EUROPE'S BEATING CANCER PLAN

LET'S STRIVE FOR MORE

Political Guidelines for the next Commission 2019-2024

*“Survival rates are on the up, especially thanks to early detection and screening programmes. But there is a lot more we can do. I will put forward a **European plan to fight cancer**, to support Member States in improving cancer control and care.”*

Ursula von der Leyen, President European Commission

Public consultation

- 4th February European Parliament launch event for public consultation
- Followed by:
 - Consultations with Member States
 - Citizens dialogues
 - Targeted stakeholder consultations

Questions for discussion

- What are the main challenges in cancer prevention and care in your country?
- Which actions would you consider particularly meaningful in addressing cancer and where do you see scope for cooperation with other Member States?
- Would you have any suggestions on how to increase impact of EU support to address cancer?
