

# Health MDGs V SDGs

Three out of Eight specifically on health

One out of seventeen specifically on health

BUT.....

Save the Children

# Health SDG

- 3.1** By 2030, reduce the global maternal mortality ratio to less than 70 per 100,000 live births
- 3.2** By 2030, end preventable deaths of newborns and children under 5 years of age, with all countries aiming to reduce neonatal mortality to at least as low as 12 per 1,000 live births and under-5 mortality to at least as low as 25 per 1,000 live births
- 3.3** By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, water-borne diseases and other communicable diseases
- 3.4** By 2030, reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being
- 3.5** Strengthen the prevention and treatment of substance abuse, including narcotic drug abuse and harmful use of alcohol
- 3.6** By 2020, halve the number of global deaths and injuries from road traffic accidents
- 3.7** By 2030, ensure universal access to sexual and reproductive health-care services, including for family planning, information and education, and the integration of reproductive health into national strategies and programmes
- 3.8** Achieve universal health coverage, including financial risk protection, access to quality essential health-care services and access to safe, effective, quality and affordable essential medicines and vaccines for all
- 3.9** By 2030, substantially reduce the number of deaths and illnesses from hazardous chemicals and air, water and soil pollution and contamination
- 3.a** Strengthen the implementation of the World Health Organization Framework Convention on Tobacco Control in all countries, as appropriate
- 3.b** Support the research and development of vaccines and medicines for the communicable and non-communicable diseases that primarily affect developing countries, provide access to affordable essential medicines and vaccines, in accordance with the Doha Declaration on the TRIPS Agreement and Public Health, which affirms the right of developing countries to use to the full the provisions in the Agreement on Trade-Related Aspects of Intellectual Property Rights regarding flexibilities to protect public health, and, in particular, provide access to medicines for all
- 3.c** Substantially increase health financing and the recruitment, development, training and retention of the health workforce in developing countries, especially in least developed countries and small island developing States
- 3.d** Strengthen the capacity of all countries, in particular developing countries, for early warning, risk reduction and management of national and global health risks

# Health MDGs – in the SDGs & pushed further

Retained – and target is a “zero” one by 2030

Retained – but in two goals now  
5B on access to SRHR services found in two goals –  
health & gender equality

Retained – and target is a “zero” one by 2030

# The Health SDG – Health not just less ill-health

# SDG agenda: its interconnections and universality

Health in SDGs is served by greater emphasis on progress on combatting inequality & socio-economic determinants of health

Leave no-one behind:  
Here in EU  
or in our  
partners

Each of the 17 goals have domestic EU dimension too

# Indicators selected Key

1. Data disaggregation
2. Include a breastfeeding indicator
3. Include an indicator on stillbirths rate
4. Linkages across targets & indicators Include more perception-based indicators
5. Ensure the inclusion of appropriate indicators for Universal Health Coverage and health systems strengthening.
6. Include an indicator on perceptions of public services
