****problem definition**

No

**explanations**

Ein großer Teil des Zigaretten-Umsatzes in Berlin und den neuen Bundesländern wird nicht über den geregelten Ladenverkauf sondern illegal über den Schwarzmarkt (Vietnamesen) getätigt. Diese Schwarzmarkt hat zum großen Teil Mafia ähnliche Strukturen und konnte bis heute durch Zoll und Polizei nicht abgestellt werden! Eine Behinderung der offiziellen Verkaufswege würde insbesondere diese Mafia-Strukturen stärken. Insgesamt würde der Zigarettenkonsum also kaum sinken. Den Entscheidern in der EU möchte ich hier nur die Dokumentation über die Prohibition in den USA zu Ansicht empfehlen (ist im TV-Sender Pheonix ausgestrahlt worden).

**explanations**

2 directions à poursuivre: 1. tous les produits du tabac, y compris ceux qui ne se fument pas 2. tous les produits qui se fument, incluant d'autres substances que le tabac, jusqu'au cannabis

**which option**

Extend the scope of the Directive

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional option**

Si des produits comme le snus sont légalement vendus dans certains pays de l'UE, ils devraient l'être dans l'ensemble de la communauté

**questions consumer****problem definition**

No

**explanations**

Cette action vise davantage à censurer et sanctionner l'industrie du tabac que mieux informer les consommateurs. Or tout le monde sait maintenant que le tabac est dangereux pour la santé.

**which option**

No change

**questions on reporting****problem definition**

No

**explanations**

Je n'y peux rien si Sanco n'arrive pas à mettre les Etats-Membres d'accord entre eux

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

Là aussi, la question est de mettre les Etats-Membres d'accord entre eux. Si les analyses de toxicité des ingrédients donnent des résultats clairs, ça ne devrait pas être trop difficile à faire. Etablir une liste positive me semble impossible.

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a negative common list of tobacco ingredients

**access to tobacco products****problem definition**

No

**explanations**

Toutes ces propositions sont contre-productives et ne font que rendre les conditions économiques des détaillants plus difficiles. D'autre part, lorsqu'un système de license est en

place comme en France, les choses sont claires, on sait de l'extérieur si un endroit vend du tabac ou pas. Etendez donc le système de license à tous les pays de l'UE.

**questions scope  
problem definition**  
No

**explanations**  
Wenn sich der Tabakmarkt diversifiziert hat, dann doch eben durch die restriktive

Gesetzgebung der EU und der Mitgliedsstaaten. Es gibt schlicht kein ernsthaftes Problem, welches unter der Subsidiaritätsklausel Änderungen an der Richtlinie zulassen oder gar bedingen würde.

**which option**

No change

**recommend option**

Am Besten für den gemeinsamen Raum der Freiheit und des Rechts wäre es natürlich, die Richtlinie aufzuheben oder massiv einzuschränken.

**questions smokeless**

**problem definition**

No

**comments**

Diese Problembeschreibung lässt jede ernsthafte Auseinandersetzung mit dem Thema vermissen, eine Fussnote auf eine Meinungskundgebung ist wohl kaum seriös. Wenn die EU und viele Mitgliedsstaaten schon gegen Passivrauch kämpfen, sollte das effektivste Mittel, diesen effektiv einzuschränken, zugelassen werden - nämlich smokeless tobacco.

**which option**

Lifting the ban on snus

**additional option**

Im Interesse des Binnenmarktes ist das Verbot von Snus nicht nur aufzuheben, sondern dessen Verbreitung in Übereinstimmung mit den bewährten Prinzipien (Cassis-de-Dijon) sicherzustellen.

**questions consumer**

**problem definition**

No

**explanations**

Die angebliche Problembeschreibung zeigt ein abstossendes Menschenbild. Wenn die Kommission der Auffassung ist, alle knapp 500 Millionen der Einwohner der EU sind so dumm, dass sie ausdrücklichere Hinweise darauf brauchen, dass Rauchen schädlich ist, ist das europäische Projekt wohl endgültig gescheitert. Es geht hier schlicht um blossen, dumpfen Aktionismus.

**which option**

No change

**additional option**

Die vorgegebenen Antwortmöglichkeiten zeigen schon die protototalitäre Ideologie - es gibt m.E. keinerlei belastbare Hinweise darauf, dass die bisherigen Massnahmen hinsichtlich hoheitlich vorgegebenen Packungsdesigns irgendwelche Auswirkungen haben. Diese sind demnach zurückzunehmen bzw. zumindest den Mitgliedsstaaten zu überlassen.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**additional options**

Verbunden mit einem effektiven Schutz - siehe Problemdefinition - der Geschäftsgeheimnisse der Wirtschaft.

**regulation of ingredients****problem definition**

No

**explanations**

Das ist kein Problem, sondern Föderalismus

**which option**

No Change

**access to tobacco products****problem definition**

No

**explanations**

Das Problem besteht doch hier eher darin, dass einzelne Mitgliedsstaaten unter dem Vorwand eines vermeintlichen Gesundheitsschutzes den Binnenmarkt unterminieren.

**which option**

No change

**additional option**

Im Gegenteil ist die Kommission aufgerufen, gegen die angegebenen massiven Verletzungen der Warenverkehrsfreiheit vorzugehen.

**explanations**

Die Regulierungen sind bereits umfassend und mehr als ausreichend. Man sollte dem Bürger auch seine Entscheidungsfreiheit lassen.

**which option**

No change

**recommend option**

Lassen Sie die Gesellschaft und den Markt entscheiden. Die bereits bestehenden Regularien sind Bevormundung genug.

**questions smokeless****problem definition**

No

**comments**

Es gibt kein wirkliches Problem. Die Gesetzgebung zum Jugend- und Nichtraucherschutz sind bei entsprechender Beachtung mehr als hinreichend um diese Gruppen zu schützen. Alles was darüber hinaus geht, sind ungerechtfertigte Eingriffe in die persönlichen Freiheitsrechte und in einen sich sehr gut selbst regulierenden Markt.

**which option**

No change

**additional option**

Man sollte aufhören die Raucher einerseits durch stetig steigende Steuern zu melken und sie andererseits permanent stärker zu diskriminieren. Der Blick der Politik sollte geschärft werden für andere Risikogruppen, die Volkswirtschaftlich deutlich schädlicher sind und die steuertechnisch sehr viel weniger zu den Staatshaushalten beitragen.

**additional comments**

Die politik sollte sich um die wirklich wichtigen Belange der Menschen kümmern, dann wären Vorkommnisse wie in Stuttgart oder Gorleben nicht notwendig. Die Menschen sollten mehr Mitentscheidungsmöglichkeiten haben. Dann wäre auch die Politikverdrossenheit deutlich geringer. Wie das wirklich gesehen wird, beweist auch diese Befragung. Der Level zur Teilnahme ist erstens durch die verwendete Sprache höher gelegt. Warum steht dieser Fragebogen nicht jedem Menschen in seiner Muttersprache zur Verfügung? Zweitens ist diese Möglichkeit, seine Meinung zu äußern, fast eine Geheimsache, da es nicht wirklich öffentlich gemacht wird, daß man an dieser Stelle seine Meinung sagen kann. Erst der Hinweis durch Interessengruppen hat vielleicht einige Menschen zu dieser Seite geführt.

**questions consumer****problem definition**

No

**explanations**

Wei bereits ausreichend informiert wird.

**which option**

No change

**questions scope****problem definition**

No

**explanations**

To smoke tobacco or not is a deliberate descicion. The only purpose of a government is to protect its citizens from one another. If it does more, it starts protecting the people from themselves. Now tell me: Which right gives a EU-Burocrat to determine my private life? Smoking must be banned below 18, because children aren't master of themselves. But whatever adults do is their own responsibility. So every matter to forbid them or making it harder to use their own right to harm themselves is dictatorial! Every man has a right to live healthy, but he has not the duty to do so!

**which option**

No change

**recommend option**

Give the people a choice. Smoking is legal and it must be legal to do it among others, too. There's no lsocial reason why specific smoking bars or cigar lounges were closed for non smoker protection. No body had forced non smokers into that bars or lounges!

**questions smokeless****problem definition**

No

**comments**

Its a free choice. No government has the right to determin the live of a free citizen. If he wants to harm himself, it must be his right to do so!

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

smoking is a free choice, everyone knows that smoking is harmful.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

free choice, baby! You don't have a right to interfere with my private live!

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Free choice! The EU has no right to impose anything that matters into the private live of free people!

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

It is already banned unter 18, and that's at that's needed. Adults have a choice and have their own responsibility!

Die Problembeschreibung unterscheidet nicht zwischen Zigaretten und Zigarren. Während Zigaretten häufig nur durch die Gestaltung der Verpackung zu unterscheiden sind, ist es bei Zigarren wichtig, durch die Verpackung Informationen über Herkunft und Qualität des Inhalts zu erhalten. Eine Flasche Rotwein kann ja auch Bordeaux oder Beaujolais enthalten. Darüberhinaus ist der Wettbewerb nicht behindert. Der Konsument ist mündig genug, sich entsprechend der lokal gültigen Normen zu orientieren.

**which option**

No change

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

**questions scope****problem definition**

No

**explanations**

Die geplanten Maßnahmen der EU-Kommission sind wirkungslos. Sie bevormunden den Verbraucher und treiben Tabakwaren in die Illegalität. Außerdem fallen den viele Jobs in Einzelhandel, Tabakindustrie und Werbeindustrie weg.

**which option**

No change

**recommend option**

Die momentanen Denunziationen gegenüber der Tabakindustrie sind schon schlimm genug. Man sollte es beim aktuellen Stand belassen oder die Sanktionen sogar zurücknehmen.

**additional comments**

Die EU-Kommissionen sollten sich eher Gedanken darum machen, wie man Arbeitsplätze schaffen kann, nicht, wie man sie vernichtet. Außerdem sollte die ständige Bevormundung der Bürger aufhören. Nicht nur in diesem Bereich. Was das europäische Volk jetzt braucht, sind Entscheidungen mit gesundem Menschenverstand und nicht sinnlose Sanktionen und Verbote gegen bestimmte Industriezweige.

**questions smokeless****problem definition**

No

**comments**

Es ist schon absolut richtig, gerade junge Menschen dazu zu bringen, nicht mit dem Rauchen anzufangen, aber nicht durch Verbote und Gängelungen des mündigen Bürgers. Hier ist

Aufklärungsarbeit gefragt! Es wäre zum Beispiel viel sinnvoller, Spots im Fernsehen zu schalten, die Jugendliche (und natürlich Erwachsene) auf die Gefahren des Rauchens hinweisen.

**which option**

Lifting the ban on snus

**additional option**

Wie schon oben geschrieben: Aufklärung statt Denunziation, Gängelung und Arbeitsplatzvernichtung!

**additional comments**

In Brüssel sollten viele Entscheidungen besser durchdacht und abgewogen werden. Auch der Bürger sollte besser eingebunden werden, da er ja derjenige ist, der mit all den Gesetzen und Erlassen leben muss. Gerade beim Thema Tabak sieht man wieder einmal, wie realitätsfern in Brüssel gearbeitet wird.

**questions consumer  
problem definition**

No

**explanations**

Stoppt die Arbeitsplatzvernichtung und lässt den Bürgern wenigstens die Freiheit, selbst über ihr Leben zu bestimmen!

**which option**

No change

**additional option**

Ein Raucher wird nicht mit dem Rauchen aufhören, weil die EU die Verpackungen mit Warnhinweisen zukleistert. Rauchen ist eine Sucht, die ärztlich behandelt werden muss.

**additional comments**

Es wäre viel effektiver, dem Raucher eine kostenlose Möglichkeit zu bieten, seine Sucht therapieren zu lassen. Viele würden das Angebot annehmen.

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**additional options**

Es ist richtig, die Inhaltsstoffe auf der Verpackung anzugeben, wie bei Lebensmittel auch, damit man weiß, was drin ist.

**additional comments**

Nein.

**regulation of ingredients****problem definition**

No

**explanations**

Es ist absolut sinnlos, die Tabakwaren alle gleich schmecken zu lassen. Daraus ergibt sich für niemanden ein Vorteil.

**which option**

No Change

**additional option**

Alles beim Alten lassen.

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale

**additional option**

So, wie es jetzt ist, ist es gut.

**explanations**

Bei den Marktsegmenten ENDS und Kräuterzigaretten von Binnenmarktverzerrung zu reden ist angesichts des Volumens eine Verhöhnung des Begriffes. Und bei eben diesem Marktvolumen ein VERSAGEN (!! eines hohen Gesundheitsschutzniveaus in der EU zu befürchten ist eine erhebliche Überreaktion, die „Brüsseler Regulierungswut“ als Vorurteil bestätigt.

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

Wie richtig dargestellt ist SCENIHR nur eine Stellungnahme und keine wissenschaftliche Untersuchung. Die schwedische Regierung hat Bedenken dieser Art beim Gebrauch von Snus nicht vorgetragen.

**which option**

Lifting the ban on snus

**additional option****additional comments**

Aus meiner Erfahrung heraus ist oraler Tabakgenuss durchaus dazu geeignet, den Ausstieg aus dem Zigarettenkonsum zu erleichtern. Außerdem ist mir KEIN Fall bekannt, bei dem ein Kautabakkonsument das zigarettenrauchen angefangen hätte. Ich haben in all den Jahren nur den umgedrehten weg erlebt. Das gilt übrigens auch für das Schnupfen.

**questions consumer  
problem definition**

No

**explanations**

Hier wird wieder durch eine bewusste Übertreibung ein sachlicher Untergrund für die Harmonisierung vorgetäuscht. Unterschiedliche Etikettierungen haben mitnichten Auswirkungen auf den Binnenmarkt!! Welcher Spruch in welcher Sprache auf einer Packung zu finden ist, interessiert den Konsumenten grundsätzlich kaum (nur interessierte Nichtraucher) – ganz gewiss nicht, wenn er der Sprache des entsprechenden Landes nicht mächtig ist. Das ist in den meisten Fällen so! Nur die unterschiedlichen Steuern verzerren den Binnenmarkt. Das ist sicherlich allen bewusst. Also dient der Hinweis nur als polemisches Beiwerk. Das Raucherbewusstsein hat sich an die Aufdrucke genauso gewöhnt wie an Störgeräusche im Alltag. Das ist normales Verhalten. „Tabakverpackungen und Produktmerkmale werden zunehmend zum Anlocken von Verbrauchern sowie als Förderung für den Verkauf der Produkte und für das Marken-Image eingesetzt.“ Diese Feststellung zeugt von erschreckender Ignoranz. Tabakverpackungen und Produktmerkmale werden seit der Einführung der Zigarette in der Industriegesellschaft zur „Förderung des Verkaufes“ eingesetzt – wie bei allen Produkten. Da ist nichts „zunehmend“ - allenfalls anders (Die Bildchen aus der Kaiserzeit oder der Adenauerära sprechen einfach niemanden mehr an.) Es war Wunsch der Gesundheitsbeauftragten, Zigaretten mit weniger Nikotin und Teerstoffen herzustellen. Die sind dann schon vor Jahrzehnten (nicht erst jetzt) mit den inzwischen verbotenen Begriffen wie „leicht“ und „mild“ auf den Markt gebracht worden. Dabei hat man natürlich diese Sorten auch gestalterisch abheben müssen von den „kräftigen“ Marken. Das hat der Verbraucher in 30 – 40 Jahren „gelernt“ . Die verbleibende Restfläche auf deutschen Zigarettenschachteln ist mitnichten geeignet, „Vorstellungen von Glamour, Luxus und Freiheit heraufzubeschwören“. Die Warnhinweise lenken durch ihre eigene Penetrierung über Gewöhnung von sich ab.

**which option**

No change

**additional comments**

Vermutlich ist es richtig, dass die Verbraucher die von den „EG-Gesundheitsministern“ geforderten Werte-Angaben auf den Schachteln unzureichend interpretiert werden. Aber warum stehen sie dann da? „Einige Verbraucher könnten sich sogar dazu entschließen, lieber zu rauchen oder ihren Verbrauch an Zigaretten mit niedrigeren Gehaltswerten an Teer, Nikotin und Kohlenmonoxid zu steigern, anstatt aufzuhören.“ Dieser Absatz ist eine Beleidigung der europäischen Bürger! Es zeigt ganz klar die Grundhaltung der Eurokraten (aber auch vieler Landespolitiker) gegenüber dem einzelnen Bürger: Er ist zu dumm, selber zu entscheiden, wir müssen für ihn sorgen, ihn vor sich selber schützen! Aus dem Grund fängt doch kein Mensch das Rauchen an! Hier zeigt sich die hochmütigen Arroganz der gesamten Antiraucheraktion. „Alte“ Studien zum Wasserpfeifen rauchen gibt es nicht und welche neueren sollen es den sein, wie belastbar sind sie. Ich kenne aus der Praxis keinen Konsumenten, der Rauchen im allgemeinen und Wasserpfeifenrauchen im besonderen für unbedenklich hält. Seien Sie versichert, unappetitliche Bildchen helfen nicht, da wird dann halt in Etais umgepackt. Bei generischen Verpackungen werden die Verbraucher sich auf weniger, vermutlich stärkere Zigarettensorten konzentrieren, eine Präsentation wäre überflüssig. Das führt zu Zuläufen jetzt schon starker Marken und leistet einer quasi Monopolisierung Vorschub. Die hier immer wieder ins Feld geführte Binnenmarktverzerrung

wird dabei dann tatsächlich gegeben sein.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**additional comments**

Die Option 3 zeigt, wie bewusst ein großer operativer Aufwand getrieben werden soll, um die Produktion zu verteuern. Hier wird mit „Kanonen auf Spatzen geschossen“.

**regulation of ingredients**

**problem definition**

Yes

**which option**

Introducing the basic criteria on the EU level without a common list

**access to tobacco products**

**problem definition**

Yes

**which option**

No change

**additional comments**

Die Optionen 2a und 2b sind in Deutschland schon verwirklicht und Zigarettenautomaten stellen in anderen EU-Ländern keinen bedeutenden Faktor dar. Bei Option 2c stellt sich die Frage, was unter EINER Marke verstanden wird. Wenn das bedeutet, dass z.B. bei „Marlboro“ nur noch eine Schachtel im charakteristischen „Rot“ im Regal stehen darf, keine anderen Ausprägungen (lang, ohne Filter, anderer Geschmack, Menthol, u. s. w.) dann käme das einer Marken-Enteignung gleich. Unabhängig von den rechtlichen Fragen, was soll das bewirken?? Dieses arrogante Vorgehen gegenüber dem doch mündigen Verbraucher wird weiteren Widerstand hervorrufen und ist nett formuliert „nicht zielführend“. Option 3ff: Wollen Sie ernsthaft alle Pakete auf Tabakprodukte überprüfen? oder wie soll ein Verbot des Tabakversandes durchgesetzt werden? Bei einem Verbot von Verkaufsförderungen, wie sollen das veränderte Produkte mit gesundheitlich günstigeren Rezepturen im Markt etabliert werden? Totalverbot?? - danach der Alkohol und dann das Fett und alle auf den Turnplatz???

No

**explanations**

There is no need for further restrictions on free citizens as already existing

**which option**

Extend the scope of the Directive

**recommend option**

There is no problem. Stop this kind of regulation!

**additional comments**

EU Commission should concentrate on real problems such as combatting poverty, free trade and so on. Not on private habits such as smoking. Next would be regulation on nutrition, sports, sex, religion - what else?

**questions smokeless****problem definition**

No

**comments**

Totally nonsense

**which option**

Lifting the ban on snus

**additional option**

as I said, it's totally nonsense to discuss this issue further

**additional comments**

see above

**questions consumer****problem definition**

No

**explanations**

Free human beings should decide on their own what's good or not

**which option**

Improve consumer information

**which improvement**

Tar, nicotine and carbon monoxide levels to be replaced with general information on harmful substances in tobacco products

**additional option**

Let free people decide what they want or not !

**additional comments**

See above

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

Yes

**which option**

Establish a common list of tobacco ingredients

**which one**

Establish a negative common list of tobacco ingredients

**access to tobacco products****problem definition**

No

**explanations**

There is enough protection in place. I do not see any benefit from increasing measures.

Wenn Eiropa so weiter verbietet, werden wir bald alle in Uniformen gekleidet sein, furchtbar gesund sein und ein absolut langweiliges gleichgeschaltetes Leben führen müssen. Warum verbietet Europa nicht die Hunde? Die sind gesundheitsschädlicher als Passivrauchen. Oder das Skifahren? Europa soll sich gefälligst aus den Vorlieben, den Wünschen, den Gewohnheiten und den legalen Suchten seiner Bürger heraushalten. Ich erlaube dem Staat nicht in mein Privatleben hineinzuregieren. Wenn er es doch tut, werde ich mit zivilem Ungehorsam und Staatsberweigerung reagieren.

**questions scope**

**problem definition**

No

**explanations**

Changing the guidelines for legal products in a harsh way like it has been proposed can't be justified in a "Free Europe", where a market economy exists. Either the product tobacco will be declared illegal, or all tobacco products should be treated like any other goods. A text - or graphic warning on the package may be alright, as long similar warnings will be applied to other unhealthy products, like alcohol and fat food.

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

A smokeless tobacco product offers an alternative that doesn't harm innocent people (no passive smoking anymore)

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Plain packaging is no method that should be used in a free market economy. Improving the customer information, though, can lead to a more reasonable way to deal with smoking

**which option**

Improve consumer information

**which improvement**

Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package

**questions on reporting**

**problem definition**

No

**explanations**

The flavour and additions to cigarettes distinguish brands from each other. A common cigarette without any additions comes close to a "communism - standard - cigarette"

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

Different additions provide different brands, and are therefore a good addition to a free market economy

**additional option**  
Freizügigkeit für Waren ist wichtig. Was in einem Mitgliedsland hergestellt wird, sollte in den anderen Ländern auch erhältlich sein.

**questions consumer**  
**problem definition**  
No

**explanations**  
In meinem Umfeld ist jeder Raucher und Nichtraucher über die gesundheitlichen Gefahren des Rauchens informiert. Unabhängig von der Farbe, Größe und Gestaltung der Warnhinweise. Ich habe festgestellt, dass unabhängig davon auch informierte Raucher und Nichtraucher lieber Packungen kaufen (für sich selbst oder andere), die nicht mit Warnhinweise verunstaltet sind, sondern schön gestaltet. Dies spielt zum Beispiel bei Cigarren oder bei Mitbringsel aus dem Urlaub eine große Rolle. Überhaupt sehe ich viele fremdsprachige Warnhinweise in Deutschland, weil sich Konsumenten ihre Ware auch international beschaffen können, wenn sie national nicht mehr bezahlbar sind oder nicht mehr hübsch anzuschauen.

**which option**  
No change

**questions on reporting  
problem definition**

No

**explanations**

Wenn ich Konditor wäre, würde ich ein Genussmittel herstellen, dessen übermäßiger Konsum gesundheitsgefährdend ist. Darauf würde ich vielleicht noch mit einem Warnhinweis hinweisen wollen. Aber auf keinen Fall würde ich das Rezept für meine beliebte Torte veröffentlichen wollen, so dass jede andere Konditorei oder jeder Haushalt die Torte nachbauen kann.

**age**

39

**gender**

female

**questions scope****problem definition**

No

**explanations**

The directive is much too general and does only distinguish between Cigarettes (incl. "Kräutierzigaretten") and Snus. What about Pipe-tobacco and Cigars? I also fail to see how ENDS to fall under "tobacco" - they are well classified as pharmaceutical products. They should not simply be sold. I also agree, that nicotine-sweets need to be judged, but they also are no tobacco. You might want a "nicotine" products directive. I also demand a clear distinction between cigarettes and cigars - esp. as cigars are (usually, except if you put artificial taste stuff in them) 100% natural tobacco products and cannot (!) be compared with a chemical equation of cigarettes.

**which option**

Extend the scope of the Directive

**recommend option**

As said above - you have to distinguish clearly the different tobacco products - you cannot simply say "cigarettes" and with that include loose tobacco (even if for cigarettes), pipe tobacco, cigars, snus. I also fail to see where the right of the individual is stated, to live his/her life with / without tobacco products. As long as tobacco has not been ruled a drug, everyone should be free to consume it as he/she likes.

**additional comments**

Nothing that would add value to this topic, even if I have a distinctive opinion on the interference of the EU into my private and personal decisions.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

I do not see, how your suggestions could improve or support public health. As well: you do not consider that some people do not care. I agree, that the industry needs to provide the list of contents of a cigarette, but that should be on the package of the cigarettes and not be provided to the separate governments where each is treating it differently again. I don't think also, it makes sense to limit the content on nicotine and tar - people who need a higher dose will simply smoke more and with that have a much higher intake of chemical poison. Also: distinguish clearly cigars and cigarettes! Do not make uniform packaging - it does not fit the different products and would only make consumers find alternatives.

**which option**

Improve consumer information

**which improvement**

Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package

**questions on reporting**

**problem definition**

No

**explanations**

As said before, I do not see an additional benefit to only provide a list of ingredients to the separate authorities. Pls. provide that information to the consumer. Also, an independent research office should check that the information provided per product is correct.

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

As said before, if you limit the content of tar and nicotine, strong smokers will be forced to smoke more cigarettes than before (which surely is good for the tax authorities as long as the people do not smuggle) which will lead to a higher intake of chemical ingredients, which I would consider potentially more harmful than the tobacco itself (that is a GUESS - I have never analysed or studied what the differences are in case you smoke a pure tobacco product and a chemical treated product).

**which option**

Introducing the basic criteria on the EU level without a common list

**access to tobacco products**

**problem definition**

**questions scope****problem definition**

No

**explanations**

Es besteht keinerlei Handlungsbedarf, das Genussverhalten der Bürger zu regulieren, ja, Regulierungsbestrebungen der EU empfinde ich als unzulässigen und undemokratischen Versuch diktatorische Maßnahmen zu etablieren, die bei der Ausgestaltung privater Freiheitsrechte der Bürger nichts verloren haben.

**which option**

No change

**recommend option**

Es besteht in Zusammenhang mit Tabakgenuss kein Problem, dessen sich die Eurokraten annehmen sollten.

**additional comments**

Aufhebung aller bisherigen Richtlinien zur Regulierung des Genusses von Tabakerzeugnissen.

**questions smokeless****problem definition**

No

**comments**

Wie bereits gesagt: Die EU soll sich aus der Regulierung des Genuss- und Konsumverhaltens der Menschen gefälligst raushalten. Es geht sie nichts an.

**which option**

No change

**additional option**

Keinerlei weitere Be- oder Einschränkungen im Umgang mit legalen Produkten.

**additional comments**

Rücknahme sämtlicher, geplanter Richtlinien zur Regulierung des Umgangs mit legalen

Produkten

**questions consumer  
problem definition**

No

**explanations**

Ich wiederhole: Ich lehne jede Form der Regulierung des Genussverhaltens der Menschen durch die EUrokratie ab. Es geht die EU nichts an, wie die Menschen leben wollen.

**which option**

No change

**additional option**

Es ist ein Unding, dass dem Hersteller eines LEGALEN Genussmittels durch eine anmaßende Bürokratie Auflagen gemacht werden, die den Vertrieb des Produkts erschweren oder gar verhindern sollen.

**additional comments**

Die selbst ernannten Heilsprediger der EU sollten sich lieber um die wirklichen Probleme Europas kümmern und sich überlegen, wie die kulturelle Vielfalt bewahrt und gefördert werden kann, anstatt in einem völlig inakzeptablen Feldzug gegen Raucher Millionen EURO sinnlos zu verbrennen.

**questions on reporting  
problem definition**

No

**explanations**

Europas Bürger sind mündig genug, selbst zu entscheiden, ob sie rauchen wollen oder nicht. Es bedarf weder schriftlichen, noch bildlichen Warnungen vor den Folgen des eigenen Verhaltens, sowas ist sanitaristische Anmaßung.

**which option**

No change

**additional options**

Es gibt weder Notwendigkeiten, noch das Recht, in einer FREIEN Gesellschaft LEGALE Produkte mit sanitaristischen Auflagen zu attackieren.

**additional comments**

Ich fordere die Rücknahme aller bereits erlassenen Regulierungsmaßnahmen, Bestimmungen oder Vorschriften, die in die Gestaltungsfreiheit der Verpackungen von Tabakprodukten eingreifen.

**regulation of ingredients  
problem definition**

No

**explanations**

Ich lehne jeden Eingriff in die Freiheit des Handels mit einem LEGALEN Produkt wie Tabak durch die EUrokratie entschieden ab.

**which option**

No Change

**additional option**

Es gibt keinerlei Handlungsbedarf

**additional comments**

Nein, und dazu gibt es auch keinerlei Handlungsbedarf

**access to tobacco products**

**problem definition**

No

**explanations**

Es gibt keinen Grund, den Handel mit einem LEGALEN Erzeugnis zu beschränken. Die EU soll sich hier endlich raushalten.

**which option**

No change

**additional option**

Es ist einfach unfassbar, mittels welcher Anmaßung sich die EU-Bürokratie hier in Bereiche einmischt, die sie definitiv NICHTS angehen. Handelsbeschränkungen, die im Grunde letztlich allein auf eine Prohibition zielen sind anachronistische Arbeitsbeschaffungsmaßnahmen für überflüssige Beamte und haben in einem modernen Europa nichts verloren.

**additional comments**

Sämtliche Ideen und Vorschläge zur Beschränkung des Handels mit Tabakerzeugnissen sind umgehend zurückzunehmen. Statt dessen sollte sich die EUrokratie lieber den wirklich brennenden Fragen unserer Zeit widmen.

**access to tobacco products****problem definition**

No

**explanations**

Ich bin Stationsleiter einer Tankstelle. Wenn wie geplant die Tabakwaren unter der Kasse verschwinden sollen, dann ist das erstens bei ca. 200 verschiedenen Produkten nicht möglich und zweitens kann ich meine Station schließen, weil der Krankenstand aufgrund von Rückenproblemen hoch ist, wenn sich die Verkäufer nach jeder Schachtel bücken müssen. Ich bitte dies zu beachten, auch der Gesundheitsschutz der Verkäufer darf nicht außer acht gelassen werden. Ein anderer Punkt sind die extremen Bilder, die dann auf der Schachtel abgebildet sein sollen. Auch wir als Verkäufer schauen uns dann täglich solche Bilder an - ist das den zumutbar?! Den Beruf eines Chirurgen oder Fleischers haben wir nicht gewählt.

Because it destroys the industry. Big and also every little Shop. It restricts everyones free will. Everbody has the right to switch his meaning about a product and taste of this. What can i choose on my own in the future? Tobacco is just the beginning. The next are alcoholics, sports and so on. Who gives them the right to choose what is better for me? Or possibly the EU meanwhile has enough money in order to cover the huge amount on tobacco tax whats break up.

**which option**

No change

**questions scope**  
**problem definition**  
Yes

**which option**  
Extend the scope of the Directive

**recommend option**  
Remove herbal cigarettes (if they do not contain nicotine) from scope and consider the nicotine delivery products only, i.e include ENDS and smokeless tobacco products.

**questions smokeless**  
**problem definition**  
Yes

**which option**  
Lifting the ban on snus

**questions consumer**  
**problem definition**  
No

**explanations**  
The diversity of approaches and regulations in different member states shows a diverse understanding of the current Directive. I believe that first all member states should have a similar approach, and evaluate the consequences of this approach. Then, it may be decided to strengthen the measures already implemented with uniformity, across the EU. Currently we do not seem to have sufficient evidence that putting pictures on the packs reduces smoking. The amount of information given to the smokers in the past years made them fully aware of the risks. The ones who pick up smoking now are aware of the risks, the ones who do not quit are aware of the risks, so why enhance it? I rather suggest ensuring that for example all countries have the same regulations in terms of picture warnings. I sometimes travel within Europe and I did not see the picture warnings in many countries.

**which option**  
No change

**additional option**  
Ensure that current directive are implemented uniformly in all EU countries, evaluate impact, that evaluate options.

**questions on reporting**  
**problem definition**  
Yes

**which option**  
Establish a common compulsory reporting format

**additional comments**  
I believe that the purpose of a EU directive is to standardise a process and streamline it.

Having different regulations in different countries increases the level of complexity for the national authorities and reduces the possibility to learn/implement best practices. Having one EU authority reduces this complexity and helps each country having faster access to reliable information and reducing unstandardized bureaucratic activities.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

Neither bigger warnings nor picture warnings or plain packs are required in case of cigars. Cigar smokers are adults, enjoying a cigar on an occasional basis.

**which option**

No change

**questions on reporting**

**problem definition**

No

**explanations**

Eu member states can already introduce fees and sanctions

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

The focus of ingredients testing should be on whether the ingredients result in increased toxicity of tobacco smoke

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

A display ban would effectively mean the end of most small (cigar) brands

**which option**

No change

Keine Veränderungen!

**questions consumer**

**problem definition**

No

**explanations**

Keine Veränderungen!

**which option**

No change

**additional option**

Der Industrie und dem Fachhandel wird durch Einheitspackungen geschadet, so dass ich die Gefährdung vieler Arbeitsplätze sehe.

**additional comments**

Jeder EU-Staat soll selbst entscheiden ob und welche bildlichen Warnhinweise es gibt.

**questions on reporting****problem definition**

No

**explanations**

Keine Veränderungen!

**which option**

No change

**additional options**

Verlust vieler Arbeitsplätze, da kleine Hersteller nicht "mithalten" können.

**additional comments**

Kleine Anbieter würden vom Markt verschwinden.

**regulation of ingredients****problem definition**

No

**explanations**

Keine Veränderungen!

**which option**

No Change

**additional option**

Über die Zusatzstoffe sollte jeder EU-Staat selbst entscheiden können.

**additional comments**

Keine Geschmacksunterschiede bedeutet Einheitsgeschmack.

**access to tobacco products****problem definition**

No

**explanations**

Keine Veränderungen!

**which option**

No change

**additional option**

Die EU sollte nicht für die Bürger entscheiden dürfen, sondern jeder erwachsene Bürger sollte selbst für sich entscheiden können.

**additional comments**

Ich sehe meinen Arbeitsplatz - und den vieler anderer auch - akut gefährdet durch die geplanten Änderungen der EU!!!

People should be free to make their own personal judgement, what they want to do. Smoke or not smoke is my personal freedom.

**questions smokeless**

**problem definition**

No

**comments**

I am a smoker for 45 years, and a very healthy person. So smoking cannot be the only problem to peoples health.

**which option**

No change

**additional option**

Protect the young. And give rational information. And don`t organise a "witch-hunt"!

**questions consumer****problem definition**

No

**explanations**

Information is not really objectiv.

**which option**

Improve consumer information

**which improvement**

Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package

**questions on reporting****problem definition**

Yes

**which option**

No change

**regulation of ingredients****problem definition**

Yes

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

No change

**additional comments**

Leave things as they are now. You have introduced enough limitations alreday (smoking bans in Restaurants and public buildings. Otherwise you will have to ban alcohol as well.

**additional comments**

Ellentmondásos a tervezet, mert tiltásokat fogalmaz meg bizonyos termékkörökre, anélkül, hogy erre vonatkozó részletekkel szolgálna.

**questions smokeless****problem definition**

Yes

**which option**

Lifting the ban on snus

**additional comments**

Az EU-nak ezen kérdéskör szabályozásában több teret kellene engednie a tagállamoknak. A füstmentes dohánytermékeket a tiltás helyett inkább reklámozni kellene.

**questions consumer****problem definition**

No

**explanations**

Az egészségvédő feliratok méretének növelése nem lesz arányban az elérni kívánt céllal. Az egyencsomagolás pedig utat nyit a feketekereskedelem növekedésének.

**which option**

No change

**questions on reporting  
problem definition**

No

**explanations**

Ez már megoldott kérdéskör, és a jelenlegi szabályozás elég konkrét direktívákat határoz meg. A dohánytermékek fogyasztóit, nem a csomagolás milyensége fogja befolyásolni az általuk fogyasztani kívánt termék megvásárlásában.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

A tiltó jellegű szabályozásnak tudományos alapokra kell támaszkodnia nem pedig szubjektív, megfoghatatlan értékelésen. Jelenleg Magyarországon közel 10,000 ember foglalkoztatottságát, egzisztenciáját, megélhetését veszélyeztetné ez az átgondolatlan tiltó szabályozás.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

A túlzott szabályozás egyenes út a feketekereskedelem növekedéséhez - a legális értékesítés csökkentése miatt kelet-európai országokból becsempészett, ellenőrizetlen összetételű dohánytermékek fogják ellepni az Európai Unió tagállamainak fekete piacát.

Die Regulierungswut Eoropäischer Politiker ist unvorstellbar. Europäische Abgeordnete haben Jahrzehnte Kommunistische Regime verurteilt. Als EU-Bürger hat man nun das Gefühl unter den Deckmatel der Demokratie wollen EU Politiker insbesondere aus kleinen Ländern ähnliche Systeme schaffen. Die Bevormundung der EU-Bürger durch die EU Kommissare / EU Parlament geht einfach zu weit. Unter diesen Vorraussetzungen verliert man als Bürger die Lust an der EU. Regulierungen aus den Staatsparlamenten sind mehr als ausreichend.

Judith Theresa Kayenburg

**email**

judith\_kayenburg@web.de

**country**

Germany

**age**

23

**gender**

female

**questions scope**

**problem definition**

No

**explanations**

Scope of directive is absolutely legitimate, but I insist to commission a neutral society to research and to public scientific ratings in reference to the differing product groups for which the extension of the directive is planned. Furthermore every kind of regulation of tobacco products has to be justified by scientific results. This implies possible regulations or prohibitions for all products that comprise nicotine but no tabac.

**which option**

No change

**additional comments**

Cigarettes and other tobacco products are (until now) legal products. Therefore I totally refuse the strict directive. In my opinion Europe is about to overregulate every citizen's lives. I insist that people should take responsibility for their actions and decision. I am sure that 98% of the European population know about the dangers of smoking and about diseases they might suffer from when they smoke. Nevertheless I address the court as a public prosecutor to keep the freedom of choice which is one of the most important civil rights we all want to defend. By the way: I don't smoke...

**questions smokeless  
problem definition**

No

**comments**

The consumption of smokeless tobacco products (of course only the consumption of well informed adults) does not endanger the health of other people and it does not restrict other people in their standard of living. The consumption is in everybody's self-responsibility. Marketing and sales must be possible.

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

There are no indications that a bigger warning hint is more efficient than a small one. People generally know that smoking is risky. Additional pictures do not help. On the contrary they are disgusting, but they don't give any satisfactory explanation. In addition people blurt more and more.

**which option**

No change

**additional comments**

Marketing is a lawful instrument of communication and entrepreneurial operation. Companies should keep the chance to communicate their visions and ideas via design, logo and colours.

**questions on reporting  
problem definition**

No

**explanations**

No comment

**which option**

No change

**additional comments**

Information is important, therefore I support the idea of a reporting format.

**regulation of ingredients  
problem definition**

No

**explanations**

There is no solution for the destruction of competition due to a one-sided regulation of

products with additional ingredients. Furthermore this debate is not really scientific but ideologic. Hints that regulations or prohibitions could disturb an important element of sales strategies does not facilitate the health-political discussion.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

Vending machines have already strong conditions and a good software to control the age of its users. There is no reason for forbidding vending machines as long as they are not free accessible to youths and children. This whole problem definition curtails the member states' individual freedom of legislation.

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional comments**

I think it is important to control the access to tobacco products. Nevertheless it is even more important to control import and export of tobacco products. The smuggling is a much bigger problem than the age verification difficulties. Not only the bad ingredients in cheap tobacco products but also the economic damage for Europe is a problem that not everybody is aware of. I suppose to increase sanctions and punishments for smuggling considerably.

Cigaretten, oder Gesamt-Tabakwaren, sind legale Produkte. Ein derartige Diskrimminierung, Be- u. Einschränkung, von legalen Produkten kann in einem Rechtsstaat oder Staatenbund nicht statthaft sein, widerspricht sogar den Grundprinzipien.

#### **which option**

No change

#### **recommend option**

Alle Politiker(innen), die hier so dermaßen falsch die angedachten Maßnahmen der EU-Kommission verfolgen, hätten zum Beispiel nach der Geburt abgetrieben werden können. So wäre auch der gesamte volkswirtschaftliche Schaden geringer. Als EU-Bürger darf man sich schon sehr wundern, was "so" mit seinem Geld passiert - und vor allem, in welche Aktivitäten es investiert wird.

No

**explanations**

The EC seem to be focusing on one problem area. There are many difficulties within the EC.. religious toleranz.. different regulation in other countries.. What about alcohol??.. non allowed drug addiction?? There are a thousand problems that should be addressed.. but NO just lets focus on this industry.

**which option**

No change

**additional comments**

If other industries were targeted as much as the tabak industry... WE the people should also have the right to decide what we want to do... Save money by halving the expenditure of the European parliament and all the civil service.

**name**

Miriam Kitte

**email**

miri.kitte@gmx.de

**country**

Germany

**age**

37

**gender**

female

**questions scope****problem definition**

No

**explanations**

I don't think there is a need to extend the scope of the Directive. The EU should rely on the responsibility of the individuals and their free choice instead of regulating more and more products/services/issues.

**which option**

No change

**questions smokeless**

**problem definition**

Yes

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

I believe that there is no difference between advertising of tobacco products and advertising of other consumer goods. Tobacco products packaging is not more and more used for advertising reasons than any other products packaging. If the EU wanted to regulate all products with a negative health impact there is much more to regulate (alc, grease, sugar, computer games etc.)!

**which option**

No change

**additional option**

Health campaigns for people under the age of 18 which address the risks of nicotine, alcohol, drugs, excessive use of medical drugs etc. could be a useful tool to inform about related health risks. Similar campaigns aiming at people addicted and offering help to get away from excessive use can also help. In the end it's the free choice of the individual what he/she chooses to enjoy life - even with some health risks involved. We do not want to live in an overregulated country/EU where the states will take our responsibility and decide on our behalf what we are allowed to do and what not.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**additional options**

It is essential that a common reporting format is defined which applies for all member states. There need to be clear definitions and a consistent reporting system. Otherwise there is no consistency in the way countries report on their ingredients and data cannot be compared.

**regulation of ingredients****problem definition**

Yes

**which option**

Introducing the basic criteria on the EU level without a common list

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**which option**  
Lifting the ban on snus

**questions consumer**  
**problem definition**  
No

**explanations**  
Neither bigger warnings nor picture warnings or plain packs are required in case of cigars. Cigar smokers are adults, they enjoy their cigar on an occasional basis.

**which option**  
No change

**questions on reporting**  
**problem definition**  
No

**explanations**  
EU member states can already introduce fees and sanctions.

**which option**  
Establish a common compulsory reporting format

**regulation of ingredients**  
**problem definition**  
No

**explanations**  
The focus of ingredients should be on whether the ingredients result in increased toxicity of tobacco smoke.

**which option**

No Change

**access to tobacco products**

**problem definition**

No

**explanations**

A display ban would effectively mean the end of most small (cigar) brands. These small cigar brands exist because of their quality.

**questions scope****problem definition**

No

**explanations**

I do not think it is a problem. Give more information to people and let them choose.

**which option**

No change

**recommend option**

The governments should give the right to the people to choose if they want to smoke and if

they smoke give them a chance to choose a product which they like. The current warnings on the packs clearly indicate the potential risks and therefore the consumers have the information they require.

**additional comments**

If this is done on cigarettes then it should also be applied to all the food available in the supermarkets.

**questions smokeless**

**problem definition**

No

**which option**

No change

**questions consumer**

**problem definition**

No

**explanations**

Information is never enough. The pictures currently on the packs are disgusting people which are not smoking but smokers themselves do not care. More information should be available on what smoking could cause to their health - written - maybe inside in the pack

**which option**

Improve consumer information

**which improvement**

Information on harmful substances in tobacco products that cannot be placed on the package would be placed inside the package

**questions on reporting**

**problem definition**

No

**explanations**

the ingredients make the taste.

**which option**

No change

**regulation of ingredients**

**problem definition**

No

**explanations**

ingredients are already subject to regulation as far as I know. You should better concentrate on food additives and real problems rather than this.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

**questions scope**

**problem definition**

Yes

**which option**

No change

**questions smokeless  
problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients  
problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope**

**problem definition**

Yes

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions smokeless****problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;

Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope****problem definition**

Yes

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope****problem definition**

Yes

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis

of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients  
problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;

Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;

Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope****problem definition**

Yes

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free

market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope**

**problem definition**

Yes

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer**

**problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the

profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions smokeless****problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**questions scope**

**problem definition**

Yes

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope**  
**problem definition**  
Yes

**which option**  
No change

**questions smokeless**  
**problem definition**  
No

**comments**  
No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**  
Lifting the ban on snus

**questions consumer**  
**problem definition**  
No

**explanations**  
No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**  
No change

**additional comments**  
The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**  
**problem definition**  
Yes

**which option**  
Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

male

**questions scope**

**problem definition**

Yes

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;

Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**which option**

No change

**questions smokeless**

**problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope****problem definition**

Yes

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting**

**problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;

**questions scope****problem definition**

Yes

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients**

**problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products**

**problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope****problem definition**

Yes

**which option**

No change

**questions smokeless  
problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer  
problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting  
problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients  
problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;

Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business. Also increasing of illegal products sale (counterfeited and smuggled).

**questions scope****problem definition**

Yes

**which option**

No change

**questions smokeless****problem definition**

No

**comments**

No scientific evidence concerning the risks related to smokeless tobacco products consumption.

**which option**

Lifting the ban on snus

**questions consumer****problem definition**

No

**explanations**

No scientific evidence proving that bigger warnings determine a better knowledge of the suggested messages; no scientific evidence on the relation between the use of a particular graphic and the impact on consumers.

**which option**

No change

**additional comments**

The knowledge of how harmful tobacco would be is already of a high level, also on the basis of the existing warnings; no value added by the increase of information; negative impact on the fulfilments of sector's operators and of tobacco retailers; full aversion to plain packaging because of the confusion on manufacturers identification brands, with a consequent proliferation of illegal trade of counterfeited as well as smuggled products.

**questions on reporting****problem definition**

Yes

**which option**

Establish a common compulsory reporting format

**regulation of ingredients****problem definition**

No

**explanations**

It is not possible to prove in advance which is the possible impact of an ingredient in terms of toxicity; targeting lists in advance, positively or negatively, would be in contrast with this statement; risk of product standardisation with a consequent reduction of the principle of free market and the risk of increase of counterfeited products.

**which option**

No Change

**access to tobacco products****problem definition**

Yes

**which option**

Controlled supply and access

**which supply and access**

Age verification of buyers and other legal conditions to be set for cross-border retail sale;  
Access to vending machines to be restricted to adults

**additional option**

Sale to be carried out only within a network of specialized shops, provided with an appropriate license, which main activity is tobacco sale.

**additional comments**

There is no evidence of the correlation between display ban and consumption bent. In other experiences – see Canada – important loss have been recorded for the tobacco retailers: structural reorganization of the shop, higher management costs and important reduction of the profitability with the consequent risk of giving up the business.
