**IVDR Dates of Application**

26 May 2022: All devices, except those covered by the transition period, must comply with the IVDR (e.g. class A non-sterile devices, new devices, devices with a significant change).

End of transition period for class D devices and for devices with a certificate issued by a notified body under the IVDD (e.g. devices for self-testing) on 26 May 2025.

End of transition period for class C devices on 26 May 2026.

End of transition period for class B devices and class A sterile devices on 26 May 2027.

**Conditions to be fulfilled to benefit from extended transition period**

- Devices continue to comply with previously applicable EU legislation (IVDD)
- No significant changes in design or intended purpose
- Notified body certificate or declaration of conformity drawn up before 26 May 2022
