You are invited to provide a short description of a proposed action with an EU added value that aims to promote good mental health, prevent and detect early mental health problems, tackle psychosocial risks at work, improve access to innovative treatment and care of mental health problems and/or improve the quality of life of patients and their families. Please include a concrete implementation plan highlighting what your organisation can do to put this idea into practice.

If you interested, please use the 'poster' template provided on the page following the agenda below.

The posters will be shared with the participants of the online event and will be placed on the Health Policy Platform. During the event you will have the opportunity to discuss your ideas with other stakeholders.
