Subject Comments of the German Pharmaceutical Industry Association on the EC Concept Paper on the implementing act on the requirements for the assessment of the regulatory framework applicable to the manufacturing of active substances of medicinal products for human use

Date 23.03.2012

Dear Sirs,

To whom it may concern

The German Pharmaceutical Industry Association (BPI) is a both nationally and internationally acting industry association representing the interests of 280 pharmaceutical companies.

BPI is grateful for the opportunity to comment on the EC Concept Paper on the implementing act on the requirements for the assessment of the regulatory framework applicable to the manufacturing of active substances of medicinal products for human use

Please find our comments in the attached table.

Kind regards

Thomas Brückner
Head of Pharmaceutical Affairs/ CAM
