

Meeting of the Commission’s advisory panel on COVID-19 - agenda

Sunday 22/03/2020 at 18:00

Points for discussion (leading to possible EU recommendations)

1. Criteria for lifting measures

What criteria should we define to lift measures? Discussion on the basis of ECDC note.

What recommendations to follow lifting of measures (surveillance, testing, when to reintroduce measures, etc.)?

2. Research and development

What are the most promising developments on diagnostics, therapeutics and vaccines?

How can the EU support these efforts?

3. Any other business

Comments on EU draft recommendations on healthcare systems resilience
