Regional Committee for Europe

66th session

Copenhagen, Denmark, 12–15 September 2016

Provisional agenda item 5(j)

1. **Strengthening health information systems**, harmonizing health indicators and establishing an integrated health information system for the European Region;
2. **Establishing and promoting health research systems** to support the setting of public health priorities;
3. **Increasing country capacities** for the development of evidence-informed policies (**knowledge translation**);
4. **Mainstreaming the use of evidence, information and research** in the implementation of Health 2020 and other major regional policy frameworks.

Adopted by 53
Member States
through **resolution**

Concrete actions for
Member States and
WHO

European Health Information Initiative

Measurement

Access

Capacity Building

Networks

Strategy

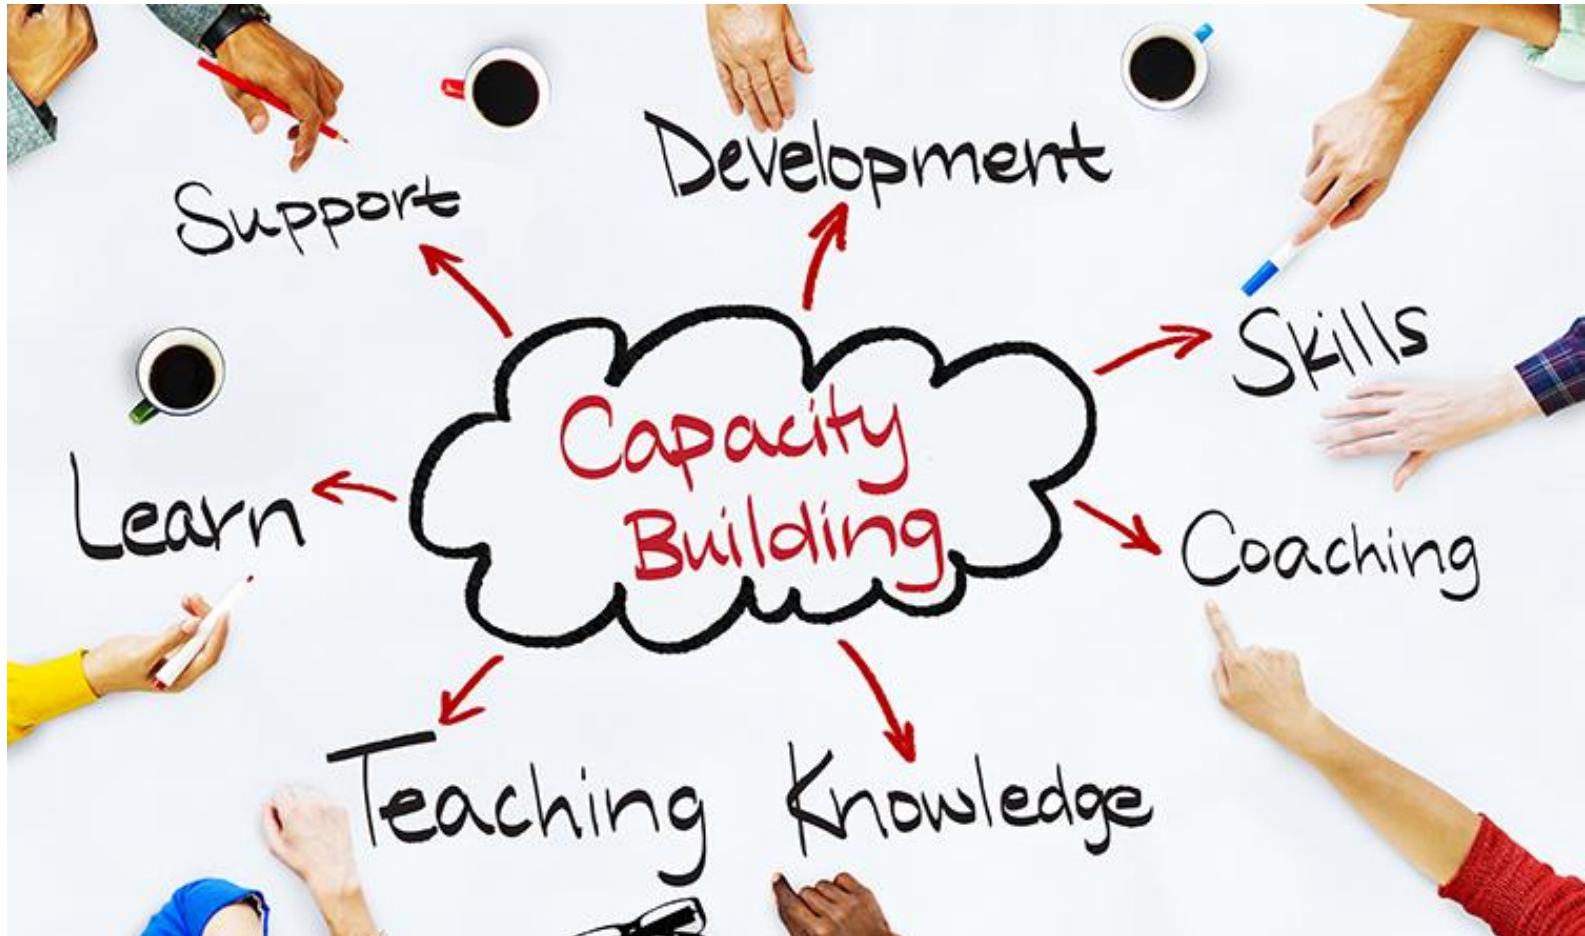

Communication

EHI's concrete results include

- Developing the web-based European Health Information Gateway;
- Organizing the annual Autumn School on Health Information and Evidence for Policy-making since 2013;
- Launching the Evidence-informed Policy Network (EVIPNet) Europe;
- Relaunching the Central Asian Republics Health Information Network (CARINFONET); and
- Developing a tool to support assessments of health information systems and to develop and strengthen health information strategies

InfAct: Capacity building

Aim

To provide capacity building activities which will bring all member states to the same level of knowledge on health information

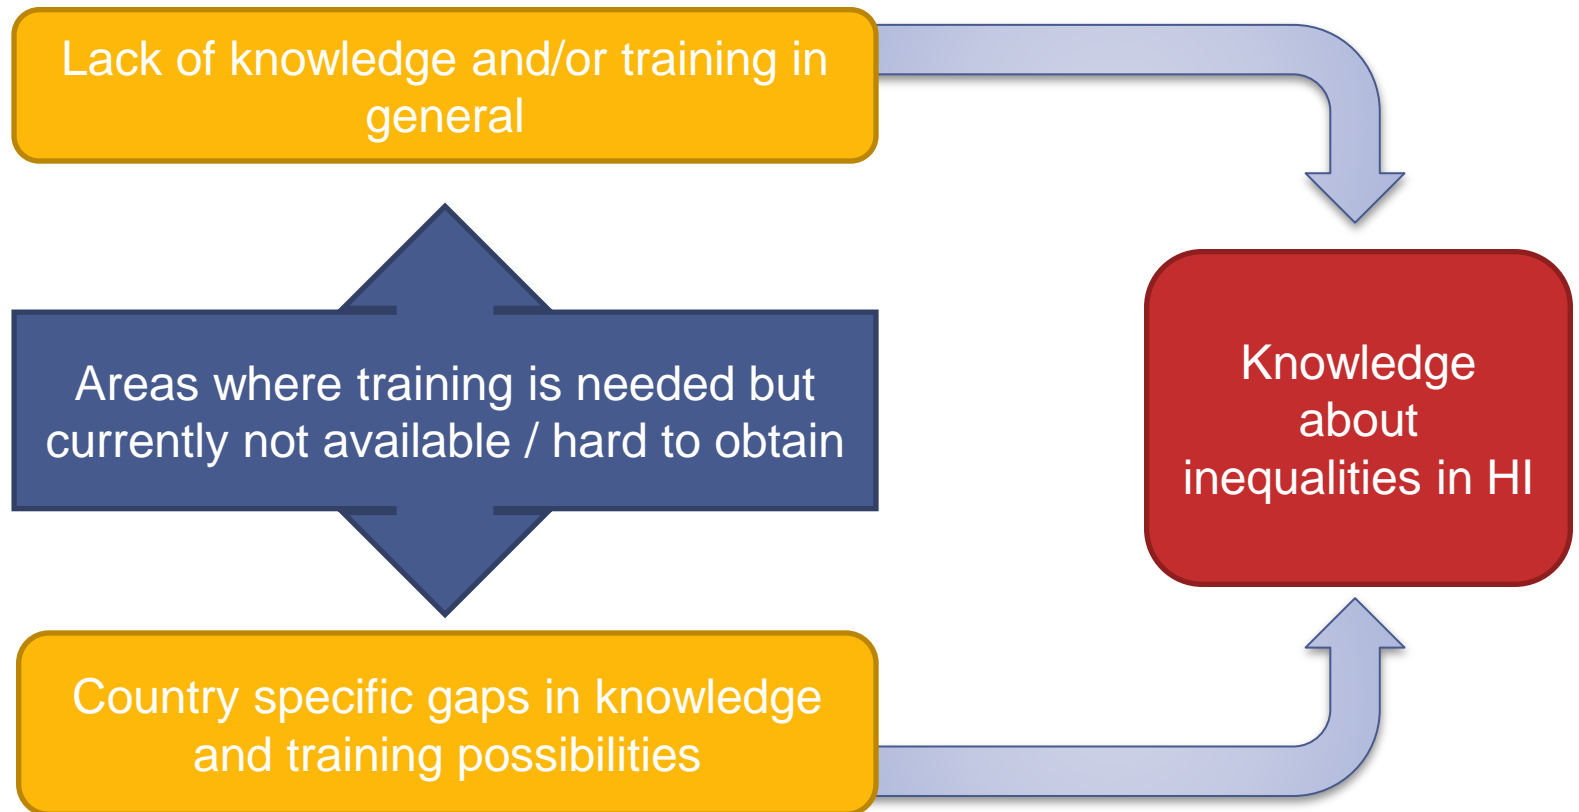

Knowledge and needs for capacity building in the member states

Inventory of the existing training programmes

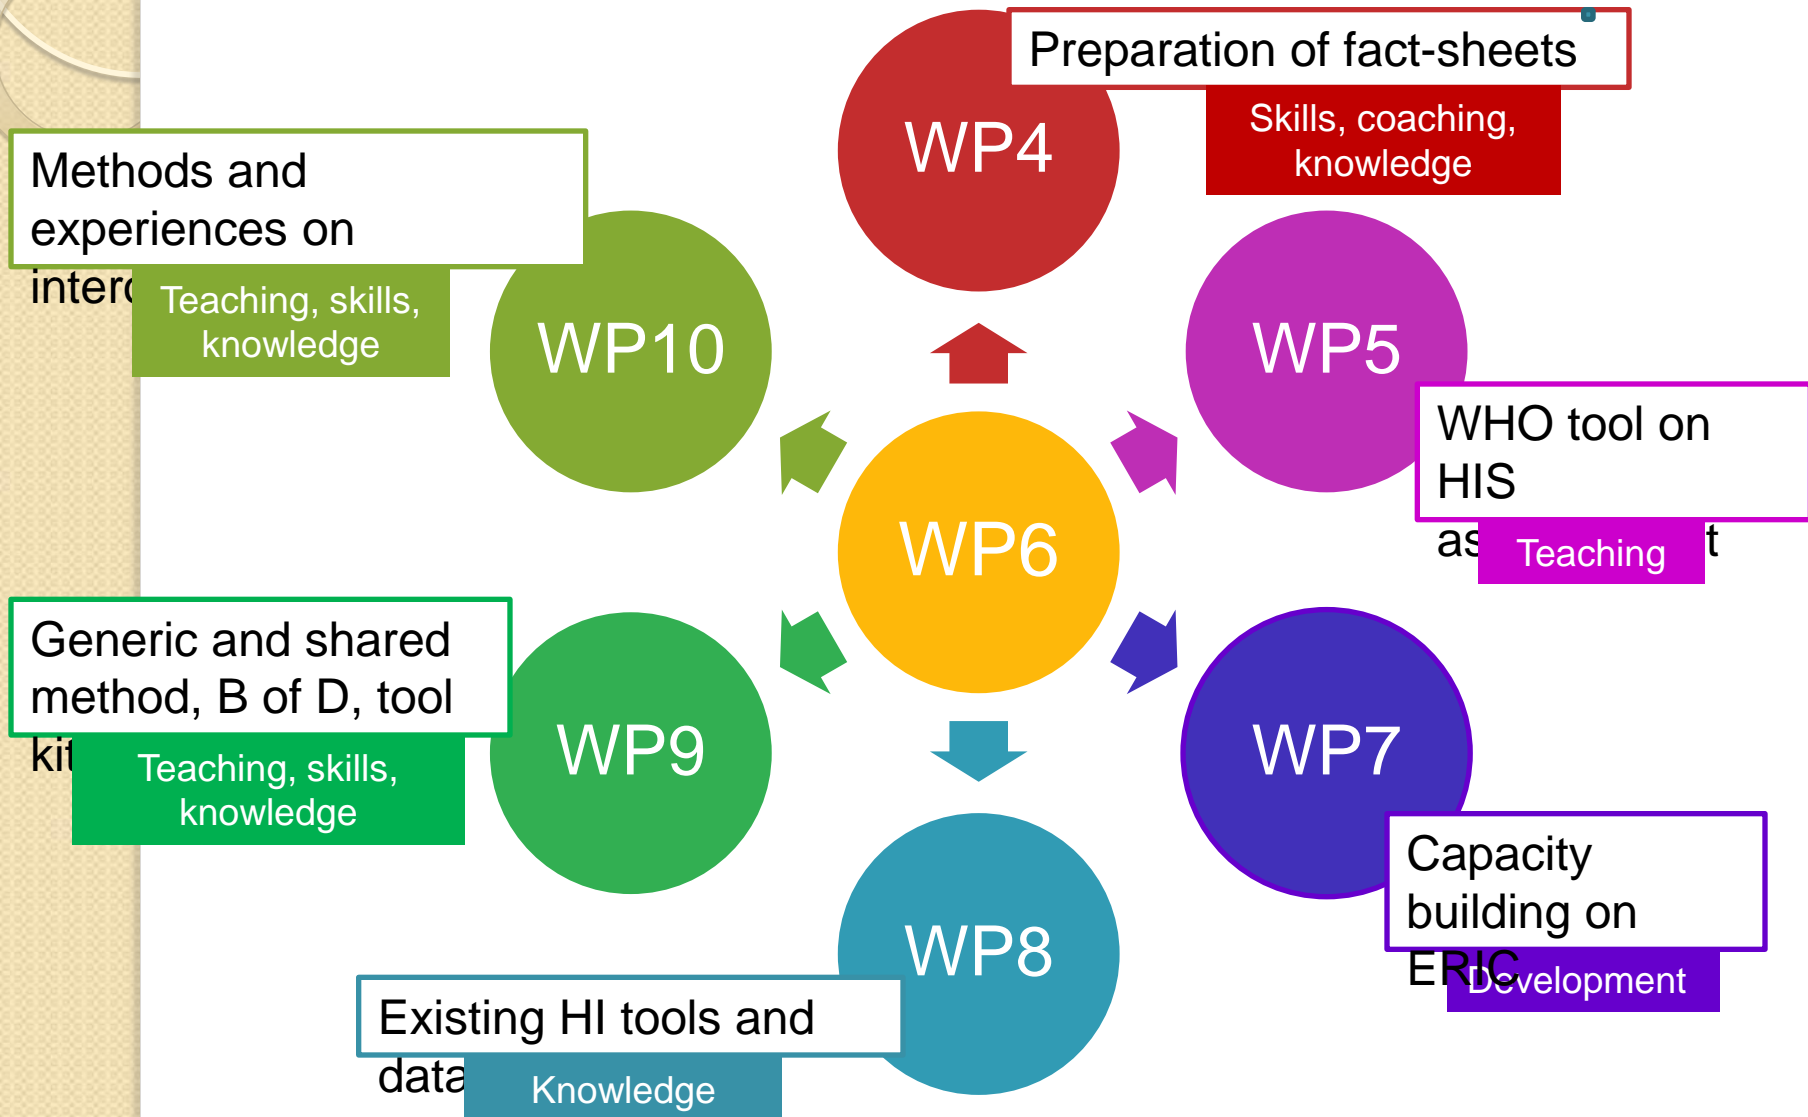

Inventory of the training needs

Areas where training is needed but currently not available / hard to obtain

Inequalities in knowledge

Interaction with other InfAct WPs

Training programme

- One stop portal for available capacity building on HI in EU.
- Training / knowledge sharing sessions in collaboration with other WPs
 - e-learning sessions/webinars
 - written material on web
 - face-to-face sessions
- In collaboration with WHO, OECD, ECDC, European Observatory, ASPHER, etc.
- Final contents of training defined after needs are known.
