PUBLIC CALL FOR EXPRESSIONS OF INTEREST
as Commission appointees
to the Committee for Orphan Medicinal Products
to represent patient organisations (COMP/23/P)

This European Commission call for expressions of interest relates to the appointment by the Commission of members representing patients’ organisations to the Committee for Orphan Medicinal Products of the European Medicines Agency (EMA).

Background

Regulation (EC) No 141/2000 of the European Parliament and of the Council on orphan medicinal products¹ ("the Regulation") lays down specific rules concerning the criteria and procedure for the designation of an orphan medicinal product. Central to the operation of this Regulation is the Committee for Orphan Medicinal Products (COMP) established as part of the EMA.

According to Article 4(3) of the Regulation the COMP shall include "three members nominated by the Commission to represent patients’ organisations". These members shall be appointed for a term of three years, which shall be renewable.

The mandate of the appointed members will run from 1 July 2024 to 30 June 2027. Current members may reapply.

Composition and role of the COMP

The COMP is composed of one member nominated by each Member State, three members nominated by the Commission to represent patients’ organisations and three members nominated by the Commission on the basis of a recommendation from the EMA.

The main task of the COMP is to examine applications for the designation of a medicinal product as an orphan medicinal product which is submitted to it in accordance with the Regulation on Orphan Medicinal Products.

Other tasks of the COMP are:

¹ OJ L 18, 22.1.2000
- to advise the Commission on the establishment and development of a policy on orphan medicinal products for the EU;

- to assist the Commission in liaising internationally on matters relating to orphan medicinal products, and in liaising with patient support groups;

- to assist the Commission in drawing up detailed guidelines.

What is the specific role of patient organisation representatives in the Committee?

Patient organisation representative: The main task is patient advocacy so to ensure that patients’ needs as a whole are taken into account in the deliberations of the Committee. The candidate should be a member of a patient organisation. Although a medical background is not a requirement, a broad knowledge of medical and to a certain extent regulatory issues related to the research, approval and use of medicines is recommended and will be needed to effectively contribute to the scientific discussions of the Committee.

Workload and allowances

Appointees will be expected to attend the meetings of the COMP which meets once a month at the EMA premises.²

The members should be prepared to actively contribute to scientific discussions, to examine documents and to make comments having a specific focus on the target group they represent (patients). They should respect the procedural and legal timelines provided by the Regulation on Orphan Medicinal Products.

Applicants should take into account that meetings in general involve preparatory work. They should also be willing to work with electronic methods for the management and exchange of documents. The working documents are in English and the meetings are also conducted in English. The very good command of English is therefore essential.

Travel, accommodation and subsistence costs for members of the COMP will be met by the EMA according to its reimbursement rules³.

Independence – Conflict of interest

Members of COMP shall not have financial or other interests in the pharmaceutical industry and in the medical devices industry which could affect their impartiality. They shall undertake to act in the public interest and in an independent manner and shall make an annual declaration of their financial and other interests and as soon as their interests change.
