

# Expert Panel on Effective Ways of Investing in Health (EXPH)

*“Six years of the Panel:  
Looking back at the future”*

Prof. em. Jan De Maeseneer, MD, PhD

Ghent University (Belgium)

Chair of the Panel

## Expert Panel on Investing in Health

Provides independent non-binding advice on effective ways of investing in health. Established by Commission Decision 2012/C 198/06 following the Council conclusions of June 2011 'Towards modern, responsive and sustainable health systems'; renewed in 2017

**The views in this presentation are those of the independent scientists who are members of the Expert Panel and do not necessarily reflect the opinion of the European Commission nor its services.**

## Expert Panel on Effective Ways of Investing in Health

## EXPERT PANEL MEMBERS (2013-2019)

Mr Christian Anastasy (since 2016)

Prof Margaret Barry

Prof Helmut Brand (until 2016)

Dr Aleš Bourek (since 2016)

Prof Werner Brouwer

Prof Jan De Maeseneer

Prof Bengt Goran Jonsson (until 2016)

Dr Dionne Kringos - Pereira Martins (since 2016)

Prof Fernando Lamata (until 2016)

Prof Lasse Lehtonen

Dr Dorjan Marusic (until 2016)

Prof Martin McKee

Assoc. Prof Liubove Murauskiene (since 2016)

Prof Pedro Pita Barros

Prof Sabina Nuti (since 2016)

Prof Walter Ricciardi

Prof Luigi Siciliani (since 2016)

Dr Sarah Thomson (until 2016)

Priv. Doz. Claudia Wild (since 2016)

## Looking back

- A very diverse committed Expert Panel.
- An interdisciplinary team of experts, learned to explore the richness of trans-disciplinarity and became a group of friends.
- Commitment to fundamental values: solidarity, equity, person- and people centeredness, quality, sustainability, respect for human rights.
- Increasing reciprocity in the cooperation with DG SANTE.
- Interaction with EC (DG SANTE and others), MEP, Member States, Regions, Academics, a variety of stakeholders, including patients.

## Looking at the Future...

- How can the Panel contribute to strengthen the EU and contribute to a “social Europe” (European Pillar of Social Rights)? How to integrate broader global aims e.g. SDGs?
- What is an acceptable and effective mix of “(Policy) Evidence” and “Opinion”?
- How to address organisational and operational aspects of ‘Health Care’ in the actual legislative framework ?
- What is an appropriate mix of ‘operational recommendations’ and ‘strategic advice’.
- A brainstorming Exercise by the Panel: ‘Panel’s Reflection on priorities for the future of Health Care in EU\_April 2019’

## Panel's Reflections (1)

1. Accountability for realizing the EU dream for improvement of citizens' health. Let citizens dream about the health system in EU, let us create world-class centers for health care focusing on benefits for citizens.
2. Creation of learning communities to bring together the best expertise, experiences and practices in EU.

## Panel's Reflections (2)

### 3. Strengthening EU protection for health care

*a. **Strengthen financial protection** from health care spending. Provide protection through a (collective at EU-level) mechanism of re-insurance of resources for health care in MS, in order to avoid that national economic or/and financial crises decrease access to health care for the citizens living in a certain MS.*

*b. **Reduce health inequities.** Reduction of unjustified health inequalities is a ubiquitous policy objective but progress remains slow. Equity considerations need to be included more systematically in the design of policy interventions and in the financing of health systems.*

## Panel's Reflections (3)

4. Investing in real health promotion and prevention.
5. Addressing the health effects of migration through capacity building for health care in Africa.
6. Development of new models of care in an affordable way.

## The Panel needs input

- DG SANTE, DG ECFIN, ....
- All stakeholders
- Other international agencies: WHO, OECD, ....

• **FROM YOU...**

## A word of THANKS

➤ *To DG SANTE*

➤ *To the Panel-members for the wonderful journey together!*
